[MPR 188, Order 4270]

GENERAL DIE AND STAMPING CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Section 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by General Die and Stamping Company, of 262 Mott Street, New York 12, N. Y.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Maximum Prices for sales by any seller to—			
	Jobber	Retailer, 3 units or more	Retailer, less than 3 units	Consumer
Hand-Q-Heater device	$19.75	$23.70	$25.67	$39.50

These prices include the Federal excise tax.

These maximum prices are for the articles described in the manufacturer's application dated June 15, 1945.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. These prices are f. o. b factory and subject to a cash discount of 2% for payment within 10 days, net 30 days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

OPA Retail Ceiling Price—$39.50
Do Not Remove or Obliterate

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the seller shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 18th day of August 1945.

Issued this 17th day of August 1945.

CHESTER BOWLES,
Administrator.

[RMPR 129, Order 14]

CERTAIN CONVERTED PAPER PRODUCTS AND CERTAIN INDUSTRIAL PAPERS

AUTHORIZATION OF ADJUSTABLE PRICING

Revised Supplementary Order 114, effective August 7, 1945, granted adjustable pricing authority to producers, converters and jobbers of certain cotton textiles pending a study of the current maximum prices of these items. In the event an increase in the price of two of these items, namely osnaburg and sheeting, is granted, manufacturers of gummed cloth tape under Revised Maximum Price Regulation 129 will be affected. Consequently, the Office of Price Administration is conducting a cost study in order to determine what resulting adjustments, if any, should be made in the maximum prices of gummed cloth tape.

This study will of necessity require conferences with the industry affected and the passage of some considerable amount of time. Unless adjustable pricing authority is granted in the interim to each of the manufacturers of gummed cloth tape to prevent the absorption of a retroactive increase in the prices of osnaburg and sheeting, the production and distribution of this commodity will be seriously endangered and the war effort impeded. The granting of such authority will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and in accordance with section 2 of Revised Maximum Price Regulation 129, *It is ordered*, That:

(1) Any manufacturer of gummed cloth tape may sell and deliver or agree to sell and deliver this commodity at the maximum prices now established under Revised Maximum Price Regulation 129 with an agreement with the purchaser to collect the difference, if any, between the manufacturer's current maximum prices and any higher maximum prices which may be established by the Office of Price Administration as a result of the proposed study of the effect of any increased prices of cotton textiles.

(2) Payments in excess of the current maximum prices of gummed cloth tape established under Revised Maximum Price Regulation 129 may be collected or paid, if and when any increase in such maximum prices has been granted by the Office of Price Administration, and the amount so collected or paid shall be the difference, if any, between the current maximum prices and any higher maximum prices hereafter granted as a result of this study.

(3) This order shall remain in effect until the proposed cost study on gummed cloth tape has been made and action of general applicability with respect to the present maximum prices of gummed cloth tape has been taken by the Office of Price Administration, unless sooner revoked.

This order shall become effective August 14, 1945.

Issued this 14th day of August 1945.

THE STUDEBAKER CORP.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 487 under Revised Maximum Price Regulation 136. Machines, parts and industrial equipment. The Studebaker Corporation; Docket No. 6383-136.21-463.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 21 of Revised Maximum Price Regulation 136; *It is ordered:*

(a) The Studebaker Corporation, South Bend, Indiana, is authorized to sell its Studebaker motor truck listed in subparagraph (1) below, produced under the War Production Board's 1945 allocation to date to The Studebaker Corporation for production of 4000 medium-weight trucks, when equipped with synthetic rubber tires delivered to The Studebaker Corporation on or after April 18, 1944, at a price not to exceed the total of the applicable "List Price," f. o. b. factory, South Bend, Indiana, listed in subparagraph (1) below and the applicable charges in subparagraph (2) below (subject to the discounts and allowances in effect on March 31, 1942, to the applicable class of purchasers):

(1) *Model, description, and list price f. o. b. factory, South Bend, Indiana.*

Model	Description	List price
M15-20	Truck, chassis and cab, one ton nominal rating, 120" wheel base, with 8' express body; with 1942 standard specifications and equipment plus the following changes and additions: military type cab; oil filter; air cleaner, auxiliary rear springs; extra sun visor; extra windshield wiper; 4-7.50 x 20 8-ply tires.	$1,176

(2) *Charges.* (i) A charge for extra, special, and optional equipment not to exceed the "List Prices" in effect on March 31, 1942 (subject to the discounts in effect on March 31, 1942, to the applicable class of purchasers), for such equipment when sold as original equipment;

(ii) A charge to cover handling and delivery expense, computed in accordance with the method that the seller had in effect on March 31, 1942;

(iii) A charge to cover freight expense, based on current freight rates and computed in accordance with the method that the seller had in effect on March 31, 1942;

(iv) A charge to include the Federal excise tax on tires and tubes and other Federal excise taxes, and State and local taxes on the truck being sold, computed in accordance with the method the seller had in effect on March 31, 1942;

(v) The dollar amount of all other charges which the seller had in effect on March 31, 1942, to the applicable class of purchasers.

(b) A reseller of Studebaker motor trucks is authorized to sell, deliver at its place of business the Studebaker motor truck listed in subparagraph (1) below produced under the War Production Board's 1945 allocation to date to The Studebaker Corporation for production of 4,000 medium-weight trucks when equipped with synthetic rubber tires delivered to The Studebaker Corporation on or after April 18, 1944, at a price not to exceed the total of the applicable "List Price" in subparagraph (1) below and the applicable charges in subparagraph (2) below (subject to the discounts in effect on March 31, 1942, to the applicable class of purchasers):

(1) *Model, description, and list price f. o. b. factory, South Bend, Indiana.*

Model No.	Description	List price
M15-20....	Truck, chassis and cab, one ton nominal rating, 120" wheel base, with 8' express body; with 1942 standard specifications and equipment plus the following changes and additions: military type cab, oil filter; air cleaner, auxiliary rear springs, extra sun visor, extra windshield wiper, 4-7.50 x 20 8-ply tires.	$1,176

(2) *Charges.* (i) A charge for extra, special, and optional equipment, not to exceed the charge the reseller had in effect on March 31, 1942 to the applicable class of purchasers for such equipment, when sold as original equipment;

(ii) A charge for transportation which shall not exceed the charge The Studebaker Corporation would make for the transportation, by the means and route used, of the trucks from the factory to the place of business of the reseller;

(iii) A charge to cover Federal, State, and local taxes on the purchase, sale or delivery of the truck, computed in accordance with the method that the reseller had in effect on March 31, 1942;

(iv) A charge for handling and delivery equal to the charge that the reseller had in effect on March 31, 1942;

(v) The dollar amount of all other charges which the reseller had in effect on March 31, 1942, to the applicable class of purchasers.

(c) A reseller that cannot establish a price under paragraph (b) because it was not in business on March 31, 1942, shall determine its maximum price by adding to the applicable "List Price," f. o. b. factory, South Bend, Indiana, set forth in subparagraph (1) of paragraph (b), the following applicable charges:

(1) *Charges.* (i) A charge equal to the original equipment retail charge that The Studebaker Corporation suggested on March 31, 1942, be made by resellers for the extra, special, and optional equipment attached to the truck as original equipment;

(ii) A charge for transportation which shall not exceed the charge The Studebaker Corporation would make for the transportation, by the means and route used, of the trucks from the factory to the place of business of the reseller;

(iii) A charge equal to the charge made to the reseller by The Studebaker Corporation, in accordance with the method The Studebaker Corporation had in effect on March 31, 1942, to cover the Federal excise tax on tires and tubes and other Federal excise taxes;

(iv) A charge equal to the reseller's expense for payment of state and local taxes on the purchase, sale or delivery of the truck;

(v) A charge equal to the reseller's actual expense for handling and delivery of the truck.

(d) A reseller of Studebaker motor trucks in any of the territories or possessions of the United States is authorized to sell the truck described in paragraph (b), at a price not to exceed the applicable price established in paragraph (b) or (c), to which it may add a sum equal to the expense incurred by or charged to it, for payment of territorial and insular taxes on the purchase, sale or introduction of the truck; export premiums, boxing and crating for export purposes; marine and war risk insurance; and landing, wharfage, and terminal operations.

(e) All requests not granted herein are denied.

(f) This order may be amended or revoked by the Administrator at any time.

NOTE: Where the manufacturer has an established price under section 8 of Revised Maximum Price Regulation 136 which is different than a price permitted under paragraph (a) because of a substantial modification in design, specifications, or equipment in the truck, the reseller may add to its price under paragraph (b), (c) or (d) any increase in price to it over the price it would otherwise pay under paragraph (a) plus its customary markup on such a cost increase, but in the case of a decrease in the price under paragraph (a), the reseller must reduce its price under paragraph (b), (c), or (d) by the amount of the decrease and its customary markup on such an amount.

This order shall become effective August 14, 1945.

Issued this 14th day of August 1945.

[Supp. Order 108,[1] Special Order 2]

MANUFACTURERS' MAXIMUM AVERAGE PRICES FOR CERTAIN ITEMS OF APPAREL AND APPAREL ACCESSORIES

SPECIAL PROVISIONS APPLICABLE TO MANUFACTURERS WHO PRODUCE SPECIFIED COTTON AND WOOL MACHINE KNITTED APPAREL ITEMS UNDER SCHEDULE B TO WAR PRODUCTION BOARD CONSERVATION ORDER M-328B

An opinion accompanying this Special Order No. 2, under section 17 of Supplementory Order 108 has been issued simultaneously herewith and filed with the Division of the Federal Register.

SECTION 1. *Purpose of this order.* The purpose of this special order is to provide an optional method of operation which will enable manufacturers who produce items of machine knitted apparel listed in Schedule B to War Production Board Conservation Order M-328B to comply with the WPB's requirements under that order without being subject to the maximum average price limitation of section 5 of SO 108 or the surcharge provisions of section 6 of SO 108 on deliveries of those items, during the period ending September 30, 1945.

SEC. 2. *What this order does.* If, during the period ending September 30, 1945, you manufacture any machine-knitted item of apparel listed in Schedule B to Order M-328B of the WPB under a grant of priorities assistance issued by the WPB under that program, and if your production of that item is in the quantities, and at the prices, specified by the WPB, this order permits you, at your option, either to continue to remain subject to all of the provisions of SO 108 with respect to your deliveries of that item during the period ending September 30, 1945, or to operate under the provisions of this special order with respect to your deliveries of that item during that period. In the latter case, you are required to report your election to the OPA within the time, and in the manner, prescribed in section 3 of this order.

SEC. 3. *Report to OPA of election under this special order.* If you apply to the WPB for priorities assistance for cotton, worsted or woolen yarn under Schedule B to Order M-328B and receive an allocation of yarn for the production of any knitwear item specified in that program, and if you elect to operate under the provisions of this special order with respect to deliveries of that item made during the period ending September 30, 1945 you must, within thirty days from the date you receive the WPB yarn allocation, send by registered mail, to OPA, Knitwear and Hosiery Section, Washington 25, D. C., a notice of election, in duplicate, setting forth:

(1) Your business name and address;

(2) Your WPB serial number (or case number) under Schedule B to Order M-328B;

(3) The date on which you received your allocation of yarn for the third calendar quarter of 1945 from WPB under Schedule B to Order M-328B;

(4) A statement that you elect to operate under the provisions of Special Order No. 2 under SO 108 with respect to your deliveries, during the period June 1 through September 30, 1945, of the machine-knitted items (to be listed below) to be produced under WPB Schedule B to Order M-328B, which are included in the designated categories of SO 108 (for which you have base periods under section 2 of SO 108).

Item (as designated in WPB Schedule B to Order M-328B)	*Number and title of category* of SO 108 in which this item is included

NOTE: If you do not have a base period under SO 108 for any category which includes any item to be produced by you under Schedule B to WPB Order M-328B you are not permitted to operate under the provisions of this special order with respect to that category. You should therefore not list such category in this report of election.

SEC. 4. *Failure to notify OPA of election.* If you do not report to OPA your election to operate under this special order in the manner, and within the time, provided for in section 3 above, you will continue to remain subject to all provisions of SO 108 with respect to your deliveries of all items within a category of SO 108 whether or not you produce any of those items under a grant of priorities assistance under Schedule B to WPB Order M-328B.

SEC. 5. *How you operate under this special order.* (a) If you have failed to send the report of election required under section 3 above, the following provisions of this special order will not apply to you.

(b) If you elect to operate under this special order and have properly reported your election to do so, as required in section 3 above, and if you produce any item of machine knitted apparel during the third calendar quarter of 1945 under Schedule B to WPB Order M-328B, the following rules will apply to you.

Rule 1. Where your deliveries within a category of SO 108 consist solely of machine knitted items listed in Schedule B to WPB Order M-328B. If, during the period June 1 through September 30, 1945, your deliveries of items included in a category of SO 108 consist only of machine-knitted items as to which you have obtained a grant of priorities assistance under Schedule B to WPB Order M-328B for the third calendar quarter of 1945 under that WPB order, your deliveries in that category during that period are not subject to the maximum average price limitation of section 5 of SO 108, the surcharge provisions of section 6 of SO 108, or the makeup operation provisions of section 7 of SO 108. Also, you are not required to include your deliveries of items in that category in the quarterly report which you are required to file under section 12 (b) of SO 108.

Under this order an item is considered to be one for which you have received priorities assistance under Schedule B to WPB Order M-328B if, at any time during the third calendar quarter of 1945, you have received an allocation for that item under that WPB order even though some of your deliveries of that item are not made of yarns allocated under that order.

For example: You are a manufacturer of men's sweat shirts. Men's sweat shirts are included in Category E-115 of SO 108 under "E-115. Sweat Shirts: Men's—All Yarns and Mixtures." Between June 1 and July 15, 1945 you delivered 300 dozen men's cotton sweat shirts at a weighted average price of $7.00 per dozen. On July 15, 1945 you applied to the WPB for priorities assistance for cotton yarn under Schedule B to Order M-328B to make 1000 dozen cotton sweat shirts (Item C-4 in Preference Rating Schedule Number 1 of Schedule B to WPB Order M-328B) during the third calendar quarter of 1945. Between July 15 and September 30, 1945 you obtain the necessary yarn under priorities and manufacture the 1000 dozen cotton sweat shirts at the prices called for in your WPB allocation. The only men's sweat shirts which you deliver during the period from June 1 through September 30, 1945 are men's cotton sweat shirts. Therefore, since your deliveries in Category E-115 of SO 108 during the period between June 1 through September 30, 1945 consist solely of cotton sweat shirts covered by Schedule B to WPB Order M-328B your deliveries in that category (including those sweat shirts delivered between June 1 and July 15, 1945) are not subject to the maximum average price limitation of section 5 of SO 108 or the surcharge provisions of section 6 of SO 108 and do not have to be included in your quarterly report to OPA under section 12 (b) of SO 108.

NOTE: In the above example the 300 dozen men's cotton sweat shirts delivered by you between June 1 and July 15, 1945 are also excluded under this rule since they are an "item" which you produce during the balance of the calendar quarter under Schedule B to WPB Order M-328B. However, if at any time during the period June 1 through September 30, 1945 you delivered any men's wool sweat shirts, you would be governed by Rule 3 below rather than this Rule 1 since men's wool sweat shirts are not an item listed in Schedule B to WPB Order M-328B.

Rule 2. Where your deliveries within a category of SO 108 consist solely of items other than machine knitted items as to which you have obtained priorities assistance under Schedule B to WPB Order M-328B. If, during the period June 1 through September 30, 1945, none of the items which you deliver in a category of SO 108 are machine-knitted items as to which you have obtained a grant of priorities assistance under Schedule B to WPB Order M-328B, all your deliveries in that category during that period remain subject to all of the provisions of SO 108.

For example: During the period June 1 through September 30, 1945 you deliver 1000 dozen men's wool bathing suits (Category E-100 of SO 108). Men's bathing suits are not one of the items for which priorities yarn is allocated under Schedule B to WPB Order M-328B. Therefore, all of your deliveries in Category E-100 remain subject to all of the provisions of SO 108.

Rule 3. Where your deliveries within a category include both machine-knitted items as to which you received priorities assistance under Schedule B to WPB Order M-328B and other items not listed in that schedule. If, during the period June 1 through September 30, 1945 you make deliveries in a category of SO 108 of both machine-knitted items as to which you have obtained a grant of priorities assistance under Schedule B to WPB Order M-328B and other items as to which no priorities assistance was granted to you by the WPB under that program, you treat your deliveries of these two kinds of items separately, in the following manner:

(i) Your deliveries, during that period, of those machine-knitted items as to which you have obtained a grant of priorities assistance under Schedule B to WPB Order M-328B are not subject to the maximum average price limitation of section 5 of SO 108, the surcharge provisions of section 6 of SO 108 or the makeup operation provisions of section 7 of SO 108. Your deliveries of these machine-knitted items are excluded in computing your weighted average price for that category for the period June 1 through September 30, 1945.

(ii) Your deliveries, during that period, of those items in the category as to which you did not obtain any grant of priorities assistance under Schedule B to WPB Order M-328B, remain subject to the maximum average price limitation of section 5 of SO 108 and to all other provisions of that supplementary order.

(iii) However, since your maximum average price for the category under SO 108 was the weighted average price at which you delivered all items within that category during the appropriate base period (selected by you for the category under section 2 of SO 108), and since you now exclude your deliveries of those items which you produce under the WPB program in determining your weighted average price for the category (as provided in (i) above), you must re-figure your base period maximum average price for that category. You find such re-figured maximum average price for the category by excluding from your base period deliveries of items in that category your deliveries of those machine knitted items of apparel which you produce under Schedule B to WPB Order M-328B during the third quarter of 1945. In re-figuring your maximum average price for the category you may, if you wish, choose quarter, annual or half-yearly base periods, although you originally selected different length base periods for the category.

For example: In your base period under SO 108 you delivered 800 dozen men's athletic shirts ("Category E-92-Athletic shirts: Men's—all Yarns and Mixtures"). Of these, 200 dozen were *rayon* which were delivered at $8.00 per dozen, 200 dozen more were *rayon*, which you delivered at $10.00 per dozen, 200 dozen were *cotton*, delivered at $6.00 per dozen and the remaining 200 dozen also were *cotton*, delivered at $4.00 per dozen. Your maximum average price for category E-92 was therefore $7.00 per dozen ($200 \times \$8.00 + 200 \times \$10.00 + 200 \times \$6.00 + 200 \times \$4.00 = \$5600$. $\$5600 \div 800 = \$7.00$).

During the period from July 1 to July 15, 1945, you delivered 200 dozen men's *rayon* athletic shirts at $8.00 per dozen and 300 dozen men's *cotton* athletic shirts at $6.00 per dozen. On July 15, 1945 you apply for, and receive an allocation from WPB for cotton yarn to produce 500 dozen men's *cotton* athletic shirts under Schedule B to WPB Order M-328B (item B-9 under that WPB order). Between July 15 and September 30, 1945 you produce and deliver these 500 dozen men's *cotton* athletic shirts at the prices specified in your WPB allocation. Between July 15 and September 30, 1945 you also deliver 200 dozen men's *rayon* athletic shirts which are not included in the WPB program.

Under Rule 3, therefore, your deliveries of men's *cotton* athletic shirts (including those delivered between June 1 and July 15, 1945) are excluded in computing your weighted average price for Category E-92. The weighted average price at which you delivered your 400 dozen men's *rayon* athletic shirts during the period June 1 through September 30, 1945 should not exceed your refigured maximum average price for that category. Your re-figured maximum average price for the category is determined on the basis of your deliveries of men's rayon athletic shirts only during the base period. In this case, your re-figured maximum average price is $9.00 per dozen ($200 \times \$8.00 + 200 \times \$10.00 = \$3600$. $\$3600 \div 400 = \$9.00$). Thus the weighted average price at which you deliver the 400 dozen men's rayon athletic shirts during the period June 1 through September 30, 1945 should not exceed your re-figured maximum average price of $9.00.

NOTE: If you choose to use a different length base period in re-figuring your maximum average price for the category, you may do so provided the new base period selected by you is an appropriate one under section 2 of SO 108.

Rule 4. Where you do not have a base period under section 2 of SO 108 for a category. Where you have been unable to establish a base period under section 2 of SO 108 for any category and have, therefore, been required to file an application with your OPA District Office for a maximum average price for that category under section 9 of SO 108, you are not permitted to operate under Rules 1 or 3 with respect to that category. Accordingly, all of your deliveries of the items included in that category remain subject to all the provisions of SO 108 notwithstanding the fact that you received priorities assistance under Schedule B to WPB Order M-328B as to some of the items delivered by you in that category.

SEC. 6. *Re-figured maximum average price charts.* If you operate under Rule 3 of section 5 of this special order and are therefore required to re-figure a maximum average price for any category, you must file, (together with your MAP report for the third quarter of 1945) with your OPA District Office, on or before October 20, 1945, two copies (signed by an owner, officer or principal) of a new maximum average price chart containing the information required by section 4 (b) of SO 108 for each category for which you are required to re-figure a maximum average price under that rule.

[1] 10 F.R. 4336, 5994, 6402, 7008, 8368.

NOTE: Although you are not required to file this re-figured maximum average price chart before October 20, 1945, if you obtain an allocation from WPB for the third calendar quarter under Schedule B to Order M-328B and you have categories which include items listed in that WPB program and other items not listed in that program, you should, immediately upon receipt of your WPB allocation re-figure your maximum average price for each category which includes these two kinds of items. This will enable you to arrange your subsequent deliveries of those items which will remain subject to SO 108 so that you will not exceed your re-figured maximum average price for the category.

SEC. 7. *Quarterly reports under section 12 (b) of SO 108.* The quarterly report which you are required to file with your OPA District Office under section 12 (b) of SO 108 must contain all of the information required under that section for your deliveries, during the period June 1 through September 30, 1945, of the remaining items (those not included in your WPB allocation) in the categories for which re-figured maximum average prices are established under this special order.

SEC. 8. *Invoices, records, reports.* (a) If you file a report of election under this special order, as provided in section 3 above, you must keep a copy of that report available for inspection by the OPA.

(b) If you operate under rule 3 of section 5 of this special order with respect to any category, you must keep and make available for inspection by the OPA, a copy of your re-figured maximum average price chart.

(c) Although you operate under Rule 1 or Rule 3 of section 5 of this special order, you are required to comply with the provisions of section 11 of SO 108 (Invoices) and of paragraphs 1, 2 and 3 of section 12 (a) of SO 108 (Records) with respect to all items included in a category of SO 108, whether or not any of these items are produced by you under Schedule B to WPB Order M-328B. You are not subject to the provisions of section 12 (a) (4), section 12 (b) or section 14, of SO 108 with respect to your deliveries of those machine-knitted items listed in Schedule B to WPB Order M-328B as to which you obtain priorities assistance for the third calendar quarter of 1945.

This special order shall become effective August 18, 1945.

NOTE: All reporting and record keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 18th day of August 1945.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 55–88]

INTERNATIONAL HYDRO-ELECTRIC SYSTEM

MEMORANDUM OPINION AND ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 17th day of August 1945.

Ropes, Gray, Best, Coolidge & Rugg, a partnership engaged in the general practice of law in the Commonwealth of Massachusetts and having its offices at 50 Federal Street in Boston, Massachusetts, have filed with this Commission an application pursuant to Rule U-63,[1] seeking approval of a fee of $12,500 for legal services to International Hydro-Electric System, a registered holding company, and reimbursement of $285.32 for expenses. The fee covers services, to the time of the appointment of the Trustee, rendered in connection with proceedings in the United States District Court for enforcement of an order of this Commission directing liquidation of the International Hydro-Electric System[2] as well as for services not directly related to the court proceedings. The fee and expenses submitted may be summarized as follows:

For services rendered in connection with the proceedings in the District Court:

For legal services	$8,000 00
For disbursements	154 59
Total	8,154 59

For services rendered in connection with all matters other than the proceedings in the District Court:

For legal services	$4,500 00
For disbursements	130 72
Total	4,630 72

After appropriate notice, including the mailing by Ropes, Gray, Best, Coolidge & Rugg, of a copy of such notice to all persons granted intervention or participation in the District court proceedings, a hearing was held with respect to the application. At the hearing no one appeared in opposition to the application.

The record indicates that the services rendered by Ropes, Gray, Best, Coolidge & Rugg covered a period of approximately 15 months from August 3, 1942, through November 13, 1945. In respect to court proceedings, the services consisted of acting as counsel for the International Hydro-Electric System in all matters relating to the foregoing proceedings, and examining and advising with respect to questions of law and procedure. The record further indicates that the total number of hours of lawyers' time involved in the services relating to the court proceedings was approximately 470 of which 245 represented the time of John R. Quarles, a senior partner, in charge of the matter, 22½ represented the time of Charles B. Rugg, another senior partner, and the balance represented the time of associates. The services other than those rendered in connection with the court proceedings consisted of advising company officers from time to time on legal matters arising from the conduct of business and in compliance with regulatory requirements. The total number of hours of lawyers' time involved in services rendered in connection with all matters other than the proceedings in the District court was approximately 272 of which 157 represented the time of John R. Quarles and the balance represented the time of associates.

After careful consideration of the record, we are satisfied that $12,500 is reasonable maximum compensation for the services rendered and that the claimed disbursements were properly made.

It is therefore ordered, That the application of Ropes, Gray, Best, Coolidge & Rugg, pursuant to Rule U-63, be and the same is hereby approved.

By the Commission.

Secretary.

MILWAUKEE ELECTRIC RAILWAY & TRANSPORT CO. AND WISCONSIN ELECTRIC POWER CO.

MEMORANDUM OPINION AND ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia Pa., on the 17th day of August, 1945.

The Milwaukee Electric Railway & Transport Company (Transport) and its parent, Wisconsin Electric Power Company (Electric), a subsidiary of The North American Company, a registered holding company, have filed a joint declaration and amendments thereto pursuant to sections 12 (c) and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U–42 and U–43 thereunder, regarding the purchase by Transport for cash, at par for retirement, of 10,000 shares of its capital stock of the aggregate par value of $1,000,000 from Electric and the redemption on August 16, 1945, at par, plus accrued interest, of $400,000 principal amount of its First Mortgage 4% Bonds owned by Electric and pledged as collateral under Electric's Mortgage and Deed of Trust, dated October 26, 1938. Transport proposes that upon the acquisition and cancellation of said stock it will amend its Articles of Incorporation to reflect a corresponding reduction in its authorized capital stock. Electric seeks authorization to surrender the stock and bonds on the basis described and proposes to appropriate the entire proceeds from the proposed transactions to its "Fund for Retirement of Long Term Debt."

A public hearing upon the declaration, as amended, was duly held and having considered the record, we make the following findings:

Electric, a Wisconsin corporation, is a public-utility subsidiary company of The North American Company, a registered holding company. The principal service territory of Electric includes the City of Milwaukee and a number of cities and towns located in surrounding counties in the State of Wisconsin. A small portion of the company's business is conducted in the State of Michigan.

Transport, a wholly-owned subsidiary of Electric, is also a Wisconsin corporation having been formed in 1938 for the purpose of acquiring the transportation properties owned by predecessor companies of Electric.[1] It is engaged in the street railway, trackless trolley and motor bus business in the City of Milwaukee, its suburbs and in the surrounding district.

The proposed transactions are part of a program commenced by Transport in 1941 for the purpose of reducing its capital obligations. The present declaration is the twelfth of a series of declarations filed by Transport to carry out this program.[2] Upon consummation of the proposed transactions Transport will have outstanding bonds in the principal amount of $6,800,000 and $17,100,000 of common stock of the par value of $100 per share. Condensed balance sheets of Transport and Wisconsin Electric as of May 31, 1945 are shown below in Tables I and II, respectively:

The Public Service Commission of Wisconsin, which has jurisdiction over the sale by Electric of the Common stock of Transport, approved the proposed sale by order, dated July 14, 1945.[1]

No fees, commissions or other remuneration will be paid in connection with the proposed transactions, except payment by Electric of a nominal fee to First Wisconsin Trust Company, as Trustee under its Mortgage, for the purpose of releasing the bonds of Transport proposed to be redeemed.

On the basis of the record it does not appear that the proposed expenditure of $1,400,000 by Transport for the redemption of its bonds and the purchase of its common stock for retirement and cancellation will adversely affect the financial integrity of the company. The proposed transactions are subject to the requirements of sections 12 (c) and 12 (f) of the act and Rules U-42 and U-43 and no adverse findings appear to be necessary thereunder.

As indicated in Table II, Electric carries its investment in the capital stock of Transport at $24,593,189. Against this investment there is carried a reserve in the amount of $14,792,703. In the previous similar transactions referred to above, Electric has, upon the sale of the capital stock of Transport to Transport, credited its investment account to the extent of the consideration received, namely, $100 per share, rather than the gross carrying value of $125.9724 per share. Electric proposes in connection with the presently proposed transactions to credit its investment account to the extent of the consideraion received for the shares of capital stock sold to Transport and to write down its investment to the extent of the difference between the amount of consideration received and the gross carrying value of the stock to be sold, namely, $259,724. In addition, Electric proposes to write down its investment account in Transport to the extent of the aggregate difference between the consideration received and gross carrying value for all shares of the capital stock of Transport previously sold to Transport under this program. Including the presently proposed transactions, this would result in an aggregate write-down of Electric's investment in Transport of $2,051,819.60 and a concurrent charge will be made to its Reserve for Contingent Losses on Capital Stock of Transport. We are of the opinion that such treatment will be in accord with sound accounting practice.

It is therefore ordered, That the joint declaration, as amended, be and the same is hereby permitted to become effective forthwith, subject to the terms and conditions contained in Rule-24.

By the Commission.

Secretary.

THE GUARDIAN INVESTMENT TRUST

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 17th day of August A. D. 1945.

An application having been filed by The Guardian Investment Trust under and pursuant to section 23 (c) (3) of the Investment Company Act of 1940 for an order amending a previous order of this Commission, dated April 14, 1944, so as to permit it to repurchase its preferred shares which are in arrears on the payment of dividends in the following respect: When the asset coverage of its preferred shares exceeds the liquidating preference plus accrued dividends to which such shares are entitled, at a price of not less than 90% of such liquidating preference plus accrued dividends;

It is ordered, Pursuant to section 40 (a) of the said act, that a hearing on the aforesaid application be held on August 25, 1945, at 10:00 a. m., Eastern War Time, in Room 318 of the Securities and Exchange Commission Building, 18th and Locust Streets, Philadelphia, Pennsylvania.

It is further ordered, That Henry C. Lank, or any other officer or officers of the Commission designated by it for that

---

[1] Rule U-63 promulgated under sections 11 (d) and 11 (f) of the Act provides as follows:

"All fees, expenses and remuneration whether interim or final to whomsoever paid for services rendered, or to be rendered in connection with any reorganization, dissolution, liquidation, bankruptcy, or receivership of a registered holding company or subsidiary thereof, in any court of the United States shall be subject to approval by this Commission as to the maximum amount that may be paid for such services. This rule shall not apply to any payments approved by a court of the United States in request proceeding in which the Commission has filed a notice of appearance pursuant to Section 208 of Chapter X of the Bankruptcy Act as amended."

[2] On August 14, 1943 this Commission applied to the United States District Court for the District of Massachusetts (Civil Action No. 2480), pursuant to sections 11 (d) and 18 (f) of the Public Utility Holding Company Act of 1935 to enforce compliance with an order of the Commission dated July 21, 1942 (Holding Company Act Release No. 3679), issued pursuant to section 11 (b) (2) of the act. This order directed International Hydro-Electric System to liquidate and dissolve. After a hearing on the application, the United States District Court entered an interlocutory decree on October 11, 1943 appointing Bartholomew A. Brickley of Boston, Massachusetts, as Special Counsel to investigate certain transactions alleged to give rise to causes of action on behalf of International Hydro-Electric System against International Paper Company. On November 13, 1944, the court appointed Bartholomew A. Brickley as Trustee for International Hydro-Electric System.

CONSOLIDATED ELECTRIC AND GAS CO., ET AL.

ORDER POSTPONING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 17th day of August, A. D. 1945.

In the matters of Consolidated Electric and Gas Company, File No. 54-78; Consolidated Electric and Gas Company, Applicant, File No. 54-40; Central Public Utility Corporation, Consolidated Electric and Gas Company, Respondents, File No. 59-40; Christopher H. Coughlin, W. T. Crawford and Rawleigh Warner, voting trustees under voting trust agreement dated August 1, 1932, relating to common stock of Central Public Utility Corporation, Applicants, File No. 54-43; Christopher H. Coughlin, W. T. Crawford and Rawleigh Warner, voting trustees under voting trust agreement dated August 1, 1932, relating to common stock of Central Public Utility Corporation, Respondents. File No. 59-49.

Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, having filed an application, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, for approval of a plan for certain action to be taken by it and its associate companies designed to enable Consolidated and certain of its subsidiary companies to comply with the provisions of section 11 (b) of said act; the Commission having by order dated July 19, 1943 consolidated the proceedings upon said application (1) with certain proceedings theretofore instituted by the Commission, pursuant to section 11 (b) of said act, with respect to Consolidated and its parent Central Public Utility Corporation ("Central Public"), also a registered holding company, (2) with certain other proceedings instituted by the Commission pursuant to section 11 (b) with respect to Christopher H. Coughlin, W. T. Crawford and Rawleigh Warner, Voting Trustees under a voting trust agreement dated August 1, 1932 relating to common stock of said Central Public (said trustees also being a registered holding company), (3) with proceedings upon an earlier application of Consolidated for approval of certain other action also designed to enable Consolidated to comply with section 11 (b) and, (4) with proceedings upon an application-declaration by the trustees, above named, regarding the disposition of the common stock of Central Public held by said trustees; and the Commission having by said order of July 19, 1943 directed a hearing on said consolidated proceedings to be held at 10:00 a. m., e. w. t., on August 3, 1943 at the offices of the Commission in Philadelphia, Pennsylvania; and said hearing having been postponed by subsequent orders of the Commission until August 18, 1945;

Consolidated having requested that the hearing so directed to be held in said consolidated proceedings be further postponed to a date not earlier than December 18, 1945 stating is such request, among other things, that during the period since the last postponement of these proceedings the company has reduced its holdings of domestic public utility subsidiaries to six in number; that the company since June 23, 1943, the day of the filing of its application for approval of the plan above first mentioned, has disposed of its interests in or the assets of 24 public utility subsidiary companies; that since December 31, 1943 Consolidated has reduced the principal amount of its outstanding debt securities from $31,433,500 to approximately $14,000,000 principal amount; that presently there is pending with this Commission proceedings regarding the reorganization and corporate simplification of The Islands Gas and Electric Company, a wholly owned direct holding company subsidiary of Consolidated; that Consolidated is presently actively negotiating for the divestment of three of its remaining six domestic utility subsidiaries and proposes, as soon as opportunity permits, to divest itself of all of its remaining domestic public utility subsidiaries; that Consolidated considers it is necessary that the said proposed sales, together with an appropriate disposition of the proceeds derived from such sales, be consummated or substantial progress made in regard thereto before Consolidated can formulate and file a definitive plan and that it is advisable that such plan be filed before hearings be held in the above entitled matters; and

The Commission deeming it appropriate under the circumstances that the hearing directed to be held herein on August 18, 1945 be further postponed;

It is ordered, That the hearing in this matter previously scheduled for August 18, 1945 at 10:00 a. m., e. w. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, be and hereby is, postponed to December 18, 1945 at the same hour and place and before the same trial examiner as heretofore designated.

It is further ordered, That the time within which any person, other than parties to said proceedings, desiring to be heard or otherwise wishing to participate in said proceedings shall file a request or application therefor with the secretary of the Commission as provided by Rule XVII of the Commission's rules of practice be, and the same hereby is, extended to December 10, 1945.

MINNESOTA POWER & LIGHT CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 18th day of August, A. D. 1945.

Notice is hereby given that an application and declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Minnesota Power & Light Company ("Minnesota"), a registered holding company and an electric utility subsidiary of American Power & Light Company, which is itself a subsidiary of Electric Bond and Share Company, both registered holding companies.

All interested persons are referred to said application and declaration which is on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Minnesota proposes to retire all of its outstanding funded debt aggregating $32,289,000 of bonds consisting of $10,700,000 principal amount of First and Refunding Mortgage Gold Bonds, 5% Series due 1955, $18,000,000 principal amount of First and Refunding Mortgage Gold Bonds, 4½% Series due 1978 and $3,589,000 principal amount of Great Northern Power Company First Mortgage 5% Gold Bonds, due February 1, 1950. These bonds will be retired at their respective redemption prices of 102%, 101½%, and 102% of principal amounts plus accrued interest to date of redemption. Minnesota owns all of the properties which secure said bonds of Great Northern Power Company.

The proposed retirement of funded debt will be effected through the use of general funds of Minnesota and the proceeds of the issuance and sale, pursuant to the competitive bidding requirements of Rule U-50, of $26,000,000 principal amount of its First Mortgage Bonds, —% Series due 1975, and the issuance and private sale of $6,000,000 principal amount of its unsecured Ten-Year Serial Notes maturing in the amount of $600,000 annually.

Minnesota has designated sections 6 (a), 7, 11 (b) and 12 (c) of the act and Rules U-42 and U-50 promulgated thereunder as being applicable to the proposed transactions.

It appearing to the Commission that it is appropriate in the public interest and the interests of investors and consumers that a hearing be held with respect to said matters and that said application should not be granted, nor said declaration become effective, except pursuant to further order of the Commission:

It is hereby ordered, That a hearing be held upon said matters on August 30, 1945 at 10:30 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room where such hearing will be held.

It is further ordered, That Richard Townsend or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearings on such matters. The officer so designated to preside at such hearings is hereby authorized to exercise all of the powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That the secretary of the Commission shall serve by registered mail a copy of this order on the applicant and declarant herein, and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard in connection with these proceedings or proposing to intervene herein shall file with the secretary of the Commission on or before August 27, 1945 his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That without limiting the scope of the issues presented by said application-declaration, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the mortgage bonds and serial notes proposed to be issued and sold by Minnesota will be reasonably adapted to the security structure and earning power of Minnesota and necessary and appropriate to the economical and efficient operation of the business in which Minnesota is presently engaged and in particular whether the proposed sinking fund and replacement fund provisions in the indenture securing such bonds are adequate.

(2) Whether the fees, commissions or other remunerations proposed to be paid in connection with the issue and sale of said securities are reasonable.

(3) Whether the terms and conditions of the issue and sale of said securities are detrimental to the public interest or the interests of investors or consumers.

(4) Whether the accounting entries to be recorded in connection with the proposed transactions are appropriate and whether any other accounting adjustments should be made in connection with the proposed transactions.

(5) Generally, whether the proposed transactions comply with the applicable provisions of the Public Utility Holding Company Act of 1935 and all rules and regulations promulgated thereunder.

(6) What terms and conditions, if any, are necessary or appropriate in the public interest or the interests of investors or consumers to ensure compliance with the requirements of the Public Utility Holding Company Act of 1935, or any rules, regulations or orders promulgated thereunder.

By the Commission.

MONONGAHELA POWER CO., ET AL.

ORDER GRANTING AND PERMITTING APPLICATION-DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 15th day of August, A. D. 1945.

In the matter of Monongahela Power Company, the West Penn Electric Company and American Water Works and Electric Company, Inc., File No. 70-1105.

Monongahela Power Company ("Monongahela"), a direct subsidiary of American Water Works and Electric

Company, Inc. ("American"), The West Penn Electric Company ("Electric") and West Penn Power Company ("Power"), all registered holding companies and members of American Water Works and Electric Company, Inc., holding company system, and Electric and American have filed a joint application-declaration regarding an over-all refinancing program for Monongahela and related transactions under the Public Utility Holding Company Act of 1935. The transactions embraced by the joint application-declaration are as follows: (a) the issue and sale by Monongahela at competitive bidding pursuant to Rule U-50, of $22,000,000 principal amount of First Mortgage Bonds due 1975 and of $9,000,000 aggregate par value of cumulative preferred stock represented by 90,000 shares, $100 par value per share, (the price to Monongahela for these securities, the interest rate on the bonds and the dividend rate on the preferred stock, to be determined at competitive bidding); (b) the issue and private sale at principal amount thereof by Monongahela to three banks of $4,000,000 principal amount, 2% Ten Year serial notes; (c) the issue and sale by Monongahela of 82,500 shades of additional common stock, par value $6.50 per share, to Electric at a price of $15 a share; (d) the use of the proceeds from the sale of the foregoing securities, together with other corporate funds of Monongahela, to redeem and retire its presently outstanding (i) First Mortgage Bonds aggregating $22,000,000 principal amount at 105% of principal amount plus accrued interest, (ii) 6% debentures in the aggregate principal amount of $7,500,000 at 110% of principal amount plus accrued interest, and (iii) 291,902 shares of 7% Cumulative Preferred Stock, par value $25 per share, aggregate par value $7,297,550, of which 267,952 shares are owned by the public, the publicly held preferred to be redeemed at $28.75 per share plus accrued dividends, the 23,376 shares owned by Electric to be applied at the unit price of $24 per share (cost thereof to Electric), or an aggregate amount of $561,024, as partial payment for the new common stock of Monogahela, the 574 shares owned by American to be donated to Monongahela; (e) the acquisition by Electric of the additional shares of new common stock of Monongahela for $676,476 in cash and 23,376 shares of 7% Cumulative Preferred Stock of Monongahela; and (f) the surrender by American to Monongahela as a capital donation of the 574 shares of 7% Cumulative Preferred Stock of Monongahela.

Representatives of Monongahela have requested that in connection with the offering of the bonds and preferred stock at competitive bidding the 10 day period for the solicitation of bids required by the provisions of Rule U-50 be shortened to not less than 6 days.

Public hearing on these matters having been held after appropriate notice and the Commission having considered the record and having made and filed its findings and opinion herein;

It is ordered, That the joint application-declaration, as amended, be and the same hereby is granted and permitted to become effective subject, however, to the terms and conditions prescribed in Rule U-24 and to the following terms and conditions:

1. That Monongahela shall amortize, in not more than fifteen years from the date of this order by equal monthly Income Deductions the item on its consolidated balance sheet captioned "Excess of carrying value of the investments of the Company in securities of its subsidiaries over the underlying book equity of such subsidiaries at their respective dates of acquisition";

2. That so long as the serial notes to be issued by Monongahela remain outstanding and not discharged, Monongahela shall not pay dividends on its common stock in any calendar year exceeding in the aggregate $800,000;

3. That Monongahela shall not pay any dividends on its common stock (other than dividends payable in common stock) or make any distribution on, or purchase, or otherwise acquire for value, any of its common stock, each and all of these actions being hereinafter embraced in the term "payment of common stock dividends") except as follows:

(a) If and so long as the ratio of the capital represented by the common stock, including premiums on the capital stock, of Monongahela plus the consolidated surplus accounts of Monongahela and its subsidiaries to the total consolidated capital and surplus accounts of Monongahela and its subsidiaries at the end of the second calendar month immediately preceding the date of the proposed payment of common stock dividends adjusted to reflect the proposed payment of common stock dividends (which ratio is hereinafter referred to as "capitalization ratio") is less than 20% then the payment of common stock dividends, including the proposed payment, during the twelve months period ending with and including the date of the proposed payment shall not exceed 50% of the consolidated net income of Monongahela and its subsidiaries applicable to the common stock of Monongahela during the twelve calendar months ending with and including the second calendar month immediately preceding the date of the proposed payment of common stock dividends;

(b) If and so long as such capitalization ratio is 20% or more but less than 25% then the payment of common stock dividends during the twelve months period ending with and including the date of the proposed payment shall not exceed 75% of the consolidated net income of Monongahela and its subsidiaries applicable to the common stock of Monongahela during the twelve calendar months ending with and including the second calendar month immediately preceding the date of the proposed payment of common stock dividends;

(c) Except to the extent permitted by paragraphs (a) and (b) hereof Monongahela shall make no payment of common stock dividends which would reduce such capitalization ratio to less than 25%.

For the purpose of the terms and conditions of this order:

(A) The total consolidated capital of Monongahela and its subsidiaries shall be deemed to consist of the aggregate of the principal amount of all outstanding indebtedness of Monongahela and its subsidiaries represented by bonds, debentures, notes and other evidences of indebtedness maturing by their terms one year or more from the date of issue thereof and not held by Monongahela or its subsidiaries, and the aggregate amount of stated or par value of all capital stocks, including premiums on capital stock, of all classes of Monongahela and its subsidiaries not held by Monongahela or its subsidiaries;

(B) Consolidated surplus accounts upon which capitalization ratios are computed shall be adjusted to eliminate any and all amounts restricted in the consolidated earned surplus of Monongahela and its subsidiaries accumulated subsequent to August 1, 1945 resulting from the requirements of the Minimum Provision for Depreciation as embodied in the indenture and supplements thereto securing the mortgage bonds of Monongahela; and

(C) In computing consolidated net income of Monongahela and its subsidiaries applicable to the common stock of Monongahela for the purposes of this paragraph 3, operating expenses, among other things, shall include the provisions for depreciation as recorded on the books or the minimum provision for depreciation embodied in the indenture and supplements thereto securing the mortgage bonds of Monongahela, whichever is larger.

The amount of consolidated net income of Monongahela and its subsidiaries restricted against the payment of common stock dividends in any twelve months period shall not exceed the greater of the restrictions imposed by the limitations of paragraph 2 hereof or of this paragraph 3;

4. That American shall within 60 days from the date of this order transfer to Electric the 200,098⅔ shares of common stock of Monongahela now owned by American: *Provided, however*, That this period may be extended by us upon a showing that American and Electric have been unable in the exercise of due diligence to comply with this condition; until such transfer has occurred no dividends are to be paid by Electric to American on the Class B or Common Stock of Electric owned by American without prior approval of this Commission;

5. That the proposed issuance and sale of the $22,000,000 aggregate principal amount of first mortgage bonds and the $9,000,000 aggregate par value of new preferred stock shall not be consummated until the results of the competitive bidding have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order shall contain such further details and conditions, if any, as may then be deemed appropriate, jurisdiction being reserved for the imposition thereof in connection with the proposed transactions;

6. That the solicitation period of ten days required by Rule U-50 be, for the purpose of the sale of the First Mortgage Bonds and Cumulative Preferred Stock of Monongahela herein being considered, shortened to not less than six days;

7. That jurisdiction be reserved with respect to the payment of any and all fees and expenses incurred or to be incurred in connection with the consummation of the proposed transactions.

By the Commission.

SOUTHWESTERN PUBLIC SERVICE CO. AND SOUTHWESTERN ELECTRIC SERVICE CO.

ORDER GRANTING AND PERMITTING APPLICATIONS AND DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 15th day of August, A. D. 1945.

Southwestern Public Service Company ("Southwestern"), a public utility company formerly a registered holding company, and Southwestern Electric Service Company ("Electric"), a newly formed corporation, having filed applications and declarations and amendments thereto pursuant to the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder wherein it is proposed that:

1. Southwestern sell all its properties located in east-central Texas to Electric for a cash consideration to be determined by the net proceeds to be received by Electric from the sale of certain securities, hereinafter set forth, after deduction of $60,000 for working capital;

2. Electric issue and sell, at competitive bidding, $1,550,000 principal amount of first mortgage bonds due May 1, 1975, and 10,150 shares of cumulative preferred stock, par value $100 per share;

3. Electric issue and sell 161,180 shares of common stock, par value $1 per share, and issue transferable bearer subscription rights to Southwestern's common stockholders giving the right to purchase one share of Electric's common stock for each four shares of common stock of Southwestern held; Electric to enter into an underwriting agreement providing for the purchase of such of the shares of common stock as are not subscribed for pursuant to the subscription rights; and

A public hearing having been held after appropriate notice, and the Commission having considered the record and having made and filed its findings and opinion herein;

It is ordered, That said applications and declarations, as amended, regarding the transactions summarized above be, and the same hereby are, granted and permitted to become effective, subject to the terms and conditions prescribed in Rule U-24, and to the following further conditions:

1. That the proposed issue and sale of first mortgage bonds and of cumulative preferred stock, and of common stock pursuant to the underwriting agreement by Southwestern Electric Service Company, shall not be consummated until the results of competitive bidding, pursuant to Rule U-50, and the terms of the proposed underwriting agreement shall have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate;

2. That Southwestern Electric Service Company amend Article VII of its charter, within six months after the date of this order, to provide that in computing Net Earnings of the corporation available for interest for the purpose of subparagraph (d) (1) of subdivision (G) thereof, and in computing net income of the company applicable to its common stock for the purpose of subdivision (M) thereof, operating expenses shall include, among other things, the provisions for depreciation as recorded on the books of Electric or the Maintenance Fund requirements provided by the Indenture securing the first mortgage bonds of Electric, whichever is larger, and to provide further that in computing common stock equity for the purpose of subdivision (M) thereof, there shall be deducted from earned surplus as shown on the books of Electric any and all amounts restricted therein pursuant to said Indenture;

3. That jurisdiction be, and it is hereby, reserved over the payment of all fees and expenses by Southwestern and Electric, in connection with the proposed transactions and fees and expenses of counsel for the prospective bidders;

It is further ordered, Pursuant to the request of Southwestern Electric Service Company, that the ten-day period for inviting bids as provided by Rule U-50 be, and the same hereby is, shortened to a period of not less than seven days.

By the Commission.

WAR PRODUCTION BOARD.

[C-414]

BREDE, INC.

CONSENT ORDER

Brede, Inc., a Michigan corporation with principal offices at 501 West Larned Street, Detroit, Michigan, is engaged in the manufacture, processing, and packing of horse radish and cereals and is charged by the War Production Board with having used, during the four calendar quarters of 1944 and the first calendar quarter of 1945, 12,803 pounds of containerboard content in excess and 124,953 square feet of containerboard content in excess of its quota for containerboard content for fibre shipping containers in violation of War Production Board Limitation Order L-317. Brede, Inc. admits the violations as charged, does not desire to contest the charge, and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Brede, Inc., the Regional Compliance Manager, and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Brede, Inc. shall, during the four calendar quarters beginning July 1, 1945, and ending July 1, 1946, reduce its use of containerboard content for fibre shipping containers by using, during the four aforesaid quarterly periods, a total of 12,803 pounds and 124,953 square feet of containerboard content for fibre shipping containers less than the quota it would otherwise be entitled to use during this period as specified by the provisions of Limitation Order L-317 unless otherwise authorized in writing by the War Production Board. Said reduction and usage shall be effected in the following manner: (1) On or before September 30, 1945, at least 3200 pounds less and at least 31,238 square feet less; (2) on or before December 31, 1945, at least 6400 pounds less and at least 62,576 square feet less; (3) on or before March 31, 1946, 9600 pounds less and at least 93,714 square feet less; (4) on or before June 30, 1946, at least 12,803 pounds less and at least 124,953 square feet less than its quota as aforesaid.

(b) Nothing contained in this order shall be deemed to relieve Brede, Inc. from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except in so far as the same may be inconsistent with the provisions hereof.

(c) The restrictions and prohibitions contained herein shall apply to Brede, Inc., its successors and assigns, or persons acting on its behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(d) This order shall take effect on July 1, 1945 and shall expire on July 1, 1946.

Issued this 18th day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

FEDERAL REGISTER

VOLUME 10 NUMBER 165

Washington, Wednesday, August 22, 1945

The President

PROCLAMATION 2659

ELIMINATING CERTAIN LANDS FROM THE SANTA ROSA ISLAND NATIONAL MONUMENT AND RESERVING THEM FOR THE USE OF THE WAR DEPARTMENT FOR MILITARY PURPOSES

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS certain Government-owned lands now comprising a part of the Santa Rosa Island National Monument, in the State of Florida, are needed by the War Department for military purposes; and

WHEREAS the elimination of such lands from the national monument would not seriously interfere with its administration:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, by virtue of the authority vested in me by the act of June 8, 1906, c. 3060, 34 Stat. 225 (16 U. S. C. 431), and as President, do proclaim that the following-described lands are hereby eliminated from the Santa Rosa Island National Monument and reserved for the use of the War Department for military purposes, subject to valid existing rights, including those arising out of a lease granted to the Island Amusement Company by Escambia County, Florida, on September 10, 1929, and subsequently modified:

Tallahassee Meridian

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* § 3.6 (o) *Advertising falsely or misleadingly—Old or reclaimed as new:* § 3.66 (a7) *Misbranding or mislabeling—Composition:* § 3.66 (e) *Misbranding or mislabeling—Old, secondhand, reclaimed or reconstructed as new.* In connection with the offering for sale, sale, and distribution of mattresses and other bedding in commerce, (1) using the term "New Materials" or any other term of similar import to designate or describe the material content of mattresses or other bedding composed in whole or in part of "sweeps"; or (2) representing, directly or by implication, that any of respondent's said products composed in whole or in part of "sweeps" is composed of new materials; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order, Bennettsville Mattress Factory, Docket 5024, July 31, 1945]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 31st day of July, A. D. 1945.

In the Matter of John P. Dowd, an Individual Doing Business Under the Firm Name and Style of Bennettsville Mattress Factory

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer of the respondent, testimony and other evidence in support of the complaint and in opposition thereto taken before a trial examiner of the Commission theretofore duly designated by it, report of the trial examiner upon the evidence, briefs filed in support of the complaint and in opposition thereto, and oral argument of counsel; and the Commission having made its findings as to the facts and its conclusion that the respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, John P. Dowd, an individual, trading as Bennettsville Mattress Factory or trading under any other trade name, and his representatives, agents, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, and distribution of mattresses and other bedding in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the term "New Materials" or any other term of similar import to designate or describe the material content of mattresses or other bedding composed in whole or in part of "sweeps."

2. Representing, directly or by implication, that any of respondent's said products composed in whole or in part of "sweeps" is composed of new materials.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

[T. D. 5472]

PART 188—BOTTLING OF DISTILLED SPIRITS IN BOND

LOSSES IN BOTTLING TO BE TAX-PAID

Pursuant to sections 2800, 2903, 2904, 3172, 3176, and 3640, Internal Revenue Code, § 188.64 of Regulations 6 (26 CFR, Part 188) is hereby amended to read as follows:

§ 188.64 *Losses in bottling to be tax-paid.* All losses sustained in the process of bottling, on distilled spirits bottled

before tax-payment, must be tax-paid When Forms 1516 have been audited, the district supervisor shall prepare notice on Form 1607, "Notice of Tax Due on Losses of Spirits Bottled in Bond," in triplicate, for each internal revenue bonded warehouse, showing thereon the total losses in bottling for the month upon which tax is due. The original copy thereof will be forwarded to the proprietor of the internal revenue bonded warehouse on whose premises the bottling-in-bond department is situated, and one copy will be transmitted to the proper collector of internal revenue. The third copy of the notice will be filed in the district supervisor's office. If the taxpayer does not within 30 days from date of such notice pay the tax due, the collector shall enter the amount for assessment on his current Distilled Spirits List. At the end of 60 days from the date of the notice, the district supervisor shall ascertain from the collector whether the amount of the tax due has been paid or assessed, and appropriate notations will be entered on the retained copy of the form. (Secs. 2903, 2904, 3176, I. R. C.; secs. 2890, as amended, 3172, 3640, I. R. C.)

This regulation shall take effect from and after the date of filing with the Division of the Federal Register.

[SEAL] JOSEPH D. NUNAN, Jr.,
Commissioner of Internal Revenue.

Approved: August 20, 1945.

JOSEPH J. O'CONNELL, Jr.,
Acting Secretary of the Treasury.

TITLE 29—LABOR

Chapter IX—Agriculture Department (Agricultural Labor)

[Rev. Supp. 31]

PART 1108—SALARIES AND WAGES OF AGRICULTURAL LABOR IN THE STATE OF IDAHO

WORKERS ENGAGED IN HARVESTING POTATOES IN CERTAIN COUNTIES IN THE STATE OF IDAHO

Supplement No. 31 (formerly known as Specific Wage Ceiling Regulation 31) issued September 30, 1944 (9 F.R. 11991, 10 F.R. 3518) is hereby amended and revised to read as follows:

§ 1108.2 *Workers engaged in harvesting potatoes in the Counties of Bannock, Bear Lake, Bingham, Bonneville, Butte, Caribou, Clark, Custer, Fremont, Franklin, Jefferson, Lemhi, Madison, Oneida, Power, and Teton, State of Idaho.* Pursuant to § 4001.7 of the regulations of the Economic Stabilization Director relating to wages and salaries issued August 28, 1943, as amended (8 F.R. 11960, 12139, 16702; 9 F.R. 6035, 14547, 10 F.R. 9478, 9628) and to the regulations of the War Food Administrator issued March 23, 1945 (10 F.R. 3177) entitled "Specific Wage Ceiling Regulations" and based upon a certification of the Idaho USDA Wage Board that a majority of the producers of potatoes grown in the area affected participating in hearings conducted for such purpose have requested the intervention of the Secretary of Agriculture and based upon relevant facts submitted by the Idaho USDA Wage Board and obtained from other sources, it is hereby determined that:

(a) *Areas, crops and classes of workers.* Persons engaged in harvesting potatoes in the Counties of Bannock, Bear Lake, Bingham, Bonneville, Butte, Caribou, Clark, Custer, Fremont, Franklin, Jefferson, Lemhi, Madison, Oneida, Power, and Teton, State of Idaho, are agricultural labor as defined in § 4001.1 (1) of the regulations of the Economic Stabilization Director issued on August 28, 1943, as amended (8 F.R. 11960, 12139, 16702; 9 F.R. 6035, 14547; 10 F.R. 9478, 9628).

(b) *Definitions.* When used in this section:

The term "loading" means loading potatoes in the field from ground to carrier and arranging thereon.

The term "bucking" means loading of potatoes and transporting to a point of unloading, unloading, and return to field for reloading.

(c) *Maximum wage rates for harvesting of potatoes.* (1) For picking potatoes:

(i) 10 cents per 120-pound sack for yields of 200 or more sacks per acre.

(ii) 11 cents per 120-pound sack for yields of 150–199, incl., sacks per acre.

(iii) 12 cents per 120-pound sack for yields of 100–149, incl., sacks per acre.

(iv) 14 cents per 120-pound sack for yields of 80–99, incl., sacks per acre.

(v) 16 cents per 120-pound sack for yields of 60–79, incl., sacks per acre.

Yields under 60 sacks per acre shall be individually adjusted on a rate based on 120-pound sacks.

(2) For loading potatoes—2¢ per 120-pound sack divided among bucking crew, or $1 per hour per person.

(3) For bucking potatoes—4¢ per 120-pound sack plus ¼¢ per 120-pound sack for each mile or fraction thereof transported in excess of four miles divided among the bucking crew, or $1 per hour per person.

(d) *Administration.* The Idaho USDA Wage Board, located at 521 Idaho Building, Boise, Idaho, will have charge of the administration of this section in accordance with the provisions of the specific wage ceiling regulations issued by the War Food Administrator on March 23, 1945 (10 F.R. 3177).

(e) *Applicability of specific wage ceiling regulations.* This section shall be deemed to be a part of the specific wage ceiling regulations issued by the War Food Administrator on March 23, 1945 (10 F.R. 3177) and the provisions of such regulations shall be applicable to this section and any violation of this section shall constitute a violation of such specific wage ceiling regulations.

Effective date. This Revised Supplement No. 31 shall become effective at 12:01 a. m., Mountain war time, August 21, 1945.

PART 3290—TEXTILES, CLOTHING AND LEATHER

[Limitation Order L–99, as Amended Aug. 18, 1945]

OPERATION OF LOOMS FOR COTTON BROAD WOVEN FABRIC PRODUCTION

The fulfillment of requirements for the defense of the United States has created a shortage in the production of cotton broad woven fabrics and materials for making cotton broad woven fabrics for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.46 *Limitation Order L–99—(a) Operation of looms for cotton broad woven fabric production.*—(1) *Purpose.* This order controls the operation of looms for the production of cotton woven fabrics of more than 12" in width.

(2) No person shall, regardless of the presentation of rated orders, operate looms contrary to the provisions in the schedules of this order. These restrictions shall not prohibit, after written notification to the War Production Board, the manufacture of any construction in any group in the schedules of lower pick than the lowest pick specified in the "May produce only" column as to such group, unless the War Production Board by a specific direction prohibits that manufacture.

In case any person believes it to be in the interest of production for military or essential civilian needs to adjust his production otherwise than as provided in said schedules, he may file an application by letter and the War Production Board will consider such application in the light of programmed requirements.

(3) No person shall operate looms formerly operated in the production of cotton broad woven fabrics and which were acquired by him after June 30, 1944, except as specifically authorized in writing by the War Production Board. No person shall operate new looms, acquired by him after June 30, 1944, to produce cotton broad woven fabrics, except as specifically authorized in writing by the War Production Board. For authorization, an application may be made by letter to the War Production Board, stating all facts, including the type of fabric he wishes to produce. In instances where he has acquired used looms he shall state the name of the person who formerly owned or controlled the looms and the fabric formerly produced on them.

(b) *Production direction.* Each person in the business of producing broad woven cotton fabrics who, in the second calendar quarter of 1944, produced any construction marked with an asterisk on Schedule A, shall produce in each calendar quarter at least as much yardage of each such construction as the greater of the following:

(1) Ninety percent of the linear yardage of such construction which he produced in the second quarter of 1944, increased or decreased in inverse proportion to any change in pick he has made since then, or

(2) The linear yardage which can be produced by operating each loom producing such construction for at least as many hours as any other loom in his mill is operated."

(c) *Exception—(1) Explanation.* This paragraph tells how a producer whose production is not needed for Army or Navy contracts or subcontracts may obtain an exception from provisions of this order or a direction to this order.

(2) *Release of certain looms.* Looms which, between August 28, 1944 and August 18, 1945, produced or were assigned to produce any fabric not of standard commercial construction to fill a contract or subcontract from the United States Army or Navy, unless otherwise directed, may produce any fabric marked with an asterisk on Schedule A, to the extent that the looms are no longer needed for the filling of Army or Navy contracts or subcontracts, if the producer files, before making the change, with the War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., a written statement substantially as follows:

> The undersigned hereby certifies to the War Production Board that his contract(s) or subcontract(s) from the United States Army or Navy, Number _____ for _____ (insert yardage) yards of _____ (insert kind of fabric) per month will expire on _____ —have been extended—have been completed—(strike out whichever is inapplicable) have been terminated in whole or in part; that he is unable to obtain further contract(s) or subcontract(s) from the Army or Navy which would require after _____ the use of the looms assigned to produce fabrics to fill these contracts; and that he intends to produce _____ yards of _____ per month on the looms which formerly or until _____ (insert date) are or will be used to fill such contract(s) from the Army or Navy.

NOTE: Paragraphs (d), (e), (f), (g) and (h), formerly (c), (d), (e), (f) and (g), redesignated, Aug. 18, 1945.

(d) *Reports and records.* All persons operating looms for the production of cotton textiles of any kind shall file with the War Production Board at the times specified in the reporting forms, reports on Forms WPB–656–A, B, C, and D, giving the information therein required. All persons affected by this order shall keep and preserve for a period of not less than two years, accurate and complete records concerning inventories, production and sales. The reporting requirements of this order have been approved by the Bureau of the Budget under the Federal Reports Act of 1942.

(e) *Appeals.* (1) Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from and stating fully the grounds of the appeal.

(2) An appeal for suspension of the requirements of paragraphs (a) or (b) may be made on the ground that compliance will result in production at a loss, provided that an application for price relief on that ground is first filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy is filed with the WPB appeal. If the WPB appeal is granted, the requirement of these paragraphs for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

(f) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(g) *Violations.* Any person who willfully violated any provision of this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(h) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Ref., L–99.

Issued this 18th day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN
Recording Secretary.

SCHEDULE A

Looms which on July 22, 1944, produced or were assigned to produce cotton textiles listed in the column captioned "Did produce" may produce only cotton textiles of the constructions under the same Group Number specified in the column captioned "May produce only." If, however, the construction in the "May produce only" column is not marked with an asterisk, the looms may be operated to produce any construction which is marked with an asterisk in any Group Number. Where widths and weights are mentioned, pro rata widths of like counts and weights may be produced.

PART 3290—TEXTILE, CLOTHING & LEATHER

[Conservation Order M-328B, Schedule K]

SPECIAL PROGRAM FOR WOOL CIVILIAN ITEMS

§ 3290.120k *Schedule K to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in M-328B for manufacturers of civilian items manufactured from wool fabric to get an AA-3 preference rating for wool fabric for delivery beginning in the fourth quarter of 1945 to make the items listed in this schedule:

(b) *Definitions.* For the purpose of this schedule:

(1) "Fabric" unless otherwise designated, means a woven fabric 12 inches or more in width.

(2) "Wool fabric" means any fabric incorporating 25% or more by weight of new, re-processed or re-used wool fiber except upholstery pile fabrics and floor coverings and blankets and felt. The term includes woolen and worsted fabrics.

(3) "Wool item" means an item of which 50% or more of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is made of woolen or worsted fabrics.

(4) "Base period manufacturer" and "base period" mean the same as they do in Order M-328B, except that a person who did not manufacture an item listed in this schedule during the base period at or below the maximum price set forth in the schedule shall not be considered a base period manufacturer.

(c) *Special requirements for obtaining priorities assistance.* (1) Three copies of form WPB-3732 must be filed in accordance with the rules stated in paragraph (c) of Order M-328B, except that for the fourth calendar quarter of 1945 applications must be postmarked not later than September 5, 1945.

(2) A manufacturer who files form WPB-3732 for the fourth calendar quarter of 1945 by September 5, 1945, may, as soon as he files his application, apply an AA-3 rating for the purchase of wool fabrics for delivery in that quarter for incorporation into the wool items for which application is made. He may do so only for an item he made in the base period at or below the price shown in the preference rating schedule and only for two-thirds of the yardage of wool fabrics he used in the base period with respect to any item. Wool fabrics purchased under this provision shall be deducted by the manufacturer from the total quantity for which priorities assistance is granted on form WPB-3732. If the applicant does not receive a grant of the entire quantity thus rated, he shall, upon notification of his grant by the War Production Board, immediately unrate or cancel orders for any undelivered quantities which are in excess of his grant.

(3) Manufacturers who did not produce in the base period any item applied for on form WPB-3732 at or below the price shown in the preference rating schedule may not use any preference ratings under this schedule (for the fourth quarter of 1945) until the War Production Board has assigned them a quota.

(4) A base period manufacturer may not apply for a quantity of wool fabric for any item greater than 100% of the linear yards used by him in the base period for the production of that item.

(d) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get wool fabrics to make the wool items specified in the preference rating schedule.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lowest of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration.

(ii) The price specified in the maximum price column.

(3) A manufacturer who is not a base period manufacturer must comply with the provisions of paragraph (c) (6) of Order M-328B.

(4) A manufacturer who did not manufacture an item on the base period must state his proposed production by size assortment per dozen in the "Remarks" section of Form WPB-3732. If his application is granted, he must comply with these size assortments.

(5) Additional priorities assistance may be given for the procurement of rayon, wool and cotton broad woven fabrics for linings, interlinings, facings, bindings, stays and other components made of broad woven fabric and for narrow woven selvage edge tape needed for incorporation into the number of units for which priorities assistance is granted. Requests for this additional priorities assistance shall be made on Form WPB-3732 separately for each item for which application is made.

(6) *Provisions in case of governmental cut-backs.* At any time during any calendar quarter a manufacturer who has received cancellations or cut-backs on military contracts or orders placed by an agency of the U. S. Government, or who during the quarter has production facilities made available, may apply to the War Production Board on Form WPB-3732 for priorities assistance to manufacture items listed in this schedule. Such applications will be approved to the extent of available materials and the need for additional production of the items applied for.

(7) The AA-3 preference rating authorized by this schedule may be extended to purchase wool fabric, wool yarn and wool top. Such ratings shall be extended as provided in Priorities Regulation 3 and Order M-328.

Issued this 18th day of August 1945.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 29, as Amended Aug. 21, 1945]

REVISED PRIORITIES SYSTEM

Section 944.50 *Priorities Regulation 29* is amended to read as follows:

§ 944.50 *Priorities Regulation 29*—(a) *What this regulation does:* This regulation describes the accelerated transition to a revised and simplified priorities system. The system previously announced in Priorities Regulation 29 to take effect on January 1, 1946 was designed to insure the continuing production of military and other essential requirements for the Japanese war. Victory over Japan has reduced military requirements to such an extent that the previously announced system is no longer appropriate. There are four principal features of the modified system as explained in this regulation: (1) the new system will become fully effective on October 1 instead of January 1 as originally announced; (2) WPB is introducing a new nonextendible "CC" preference rating which will be used in individual cases to assist reconversion and insure the continued fulfillment of essential civilian and export needs; (3) the MM rating originally introduced for military use will be continued for the time being to support the requirements of the occupation forces and other continuing military needs; (4) Priorities Regulation 30, which provided for direct assignment of MM ratings by WPB under certain circumstances, has been revoked. There will also be changes in other orders and regulations of the WPB. It may not be practicable to make all such changes before this regulation is published and if there is any inconsistency between this regulation and any other regulation or order of the WPB, this one controls unless the other expressly states the contrary.

(b) *General description of new rating system.* The present system of AA ratings (AA-1, AA-2, AA-2X, AA-3, AA-4 and AA-5) and the Controlled Materials Plan will be discontinued on September 30, 1945 and will be replaced by the following:

(1) The AAA rating will still be assigned in emergencies as under existing procedures.

(2) The new MM rating will be assigned by the Army and Navy and other military agencies. WPB Directive 41 and other WPB Directives will explain the rules governing the assignment of ratings by those agencies. The WPB will not generally assign the MM rating directly to manufacturers, and Priorities Regulation 30 which was issued for that purpose has been revoked. In a few instances, the WPB may assign MM ratings directly for specific items and quantities of materials or equipment, but this will be done only where it is clearly necessary for requirements of high urgency. Do not apply to WPB for an MM rating unless it is specifically announced by a direction to this regulation or other formal action of the WPB that WPB will assign it.

(3) The new CC rating will be assigned as described in Priorities Regulation 28. That regulation describes the limited conditions under which WPB may assign the CC rating for any purpose, except actual military procurement. The new CC rating is not extendible except as explained in paragraph (g) (2) at the end of this regulation, and in Priorities Regulation 3.

(4) The rules for the acceptance and filling of rated orders and the use of ratings are the same for the MM rating as for ratings in the AA series, except as otherwise stated in this regulation or other orders and regulations of the WPB. During the period from July 1 through September 30, the MM rating is equivalent to AA-1, and the CC rating is equivalent to AA-2.

(5) The AA rating system will be retained for the time being for procurement of textiles and allied products. The use of AA ratings for these products and the use of MM and CC ratings is explained in Direction 18 to Order M-328. It is not expected that the AA rating system will be retained for any other products. However, if it is retained, the orders controlling these products will be amended to make clear that some of the provisions of this regulation do not apply to such materials.

(c) *Expiration of AA ratings.* (1) The AA rating system remains effective as to deliveries between now and the end of September, 1945.

(2) Effective immediately, all preference ratings in the AA series are cancelled on purchase orders calling for delivery after September 30. Suppliers must disregard any AA ratings on purchase orders for delivery after September 30 which they have received or which they may receive, and must treat such orders as unrated.

(3) WPB will discontinue immediately the assignment of AA ratings for delivery after September 30.

(4) Orders bearing AA ratings identified as military orders will not be automatically re-rated MM as previously provided in this regulation. Most of them have already been unrated, as explained in Direction 1 to this regulation. Other military orders with AA ratings which call for delivery after September 30 must be treated as unrated orders in the same way as all other orders bearing ratings in the AA series. Some orders may be specifically re-rated MM or CC, but a supplier must not assume that this will be done and must treat the orders as unrated unless a specific re-rating is received.

(d) *End of Controlled Materials Plan.* (1) On October 1, the Controlled Materials Plan and all regulations and directions issued under it (except inventory restrictions) will automatically expire, including directions or directives issued before August 21, 1945, to individually named controlled materials producers, warehouses, or distributors.

(2) Until the end of September, deliveries of controlled materials will continue to be regulated by the Controlled Materials Plan alone and not by ratings. However, an order for controlled materials rated AAA, MM, or CC is to be treated as an authorized controlled material order.

(3) Effective immediately, all fourth quarter and subsequent allotments of controlled materials are cancelled. Controlled material producers and warehouses must treat every authorized controlled material order for fourth or subsequent quarter delivery as an unrated order, unless it is specifically re-rated AAA, MM or CC.

(4) Authorized controlled material orders identified as military orders will not be automatically re-rated MM as previously provided in this regulation. Most of them have already been unrated

as explained in Direction 1 to this regulation. Other authorized controlled material orders which call for delivery after September 30, must be treated as unrated orders in the same way as all other authorized controlled material orders. Some orders may be specifically re-rated MM or CC, but a supplier must not assume that this will be done and must treat the orders as unrated unless a specific re-rating is received.

(e) *Maintenance, repair and operating supplies.* (1) CMP Regulations 5 and 5A and the P and U orders assigning priorities assistance for maintenance, repair and operating supplies will remain in effect through September 30 at which time they will expire.

(2) Under the new rating system, after September 30, ratings will not be given for maintenance, repair and operating supplies on a blanket basis similar to CMP Regulations 5 and 5A and the present P and U orders.

(f) *Construction, facilities and equipment.* (1) CC ratings for construction material, facilities and equipment will be assigned by WPB under the conditions described in Priorities Regulation 28, instead of Priorities Regulation 24, which has been revoked, and Direction 5 to Order L-41.

(2) Military agencies will assign the MM rating for certain construction, facilities and equipment, required for military prime and subcontracts as described in the appropriate WPB Directives. Application for these ratings should be made on Form WPB-542 to the appropriate military agency. In a few cases, the WPB may assign the MM rating for construction where it is clearly necessary for requirements of high urgency. Do not apply to WPB for an MM rating for construction unless WPB has specifically announced that it will assign such rating.

(g) *Extension of customers' ratings*—(1) *MM ratings.* The rules of Priorities Regulation 3 as to extension of customers' ratings apply to MM ratings in the same way as to AA ratings. Manufacturers of Class B products and unclassified products who receive their production material ratings from the WPB and are forbidden by CMP Regulation 3 and Priorities Regulation 11B to extend their customers' ratings, may nevertheless extend customers' MM ratings for delivery after September 30 as explained in Priorities Regulation 3.

(2) *CC ratings.* The CC rating cannot be extended by a supplier to get production materials needed to make the item sold to his customer, or to replace in inventory materials used to make the item. A distributor, warehouse, retailer or other person who resells the item without further fabrication may extend the CC rating where he does not have the item in inventory, but may not extend the rating to replace the item in inventory.

Issued this 21st day of August 1945.

[L-41, Direction 7]

EXEMPTION FROM CONSERVATION ORDER L-41 FOR INDUSTRIAL CONSTRUCTION

The following direction is issued pursuant to Conservation Order L-41:

(a) *General provisions.* It is not necessary to get permission from the War Production Board under Conservation Order L-41 for industrial construction. The term "industrial construction" means (1) any construction of or on a factory, plant or other unit, where the unit is to be primarily used for the manufacturing, processing or assembling of any goods or materials (other than as retail service work), (2) construction in a unit not primarily engaged in industrial work, if the purpose of the construction is to prepare a part of the unit for the manufacturing, processing or assembling of goods or materials, or (3) construction of facilities owned by a manufacturer which are not located in an industrial unit and in which no manufacturing, processing or assembling is done, if the facilities are necessary for the handling of raw materials or components in the course of moving them to the manufacturing plant or are necessary for the storage of the manufactured item after manufacture or the distribution of the item to the retailer (not including retail stores or other retail outlets or administration or office buildings owned by the manufacturer, unless they are part of an industrial unit as covered by (1) above).

(b) *Definition of a unit.* Paragraph (d) (2) of L-41 defines a unit as a single independently operated structure or building, or a group of buildings or structures which are situated near to each other and which serve the same general purpose or closely related purposes. For example, a manufacturing plant with a number of buildings used for the same or different processes, together with the related administration buildings, cafeterias, warehouses and the like on the same site, constitutes a single unit. Construction of or on any such buildings is exempted from L-41 by this direction. However, an office building or retail sales department at a different location is not considered as part of the industrial unit, even though used exclusively in connection with the industrial plant, and construction of or on such buildings is not exempted under this direction.

(c) *Industrial units.* The following kinds of work are considered manufacturing, processing or assembling goods or materials, and units primarily engaged in such work are exempted from L-41 under this direction:

(1) Mining, smelting and refining, foundries, and other operations related to the extraction of minerals and their conversion to finished form, including certain scrap dealers as indicated in Interpretation 13 to L-41.

(2) Logging and lumbering operations, sawmills, planing mills, kilns and millwork manufacturers (but not retail lumber yards).

(3) Pilot plants and industrial research laboratories.

(4) Food processing plants, slaughterhouses, commercial food freezing plants, commercial cold storage warehouses, commercial food packing plants (whether on or off farm), bottling plants, grain elevators, canneries (but not butcher or grocery stores or frozen food locker plants serving individual customers).

(5) Textile mills, cotton mills and the like (but not tailors' or dressmakers' establishments).

(6) Printing and publishing establishments, including those publishing newspapers or printing books, magazines or periodicals.

(d) *Units which are not industrial.* Retail service establishments performing services for individual customers are not considered as engaged in manufacturing, processing or assembling goods or materials and construction on such units is not exempted from L-41 by this direction (see subparagraph (d) (1) (v) of Order L-41 for the annual allowance applicable to retail service establishments). Repair shops, tailoring or dressmaking shops making or repairing clothes for individual customers, butcher shops, frozen food locker plants and the like are examples of units not exempted by this direction.

PART 3293—CHEMICALS

[General Preference Order M-340, as Amended Aug. 21, 1945]

MISCELLANEOUS CHEMICALS

§ 3293.491 *General Preference Order M-340*—(a) *Definitions.* (1) "Subject chemical" means any chemical as defined in List 1 attached to this order.

(2) "Preferred order" means any purchase order for subject chemicals which are (i) ultimately to be delivered to or incorporated in material to be delivered to, the United States Army, Navy, Marine Corps, Coast Guard, Maritime Commission, War Shipping Administration, Panama Canal, Office of Scientific Research and Development, Veterans' Administration, or any government agency pursuant to the Act of March 11, 1941 (Lend-Lease Act), unless restricted in the second column of list 1 attached to this order, or which are (ii) ultimately to be used for any preferred purpose specified opposite the subject chemical in List 1 attached to this order. The term "preferred order" under item (i) above shall not include any order for a military exchange or service department unless clearly identified on its face as coming within the definition of "overseas order" under Priorities Regulation 17.

(b) *Inapplicability of certain preference ratings.* (1) No person shall give any effect to any preference rating below AAA on any purchase order for subject chemicals, unless the person placing the purchase order certifies that it is a "Preferred order" and that acceptance of delivery will not result in his having an inventory in excess of that permitted under paragraph (c) of this order. No person may be required to make delivery during the succeeding calendar month on any purchase order for subject chemicals placed with him less than 10 days before the close of a calendar month bearing a preference rating below AAA. Preference ratings on certified preferred orders shall be given full effect.

(2) "Preferred orders" shall be certified in substantially the following form, duly signed by an authorized official:

Certified as Preferred Order under WPB Order M-340

(Identify purchase order if certificate is not on it or attached to it; if certificate does not cover whole order, add "as to _____ (quantity) of _____ (material). Add 'Inventory certified—Ref: M-340, paragraph (b) (1)'.")

_____
(Name of purchaser)

_____
(Signature and title of duly authorized official)

The certificate may be indorsed on or attached to the purchase order and need not be filed with the War Production Board. Any person receiving the certificate may rely upon it unless he knows or has reason to believe that it is false. The standard certification of Priorities Regulation 7 may not be used instead.

(3) [Deleted Aug. 21, 1945.]

(c) *Use of certified preferred orders.* (1) Where a person is ordering a subject chemical to fill either orders for the chemical itself or orders for material into which it is to be incorporated, he may not certify his order as a preferred order if the orders to be filled are not on hand. An order for a subject chemical may be certified as a preferred order if the chemical is required to replace withdrawals from inventory of the chemical within the previous 30 days used to fill orders for a purpose preferred under paragraph (a) (2), but in no case may an order for a subject chemical to accumulate inventory be certified as a preferred order.

(2) Even in cases where an order to replace inventory might be certified as a preferred order under paragraph (c) (1) above, no person may so certify an order, if the receipt of the quantity ordered would result in his having an inventory of the subject chemical, whether or not acquired in part by uncertified orders, in excess of an amount sufficient to meet deliveries on orders for purposes preferred under paragraph (a) (2) which he has accepted for delivery during the succeeding 60 day period (unless a different period is indicated in List 1). This paragraph prohibits the use of certified preferred orders for inventory except as specified above. It does not restrict the amount of inventory which a person may accumulate by uncertified orders, but if a person accumulates by uncertified orders or otherwise an inventory in excess of that specified he is prohibited from using certified preferred orders to replace withdrawals from inventory, even though the withdrawals were made for preferred purposes, until his inventory has been reduced to the specified amount. Inventories continue to be subject to other applicable orders and regulations of the War Production Board.

(d) *Special directions.* The War Production Board may at any time issue special directions to any person regarding production, use or delivery of subject chemicals, notwithstanding the other provisions of this order.

(e) *Applicability of regulations.* Except as provided in paragraph (b) above, this order and all transactions affected hereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Communications.* Communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-340.

Issued this 21st day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST 1

Subject chemical	Preferred purposes under paragraph (a) (2) (ii)
1. Oxidized petrolatum, meaning high paraffinic petrolatum oxidized and processed to contain aliphatic ketones, and which is suitable for use as a base in the manufacture of rust preventative compounds or corrosion inhibitors meeting Specification No. 52-C-1s such as those petrolatums known by the trade-marks Par-Al-Ketone, Alox 205, and Alox 701.	None.
2. Enamelwire naphtha, also known as E. W. naphtha, meaning a mixture of aromatic solvents derived from coke oven light oil, drip oil, or coal tar, distilling between 150 and 200° C., with at least 15 per cent monomeric polymerizable constituents of the cumotene-indene type. The term does not include aromatic material for the production of E. W. naphtha, or for the production of cumotene-indene resin, or for the production of other chemicals or intermediates, or for use as solvents in the crude state.	(i) Wire and cable.
3. Precipitated calcium carbonate, meaning ultrafine particle calcium carbonate such as the chemical known as Kalvan, Witcarb R and Multifex.	(i) Wire and cable.
4. Bi-flash naphtha, meaning water white coal tar solvent naphtha, having a distillation range of 140° C. (292° F. to 200° C.) (392° F.) derived from coke oven light oils, coal tar distillates, drip oils or holder oils.	None.
5. Dipentene, meaning certain terpene solvents, consisting largely or entirely of mono cyclic terpene hydrocarbons of the empirical formula $C_{10}H_{16}$, having a distilling range and solvent power above that of turpentine.	(i) Rubber reclaiming. NOTE: Orders for dipentene to be used for ultimate delivery for paint to any agency listed under paragraph (a) (2) (i) under specifications not specifying dipentene are not included in "preferred orders."

LIST 1—Continued

Subject chemical	Preferred purposes under paragraph (a) (2) (ii)
17. Amyl alcohol, meaning any aliphatic alcohol having the empirical formula $C_5H_{12}O$, whether it is normal, iso, or tertiary forms of amyl alcohol but not cyclic alcohol in the unrefined form known as crude fusel oil. Also amyl acetate, meaning the acetic esters of amyl alcohol. (Subject to M-340 on and after July 2, 1945).	(i) Penicillin. NOTE: Orders for amyl alcohol and amyl acetate to be used for ultimate delivery of lacquer, lacquer thinner or retarder thinner to any agency listed under paragraph (a) (2) (ii) specifying uses that are not included in "preferred orders."
18. Terpene hydrocarbon resins, meaning terpene hydrocarbon resin type polymers derived from pinene.	(d) Manufacturing and compounding of synthetic and natural rubber. None.
19. Synthetic camphor, meaning the oxygenated bicyclic terpene of the empirical formula $C_{10}H_{16}O$ which is sublimated from turpentine or borneol. (Subject to M-340 on and after July 2, 1945).	None.
20. Soluble nitrocellulose, meaning the product having a nitrogen content of 12.5% or less made by nitrating any form of cellulose (including reclaimed fibers), wood pulp and alpha cellulose) and which does not include nitrocellulose to be used in the manufacture of dynamite.	None.
21. Urea formaldehyde resins as defined in Order M-300, Schedule 34 amended July 26, 1945. Urea and melamine aldehyde resin mean any synthetic resin reaction product of urea, thiourea, or melamine or any derivative of any of these with formaldehyde, hexamethylenetetramine (CH_2) radical, which does not contain as its principal resin forming constituent any resin other than urea or melamine and is not further reacted with organic solvents such as butanol or xylol. (Subject to M-340 on and after August 1, 1945.)	None.
22. Urea and melamine aldehyde molding compounds, meaning any moldable combination of bulk filler (such as wood flour, asbestos, mica or macerated fabric) with urea or melamine aldehyde resin. (Subject to M-340 on and after August 1, 1945.)	None.
23. Vulcanized fibre tubing, meaning tubing which is formed by convolute (not spiral) winding and which consists of chemically cellulosic fibre sheet, commonly designated as "rope paper" or "hard vulcanized fibre" and which is subsequently leached out of the resulting cellulose material commonly designated as cotton rag or alpha cellulose paper. (Subject to M-340 on and after August 1, 1945.)	(i) Fluid milk containers.
24. Paraffin wax, meaning a solid hydrocarbon mixture having a melting point between 110° F. to 155° F. (ASTM-D-87-44) and a minimum kinematic viscosity of 5.74 centistokes at 210° F. (ASTM-D-445-44T) wholly derived by the refining and distillation and expression, or by solvent extraction, from that portion of crude petroleum known as paraffin distillate. 30-day period under paragraph (c) (2). (Subject to M-340 on and after August 1, 1945.)	(i) Compounding and reclaiming of synthetic and natural rubber. None.
25. Pine tar, meaning the liquid pine tar and tar oil, of all grades and weights which is derived by the distillation of pine wood by the retort or kiln process. (Subject to M-340 on and after August 1, 1945.)	None.
26. Ultramarine blue, meaning the manufactured blue pigment approximating the composition of natural lapis lazuli. The term includes all those grades known in the trade as C.P. Nos. 5, 506, 506 Special, 506 Extra, 506 Deep, 506 Red, 506 Green, 506 Violet, 506 Pink, 506 Rose, 506 Lavender, 506 Brilliant, 506 Brilliant Green, 506 Brilliant Violet, 506 Brilliant Pink, 506 Brilliant Rose, 506 Brilliant Lavender, 506 Brilliant Blue, 506 Brilliant Red, 506 Brilliant Orange, 506 Brilliant Yellow, 506 Brilliant Green Shade, 506 Brilliant Violet Shade, 506 Brilliant Pink Shade, 506 Brilliant Rose Shade, 506 Brilliant Lavender Shade, 506 Brilliant Blue Shade, 506 Brilliant Red Shade, 506 Brilliant Orange Shade, 506 Brilliant Yellow Shade

cover jobber's sales. A jobber's sale is a sale to retail lumber yards or other distributors for resale and not for use by a seller who operates a warehouse, yard or plant where he stocks doors of various sizes and specifications which he purchases for resale.

Where the seller and the sale meet the above tests any doors which he has purchased and stocked in his warehouse may be sold at the maximum prices provided for the appropriate area in MPR 525, which covers jobber's sales of doors for which maximum direct-mill sale prices are provided in this regulation.

In any one jobber sale, he may include at the jobber maximum price no more than 250 doors manufactured by him. If he includes more than 250 doors manufactured by him in any sale, the doors manufactured by him shall be sold at no higher than the direct-mill price.

All sales out of jobbers' warehouses which are situated in the same locality as a manufacturing plant and which are controlled by the plant, control it, or are under common control with it are direct-mill sales.

(d) *Persons covered by the regulation.* Any person who sells or purchases doors covered by this regulation, in transactions covered by this regulation, is subject to the regulation.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 3. *Maximum prices for direct-mill sales.* The maximum f. o. b. mill prices for direct-mill sales of Douglas fir doors are set out in Appendices A through F, inclusive (secs. 18 through 23, inclusive), of this regulation.

SEC. 4. *Maximum prices for items not specifically priced.* If a seller wishes to sell an item covered by the regulation but not specifically priced therein, or wishes to make an addition for special workings, specifications, services, or other extras for which additions are not specifically permitted, he must apply in writing to the Building Materials Branch, Office of Price Administration, Washington 25, D. C., for a maximum price.

The seller's application may be for specific approval in reference to a particular order or inquiry; or for general approval in reference to a price or price list which he seeks to set up for general use in the future on items included in the coverage of the regulation (section 2) but not specifically priced in the appendices of the regulation.

(a) Where the application is for specific approval in reference to a particular order or inquiry, it shall be made prior to any shipment, or within 5 days after acceptance of order, whichever be the earlier date. The following information shall be set forth: (1) the requested price; (2) a complete description of the item to be priced, which may be made by reference to a standard item, with an explanation of the differences; (3) the price differential between it and the most comparable item in the price table between October 1, 1941 and March 31, 1942 from the seller's own records, or if that is impossible, from such price tables of other sellers in the trade. If no established price differential existed, detailed analysis of comparative cost of manufacture should be furnished; (4) the purchaser's name, and points of origin and delivery of shipment.

If the application is for specific approval in reference to a particular order or inquiry which is identical with an order or inquiry upon which specific approval has previously been granted by the Office of Price Administration, it is sufficient for the seller to identify, by reference, such previous application and approval. In such case, the only additional information required is the purchaser's name, and points of origin and delivery of shipments.

A seller using this pricing method may quote and make sales and deliveries prior to receipt of written approval from the OPA. He also may collect the price he has requested, provided that he has first received a written acknowledgment of his application from the Office of Price Administration and has so informed the purchaser, in writing. The requested price is subject to revision within 30 days after the date of the acknowledgment, and, if the price is ordered to be reduced, the seller within 10 days after the date of such order must refund any excess collected over the price which is officially approved. If a requested price is not disapproved within 30 days of the date of the acknowledgment, it is approved. Where, after receipt of an application for specific approval, the Office of Price Administration requests additional information from the seller upon which to base its approval of a ceiling price, the time within which the requested price may be revised is automatically extended to 30 days after receipt of the requested information. An officially approved price shall be subject to further adjustment at any time, even after the 30-day period, as to all shipments made after the date of such further adjustment.

An authorization number will be assigned in every case where a special price is approved. Within 10 days after receipt of such number the seller must notify the purchaser in writing of the price which has been officially approved and the authorization number assigned; and the authorization number must appear on all invoices covering shipments made after the date the number was received by the seller.

(b) Where the seller's application is for general approval in reference to a price list which he seeks to set up for general use in the future for items included in the coverage of the regulation but not specifically priced in appendices of the regulation, he shall set forth the information required for specific approvals by (1), (2), and (3) in paragraph (a) above, and, in addition, a description of the uses to which the items will be put, and the purposes they will serve.

Quotations may not be made, orders taken, or shipments commenced until a maximum price has been approved in writing by the OPA.

An authorization number will be assigned in every instance where a special price or price list is approved; and this number must appear on all orders accepted and sales made, as well as on all invoices covering shipments. A file of all general approvals under this section will be open for inspection at the Office of Price Administration District Office at Portland, Oregon, as well as at the National Office, Building Materials Branch, Washington, D. C.

The approval of a maximum price shall not prevent a further adjustment in ceiling prices from being made, as the result of, or without, further application by the seller; and such further adjustment may be made to apply to all sales or shipments after the date the adjustment is issued.

(c) The Office of Price Administration may approve, disapprove or revise prices proposed or established under this section so as to make them consistent with the level of prices fixed by this regulation.

SEC. 5. *Charges for special cars and bracing.* (a) On cars containing orders for more than one lot, a charge of $2.50 per lot may be made to cover cost of segregating.

(b) Where bracing is required to permit partial unloading of a railroad car, a charge may be made not to exceed the actual cost of bracing.

SEC. 6. *Addition for storage-in-transit.* When a jobber's or other distributor's warehouse or yard sells doors that it does not already have in stock, and then, instead of shipping them directly from the mill to the buyer, stores them in its warehouse or yard and delivers them in quantities less than the total order to the buyer as he calls for them, the distributor may increase the applicable mill ceiling price on so many of the doors as are actually stored, as follows:

(a) Where the price is expressed as a discount off the list: Shorten applicable base discount 2 points.

(b) Where the price is expressed as a specific dollar-and-cents price: Add 5% to the applicable maximum price.

(Note that the sale is still a direct-mill sale.)

This addition may not be made when the distributor merely reloads fir doors at the warehouse or yard, or handles and stores them no more than is necessary in a normal case where the distributor receives a mill shipment, reloads it, and delivers it to the buyer; nor may this addition be made if the doors are stored at the job site since this is not storage-in-transit.

SEC. 7. *Invoicing requirements.* An invoice must be rendered in all sales. All invoices must contain a sufficiently complete description of the item including all extras to show whether or not the price is proper. The amount added for extras does not have to be shown separately except for storage-in-transit, special cars and bracing. The invoices must also show whether the sale is a direct-mill or retail sale and the origin and destination of the shipment.

Failure to invoice properly is just as much a violation of this regulation as charging an excessive price.

SEC. 8. *Maximum prices for retail sales.* The maximum price on a retail sale of fir doors covered by this regulation is the sum of the following:

(a) The seller's maximum price for the sale of the item fixed by the General Maximum Price Regulation; and

(b) The amount by which the seller's July 1945 net acquisition cost of the item delivered to his warehouse would exceed his March 1942 net acquisition cost of the item if the item had been purchased from a supplier of the same class in the same quantities as in March 1942.

If in March 1942 the seller bought from different classes of suppliers or in different quantities, he may add only the increase in the maximum prices of that class of suppliers which in the period January 1 to March 31, 1942, made the largest total shipments to him. No addition may be made because of cost increases resulting solely from purchasing from a more distant supplier, or from a different class of supplier, or in smaller quantities.

SEC. 9. *Prohibited practices*—(a) *General.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollar-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings, changes in discount practices, and the like.

(b) *Adding commission to ceiling prohibited.* It is unlawful for any person to charge, receive, or pay a commission for the service of procuring (including buying, selling or locating fir doors, or for any related service such as "expediting") which does not involve physical handling of fir doors, if the commission plus the purchase price results in a total payment by the buyer of the fir doors which is higher than the maximum price of the fir doors. For purposes of this regulation, a commission is any compensation, however designated, which is paid for the procurement of fir doors and is based directly or indirectly on the quantity, price or value of the fir doors in connection with which the service is rendered.

SEC. 10. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. However, when a request for a change in the applicable maximum price is pending, such authorization may be given in writing if it is deemed necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to act on the pending request for a change in price or to grant such authorization has been delegated.

SEC. 11. *Cash discounts.* When cash is paid within 5 days of delivery, the maximum price must be reduced by 2 percent. On specific written allocations issued by the Office of the Chief of Engineers, War Department, the terms thirty days net may be used by the seller regardless of his established practice.

ARTICLE III—MISCELLANEOUS

SEC. 12. *Applications for adjustment and petitions for amendment*—(a) *Government contracts.* Individual adjustments may be made in maximum prices in certain government contracts and sub-contracts in accordance with Procedural Regulation No. 6, issued by the Office of Price Administration.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

SEC. 13. *Records.* All sellers must keep records which will show a complete description of the fir doors sold, the name and address of the buyer, the date of sale, and the price. Buyers must keep similar records, including the name and address of the seller. These records must be kept for any month in which the seller or buyer sold or bought $200 or more of fir doors in transactions which are covered by this regulation, and shall be kept for a period of two years or the duration of the Emergency Price Control Act of 1942, as amended, whichever is the shorter period.

SEC. 14. *Enforcement.* Persons violating any provision of the regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license, or of one or more applicable price schedules or regulations.

SEC. 16. *Imports.* The maximum price for which Douglas fir doors produced in Canada may be purchased by a buyer covered by this regulation from a seller not covered by this regulation shall be the maximum price set forth in this regulation for direct-mill sales plus additions for actual transportation cost not to exceed the additions permissible under this regulation if the shipment had originated at Seattle, Washington.

SEC. 17. *Exports.* The maximum prices for export sales of Douglas fir doors are governed by the Second Revised Maximum Export Price Regulation.

ARTICLE IV—APPENDICES

SEC. 18. *Appendix A: Maximum prices for Douglas fir house doors.* (a) The maximum prices, f. o. b. mill, for Douglas fir house doors shall be the net prices computed by applying the following discounts to the list prices contained in paragraph (b) of this Appendix A:

Description of product: Old growth Douglas fir standard stock house doors; conforms with specifications contained in Commercial Standard CS 73-43, effective June 15, 1943; 1⅜" thick, 10 doors of a size and kind; 1¾" thick, 5 doors of a size and kind.	
Basic discount:	
On sales of more than 250 doors to persons who during the first 9 months of 1941 received the seller's prevailing maximum discount.	69½ percent.
On sales of 250 doors or less or sales to all other persons.	67½ percent.
No. 1 doors "A" grade	Basic discount.
No. 2 doors "B" grade	1 point longer than basic discount.
No. 3 doors "C" grade	2 points longer than basic discount.
Mill run, 1⅜" only	1 point longer than basic discount.
Storm doors	1 point longer than basic discount.
Cupboard doors "B and BTR" grade.	1 point longer than basic discount.
No. 1 sidelights "A" grade. Rim and French doors, "A" and "B" grades only.	Basic discount. 5 points longer than basic discount.

(b) The list prices referred to in paragraph (a) of this Appendix A shall be as follows:

(1) *Standard house door basic list.*

Size	1⅜ inches	1¾ inches	1¾ inches
2-0 x 6-0	$6.55	$8.40	$5.90
2-4 x 6-0	6.95	8.90	6.25
2-6 x 6-0	7.15	9.20	6.45
2-8 x 6-0	7.35	9.55	6.65
3-0 x 6-0	7.95	10.75	7.20
2-4 x 6-4	7.15	9.15	6.45
2-0 x 6-6	6.85	8.75	6.15
2-4 x 6-6	7.30	9.35	6.55
2-6 x 6-6	7.50	9.75	6.75

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RO 1A,[1] Amdt. 108]

TIRES, TUBES, RECAPPING AND CAMELBACK

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Ration Order No. 1A is amended in the following respects:

1. Section 1315.504 is amended to read as follows:

§ 1315.504 *Eligibility of farm implements and industrial, mining and construction equipment.* (a) A consumer who meets the applicable conditions of § 1315.501 may be issued a certificate for a Grade I passenger tire for a farm tractor, farm implement or farm wagon, if there are no suitable unrationed tires available in the community.

(b) A consumer who meets the applicable conditions of § 1315.501 may be issued a certificate for any type of tire for equipment used for industrial, mining or construction purposes, including off-the-road uses, such as earth-moving and road-grading.

(c) *Spare tires.* A certificate for a spare tire may be issued to equip any of the vehicles or equipment which satisfies the conditions of this section, if the Board finds that a spare tire is necessary for its continuous operation.

2. Section 1315.611 (c) is amended to read as follows:

(c) *Delivery pursuant to certificate.* If the foregoing requirements have been fulfilled, the person to whom the certificate has been surrendered may deliver to the certificate holder or his agent the number of tires described thereon, except that a Grade I passenger tire of any size suitable for use on the vehicle or equipment for which the certificate was issued may be delivered in exchange for a Grade I passenger tire certificate.

3. Section 1315.803 (g) (3) is amended by deleting from the second sentence the phrase "Grade I tractor-implement, Grade I industrial-type" and the comma preceding it.

4. The replenishment table appearing in § 1315.804 (c) (3) is amended by deleting the following:

A tractor-implement tire.
A Grade 1 tractor-implement tire.

5. Section 1315.806 (p) is amended to read as follows:

(p) *Transfer and use of non-rationed tires and tubes.* Any person may, without certificate or authorization, transfer, acquire, import, mount, use or change the physical location of the following:
(1) New or used tractor-implement, industrial and solid tires.
(2) New or used tubes.
(3) Grade III passenger or truck tires. (A manufacturer transferring new Grade III passenger or truck tires must file the report required by § 1315.1005 (f).)

6. Section 1315.807 (g) (5) (ii) is amended to read as follows:

(ii) Any person who wishes to import new or used tubes, or unrationed tires. (§ 1315.806 (p) sets out the types of tires that are unrationed.)

This amendment shall become effective at 12:01 a. m. August 21, 1945.

PART 1316—COTTON TEXTILES

[RPS 35,[1] Amdt. 28]

CARDED GREY AND COLORED-YARN COTTON GOODS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Price Schedule No. 35 is amended in the following respects:

1. Section 1316.51 (b) is amended to read as follows:

(b) Except as provided in paragraph (c) of this section and except as may be expressly provided elsewhere herein, the provisions of Revised Price Schedule No. 35 are not applicable:
(1) To sales or deliveries of cotton goods made by any wholesaler, jobber, or retailer in the performance of a recognized distributive function; or
(2) To sales and deliveries of cotton goods by a jobber or wholesaler to a job finisher[2] solely for use as back-greys or for other like operating purposes, if (i) during the year 1941 the job finisher making the purchase acquired the majority of this type of his operating supplies from jobbers or wholesalers or (ii) the job finisher began business subsequent to the year 1941 and certifies to his supplier that he is unable to purchase these cotton goods from a producer.

2. In § 1316.51, paragraph (c) is added to read as follows:

(c) Notwithstanding the provisions of paragraph (b) above, sales and deliveries of cotton goods (1) to a converter or (except as provided in paragraph (b) (2) above) to a finisher, or (2) by the manufacturer thereof or by any agent of such manufacturer shall not be made at prices higher than the established maximum prices.

This amendment shall become effective August 20, 1945.

Issued this 20th day of August 1945.

PART 1413—SOFTWOOD LUMBER PRODUCTS

[RMPR 293, Amdt. 8]

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 293 is amended in the following respects:

1. Subparagraph (1) of section 2 (a) is amended to read as follows:

(1) "Standard Woodwork Lists, catalog No. 40" means the document with that title corrected to March 1, 1941, published by the Pinney Printing Company, Clinton, Iowa, and the supplemental lists, based on Modular Standards, to catalog No. 40, as incorporated in Appendix N.

2. A new subparagraph (6) is added to section 2 (a) to read as follows:

(6) Illustrations, design lay-outs and specifications as shown in National Door Manufacturers Modular Standard for Ponderosa Pine Wood Windows and sash W. S. S. 45.

3. A new section 30, Appendix N is hereby added to read as follows:

SEC. 30. *Appendix N: Supplemental Lists to Standard Lists Catalog No. 40.* The following Modular Standard lists of Ponderosa pine sash, windows, sash screens and window screens must be used by all sellers in computing maximum selling prices for any item contained therein. In computing maximum selling prices for items not on this supplemental list, the seller must base his computations on lists contained in Standard Lists Catalog No. 40. In establishing maximum selling prices for 2-light storm sash the seller will use the list price of the $1\frac{3}{8}$" 2-light check-rail windows. In establishing maximum selling prices for 4-light storm sash the seller will use the list price of the $1\frac{3}{8}$" 4-light check-rail windows.

SUPPLEMENTAL LIST NO. 1

Unless otherwise specified, windows and sash will be supplied with wood parts no wider than standard lay-outs shown for each design and for an opening no larger than that shown.

PART 1448—EATING AND DRINKING ESTABLISHMENTS

[Restaurant MPR 2,[1] Incl. Amdts. 1-4]

FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION

This compilation of Restaurant Maximum Price Regulation 2 includes Amendment 4, effective August 27, 1945. The text added or amended by Amendment 4 is underscored. Deletions and redesignations are indicated by notes.

A statement of the considerations involved in the issuance of this regulation has been issued and filed with the Division of the Federal Register.[2] To the extent that this regulation operates to compel changes in the business practices, costs practices or methods, or means or aids to distribution established in the industry affected, the Administrator has found that such action is necessary to prevent circumvention or evasion of this regulation.

NOTE: The meaning of certain terms in this regulation is further explained and defined in section 19. The terms explained and defined are put in quotation marks the first time they appear.

SECTION 1. *Ceiling prices for "eating or drinking establishments."*

(a) *General rule.* Your ceiling price for any "meal", "food item", or "beverage", except coffee and milk, is the highest price at which you offered the same meal, food item, or beverage during the week of April 4 to 10, 1943. If you were not in operation during that week, price under section 2 or 3, whichever applies to you. You must observe all the following rules:

(b) *New meals, food items, or beverages.* If you did not "offer" a particular meal, food item, or beverage during the week of April 4–10, 1943, figure your ceiling price as follows:

(1) If you offered it at any time between March 7 and April 3, 1943, and you have and retain menus or other records of the prices you charged then, your ceiling price is the highest price at which you offered that particular meal, food item, or beverage during that period.

(2) Your ceiling price for all other meals, food items, or beverages is a price in-line with your other ceiling prices for meals, food items, or beverages of the same class. A price for a meal (or food item or beverage) is in-line with the price of another meal (or food item or beverage) if the customer gets the same value for his money in terms of quality and size of portions and if the margin over current raw food costs is the same. Any ceiling price figured under this subparagraph (2) for any meal, food item, or beverage of a class offered during the week of April 4 to 10, 1943, cannot be higher than the highest price for which you offered a meal, food item, or beverage of that class during the week of April 4 to 10, 1943. See paragraphs (d) and (e) below, regarding classes of meals, food items, or beverages.

If you were in operation but did not offer a meal, food item, or beverage of the same class during the week of April 4 to 10, 1943, establish your prices under section 4.

When your prices are established under other sections of this regulation, you may price other meals, food items, or beverages of the same class for which you do not have a price, in-line with those prices, subject to paragraph (d) below.

You must file a report in duplicate of any price figured under this subparagraph with your local "War Price and Rationing Board" within three days after the meal, food item or beverage is first offered following August 27, 1945, containing a brief statement setting forth the manner in which the price was figured. OPA may at any time issue an order establishing or modifying prices in accordance with this paragraph or in line with the level of prices established by this regulation.

[Paragraphs (a) and (b) amended by Am 1, 9 F.R. 9357, effective 7-31-44 and Am 4 effective 8-27-45. Section heading amended by Am. 4]

(c) *Special ceiling prices for coffee and milk*—(1) *Coffee.* Your ceiling price for hot coffee is the highest price you charged (or if you were not in business then, the price your "nearest competitor of the same type" charged) during the week of October 4 to 10, 1942 or April 4 to 10, 1943, whichever is lower. However, before you may charge more than 5¢ per pot or cup, including cream and sugar, you must file a statement with your local War Price and Rationing Board, showing that your price (or if you were not in business then, the price of your nearest competitor of the same type) was more than 5¢ during the week of October 4 to 10, 1942.

The statement must be in the following form:

This is to certify that our prices (where applicable, our competitor's prices) for hot coffee during the week of October 4 to 10, 1942 were as follows:

Per cup ------ cents; per pot containing ------ cups ------ cents. Signed ---------- proprietor; ---------- name of establishment; ---------- address of establishment.

If you had price differences depending on class of meal, food item, or beverage (see paragraph (d) below), show them in the statement. You must keep a copy of the statement in your establishment for inspection by any person. You may not file the statement required above (or charge more than 5¢ per cup of coffee if you had not already filed such a statement) after August 27, 1945, except that if you are the operator of a new establishment you may file a statement at least seven days before you open for business.

[Subparagraph (1) amended by Am 1, 9 F.R. 9357, effective 7-31-44 and Am. 4, effective 8-27-45]

(2) *Milk.* Your ceiling price for sales of milk subject to this regulation is your legally established ceiling price during the week of July 23 to 29, 1944 for milk of the same kind, quantity and grade, or the highest price established in your area for the same kind, quantity and grade by any specific area order for the sale of milk at retail.

[Subparagraph (2) added by Am. 1, 9 F.R. 9357, effective 7-31-44; amended by Am. 2, 9 F.R. 9972, effective 8-15-44 and Am. 4, effective 8-27-45]

(d) *Classes of meals, food items, and beverages*—(1) *Basic rule.* Meals, food items and beverages are divided into classes (see paragraph (e) below for a description of these classes). Except where expressly authorized otherwise by this regulation, you may not charge more for any meal, food item or beverage than the highest price at which you offered a meal, food item or beverage of the same class during the base period, April 4 to 10, 1943 (October 4 to 10, 1942 or April 4 to 10, 1943, whichever is lower, for coffee).

If your ceiling prices are established on the basis of a competitor's or comparable establishment's ceiling prices, you may not charge more for any meal, food item or beverage than the highest price established for the competitor or comparable establishment for a meal, food item or beverage of the same class; or if your ceiling prices are otherwise established by an OPA order, you may not charge more than the highest price established for a meal, food item or beverage of the same class by the OPA order.

[Above portion of paragraph (d) designated subparagraph (1) and amended; former subparagraphs (1) and (2) redesignated (2) and (3) by Am. 4, effective 8-27-45]

(2) If you customarily charged higher prices on holidays, such as Thanksgiving, Christmas, or New Year's Day, you may continue to charge the higher prices on such holidays. But your prices for holidays may not be more than fifteen percent higher than your Sunday prices for meals, food items, or beverages of the same class.

(3) Your ceiling prices for New Year's Eve are the prices you charged on New Year's Eve 1942, for meals, food items, and beverages of the same class. You must keep available for inspection menus or records of the prices you charged on New Year's Eve 1942.

(e) *Classes of meals, food items, and beverages: Description.* The "class" in which any meal, food item, or beverage belongs depends on the following tests:

(1) Whether the food item, the beverage, or the entree (main dish) of the meal falls into one of the groups listed in Appendix A. For example, steak dinners are in a different class than fish dinners, and steak dinners are in a different class than steak served a la carte;

(2) What it is usually called; for example, breakfast, lunch, afternoon tea, dinner, supper;

(3) The day of the week or the time of the day it is served, if that has been a customary basis for charging different prices; for example, a Sunday meal is in a separate class if you customarily charged different prices on Sunday during the base period stated in paragraph (d) above;

(4) The nature of the service you give, if that was a customary basis for charging different prices during the base period stated in paragraph (d) above, for example, banquets, special group luncheons, hotel room service are separate classes of meals, food items, or beverages, if you customarily charged different prices for them during the base period.

The class into which a meal, food item, or beverage belongs may depend on more than one of the tests listed above. To decide the proper class you must use all the tests which apply. For example, if you charged the same price for a particular meal, food item, or beverage whenever you served it during the base period stated in paragraph (d) above, you must use only the first test. On the other hand, if you charged different prices at different times of the day or on different days of the week during the base period, you must use at least the first and third, and any other tests which apply. For example, a steak dinner served on Sunday in a guest room in a hotel may require you to use all the tests listed.

EXPLANATORY SUMMARY OF ABOVE RULES

You must not charge more for any meal, food item, or beverage than the highest price at which you offered the same meal, food item, or beverage in the base period stated in paragraph (d) above. In addition, you must not charge more for any meal, food item, or beverage than the highest price at which you offered a meal, food item, or beverage of the same class during the base period. This means that if you sell a meal, food item, or beverage that you did not sell during the base period, your price for it cannot be more than your ceiling price for a meal, food item, or beverage of the same class sold during the base period. It does not mean that your ceiling price for any item is the highest price you charged for an item of that class during the base period. For example, you will note in Appendix A that roasts and hamburger are in the same class. If you served a roast for 75 cents during the base period and hamburger for 50 cents, 75 cents is your ceiling price for a roast and 50 cents is your ceiling price for hamburger. You cannot charge 75 cents for hamburger just because you charged 75 cents for a roast and they are both in the same class. However, if you introduce a new item of the same class (for example, swiss steak), your price for that may go as high as 75 cents but only if the customer received the same value in terms of quality and size of portion and your margin of the raw food cost is about the same as for the roast or another item in the same class.

(f) *Substitution of food items.* You may substitute for any food item or beverage in a meal any other food item or beverage not offered during April 4 to 10, 1943, without refiguring your ceiling price only if the substitute food item or beverage costs at least as much and also gives customers at least the same value as the food item or beverage substituted and is in the same class. Otherwise, you must refigure your ceiling price for the meal in accordance with paragraph (b) above.

(g) *Price ranges of meals, food items and beverages.* (1) Your customers must be given a choice of meals, food items and beverages in the same price ranges as they had during the week of April 4 to 10, 1943. You may discontinue any price groups of food or beverages if you do not offer any food or beverages at higher prices.

(2) You must offer at least as many meals, food items or beverages in each price group at and below your middle price group and in each class you continue to offer, as you did during the week of April 4 to 10, 1943. Your middle price is the price nearest the middle of your price range. For example, if you had two breakfasts at 25 cents, three at 30 cents, and two at 35 cents, 30 cents is your middle price group and you must continue to offer at least two breakfasts at 25 cents and at least three at 30 cents.

(3) If you were not in operation during the week of April 4 to 10, 1943 and your prices are established on the basis of a competitor's or comparable establishment's prices, you must observe the same requirements which they are required to observe under this section 1 (g). If your prices are otherwise fixed by an OPA order, you must offer a choice of meals, food items or beverages in the price ranges established by the order; you must also make as many offerings of meals, food items and beverages at and below the middle price groups as you do above the middle price groups in each class which you offer.

[Paragraph (g) amended by Am. 4, effective 8-27-45]

SEC. 2. *Rules for establishments not in operation during April 4 to 10, 1943, but in operation before July 31, 1944.* Take as your ceiling prices the prices you properly established under the Regional or District restaurant regulation, if any, which was applicable to you. You must also observe all the rules stated in Section 1 but, in applying those rules, substitute the date of your first week of operation for April 4 to 10, 1943, wherever it appears in section 1. If no restaurant regulation was applicable to you, figure your price under section 3.

SEC. 3. *Rules for new establishments.* This section applies to establishments which opened after July 31, 1944, and also to establishments which opened after April 10, 1943 and before July 31, 1944, but were not subject to Regional or District restaurant regulations.

(a) *Competitor's prices.* Take as your ceiling prices all the ceiling prices of your nearest competitor of the same type in your "immediate neighborhood". If you price under this provision, you must file in duplicate a statement at least seven days before you open for business (or within seven days after August 27, 1945 if you are already open) with your local War Price and Rationing Board

setting forth your name and address, the name and address of your competitor, the prices that you are adopting as your maximum prices and that such prices are adopted under this Section 3 (a).

(b) *Application for prices.* If there is no competitor of the same type in your immediate neighborhood file an application with your OPA District Office to fix ceiling prices for you. The OPA will fix as your ceiling prices those of a "closely comparable establishment"; or the OPA will fix ceiling prices for you in line with the level of ceiling prices established by this regulation. The application must contain the following information:

[Above portion of section 3 amended by Am. 4, effective 8-27-45]

(1) Your name and address and the name and address of your establishment.

(2) A brief description of the business you operate or plan to operate, giving such information as seating capacity, estimated number of people to be served, type of equipment, and type of establishment. Also submit a copy of your proposed menu if you have one.

(3) Your ceiling prices or proposed ceiling prices and classes of meals, food items, or beverages you serve or plan to serve. In preparing the list use the classes of food items and beverages listed in Appendix A.

(4) The date you open or plan to open.

(5) The names and addresses of the two nearest establishments most like yours.

SEC. 4. *Rules for establishments offering new classes of meals, food items, or beverages —* (a) *Competitor's prices.* Take as your ceiling prices all the ceiling prices for meals, food items or beverages of the same class of your nearest competitor of the same type in your immediate neighborhood. If you price under this provision, you must file a statement in duplicate within three days after you determine your prices (or, if you priced under this provision prior to August 27, 1945, within three days after that date) with your local War Price and Rationing Board setting forth your name and address, the name and address of your competitor, the prices that you are adopting as your maximum prices and that such prices are adopted under this section 4 (a).

(b) *Application for prices.* If there is no competitor of the same type in your immediate neighborhood, file an application with your OPA District Office to fix ceiling prices for you. The OPA will fix as your ceiling prices those of a closely comparable establishment of the same type; or the OPA will fix ceiling prices for you in line with the level of ceiling prices established by this regulation. The application must contain the following information:

[Above portion of section 4 amended by Am. 4, effective 8-27-45]

(1) Your name and address and the name and address of your establishment.

(2) A brief description of the business you operate, giving such information as seating capacity, number of people served per day, gross sales for the last thirty days, type of equipment, and type of establishment. Also submit a copy of your present menu.

(3) The additional meals you plan to serve and the proposed ceiling prices with their raw food costs.

(4) The names and addresses of the two nearest establishments most like yours, offering the same type of menu you plan to serve.

SEC. 5. *OPA approval and revision of prices established under Sections 3 and 4.* (a) You may not sell the meals, food items, or beverages for which maximum prices are requested under section 3 (b) or section 4 (b) until those prices have been approved by OPA, but the proposed prices shall be considered approved twenty days after mailing the application (or all additional information which may have been requested), unless, within that time, OPA advises you that your prices have been disapproved.

(b) OPA may by order at any time designate your competitor or establish, disapprove, revise or modify prices under sections 2, 3 and 4 to conform them to the requirements of these sections or to bring them into line with the level of prices otherwise established by this regulation for eating and drinking establishments in the same area.

[Paragraph (b) amended by Am. 4, effective 8-27-45]

SEC. 6. *Seasonal items.* Figure your price for a seasonal food item as follows: First, figure your price under the applicable section of this regulation. You must reduce that price to the extent necessary to reflect seasonal changes in raw food costs, but you cannot increase your price even if your costs increase. However, you need not reduce your ceiling price for a seasonal item if, in accordance with your customary practice, it was based upon estimated average raw food costs for the entire season and you customarily charged the same price during the entire season. A "seasonal food item" is one that you usually sell only during certain times of the year, such as fresh oysters, fresh trout, fresh corn on the cob, fresh berries, and fresh melons.

SEC. 7. *Transfer of business.* If you lease or acquire another's business, assets, or stock in trade, your ceiling prices and your duties under this regulation are the same as those of the previous proprietor. He must turn over to you all records which are necessary to enable you to comply with the records and filing provisions of this regulation.

SEC. 8. *Rules for seasonal operators.* If more than 80 percent of your volume is customarily done in a seasonal period of not more than four months, you may during that seasonal period charge prices no higher than you charged for meals, food items, or beverages of the same class during the same seasonal period in 1943. If, however, your ceiling prices for such seasonal period of 1943 were frozen under a district or regional regulation at your highest price charged during the week of April 4 to 10, 1943, you may if you desire take as your seasonal ceiling prices the highest prices you charged for meals, food items, or beverages of the same class during the same seasonal period of 1942. In either case you must keep available for inspection menus or records of the prices you charged during the seasonal period of 1942 or 1943, whichever happens to be your base period. At the end of the season and until the season starts again you may not charge more than your ceiling prices figured under Section 1 of this regulation.

You may not charge prices under this paragraph until you have filed with your local War Price and Rationing Board a statement setting forth your base period seasonal prices. Such prices as filed are subject to review by the OPA and the OPA may revise your prices if they are out of line with the level of prices prevailing for your type of establishment in your area during the base period.

[Sec. 8 amended by Am. 1, 9 F.R. 9357, effective 7-31-44 and Am. 4, effective 8-27-45]

SEC. 9. *Rules for operation of several establishments.* (a) If you own or operate more than one establishment, you must do everything required by this regulation for each place separately.

(b) If you own or operate more than one establishment and close one and open another in the same neighborhood, your ceiling prices and duties for the new establishment under this regulation are the same as the one you closed.

(c) If you own or operate more than one establishment located in two or more OPA districts and have established or want to establish the practice of charging uniform prices in all or certain of your establishments, you may apply for a uniform pricing order to the Restaurant Price Branch, Office of Price Administration, Washington 25, D. C. The application should contain the information required by Revised Supplementary Order No. 13.[1] The Price Administrator may on his own motion establish prices for sellers owning or operating more than one establishment and may for this purpose require sellers to furnish necessary information.

SEC. 10. *Moving your establishment or changing type of operation.* If you move your establishment or change your type of operation, you must keep the same prices and observe the same requirements as before.

[Sec. 10 amended by Am. 1, 9 F.R. 9357, effective 7-31-44 and Am. 3, 10 F.R. 5103, effective 5-12-45]

SEC. 11. *Taxes.* If during April 4 to 10, 1943, you stated and collected, separately from the price you charged, the amount of any tax on the sale of food or beverage (or on the business of selling food or beverage if the tax is measured by the number or price of the meals, food items, or beverages), you may continue to do so. You may also state and collect separately the amount of any new tax or increase in a tax of that kind.

[1] 9 F.R. 1521.

SEC. 12. *Prohibitions.*—(a) (1) *Sales at higher than ceiling prices.* If you own or operate an eating or drinking establishment, you must not sell or offer any meal, food item, or beverage at a price higher than the ceiling price (maximum price) established by this regulation. Of course, you may charge lower prices than your ceiling prices at any time.

[Above paragraph designated (1); and (2) added by Am. 4, effective 8-27-45]

(2) You may not sell or offer to sell any meal, food item or beverage at a price higher than the price you filed for that meal, food item or beverage under General Order 50,[1] or under this regulation.

(b) *Evasive practices.* You must not do anything which will result in an evasion of this regulation, including the following:

(1) You may not drop food items from meals or reduce the quantity or quality of any meal, food item or beverage, unless you reduce your price accordingly. The rule for figuring the lower "in line" ceiling price is stated in subparagraph (2) of section 1 (b).

(2) You may not increase your price for a meal, food item or beverage because of an improvement in the quality or increase in the quantity of the food or beverage served or the addition or substitution of side dishes.

(3) You may not withdraw the offer, or increase the price, of any meal ticket, weekly rate, or other arrangement, by which customers may buy food for less than when they buy it by item or meal.

(4) You may not increase any cover, minimum, bread-and-butter, service, corkage, entertainment, checking, parking, or other special charges, or increase any extra charge for the sale of a food item or meal to be eaten off the premises, or make any of these charges that were not in effect on April 4 to 10, 1943. However, a cover or minimum charge in effect April 4 to 10, 1943, may be increased where it was your practice to vary the charge in accordance with the type of entertainment offered, and the increase does not cause the charge to go above the highest charge made in 1943 under the same conditions. If during April 4 to 10, 1943, you had any of the above charges on one or several days of the week or at certain times of the day, you may not make the charge on other days of the week or other times of the day.

(5) You may not drop a "no tipping" practice, unless you reduce your price accordingly.

(6) You may not require, as a condition of selling a meal, food item, or beverage, the purchase of other meals, food items, or beverages, unless expressly required to do so by State or local laws.

[1] 8 F.R. 4808.

(7) You may not reduce the selection of meals offered at table d'hote prices when the food items you customarily offered in such meals are being offered at a la carte prices which, when added together, total more than the table d'hote prices for the complete meals or give your customers less value for their money.

(8) You may not make merely a token offering of meals, food items, or beverages in required price ranges or price groups at or below your middle price group (see section 1 (g))—that is, not prepare and offer enough to meet expected demands.

SEC. 13. *Permitted practices.* You may do any of the following things when necessary because of rationing or allocation restrictions even though you did not do them during April 4 to 10, 1943:

(1) You may limit your customers to one pat of butter per meal, or eliminate it entirely. If you drop it altogether, you must serve with each meal a substitute, such as jam, jelly, marmalade, peanut butter, etc.;

(2) You may drop or reduce the quantity of condiments, such as ketchup, chili sauce, etc.;

(3) You may reduce the amount of sugar served with any beverage or food item;

(4) You may limit the amount of cream served with any food item or beverage or you may supply milk.

However, if you continue to serve these items as you did during April 4 to 10, 1943, or your first week of operation if you were not open then, you cannot make any additional charge for them.

SEC. 14. *Records*—(a) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the OPA.

(b) *Records of the base period.* You must keep available for examination by any person during business hours a copy of each menu used by you during April 4 to 10, 1943, or if you did not use menus, a list of the highest prices you charged during April 4 to 10, 1943 or your first week of operation if you were not open then.

(c) *Future records.* You must keep for examination by the OPA one of each of the menus used by you each day. If you did not use menus, you must prepare and preserve for examination a record of the prices charged by you each day except that you need not record prices which are the same as or less than the prices you previously recorded for the same meals, food items or beverages. If you customarily used menus, you must continue to use them.

[Paragraph (c) amended by Am. 4, effective 8-27-45]

SEC. 15. *Filing of menus.* (a) If you open for business after July 31, 1944, you must file with your War Price and Rationing Board, within three weeks after the first Sunday of operation, a copy of each menu, bill of fare, or other price list of meals, food items, and beverages, as well as a copy of any special charges, such as cover, minimum, bread-and-butter, service, corkage, entertainment, checkroom, and parking in use during the seven day period beginning with the first Sunday that your place was open for business. If you did not use menus, bills of fare, or price lists in that period, or if you did not list all meals, food items, or beverages then offered, you must file with the Board a list in menu form showing the prices which you charged during the seven-day period for meals, food items or beverages which are not shown on any menus, bills of fare or price lists, which you may file hereunder. Each menu or list so filed must be signed by you, and must also have upon it the name and address of your establishment. You must keep a copy of each such menu or list.

(b) *Failure to comply with filing requirements of General Order No. 50.* (1) If you have not filed signed, complete and correct menus, bills of fare, price lists, or records of special charge (such as cover, minimum, bread-and-butter, service, corkage, entertainment, checkroom, or parking charges) with your War Price and Rationing Board as was required by General Order No. 50, you must file them with your War Price and Rationing Board within ten days after the effective date of this regulation. Such prices as filed are subject to revision by the Office of Price Administration. A copy of the applicable filing provisions of General Order No. 50 may be found in Appendix B of this regulation. On or after August 27, 1945, you may not file corrections to the menus or price lists you filed pursuant to General Order No. 50 which increase the prices you filed.

(2) If you did not comply with the filing provisions of General Order No. 50 and do not do so within the ten days provided, you may not sell any meal, food item, or beverage or collect any special charge for which you have not made a filing with your local War Price and Rationing Board.

(3) If you fail to comply with the filing provisions of this paragraph (b) or if the Office of Price Administration finds that your prices filed under this paragraph (b) are excessive in relation to the ceiling prices of other comparable establishments in the same area, it may issue an order establishing ceiling prices for your business in line with the level of ceiling prices established by this regulation.

[Paragraph (b) amended by Am. 4, effective 8-27-45]

SEC. 16. *Posting*—(a) *Statement on menus.* Beginning July 31, 1944, each menu used by you must have clearly and plainly written on it, or attached to it, either the statement previously required under any Regional or District restau-

rant regulation, or the following statement:

All prices are our ceiling prices or below. The ceiling is based on prices charged by us from April 4 to 10, 1943. Our menus (or price lists) for that week are here for your inspection.

If your prices are established under section 3, substitute the following statement:

All prices are ceiling prices or below. By OPA regulation, our ceiling prices must be in line with competitive prices charged from April 4 to 10, 1943. Our menus (or price lists) for our first week of operation are here for your inspection.

(b) *Establishments that do not use menus.* If you do not use menus, you must post the appropriate statement quoted above at a place or places where it can easily be read by your customers, and you must also post your prices for meals and food items and beverages currently offered by you at a place or places where they can easily be read by your customers.

(c) *Posting of 40 basic items.* Each Office of Price Administration District Director is authorized and directed to issue a posting order requiring every eating and drinking establishment in his district to post its ceiling prices for 40 basic meals, food items, or beverages to be selected by him. The posting order shall conform substantially to the specimen order set forth in Appendix C. Posting orders need not be issued for the Metropolitan Area of San Francisco, Calif.; St. Charles, Missouri; Muskogee, Oklahoma; and Pulaski County, Arkansas, so long as the existing specific dollars and cents ceiling prices for food items and meals sold by eating and drinking establishments in those areas are in effect.

SEC. 17. *Adjustments.* (a) OPA may adjust the ceiling prices for any eating or drinking establishment under the following circumstances:

(1) The establishment is operating under such financial hardship as to cause a substantial threat to the continuance of its operations; and

(2) Such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all eating or drinking services or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals, food items or beverages offered, capacity, or transportation; and

(3) By reason of such discontinuance, the same meals, food items, or beverages will cost the customers of the eating or drinking establishment as much as or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating or drinking establishment which satisfies the above requirements, you may apply for an adjustment of your maximum prices by submitting in duplicate to your OPA District Office a statement setting forth:

(1) Your name and address and the name and address of your establishment.

(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch, and dinner), number of persons served per day during the most recent thirty-day period, and any other information which is necessary to describe your establishment and the nature and extent of your operation.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and your requested, adjusted prices.

(6) Detailed profit and loss statements for the establishment for (i) a three-months period which ended not earlier than 90 days prior to the date of your application, (ii) a twelve-months period which ended not earlier than 90 days prior to the date of your application and (iii) the calendar or fiscal year approximating the year 1942.

[Subparagraph (6) amended by Am. 4, effective 8-27-45]

(7) Such other information as your OPA District Director may require.

(c) Applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1.[5]

SEC. 18. *Exempt sales.* Sales of the following items, or sales by the following eating or drinking establishments, or persons, are specifically exempt from the provisions of this regulation:

[Above paragraph amended by Am. 1, 9 F.R. 9357, effective 7-31-44.]

(a) Hospitals, except for food items and meals served to persons other than patients if a separate charge is made for such meals and food items;

(b) Eating and drinking places operated by a school, college, university, or other educational institution or a student's fraternity or other students' organization or association primarily for the convenience or accommodation of students and faculty and not for profit as a commercial or business enterprise or undertaking;

(c) Eating and drinking places which do not sell to the general public and do not compete with commercial establishments and which are owned or operated by charitable, religious or cultural organizations recognized as such by the Bureau of Internal Revenue and exempt from payment of income tax by reason thereof, where no part of the net earnings inures to the benefit of any private shareholder or individual, and the net profits, if any, are devoted to religious, charitable or cultural purposes;

[Paragraph (c) amended by Am. 4, effective 8-27-45.]

(d) Eating cooperatives formed by officers in the Armed Forces (as, for example, Officers' Mess) operated without profit;

[9] 9 F.R. 10476, 13715.

(e) Bona fide clubs which file with their OPA District Office a statement setting forth that:

(1) The club is a non-profit organization and is recognized as such by the Bureau of Internal Revenue;

(2) It sells meals, food items or beverages, only to members and bona fide guests of members;

[Subparagraph (2) amended by Am. 4, effective 8-27-45]

(3) Its members pay dues of more than merely nominal amounts (the amount of dues paid by each class of members and the period covered by such dues should be indicated), and are elected to membership by a governing board, membership committee or other body;

(4) It is otherwise operated as a club and not primarily as an eating or drinking establishment.

If OPA finds that the establishment does not satisfy the above requirements of a bona fide club, it will notify it in writing that it is not exempt from this regulation.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with its District Office, furnishing the above information, as may be required, and has been exempted in writing by OPA.

(f) Milk when sold as a separate item for consumption off the premises and not as part of a meal. Such off-premise sales shall remain subject to the General Maximum Price Regulation or other applicable price regulations.

[Paragraph (f) added by Am. 1, 9 F.R. 9357, effective 7-31-44]

(g) Malt beverages in original containers, wines, liquors and other alcoholic beverages when sold as separate items for consumption off the premises and not as part of a meal. Such off-premise sales shall remain subject to the applicable price regulations.

[Paragraph (g) added by Am. 1 and amended by Am. 4, effective 8-27-45]

(h) Packaged distilled spirits or wines, regardless of whether the seal or "strip stamp" is broken, made by on-premise licensee to a purchaser who removes such distilled spirits or wines or any part thereof in any container from licensee's premises. Such sales shall remain subject to Maximum Price Regulation 445.[6]

[Paragraph (h) added by Am. 1]

SEC. 19. *Definitions and explanations.* (a) "Eating or drinking establishment" and "eating and drinking establishment" are used interchangeably and mean any place in which meals, food items, or beverages are sold and served primarily for consumption on or about the premises. The term includes but is not limited to restaurants, hotels (including room service), cafes, cafeterias, delicatessens, soda fountains, boarding houses, catering establishments, athletic stadiums, field kitchens, lunch wagons, hot dog carts, etc. Where an establishment carries on two or more distinct functions, one of which is the serving of food for consumption on the premises, only such sales are subject to this regulation.

[6] 10 F.R. 7444, 8241, 9395, 9626.

[Paragraph (a) amended by Am. 4, effective 8-27-45]

(b) "Beverage" means any drink listed in Part II of Appendix A of this regulation.

(c) "Food item" means an article or portion of food sold or served by an eating or drinking establishment to be eaten there or outside without change in form or additional preparation. It may include two or more kinds of food which are prepared or served to be eaten together as one dish, such as ham and eggs, bread and butter, apple pie and cheese.

(d) "Meal" means a combination of food items sold at a single price. Examples of meals are a five-course dinner, a club breakfast, and a blue-plate special. Two or more kinds of food prepared or served to be eaten together as one dish are not a "meal."

(e) "Offer" means offer for sale and includes the listing or posting of prices for meals, food items, or beverages, even though such meals, food items, and beverages so offered were not actually on hand to be sold.

(f) "OPA District Office" means the district office of the Office of Price Administration for the district in which your eating or drinking establishment is located.

(g) "OPA Regional Office" means the regional office of the Office of Price Administration for the region in which your eating or drinking establishment is located.

(h) "War Price and Rationing Board" means the War Price and Rationing Board of the Office of Price Administration for the area in which your establishment is located.

(i) "OPA" means the Regional, District or other properly authorized office of the Office of Price Administration.

[Paragraph (i) added by Am. 1]

(j) "Sell", "sale", etc., include the service of food or beverage for a consideration for consumption on or about the premises.

(k) "Nearest competitor of the same type" means the establishment located nearest to you, which is in close competition with you, and has approximately: the same seating capacity; similar physical characteristics; and serves the same type of meals with the same type of service.

(l) "Immediate neighborhood" means the area surrounding and in close proximity to your establishment, and having uniform physical characteristics.

(m) "Closely comparable establishment" means an establishment located in a similar neighborhood, having approximately: the same seating capacity; similar physical characteristics; and serving the same type of meals with the same type of service.

[Paragraphs (j), (k), (l), and (m) added by Am. 4, effective 8-27-45]

SEC. 20. *Violations.*—(a) *License suspension.* The provisions of Licensing Order No. 1[7] licensing all persons who make sales under price control apply to you. Your license may be suspended for violation of the provisions of any applicable price regulation. If your license is suspended, you may not, during the period of suspension, make any sale for which your license has been suspended.

(b) *Civil and criminal action.* If you violate any provisions of this regulation, you are subject to the criminal penalties, civil enforcement actions, licensing suspension proceedings, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

SEC. 21. *Petitions for amendment.* If you seek a change in this regulation affecting eating and drinking establishments generally, you may file a petition for amendment in accordance with Revised Procedural Regulation No. 1.

SEC. 22. *Authority of Local War Price and Rationing Boards.* Each Regional Administrator may instruct any or all of the War Price and Rationing Boards in his region to receive complaints from the public, investigate prices charged by proprietors, hold hearings on prices charged by proprietors either on complaint or on its own motion, make appropriate recommendations to its District Office, and exercise any other authority granted to them by the Price Administrator.

[Sec. 22 amended by Am. 1, 9 F.R. 9357, effective 7-31-44]

SEC. 23. *Delegation of authority.* Each Regional Administrator, and each District Director so authorized by his Regional Administrator, may establish, approve, disapprove, revise, or adjust maximum prices or act with respect to exemptions of bona fide clubs in accordance with the appropriate provisions of sections 1 (b) (2), 3, 4, 5, 8, 15, 17, and 18 of this regulation.

[Sec. 23 amended by Am. 1, 9 F.R. 9357, effective 7-31-44 and Am. 4, effective 8-27-45]

SEC. 24. *Special orders.* The Price Administrator may from time to time authorize any Regional Administrator or District Director to issue special orders establishing ceiling prices for meals, food items, and beverages which, when issued, will supersede and take the place of this regulation with respect to the sales covered by such orders.

SEC. 25. *Relation to other price regulations.* (a) This regulation supersedes and takes the place of all restaurant regulations issued by OPA Regional Administrators or District Directors. Since this regulation keeps many of the same basic pricing provisions, most of your ceiling prices under it will be the same as those you properly established under these restaurant regulations. This regulation shall not supersede Revised Maximum Price Regulation 319,[8] Certain Bakery Products. It shall, however, supersede and take the place of all other price regulations insofar as they establish ceiling prices for food and drink sold in eating and drinking establishments for immediate consumption on or about the premises or put up to take out for consumption without further preparation. However, any price you charged during April 4 to 10, 1943 (or other appropriate base period) shall not be your ceiling price if it exceeded your ceiling price under any other regulation applicable at that time.

[Paragraph (a) amended by Am. 1]

(b) Supplementary Order No. 79[9] is hereby revoked.

(c) Except with respect to orders heretofore issued fixing specific dollars and cents ceiling prices for meals, food items and beverages and with respect to amendments to such orders which have been or may be issued, the authority delegated to Regional Administrators and District Directors under paragraph (e) of General Order No. 50 to fix maximum prices for meals, food items and beverages is hereby withdrawn.

(d) Except for coffee, this regulation does not supersede (1) any order heretofore issued by Regional Administrators or District Directors fixing specific dollars-and-cents ceiling prices for meals, food items, or beverages; (2) ceiling prices specifically established in orders heretofore issued granting applications for adjustment under restaurant regulations issued by the Regional Administrators or District Directors, or (3) Restaurant Maximum Price Regulation No. 1;[10] or (4) Supplementary Order No. 80.[11]

SEC. 26. *Geographical application.* This regulation applies to the 48 States of the United States and the District of Columbia.

This regulation shall become effective July 31, 1944.

[Restaurant Maximum Price Regulation 2 originally issued June 29, 1944]

[Effective dates of amendments are shown in notes following parts affected]

NOTE: The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

APPENDIX B—FILING PROVISIONS OF GENERAL ORDER 50

General Order No. 50 contained the following filing provisions:

(a) *Filing of menus.* On or before May 1, 1943, every proprietor of a restaurant, hotel, cafe, dining car, bar, delicatessen, soda fountain, catering business, or other eating or drinking place, shall file with the War Price and Rationing Board for the area in which each of his places is located a true copy of each menu, bill of fare, or other price list of food items, including beverages, and meals (called "menu") in use at that place during the seven-day period beginning Sunday, April 4, 1943 and ending April 10, 1943. If no menu was in use in that period, or if the menus in use did not list all food items or meals then offered, the "proprietor" shall file with the Board a list in menu form showing the prices which he charged during the seven-day period for food items or meals which are not shown on any menus he may file hereunder. Each menu or list so filed shall be signed by the proprietor or by one of his responsible officers or employees. A copy of each such menu or list shall be retained by the proprietor.

(b) *Filing by new proprietors.* The proprietor of an eating or drinking place which was not open during all of the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a), except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

APPENDIX C—MODEL FOR DISTRICT POSTING ORDER

OFFICE OF PRICE ADMINISTRATION

————District Office, Region——

Order No. —— Under Restaurant Maximum Price Regulation No. 2

POSTING ORDER

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the ———— District Office of the Office of Price Administration by section 16 of Restaurant Maximum Price Regulation No. 2, it is hereby ordered:

SECTION 1. *Posting requirements.* If you own or operate an eating or drinking establishment, you must, on or before August 16, 1944, show on a poster to be supplied by the Office of Price Administration, your lawful ceiling prices for 40 food items, and meals, as set forth in this order.

(a) First list on the poster as many of the food items and meals listed in Appendix A of this order, as you offer for sale and your ceiling prices for each. If you find in Appendix A several tables of food items and meals, choose the table most applicable to your establishment.

(b) If you do not offer all the 40 items listed in the applicable table in Appendix A, list first those which you do offer, placing them on the poster in the order in which they appear in Appendix A. Then add as many other items which you usually offer to bring the total number to 40, with your ceiling price for each item.

(c) If you do not offer as many as 40 items, place on the poster all the items which you do offer and your ceiling price for each.

(d) List a la carte items first. In listing meals, list the entree and then indicate the type of meal, for example, steak dinner, leg of lamb dinner, filet of sole lunch, vegetable plate luncheon.

(e) The list of individual items may be printed or hand lettered in ink on the poster in letters large enough so that it can be easily read by your customers.

(f) You must place the poster near the main entrance of your establishment, or in a conspicuous place so that it will be plainly visible to your customers.

SEC. 2. *Filing of lists of posted prices.* When you have made up the list of food items and meals to be posted and your lawful ceiling price for each, you must make three copies of this list, and send or deliver it to your local War Price and Rationing Board on or before August 21, 1944. Each copy must be clear and legible, dated and signed by the owner or manager of your establishment, with the name and address of the establishment following the signature.

The War Price and Rationing Board shall check this list with your filed ceiling prices. If the prices check, the Board shall make a notation to this effect on one copy of the list and return it to you. You shall keep this copy in your establishment, and make it available for examination by any person during business hours.

If the prices on your list do not completely check with your filed ceiling prices, the Board will call you in for a conference, so that corrections can be made.

SEC. 3. *Replacement of posters.* If a poster is mutilated or becomes badly soiled or otherwise damaged, it must be replaced by a new one which may be obtained from your War Price and Rationing Board upon presentation of the damaged poster. Erasures or changes of prices listed on the poster are prohibited. The new poster must be filled out exactly like the old one. Large establishments may receive extra posters.

SEC. 4. *Geographical applicability.* The provisions of this order extend to all eating and drinking establishments located within the ———— District of the Office of Price Administration.

SEC. 5. *Exemptions.* All establishments which are exempted from the provisions of Restaurant Maximum Price Regulation No 2 are exempted from this order.

This order shall become effective August 9, 1944.

NOTE: The reporting and record-keeping provisions of ———— have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

PART 1400—TEXTILE FABRICS: COTTON, WOOL, SILK, SYNTHETICS AND ADMIXTURES

[MPR 118,[1] Amdt. 35]

COTTON PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Section 1400.104 is amended to read as follows:

§ 1400.104 *Wholesalers, jobbers, and retailers.* (a) Except as provided in paragraph (b) of this section or as specific maximum prices for sales by persons other than producers may be provided in § 1400.118, the provisions of this Maximum Price Regulation No. 118 are not applicable:

(1) To sales and deliveries of cotton products in the performance of a recognized distributive function[2] by any wholesaler, jobber, or retailer not controlling, controlled by, or under common control with the producer;[3]

(2) To sales and deliveries of laundry textiles and laundry textile products to laundries and linen-supply houses by Rockweave Division, Callaway Mills, La Grange, Georgia;

(3) To retail sales[4] of cotton products by the producer thereof through a retail establishment owned, maintained and regularly operated by such producer prior to May 4, 1942; or

(4) To sales and deliveries of cotton products by a jobber or wholesaler to a job finisher[5] solely for use as back-greys or for other like operating purposes, if (i) during the year 1941 the job finisher making the purchase acquired the majority of this type of his operating supplies from jobbers or wholesalers or (ii) the job finisher began business subsequent to the year 1941 and certifies to his supplier that he is unable to purchase these cotton products from a producer.

(b) Notwithstanding the provisions of paragraph (a) above, the maximum prices established herein for producers shall apply to sales and deliveries by any person to a converter or (except as provided in paragraph (a) (4) above) to a finisher.

This amendment shall become effective August 20, 1945.

Issued this 20th day of August 1945.

JAMES G. ROGERS, JR.,
Acting Administrator.

[F. R. Doc. 45-15416; Filed, Aug. 20, 1945; 4:53 p. m.]

[1] 8 F.R. 12186, 12934; 9 F.R. 401, 10089, 10925, 14211, 14383, 14676; 10 F.R. 705, 1287, 1292, 2020.

[2] No sale is made in the performance of a recognized distributive function, within the meaning of this Maximum Price Regulation No. 118 unless it advances the goods sold to the next stage of distribution. Presumptively, sales by one jobber to another, or by one manufacturer to another, engaged in the same type of business, are not sales in the performance of a recognized distributive function.

[3] The term "producer," as used herein, includes converter, finisher or fabricator.

[4] The term "retail sales," as used herein, means sales in small quantities to ultimate consumers for direct household consumption, and not for further processing or resale in any form.

[5] The term "job finisher", as used herein, includes "job dyer" and "job printer".

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[RMPR 507,[1] Amdt. 4]

[Supp. Order ODT 3, Rev. 769]

CHICAGO, ILL., AND KALAMAZOO, MICH.

COORDINATED OPERATIONS OF CERTAIN CARRIERS

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof to facilitate compliance with the requirements and purposes of General Order ODT 3, Revised, as amended (7 F.R. 5445, 6689, 7694; 8 F.R. 4660, 14582; 9 F.R. 2793, 3264, 3357, 6778), a copy of which plan is attached hereto as Appendix 2,[1] and

It appearing that the proposed coordination of operations is necessary in order to assure maximum utilization of the facilities, services, and equipment, and to conserve and providently utilize vital equipment, materials, and supplies, of the carriers, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved and the carriers are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

9. Communications concerning this order should refer to it by the supplementary order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington 25, D. C.

This order shall become effective August 13, 1945, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 13th day of August 1945.

1. The plan for joint action above referred to is hereby approved and the carriers are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

9. Communications concerning this order should refer to it by the supplementary order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington 25, D. C.

This order shall become effective August 13, 1945, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 13th day of August 1945.

ice by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

9. Communications concerning this order should refer to it by the supplementary order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington 25, D. C.

COORDINATED OPERATIONS OF CERTAIN CARRIERS

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof to facilitate compliance with the requirements and purposes of General Order ODT 3, Revised, as amended (7 F.R. 5445, 6689, 7694; 8 F.R. 4660, 14582; 9 F.R. 2793, 3264, 3357, 6778), a copy of which plan is attached hereto as Appendix 2,[1] and

It appearing that the proposed coordination of operations is necessary in order to assure maximum utilization of the facilities, services, and equipment, and to conserve and providently utilize vital equipment, materials, and supplies, of the carriers, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved and the carriers are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

[1] Filed as part of the original document.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

9. Communications concerning this order should refer to it by the supplementary order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington 25, D. C.

This order shall become effective August 13, 1945, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 13th day of August 1945.

CHAMPAIGN AND RANTOUL, ILL.

COORDINATED OPERATIONS OF CERTAIN CARRIERS

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof to facilitate compliance with the requirements and purposes of General Order ODT 6A, as amended (8 F.R. 8757, 14582; 9 F.R. 2794), a copy of which plan is attached hereto as Appendix 2,[1] and

It appearing that the proposed coordination of operations is necessary in order to conserve and providently utilize vital transportation equipment, materials, and supplies; and to provide for the continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war; *It is hereby ordered,* That:

1. The plan for joint action above referred to is hereby approved and the persons named in Appendix 1 hereof are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers shall file forthwith a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or schedules, or appropriate supplements to filed tariffs or schedules, setting forth any changes in rates, charges, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs, schedules, or supplements, to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper, or to exempt or release any participant in the plan from the requirements of any order of the Office of Defense Transportation now or hereafter in effect. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be available for examination and inspection at all reasonable times by any accredited representative of the Office of Defense Transportation.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

[Supp. Order ODT 6A-148]

EPHRATA, WASH., AREA

COORDINATED OPERATIONS OF CERTAIN CARRIERS

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof to facilitate compliance with the requirements and purposes of General Order ODT 6A, as amended (8 F.R. 8757, 14582; 9 F.R. 2794), a copy of which plan is attached hereto as Appendix 2,[1] and

It appearing that the proposed coordination of operations is necessary in order to conserve and providently utilize vital transportation equipment, materials and supplies; and to provide for the continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war; *It is hereby ordered* That:

1. The plan for joint action above referred to is hereby approved and the persons named in Appendix 1 hereof are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers shall file forthwith a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or schedules, or appropriate supplements to filed tariffs or schedules, setting forth any changes in rates, charges, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs, schedules, or supplements, to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper, or to exempt or release any participant in the plan from the requirements of any order of the Office of Defense Transportation now or hereafter in effect. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be available for examination and inspection at all reasonable times by any accredited representative of the Office of Defense Transportation.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

9. Communications concerning this order should refer to it by the supplementary order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington 25, D. C.

This order shall become effective August 13, 1945, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 13th day of August 1945.

OFFICE OF PRICE ADMINISTRATION.

[MPR 592, Amdt. 3 to Order 1]

GYPSUM LATH AND LINER BOARD

MODIFICATION OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 7.8 is amended to read as follows:

SEC. 7.8 *Modification of maximum prices for sales of gypsum lath and liner board on the Eastern Seaboard.* (a) The manufacturers' maximum prices established pursuant to Maximum Price Regulation No. 592, for gypsum lath and gypsum liner board, may be increased by adding an amount not in excess of $4.25 per M square feet to the f. o. b. plant or delivered prices where the sale is made f. o. b. a mill located within the geographical area described in (b) below; or the sale is made on a delivered basis and the delivered destination is within the geographical area defined in (b) below.

(b) This section applies to the Eastern Seaboard which means:

All of the New England States, and that portion of the State of New York east and south of the western and northern boundaries of the following counties: Essex, Warren, Saratoga, Fulton, Montgomery, Otsego, Delaware, Broome; and that portion of the State of Pennsylvania east and south of the north and western boundaries of the following counties: Susquehanna, Wyoming, Luzerne, Columbia, Montour, Northumberland, Union, Centre, Huntingdon, Bedford, Somerset; and all of the States of New Jersey, Delaware, Maryland, including Washington, D. C., and that portion of the State of West Virginia east of the west boundaries of the following counties: Grant, Pendleton; and that portion of the State of Virginia embraced in the Counties of Loudoun, Fairfax, Arlington, Prince William, Fauquier, Accomac, Northampton; and all of the States of Mississippi, Alabama, Georgia, Florida, South Carolina, and that portion of the State of North Carolina south of the northern boundaries of the following counties: Mecklenburg, Cabarrus, Stanley, Montgomery, Moore, Hoke, Cumberland, Sampson, Duplin, Jones, Craven, and Pamlico.

(c) Any reseller purchasing gypsum lath or gypsum liner board for resale in the same form from any manufacturer who has adjusted his maximum prices in accordance with (a) above, may increase his maximum prices, established under the General Maximum Price Regulation, by a dollars-and-cents amount not exceeding his actual dollars-and-cents increase in cost resulting from the increase permitted in (a) above.

(d) The maximum prices established herein shall be subject to size differentials, quantity, cash, and other discounts, transportation allowances, services, and other terms and conditions of sale at least as favorable as the seller extended or rendered on comparable sales to purchasers of the same class during March 1942.

This amendment shall become effective August 21, 1945.

Issued this 21st day of August 1945.

Regional and District Office Orders.

[Region V Order G-7 Under RMPR 251]

ROOFING ON AN INSTALLED BASIS IN KANSAS

For the reasons set forth in the opinion issued simultaneously herewith and pursuant to the authority vested in the Regional Administrator of Region V of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, it is ordered:

(a) *What this order does.* This order establishes maximum prices for the sale of certain specified roofing when sold on an installed basis in the State of Kansas except for the counties of Johnson, Leavenworth, and Wyandotte.

(b) *Relationship of this order to Revised Maximum Price Regulation No. 251.* Sellers subject to this order may not use the pricing provisions set forth in sections 6, 7 and 8 of Revised Maximum Price Regulation No. 251. Except where the provisions of this order are inconsistent therewith, the other provisions of Revised Maximum Price Regulation No. 251 shall remain in full force and effect with respect to the sales of installed roofing covered by this order.

(c) *Maximum prices.* The maximum prices which any seller subject to this order may charge for the following materials when sold on an installed basis are established, as follows:

Item	Maximum price per square of 100 square feet material used
210 lb. 12" (3 tab) asphalt strip shingles	$11.00
167 lb. 11½" hexagon asphalt strip shingles	10.00
90 lb. composition roll roofing, mineral surface	6.25
105 lb. roll roofing, diamond point, mineral surface	7.50
105 lb. roll roofing, mineral surface, staggered edge	7.50

The above prices cover installed sales of these materials applied according to the manufacturer's specifications and include weather strip along eaves and gables, flashing around chimneys and vents, and Boston type hips and ridges.

Item	Maximum price per square of 100 square feet material used
Built-up roofing:	
Mop and patch	$1.50
1-15-pound felt mopped	3.50
2-15-pound felt mopped	5.00
1-30-pound felt mopped	4.50
1-30-pound and 2-15-pound felt mopped	7.00
For each additional layer of 15 lb. asphalt felt, mopped on	1.50
For each additional layer of 30 lb. asphalt felt, mopped on	2.50

The above prices of built-up roofing cover installed sales of these materials applied according to the manufacturer's specifications and include nails, mastic, and flashing around chimneys and vents.

(d) *Permitted addition.* There may be added to the maximum prices set forth in Paragraph (c) above, the following:

(i) An amount not to exceed 75¢ per square if the pitch of the roof is as much as or more than a rise measured vertically of two feet in each three feet of horizontal dimension.

(ii) An amount not to exceed 75¢ per square for any job requiring less than five squares of roofing material.

(iii) For any job installed at a job site located more than ten miles by the most direct route from the applicator's place of business, the above prices may be increased by an amount not to exceed $0.10 per square for each mile in excess of ten between the two locations. *Provided, however,* The total additions permitted by this sub-paragraph may not exceed $1.00 per square on sales of roofing applied to residential property and $5.00 per square on sales of commercial built-up roofing applied to structures other than residences.

(iv) An additional charge may be made for any construction work performed in connection with the sale of installed roofing such as the removal of old wooden shingles, the installation of new sheathing, metal or composition valleys, gable ends, dormer sides, and other operations which are not a part of the installation of the materials subject to this order. The maximum price for such additional construction work must be priced in accordance with the provisions of Revised Maximum Price Regulation No. 251 and the charge so computed shall be shown separately on the customer's invoice.

(v) For any job involving minor repair of residential roofing for which the total maximum price computed on a per square basis would be less than $5.00, a minimum charge of $5.00 may be made to cover costs of labor and material. Likewise, for any job involving minor repair of commercial built-up roofing for which the total maximum price computed on a per square basis would be less than $15.00, a minimum charge of $15.00 may be made to cover costs of labor and material.

(e) *Quoting a guaranteed price.* A seller may offer to sell a roofing job covered by this order on the basis of a guaranteed price, the seller agreeing to charge a fixed amount: *Provided, however,* That such guaranteed price must not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order. Upon completion of the contract and before final payment, if requested by the purchaser, the seller must furnish the purchaser with an itemized statement showing the number of square feet and the weight, type, and unit price of each category of roofing and an explanation of the amount for incidental work.

(f) *Notification to purchaser.* Every person making sales subject to this Order shall certify on his invoice or sales tags that the price charged does not exceed the price permitted by this Order No. G-7 under Revised Maximum Price Regulation No. 251.

(g) *Application by sellers for unit prices on certain combination sales.* For any combination or types of installed roofing materials which cannot be priced according to the above schedule of specific prices and permitted increases, a price may be determined in accordance with the provisions of section 6 (a) of Revised Maximum Price Regulation No. 251, if possible, or an application for determination of a price may be made in writing to the Office of Price Administration, Wichita District Office. The Regional Administrator will authorize a pricing method either by letter or by amendment to this order.

(h) *Evasion.* Any practice or device which results in a higher price to the purchaser than is permitted by this Order No. G-7 is as much a violation as an outright over-ceiling charge and subjects the seller to the penalties provided by section 16 of Revised Maximum Price Regulation No. 251.

[1] Filed as part of the original document.

This order may be revised, amended, or revoked, either by the Regional Administrator or the Price Administrator at any time.

This Order No. G–7 shall become effective the 8th day of August 1945.

USED LUMBER IN DENVER REGION

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and General Order No. 61, and for the reasons set forth in the accompanying opinion, this Order No. G–1 is redesignated Revised Order No. G–1, amended and issued to read as follows:

ARTICLE I—COVERAGE OF THIS ORDER

SECTION 1. *Products, transactions, and areas covered.* This order applies to sales or purchases by any person of the categories of used lumber for which maximum prices are established in any supplement to this order, when made for delivery in the area described in such supplement; or to sales and purchases made from stock in any such area for delivery outside of the area, if no dollar-and-cents ceiling prices have been issued under General Order No. 61 for the geographical location in which delivery is made.

ARTICLE II—DEFINITIONS

SEC. 2. *Used lumber.* Used lumber means lumber and lumber products which have been recovered from, and were at one time a part of, a building, structure or fabricated item made wholly or partially of lumber.

SEC. 3. *Categories of used lumber.* Maximum prices are established in the supplements to this order for the categories of used lumber described below, including such lumber when run to standard or special patterns; but such descriptions are not intended to, and do not, include items customarily produced and sold as mouldings or millwork.

(a) *Boards.* Used lumber of less than 2" nominal thickness ("nominal thickness" means the thickness of the piece before planing. Actual thickness, after planing to produce an even and uniform surface, is generally $\frac{1}{4}$" to $\frac{3}{8}$" less than nominal thickness).

(b) *Dimension.* Used lumber of 2" nominal thickness.

(c) *Planks or small timbers.* Used lumber of over 2" and up to and including 4" nominal thickness and of 12" or less nominal width; also nominal thicknesses over 4" up to and including 6" in all nominal widths up to and including 8".

(d) *Large timbers.* Used lumber of nominal sizes larger than 6" x 8"; also nominal thicknesses of more than 2" when wider than 12".

(e) *Flooring and/or Siding.* Used lumber planed to approximately 25/32" thickness, and which has tongue and groove or other construction commonly used for flooring and/or siding other than ship-lap.

(f) *Plywood.* Three or more thin layers of lumber, glued together with the grain of each layer at an angle to that of the adjoining layer, to form a material having the general characteristics of a thin board.

(g) *Reusable shorts less than 2' in length and/or scrap lumber* is used lumber of any of the other categories described in this section which, because of defects in quality or deficiencies in size, does not meet the grade specifications in Section 4.

SEC. 4. *Grades.* The following are the grades of used lumber for which maximum prices are established by the several supplements to this order:

(a) *Grades of boards, dimension, planks, and timbers.* (1) "Shelving grade" is used clear lumber other than pitchy selects, surfaced four sides, 2' and longer, having a thickness of 4/4", 5/4", or 6/4" and a width of 10" or more, free from loose or rotten knots, knotholes, and rot, and free from all knots except pin knots not to exceed three to a piece of 6' in length or equivalent.

(2) "Prime grade" is used lumber in the form of boards, dimension, planks or timbers, which individually are at least 2 feet in length, and which are sound, strong, of uniform width and thickness, suitable for substantial construction purposes, free from loose or rotten knots, knotholes, and rot, and without other defects which might materially impair the strength of the piece.

(3) "Secondary grade" is used lumber in the form of boards, dimension, planks or timbers, which individually are at least 2 feet in length, and which though failing to qualify as prime grade are reasonably good construction lumber. They must be free from rot, but may contain loose knots, knotholes, or other defects which do not interfere with their use for construction purposes. Each piece must show more than 50 percent prime grade lumber.

(b) *Grades of flooring and siding.* (1) "Reclaimed flooring or siding" is used flooring or siding of standard 25/32" thickness, entirely free of nails or other foreign matter and with upper surface whole or free from voids or splits. A tolerance of $\frac{1}{8}$" in thickness will be permitted where flooring is worn or sanded. Not more than 25 percent of the tongue may be missing on any piece nor more than 25 percent of the lower surface representing the under part of the groove.

(2) "Unreclaimed flooring or siding" is used flooring or siding which meets the specifications for reclaimed flooring or siding except that nails or other foreign matter have not been removed.

(c) *Grades of plywood.* (1) "Prime grade" is used plywood which is firmly bonded, free from rot, splits, foreign matter and holes other than nail holes, in pieces of square or rectangular shape at least four square feet in size, and having two smooth faces suitable for painting.

(2) "Wallboard grade" is plywood which is firmly bonded, free from rot, splits, foreign matter and holes other than nail holes, in pieces square or rectangular in shape at least four square feet in size, and having at least one smooth face suitable for painting.

(3) "Secondary grade" is used plywood in pieces at least two square feet in size, reasonably free from splits, holes other than nail holes, and foreign matter, so that at least 75 percent of the piece meets the specifications for wallboard grade (except for size and shape).

SEC. 5. *Persons.* The term "person" includes an individual corporation, partnership, association, or any other organized group of persons, or their legal successors or representatives; the United States, or any government, or any of its political subdivisions, or any agency of the foregoing.

SEC. 6. *Sales.* "Sale" includes a barter, exchange, lease or transfer, and an agreement or offer to sell, barter, exchange, lease or transfer.

SEC. 7. *Established yard.* Seller's established yard means premises occupied by the seller for the purpose of regularly and continually maintaining a stock of new and/or used lumber from various unrelated sources of supply.

ARTICLE III—SPECIFIC REQUIREMENTS

SEC. 8. *Posting ceiling prices.* Every person selling used lumber for delivery in, or from stocks located in, the area covered by this order shall obtain from the Office of Price Administration at least two copies of this order and the applicable supplement thereto. One copy of such order and applicable supplement must be posted and maintained in a prominent place at or near each location in the area where used lumber is offered for sale, in such manner that it can be easily read, and that purchasers can approach it within a distance of two feet. One other copy must be kept available so that it may be shown to and read by any customer at his request.

SEC. 9. *Sales slips and receipts.* Where a sale of used lumber is covered by this order and the total price of the sale is $5 or more, the seller shall, regardless of his previous practice and whether or not requested by buyers, give to the buyer a sales slip, bill, receipt, or other written evidence of the sale, setting forth the following:

Name and address of seller_____
Buyer's name_____
Place of delivery_____
Location from which stock is sold (seller's yard or site other than seller's yard)_____
Description of items sold and itemized prices (in terms of categories, grades, lengths, quantities and any other specification affecting the price)_____
Total price_____
Additions (for delivery or other extra)_____

SEC. 10. *Records and reports.* Every person who makes a sale of used lumber shall keep a record of such sale showing the name of the buyer and place of delivery, date of the sale, the grades sold, the quantities sold and the price charged in the same detail as required in section 9. Such records shall be kept for a period of 2 years or for the duration of the Emergency Price Control Act of 1942, as amended, whichever be the shorter.

ARTICLE IV—PROHIBITED PRACTICES AND PENALTIES

SEC. 11. *Sales of used lumber at higher than maximum prices prohibited.* (a) On and after the effective date of this order, regardless of any contract or obligation, no person shall make a sale or delivery of used lumber of the varieties covered by this order and no person shall buy or receive such used lumber under a sale, at prices higher than the maximum prices fixed by the applicable supplement to this order; and no person shall agree, offer, or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged and paid.

SEC. 12. *Prohibited practices.* Any practice which is designed to get the effect of a higher than ceiling price is as much a violation of this order as a direct over-the-ceiling charge. Such practices include, but are not limited to, the following:

(a) Getting the effect of a higher price by changing the credit practices from what they were in March 1942. This includes decreasing credit periods, or making greater charges for extension of credit.

(b) Refusing to sell except in small quantities, or with or without delivery under circumstances which bring the seller an extra return.

(c) Wrongly grading used lumber for which maximum prices are fixed by the applicable supplement to this order; or incorrectly or incompletely recording the information required by section 9 to be set forth on the sales slip, receipt or other evidence of sale.

(d) Quoting a gross price above the maximum price, even if accompanied by a discount, the effect of which is to bring the net price below the maximum.

(e) Charging, paying or receiving a commission for the service of procuring, buying, selling, or locating used lumber covered by any supplement to this order, or for any related service which does not involve actual physical handling of used lumber, if the commission plus the purchase price results in a total payment by the buyer of such used lumber which is higher than the maximum price permitted by the applicable supplement to this order. For the purpose of this order, a commission is any compensation, however designated, which is paid, wholly or in part, for the procurement of lumber, and which is based directly or indirectly on the quantity, price or value of the lumber in connection with which the service is rendered.

SEC. 13. *Penalties.* (a) Any person violating any provision of this order or any provision of a supplement to this order is subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of license provided for in the Emergency Price Control Act of 1942, as amended.

(b) Any person making a sale of used lumber covered by this order for which the total price fixed by the applicable supplement is higher than $5 and who either fails to give the buyer a sales slip, paid bill, receipt or other evidence of sale, or although such document is given, fails to set forth in it the information required to be set forth by section 9, so that a determination can be made as to whether or not the price charged was proper, shall be limited to making a charge of $5 per M' BM for all lumber delivered under such sale. The application or enforcement of this provision to a sale or against a seller shall not exclude the application or enforcement of the penalties provided in paragraph (a) of this section.

ARTICLE V—MAXIMUM PRICES

SEC. 14. Ceiling prices for any category of used lumber for which maximum prices are not fixed in a supplement to this order are subject to the General Maximum Price Regulation.

SEC. 15. *Maximum prices*—(a) *Local sales out of the seller's established yard.* The maximum prices set forth in the applicable supplement to this order shall apply to all soles of used lumber of the categories covered by this order, when the used lumber, at the time the order is taken, is part of a stock at the seller's established yard, and delivery is made either at the yard, or by truck, within a radius of 30 miles of such yard. If rail shipment either by the seller or buyer is to be made, see paragraph (c) (2) of this section.

(b) *Local sales from site other than the seller's established yard.* When a sale is made for delivery from stock located at a site other than the seller's established yard, and delivery is made either at the site, or by truck within a radius of 30 miles of such site, the maximum prices applicable to such sale shall be $2 per M' BM less than the prices set forth in the applicable supplement to this order. If rail shipment either by the seller or buyer is to be made, see paragraph (c) (2) of this section.

(c) *Other than local sales*—(1) *When delivery is by truck.* When a sale is made for delivery by truck to the buyer at a point located farther than 30 miles from the place where the shipment originates, the maximum price applicable to such sale shall be $5 per M' BM less than the price fixed for a local sale from such place under paragraph (a) or (b) above.

(2) *When rail transportation is involved.* When a sale is made which involves shipment by rail of used lumber, either by the buyer or seller, from the seller's established yard or from a site other than such yard, the maximum price applicable to such sale shall be $5 per M' BM less than the price fixed for a local sale from such place under paragraph (a) or (b) above.

SEC. 16. *Additions for delivery.* (a) If the buyer requests delivery within a free delivery zone which the seller recognized during March 1942, the seller may not charge for making the delivery.

(b) If the buyer requests delivery outside the free delivery zone which the seller recognized during March 1942, the seller may add a charge for delivery as follows:

(1) Where delivery is by common or contract carrier, the actual amount paid to the carrier by the seller may be charged.

(2) Where delivery up to 100 miles is by truck owned or controlled by the seller, the amount added for delivery may not be higher than 10 cents per M' BM for each mile to place of delivery, but not for any part of the return trip. When truck delivery over 100 miles is to be made, the addition may not be more than 10 cents per M' BM for each mile from the point of origin to the nearest possible point of rail loading-out plus the amount of rail transportation from there to destination.

(3) A minimum charge of 75 cents may be made on any delivery, where the permissible charges do not amount to 75 cents.

(c) If the buyer elects to take delivery at the site of the lumber or at the seller's established yard, no reduction in price shall be required for that reason.

This order or any supplement hereto may be revoked, modified, or amended at any time by the Price Administrator or the Regional Administrator.

[Region VII Order G–30 Under RMPR 122]

SOLID FUELS IN DENVER REGION

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and §§ 1340.259 (a) and 1340.260 of Revised Maximum Price Regulation No. 122, and for the reasons set forth in the accompanying opinion, this Order No. G–30 is issued.

(a) *What this order does.* This Order No. G–30 permits dealers in Region VII for whom specific maximum prices have heretofore been established by this Regional Office by an order or orders issued under Revised Maximum Price Regula-

tion No. 122 to add to their present maximum prices as so established for the coals specified herein a sum equal to the increase granted the producer by Amendment No. 146 to Maximum Price Regulation No. 120, effective August 3, 1945.

(b) *Dealers' permitted increases.* If you are a dealer selling any kind, class, or grade of bituminous coal produced in Districts 17, 18, or 22, for which your present maximum price has been established by an order or orders issued by this Regional Office under Revised Maximum Price Regulation No. 122, you may add to such presently existing maximum prices for such coals the amounts respectively set forth in the following table:

DEALERS' PERMITTED PRICE INCREASES UNDER AMENDMENT 146 TO MAXIMUM PRICE REGULATION NO. 120

Kind	Permitted increase	
	Per ton	Per net ton
All bituminous coal produced by hand loading mines in district 17	*Cents* 5	*Cents* 3
All bituminous coal produced in district 18	13	7
All bituminous coal produced in district 22	12	6

(c) *Limitations.* This Order No. G-30 permits you, on and after the effective date hereof, to add to your present dollars-and-cents maximum prices as established under existing orders and regulations the amounts set forth in the above table as to bituminous coal of the kind specified, when loaded out and shipped by the producer on or after August 3, 1945, on your order.

(d) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(e) *Right to revoke or amend.* This order may be revoked, modified, or amended at any time by the Price Administrator or the Regional Administrator.

Effective date. This Order No. G-30 shall become effective on August 6, 1945.

Issued this 7th day of August 1945.

RICHARD Y. BATTERTON,
Regional Administrator.

NOTE: (1) The maximum prices authorized by the above paragraphs (1) and (2) are subject to a discount of 2% for payment within 10 days from date of invoice.

(ii) The prices above specified for sales f. o. b. shipping point include all costs incident to wrapping, packing, boxing, and carting.

(c) *Notice to be given purchasers for resale.* When the manufacturer or any other seller makes a first sale under this Order No. G-42 to a person who purchases for resale, he must show upon the invoice or on a separate slip or rider attached thereto the applicable resale price or prices as set forth in paragraph (b) above.

(d) *Applicability of other regulations.* The pricing provisions of the General Maximum Price Regulation have no application to the prices established by this Order No. G-42 for sales by the manufacturer or any other seller.

(e) *Geographical applicability.* The maximum prices authorized by this Order No. G-42 for resellers are applicable only to sales made within this Region VII, which includes the States of New Mexico, Colorado, Wyoming, Montana, and Utah, and all that part of the State of Idaho lying south of the southern boundary of Idaho County, the County of Malheur in the State of Oregon, and all that part of the Counties of Mohave and Coconino in the State of Arizona lying north of the Colorado River.

(f) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(g) *Right to revoke or amend.* This order may be revoked, modified, or amended at any time by the Price Administrator or the Regional Administrator.

Effective date. This Order No G-42 shall become effective on the 28th day of July, 1945.

Issued this 28th day of July 1945

RICHARD Y. BATTERTON,
Regional Administrator.

ALBUQUERQUE BRICK & TILE CO

ADJUSTMENT OF MAXIMUM PRICES

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and § 1499.161 (a) (2) of Maximum Price Regulation No. 188, and for the reasons set forth in the accompanying opinion, this Order No. G-43 is issued.

(a) *What this order does.* This order adjusts the maximum prices for Albuquerque Brick & Tile Co., Inc. for common building brick manufactured by it at Albuquerque, New Mexico, when sold f. o. b. its plant or delivered in the customary free delivery zone in the Albuquerque area; and maximum prices for resellers who purchase from said Albuquerque Brick & Tile Co., Inc.

(b) *Maximum prices.* The maximum prices for common building brick manufactured by Albuquerque Brick & Tile Co., Inc., of Albuquerque, New Mexico, when sold f. o. b. at its plant or delivered in the customary free delivery zone of the Albuquerque area, and the maximum prices for sales of such common building brick made by resellers f. o. b. their several places of business or delivered within the respective reseller's free delivery zone out of inventory stock on hand, shall be as follows:

(1) Sales made by a manufacturer direct to consumer, $23 per M.

(2) Sales made by manufacturer to resellers, $23 per M, less a trade discount of 15%.

(3) Sales by resellers to consumers, $25 per M.

(c) *Transportation allowance.* Resellers located outside of the Albuquerque free delivery zone may add to the maximum price for resellers as above set forth in paragraph (b) the cost of transportation actually paid by such reseller; not, however, to exceed the lowest available common carrier rate for minimum loads of 10,000 pounds.

(d) *Geographical applicability.* The prices established by this Order No. G-43 for resellers are applicable only to resales made within the States of New Mexico and Colorado.

(e) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(f) *Right to revoke or amend.* This order may be revoked, modified, or amended at any time by the Price Administrator or the Regional Administrator.

Effective date. This Order No. G-43 shall become effective on the 30th day of July, 1945.

Issued this 30th day of July 1945.

ROME CREATIONS, ET AL.

AUTHORIZATION OF MAXIMUM PRICES

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and §§ 1499.158 and 1499.158a of Maximum Price Regulation No. 188, and for the reasons set forth in the accompanying opinion, this Order No. G-46 is issued.

(a) *What this order does.* This Order No. G-46 establishes maximum prices for four items of stationery in boxes manufactured by Rome Creations, a partnership, when sold at the specified levels.

(b) *Authorized maximum prices.* Upon and after the effective date of this Order No. G-46, the maximum prices for the boxes of stationery designated "Destined Hour", "A Moment's Halt", "Of Thee and Me", and "Leaves of Life", respectively, manufactured by Rome Creations, a partnership composed of Richardson Rome, Calvin Williams, Leon R. Humes, and Walter J. Hultin, of 1248 Stout Street, Denver, Colorado, in accordance with the specifications set forth in the applications of said manufacturer now on file in this Regional Office as a part of the record in this case, shall be as follows:

(1) When sold by the manufacturer to a jobber or a wholesaler:

	Each
Destined Hour	$8.80
A Moments Halt	3.00
Of Thee and Me	4.50
Leaves of Life	6.30

(2) When sold by the manufacturer, a jobber, or a wholesaler, to a retailer:

	Each
Destined Hour	$10.50
A Moments Halt	3.60
Of Thee and Me	5.40
Leaves of Life	7.50

(3) When sold by any seller to an ultimate consumer or user:

	Each
Destined Hour	$17.50
A Moments Halt	6.00
Of Thee and Me	9.00
Leaves of Life	12.50

NOTES

(1) The maximum prices authorized by the above paragraphs (1) and (2) are subject to a discount of 2 10 EOM. (The designation "2/10 EOM" is a trade designation meaning if payment is made on or before 10 days after the end of the month in which the merchandise is invoiced, or if the merchandise is purchased as late as the 25th or a subsequent day of any month and payment is made on or before the 10th day of the second month thereafter, a discount of 2% may be taken by the purchaser.)

(ii) The prices above specified are not f. o. b. factory prices, but include all costs incident to wrapping, packing, boxing, and carting, and one-half of the cost of transportation charges to the buyer's customary receiving point.

(c) *Notice to be given purchasers for resale.* When the manufacturer or any other seller makes a first sale under this Order No. G-46 to a person who purchases for resale, he must show upon the invoice or on a separate slip or rider attached thereto the applicable resale price or prices as set forth in paragraph (b) above.

(d) *Applicability of other regulations.* The pricing provisions of the General Maximum Price Regulation have no application to the prices established by this Order No. G-46 for sales by the manufacturer or any other seller.

(e) *Geographical applicability.* The maximum prices authorized by this Order No. G-46 for resellers are applicable only to sales made within this Region VII, which includes the States of New Mexico, Colorado, Wyoming, Montana, and Utah, and all that part of the State of Idaho lying south of the southern boundary of Idaho County, the County of Malheur in the State of Oregon, and all that part of the Counties of Mohave and Coconino in the State of Arizona lying north of the Colorado River.

(f) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(g) *Right to revoke or amend.* This order may be revoked, modified, or amended at any time by the Price Administrator or the Regional Administrator.

Effective date. This Order No. G-46 shall become effective on the 6th day of August, 1945.

Issued this 6th day of August 1945.

JOSEPH W. PENFOLD,
Acting Regional Administrator.

[Region VIII Order G–8 Under RMPR 251]

PLUMBING SERVICES IN NEVADA

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, it is hereby ordered:

(a) *Geographical applicability.* This order shall apply to sellers located in the following area: The State of Nevada, except Clark County.

(b) *Maximum prices.* The maximum price of plumbing services shall be the sum of a charge for labor and the maximum price of the materials used. The maximum charge for labor shall be determined by multiplying the maximum hourly rate for each category of labor by the number of hours of labor performed in that category, as provided by subparagraph (b) (1). The maximum price of the materials used shall be determined as is provided by subparagraph (b) (2). No fees, commissions, or charges for rental or use of equipment may be charged except as may be otherwise specified in this order.

(1) *Maximum labor charge.*

(i) *The maximum hourly rate* shall be either the customer's hourly rate as specified below or the legal labor cost per hour multiplied by 155 percent, whichever is lower.

(ii) *Customers' hourly rate:*

Journeyman: $2.50.
Helper: $1.75.
Laborer: $1.40.

(iii) *Measurement of hours.* The number of hours to be charged against any job is to be counted from the time the workman leaves the shop or the previous job (whichever is later) until he completes the job, if he proceeds to another job, or until he returns to the shop, if he proceeds there directly. The hours for which charges are made shall not exceed those shown in the seller's payroll records nor those shown in records which paragraph (f) of this order requires the seller to keep.

(iv) *Overtime.* Overtime may be charged for at the same legal ratio to straight time which the seller's agreement with his employees required him to pay.

(v) *Minimum charge.* If a job requires less than one man-hour, there may be collected a minimum charge equal to the rate for one hour.

(vi) Any plumber doing his own work shall take as his labor cost the labor cost applicable to journeyman plumbers.

(2) *Materials.* The maximum price of any new materials shall be the highest price charged for such materials by the seller during March 1942, or the price published as of the date of issuance of this order in the "Current Price Service," published by Current Price Bureau, 55 New Montgomery Street, San Francisco 5, California, whichever is lower. The maximum price of any used material shall be the price provided by Maximum Price Regulations No. 465 or No. 546. For new or used materials for which a maximum price cannot be so established such price shall be the seller's landed cost (not in excess of the maximum wholesale price therefor) plus 33⅓ percent.

(c) *Definitions.* (a) "Plumbing Services" means plumbing repair, maintenance, and installation services, and includes the sale of installed plumbing materials and the installation of oil burners and feed lines. "Plumbing" means gas, water, and steam distribution or waste removal systems, including installation of oil burners and feed lines. (b) "Overtime" refers to hours of work performed at customer's request on Saturday or Sunday or between the hours of 5:00 p. m. and 8:00 a. m. Monday to Saturday. (c) "Labor Cost" means the wage rates in effect on October 3, 1942, or wage rates which have been established by proper governmental agencies.

(d) *Jobs selling for more than $200.* For jobs sold for more than $200 the maximum price shall be calculated under section 7 of Revised Maximum Price Regulation No. 251, using the sum of labor costs, direct costs, and a margin not exceeding the margin used on the most comparable job in the period January 1, 1939, to March 31, 1943, or, for sellers not in business in March 1942, a margin not exceeding 30 percent of the sum of labor and material and other direct costs. This price may not exceed the maximum price had it been computed under paragraph (b).

(e) *Guaranteed price.* A seller may offer to supply a plumbing service covered by this order on the basis of a guaranteed price, the seller agreeing to charge a fixed amount: *Provided, however,* That such guaranteed price may not exceed the maximum price established by this order.

(f) *Records and invoices.* Every person making sales subject to this order must keep a record showing the time spent by his employees on each job involving plumbing services and of the wage rate for each such employee. Such records shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration. In addition, every person making sales subject to this order shall furnish to the customer an invoice or sales slip on which he has itemized labor and materials and on which he has certified that the price charged does not exceed the prices permitted by this Order No. G–8 under Revised Maximum Price Regulation No. 251. Duplicates of such invoices or such sales slips shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration.

(g) This order supersedes sections 6, 7, 8 of Revised Maximum Price Regulation No. 251, with respect to plumbing services supplied in the described areas, except where it is otherwise provided herein.

(h) This order may be amended or revoked at any time.

(i) This order shall become effective August 7, 1945, except that it shall not apply to sales made pursuant to contracts entered into prior to such date.

Issued this 2d day of August 1945.

FRANK H. SLOSS,
Acting Regional Administrator.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70–785]

AMERICAN & FOREIGN POWER CO. INC. AND ELECTRIC BOND AND SHARE CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 17th day of August, A. D., 1945.

American & Foreign Power Company Inc. ("Foreign Power"), a registered holding company, and its parent, Electric Bond and Share Company ("Bond and Share"), which is likewise a registered holding company, have filed a declaration in connection with the above-entitled matter which is pending under the Public Utility Holding Company Act of 1935 and particularly section 12 (b) thereof and Rule U–45 thereunder regarding the following proposed transaction:

Foreign Power and Bond and Share propose to enter into an agreement for the further extension to January 22, 1946 of the maturity date of the hereinafter mentioned $3,000,000 3% Serial Note of Foreign Power, held by Bond and Share, which was due originally on January 22, 1945 and was heretofore extended to July 22, 1945. All other terms and conditions of the said note are to remain unchanged.

The Commission, on January 22, 1944, issued its order in the above-entitled matter (Holding Company Act Release No. 4855) among other things permitting the issuance by Foreign Power to Bond and Share of $30,000,000 of 3% Serial Notes consisting of four of such notes in the principal amount of $3,000,000 each, the first of which was payable on January 22, 1945 and the others of which are successively payable in the three succeeding years, and a note in the amount of $18,000,000 maturing at the end of five years.

The said order contained a condition prohibiting any payments by Foreign Power to Bond and Share with respect to the principal of any of said 3% serial notes at maturity or otherwise prior to the determination of the rank and status of the debt claim represented by them, except pursuant to permission of the Commission.

The Commission, on April 25, 1945, issued its further order in the above-entitled matter (Holding Company Act Release No. 5757) permitting Foreign Power and Bond and Share to enter into an agreement to extend the maturity of the $3,000,000 Serial Note payable January 22, 1945 to July 22, 1945, all other terms and conditions of said note remaining unchanged, and said agreement was entered into by Foreign Power and Bond and Share pursuant to said order.

Foreign Power has filed with this Commission under section 11 (e) of the Public Utility Holding Company Act of 1935 a Plan, joined in by Bond and Share, for the reorganization of Foreign Power (File No. 54–111, Holding Company Act Release No. 5388) and said Plan proposes among other things that the 3% Serial Notes in the principal amount of $30,000,000 together with other securities of Foreign Power held by Bond and Share be surrendered to Foreign Power for the considerations, among others, of the receipt by Bond and Share of cash, debentures and common stock of Foreign Power. Said Plan is pending and this Commission has not given its permission to any payment by Foreign Power or any receipt by Bond and Share with respect to the principal of said serial note due originally on January 22, 1945.

Declarants request that the Commission's order on the present declaration be entered at as early a date as possible.

The present declaration was filed on the 21st day of July, 1945, a notice of said filing was issued on the 27th day of July, 1945 and notice of said filing was given in the form and manner prescribed by Rule U–23 promulgated pursuant to said act. A request for a hearing was received by the Commission from one Samuel Okin, a holder of 9,000 shares of common stock of Bond and Share. Okin had participated in the original proceeding which eventuated in the issue of said order of January 22, 1944. No other person or persons have requested a hearing.

It appears that no new issues of substance (other than the extension of the maturity date of the note due originally on January 22, 1945) not already determined by said orders of January 22, 1944 and April 25, 1945 have been raised either by the present declaration or by Okin's petition for a hearing.

The Commission having considered said declaration and said petition and deeming a hearing unnecessary to the public interest and the interests of consumers and investors; and the Commission finding that the requirements of the applicable provisions of the act and the rules thereunder are satisfied and deeming it appropriate in the public interest that said declaration be permitted to become effective and that the effective date thereof be advanced;

It is hereby ordered, Pursuant to said Rule U–23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U–24, that the aforesaid declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

THE UNITED GAS IMPROVEMENT CO. AND LUZERNE COUNTY GAS AND ELECTRIC CORP.

[File No. 70–1120]

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 17th day of August 1945.

Notice is hereby given that a joint declaration-application has been filed with this Commission under the Public Utility Holding Company Act of 1935 by The United Gas Improvement Company (UGI), a registered holding company and a subsidiary of The United Corporation, also a registered holding company, and UGI's utility subsidiary, Luzerne County Gas and Electric Corporation (Luzerne); and

All interested persons are referred to said document which is on file in the offices of the Commission for a statement of the transactions therein proposed, which may be summarized as follows:

(1) Luzerne will issue 25,000 shares of 4¼% Preferred Stock (Cumulative) of a par value of $100 per share and will offer to the holders of its presently outstanding 43,500 shares of 5¼% Preferred Stock the privilege of exchanging such stock for the new 4¼% Preferred Stock on a share-for-share basis, up to 25,000 shares of the latter. Accrued dividends to November 1, 1945, will be paid on the 5¼% Preferred Stock

In the event that more than 25,000 shares of the 5¼% Preferred Stock are tendered for exchange, then holders of 10 shares or less will receive a like number of shares of new 4¼% Preferred Stock and pro rata distribution will be made to holders of more than 10 shares of the 5¼% Preferred Stock. In no event, however, as a result of proration will less than 10 shares of the new 4¼% Preferred Stock be issued or will any fractional shares of the same be issued in exchange.

The exchange offer shall become effective if a minimum of 20,000 shares of the 5¼% Preferred Stock are tendered; Luzerne reserving the right, however, to make the offer effective, with the consent of UGI, if a lesser number of shares are tendered.

(2) If the exchange offer become effective, Luzerne will call for redemption at $110 per share plus accrued dividends to November 1, 1945, all unexchanged shares of the 5¼% Preferred Stock outstanding.

(3) UGI will purchase from Luzerne at $110 per share any shares of the new 4¼% Preferred Stock which are not exchanged in accordance with the offer mentioned above.

(4) The charter provisions affecting the new 4¼% Preferred Stock will provide, inter alia, for an initial redemption price of $112.50 per share for the first 5 years and $110 per share thereafter; and that the holders of such stock shall have the right to elect the majority of the board of directors in the event of the accumulation of arrearages equal to four quarterly dividends and shall have special voting rights in connection with the authorization of any new stock ranking prior to or on a parity with it; the issuance, subject to certain exceptions, of debt in excess of a certain amount; and the merger or consolidation of the company.

(5) In order to provide funds for the call of unexchanged shares of 5¼% Preferred Stock, UGI will make a cash contribution to Luzerne in an amount of approximately $2,140,000 (assuming the exchange of 25,000 shares of the 5¼% Preferred Stock).

(6) Luzerne will credit the amount contributed to it by UGI to capital surplus which, together with its earned surplus, will be used to dispose of its plant adjustment account and certain deferred debit accounts.

Luzerne states that the issue and sale of the new 4¼% Preferred Stock will be expressly authorized by the Pennsylvania Public Utility Commission, the state in which Luzerne is organized and doing business.

Luzerne requests exemption from the competitive bidding requirements of Rule U-50 in connection with the issue and sale of the new 4¼% Preferred Stock.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said declaration-application and that said declaration-application shall not become effective or be granted except pursuant to further order of the Commission,

It is ordered, That a hearing on said declaration-application under the applicable provisions of the act and the rules of the Commission thereunder be held on September 6, 1945, at 10:00 a. m., e. w. t., in the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Robert P. Reeder, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order to the Pennsylvania Public Utility Commission and on the applicants or declarants herein; and that notice of said hearing be given to all other persons by publication of this order in the FEDERAL REGISTER. Any person desiring to be heard in connection with these proceedings, or proposing to intervene herein, shall file with the Secretary of the Commission, on or before September 4, 1945, his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That without limiting the scope of the issues presented by said declaration-application, particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the proposed issue and sale of the new 4¼% Preferred Stock is solely for the purpose of financing the business of Luzerne and has been expressly authorized by the State Commission of the State in which it is organized and doing business.

(2) Whether the terms and conditions of the issue of the new 4¼% Preferred Stock are detrimental to the public interest or the interest of investors or consumers.

(3) Whether the terms and conditions of the proposed exchange offer are fair and reasonable and appropriate in the public interest and the interest of investors or consumers.

(4) Whether the exemption requested by Luzerne from the competitive bidding provisions of Rule U-50 is appropriate in the public interest and in the interest of investors and consumers.

(5) Whether the proposed accounting entries to be recorded on the books of Luzerne are consistent with sound accounting principles and conform to the standards of the act.

(6) Whether the proposed purchase by UGI of shares of Preferred Stock of Luzerne is in compliance with statutory standards and whether it is necessary or appropriate to impose any terms or conditions with respect thereto.

(7) Whether the fees, commissions or other remunerations to be paid in connection with the proposed transactions are reasonable.

(8) Generally, whether the proposed transactions comply with the applicable provisions of the act and the rules, regulations and orders promulgated thereto.

(9) Whether in the event the application and declaration shall be granted and permitted to become effective it is necessary to impose any terms or conditions to ensure compliance with the standards of the act.

By the Commission.

NEW YORK STATE ELECTRIC & GAS CORP., ET AL.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of August, 1945.

In the matter of New York State Electric & Gas Corporation NY PA NJ Utilities Company, File No. 70–1122; Iroquois Gas Corporation, File No. 70–1129.

Notice is hereby given that an application and declaration have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by NY PA NJ Utilities Company, a registered holding company, and its subsidiary, New York State Electric & Gas Corporation, and by Iroquois Gas Corporation, a sub-

sidiary of National Fuel Gas Company, a registered holding company.

Notice is further given that any interested person may, not later than August 29, 1945, at 5:30 p. m., e. w. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, said application and declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided for in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said application and declaration, which is on file in the office of said Commission, for a statement of the transactions therein proposed, which are summarized as follows:

New York State Electric & Gas Corporation proposes to sell to Iroquois Gas Corporation its natural gas production plants and transmission and distribution facilities located in the Village of Lancaster, in the Town of Lancaster, and in the Town of Alden, all in the State of New York, for a base consideration of $125,000 in cash, plus the reasonable value of all additions and betterments installed in connection with the gas plants between February 26, 1945, and the date of the closing of the transaction, and subject to the proration of taxes, assessments, royalties, and rents as of the date of closing. Upon consummation of the transaction Iroquois Gas Corporation proposes to apply its existing schedule of rates, which are slightly higher than the present rates of New York State Electric & Gas Corporation, to all customers served by the facilities to be acquired.

By the Commission.

The Wheat Crop Insurance Regulations contained in Part 414 are hereby redesignated as set forth above and are also hereby amended as follows:

1. Paragraph (a) of § 414.1 is amended to read:

§ 414.1 *Availability of wheat crop insurance.* (a) Wheat crop insurance under contracts covering the 1945, 1946 and 1947 crop years will be provided in accordance with the regulations in this part. For the 1945 crop year, however, no insurance will be provided on winter wheat. The coverage per acre of wheat crop insurance will be 50 or 75 percent of the average yield of wheat for the farm.

2. Section 414.9 is amended to read:

§ 414.9 *Amount of annual premium.* (a) The annual premiums for each insurance unit under the contract shall be the number of bushels of wheat determined by multiplying the insured acreage of wheat for the insurance unit by the premium rate per acre and by the insured interest in the crop at the time of seeding. If more than one premium rate has been established for the insurance unit, a premium shall be computed separately using the applicable acreage for each rate, and the total of the amounts so computed shall be the premium for the insurance unit. The annual premium for the insurance contract shall be the total of the premiums computed for the insured for all insurance units covered by the contract. The annual premium with respect to any insured acreage shall be regarded as earned when the wheat crop on such acreage is seeded. The minimum annual premium payable by the insured with respect to any insurance contract shall be three bushels of wheat for 1945 and two bushels of wheat for 1946 and 1947.

(b) In any area designated by the Corporation, the insured's annual premium may be reduced in any year not to exceed 50 percent, if it is determined by the Corporation, from a comparison of the insured production with the accumulated balance of premiums paid over indemnities received on consecutively insured crops for the years during which insurance was available (beginning with the 1939 crop, but excluding the 1945 crop if no application for insurance was submitted), that the risk on wheat crops produced by the insured justify such reduction: *Provided, however,* That the Corporation may determine that the premium rates for all insurance units in any or all such areas shall be adjusted to compensate for such reductions. Failure to apply for insurance in any year, except 1945, shall render any person ineligible for the benefits of this paragraph on the basis of any accumulated balance of premiums previously paid if insurance is offered in the county in which such person's farm is located and even though insurance may not be provided in the county during such year because of the limitation in § 414.1 (b) hereof: *Provided, however,* That failure to submit an application for insurance in any year will not render a person ineligible for the benefits of this paragraph, if (1) the failure to submit an application was due to service in the active military or naval service of the United States, or (2) the insured establishes to the satisfaction of the Corporation, prior to the applicable 1946 note maturity date, that failure to submit an application in any year prior to 1946 was due to the fact that wheat was not seeded in that year. Nothing in this provision shall create in the insured any right to a reduced premium as a result of the total premiums he has paid exceeding the total indemnities he has received.

(c) The insured's annual premium payment may be reduced 10 percent in 1946 or in any subsequent year immediately following five wheat crops (begin-

ning with the 1939 or any subsequent crop) covered by insurance (which must be consecutive crops if insurance was available, except as to the 1945 crop unless the 1945 crop was covered by insurance), which have been produced by him in the county without a loss for which an indemnity was paid: *Provided, however*, That this provision shall not apply when the premium is reduced pursuant to paragraph (b) of this section. Failure to apply for insurance in any year, except 1945, shall render any person ineligible for the benefits of this paragraph if insurance is offered in the county in which such person's farm is located and even though insurance may not be provided in the county during such year because of the limitation in § 414.1 (b) hereof: *Provided, however*, That failure to submit an application for insurance in any year will not render a person ineligible for the benefits of this paragraph, if (1) the failure to submit an application was due to service in the active military or naval service of the United States, or (2) the insured establishes to the satisfaction of the Corporation, prior to the applicable 1946 note maturity date, that failure to submit an application in any year prior to 1946 was due to the fact that wheat was not seeded in that year.

3. Paragraph (b) of § 414.15 is amended to read:

(b) Where the insured fails to establish and maintain separate records of acreage or production for the component parts of a combination of two or more insurance units or portions thereof, the insurance with respect to such units under the contract may be voided by the Corporation for the year in question and the premium forfeited by the insured: *Provided, however*, That if all the component parts of the combination are insured the total of the insured production for the component parts shall be considered as the insured production for the combination, and any loss for such combination shall be determined as outlined in paragraph (a) of this section.

4. Paragraph (j) of § 414.37 is amended to read:

(j) "Insured acreage" means either the acreage reported by the insured as seeded to wheat on the insurance unit, or the acreage determined by the Corporation as actually seeded thereon, whichever the Corporation shall elect: *Provided, however*, That the Corporation reserves the right to limit the acreage to be insured in any year. Any acreage seeded to wheat on the insurance unit which is put to another use before it is too late to reseed to wheat, as determined by the Corporation, or any acreage seeded to wheat in 1946 or 1947 which is destroyed or substantially destroyed before it is too late to reseed to wheat, as determined by the Corporation, and the acreage is left idle or is fallowed until it is too late to reseed to wheat, shall not be considered insured acreage.

PART 418—WHEAT CROP INSURANCE REGULATIONS FOR INSURANCE CONTRACTS COVERING THE 1946, 1947, AND 1948 CROP YEARS

MISCELLANEOUS AMENDMENTS

The Wheat Crop Insurance Regulations contained in Part 418 are hereby amended as follows:

1. Paragraphs (b) and (c) of § 418.12 are amended to read:

(b) In any area designated by the Corporation, the insured's annual premium may be reduced in any year not to exceed 50 percent, if it is determined by the Corporation, from a comparison of the insured production with the accumulated balance of premiums paid over indemnities received on consecutively insured crops for the years during which insurance was available (beginning with the 1939 crop, but excluding the 1945 crop if no application for insurance was submitted), that the risk on wheat crops produced by the insured justifies such reduction: *Provided, however*, That the Corporation may determine that the premium rates for all insurance units in any or all such areas shall be adjusted to compensate for such reductions. Failure to apply for insurance in any year, except 1945, shall render any person ineligible for the benefits of this paragraph on the basis of any accumulated balance

of premiums previously paid, if insurance is offered in the county in which such person's farm is located and even though insurance may not be provided in the county during such year because of the limitation in § 418.1 (b) hereof: *Provided, however,* That failure to submit an application for insurance in any year will not render a person ineligible for the benefits of this paragraph, if (1) the failure to submit an application was due to service in the active military or naval service of the United States, or (2) the insured establishes to the satisfaction of the Corporation, prior to the applicable 1946 note maturity date, that failure to submit an application in any year prior to 1946 was due to the fact that wheat was not seeded in that year. Nothing in this provision shall create in the insured any right to a reduced premium as a result of the total premiums he has paid exceeding the total indemnities he has received.

(c) The insured's annual premium payment may be reduced 10 percent in 1946 or in any subsequent year immediately following five wheat crops (beginning with the 1939 or any subsequent crop) covered by insurance (which must be consecutive crops if insurance was available, except as to the 1945 crop unless the 1945 crop was covered by insurance), which have been produced by him in the county without a loss for which an indemnity was paid: *Provided, however,* That this provision shall not apply when the premium is reduced pursuant to paragraph (b) of this section. Failure to apply for insurance in any year, except 1945, shall render any person ineligible for the benefits of this paragraph if insurance is offered in the county in which such person's farm is located and even though insurance may not be provided in the county during such year because of the limitation in § 418.1 (b) hereof: *Provided, however,* That failure to submit an application for insurance in any year will not render a person ineligible for the benefits of this paragraph, if (1) the failure to submit an application for insurance was due to service in the active military or naval service of the United States, or (2) the insured establishes to the satisfaction of the Corporation, prior to the applicable 1946 note maturity date, that failure to submit an application in any year prior to 1946 was due to the fact that wheat was not seeded in that year.

2. Paragraph (b) of § 418.20 is amended to read:

(b) In case of a cash settlement under a certificate of indemnity, the cash equivalent of the indemnity shall be the number of bushels of wheat specified in the certificate of indemnity multiplied by the cash equivalent price per bushel for the day the certificate of indemnity or other request of the insured for cash settlement or for determining the cash equivalent is received in the branch office of the Corporation or the expiration date of the certificate, whichever occurs first. A cash settlement under a certificate of indemnity made more than 14 days after the issuance of the certificate shall be subject to a deduction for a reasonable charge for storage and handling and the schedule of such charges shall be shown on the certificate of indemnity.

Adopted by the Board of Directors on August 3, 1945.

PART 703—APPOINTMENT OF COMMISSIONED OFFICERS, WARRANT OFFICERS AND CHAPLAINS

APPOINTMENT OF WARRANT OFFICERS

Section 703.303 is amended by designating the first paragraph (a) and adding paragraph (b) as follows:

§ 703.303 *Appointments.* (a) * * *

(b) If a successful applicant is serving on active duty as a commissioned officer in the Army of the United States at the time his name is reached on the eligible list for appointment as a warrant officer, junior grade, to fill an existing vacancy, such applicant, if found physically qualified at that time, will be tendered a selection letter advising him of his selection for appointment upon honorable termination of active duty as a commissioned officer. The recipient of a selection letter whose active service as a commissioned officer terminates honorably and who applies for such appointment within 6 months after the termination of his active commissioned service will, irrespective of physical disqualification incurred or having its inception while on active duty in line of duty, be given such appointment if a vacancy within the authorized allotment for warrant officers, junior grade, Regular Army, exists at the time he applies for such appointment. To insure the existence of such vacancies, a vacancy will be reserved for the recipient of each selection letter until he applies for such appointment or notifies The Adjutant General of his intention not to enter such application, but not longer than 6 months after the termination of his active commissioned service. The date of rank upon appointment is the date of the selection letter. (55 Stat. 651; 10 U.S.C. Sup. 591-599) [AR 610-10, 28 September 1944 as amended by C1, 2 August 1945]

TITLE 14—CIVIL AVIATION

Chapter II—Administrator of Civil Aeronautics

[Amdt. 82]

PART 600—DESIGNATION OF CIVIL AIRWAYS

RED AND BLUE CIVIL AIRWAYS

AUGUST 8, 1945.

Acting pursuant to the authority vested in me by section 302 of the Civil Aeronautics Act of 1938, as amended, I hereby amend Part 600 of the regulations of the Administrator of Civil Aeronautics as follows:

Designation of Civil Airways: Red Civil Airway No. 54. Redesignation of Civil Airways: Blue Civil Airway No. 43.

1. By adding a new § 600.10253 to read as follows:

§ 600.10253 *Red civil airway No. 54 (Timpie, Utah to Salt Lake City, Utah).* From a point located at 40°45′ north latitude and 112°45′ west longitude to the Salt Lake City, Utah radio range station.

2. By amending § 600.10342 to read as follows:

§ 600.10342 *Blue civil airway No. 43 (Birmingham, Ala., to Nashville, Tenn.).* From the intersection of the center lines of the on course signals of the north leg of the Birmingham, Ala., radio range and the southwest leg of the Chattanooga, Tenn., radio range to a point located at 35°50′ north latitude and 86°19′ west longitude.

This amendment shall become effective 0001 e. w. t., September 1, 1945.

T. P. WRIGHT,

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. 3660]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

BONCQUET LABORATORIES

§ 3.6 (c) *Advertising falsely or misleadingly—Composition of goods:* § 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product or service.* In connection with the offering for sale, sale, or distribution of respondent's preparation designated "Boncquet Blood Building Tablets," "Boncquet Hemo-Tabs," or "Boncquet Tablets," or any other preparation of similar composition or possessing substantially similar properties, whether sold under the same names or under any other name, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means to induce, etc., directly or indirectly, purchase in commerce, etc., of said preparation, which advertisements represent, directly or through inference, (a) that said preparation is a cure or remedy for pernicious anemia or that it has any therapeutic value in the treatment of such condition; (b) that respondent's preparation contains iron in effective therapeutic amounts; (c) that respondent's preparation will regenerate or rebuild the blood; (d) that respondent's preparation will bring to normal-red-cell count the blood of persons suffering from a deficiency of red corpuscles because of anemia or other conditions; or (e) that respondent's preparation, under conditions of use, will stimulate the bone marrow to produce red blood corpuscles; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., Sec. 45b) [Cease and desist order, Boncquet Laboratories, Docket 3660, August 7, 1945]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of August, A. D. 1945.

In the Matter of Frederick A. Clarke, an individual, trading as Boncquet Laboratories

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, answer thereto, testimony and other evidence taken before trial examiners of the Commission theretofore duly designated by it, report upon the evidence by Trial Examiners W. C. Reeves and John J. Keenan and exceptions filed thereto, supplemental report upon the evidence filed by Trial Examiner Miles J. Furnas, brief and supplemental brief filed in support of the complaint, and brief of respondent filed in opposition thereto (respondent not having filed supplemental brief and oral argument not having been requested); and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Frederick A. Clarke, an individual, trading as Boncquet Laboratories or trading under any other name, and his representatives, agents, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, or distribution of his preparation designated "Boncquet Blood Building Tablets," "Boncquet Hemo-Tabs," or "Boncquet Tablets," or any other preparation of similar composition or possessing substantially similar properties, whether sold under the same names or under any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce as "commerce" is defined in the Federal Trade Commission Act which advertisement represents directly or through inference,

a. That respondent's preparation is a cure or remedy for pernicious anemia or that it has an therapeutic value in the treatment of such condition;

b. That respondent's preparation contains iron in effective therapeutic amounts;

c. That respondent's preparation will regenerate or rebuild the blood;

d. That respondent's preparation will bring to normal-red-cell count the blood of persons suffering from a deficiency of red corpuscles because of anemia or other conditions;

e. That respondent's preparation, under conditions of use, will stimulate the bone marrow to produce red blood corpuscles.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of respondent's preparation in commerce as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any of the representations prohibited in paragraph 1 hereof and the respective subdivisions thereof.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess Profits Taxes

[T D. 5473]

PART 30—REGULATIONS UNDER THE EXCESS PROFITS TAX ACT OF 1940

PART 35—EXCESS PROFITS TAX; TAXABLE YEARS BEGINNING AFTER DECEMER 31, 1941

CREDITS AGAINST EXCESS PROFITS TAXES

Section 30.729–3 of Regulations 109 (26 CFR, 1941 Supp., Part 30) and § 35.729–3 of Regulations 112 (26 CFR, Cum. Supp., Part 35) are amended as follows:

PARAGRAPH 1. Section 30.729–3 is amended by striking out the second sentence and inserting in lieu thereof the following:

A taxpayer is allowed such a credit against the excess profits tax for taxable years beginning prior to January 1, 1941, if it claims such credit in its Federal income tax return and likewise claims such credit in its excess profits tax return. For taxable years beginning after December 31, 1940, the taxpayer is allowed such a credit against its excess profits tax if it chooses to have the benefits of such credit (or, having chosen to the contrary, changes its choice) at any time prior to the expiration of the period prescribed by statute for the making of a claim for credit or refund for such taxable year. In any case in which a credit would not be available except by reason of the provisions of section 131 (f) and the taxpayer has for a taxable year beginning prior to January 1, 1941, claimed in its Federal income tax return the benefits of section 131, it shall be deemed, for the purpose of the credit, that such taxpayer has likewise claimed in its excess profits tax return for such year the benefits of section 729 (c).

PAR. 2. Section 35.729–3 is amended by striking out the second sentence and inserting in lieu thereof the following:

If the taxpayer so chooses (or, having chosen to the contrary, changes its choice) at any time prior to the expiration of the period prescribed by statute for the making of a claim for credit or refund for the taxable year, it is allowed such a credit against the excess profits tax.

(Sec. 62 as made applicable by section 729 (a), and section 131 (f) of the Internal Revenue Code (53 Stat. 32; 54 Stat. 989; 56 Stat. 857; 26 U.S.C. 62, 798 (a) and Sup. III, 131 (f))

PART 30—REGULATIONS UNDER THE EXCESS PROFITS TAX ACT OF 1940

PART 35—EXCESS PROFITS TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

REVIEW BY SPECIAL DIVISION OF TAX COURT

Excess Profits Tax Regulations 109 and 112 amended to conform to Public Law 105, approved June 30, 1945.

In order to conform Regulations 109 (26 CFR, 1941 Supp., Part 30), and Regulations 112 (26 CFR, Cum. Supp., Part 35) to Public Law 105 (79th Congress, 1st Session), approved June 30, 1945, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 30.732–1 the following:

JOINT RESOLUTION. (Public Law 105, 79th Congress, approved June 30, 1945.)

* * * * *

SEC. 2. Section 732 (d) of the Internal Revenue Code is amended to read as follows:

(d) *Review by Special Division of Board.* The determinations and redeterminations by any division of the Board involving any question arising under section 721 (a) (2) (C) or section 722 with respect to any taxable year shall be reviewed by a special division of the Board which shall be constituted by the Chairman and consist of not less than three members of the Board. The decisions of such special division shall not be reviewable by the Board, and shall be deemed decisions of the Board.

PAR. 2. Section 30.732–1, as amended by Treasury Decision 5264, approved May 8, 1943, is further amended by changing the third sentence of the third paragraph to read as follows:

If the determinations and redeterminations by any division of The Tax Court involve any question arising under section 721 (a) (2) (C) or section 722 with respect to any taxable year, such determinations and redeterminations shall be reviewed by a special division of The Tax Court which shall be constituted by the Presiding Judge and shall consist of not less than three judges of The Tax Court.

PAR. 3. There is inserted immediately preceding § 35.732–1 the following:

JOINT RESOLUTION. (Public Law 105, 79th Congress, approved June 30, 1945.)

[Supp. 70]

PART 1105—SALARIES AND WAGES OF AGRICULTURAL LABOR IN THE STATE OF MAINE

WORKERS ENGAGED IN HARVESTING POTATOES IN CERTAIN COUNTIES OF MAINE

§ 1105.1 *Workers engaged in the harvesting of potatoes in Aroostook County and in the townships of Mount Chase, Patten, Stacyville and Davidson in Penobscot County, State of Maine.* Pursuant to § 4001.7 of the regulations of the Economic Stabilization Director relating to salaries and wages issued August 28, 1943, as amended (8 F.R. 11960, 12139, 16702; 9 F.R. 6035, 14547; 10 F.R. 9478, 9628) and to the regulations of the War Food Administrator issued March 23, 1945 (10 F.R. 3177) entitled "Specific Wage Ceiling Regulations" and based upon a certification of the Maine USDA Wage Board that a majority of the producers of potatoes in the area affected participating in hearings conducted for such purpose have requested the intervention of the Secretary of Agriculture and based upon relevant facts submitted by the Maine USDA Wage Board and obtained from other sources, it is hereby determined that:

(a) *Areas, crops and classes of workers.* Persons engaged in harvesting potatoes in Aroostook County and in the townships of Mount Chase, Patten, Stacyville and Davidson in Penobscot County, State of Maine, are agricultural labor as defined in § 4001.1 (1) of the regulations of the Economic Stabilization Director issued on August 28, 1943, as amended (8 F.R. 11960, 12139, 16702; 9 F.R. 6035, 14547; 10 F.R. 9478, 9628).

(b) *Maximum wage rates for harvesting potatoes.*

(1) For picking up potatoes—18¢ per barrel.

(2) For harvest labor other than picking up potatoes—$12 per day.

The rates specified above are exclusive of board and room. Where an employer furnishes board, or board and room, a deduction of $10 per week must be made therefor except that this deduction shall not operate to reduce the earnings of pickers below 13¢ per barrel for the period charged.

(c) *Administration.* The Maine USDA Wage Board, located at Orono, Maine, will have charge of the administration of this section in accordance with the provisions of the specific wage ceiling regulations issued by the War Food Administrator on March 23, 1945 (10 F.R. 3177).

(d) *Applicability of specific wage ceiling regulations.* This section shall be deemed to be a part of the specific wage ceiling regulations issued by the War Food Administrator on March 23, 1945 (10 F.R. 3177) and the provisions of such regulations shall be applicable to this section and any violation of this section shall constitute a violation of such specific wage ceiling regulations.

(e) This Supplement 70 shall become effective at 12:01 a. m., eastern war time, August 22, 1945.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

AUTHORITY: Regulations in this chapter, unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3, as Amended Aug. 21, 1945]

§ 944.23 *Priorities Regulation 3*—(a) *Purpose of this regulation.* This regulation states the rules for the use of preference ratings, what kind of purchase orders or services may be rated and how a rating may be put on an order. It also places restrictions on the use of ratings and includes lists of products for which ratings may not be used at all or for which certain kinds of ratings may not be used. In general this regulation should be consulted before using a rating whether it was gotten directly from the War Production Board or from a customer.

(b) *Definitions.* For the purposes of this regulation:

(1) "Person" and "material" mean the same thing they do in Priorities Regulation 1.

(2) "Assignment" of a preference rating. A preference rating is assigned to a person when the War Production Board or someone that it has authorized issues an order or preference rating certificate giving him the right to use the rating.

(3) "Application" of a preference rating. A preference rating is applied when the person to whom it is assigned uses the rating. A rating is applied also when any governmental agency which is authorized by the War Production Board rates an order for delivery of material directly to it.

(4) "Extension" of a preference rating. A preference rating is extended when it is used by the person to whom it is applied or extended by another person.

(c) *Use of ratings in general.* (1) When a regulation, preference rating order or preference rating certificate assigns a rating to any person, either by naming him or by describing the class of persons to which he belongs (as is done in the schedules to CMP Regulation 5), that person may apply the rating to get delivery of material or the performance of certain services. Also, a person may under certain conditions extend a rating which has been applied or extended to his deliveries of material, but not one applied to services. More detailed rules as to how and when ratings may be applied or extended are set out below in this regulation.

(2) When a War Production Board order or certificate states the quantities and kinds of material or the particular services which are rated, the person to whom it is assigned may use the rating to get only that quantity and kind of material or that particular service named in the order or certificate. If the quantities of material are not stated in the order or certificate assigning the rating it may be applied only to get the minimum amount needed.

(3) No person may place rated orders for more material than he is authorized to rate even though he intends to cancel some of the orders or reduce the quantity of material ordered to the authorized amount before it is all delivered.

(d) *When AA ratings may be extended for material.* The following provisions of this paragraph (d) apply to all extensions of preference AA ratings to get deliveries of material, unless they are modified by or are inconsistent with the provisions of any particular order.

(1) A manufacturer of Class B products under the Controlled Materials plan and a holder of Form WPB–2613 (formerly PD–870) may not extend his customers' AA ratings as explained in more detail in CMP Regulation 3 and in Priorities Regulation 11B.

(2) When a person has received a AA rated order for the delivery of material, he may extend the AA rating to get the material which he will deliver on that order, or which will be physically incorporated in material which he will deliver. If the material is to be processed, this

includes the portion of it which would normally be consumed or converted into scrap or by-products in the course of processing.

(3) If a person has made delivery of material, or has incorporated it into other material which he has delivered on an AA rated order, he may extend the AA rating to replace it in his inventory. However, if after delivering the material he still has a practicable working minimum inventory he may not extend the AA rating to replace the material delivered; and if by making the delivery his inventory is reduced below this minimum, the AA rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any material ordered to replace in inventory must be substantially the same as the material which the person delivered or incorporated in the material which he delivered, except for minor variations in size, shape or design.

(4) A person to whom an AA rating has been applied or extended to get material may not extend that AA rating to get containers or closures to pack the material except as permitted by any order in the Containers, Part 3270, Series (Orders P–140 and P–146 are the only ones that now permit the extension of such AA ratings). Nor may he extend such AA rating to get any material for his own plant improvement, expansion or construction, or to get machine tools or other items which he will carry as capital equipment, or to get business machines for his own use whether purchased or leased, or to get maintenance, repair or operating supplies for his own use. Other orders or regulations, such as CMP Regulation 5 and some orders in the "P" series, assign ratings which may be used by the proper persons to get maintenance, repair or operating supplies and minor capital additions.

(d–1) *AAA, MM and CC ratings.* (1) AAA and MM ratings may be extended under the same conditions as AA ratings, as described in paragraph (d), subject to the conditions of this regulation; except that manufacturers of Class B and unclassified products may extend these ratings for deliveries of production materials to them during the fourth quarter of 1945 and subsequent quarters.

(2) CC ratings may not be extended by a supplier to get production materials needed to make the item sold to his customer, or to replace in inventory materials used to make the item. A distributor, warehouse, retailer, or other person who resells the item without further fabrication may extend the CC rating where he does not have the item in inventory, but may not extend the rating to replace the item in inventory.

(e) *Additional restrictions upon use of ratings for certain materials.* Because of special circumstances which exist with respect to certain materials and products, the use of preference ratings to get items on Lists A or B attached to this regulation is restricted as follows:

(1) *Items as to which preference ratings have no effect; List A.* Any item on List A may be produced or delivered without regard to preference ratings. No person shall apply or extend any rating to get any of these items and no person selling any such item shall require a rating as a condition of sale. Any rating purporting to be applied or extended to any such item shall be void and no person shall give any effect to it in filling an order.

(2) *Items to which blanket MRO ratings do not apply; List B.* Blanket MRO ratings may not be applied to get any item on List B, except as permitted by the list. A blanket MRO rating means a rating assigned by CMP Regulation 5 or 5A, or by any other War Production Board regulation, order (including an order in the "P" series), form or certificate which assigns a rating for maintenance, repair or operating supplies without specifying the kind and quantity of the material to which the rating may be applied. Where the quantity of material is specified in terms of dollar value only, the rating is a blanket MRO rating. No person shall give any effect to any rating applied to his deliveries of any item on List B if he knows or has reason to believe that it is a blanket MRO rating. Any blanket MRO rating applied to an order for any item on List B which was not delivered before the date the item was added to the list shall be deemed void. The restrictions of this paragraph are not applicable when the blanket MRO rating is applied to get an item on the list for use on board ship, but in such a case the rating may not be extended by the person to whom it is applied.

(3) *Illustration.* A manufacturer of a product listed in Schedule II of CMP Regulation 5 is assigned a rating of AA–2 for operating supplies. He may not use the rating to buy wooden shelving for his own use since it is on List B. A contractor has received an order bearing a rating of AA–3 to install wooden shelving in an Army camp. He may extend that rating to get the wooden shelving from the manufacturer since in this case the shelving is production material as to him and not operating supplies. If, however, wooden shelving were on List A instead of List B, neither rating could be used.

(f) *Use of ratings for services*—(1) *Ratings may not be used for personal services.* Preference ratings may never be used to get labor or personal services as distinct from services performed in the course of a regular business involving the use of plant, machinery or equipment owned by the person furnishing the services. For example, ratings may be used to get a repair job done in a repair shop as explained below but may not be used to compel an individual employee to work on a repair job or to obtain the services of a consulting engineer.

(2) *Three cases where ratings may be used for services.* There are only three situations in which a preference rating may be used to get services, as distinct from the production or delivery of material:

(i) *A rating assigned for the purpose.* If the War Production Board assigns a rating to a named person to get specified services, he may use the rating for that purpose.

(ii) *For processing.* When a person has a rating which he may use to get processed material, he may (unless prohibited by another regulation or order) furnish the unprocessed material to a processor and use the same rating to get it processed.

(iii) *For repairs.* A blanket MRO rating may be applied by the person to whom it is assigned to get his plant, machinery or equipment repaired even if the repair job does not involve the delivery of repair parts or materials. See paragraph (e) (2) for definition of a blanket MRO rating. A rating assigned on Form WPB–541 (formerly PD–1A) or WPB–542 (formerly PD–3A), or any other rating which may be applied to the delivery of specific repair parts or materials, may also be applied to the installation of the repair parts or materials or to the repair job alone if it is found that installing the parts or materials is not necessary. However, in the case of ordinary plumbing, heating, electrical, automotive or refrigeration repairs, a rating may not be applied to repair work even if the rating is expressly applicable to repair parts or materials. As used in this subparagraph, "repair" means to fix a plant, machinery or equipment after it has broken down or when it is about to break down. "Repair" does not mean upkeep or maintenance service such as periodic inspection, cleaning, painting, lubricating, etc.

(3) *Ratings for services only may not be extended.* A person to whom a rating for services, as distinct from the production or delivery of material, has been applied or extended may not extend the rating for any purpose.

(g) *How to apply or extend a rating.* (1) When a person applies or extends a preference rating he must put the rating (and symbol, if appropriate) on the order together with a certification signed as prescribed in Priorities Regulation 7. He may use the standard certification set out in that regulation, or if he prefers the following:

CERTIFICATION

The undersigned purchaser hereby represents to the seller and to the War Production Board that he is entitled to apply or extend the preference ratings indicated opposite the items shown on this order, and that such application or extension is in accordance with Priorities Regulation 3 as amended, with the terms of which the undersigned is familiar.

(Date)

The person who receives the certification shall be entitled to rely on it as a representation of the buyer unless he knows or has reason to know that it is false.

NOTE: (Subparagraphs (2) and (3) deleted April 25, 1944. They are superseded by paragraphs (o) and (p) of Priorities Regulation 7, which state the rules for placing rated orders orally or by telephone or telegraph.)

(4) When a person applies or extends a rating he shall also include on his purchase order or contract any information which may be required by any applicable War Production Board order. However, he is not required to include the serial number of the preference rating certificate assigning the rating.

(5) Each person who applies or extends a rating must keep at his regular place of business all documents including purchase orders and preference rating orders and certificates which authorize him to apply or extend the rating. These documents, orders and certificates must be kept in such a way that they can be readily segregated and furnished to representatives of the War Production Board for inspection.

(6) When either certification authorized in this paragraph (g) is used it will not be necessary to use any other certification in order to apply or extend a preference rating, nor will it be necessary to furnish a copy of any preference rating order no matter what any regulation, preference rating order or preference rating certificate says unless it expressly states that this regulation does not apply. This does not affect the requirements of Priorities Regulation No. 9 (§ 944.30) when ratings are applied to certain types of exports, in which case its terms control.

(7) No person shall knowingly purport to apply or extend a preference rating to any order unless he is entitled to do so. No person shall apply or extend a rating for material or services after he has received the material or after the services have been performed, and any person who receives such a rating shall not extend it.

(h) *Provisions applicable to extensions; deferment and grouping.* No matter what any applicable preference rating order or certificate may say,

(1) No person may extend any rating to replace inventory after three months have passed from the time he could have first extended it;

(2) When a person has two or more ratings of the same grade which were assigned by different preference rating certificates or orders he may combine them and extend them to one delivery; and

(3) When a person has two or more ratings of different grades, or where they were assigned by the same or different certificates or orders, he may extend them to deliveries under one purchase order. However, the purchase order must show the amount of each material to which a particular grade of rating is extended. If the type and quantity of the material is such that the supplier can readily determine the exact effect of the extension of the rating on his production and delivery schedule from percentage figures alone, then the purchase order may show the amount of the material to which the particular grade of rating is extended on a percentage basis; otherwise, it must be shown as a separate item. In order to avoid production or delivery of material in quantities smaller than the minimum commercially practicable a person may combine ratings of different grades and extend the rating of the lowest grade to the total production or delivery.

(i) *Restrictions in other orders.* When any person applies or extends a rating he shall be subject to any applicable rule or restriction which may be set forth in the order of the War Production Board which assigns the rating or any other order which regulates transactions in the material or the facilities for which he is using the rating. This includes restrictions as to the kind and amount of material to which ratings may be applied or extended, requirements for written approval of any particular transaction, restrictions on certain uses of material or facilities and any other rules which may be applicable to the particular transaction. However, the rules of paragraphs (g) (4) and (g) (6) apply unless some other order or certificate expressly says that they do not.

Issued this 21st day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST A

The following items may be delivered without regard to any War Production Board preference ratings:

Chemicals of the following types manufactured or produced for exclusive use in the petroleum industry, as petroleum industry is defined in Preference Rating Order P–98–b:

a. Antioxidants (gum inhibitors) for motor fuels.

b. Chemical additives and compound bases for heavy duty gasoline engine, diesel engine and aviation engine oils.

c. Chemical additives and compound bases for hypoid gear oils.

d. Synthetic catalysts for oil cracking operation.

e. Synthetic catalysts for cumene and codimer manufacture.

f. Synthetic catalysts for petroleum isomerization operations.

g. Synthetic catalysts for petroleum sweetening operations.

Communications services.

Dental burs.

Electric energy.

Gas, manufactured combustible, of the type generally distributed by utilities.

Gas, natural.

Petroleum; restricted products as defined in Order M–201.

Silicon carbide settling tank and dust collector fines.

Steam heating, central.

Track-laying tractor repair parts.

Ice.

Tobaccos.[1]

Vegetable, fish, marine animal and animal fats and oils, whether edible or inedible and including their by-products and residues (whether resulting from refining, distillation, saponification, pressing or settling).[1]

Sulfated, sulfonated, and sulfurized fats and oils.[1]

Tall oil.[1]

Wool grease.[1]

Soap (other than metallic).[1]

Fatty acids.[1]

Food for human or animal consumption.[1]

Glycerine.[1]

Graphite crucibles.

Pig iron.

[1] Subject to War Food Order 71 (formerly FD Regulation No. 1) of the War Food Administration.

Alarm clocks.

Waste paper.

Water.

Containerboard, as defined in Order M–290.

Low and high temperature fractional distillation equipment for gas and gasoline analysis.

Roofing granules

LIST B

Blanket MRO ratings, as defined in paragraph (e) (2), may not be used to obtain the items on this list. If a rating is needed to get a specified quantity of any product on the list, application may be made on Form WPB–541 (formerly PD–1A) or on any other form which may be designated for a particular product or for use by a particular person in a War Production Board order.

Adhesive tape backed with cellophane or similar transparent material derived from cellulose.

Animal traps.

Anti-freeze, all types.

Athletic and sport equipment.

Auger Bits, Type 1 as defined in Schedule VIII to Order L–157.

Automotive maintenance equipment as defined in Limitation Order L–270.

Automotive replacement batteries as defined in Limitation Order L–180.

Automotive replacement parts as defined in Limitation Order L–158.

Award emblems, badges, buttons and other similar award pins (not including identification badges).

Bicycles.

Blowers, portable electric hand, and industrial vacuum cleaners.

Can, jar and bottle capping, closing and sealing machinery and equipment (other than screw capping machines) having a retail sales value of $25 or more, inclusive of motors.

Cast iron cooking utensils.

Cellophane and cellulose acetate film less than three one thousandths (0.003) of one inch thick.

Cellulose caps or bands of any gauge.

Chain, welded coil, sizes $\frac{5}{16}$'' and under.

Chemicals listed in Direction No. 5 of this regulation. (See that direction for MRO ratings which may be used.)

Chinaware.

Civilian defense devices: any device, equipment, instrument, preparation or other material designed or adapted for use in connection with:

a. Air raid warnings or detection of the presence of enemy aircraft; or

b. Blackouts or dimouts; or

c. The protection of civilians, either individually or collectively against enemy action or attack.

Clocks, watches and timers, including chronometers, chronographs and electrical timers, but excluding interval timers.

Clock and watch repair materials including mainsprings.[2]

Closures and closing devices required for packaging products to be shipped or delivered, as follows:

a. Closures for glass containers

b. Gummed stay and sealing tape paper and cloth

c. Paper and paperboard bottle caps, closures, and hoods.

Compressors, reciprocating type for compressing air in any size smaller than 10 horsepower, of the tank mounted design sometimes referred to as the garage or service station type of compressors (new).

Containers, fabricated (in knock-down or set-up form, whether assembled or unassembled) required for packaging products to be

[2] It is not contemplated that any preference ratings will be assigned by the War Production Board on Form WPB–541 for clock and watch repair materials including mainsprings.

shipped or delivered. For the purpose of this item the word "containers" shall not include shipping reels and skids, or any item which is specifically excluded from the following sub-items (such as "shell containers" in sub-item f.) It shall, however, include but is not limited to:

a. Bags, all types and specialty envelopes (including those made of paper, textile, combinations of materials, transparent films, metallic foils, parchment, kraft or sulphite).
b. Baskets and hampers
c. Cans, as defined in Order M–81
d. Collapsible tubes
e. Cooperage, tight and slack
f. Fibre cans, fibre tubes (except shell containers), fibre bottles, fibre mailing cases, and fibre drums.
g. Folding and set-up boxes (paperboard)
h. Gas cylinders (including only metal containers as described in Item 1 of Table 17 of Order M–293).
i. Glass containers
j. Ice cream cans (paperboard) and paraffin cartons and pails.
k. Paper cups and paper food containers, except as permitted by Order L–336.
l. Paper milk containers.
m. Steel shipping drums as defined in Order L–197
n. Wooden and fibre inner containers
o. Wooden and fibre shipping containers and parts, as defined in Order P–140.
p. Metal strapping, as covered in Order P–152.

Corrugated and solid fiber sheets, not constituting "fibre shipping containers" as defined in Order P–146.

Cutlery, as defined in any order of the L–140 series.

Domestic and commercial electric fans.

Domestic electric ranges.

Drums, hard rubber.

Electrical appliances as defined in Order L–65.

Electric irons.

Electronic heating generators.

Electronic intercommunicating systems, including public address systems.

Enameled ware, as defined by Limitation Order L–30–b.

Fans (see "Industrial air circulators, new" and "Domestic and commercial electric fans").

Filing cabinets, wooden.

Fire protective equipment, including only:
a. Fire pumps.
b. Fire sprinkler systems.

Flatware.

Frying pans

Fuel.

Furniture for any use, except furniture specifically designed for schools.

Galvanized ware and non-metal coated metal articles as governed by Limitation Order L–30–a (except for funnels, oil and gasoline cans having a capacity of from 1 to 5 gallons, inclusive, and flexible spout measures).

Glass tableware.

Glass tumblers.

Incandescent photoflash lamps.

Industrial air circulators, new (The term includes any new propeller type fan designed for desk, pedestal, wall bracket, ceiling, or floor mounting, for circulating air within a room or space without the use of ducts, and powered by an electric motor drawing more than 200 watts. Such a fan is sometimes referred to as a "man-cooler" or a "restaurant fan". It does not include propeller type fans designed for exhausting air from inside a building or room to the outside, or for supplying air from the outside to the space within, and normally mounted in a window or over a door or in a wall.)

Kitchenware, heavy duty (except ratings applied by a food processor, which includes any person engaged in the business of preparing, processing, canning, packing or packaging human or animal foods for distribution. It does not include any person who prepares food for consumption on the premises (such as a hotel, restaurant, hospital or educational institution) or distributes it at retail (such as a grocery or retail meat market)):

a. Bakery utensils;
b. Butcher benches;
c. Butcher blocks;
d. Canopies or hoods;
e. Carriers, food;
f. Carriers, tray;
g. Coffee mills and grinders;
h. Counters, cafeteria, lunch and serving;
i. Counter protectors;
j. Cutters, french fry;
k. Cutters, meat, bone and fish;
l. Dispensers, milk and cream;
m. Display racks;
n. Dough dividers;
o. Dough troughs;
p. Knife sharpeners and grinders;
q. Pans, cold;
r. Potato mashers;
s. Potato and vegetable parers or peelers;
t. Racks, bread (bakery);
u. Racks, dump (bakery);
v. Racks, pans (bakery);
w. Sandwich units;
x. Slicers, meat and bread;
y. Tables, bakers;
z. Tables, cooks, chef, salad and work;
aa. Tables, soiled and clean dish;
bb. Toaster stands;
cc. Tray stands;
dd. Trucks, food;
ee. Urn stands;

Insulation blowing machines complete (new only), and the following parts thereof:
(a) Internal combustion engines, or electric motors.
(b) Blowers.
(c) Speed reduction units.

Kitchen household and miscellaneous articles governed by Limitation Order L–30–d.

Laboratory instruments and equipment, including parts thereof. (Except ratings assigned by Preference Rating Orders P–43, P–68, P–89 and P–98–b, and ratings assigned pursuant to Order P–56; but those ratings may not be used for items on List A of Order L–144.)

Lawn mowers, including power and gang mowers.

Lockers, wooden, for offices and factories.

Medical, surgical and dental equipment and supplies (except parts for the maintenance or repair of existing equipment) including:
a. Anaesthesia and oxygen equipment and accessories;
b. Atomizers;
c. Clinical thermometers;
d. Crutches;
e. Dental consumable supplies;
f. Dental equipment and appliances (except dental lathes);
g. Diagnostic instruments and apparatus;
h. Electric light bulbs for diagnostic instruments;
i. Hearing aids;
j. Hospital and medical rubber drug sundries, except surgeons' gloves when acquired in accordance with Order R–1
k. Hospital enamelware and stainless steel ware;
l. Hypodermic needles and syringes;
m. Operating and examining room furniture;
n. Operating and examining room lights;
o. Opthalmic goods.
p. Orthopedic appliances including splints, belts and trusses;
q. Physical therapy equipment and supplies;
r. Sterilizers;
s. Surgical dressings;
t. Suture needles;
u. Sutures;
v. X-ray equipment and supplies, including X-ray tubes, X-ray valve tubes, X-ray developing hangers, X-ray timers, and similar supplies and accessories.

Medical, surgical and dental instruments.

Medicinal preparations, including vitamins.

Metal bathtubs

Monorail system and additions thereto, except one complete addition valued at less than $200.00.

Pails and tubs, wooden, including wooden mop pails.

Paper and paperboard and products manufactured therefrom and molded pulp products; excluding carbon paper, tracing paper, reproduction paper, sensitized paper, engineering graph paper, chemically treated paper for engineering use, litmus paper and filter paper and paper tags.

Paper charts for recording instruments

Pencils, mechanical.

Pencils, wood cased.

Pens, fountain.

Pen holders.

Pen nibs, steel.

Photographic film sensitized, as controlled by Order L–233

Photographic papers, sensitized, except blueprint, whiteprint, ozalid, photostat, rectigraph and other line reproduction papers. (See Direction 24 to CMP Regulation 5.)

Pins, common and safety.

Printing and publishing:
a. Printed matter including items such as letterheads, envelopes, forms and printed and ruled stationery;
b. Processed printing plates;
c. Type metal, stereotyping metal and electrotype backing-metal;
d. Printing paper, paperboard and binders board;
e. Book cloth;
f. Blankbook and loose-leaf binders, metal parts and units;
g. Mechanical bindings.

Radio transmitters, receivers and transceivers.

Refrigeration and air conditioning systems and parts, except as permitted in Direction 10 to Priorities Regulation 3.

Screen cloth, metal insect.

Scales and balances

Softwood plywood, as defined in Limitation Order L–150–a.

Tire retreading, recapping and repair equipment, including full circle and sectional air bags.

Venetian blinds.

Wooden shelving.

Woodworking machinery, Class I, as defined in Order L–311

Interpretation 1

Interpretation 1 of Priorities Regulation 3 [Revoked Nov. 17, 1943.]

Interpretation 2

EFFECT OF LISTS A AND B ON UNFILLED ORDERS

The restrictions on the use of ratings for the items on Lists A and B apply to orders for such items which had been placed before the date the item was put on the list but were not yet filled. (Issued Nov. 17, 1943.)

Interpretation 3

FIRE PROTECTIVE EQUIPMENT

The term "Fire protective equipment" on List B of Priorities Regulation 3 includes only the end items listed and does not include materials or parts required for the repair or maintenance of those items.

For example, fire pumps and fire sprinkler systems are listed and therefore may not be obtained on blanket MRO ratings, whereas a part required to repair a pump or sprinkler system may be obtained on blanket MRO ratings. Similarly, blanket MRO ratings may not be used to extend an existing sprinkler system, but such ratings may be used to repair or replace sprinkler heads which have been opened up by fire or damaged in any other way. (Issued Oct. 21, 1944.)

Interpretation 4

CMPL–224 AND GA–1456 AUTHORIZATION

Reference is made in various War Production Orders to P–19–h orders or to orders in the P–19 series, and in some of these orders the delivery of material or equipment is not allowed, unless the material or equipment is rated under a P–19–h order or an order in the P–19 series. Order P–19–h has in a large measure been superseded by CMPL–224 authorizations and this last form has in turn been superseded by form GA–1456. Consequently any reference to a P–19–h order or to an order in the P–19 series is also reference to an authorization on form CMPL–224 or CA–1456, and if the delivery of an item is permitted under a P–19–h order or an order in the P–19 series it also may be delivered under a CMPL–224 or GA–1456 authorization. (Issued Apr. 23, 1945.)

Interpretation 5

RESTRICTIONS OF OTHER ORDERS; "MASKING" TAPE

(a) *Restrictions of other orders on use of ratings or delivery.* The provisions of paragraph (c) relate only to the items which appear on the lists. When any other order of the War Production Board restricts the use of preference ratings to obtain any product, or restricts delivery of a product in any way, those restrictions are applicable even though that product is not listed in Priorities Regulation 3 (§ 944.23). This rule specifically applies to the items which were on List C before the amendment of August 10, 1943.

(b) *"Masking tape."* Blanket MRO ratings may be used to get industrial pressure sensitive adhesive tape (paper and cloth), also called "masking" tape. This type of tape is not included in "Gummed stay and sealing tape, paper and cloth."

This interpretation is not applicable to adhesive tape backed with cellophane or similar transparent materials derived from cellulose which may not be obtained with blanket MRO ratings. (Issued Dec. 18, 1943.)

Interpretation 6

EFFECT OF PREFERENCE RATING CERTIFICATE REFERRING TO PRODUCT OF A PARTICULAR MANUFACTURER

(a) When a preference rating certificate in assigning a rating to a product describes the product by its trade name or by the manufacturer's name and catalogue number, the rating may ordinarily be used to get the product from any manufacturer if the model actually obtained is substantially identical in size, operation and function with that named in the certificate.

(b) The rule stated in the preceding paragraph is consistent with the statement in paragraph (c) (2) of Priorities Regulation 3 (§ 944.23), that a preference rating may be applied only to the specific quantities and kinds of material authorized. Ordinarily a reference in a preference rating certificate to a particular product of a particular manufacturer is no more than a shorthand way of describing the product. It is safe to assume, unless the certificate clearly states otherwise, that what is being rated is a certain kind and size of product which may be obtained from any manufacturer who makes that kind and size. If it is intended to confine the rating to a particular product of a particular manufacturer, the certificate should say so explicitly. (Issued Sept. 8, 1943.)

Interpretation 7

LIMITATIONS ON THE RIGHT TO USE RATINGS TO GET MATERIALS PROCESSED

(a) *What this interpretation covers.* This interpretation explains the limitations on the use of a preference rating assigned to the delivery of a material to get material processed under paragraph (f) (2) (ii) of the regulation.

(b) *Controlled materials.* Preference ratings cannot be used to buy controlled materials (steel, copper, and aluminum in controlled material form) from a producer or warehouse and consequently no rating may be used to get material processed into a controlled material by a producer or warehouse. There is one exception to this general rule which is covered by paragraph (d–1) of CMP Regulation No. 8, which assigns a preference rating to steel producers for use in getting steel processed into a controlled material form.

(c) *Class B products.* Paragraph (g) (3) of CMP Regulation No 1 prohibits allotments of controlled materials to B product manufacturers except by the War Production Board and, as explained in Interpretation No. 16 to CMP Regulation No 1, also prohibits a customer from furnishing controlled materials to a B product manufacturer. A special exception to this general rule is provided in Direction 36 to CMP Regulation No. 1. In all cases not covered by the exception, it is improper for a person to furnish controlled materials to a B product manufacturer for processing and consequently no preference rating can be used to get such processing done. In this connection, attention is called to the fact that all products, whether Class A products or Class B products, which are bought for use as maintenance, repair, or operating supplies are treated as though they were Class B products. This is covered by paragraph (k–1) (2) of CMP Regulation No. 1. As pointed out in Interpretation No. 13 to CMP Regulation No. 1, a Class A repair part is handled on a Class B basis and therefore paragraph (g) (3) of the regulation is applicable.

(d) *Ratings not to interfere with authorized controlled material orders.* While a person who has been assigned a rating to get material may use the rating to get the use of the facilities of a controlled materials producer to have the material processed (if the material, when processed, is not a controlled material) rated orders for the use of a controlled materials producer's facilities must not interfere with the acceptance, production, or delivery of orders which he is permitted to fill under paragraph (t) (3) of CMP Regulation No. 1. Attention is called to Interpretation No. 4 to Priorities Regulation No. 1 on this subject. (Issued Nov. 18, 1943.)

Interpretation 8

ELECTRONIC INTERCOMMUNICATING SYSTEMS

List B of Priorities Regulation 3 (§ 944.23) forbids the use of blanket MRO ratings to obtain electronic intercommunicating systems. This restriction applies only to getting systems not yet installed. Therefore, blanket MRO ratings may be used to obtain repair parts and materials for existing intercommunicating systems. Also, those blanket MRO ratings which may be used for minor capital additions, may within prescribed dollar limits be used to add stations to an existing intercommunicating system to bring it to its designed capacity. Thus, if an intercommunicating system is designed for 16 stations, with only 12 stations originally installed, four stations may be added by the use of blanket MRO ratings. However, an expansion beyond the 16 stations, or any enlargement of or an extension beyond the designed capacity, may not be obtained by use of blanket MRO ratings. (Issued Feb. 27, 1945.)

Interpretation 9

CERTAIN MRO RATINGS ASSIGNED UNDER P–98–b ARE NOT BLANKET MRO RATINGS

Paragraph (e) (2) of Priorities Regulation 3 prohibits the use of a "blanket MRO rating" to get any item on List B. See that paragraph for a definition of a "blanket MRO rating". Some of the items which are on List B also appear on Schedule B of Preference Rating Order P–98–b. That schedule provides a way to get a rating for the items which appear on it so that such P–98–b ratings will not be "blanket MRO ratings". These ratings are assigned to specific purchase orders for a specific kind and quantity of the material desired.

Therefore, when a rating assigned pursuant to Schedule B of P–98–b (as evidenced by the symbol MRO–P–3) is applied to a purchase order for any item which is set out on Schedule B of that order that rating is valid, despite the fact the item is also on List B of Priorities Regulation 3.

The order does not require the purchaser to furnish a copy of his approved purchase order to the supplier, and the supplier should give effect to the rating and certification unless he knows or has reason to believe that the purchase order has not been rated as provided in Schedule B of Order P–98–b. (Issued Jan. 24, 1944.)

Interpretation 10

USE OF RATING TO OBTAIN LEASED MACHINERY

(a) A preference rating which has been assigned for the delivery of an item of machinery or equipment may be used to lease the equipment as long as the following conditions are fulfilled:

(1) The lease must be a long-term semi-permanent arrangement where both parties contemplate the comparatively permanent installation of the machine or equipment. For instance, a rating could be used to obtain a machine under lease where the lease was for one year, with provision for renewal at the end of each year, and both parties expected that the lease would be renewed from time to time. However, the rating could not be used to obtain a machine for a month's use.

(2) If the rating is limited by specific dollar amount, it may be used only to lease machinery or equipment whose fair market value is no greater than the amount specified. For example, CMP Regulation No. 5 assigns a rating for the purchase of minor capital additions not exceeding $500. This rating can be used to lease a machine if its fair market value is not more than $500.

(b) If the instrument assigning the ratings specifies a lease rather than a purchase, it is not necessary to comply with the above conditions. (Issued April 25, 1944.)

Interpretation 11

IDENTIFICATION OF BLANKET MRO RATINGS

Generally speaking, ratings accompanied by the symbol "MRO" are blanket MRO ratings when they are applied to get an item on List B of Priorities Regulation 3. Therefore, any person receiving an order for a List B item bearing a rating accompanied by the symbol "MRO" must assume that the rating is a blanket MRO rating and give it no effect, unless the person who applied or extended it demonstrates (1) that it is not a blanket MRO rating or (2) that it is an extension of a blanket MRO rating applied on an order which was filled before the item was added to List B. (See paragraph (e) (2) of Priorities Regulation 3 for definition of "blanket MRO rating.")

It should not be assumed, however, that all blanket MRO ratings are accompanied by the "MRO" symbol. Several "P" and "U" Orders assign blanket MRO ratings which are accompanied by symbols other than "MRO." For example, a blanket MRO rating is assigned

by Preference Rating Order P-68, but the symbol accompanying the rating is "S 8".

The question has been raised whether the War Production Board assigns the symbol "MRO" in connection with the assignment of a rating on Form WPB-541 (PD-1A) for a List B item. The answer to this question is "No." Therefore, no rating which was assigned on Form WPB-541 for a List B item could properly be accompanied by the "MRO" symbol. (Issued April 25, 1944.)

INTERPRETATION 12

RECORDS OF EXPORTERS

Paragraph (g) (5) of Priorities Regulation No. 3 requires each person who applies or extends a rating to keep all documents including preference rating orders and certificates which authorize him to apply or extend the rating at his regular place of business. The Foreign Economic Administration and its predecessors, the Board of Economic Warfare and the Office of Economic Warfare, have assigned preference ratings to exporters for export by endorsing appropriate legends upon export licenses. The original of every export license, however, is required by other government regulations to be surrendered to export officials at the time of shipment. Consequently, persons who receive their assignments of preference ratings on export licenses are not in a position to retain the original of the export license and thus are not required to do so by paragraph (g) (5) except only in those cases where other government regulations do not require the surrender to the government of the documents referred to. (Issued April 25, 1944.)

INTERPRETATION 13

TIME LIMIT ON USE OF RATINGS

Preference ratings may not be extended to replace material in inventory after three months from the time delivery was made to the customer. This is the rule of paragraph (h) (1) of the regulation.

When a rating is being applied (except a blanket rating such as one assigned by CMP Regulation 5) or when any rating is extended for some purpose other than to replace inventory, this may be done only within a reasonable time after the rating was received. Generally speaking, more than three months is deemed to be an unreasonable delay in the use of a rating. In a particular case there may be circumstances which make a reasonable time shorter or longer than three months. For example,

(1) A rating assigned to a construction project on a form which says when the rating expires (such as GA-1456 or CMPL 593) may be applied for material going into the project until the expiration date stated, even though more than three months may have elapsed.

(2) A rating assigned in connection with an export license may be applied as long as the license is valid and expires when the license expires or is revoked. (For explanation of this rule see Interpretation 2, Directive 27.)

(3) When a rating is applied to a long term contract (such as the construction of a ship), it may be extended for material needed to fill the contract, even though more than three months have elapsed.

(4) If the purpose for which the rating was assigned no longer exists, the rating may not be applied even though three months have not elapsed.

(5) When a rating is extended by a person to get material to deliver to his customer, or to incorporate in such material, the time within which it may be done will, in general, be controlled by the delivery date on his customer's order.

The fact that a person has not been able to get his rated order accepted by a supplier does not lengthen the time within which he may use his rating. (Issued June 23, 1944.)

INTERPRETATION 14: Revoked Apr. 23, 1945.

INTERPRETATION 15

REFERENCES IN LISTS A AND B TO ORDERS WHICH HAVE BEEN REVOKED

In many items on Lists A and B of Priorities Regulation 3 reference is made to specific WPB orders or schedules for a definition of the specific items covered by the lists. Sometimes the order or schedule referred to is revoked without any change in the listing on List A or B. When one of these orders or schedules is revoked, the listing of the item on List A or B, nevertheless, remains in full force and effect, and the item as listed on List A or B has the same meaning as before the revocation of the order. PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 24, Revocation]

Section 944.45, *Priorities Regulation 24* is hereby revoked. Preference ratings for equipment will hereafter be assigned as described in Priorities Regulation 28. This revocation does not revoke any preference ratings already assigned under this regulation, except to the extent otherwise provided in Priorities Regulation 29.

Issued this 21st day of August 1945.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 28, as Amended Aug. 21, 1945]

RESTRICTED PRIORITIES ASSISTANCE FOR NON-MILITARY PURPOSES

Section 944.49 *Priorities Regulation 28* is amended to read as follows:

§ 944.49 *Priorities Regulation 28*—(a) *What this regulation does.* As a result of victory over Japan, military procurement has been drastically reduced. The supply of materials for non-military use is expected to increase rapidly so as to be generally adequate to meet all demands. There is consequently no further need for general priorities assistance for essential non-military needs, and WPB has announced in Priorities Regulation 29 the termination of AA ratings and the Controlled Materials Plan at the end of September. It is WPB's general policy not to grant further priorities assistance for non-military purposes. However, WPB is introducing a new non-extendible CC rating for limited priorities assistance, where required in individual cases to assist reconversion or insure the continued fulfillment of essential civilian or export needs. This includes preference ratings for all purposes other than military procurement including production, construction, capital equipment, maintenance, repair, operating supplies, and export materials. This regulation explains the conditions under which WPB will assign the CC rating.

(b) *Other procedures for assigning ratings replaced.* Preference ratings for non-military purposes will be assigned from now on only in the way and under the conditions described in this regulation which supersedes previous procedures, such as Priorities Regulation 28, Direction 5 to Order L-41, and applications under CMP. Ordinarily, WPB will not assign any further AA ratings except in a few cases, such as textiles, where WPB may continue to assign ratings in the AA series as explained in directions or amendments to the appropriate WPB orders.

(c) *Applications*—(1) *How to apply for a CC rating.* Ordinarily, application for a CC rating under this regulation will be made on Form WPB-541A (revised) at your local field office. However, WPB will accept applications on other forms which have formerly been used if adequate information is given with the application. In a few cases, WPB may announce that a form other than WPB-541A (revised) may be provided.

(2) *WPB will return applications now on hand.* Since the surrender of Japan will make priorities assistance generally unnecessary, WPB will not process applications for preference ratings and allotments of controlled materials which have already been filed under old procedures, but will return them without action, except those requiring immediate emergency assistance. If you still need a preference rating, and if you can meet the conditions described in this regulation, you may file again.

(d) *When the WPB may assign a CC rating.* It is the general policy of the WPB not to grant further priorities assistance for non-military purposes. However, the WPB may in limited cases grant CC preference ratings for specific items and quantities of materials or equipment under the following conditions: (1) The applicant is not able, without preference rating assistance, to get the item in the minimum quantity and on the latest date practicable, and (2) the item is required for at least one of the following reasons:

(i) It is a "bottleneck item", a great majority of materials being obtainable without priorities assistance, and it is needed to maintain or begin operations at the minimum economic rate or to complete construction required for reconversion or other essential needs, or

(ii) The item is needed to prevent a delay in the completion on time of military production or construction, or

(iii) The item is needed to sustain or increase production of an item or a service which is in such tight supply that it is a serious threat to the economy, or

(iv) The item is needed to eliminate serious hazard to life, health, or safety of a large number of people, or to maintain essential public or other community services, or

(v) The item is needed in an emergency to remedy an actual or imminent breakdown or to replace an item which has been destroyed by flood, fire, tornado, or other Act of God, or

(vi) Where for other reasons, failure to obtain delivery of the item would result in unreasonable and exceptional hardship.

Special consideration will be given to the needs of small business.

WPB will not grant a CC rating in cases where it would preempt an undue proportion of the limited amounts available. If a material is in such short supply that it is generally hard to obtain, WPB may provide other procedures rather than a rating under this regulation.

(f) *CC ratings for export.* Applications from Canada will be handled on the same basis as United States applications. In the case of other exports, WPB will assign a CC rating to materials where it is demonstrated that a rating is necessary for procurement of materials in this country to prevent serious injury to the minimum essential civilian economics of friendly foreign nations, or to obtain vitally needed supplies from foreign sources, or for other reasons of high public policy. Applications for such rating should be made to the Foreign Economic Administration on the forms prescribed by that agency.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-891]

CRYSTAL SALVAGE CO.

Herman Schmerling, doing business as Crystal Salvage Company, is engaged in the business of selling lumber, secondhand plumbing fixtures, and salvage materials at 1109 Spring Garden Street, Philadelphia, Pennsylvania. Between September 9, 1944 and May 2, 1945 he applied or extended unauthorized preference ratings of AA-3 on four purchase orders for approximately 86,000 board feet of lumber placed with Lewis J. Hoffman, Philadelphia, Pennsylvania, in violation of Priorities Regulation No. 3, and such violations were the result of gross negligence.

These violations have diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.891 *Suspension Order No. S-891.* (a) Unless otherwise specifically authorized in writing by the War Production Board, Herman Schmerling shall not for three months from the effective date of this order apply or extend any preference ratings to obtain any lumber, regardless of the delivery date named in any purchase order to which such ratings may be applied or extended.

(b) Herman Schmerling shall cancel immediately all preference ratings which he has applied or extended on orders for lumber which have not yet been filled, except lumber already in transit for delivery to him on the effective date of this order.

(c) The restrictions and prohibitions contained herein shall apply to Herman Schmerling, doing business as Crystal Salvage Company or otherwise, his successors and assigns, or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(d) Nothing contained in this order shall be deemed to relieve Herman Schmerling from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on August 22, 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule C, as Amended Aug. 18, 1945]

SPECIAL PROGRAM FOR COTTON FABRICS FOR CIVILIAN APPAREL ITEMS

§ 3290.120c *Schedule C to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in Order M-328B for manufacturers of civilian apparel made of cotton fabric to get an AA-3 preference rating for fabric to make the items listed in this schedule.

(b) *Definitions.* (1) "Fabric", unless otherwise designated, means a woven fabric twelve inches or more in width.

(2) "Cotton fabric" means any fabric containing less than 25% wool by weight, but of which the remaining fibers are 50% or more cotton by weight.

(3) "Cotton item" means an item of which more than 50% of the fabric yardage incorporated in it, exclusive of linings, bindings and trimmings, is cotton fabric.

(4) "Base period manufacturer" and "base period" mean the same as they do in M-328B except that a person who did not manufacture an item listed in this schedule during the base period at or below the maximum price set forth in the schedule shall not be a base period manufacturer.

(c) *Requirements for obtaining priorities assistance.* (1) Three copies of form WPB-3732 must be filed in making application for priorities assistance under this schedule in accordance with the rules stated in paragraph (c) of Order M-328B, except that for the fourth quarter of 1945 applications shall be postmarked not later than September 5, 1945.

(2) A person who has received a rated quota under Order M-388A pursuant to an application on Form WPB-4200 who files Form WPB-3732 (revised) for the third calendar quarter of 1945 by July 21, 1945, may, as soon as he files his application, apply an AA-3 rating for the purchase of cotton fabrics for delivery in that quarter for incorporation into the cotton items for which application is made. He may do so only for an item he made in the base period and only for 15% of his rated quota under M-388A with respect to any item. Cotton fabrics purchased under this provision shall be deducted by the manufacturer from the total quantity for which priorities assistance is ultimately granted on form WPB-3732 (revised). If the applicant does not ultimately receive a grant of the entire quantity thus rated, he shall, upon notification of his grant by the War Production Board, immediately cancel orders for any undelivered quantities which are in excess of his grant.

(3) A manufacturer receiving an allocation for an item under this schedule for a quarter must subtract from his rated quota for that item under Order M-388A for that quarter, the total yardage of fabrics for which priorities assistance is granted under this schedule to determine the quantity of fabrics which he may purchase with an AA-4 rating under his M-388A rated quota. If the quantity of fabrics for which an AA-3 rating is authorized for an item under this schedule is in excess of his AA-4 rated quota in M-388A, the manufacturer may not use an AA-4 rating under M-388A for that item.

(4) A manufacturer who files Form WPB-3732 for the fourth quarter of 1945 by September 5, 1945, may, as soon as he files his application, apply an AA-3 rating for the purchase of cotton fabric for delivery in that quarter for incorporation into the items for which application is made. He may do so only for an item he made in the base period at or below the price shown in the preference rating schedule or for which he received an allocation under this schedule, for the third quarter of 1945, and only for one-third of the yardage of fabric consumed in the production of that item during the base period or 50% of the yardage allocated to him by the War Production Board for the third quarter, whichever is smaller. Fabric purchased under this provision shall be deducted by the manufacturer from the total quantity for which priorities assistance is granted pursuant to his application on Form WPB-3732. If the applicant does not receive a grant of the entire quantity thus rated he shall upon notification of his grant by the War Production Board immediately unrate or cancel orders for any undelivered quantities which are in excess of his grant.

Manufacturers who did not produce in the base period the items applied for on Form WPB-3732 at or below the price shown in the preference rating schedule, or who do not receive an allocation for them under this schedule for the third quarter of 1945, may not use any ratings under this schedule for the fourth quarter of 1945, until the War Production Board has assigned them a quota.

(5) *Provisions in case of governmental cut-backs.* At any time during any calendar quarter a manufacturer who has received cancellations or cut-backs on military contracts or orders placed by any agency of the U. S. Government, or who during the quarter has production facilities made available, may apply to the War Production Board on Form WPB-3732 for priorities assistance to manufacture items listed in this schedule. Such applications will be approved to the extent of available materials and the need for additional production of the items applied for.

(d) *General provisions.* (1) Preference ratings assigned under this schedule may be used only to get the particular cotton fabrics shown in the fabric column of the preference rating schedule to make the cotton items specified.

(2) The fabrics must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices:

(i) The price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration; or

(ii) The price specified in the Maximum Price column.

(3) If applications are received for fabric in excess of the amount of fabric which can be allocated to any item, allocations will be assigned in proportion to the manufacturer's base period production of that item. However, an equitable portion of available fabrics will be allocated to applicants who did not produce the items in the base period. If the quantity of a specific construction of fabric is requested in excess of the quantity of that construction which is available for allocation under this schedule the War Production Board may substitute other fabrics for the fabrics applied for taking into account the price of such fabrics with relationship to the price at which the manufacturers will sell the finished item.

(4) A manufacturer who is not a base period manufacturer must comply with the provisions of paragraph (c) (6) of M-328B.

(5) The quantity of cotton fabric which may be applied for by a base period manufacturer, for making an item in each price specified in his application, may not be greater than 100% of the linear yardage used by him in the base period for making that item at such specified price; except that a manufacturer may apply for a larger quantity of an item at a lower price if he decreases the quantity of an item applied for at a higher price by the same number of units.

(6) Additional priorities assistance may be given for the procurement of cotton narrow woven selvage edge tape needed for incorporation into the number of units for which priorities assistance is granted. Requests for this additional priorities assistance shall be made on Form WPB-3732 separately for each item for which application is made.

(7) Manufacturers who did not manufacture an item in the base period must produce the item in the size assortments listed opposite each item in the size assortment column. Where normal industry practice appears, the manufacturer should state his proposed sizes in the remarks section of Form WPB-3732 (revised). If his application is granted, he must comply with these size assortments.

Issued this 16th day of August 1945.

Chapter XI—Office of Price Administration

PART 1305—ADMINISTRATION

[Gen. RO 5[1], Amdt. 116]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale for this amendment will be filed with the Division of the Federal Register.

A new section 12.6 is added to read as follows:

SEC. 12.6 *Petitions for loan of meat-fats points.* (a) A Group II, III, IV or VI institutional user or a person eligible to obtain allotments under Article XXVI, whose net point inventory of foods covered by Revised Ration Order 16 on hand on the date of his application is less than 25% of his July-August 1945 meal service allotment for those foods, may apply for a loan of points for foods covered by Revised Ration Order 16. The application shall be made to the Board, in writing, and must be filed not later than August 31, 1945. It shall state the name and address of the applicant, that his net point inventory of foods covered by Revised Ration Order 16 on the date of his application is less than 25% of his July-August 1945 meal service allotment for those foods, and the number of points applied for. If the Board finds that the applicant's net point inventory of foods covered by Revised Ration Order 16 on hand on the date of his application is less than 25% of his July-August 1945 meal service allotment for those foods, it may grant him a loan of points for foods covered by Revised Ration Order 16 in an amount not exceeding 25% of his meal service allotment for those foods for the July-August 1945 allotment period.

(b) Any loan granted under this section shall be charged to excess inventory, and shall be repaid in four (4) equal installments beginning with the September-October 1945 allotment period. Such payments shall be in addition to any existing payments that are now being made in reduction of excess inventory charges.

This amendment shall become effective August 22, 1945.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 22d day of August 1945.

PART 1439—UNPROCESSED AGRICULTURAL COMMODITIES

[RMPR 471, Amdt. 9]

LEGUME AND GRASS SEEDS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 471 is amended in the following respects:

1. A new subparagraph (7) is added to section 1 (b) to read as follows:

(7) State Certified Emerald sweetclover seed of the 1945 crop.

2. Section 5 is amended to read as follows:

SEC. 5. *Licensing.* The provisions of Licensing Order No. 1, licensing persons who make sales under price control, are applicable to sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended. However, no license is required of, or granted to, any producer selling legume and grass seeds produced by him.

3. A new paragraph is added at the end of section 6 (c) to read as follows:

The provisions of this paragraph (c) shall not apply to bids on or offers to purchase or purchases of thresher-run or rough cleaned red clover, sweetclover and timothy seeds.

4. Subparagraphs (1) and (2) of section 12 (c) are amended to read as follows:

(1) Except as provided in subparagraph (2) of this section, your maximum price shall be your supplier's maximum price on the sale and delivery to you, plus your transportation cost, and plus the applicable mark-up shown below:

Kind of seed:	Maximum mark-up per 100 pounds
Alfalfa:	
Northern and Central	$3.90
Southern (except when grown, sold and delivered for planting in the State of Arizona or in the State of California south of the 40th parallel)	3.90
Southern (when grown, sold and delivered for planting in the State of Arizona or in the State of California south of the 40th parallel)	3.40
Southern (when grown in the State of Arizona or in the State of California south of the 40th parallel and when sold and delivered for planting outside the State of Arizona or the State of California south of the 40th parallel with base price for Southern Alfalfa seed set forth under section 13 Appendix (a) (3))	1.90
Clover:	
Medium Red, Mammoth Red and Alsike	3.80
Sweet	2.25
Timothy	1.40

(2) If you are a wholesaler, who maintains and operates a retail store or a retail mail order house in connection with which you publish a seed catalogue, and if you sell to planters, your maximum price to planters shall be your supplier's maximum price on the sale and delivery to you, plus your transportation cost, and plus the applicable mark-up shown below:

Kind of seed:	Maximum mark-up per 100 pounds
Alfalfa:	
Northern and Central	$8.40
Southern (except when grown, sold and delivered for planting in the State of Arizona or in the State of California south of the 40th parallel)	8.90
Southern (when grown, sold and delivered for planting in the State of Arizona or in the State of California south of the 40th parallel)	6.90
Southern (when grown in the State of Arizona or in the State of California south of the 40th parallel and when sold and delivered for planting outside the State of Arizona or the State of California south of the 40th parallel with base price for Southern Alfalfa seed set forth under section 13 Appendix (a) (3))	6.90

Kind of seed—Con.	*Maximum mark-up per 100 pounds*
Clover:	
Medium Red, Mammoth Red and Alsike	$7.65
Sweet	5.25
Timothy	3.60

5. Paragraph (g) (2) (ii) of the appendix is amended to read as follows:

(ii) Sweetclover seed: Evergreen, Madrid, Spanish Willamette, and, beginning with seed of the 1946 crop, Emerald.

This amendment shall become effective August 22, 1945.

Issued this 22d day of August 1945.

Chapter XVIII—Office of Economic Stabilization

[Directive 60, Amdt. 1]

PART 4004—PRICE STABILIZATION; MAXIMUM PRICES

1945 CANNED VEGETABLES

The Secretary of Agriculture and the Price Administrator having submitted to me information with respect to the need for an increase (1) in the amount of the maximum price for sales to government procurement agencies, and (2) in the amount of the subsidy payment on other sales for certain canned tomatoes of the 1945 pack, I hereby find that the measures hereinafter authorized and directed to be taken by the Department of Agriculture and the Office of Price Administration will effectuate the purpose of the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250, 9328 and 9599.

Directive No. 60 of the Office of Economic Stabilization, issued and effective June 27, 1945 (10 F.R. 8071), is hereby amended by adding a new paragraph (3) to read as follows:

(3) With respect to canned tomatoes only, the Office of Price Administration and the Department of Agriculture are further authorized and directed to increase the maximum prices fixed under (1) (c) and subsidy payments under (2) (a) by an amount equivalent to 6 cents per dozen No. 2 cans with appropriate adjustments for other container sizes, such adjustments to become effective as of July 5, 1945.

(E.O. 9250 and E.O. 9328, 3 CFR, Cum. Supp.)

Issued and effective this 20th day of August 1945.

Chapter XXIII—Surplus Property Board

[SPB Reg. 4, Amdt. 2]

PART 8304—DISPOSAL OF SURPLUS AERONAUTICAL PROPERTY TO EDUCATIONAL INSTITUTIONS AND STATE OR LOCAL GOVERNMENTS FOR NON-FLIGHT USE

MISCELLANEOUS AMENDMENTS

Surplus Property Board Regulation No. 4, May 4, 1945, entitled, "Disposal of Surplus Aeronautical Property to Educational Institutions for Non-Flight Use" (10 F.R. 5460, 6785) is hereby amended in the following respects:

1. The title is amended to read "Disposal of Surplus Aeronautical Property to Educational Institutions and State or Local Governments for Non-Flight Use."

2. There is added a new paragraph (i) to § 8304.1 to read as follows:

(i) "State or local government" means any State, territory or possession of the United States, the District of Columbia, and any political subdivision or instrumentality thereof.

3. The last sentence of § 8304.2 is amended to read as follows: "The Board further finds that the disposal of such surplus property to educational institutions and to State or local governments for school, classroom, or other educational use including research, experimentation and memorial uses, as provided herein, will result in substantial benefit to the United States by stimulating aeronautical interest and knowledge and thus promoting national defense, employment, production and trade."

4. The last sentence of § 8304.3 is amended to read as follows: "Disposal agencies for aeronautical property shall continuously survey all aeronautical property listed on Exhibit A which is declared surplus to them and shall give wide public notice to educational institutions and to State or local governments of such property as is determined to be commercially unsaleable in accordance with such orders."

5. Section 8304.4 is amended to read as follows:

§ 8304.4 *Disposals to educational institutions and to State or local governments.* Property listed in Exhibit A which is determined to be commercially unsaleable pursuant to § 8304.3 and orders hereunder shall be fairly and equitably disposed of by the disposal agencies to educational institutions and to State or local governments in accordance with the following rules:

(a) Charges for such property shall be the disposal cost as listed on Exhibit A opposite each type of such property.

(b) Such property shall be prepared for shipment by the agency in actual possession and delivered to the buyer at the location of the property or to a carrier at a place agreed upon with the buyer. Shipment shall be on commercial bill of lading, charges "collect."

(c) The buyer shall file with the disposal agency a certificate under oath duly notarized that such buyer is an educational institution as defined in § 8304.1 (e) or a State or local government as defined in § 8304.1 (i), that the property is being acquired to be used only for nonflight instructional, research, experimental, or memorial purposes, that it will not be used for any flight purposes, and that the property will be disposed of only as scrap and then only after it shall have been rendered completely unfit and useless except for its basic material content.

6. The first sentence of § 8304.6 is amended to read as follows: "Disposal agencies shall submit monthly reports to the Board not later than the 10th day of each month covering the disposals of aeronautical property during the preceding month to educational institutions and to State or local governments as provided in § 8304.4."

This amendment shall become effective August 24, 1945.

SURPLUS PROPERTY BOARD,
By W. STUART SYMINGTON,
Chairman.

TITLE 34—NAVY

Chapter 1—Department of the Navy

PART 22—MUSTERING-OUT PAYMENTS TO MILITARY PERSONNEL IN THE UNITED STATES NAVY, MARINE CORPS, AND COAST GUARD

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of the Navy by the act of February 3, 1944 (58 Stat. 10) as amended by the act of December 16, 1944 (58 Stat. 812), the regulations prescribed to govern mustering-out payments to military personnel in the United States Navy, Marine Corps and Coast Guard (10 F.R. 2188) are amended to read as follows:

Add a new subparagraph (3) to § 22.1 (f) as follows:

§ 22.1 *Statutory provisions.* • • •

(f) *Exemption from taxation and claims of creditors; issuance of regulations.* • • •

(3) The Secretary of the Navy, or such subordinate officer as he may designate, is authorized to make direct payment to survivors over seventeen years of age, and to select a proper person or persons to whom mustering-out payments may be made for the use and benefit of former active members of the armed forces, or survivors thereof, as defined by § 22.1 (e), without the necessity of appointment by judicial proceedings of a legal representative of any such former member or such survivors when, in the opinion of the Secretary or his designee, the interests of persons under seventeen years of age so justify, or where the former active member or his survivors is suffering from a mental disability sufficient to make direct payment not in the best interests of such person or persons. Payments made under the provisions of this subparagraph shall constitute a complete discharge of the obligation of the United States as provided in the act of February 3, 1944, as amended; and the selection of a proper person or persons, as provided herein, and the correctness of the amount due and paid to such person or persons shall have the same finality as that accorded decisions made pursuant to § 22.1 (f) (2): *Provided*, That the provisions of this subparagraph shall not apply where a legal guardian or committee has been judicially appointed, except as to any payments made hereunder prior to the receipt of notice of appointment.

Amend subparagraph (5) of § 22.3 (a) and add new subparagraphs (6), (7) and (8) to read as follows:

§ 22.3 *Payments to survivors.*—(a) *General.* • • •

(5) *To whom payable in cases of minority.* Where a survivor, otherwise entitled to mustering-out payment, is a minor, payment will be made in accordance with the following rules:

(i) Where a legal guardian has been judicially appointed and notice of such appointment has been received prior to the issuance of payment, payment will be made only to the legal guardian, as such.

(ii) Where a survivor is seventeen years of age and over and no notice has been received that a legal guardian has been judicially appointed, payment will be made directly to the survivor.

(iii) Where a survivor is under seventeen years of age and no notice is received that a legal guardian has been judicially appointed, payment for the use and benefit of the survivor will be made to a person within the following classes: parent, adult brother, adult sister, other person who is determined, after appropriate investigation, to be qualified to act in the best interests of the survivor. Payment will be made in the order of precedence set forth unless it is considered that compliance therewith would not serve the best interests of the survivor.

(6) *To whom payable in cases of mental incompetency.* Where a survivor, otherwise entitled to mustering-out payment is prevented from receiving payment because of mental incompetency, payment will be made in accordance with the following rules:

(i) Where a legal guardian or committee of the survivor has been judicially appointed and notice of such appointment has been received prior to the issuance of payment, payment will be made only to the legal guardian, as such.

(ii) Where no notice has been received that a legal guardian has been judicially appointed, payment for the use and benefit of the survivor will be made to a person within the following classes: spouse, parent, adult child, other person who is considered, after appropriate investigation, qualified to act in the best interests of the survivor. Payment will be made in the order of precedence set forth herein unless compliance therewith would not serve the best interests of the survivor.

(7) *Evidence required for payment.* No payment will be made to a legally appointed guardian or committee of a survivor without submission of a certified copy of the instrument of appointment. Payments will not be made to a person selected under § 22.3 (a) (5) (iii) or § 22.3 (a) (6) (ii) without the submission of a written and signed agreement executed by the person selected to receive the payments for the use and benefit of the survivor containing a statement that the proceeds of payment will be used for the exclusive benefit of the survivor.

(8) *Method of payment.* All payments to survivors or to persons on their behalf will be made by checks. In the event that payments are made to a person other than the survivor, the check will be drawn to the order of (*selected payee*), and shall include in the lower left hand corner under "Object" the phraseology "for the use and benefit of (*name of survivor*)."

Amend paragraphs (b) and (c) of § 22.4 to read as follows:

§ 22.4 *Payments on behalf of persons discharged on account of mental disability.* • • •

(b) *To whom payable.* Mustering-out payments on behalf of personnel discharged on account of mental disability will be made in accordance with the following rules:

(1) Where a legal guardian or committee of the veteran has been judicially appointed and notice of such appointment is received prior to the issuance of payment, payment will be made only to the legal guardian, as such.

(2) Where no notice has been received that a legal guardian has been judicially appointed, payment may be made directly to the veteran if a written, dated, and signed statement by a registered physician is furnished to the effect that the veteran is, in the opinion of the examining physician, mentally capable to handle his own affairs. (The term "registered, practicing physician" includes staff physicians at Government hospitals.)

(3) Where no notice has been received that a legal guardian has been judicially appointed and where the veteran cannot receive payment directly under § 22.4 (b) (2), payment is authorized to be made in the following manner:

(i) Where the veteran is hospitalized in a Veterans' Administration facility, or is temporarily absent therefrom for convalescent purposes, payment for the use and benefit of the veteran will be made to the manager of the facility unless after appropriate investigation it is determined that some other person is better qualified to act in the best interests of the veteran. If a facility manager applies for payment on behalf of a mentally disabled veteran under his jurisdiction but, prior to the receipt of any one of the checks covering complete payment, the veteran is discharged from the facility, checks received after the veteran's departure will be returned to the Field Branch, Bureau of Supplies and Accounts (Mustering-Out Payment Division), Cleveland 15, Ohio, in the case of Naval and Coast Guard personnel or to the Paymaster General of the Marine Corps, Washington 25, D. C., in the case of Marine Corps personnel, accompanied by so much of the following information as is pertinent to the case of the individual concerned:

(*a*) A statement concerning the mental condition of the veteran at the time of discharge from the facility, i. e., whether considered mentally competent to handle his own affairs.

(b) The name and address of the person in whose custody the veteran was discharged from the facility.

(c) The address of the veteran if discharged into his own custody.

(ii) Where the veteran has been released to the custody of a person other than a manager of a Veterans' Administration facility, payment for the use and benefit of the veteran will be made to a person within the following classes; spouse, parent, adult child, other person who is considered, after appropriate investigation, qualified to act in the best interests of the veteran. Payment will be made in the order of precedence set forth herein unless compliance therewith would not serve in the best interest of the veteran.

(4) All payments will be made by checks. In the event that payment is to be made to a person other than the veteran, the check will be drawn to the order of (*selected payee*), and shall include in the lower left hand corner under "Object" the phraseology "for the use and benefit of (*name of veteran*)."

(c) *Evidence required for payment.* (1) No mustering-out payments shall be made to the persons named in § 22.4 (b) without:

(i) The discharge certificate, certificate in lieu of a lost discharge certificate, or statement of service issued in the name of the person on whose account payment is to be made, or in the case of commissioned personnel the original orders of separation from active Naval service, and,

(ii) Where payment is to be made to the legally appointed guardian or committee of the veteran, a certified copy of the instrument of appointment.

(iii) Where payment is to be made to the discharged veteran, a physician's statement as prescribed in § 22.4 (b) (2).

(iv) Where payment is to be made under the provisions of § 22.4 (b) (3) a written and signed statement executed by the person selected to receive the payment for the use and benefit of the veteran containing a statement that the proceeds of the payment will be used for the exclusive benefit of the veteran. Additional and/or substitute evidence is authorized and may be required in appropriate cases in the discretion of the Chief of Naval Personnel, Commandant of the Coast Guard, or Commandant of the Marine Corps, as appropriate.

Amend paragraph (f) of § 22.5 to read as follows:

§ 22.5 *Payments to veterans discharged or released from active service on or after February 15, 1944.* • • •

(f) *Procedure with respect to veterans who become mentally incompetent.* (1) In cases in which, after receipt by the veteran of the initial payment, the second and/or third installments cannot be paid to him due to his mental incompetency, payment of the remaining installments due will be made in accordance with the following rules:

(i) Where legal guardian or committee of the veteran has been judicially appointed and notice of such appointment is received prior to the issuance of payment, payment will be made only to the legal guardian, as such.

(ii) Where no notice has been received that a legal guardian has been judicially appointed, payment is authorized to be made in accordance with the manner set forth in § 22.4 (b) (3).

(iii) All payments will be made by checks. In the event that payment is to be made to a person other than the veteran, the check will be drawn to the order of the (*selected payee*), and shall include in the lower left hand corner under "Object" the phraseology "for the use and benefit of (*name of veteran*)."

(2) Application for the installments due may be filed on behalf of the veteran and must be submitted to the Bureau of Naval Personnel, Washington 25, D. C., Headquarters, Coast Guard, Washington, D. C., or Director of Personnel, Marine Corps, Washington, D. C., as appropriate. Application must be accompanied by the original discharge certificate or orders of release from active duty, and if applicable, a certified copy of the instrument appointing the guardian or committee. (See also § 22.4 with respect to payment on behalf of persons discharged on account of mental disability.)

Amend paragraph (c) of § 22.6 to read as follows:

§ 22.6 *Payments to veterans discharged or relieved from active service prior to February 15, 1944.* • • •

(c) *Procedure with respect to mentally incompetent veterans.* (1) Payment on behalf of mentally incompetent veterans discharged or released from active service under honorable conditions on or after December 7, 1941, and prior to February 15, 1944, will be made in accordance with the following rules:

(i) Where a legal guardian or committee of the veteran has been appointed judicially and notice of such appointment is received prior to the issuance of payment, payment will be made only to the legal guardian, as such.

(ii) Where no notice has been received that a legal guardian has been judicially appointed, payment is authorized to be made in accordance with the manner set forth in § 22.4 (b) (3).

(iii) All payments will be made by checks. In the event that payment is to be made to a person other than the veteran, the check will be drawn to the order of (*selected payee*), and shall include in the lower left hand corner under "Object" the phraseology "for the use and benefit of (*name of veteran*)."

(2) Application, containing the information indicated in § 22.6 (b), may be filed on behalf of the veteran and must be submitted to the Bureau of Naval Personnel, Washington 25, D. C., Headquarters, Coast Guard, Washington, D. C., or Director of Personnel, Marine Corps, Washington, D. C., as appropriate. The application must be accompanied by the original discharge certificate or orders of release from active duty and if applicable, a certified copy of the instrument appointing the guardian or committee. (See also § 22.4 with respect to payment on behalf of persons discharged on account of mental disability.)

TITLE 46—SHIPPING

Chapter I—Coast Guard: Inspection and Navigation

Subchapter D—Tank Vessels

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in me by R.S. 4405 and 4417a, as amended (46 U.S.C. 375, 391a), and Executive Order 9083, dated February 28, 1942 (3 CFR, Cum. Supp.), I find that an emergency exists and the following amendments to the Tank Vessel Regulations are necessary in the conduct of the war and shall be made effective as of August 21, 1945.

PART 33—LIFESAVING APPLIANCES

EQUIPMENT; LIFEBOATS, LIFE RAFTS, AND BUOYANT APPARATUS

Section 33.3-5 (k) is amended to read as follows:

§ 33.3-5 *Tank ships, life raft equipment, ocean, coastwise—T/OC.* • • •

(k) *Water light.* One automatic electric water light of an approved type. See §§ 37.9-1 and 37.9-2 of this subchapter.

Section 33.3-6 (i) is amended to read as follows:

§ 33.3-6 *Life raft equipment—T L.* • • •

(i) *Water light.* One automatic electric water light of an approved type. See §§ 37.9-1 and 37.9-2 of this subchapter.

Section 33.3-8 (c) is amended to read as follows:

§ 33.3-8 *Equipment for buoyant apparatus—TB/ALL.* • • •

(c) *Water light.* One automatic electric water light of an approved type. See §§ 37.9-1 and 37.9-2 of this subchapter.

Section 33.3-8 is amended by changing the last undesignated paragraph to read as follows:

§ 33.3-8 *Equipment for buoyant apparatus—TB/ALL.* • • •

Buoyant apparatus designed to accommodate less than 25 persons shall not be required to be equipped with an automatic electric water light. Such apparatus weighing less than 75 pounds shall not be required to have a painter for lowering.

LIFE BUOYS

Section 33.7-1 *Number required; tank ships—T/ALL* is amended by changing the phrase "water lights" to "automatic water lights of an approved type."

Effective October 1, 1945, § 33.7-4 *Attachment of water lights—TB/ALL* is deleted.

PART 34—FIRE FIGHTING EQUIPMENT

FIRE PUMPS, MAINS, HYDRANTS, AND HOSE

Section 34.2-6 is amended by the addition of a new paragraph (e) reading as follows:

§ 34.2-6 *Fire hydrants—T/ALL.* • • •

(e) The arrangement of the fire hydrants shall be limited to any position from the horizontal to the vertical pointing downward, so that the hose will lead downward or horizontally, in order to minimize the possibility of kinking. In no case will a hydrant arranged in a vertical position with the outlet pointing upward be accepted.

PART 37—SPECIFICATIONS FOR LIFESAVING APPLIANCES

ELECTRIC WATER LIGHTS

Part 37 is amended by changing the center heading immediately following § 37.8-10 "Self-Igniting Water Lights" to "Electric Water Lights."

Section 37.9-1 is amended to read as follows:

§ 37.9-1 *Automatic electric water lights—TB/ALL.* The automatic electric water light shall comply with the U. S. Coast Guard Specification for Lights (Water); Electric, Floating, Automatic (with Bracket for Mounting):[1] No battery cell shall remain in the water light after seventeen (17) months beyond the date of manufacture appearing on the cell or its jacket. Approved electric water lights not conforming to the above referred-to specification which are on board vessels prior to October 1, 1945, may be continued in service provided they are in good and serviceable condition; water lights replaced on and after October 1, 1945, shall comply with the requirements contained in this regulation.

Section 37.9-2 is amended to read as follows:

§ 37.9-2 *Removal of calcium water lights—TB/ALL.* On and after October 1, 1945, all calcium type self-igniting water lights shall be removed and replaced with automatic electric water lights of an approved type.

Section 37.9-3 *Lanyard—TB/ALL* is deleted.

Section 37.9-4 *Chemical—TB/ALL* is deleted.

Section 37.9-5 *Marking—TB/ALL* is deleted.

Section 37.9-6 *Approval—TB/ALL* is deleted.

Section 37.9-7 *Life raft water lights—TB/ALL* is deleted.

Dated: August 21, 1945.

L. T. CHALKER,
Rear Admiral, U. S. C. G.,
Acting Commandant.

[F. R. Doc. 45-15525; Filed, Aug. 22, 1945; 8:53 a. m.]

[1] A copy of the specifications is on file in the office of the Federal Register, and copies may be obtained upon request from the Commandant (EMM), United States Coast Guard Headquarters, Washington 25, D. C., or any District Coast Guard Officer.

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in me by R.S. 4405, 4426, 4429, 4433, 4471, 4488, as amended, 49 Stat. 1544, 54 Stat. 1028 (46 U.S.C. 375, 404, 407, 411, 464, 481, 367, 463a), and Executive Order 9083, dated February 28, 1942 (3 CFR, Cum. Supp.), the following amendments to the regulations are prescribed:

Subchapter F—Marine Engineering

PART 55—PIPING SYSTEMS

Section 55.19-3 is amended by deleting paragraph (o) and (p) and substituting the following therefor:

§ 55.19-3 *Detail requirements.* • • •

(o) Cast iron valves may have bolted bonnets or union bonnets. If of the latter type, the union bonnet ring shall be made of steel, bronze, or malleable iron. Cast iron valves with screwed-in or screwed-over bonnets are not permitted for any service.

(p) Screw-down valves for Class I piping shall be of the bolted or union bonnet type, or of a type where positive means is provided to prevent the bonnet from being unscrewed from the body when the stem is rotated to lift the disc.

PART 56—FUSION WELDING

RULES FOR CONSTRUCTION OF FUSION WELDED DRUMS OR SHELLS OF MARINE BOILERS AND PRESSURE VESSELS

Section 56.20-6 (a) is amended to read as follows:

§ 56.20-6 *Class II.* (a) All vessels other than boilers operating at pressures of 30 pounds per square inch above atmosphere or over, covered by this part may be included in this class, excepting those containing lethal gases or lethal liquids and/or those containing liquids operating at a temperature of 300° F., or above. The maximum pressure at which any vessel in this class may be operated is 600 pounds per square inch, and/or the maximum temperature is 700° F. The plate thickness of the shell or heads shall not exceed 1½ inches. This pressure limitation does not apply to vessels operated under hydraulic pressure at atmospheric temperature.

Subchapter G—Ocean and Coastwise: General Rules and Regulations

PART 61—FIRE APPARATUS; FIRE PREVENTION

Section 61.5 (b) (4) is amended to read as follows:

§ 61.5 *Steam fire pumps or their equivalent.* • • •

(b) *Fire pumps on steam vessels contracted for on or after July 1, 1935.* • • •

(4) Outlet openings shall have a diameter of not less than 1½" and shall be fitted with suitable hose connections and spanners. The arrangement of the fire hydrant shall be limited to any position from the horizontal to the vertical pointing downward, so that the hose will lead downward or horizontally, in order to minimize the possibility of kinking. In no case will a hydrant arranged in a vertical position with the outlet pointing upward be accepted.

Section 61.12a is amended to read as follows:

§ 61.12a *Pumps on motor vessels.* Motor vessels of fifty gross tons and over carrying passengers for hire shall be equipped with pumps for throwing water according to the tonnage as described in § 61.5 for steam vessels and equipped as prescribed in §§ 61.5 to 61.7, inclusive, as they now exist or may hereafter be amended.

Subchapter H—Great Lakes: General Rules and Regulations

PART 77—FIRE APPARATUS; FIRE PREVENTION

Section 77.5 (b) (4) is amended to read as follows:

§ 77.5 *Steam fire pumps or their equivalent.* (See § 61.5 of this chapter, as amended, which is identical with this section.)

Section 77.12a is amended to read as follows:

§ 77.12a *Pumps on motor vessels.* (See § 61.12a of this chapter, as amended, which is identical with this section.)

Subchapter I—Bays, Sounds, and Lakes Other Than the Great Lakes: General Rules and Regulations

PART 95—FIRE APPARATUS; FIRE PREVENTION

Section 95.5 (b) (4) is amended to read as follows:

§ 95.5 *Steam fire pumps or their equivalent.* (See § 61.5 of this chapter, as amended, which is identical with this section.)

Section 95.12a is amended to read as follows:

§ 95.12a *Pumps on motor vessels.* (See § 61.12a of this chapter, as amended, which is identical with this section.)

Subchapter J—Rivers: General Rules and Regulations

PART 113—BOATS, RAFTS, BULKHEADS, AND LIFESAVING APPLIANCES

Section 113.49 *Vessel's name on equipment* is deleted.

PART 114—FIRE APPARATUS; FIRE PREVENTION

Section 114.7 (b (4) is amended to read as follows:

§ 114.7 *Steam fire pumps or their equivalent.* (See § 61.5 of this chapter, as amended, which is identical with this section.)

Section 114.14a is amended to read as follows:

§ 114.14a *Pumps on motor vessels.* (See § 61.12a of this chapter, as amended, which is identical with this section.)

Pursuant to section 11 (c) of the Fair Labor Standards Act of 1938, and § 516.18 of the record keeping regulations, Part 516, as amended, notice is hereby given of the granting of an exception to the Southern Wood Preserving Company, Atlanta, Georgia, relieving it of the requirement of preserving its employees' daily time cards for the period required by § 516.15 of the record keeping regulations: *Provided,* That the daily time cards are preserved for not less than ninety days; *And provided, further,* That the total number of hours worked each day by each employee is transcribed from the daily time cards to other records which will be preserved for four years as required by § 516.14 of the regulations.

This exception shall not apply with respect to the daily time cards of any employee under 16 years of age.

This exception is granted on the representations of the petitioner and is subject to revocation for cause.

Signed at New York, New York, this 17th day of August, 1945.

L. METCALFE WALLING,
Administrator.

FEDERAL TRADE COMMISSION.

[Docket No. 5365]

SEBASTIAN-STUART FISH CO. ET AL.

NOTICE OF HEARING

In the Matter of Sebastian-Stuart Fish Co., a corporation, and Charles R. Allen, Sr., Gene M. Allen, Charles R. Allen, Jr., Mary E. Lankford, Gene M. Allen, II, and Harris M. Allen, individuals engaged in business as partners, trading as Charles R. Allen.

Complaint. The Federal Trade Commission, having reason to believe that the parties respondent named in the caption hereof, and hereinafter more particularly designated and described, since June 19, 1936, have violated and are now violating the provisions of subsection (c) of section 2 of the Clayton Act (U.S.C. Title 15, Sec. 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1: Sebastian-Stuart Fish Co. is a corporation organized and existing under and by virtue of the laws of the State of Washington with its principal office and place of business located at Spokane Street Dock, Seattle, Washington.

The respondent Sebastian-Stuart Fish Co. has been and is now engaged in the business of packing, selling and distributing canned fish and fresh fish (all of which are hereinafter designated as food products) in its own name and for its own account.

This respondent is hereafter designated as the respondent seller.

PAR. 2: The respondent seller distributes and sells its food products by two separate and distinct methods. The first and principal method is by utilizing intermediaries or food brokers, who act as respondent seller's agents in negotiating the sale of respondent seller's food products at respondent seller's prices, and on respondent seller's terms, and for which services to the respondent seller such intermediaries or food brokers are paid commissions or brokerage fees.

The second method utilized by the respondent seller in distributing food products, is by the direct sale of sub-

stantial quantities of its food products directly to buyers; representative of whom is Charles R. Allen, to whom respondent seller pays, directly or indirectly, commissions or brokerage fees on such buyer's purchases of respondent seller's food products which are purchased by Charles R. Allen and other buyers in their own name and for their own account.

PAR. 3: Respondents Charles R. Allen, Sr., Gene M. Allen, Charles R. Allen, Jr., Mary E. Lankford, Gene M. Allen, II and Harris M. Allen, individuals engaged in business as partners and trading as Charles A. Allen, have their principal office and place of business located at 16 Vendue Range, Charleston, South Carolina, and also maintain branch offices and warehouses in Jacksonville, Florida, and Savannah, Georgia.

These respondents are hereinafter referred to as respondent buyers.

The respondent buyers, since June 19, 1936, have been and are now principally engaged in the business of buying in their own name, and for their own account, various types, grades and brands of food products for resale and reselling such food products for their own account.

The respondent buyer in some instances, but to a lesser degree, also acts as an intermediary or broker for certain sellers of food products for whom respondent buyer negotiates the sale of such seller's products, and at such seller's prices, and on such seller's terms.

PAR. 4. Respondent buyer, in the course and conduct of said business since June 19, 1936, has purchased a substantial portion of its food products from Sebastian-Stuart Fish Co., which firm is located in a state other than the state in which respondent buyer is located, and as a result of respondent buyer's orders and instructions, such food products have been shipped and transported across state lines by respondent seller to said respondent buyer.

The respondent buyer's purchases from respondent seller since June 19, 1936, are representative of respondent buyer's purchases of various types, grades and brands of food products from numerous other interstate sellers, upon which purchases respondent buyer has also received commissions or brokerage fees.

PAR. 5. Respondent seller Sebastian-Stuart Fish Co., since June 19, 1936, in connection with the sale of its food products in interstate commerce to respondent buyer Charles R. Allen, and to other interstate buyers for their own account for resale, as hereinbefore set forth, has transmitted, paid and delivered, and does transmit, pay and deliver, directly or indirectly, to said respondent buyer and to other said buyers for their own account, commissions, brokerage fees or other compensation or allowances in lieu thereof in substantial amounts; and the respondent buyer Charles R. Allen, since June 19, 1936, has received and accepted and is now receiving and accepting, commissions, brokerage fees and other compensation or allowances in lieu thereof in connection with said respondent buyer's interstate purchases of food products from the respondent seller and from other interstate sellers from whom respondent buyer purchases and has purchased food products in its own name and for its own account for resale.

PAR. 6: The foregoing acts of respondent seller Sebastian-Stuart Fish Co., in granting or paying commissions or brokerage fees on its sale of food products to respondent buyer Charles R. Allen and to other interstate buyers, and the foregoing acts of respondent buyer Charles R. Allen in receiving or accepting, directly or indirectly, commissions or brokerage fees on its purchases of food products from respondent seller Sebastian-Stuart Fish Company and from other interstate sellers, are in violation of subsection (c) of section 2 of the Clayton Act as amended.

Wherefore, the premises considered, the Federal Trade Commission on this 10th day of August, A. D. 1945, issues its complaint against said respondents.

Notice is hereby given you, Sebastian-Stuart Fish Co., a corporation, and Charles R. Allen, Sr., Gene M. Allen, Charles R. Allen, Jr., Mary E. Lankford, Gene M. Allen II, and Harris M. Allen, individuals engaged in business as partners trading as Charles R. Allen, respondents herein, that the 14th day of September, A. D. 1945, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The rules of practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

> In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.
>
> • • • • •
>
> Failure of the respondent to file answer within the time provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.
>
> If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.
>
> Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 10th day of August, A. D., 1945.

By the Commission.

BROCK COAL CO., ET AL.

ORDER ESTABLISHING MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120; *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton, for the indicated uses and shipments as set forth herein. All are in District No. 8. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and state. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.219 and all other provisions of Maximum Price Regulation No. 120.

This correction to Amendment No. 30 to Revised Order No. 47 shall be effective as of August 4, 1945.

Issued this 21st day of August 1945.

shall not exceed the adjusted ceiling price specified in subparagraph (1).

(4) The adjusted ceiling prices set forth in subparagraph (1) are for first quality garments only. The maximum price for any of the listed garments which, according to H. W. Carter & Sons standards of grading during March 1942 would be considered an "imperfect" or "second" shall be the price listed in subparagraph (1) less the percentage discount customarily allowed by H. W. Carter & Sons for such garments during March 1942.

(b) *Ceiling prices for sales at retail.* On and after August 22, 1945, the ceiling prices for sales at retail of the garments listed in paragraph (a) shall be as follows:

Lot No	Type of garment	Ceiling prices (per garment) for group II retail sellers[1]	
		Sales in East and Central region	Sales in Mountain and Pacific region
8220	Bib overall	$2.36	$2.42
8230	do	2.83	2.89

255	Bib overall	2.42	2.48
265	do	2.04	2.10
140	do	1.78	1.84

[1] The listed ceiling prices are for first quality garments. The ceiling price for a "second" or "imperfect" shall be the listed price less the percentage discount used in calculating ceiling prices for such garments under paragraph (a) (1) above.

(c) *Notice which H. W. Carter & Sons must send to retailers.* (1) On or after August 22, 1945, H. W. Carter & Sons, shall transmit to each retailer to whom it makes delivery of any of the garments listed in paragraph (a) of this order, the following notice:

NOTICE OF ADJUSTED CEILING PRICES

The Office of Price Administration has adjusted our ceiling prices on certain garments of staple work clothing pursuant to the provisions of Order No. 42, issued under section 5.9 (b) of Revised Maximum Price Regulation 28. In column A below you will find our adjusted ceiling prices for these garments.

Under this order the Office of Price Administration has established specific ceilings for sales at retail of these garments. Your selling prices will be found in column B or column C, depending on whether you are located in the East and Central region or the Mountain and Pacific region.[1]

Lot No.	Type of garment	Carters adjusted ceiling prices	Ceiling prices (per garment) for group II retail sellers	
			Sales in East and Central region	Sales in Mountain and Pacific region
		Col. A	Col. B	Col. C
8220	Bib overall	$21.31	$2.36	$2.42
8231	do	25.47	2.83	2.89
8234	do	21.98	2.44	2.50
8238	Dungaree	16.78	1.90	1.94

265	do	18.44	2.04	2.10
140	do	15.98	1.78	1.84

The Office of Price Administration requires that each garment must be marked with the retail ceiling price. A garment must not be sold above the ceiling price listed above, but may be sold for less. This list must be promptly displayed to any person on request during regular business hours.

[1] H. W. Carter & Sons may transmit separate lists to customers located in each of these regions, listing only the ceiling prices applicable to sales in that region. In such case, this sentence should be omitted.

(2) The notice required to be sent by H. W. Carter and Sons, to its retail customers, as provided in this paragraph (c) and containing the information applicable to the enumerated garments included in the particular shipment, shall be transmitted with, or annexed to, the invoice, billing or other statement of price accompanying every shipment made directly to retailers by H. W. Carter and Sons after August 22, 1945, of any of the garments listed in paragraph (a) of this order. This notice, with respect to any garment for which H. W. Carter and Sons is permitted to adjust its ceiling price under this order, shall be sent by H. W. Carter and Sons in lieu of the notice required under § 5.1 (c) (1) of Revised Maximum Price Regulation 208.

(f) *Informational requirements.* In selling and delivering the garments listed in paragraph (a), all sellers must comply with all provisions of Revised Maximum Price Regulation 208, including those relating to marking, disclosure and records.

(g) On or before February 15, 1946, H. W. Carter & Sons shall file with the Office of Price Administration, Washington, D. C., (Men's Clothing Section) a copy of its profit and loss statement for the year ending December 31, 1945, together with a copy of its balance sheet as of December 31, 1945.

(h) All prayers of the application by H. W. Carter & Sons not granted herein are hereby denied.

(i) The definitions in Revised Maximum Price Regulation 208 shall apply to the terms used in this order.

(j) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective August 22, 1945.

Issued this 21st day of August 1945.

CHESTER BOWLES,
Administrator.

K. & W. RUBBER CORP.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 8 of Revised Maximum Price Regulation 300; *It is ordered:*

Paragraph (b) of Order No. 14 under Revised Maximum Price Regulation 300 is hereby amended to read as follows:

(b) *Maximum prices.* The maximum prices for sales of the commodities described in paragraph (a) of this order shall be:

	Size	For sales to retailers and wholesalers
Large air mattresses	34" x 72"	$15.45
Small air mattresses	34" x 48"	10.50
Air pillows	11" x 14"	1.21

The maximum prices for sales to army canteens, post exchanges and commissaries shall be the maximum prices set forth above for sales to retailers and wholesalers.

The maximum prices for sales at retail of the commodities priced by this order (other than sales at retail by army canteens, post exchanges and commissaries) shall be 166⅔ percent of the net purchase price, excluding cash discounts.

The above maximum prices for all sales other than sales at retail shall be subject to cash discount of 2 percent, ten days, net thirty days. The above prices for the manufacturer's sales to wholesalers and to retailers are subject to freight terms—f. o. b. Delaware, Ohio.

This amendment shall become effective August 22, 1945.

Issued this 21st day of August 1945.

Model HU-18D—18 cu. ft. reach-in box less compressor and valve	445	311.50	267

(b) On sales by the Tyler Fixture Company the maximum net prices established in (a) above may be increased by the following amount to each class of purchaser as a charge to cover the cost of crating, when crating is actually supplied: $6.00.

(c) The maximum net prices established by this order shall be subject to discounts and allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered to purchasers of the same class on comparable sales of similar commodities during March 1942.

(d) On sales by a distributor or dealer the following charges may be added to the maximum prices established in (a) above:

(1) The actual amount of freight paid to obtain delivery to his place of business. Such charges shall not exceed the lowest common carrier rates.

(2) Crating charges actually paid to his supplier but in no instance exceeding the amount noted above.

(e) Each seller of the commodity covered by this order, except a dealer, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers upon resale, including allowable transportation and crating charges.

(f) The Tyler Fixture Company shall stencil on the inside of the lid or cover of the Frozen Food Reach-In Refrigerators covered by this order, the maximum net prices to consumers established by this order. The stencil shall contain sustantially the following:

OPA Maximum Resail Price $------
Plus freight and crating as provided in Order No. ---- under Maximum Price Regulation No. 591.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective August 21, 1945.

Issued this 20th day of August 1945.

CHESTER BOWLES,
Administrator.

GYPSUM LATH

MODIFICATION OF MAXIMUM PRICES

An opinion accompanying this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order No. 1 is amended in the following respects:

1. A new section 7.9 (f) is added to read as follows:

(f) This section shall terminate December 31, 1945, unless otherwise extended by Amendment.

2. A new section 7.10 is added to read as follows:

SEC. 7.10 *Modification of maximum prices for gypsum lath manufactured in the States of California and Nevada.* (a) The manufacturers' maximum prices established pursuant to Maximum Price Regulation 592, for gypsum lath manufactured in the States of California and Nevada, may be increased by adding an amount not in excess of $0.02½ per square yard to the f. o. b. plant or delivered prices.

(b) Any reseller purchasing gypsum lath for resale in the same form from any manufacturer who has modified his maximum prices in accordance with (a) above, may increase his maximum prices by a dollars-and-cents amount not exceeding his actual dollars-and-cents increase in cost resulting from the modification permitted manufacturers in (a) above.

(c) The maximum prices established herein shall be subject to size differentials, cash, quantity and other discounts, services and other terms and conditions of sale at least as favorable as the seller extended or rendered on comparable sales to purchasers of the same class during March 1942.

(d) The manufacturers' maximum prices for sales of ⅜" gypsum lath for shipment to points in the States of Oregon and Washington as established in section 7.9 of Order No. 1 of Maximum Price Regulation 592 shall not be further increased by the increase permitted in (a) above.

This Amendment No. 4 shall become effective August 21, 1945.

Issued this 21st day of August 1945.

[Region VI Order G–1 Under 3 (e)]

IMPORTED MEXICAN BEER IN IOWA AND NEBRASKA

For reasons set forth in the accompanying opinion and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1499.3 (e) (2) of the General Maximum Price Regulation; *It is hereby ordered:*

(a) This order shall not apply to any sales of imported beer, the maximum price for which sales have been or which can be established under § 1499.2 of the General Maximum Price Regulation.

(b) That the maximum prices for sales at wholesale and retail (except for consumption on the seller's premises), not excluded by paragraph (a) above, in the states of Iowa and Nebraska of the beer imported from Mexico known as, and sold under the trade names of "Monterrey" and "Carta Blanca" are as follows:

(1) The maximum price for sales at wholesale, delivered to the purchasers' premises, state tax paid, shall be $4.80 per case for Monterrey brand, and $4.93 per case for Carta Blanca brand. A case shall consist of 24 bottles of 12 oz. each.

(2) The maximum price for sales at retail shall be 27¢ per 12 oz. bottle for Monterrey or Carta Blanca, for consumption off the retailers' premises.

(3) Sellers may require a container deposit charge of 52¢ for each wooden case, and 2¢ additional for each 12-oz. bottle. All deposits shall be refunded to the purchaser upon the return of the empty containers.

(4) Each seller at wholesale shall place in each case of beer or attach to each invoice covering the beer sold under this order, a notice substantially as follows:

NOTICE

Order No. G–1 issued by the Chicago Regional Office of the Office of Price Administration under § 1499.3 (e) (2) of the General Maximum Price Regulation fixes the maximum price of Monterrey beer and Carta Blanca beer for sale at retail for off-premise consumption at 27¢ per 12 oz. bottle for those sellers who have not, or may not establish their maximum prices for sale of these brands of beer under § 1499.2 of General Maximum Price Regulation, and fixes container deposit charges at 52¢ per wooden case, and an additional 2¢ per 12 oz. bottle. Deposits must be refunded to the purchaser upon return of the empty containers.

(c) *Definitions.* (1) "Sale at wholesale" means a sale by a person who buys a commodity and resells it, without substantially changing its form, to any person other than the ultimate consumer.

(2) "Sale at retail" means a sale or selling to an ultimate consumer.

(3) Unless the context otherwise requires, the definitions set forth in the General Maximum Price Regulation, and the Emergency Price Control Act of 1942, as amended, shall be applicable to the terms used herein.

(d) *Revocability.* This order may be revoked, amended or corrected at any time.

(e) *Effective date.* This order shall be effective July 30, 1945.

Issued this 24th day of July 1945.

The prices shown in column 2 shall also apply to retail sales by manufacturers of packaged fuel. "Producers at plant" sales are not covered by this area order.

2. Paragraph (c) (3) is amended to read as follows:

(3) The maximum prices for sales of solid fuel by dealers determining or redetermining their prices under § 1340.254 (b), Rule 1, of Revised Maximum Price Regulation No. 122, as amended, when not provided for by the above schedule, shall be the maximum prices applicable to such sales under Revised Maximum Price Regulation No. 122, as amended, plus 49¢ per ton for domestic coal and 25¢ per ton for steam coal.

3. Paragraph (d) "Service Charges" is amended to read as follows:

(d) *Service charges.* Immediately below and as a part of this paragraph (d) is a schedule which sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under paragraph (c). These charges may be made only if the buyer requests such service of the dealer and only when the dealer renders the service. Such service charge shall be separately stated in the dealer's invoice.

4. In Paragraph (1), *Definitions and explanations*, subparagraphs (3) & (12) are amended as follows:

(3) "Yard Sales" shall mean sales wherein the solid fuel is loaded at the dealer's yard into the conveyances owned, hired or controlled by the purchaser.

• • • • •

(12) "Egg, stove, nut," etc., sizes of bituminous coal received entirely by rail or barge refer to the sizes of such coal as defined in the Bituminous Coal Act of 1937, as amended, and as prepared at the mine in accordance with the applicable minimum price schedule promulgated by the Bituminous Coal Division of the United States Department of Interior, in effect as of August 23, 1943.

This Amendment No. 2 to Revised Order No. G-5 shall become effective August 1, 1945.

Issued this 31st day of July 1945.

R. E. WALTERS,
Regional Administrator.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-1131]

GENERAL GAS & ELECTRIC CORP.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 21st day of August, A. D. 1945.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by General Gas & Electric Corporation, a registered holding company:

All interested persons are referred to the said filing which is on file in the office of the Commission for a statement of the transactions therein proposed, which may be summarized as follows:

General Gas & Electric Corporation, a subsidiary of Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, a registered holding company, proposes to declare and pay out of capital or unearned surplus a quarterly dividend on its $5 Prior Preferred Stock for the quarterly period ending September 15, 1945. As proposed, the amount of the dividend on the 60,000 outstanding shares of such stock will be $75,000, of which approximately $40,125 will be paid to the public holders of 32,110.9 shares. It is stated that as to the remaining 27,889.1 shares outstanding, held by the Trustees of Associated Gas and Electric Corporation, said Trustees have waived their right to the receipt, at this time, of such dividends as may otherwise be payable to them.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to such matter:

It is ordered, That a hearing on such matter under applicable provisions of said act and the rules of the Commission promulgated thereunder be held on September 4, 1945, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held.

It is further ordered, That Charles S. Loblngier, or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That any person desiring to be heard in connection with the proceeding or proposing to intervene herein shall file with the Secretary of the Commission, on or before September 1, 1945, his request or application therefor, as provided by Rule XVII of the rules of practice of this Commission.

It is further ordered, That, without limiting the scope of the issues presented by said filing, particular attention will be directed at said hearing to the following matters and questions:

1. Whether the proposed declaration and payment of the current quarterly dividend out of the capital or unearned surplus of General Gas & Electric Corporation is appropriate in the public interest and the interest of investors;

2. Whether the action proposed to be taken complies with the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder;

3. What terms or conditions, if any, should be imposed in the public interest or for the protection of investors.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

Explanation and Scope

§ 944.34 *Priorities Regulation 13—(a) What this regulation does.* This regulation covers special sales, which, in general, are sales of materials or products by persons who acquired or made them for use and not for sale or resale. This is more fully explained in paragraph (b) (1). Special sales may be made freely, except for materials or products on List A (Domestic) or List B (Export), and certain sales as scrap. This is the only WPB regulation on special sales, and a seller who wants to make a special sale need not look at any other WPB regulation or order unless this regulation says he must. However, all buyers must comply with applicable WPB orders on use, inventory, resale, etc., as explained in paragraph (j).

(b) *Definitions.* As used in this regulation:

(1) "Special sale" means a sale of a material or product by any person (including a Government agency) who acquired or made it for use and not for sale or resale. All sales by trustees in bankruptcy, receivers and other kinds of liquidators (in the course of liquidation as distinct from continued operation of a business) are special sales even though neither they nor their beneficiaries bought for use. All sales at public auction by general auctioneers are special sales regardless of the purpose for which the material or product was acquired. All sales of surplus materials or products by Government agencies are special sales. Transfers of materials acquired or made for use, from one plant or operating unit to another which is owned by the same person but which normally buys separately, are special sales.

(2) "Material or product" means any commodity, equipment, accessory, part, assembly or product of any kind in finished, semi-finished or raw material form.

(3) A "used" material or product is one which has been put into actual use.

(4) "Persons buying for use" include, among others, a contractor who buys with intent to incorporate the material in a building or product for a third person.

(c) *Sales not covered by this regulation.* The following types of sales are not considered special sales and are not governed by this regulation, even though they may involve materials or products acquired or made for use:

(1) A sale of a material or product by a person regularly engaged in the business of selling it. He is governed, however, by all WPB orders and regulations which apply to his business and to the material or product he is selling.

(2) Sales of plant-generated scrap, meaning scrap which is generated in the course of manufacture or is the waste of industrial fabrication. Sales of other kinds of scrap are covered by paragraph (j).

(3) Sales of rationed products which are controlled by another Government Agency.

NOTE: The subject matter of the former paragraph (c) (3) of this regulation as it read before July 5, 1945, is now contained in section C. (4) (Special orders) in the introduction to List A. Hence, references in other WPB orders to paragraph (c) (3) of this regulation are considered references to the new section C. (4).

(4) Sales of foods for humans or animals, medicines, tobacco, oils and fats, petroleum and petroleum products including natural and liquefied petroleum gases.

(5) Sales of steel, copper or aluminum in controlled material form (as defined in CMP Regulation 1) acquired or produced by a controlled material producer for the purpose of further conversion into other controlled material forms.

(6) A sale of an entire business which is transferred as a going concern to a new owner who continues to operate it in the same or substantially the same form.

(7) A sale made by a utility producer under Order U–1 or a petroleum operator under Order P–98–c.

General Rules for All Special Sales

(d) *Most special sales may be made freely; general rules.* A seller may make a special sale of most materials or products freely to anyone without WPB authorization and without requiring the buyer to apply or extend a preference rating. The only exceptions are special sales of materials or products on List A (domestic sales) and on List B (export), and certain sales as scrap, as explained in paragraphs (g), (h) and (j). In addition, all sellers are subject to the following general rules and conditions:

(1) If the seller knows that a person who wants to buy the material or product will use it for a prohibited purpose or would have more of it than he is permitted to have, the sale may not be made. The buyers' obligations are stated in paragraph (j).

(2) At special sales, preference ratings have no effect by way of obliging a holder to sell. However, if he sells at all, and the buyer properly gives a rating, the seller must honor it to the extent required by Priorities Regulation 1. For example, if two or more bidders at a public auction offer the same terms for any lot of materials or products, the seller must prefer the bidder who supplies the highest preference rating. Regardless of whether the sale is at auction, a holder need not give preference to a higher rated purchaser if a lower rated or unrated purchaser offers better terms which are not in violation of applicable OPA regulations.

(3) If a person sells a material or product under this regulation to someone who gives him a preference rating or a CMP allotment symbol or number, the seller cannot use this rating or allotment to replace the material or product he has sold. The effect of this rating or symbol or number stops when the seller receives it.

(4) If the sale relates to surplus Government-owned or Government-involved materials or products (including contractor inventories and sales by owning or disposal agencies), the seller may be subject to regulations of the Surplus Property Board.

(e) *Use of material acquired with priorities assistance.* This regulation does not change the general rule of § 944.11 of Priorities Regulation 1 that material acquired with priorities assistance must, if possible, be used for the purpose for which the assistance was given. Where such material cannot be used for this

purpose, then this regulation applies if a special sale is made.

(f) *Sales through an agent.* Where a person sells through an agent, except at public auction sales, the sale is a special sale only if it would be a special sale if made directly by the principal. If it is a special sale, the restrictions of this regulation apply to the principal and also to his agent if the latter knows or has reason to know the facts. In cases of special sales made at public auctions, the restrictions of this regulation are applicable both to the auctioneer and to his principal.

NOTE: The subject matter of the former paragraph (f) of this regulation as it read before July 5, 1945, is now contained in paragraph (j) (Provisions relating to buyers). Hence, references in other WPB orders to paragraph (f) of this regulation are considered references to the new paragraph (j).

Restricted Special Sales

(g) *Materials or products on List A.* A special sale of a material or product on List A attached to this regulation, other than a sale for export, may be made only under the conditions described in the list.

(h) *Materials or products on List B (export).* A special sale of a material or product on List B to a foreign purchaser or to a domestic purchaser who is buying for export or for resale to a foreign purchaser may be made only under the conditions described in the list. Used materials or used products, however, may be sold freely for export unless a notation on List B indicates a restriction on the sale in their used condition. Also, if an exporter, other than a controlled material distributor or warehouse, is unable to export material purchased for export, he may make a special sale of it in the domestic market under the rules of this regulation. Nothing in this regulation relieves any exporter from complying with all applicable regulations of the Foreign Economic Administration or other Government agencies who may have jurisdiction over exports.

(i) *Sales as scrap of materials or products other than plant-generated scrap.* (1) Any material or product (other than those listed below and plant-generated scrap) may be sold as scrap in a special sale if it is obsolete, unusable or not readily-salable and will be used or consumed principally as scrap although some part of it may possibly be salvaged by the scrap buyer. A person may make such a special sale as scrap without stripping, disassembling or breaking up the material or product before sale. The sale may be made either to any consumer of scrap to be used only as scrap, or to any person regularly engaged in the collection, disassembling, sorting, and disposal of that kind of scrap material, primarily for remelt or other scrap use. Subsequent sales of any salvaged materials or products by such a scrap dealer are not covered by this regulation, but are subject to any WPB orders or regulations which apply to the distribution of the particular material or product. The above does not apply to the following materials and products:

Used tin cans sold as scrap are governed by Order M-325.
Domestic mechanical refrigerators (new) may be sold as scrap only on specific WPB authorization. Apply on Form WPB-869.

(2) If the buyer by contract, warranty or otherwise has stated that the particular material or product being sold as scrap will be used or disposed of as scrap, this regulation does not relieve the buyer from compliance with that condition.

(3) The sale at low prices, even as low as scrap prices, of prime or off-grade materials or products for use or resale "as is" does not constitute a sale as scrap and such sales may not be made under this paragraph. Instead such a sale is subject to all the other rules of this regulation which apply to special sales of the particular materials or products.

(4) This paragraph permits special sales as scrap only for use or resale within the 48 States and the District of Columbia.

Provisions Relating to Buyers

(j) *Provisions relating to buyers.*—(1) *Use and quantity restrictions still apply.* The buyer at a special sale may not violate any WPB order or regulation controlling the amount of any material or product he may make or the use or disposition that he may make of it. He must also comply with any applicable order which limits the amount of any material or product he may buy (in terms of a specified quantity or quota, as distinguished from a provision requiring WPB permission for all purchases. The latter type of provision does not apply when a special sale is made unless required by this regulation). All the prohibitions in WPB orders or regulations against the use of materials or products for particular purposes remain in effect, and even though a special sale may not be restricted by this regulation, the buyer may have to get permission to use under the applicable order.

(2) *Inventories.* A person buying for use may accept delivery of any item of a material or product bought on a special sale under this regulation if his total inventory of that item is or will by virtue of accepting such delivery be not in excess of his succeeding six months' requirements. This permits a person to exceed applicable inventory limits only if he acquires the excess under this regulation. However, if thereafter he places orders for deliveries of the particular item from producers or distributors, he may not receive such further deliveries until his inventory is reduced to a practicable minimum working inventory or other applicable limit, and such orders may not call for delivery before that time. This paragraph does not apply to persons buying for resale. It also does not permit a person to stockpile in anticipation of starting or resuming civilian production except as permitted by other applicable regulations or orders. However, if any applicable WPB order or regulation permits a larger inventory than six months, this paragraph does not restrict receipts below the larger amount.

(3) *Persons buying for resale.* If a person at a special sale buys a material or product for resale, he may not resell in violation of any WPB regulation or order which applies to persons engaged in the business of selling the particular material or product. Even if the buyer for resale has not previously sold the material or product as part of his regular business, he is subject to the same restrictions in reselling as a regular wholesaler, retailer or other distributor of it under all applicable WPB regulations and orders, unless the particular regulation or order specifically states otherwise. For example, if an order requires specific WPB permission before a regular distributor of a product can sell it, any person who buys it at a special sale for resale must do what the order says.

(4) *Reports.* If any order or regulation provides that a buyer of a material or product must make any report or furnish any information either to the War Production Board or to the seller, this regulation does not excuse him from these requirements.

Miscellaneous Provisions

(k) *Records.* Any person making a sale under this regulation must keep sufficient records so that he can show that the sale was permitted under this regulation.

(l) *Revisions of Lists A and B.* Lists A and B attached to this regulation will be revised from time to time. A person wishing to sell a material or product under this regulation should be sure that he has the lists which are in effect at the time of the sale. Copies may be obtained from any field office of the WPB.

(m) *Letters and questions.* Any letters or questions about this regulation should be sent to the War Production Board in Washington 25, D. C., marked "Ref: P.R. 13".

Issued this 22d day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST A—RESTRICTIONS ON SPECIAL SALES FOR DOMESTIC

A *General rules.* Special sales in the domestic market of materials or products in Column 1 of List A below are restricted to certain classes of buyers as indicated below in section B, and in accordance with any special rules for a particular material or product as shown on the list. The listings show in some instances the class or group of materials and do not always list all the trade names and related materials. Exceptions to the restrictions are indicated below in section C. Special sales of materials or products not listed may be made freely, but all special sales are subject to the general rules in paragraphs (d), (e) and (f) of the regulation.

B. *Classes of buyers.* Special sales of materials or products on this List A may be made to the following classes of buyers:

(1) To a producer of the same kind of material or product.

(2) To a reprocessor, unless a note in Column 4 of the list indicates to the contrary with respect to a particular material or product. A reprocessor means any person who remakes, repairs or reworks new, rejected or second-grade materials or products of the kind being sold.

(3) To a regular dealer, unless Column 3 or a note in Column 4 of the list indicates to the contrary with respect to a particular material or product. A dealer means any wholesaler or retailer regularly dealing in the materials or products of the kind being sold, and reselling them from stock or inventory to industrial users or to other persons. It also includes persons who recondition or rebuild equipment and machinery of the kind being sold for resale to industrial users. Such persons are not, however, relieved from compliance with any WPB orders or regulations which control the distribution of the material by them.

If this List A shows no restrictions on the special sale of a material or product to a regular dealer, the seller may sell it to any person for resale who gives him the following certification, provided the seller has no reason to believe that it is false.

The undersigned buyer certifies under Priorities Regulation 13 to the seller and to the WPB that he will in good faith offer for sale the material or product covered by this order in substantially the same time and manner as would a person regularly dealing in it, that he will render substantially the same type of service as would such a person, and that he will comply with all WPB regulations and orders applicable to such a person.

(Signature)

Any person giving such a certification must comply with all applicable WPB regulations and orders as he has certified he will. The standard certification provided in Priorities Regulation 7 may not be used in place of this certification.

(4) To persons buying for use subject to the restrictions indicated in Columns 2 and 4 of the list.

C. *Exceptions from the restrictions on the list.* Even if this List A shows a restriction on the special sale of a particular material or product, the sale may still be made if one or more of the following conditions apply:

(1) *Special permission.* If the list requires special authorization from the WPB in order for a sale of a particular material or product to be made, or if other conditions imposed by the list cannot be met, the seller may apply on Form WPB-1161 for special permission to sell unless the list states that some other form must be used. If Form WPB-1161 is applicable, and permission is given, it may be restricted to a specific buyer or class of buyers, or may permit the sale to any buyer for resale who gives the certification described in section B (3) above relating to dealers.

(2) *Used materials or products.* If the material or product is used, it may be sold freely to anyone unless a notation on List A indicates a restriction on its sale.

(3) *Small quantity exemption.* A special sale may be made freely if all the material or product of the same kind or type that the seller has at any one plant, operating unit or location did not cost him more than $100. In the case of any materials or products involved in a Government contract termination, this exemption applies if there is no more than $100 worth of the material or product in the termination inventory at any one location. Similarly, $100 worth (at cost) of any material or product may be sold at any single public auction, regardless of the amount of the material or product the seller has. Also, for the purpose of determining whether a particular lot of material or product is suitable for the prospective customer's use, a person may make a special sale of a sample lot, provided the amount involved (at cost to the seller) of any such sample does not exceed $20.

(4) *Special orders.* If the War Production Board by an order or in any other way has ruled that all persons engaged in a particular business may sell or exchange the materials or products between themselves, they may do so.

(5) *Disposal of contract termination inventories.* For the purpose of making a settlement of a Government contract, surplus materials or products on List A may be transferred freely from any subcontractor or prime contractor to a procuring agency or disposal agency of the Government, providing the procuring agency has so directed. However, if any material or product is later withdrawn from the contract settlement, its disposition is controlled by this List A.

(6) *Sales to Government stockpiling agencies.* A person may sell surplus materials or products on List A freely to one of the following Government Corporations or to anyone buying as agent for one of them: Commodity Credit Corporation, Defense Supplies Corporation, Metals Reserve or Rubber Reserve Company.

(7) *Transfers of surplus Government-owned materials or products.* Transfers by Government agencies of surplus materials or products, or of idle or excess materials or products not acquired for sale or resale, may be made freely to a Government Disposal Agency acting as such and may be made freely between and within the War Department, Navy Department, Maritime Commission, War Shipping Administration, Veterans' Administration, and the Defense Plant Corporation, and from the Government Disposal Agencies to any of the above.

D. *Buyers obligations.* No matter who the buyer is or how the sale is made or authorized, the buyer is always subject to the conditions and other provisions stated in paragraph (j) of the regulation.

LIST A—RESTRICTIONS ON SPECIAL SALES (DOMESTIC)

EXPLANATION OF TERMS USED

"WPB-1161" (or other designated WPB form number) means that the seller may not sell to the class of buyer listed at the head of the column without special WPB permission pursuant to application on the form specified. A note in the Remarks Column may show limited exceptions to this requirement. Section C (1) in the introduction to this list tells how to get permission.

"PR" followed by a letter and number, like "PR-AA5" means that the seller may sell only to a person in the particular class of buyer who extends to him an AA-5 or higher preference rating. These ratings cannot be used further by the seller, as explained in paragraph (d) (3) of the regulation. This regulation does not in any way assign preference ratings.

"WOP" means that the seller can sell to the class of buyer listed at the head of the column without any preference rating, allocation, allotment or other special permission being necessary.

Provisions in the Remarks Column applicable to the particular material or product must be complied with.

DIRECTION 1: Expired June 30, 1945.

DIRECTION 2: Revoked May 31, 1945.

DIRECTION 3

SALES OF SURPLUS PROPERTY TO GOVERNMENT AGENCIES AND STATE OR LOCAL GOVERNMENTS

(a) *Purpose.* Government agencies and state or local governments are entitled to certain priorities in getting surplus property from government disposal agencies under the Surplus Property Act of 1944 and Surplus Property Board Regulation No. 2. This direction is issued to provide for these priorities and at the same time to make sure that the needs of the Armed Services, war production and essential civilian activities are met.

(b) *Applicability of WPB orders and regulations to sales under Surplus Property Board Regulation No. 2.* Disposal agencies, in making sales under Surplus Property Board Regulation No. 2, must comply with Priorities Regulation 13 and all other applicable orders, regulations or other action of the WPB, except that the requirements for the filing of rated orders are modified in the following two respects unless the WPB otherwise directs in writing.

(1) In the case of orders for any item received during the first 30 days following notice of availability under Surplus Property Board Regulation No. 2, preference may be given, to the extent indicated in that regulation to government agencies or state or local governments ahead of other purchasers placing orders bearing the same rating.

(2) In addition, to the extent indicated in that regulation, the filling of rated orders received during the above 30-day period may be postponed within the period, and the sequence in which a disposal agency received rated orders bearing the same rating during the period may be disregarded. (Issued May 16, 1945.)

PART 1010—SUSPENSION ORDERS

[Suspension Order S-676, Stay of Execution]

LESLIE T. HEALY

Leslie T. Healy, 2636 Noble Road, Cleveland Heights, Ohio, has appealed from the provisions of Suspension Order No. S-876, issued August 7, 1945, and effective August 14, 1945, (Section 1010.876) and has requested a stay on the grounds that it would work a hardship on innocent third parties if the suspension order were not stayed. The Chief Compliance Commissioner has directed that the provisions of the suspension order be stayed pending final determination of the appeal or until further order by the Chief Compliance Commissioner.

In view of the foregoing, it is hereby ordered, that: the provisions of Suspension Order No. S-876, § 1010.876 issued August 7, 1945, and effective August 14, 1945, are hereby stayed to the extent necessary to permit Leslie T. Healy to obtain essential materials to complete the construction of dwellings authorized and approved by the Federal Housing Authority.

Issued this 21st day of August 1945.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L-335, Revocation of Direction 6]

RESTRICTIONS ON DELIVERY AND RECEIPT OF CERTAIN SPECIES OF HARDWOOD LUMBER

Direction 6 to Order L-335 is revoked and all authorizations to receive restricted hardwood are revoked. This revocation does not affect any liabilities incurred for violation of the order or of actions taken by the War Production Board under this order. The distribution of #1 common or better grades (or special grades which are equivalent to #1 common or better grades) of white oak (including WHND), red oak, birch, beech, pecan, rock elm, hard maple, and tough ash remains subject to all other applicable orders and regulations of the War Production Board.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L-335, Direction 7, as Amended Aug. 22, 1945]

DELIVERIES OF CERTAIN LUMBER ON UNCERTIFIED AND UNRATED ORDERS

Direction No. 7 to Order L-335 is hereby amended to read as follows:

(a) *What this direction does.* This direction permits delivery and acceptance of lumber on uncertified and unrated orders as long as such delivery does not interfere with the filling of certified orders.

(b) *Delivery of lumber by a supplier.* Any lumber supplier (sawmill, concentration yard, or distributor) may deliver lumber to any person on uncertified and unrated orders provided such delivery does not interfere with the filling of a certified order. Any certified order without a preference rating shall be treated as an uncertified and unrated order.

(c) *Receipt of lumber on uncertified orders need not be charged against authorization.* Receipt of any lumber on uncertified and unrated orders by any consumer need not be charged against the amount of lumber he is permitted to receive, either by specific authorization on a War Production Board form, or under Order L-335.

(d) Deliveries and receipts of lumber to the extent permitted by this direction are authorized notwithstanding any contrary provisions of Order L-335.

Issued this 22d day of August 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Preference Order M-388C, as Amended Aug. 23, 1945]

WOOL AND WOOL TEXTILES FOR CIVILIAN ITEMS

§ 3290.354 *General Preference Order M-388C*—(a) *Explanation.* This order is supplemental to M-388. It states the special rules applicable to civilian items made from wool materials and lists the items for which ratings are assigned.

(b) *Delivery quotas*—(1) *General rule.* (Orders rated AA-3 or higher, or AA-5, must be filled as required by Priorities Regulation 1, in addition to the quotas under this paragraph.) Every producer and importer of wool fabrics must deliver to fill AA-4 orders in the period from May 1, 1945, through June 30, 1945, inclusive, and in each subsequent calendar quarter, at least 80 percent of his total deliveries of wool fabrics (by linear yards) during the same period on both AA-4 and unrated orders. Stated another way, he must not deliver on unrated orders in any of these periods more than 20 yards of wool fabrics for each 80 yards he delivers to fill AA-4 orders in the same period. He must not discriminate against rated orders in distributing fabric widths as between rated and unrated deliveries.

(2) *Exception for 6 percent of total deliveries.* An exception to the above rule is that each producer or importer may deliver up to 6 percent of his total deliveries in the period without regard to AA-4 ratings, as long as he fills all other rated orders and complies with all other applicable orders, regulations and directions of the War Production Board.

(3) *Examples.* If a woolen mill delivers a total of 1,000,000 yards in a calendar quarter, and half of this yardage is delivered to fill orders rated AA-3 or higher, or AA-5, it has available a total of 500,000 yards of both AA-4 and unrated deliveries. Eighty percent of this total, or at least 400,000 yards, would have to be delivered on AA-4 orders, and not more than 20 percent or 100,000 yards could be delivered on unrated orders. However, if the mill delivers in the period 750,000 yards on orders rated AA-3 or higher, or AA-5, leaving 250,000 yards for unrated and AA-4 orders, he may still deliver 60,000 yards on unrated orders to the extent that these 60,000 yards are not needed to fill orders other than AA-4 or to comply with regulations, orders or directions of the War Production Board.

(4) *Rejects.* Rejects, including remnants over one yard and seconds, must be included in calculating required deliveries for rated delivery quotas under this order.

(5) *Military and other cancellations.* Material resulting from cancellations of customers' orders must also be included in calculating rated delivery quotas. However, unless otherwise ordered by the War Production Board, a producer or importer who has a contract or subcontract with the U. S. Army, Navy, Maritime Commission, War Shipping Administration or the Procurement Division of the Treasury Department which is cancelled after April 30, 1945 and for which wool fabric, wool yarn or wool is already completed or in process either in his plant or that of one of his subcontractors may deliver the completed fabric, or the fabric made from the material in process free of his rated delivery quota.

(c) *Dyeing and finishing of fabrics.* A producer of wool fabrics or importer shall dye wool fabrics which he produces or imports after May 1, 1945, only to fill accepted rated orders, or orders which are authorized under paragraph (g) of M-388, or unrated orders within the limits allowed by this order. Material must not be finished in a manner which will make it unsuitable to fill the required amounts of rated orders.

(d) *Preference rating schedules* Preference ratings are assigned in the preference rating schedules of this order. The conditions under which the ratings can be used are explained in these schedules.

Issued this 23d day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

AA-4 PREFERENCE RATING SCHEDULE I—WOOL CIVILIAN ITEMS

Assignment of AA-4 rating to manufacturers of listed wool apparel and other items. Preference rating AA-4 for wool fabric is assigned to manufacturers of the items shown in this schedule who qualify under M-388 and M-388C and comply with the following:

(1) This rating may be used only to get the fabric shown in the Fabric Column for the particular item and may be extended for wool material to be incorporated in the fabric, as permitted by Priorities Regulation 3.

(2) The fabric must be incorporated into an item produced for sale by the manufacturer at or below the lower of the following two prices: (i) the price at which the manufacturer is permitted to sell the item under regulations of the Office of Price Administration, or (ii) the price specified in the Maximum Price Column.

(3) The Rated Quota Column in this schedule shows for each item a quota of units of the item. This quota is a percentage of the total number of units (in all prices lines) of the same item which the manufacturer made in the corresponding quarter of 1943. He may not get more fabric with the rating in any calendar quarter than the yardage necessary to fill this quota. This is the yardage which he must show in Form WPB-4200 before using the rating, as explained in paragraph (1) (2) of M-388.

(4) The rated quotas shown below, as amended August 23, 1945, supersede the previous rated quotas of this schedule for deliveries in the third quarter of 1945. AA-4 ratings previously accepted by a supplier for delivery in that quarter within the previous quotas, to the extent permitted by Direction 3 to M-388 remain valid, but the yardage covered by such ratings must be charged to the rated quotas shown below.

(5) A manufacturer who has filed Form WPB-4200 in accordance with paragraph (1) of Order M-388 for any item with a rated quota which was increased by the amendment of M-388C on August 23, 1945, may use the increased rated quota without filing a new Form WPB-4200.

(6) A manufacturer who has received an authorization on Form WPB-4201 for any item listed in this paragraph may use the AA-4 rating to get an increased yardage in the third quarter of 1945 for that item to the extent stated, without filing a new application:

(i) For Items C-18 and C-27 he may use the rating for the yardage authorized on Form WPB-4201, plus 1/2 of that amount.

(ii) For Items C-1, C-7, C-10, and C-34 he may use the rating for the yardage authorized on Form WPB-4201, plus 5 7ths of that amount.

(iii) For Items C-13, C-17, C-19, and C-30 he may use the rating for the yardage authorized on Form WPB-4201, plus 7 8ths of that amount.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328, Revocation of Direction 10]

CONVERSION TO COTTON YARNS OF AT LEAST 50% OF SPINNING MACHINERY OPERATING ON THE COTTON SYSTEM AND PRODUCING SPUN RAYON, COTTON-RAYON MIXED OR ANY OTHER MIXED OR BLENDED FIBER YARNS EXCEPT COTTON-WOOL MIXED OR BLENDED

Direction 10 to Conservation Order M-328 is revoked. This revocation does not affect any liabilities incurred for violation of the direction or of actions taken by the War Production Board under the direction. The production, distribution, purchase and use of yarns and fabrics remain subject to all other applicable regulations and orders of the War Production Board.

Issued this 23d day of August 1945.

§ 4500.1 *Utilities Order U-1*—(a) *Definitions.* (1) "Producer" means any individual, partnership, association, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not, located in the United States, its territories, or possessions, supplying, or having facilities built for supplying, directly or indirectly for general use by the public, one or more of the following services:

(i) Electric power,

(ii) Gas, natural or manufactured, exclusive of the production and transmission of natural gas up to the point of its entry into gas transmission lines from field gathering lines,

(iii) Water, other than exclusively for irrigation purposes,

(iv) Central steam heating, or

(v) Any of the foregoing services but not for general use by the public, if a specific direction from the War Production Board entitles such person or agency to apply the ratings herein assigned. Application for such a specific direction should be made by letter to the War Production Board, Washington 25, D. C., Ref.: U-1.

(2) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(3) "Controlled materials" means controlled materials as defined in Schedule I of CMP Regulation 1.

(4) "Maintenance" means the upkeep of a producer's property and equipment in sound working condition. It does not include any plant addition.

(5) "Repair" means the restoration of a producer's property and equipment to sound working condition after wear and tear, damage, destruction of parts, or the like have made such property or equipment unfit or unsafe for service. It does not include any plant addition.

(6) "Plant addition" means the construction or installation of new facilities or the replacement of existing facilities with facilities of greater capacity.

(7) "Minor plant addition" means a plant addition having a net material cost of not more than $25,000. No job or project may be subdivided to come within this limit.

(8) "Major plant addition" means a plant addition having a net material cost of more than $25,000.

(9) "Net material cost" means the cost of material incorporated in plant less the cost of material removed from plant, priced in accordance with the producer's regular accounting practice.

(10) "Operating supplies" means material, other than fuel, which is used or consumed in the course of a producer's operations, except in maintenance, repair, and plant additions.

(11) "Inventory" means all material in the producer's possession, without regard to its accounting classification, excluding, however, (i) material incorporated in plant, (ii) appliances and merchandising supplies, (iii) fuel, (iv) water purification and treatment material except equipment, (v) gas chemical material, (vi) material segregated for use in major plant additions, (vii) scrap and (viii) war surplus materials purchased.

(12) "Class" means any one of those categories of material established as a basis for classification of inventory in Schedule A of this order.

(13) "War surplus materials" means material designated as surplus to the war effort and offered for sale by any Federal government agency having jurisdiction over their disposal.

How To Obtain Material

(b) *Preference ratings.* (1) A preference rating of AA-1 is hereby assigned to orders to be placed by a producer for material (other than controlled materials), for use in maintenance and repair, as operating supplies, and for minor plant additions for which the net material cost is not more than $10,000, in every class except (i) the transmission and distribution class and (ii) the meter class.

(2) A preference rating of AA-1 is hereby assigned to orders to be placed by a producer for material (other than controlled materials), for use in the repair of an actual or imminent breakdown, in (i) the transmission and distribution class and (ii) the meter class.

(3) A preference rating of AA-3 is hereby assigned to orders to be placed by a producer for material (other than controlled materials), for use in maintenance and repair, as operating supplies, and for minor plant additions, except where an AA-1 rating is assigned in paragraphs (b) (1) and (b) (2) above.

(4) Material obtained with the AA-1 rating may be used for purposes which are assigned lower ratings, but it may be replaced in inventory only by applying the lower rating to an equivalent dollar value of material in the same class. Material obtained with the AA-3 rating may be used for purposes which are assigned the AA-1 rating and may be replaced in inventory with either the AA-1 rating or an authorized AA-3 rating. The provisions of this paragraph (b) (4) supersede those of § 944.11, paragraph (a), of Priorities Regulation 1.

(5) Material in inventory in excess of a practical working minimum may be used for purposes for which no preference rating is assigned, but may not be replaced in inventory with the use of a preference rating.

(6) The preference ratings herein assigned may not be used to obtain material for major plant additions.

(7) [Deleted Aug. 23, 1945.]

(8) The preference ratings assigned by this Order U-1 are ineffective with respect to materials scheduled for delivery after September 30, 1945.

(c) *CMP allotment symbol.* (1) The CMP allotment symbol U-9 is hereby assigned to orders to be placed by a producer for controlled materials for use in maintenance and repair, as operating supplies and for minor plant additions.

(2) An order for controlled materials for use in maintenance and repair, as operating supplies, and for minor plant additions bearing the CMP allotment symbol U-9 and the certification required by paragraph (d) of this order shall be deemed an authorized controlled materials order. This CMP allotment symbol shall constitute an "allotment number or symbol" for the purpose of CMP Regulation 3.

(3) Controlled materials in inventory in excess of a practical working minimum may be used for purposes for which no CMP allotment symbol is assigned, but may not be replaced in inventory with the use of a CMP allotment symbol.

(4) The CMP allotment symbol herein assigned may not be used to obtain material for major plant additions.

(5) The CMP allotment symbol U-9 assigned by this Order U-1 is ineffective with respect to materials scheduled for delivery after September 30, 1945.

(d) *Certification.* The ratings assigned by subparagraphs (b) (1), (2) and (3) of this order and the CMP allotment symbol U-9 may be applied by a producer only by the use of a certification in substantially the following form unless an order of the War Production Board affecting a particular item of material requires some other form of certification:

Preference Rating ——, CMP Allotment symbol U-9. The undersigned producer certifies subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order, to receive, for utility uses under Utilities Order U-1, the material ordered, and to use the preference ratings or CMP allotment symbol which the undersigned has placed on this order.

The certifications set forth in Priorities Regulation 3 and CMP Regulations 1 and 5 may not be used but the standard form of certification provided in Priorities Regulation 7 is permissible if the producer adds a statement saying that material ordered is for utility uses under Utilities Order U-1. No certification may be used on orders placed without a preference rating or CMP allotment symbol.

Restrictions on Ordering Material

(e) *Scheduling deliveries.* (1) Except as permitted by paragraphs (f) and (g) below, no producer shall schedule for delivery to it any material to be used for maintenance and repair, as operating supplies, or for minor plant additions, unless the following condition is satisfied:

(i) The producer does not have reason to believe that its inventory of material in the same class is or will, by virtue of its acceptance of the delivery when made, become in excess of a practical working minimum. A practical working minimum inventory is that amount of material which a producer, exercising prudent operating judgment, considers the smallest quantity of material it can hold and render service in accordance with sound and economical operating standards. It may be less than the values established in Schedule C but it shall in no case exceed them.

(2) Material required for major plant additions may not be acquired or scheduled for delivery in greater quantities or on dates earlier than required for the installation.

(3) No producer may place an order for any item of material, including material for major plant additions, if the required item or a practical substitute therefor is in the producer's inventory in excess of minimum requirements for that item.

(f) *Exceptions to paragraph (e).* (1) The restrictions of paragraph (e) (1) do not apply to a producer so long as its inventory does not exceed $25,000 in value, except that such a producer must restrict its inventory to that amount of material which in the exercise of prudent operating judgment, it considers the smallest quantity it can hold and render service in accordance with sound and economical operating standards. Each purchase of material by such a producer, however, must be treated as the purchase of a "short item", and is subject to the provisions of paragraph (g) below. A producer engaged in furnishing more than one of the services named in paragraph (a) (1) may consider its inventory for each service separately for the purposes of this paragraph.

(2) The restrictions of paragraph (e) do not apply to material excepted from inventory by the definition in paragraph (a) (11).

(3) The War Production Board may from time to time establish specific limits for permissible inventory for individual producers, modifying the provisions of Schedule C.

(4) Notwithstanding the restrictions of paragraph (e) or of paragraph (g) below a producer may schedule an item of material for delivery in a minimum procurable commercial quantity, and in the case of cast iron, carbon steel, and non-metallic pipe, may schedule for delivery a carload quantity.

(g) *Short item deliveries.* Even though it cannot schedule deliveries without exceeding the limits of paragraph (e) (1), a producer may schedule for delivery material which it will require for use in maintenance and repair, as operating supplies and for minor plant additions during the ninety-day period following the date it expects to receive such material, so long as the producer's inventory of the required material, including material segregated for use in major plant additions, together with material already scheduled for delivery, will be insufficient to meet requirements during such a ninety days period.

Restrictions on Use of Material

(h) [Deleted Aug. 23, 1945.]
(i) [Deleted Aug. 23, 1945.]
(j) [Deleted Aug. 23, 1945.]

Selling Material

(k) *Sales of material.* A producer may sell material which is in its inventory or which it acquired for major plant additions to any person. However, the preference ratings or allotment symbol assigned by this order may not be used to replace in inventory material sold by a producer unless the sale is to (1) another producer, or (2) a customer of a producer for the repair of the customer's facilities, or (3) a contractor for the installation of facilities for a customer of the producer under Direction 5 to Order U-1. Producers may sell material pursuant to this paragraph (k) or in accordance with the provisions of PR-13.

(l) [Deleted May 12, 1945.]

Inventory Redistribution

(m) [Deleted Aug. 31, 1944.]

General Provisions

(n) *Appeals and use of Form WPB-2774.* Appeals from the restrictions of this order may be filed by letter with the Office of War Utilities, War Production Board, Washington 25, D. C., Ref.: U-1, stating fully the grounds for the appeal and the relief requested. If, however, the appeal involves an uprating or other special assistance to obtain material urgently required for maintenance or repair, or is for priorities assistance to obtain material for a major plant addition, the appeal should be filed on Form WPB-2774.

(o) *Records.* In addition to the records required to be kept under Priorities Regulation 1, each producer who applies the preference ratings or allotment number hereby assigned shall maintain a continuing record of inventory and of segregated material in his possession.

(p) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: Office of War Utilities, War Production Board, Washington 25, D. C., Ref.: U-1.

(q) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priorities control and may be deprived of priorities assistance.

(r) *Applicability of WPB regulations.* This order and all transactions affected hereby are subject to all applicable regulations of the War Production Board, as amended from time to time, unless there is a conflict between this order and such regulations, in which case this order shall govern, if it specifically so provides. No producer is, however, subject to the restrictions of CMP Regulation 5 nor may any producer in any way use the preference ratings therein assigned.

(s) *Special inventory directions.* Nothing in this order is intended to supersede any special inventory base established by a specific direction from the War Production Board to a named producer. All such directions shall remain in effect unless modified by a further specific direction to the producer affected.

(t) *Special provisions.* (1) With respect to WPB-2774 authorizations issued prior to August 23, 1945 and involving not in excess of $25,000 net material cost, producers may use the preference ratings and CMP allotment symbol as-

signed in paragraphs (b) and (c) of this order in lieu of those specifically assigned on such a Form WPB–2774 authorization.

(2) Any specific denials or prohibitions related to the installation of plant additions by a named producer, issued by the War Production Board prior to August 23, 1945, are hereby revoked.

(d) *Expiration date.* This order expires September 30, 1945 unless sooner revoked.

Issued this 23d day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A

MATERIAL CLASSES

Material in the inventory of any producer which has an inventory, as defined in paragraph (a) (11), in excess of $25,000 shall be carried on the producer's own records and reported to the War Production Board as may be required, classified as follows:

WATER PRODUCERS

Class 1—Material for sources of supply, water treatment plants, reservoirs, elevated and pressure tanks, pumping and booster stations, including related pipe, valves, valve parts, and fittings.

Class 2—Meters.

Class 3—Transmission and distribution material (excluding meters), such as cast iron, steel, and wrought iron pipe, copper and brass pipe and tubing, lead pipe, pipe fittings, valves and valve parts, hydrants, parts for meters and hydrants, and other transmission and distribution material and supplies except pipe, valves, valve parts, and fittings included in Class 1 above.

Class 4—Other material and supplies.

GAS PRODUCERS

Class 1—Production and pumping station material.

Class 2—Meters and house regulators.

Class 3—Transmission and distribution material (excluding meters and house regulators), such as cast iron, steel and wrought iron pipe, copper and brass pipe and tubing, pipe fittings, valves and valve parts, governors and regulators, parts for meters, regulators, and governors, other transmission and distribution material and supplies.

Class 4—Other material and supplies.

ELECTRIC POWER PRODUCERS

Class 1—Generating station material.

Class 2—Switching and substation material, such as power transformers, other station equipment, parts, and material, and other material and supplies.

Class 3—Wire, cable, and bus bar, such as bare copper and aluminum, weatherproof copper, underground cable, aluminum and copper shapes.

Class 4—Wood poles and cross arms.

Class 5—Meters.

Class 6—Transmission and distribution material (excluding Classes 2, 3, 4 and 5 above), such as iron and steel poles, towers and parts, line hardware, distribution transformers, meter and transformer parts, and other line material and equipment (including insulators, lightning arrestors, etc.).

Class 7—Other material and supplies.

CENTRAL STEAM HEATING PRODUCERS

Class 1—Production plant material.

Class 2—Transmission and distribution material.

Class 3—Other material and supplies.

[Schedule B deleted Aug. 31, 1944.]

SCHEDULE C

LIMITS ON PRACTICAL WORKING MINIMUM INVENTORY [2]

For purposes of paragraph (e) (1) a practical working minimum inventory (except for producers having a total inventory of $25,000 or less, who are exempted by paragraph (f)) may in no case exceed the following dollar values:

WATER PRODUCERS [1]

Class 1—The dollar value of items of material of this class in inventory on the most recent date in 1940 on which the producer's inventory was taken, increased proportionately to the increase in system output in the twelve-month period preceding the current quarter over output in 1940.

Class 2—Four-thirds of the dollar value of authorized withdrawals in this class made during the last nine months of 1942 for use as "maintenance, repair, and operating supplies" as those terms were defined in Utilities Order U-1 as amended September 24, 1943.[1]

Class 3—Sixty per cent of the dollar value of material in this class in inventory on the most recent date in 1940 on which the producer's inventory was taken.

Class 4—Two-thirds of the dollar value of authorized withdrawals in this class made during the last nine months of 1942 for use as "maintenance, repair, and operating supplies", as those terms were defined in Utilities Order U–1 as amended September 24, 1943.[1]

GAS PRODUCERS [2]

Class 1—The dollar value of items of material of this class in inventory on the most recent date in 1940 on which the producer's inventory was taken, increased proportionately to the increase in system output in the twelve-month period preceding the current quarter over output in 1940.

Classes 2 and 3—Four-thirds of the dollar value of withdrawals in this class made during the last nine months of 1942 for use as "maintenance, repair, and operating supplies", as those terms were defined in Utilities Order U–1 as amended September 24, 1943.[1]

Class 4—Two-thirds of the dollar value of withdrawals in this class made during the last nine months of 1942 for use as "maintenance, repair, and operating supplies", as those terms were defined in Utilities Order U–1 as amended September 24, 1943.[1]

[1] These definitions are reprinted here for convenience in reference; please note that they differ from definitions used in the current order:

"Maintenance" means the upkeep of a producer's property and equipment in sound working condition.

"Repair" means the restoration of a producer's property and equipment to sound working condition after wear and tear, damage, destruction of parts, or the like have made such property or equipment unfit or unsafe for service.

"Operating supplies" means (1) material which is essential to the operation of any of the industries or services specified above and which is generally carried in a producer's inventory and charged to operating expense accounts, and (2) material for an addition to or an expansion of property or equipment (including a minor extension of lines), provided that such addition or expansion shall not include any work order, job, or project in which the cost of material shall exceed $1500 in the case of underground construction and $500 in the case of other construction, and provided that no single construction project shall be subdivided into parts in order to come below these limits.

[2] See Schedule A for complete identification of classes.

ELECTRIC POWER PRODUCERS [2]

Class 1—The dollar value of items of material of this class in inventory on the most recent date in 1940 on which the producer's inventory was taken, increased proportionately to the increase in system output in the twelve-month period preceding the current quarter over output in 1940.

Class 2—The dollar value of items of material of this class in inventory on the most recent date in 1940 on which the producer's inventory was taken.

Classes 3 and 4—Four-thirds of the dollar value of withdrawals in this class made during the last nine months of 1942 for use as "maintenance, repair, and operating supplies", as those terms were defined in Utilities Order U–1 as amended September 24, 1943.[1]

Class 5—Fifty meters at each operating headquarters plus one and three-quarters percent of the meters installed in plant on the first day of the preceding calendar quarter.

Class 6—Four-thirds of the dollar value of withdrawals in this class made during the last nine months of 1942 for use as "maintenance, repair and operating supplies", as those terms were defined in Utilities Order U–1 as amended September 24, 1943.[1]

Class 7—Two-thirds of the dollar value of withdrawals in this class made during the last nine months of 1942 for use as "maintenance, repair, and operating supplies", as those terms were defined in Utilities Order U–1 as amended September 24, 1943.[1]

CENTRAL STEAM HEATING PRODUCERS [2]

Class 1—The dollar value of items of material of this class in inventory on the most recent date in 1940 on which the producer's inventory was taken, increased proportionately to the increase in system output in the twelve-month period preceding the current quarter over output in 1940.

Class 2—Four-thirds of the dollar value of withdrawals in this class made during the last nine months of 1942 for use as "maintenance, repair and operating supplies", as those terms were defined in Utilities Order U–1 as amended September 24, 1943.[1]

Class 3—Two-thirds of the dollar value of withdrawals in this class made during the last nine months of 1942 for use as "maintenance, repair and operating supplies", as those terms were defined in Utilities Order U–1 as amended September 24, 1943.[1]

Schedule A.
Schedule B.
Schedule C.

§ 4501.1 *Utilities Order U–2.*

(a) *Definitions.* (1) "Operator" means any individual, partnership, association, business trust, corporation, receiver, or any form of enterprise whatsoever, whether incorporated or not, the United States, the District of Columbia, any state or territory of the United States, any political, corporate, administrative or other division or agency thereof, to the extent engaged in rendering telephone communication service within, to, or from the United States, its territories or possessions.

(2) "Schedule A service" means service to the extent required for the proper discharge of duties in the direct defense, public health, welfare and security categories listed on Schedule A attached.

(3) "Merchant Marine" has the same meaning as in Section I of Public Law numbered 87, Seventy-Eighth Congress, approved June 23, 1943.

(b) *Availability of facilities for essential uses.* (1) Operators shall disconnect service when they learn that the present real user of service is not a user contemplated in the service agreement. Any such disconnections shall be considered "normal disconnections" within the meaning of paragraph (b) (2) below.

(2) Exchange line plant, exchange central office equipment, or telephone sets made available through normal disconnection or by new acquisition shall be used to take care of applications for service in the following order:

(i) Schedule A service, public pay station service and service specifically authorized by the War Production Board because of essentiality or unreasonable hardship.

(ii) Changes of address of business service within the same exchange or to another exchange of the same operator within the same metropolitan area or within such other area as is defined by the operator's established practices.

(iii) New business service for an enterprise which the operator finds is substantially owned and principally operated or managed by a veteran who applies for service within twelve months after being honorably separated or placed on terminal leave from the armed forces of the United States or the merchant marine provided such enterprise is expected to be the veteran's principal means of livelihood. The applicant for service must certify to these facts in substantially the form set forth in the Certification Form (WPBI–2545).

(iv) New business service.

(v) Changes of address of residence service within the same exchange or to another exchange of the same operator within the same metropolitan area or within such other area as is defined by the operator's established practices.

(vi) Additions to existing business service.

(vii) New residence service set forth in Schedule B.

(viii) New residence service set forth in Schedule C.

(ix) New residence service other than that included in categories (i), (vii) and (viii).

(x) Where the operator finds that immediate installation of service is essential to the protection of life, such installation may be made as an exception to the order provided in the above categories. Such service shall, however, be disconnected promptly at the termination of the emergency and the facilities used to take care of applications as otherwise specified above.

(3) Idle facilities may be reserved to the extent operators find necessary to meet promptly the known or fairly anticipated requirements for Schedule A service and to provide for essential public pay station service.

(4) To the extent necessary to meet minimum needs for Schedule A service and for essential public pay station service, operators shall make available additional exchange central office equipment or exchange line plant by regrading any service under the following provisions:

(i) Regrading is to be done only when current installations of central office equipment permit. Regrading of Schedule A service and of business service is to be done only if regraded service meets minimum service needs.

(ii) Residence service shall be regraded before business service. Any regrading shall be in the reverse order of the dates of connection at the existing locations, that is, the most recent shall be regraded first.

(5) Subject to the provisions of (b) (4) (i) and (b) (4) (ii) above, operators shall regrade existing service to the extent necessary to provide service authorized by the War Production Board because of essentiality or unreasonable hardship.

(c) *Limitations on additional telephones.* (1) Residence extension service. Operators shall not install or reconnect residence extension telephones, residence extension bells, except loud ringing bells, or residence P. B. X. telephones, nor as a substitute provide additional main lines or stations on party lines. This provision has the following exclusions and exceptions:

(i) Temporary installations of one residence extension may be made when the operator finds it essential in cases of serious illness.

(ii) For practicing physicians and surgeons, the operator may install one extension telephone to meet professional requirements. The operator may also provide a connection with an answering bureau.

(iii) The installation and reconnection in residence quarters of telephones connected to private branch exchanges serving hotels, apartment houses, etc., may be made to the extent that no more than one such telephone may be provided in any residence quarters.

(d) [Deleted Aug. 23, 1945.]

(e) [Deleted Aug. 23, 1945.]

(f) [Deleted Aug. 23, 1945.]

(g) [Deleted Aug. 23, 1945.]

(h) *Reports.* All operators affected by this order shall execute and file with the Office of War Utilities such reports as the Director, Office of War Utilities, shall from time to time require; subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(i) *Appeals and applications.* Applications for relief under this order or appeals should be filed on Form WPB–2117.

(j) *Violations.* Any person who wilfully violates any provision of the order or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance.

(k) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: Communications Division, Office of War Utilities, War Production Board, Washington 25, D. C., Ref.: U–2.

Issued this 23d day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A—CATEGORIES TO BE ACCORDED PREFERENCE IN OBTAINING SERVICE TO THE EXTENT REQUIRED FOR THE PROPER DISCHARGE OF DUTIES IN DIRECT DEFENSE, PUBLIC HEALTH, WELFARE AND SECURITY

1. *Armed forces and government.* (a) Official Army, Navy, Marine Corps and Coast Guard Units and the Veterans' Administration. Office of Civilian Defense Units.

(b) Official Federal, State, county, and municipal government services.

(c) Official agencies of foreign governments.

2. *War production and directly related activities.* (a) Business concerns furnishing material, equipment or facilities under prime or subcontracts to the Armed Forces of the United States (or their suppliers). Petroleum operators for their oil or gas producing or drilling operations. The business offices of persons who regularly perform special services for these business concerns, such as consulting engineers, chemists, lawyers, and accountants. The business offices of persons rendering special service in connection with construction of defense projects authorized by the War Production Board, such as contractors, engineers, and architects. Labor unions having bona fide collective bargaining agreements with business concerns identified in this Schedule A.

(b) Public transportation, pipe line companies, all types of public utilities.

(c) Business concerns who regularly maintain or service equipment essential to the Armed Forces, war production, public transportation, public utilities, and pipe line companies.

3. *Public health and welfare.* (a) Public or private organizations directly serving the public safety, health or welfare, such as: hospitals, clinics, sanitoria; physicians, surgeons, dentists, nurses, nurses' registries, veterinarians, ambulance services, manufacturers or distributors (wholesale and retail) of drugs, surgical, medical, hospital or dental supplies or equipment; mortuaries, burial service organizations; the American Red Cross and similar agencies.

(b) Philanthropic and eleemosynary organizations recognized as such by the Bureau of Internal Revenue, including their fund-raising offices; United Service Organizations and other similar organizations; religious establishments and their officiating clergy; Christian Science Practitioners; public and private schools.

(c) Press associations, newspapers, radio broadcasting stations.

(d) The business or management offices of new housing developments.

(e) Food processing, food distribution (wholesale and retail) and food storage organizations and producers of substantial quantities of food.

SCHEDULE B

Categories to be accorded preference in obtaining service in the order provided in paragraph (b) (2).

1. Residence service where the attending physician or surgeon certifies in substantially the form set forth in the Schedule B Certification Form (WPBI–2101) that there exists a condition of serious illness or pregnancy involving serious complications, that he must be called repeatedly at unpredictable intervals for emergency treatment and that in view of all the circumstances telephone service is essential. Such service shall be terminated within 30 days of the termination of the conditions specified above.

2. Residence service required where a person lives alone and the attending physician certifies in substantially the form set forth in the Schedule B Certification Form (WPBI–2101) that such person is confined to residence quarters for a protracted period by reason of serious illness or physical disability and that in view of all the circumstances telephone service is essential. The phrase "lives alone" includes a person who is alone all day or during the day or night working hours, except for one or more children aged fifteen years or younger or another person similarly certified to be confined to residence quarters by reason of serious illness or physical disability. Such service shall be terminated within 30 days after the termination of the conditions specified above.

SCHEDULE C

Categories to be accorded preference in obtaining service in the order provided in paragraph (b) (2).

1. Residence service for the wife of a member of the armed forces of the United States or the merchant marine who is on active duty away from home, where she is pregnant and there is no one else in her household or where her household consists only of herself and one or more children aged fifteen years or younger and under the same circumstances for a widow whose husband died since January 1, 1940 while a member of the armed forces of the United States or the merchant marine. The applicant for service must certify to these facts in substantially the form set forth in the Schedule C Certification Form (WPBI–2102).

2. Residence service for those who discontinued residence service upon entering the armed forces of the United States or the merchant marine and who apply, within twelve months after being honorably separated or placed on terminal leave from the armed forces or the merchant marine for residence service within the area indicated in paragraph (b) (2) (v). The applicant for service must certify to these facts in substantially the form set forth in the Schedule C Certification Form (WPBI–2102).

PART 4501—COMMUNICATIONS

[Utilities Order U–3 as Amended Aug. 23, 1945]

PREFERENCE RATING ORDER (MRO) FOR TELEPHONE INDUSTRY

(a) Definitions.
(b) CMP allotment symbol and preference ratings.
(c) Use of material obtained under this order.
(d) Authority to begin construction.
(e) Restrictions on inventory.
(f) Exemptions.
(g) Sales of material.
(h) Records and reports.
(i) Applicability of regulations.
(j) Violations.
(k) Communications.
(l) Termination date of the order.

§ 4501.6 *Utilities Order U–3*—(a) *Definitions.* For the purpose of this order:

(1) "Operator" means any individual, partnership, association, business trust, corporation, receiver, or any form of enterprise whatsoever, whether incorporated or not, the United States, the District of Columbia, any state or territory of the United States, any political, corporate, administrative, or other division or agency thereof, to the extent engaged in rendering telephone communication service to the public (and such telegraph and teletypewriter service as may also be conducted by him) within, to, or from the United States, its territories, or possessions. Public law enforcement agencies and public fire protection agencies are excluded from this definition for the purpose of this order.

"Operator" also includes any persons operating a rural cooperative or mutually-owned telephone system. It further includes persons owning either a telephone or a telephone system which is connected to a telephone system rendering service to the public, so long as they do not generally use an MRO order other than Order U–3. Those who generally use another MRO order for their business operations, as, for example, railroads using Order P–142 or a manufacturer using CMP Reg. 5, are excluded from this definition.

(2) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(3) Without regard to accounting practices:

(i) "Maintenance" means the minimum upkeep necessary to continue a facility in sound working condition.

(ii) "Repair" means the restoration of a facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like.

(4) "Operating supplies" means any material essential to the operator's business and used for purposes other than maintenance and repair.

(5) Without regard to accounting practices, "Operator's inventory" means the aggregate of material currently owned by an operator and not incorporated into plant or in the process of being consumed, exclusive of:

(i) At the operator's option, the dollar value of material offered for sale and listed by categories in column (b) of Form WPB–1127 for the third quarter of 1944.

(ii) Material for use on a project approved by the War Production Board on Form WPB–2774 or any alternative form, or segregated for use on construction jobs permitted by this Order.

(iii) Poles, crossarms, insulators and non-metallic conduit, furniture and fixtures; office machinery; printing, stationery and office supplies; house service supplies; and coal and petroleum products.

(b) *CMP allotment symbol and preference ratings.* (1) An operator is authorized to use the CMP allotment symbol U–9 and is assigned the preference rating of AA–1 for deliveries of material for maintenance, repair and operating supplies, except for:

(i) Telephone sets;

(ii) [Deleted Aug. 23, 1945.]

(iii) Material for a construction project where the total cost of material is more than $25,000 or the cost of material obtained under this order is more than $2,500.

(2) An operator is authorized to use the CMP allotment symbol U–9 and is assigned the preference rating AA–3 for deliveries of:

(i) Telephone sets;

(ii) Material for a construction project where the total cost of material is not more than $25,000 and the cost of material obtained under this order is more than $2,500.

(3) [Deleted Aug. 23, 1945.]

(4) An operator may apply and a supplier may extend the CMP allotment symbol or ratings in the manner provided in Priorities Regulation 3 and CMP Regulation 3, by placing on his delivery order substantially the certification set forth below in paragraph (b) (5).

(5) Utilities maintenance, repair and operating supplies certification.

CMP allotment symbol U–9, preference rating ——. The undersigned operator certifies, subject to the penalties of section 35A of the United States Criminal Code, to the seller and to the War Production Board, that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders and under all provisions of Utilities Orders U–2 and U–3, to place this delivery order, to receive the item(s) ordered for the purpose for which ordered and to use any CMP allotment symbol or rating which the undersigned has placed on this order.

(c) *Use of material obtained under this order.* (1) [Deleted Aug. 23, 1945.]

(2) Material costing not more than $50 obtained under this order on AA–1 rating or U–9 allotment symbol, may be used on any construction project permitted under this order, or authorized on Form WPB–2774 or alternative form, even though the project has been assigned a lower rating or different symbol or is unrated.

(3) Material obtained under this order which is in inventory may be used on any permitted construction project, even though the project is assigned a different allotment symbol or a lower rating either by this order or by the War Production Board on Form WPB–2774, or any alternative form. However, material so used may only be replaced in inventory by use of the different allotment symbol or the lower preference rating authorized by this order or by the War Production Board on Form WPB–2774 or alternative form.

(4) An operator, who does not furnish telephone service to the public, whose "operator's inventory" at the end of 1942 or whose use of material during 1942 did not exceed $10,000 may not, in any single case, use material obtained under this order costing more than $500 for operating supplies.

(5) No operator shall subdivide a single order, job, or project to qualify it under the dollar limitations of this Order U–3.

(6) Material obtained under this order may be used for maintenance and repair, without regard to dollar limitations on the use of material for operating supplies.

(7) The dollar limits of this order shall not prevent the use of material on hand to meet temporary traffic or emergency requirements, but where the dollar limits are exceeded the material must be returned to inventory or to its original location in plant within thirty days, unless application has been made to the War Production Board for authority to continue the use of material.

(8) The preference ratings and allotment symbol assigned by this Order U–3 are ineffective with respect to materials scheduled for delivery after September 30, 1945.

(d) [Deleted Aug. 23, 1945.]

(e) *Restrictions on inventory.* (1) No operator shall accept deliveries of material unless after the delivery his operator's inventory will not exceed a practical working minimum. A practical working minimum shall in no case be greater than 27½% of the dollar value of material used during the calendar year 1940 for all purposes exclusive of the items in paragraph (a) (5) (iii) and materials which were used for building construction. The items in (a) (5) (iii) may be accepted by an operator even if his operator's inventory exceeds 27½% of his 1940 usage of material.

(2) No operator shall accept delivery of a size, type, gauge and length of cable, wire or strand, if the operator's inventory of that size, type, gauge and length is in excess of requirements for the next ninety days. However, if an operator needs some wire, cable or strand, this provision does not forbid purchase of the minimum standard reel-length, even though the operator does not expect to use the whole reel in the next ninety days.

(f) *Exemptions.* Any operator whose operator's inventory did not exceed $25,000 at the end of 1942 is exempt from the inventory restrictions of paragraph (e) (1).

(g) *Sales of material.* Material sold between operators must be sold without a preference rating or CMP allotment symbol.

(h) *Records and reports.* Each operator acquiring maintenance, repair or operating supplies pursuant to this regulation shall keep and preserve, for a period of not less than two years, accurate and complete records of all such supplies so acquired which shall, upon request be submitted to audit and inspection by duly authorized representatives of the War Production Board. In addition, each operator affected by this order shall file such reports with the Communications Division, Office of War Utilities, as may from time to time be required by the War Production Board.

(i) *Applicability of regulations.* (1) This order and all transactions affected by it, except as expressly provided, are subject to all applicable regulations of the War Production Board, as amended from time to time.

(2) None of the provisions of CMP Regulations No. 5 or 5A shall apply to operators as defined in paragraph (a) (1) of this order, and no such operator shall obtain any material under the provisions of these regulations.

(j) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance.

(k) *Communications.* All reports to be filed, appeals and other communications concerning this order should be addressed to: Communications Division, Office of War Utilities, War Production Board, Washington 25, D. C. Ref.: U–3.

(l) *Termination date of the order.* This order U–3 expires on September 30, 1945.

Issued this 23d day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 4501—COMMUNICATIONS

[Utilities Order U–4, as Amended Aug. 23, 1945]

PREFERENCE RATING ORDER (MRO) FOR TELEGRAPH INDUSTRY

(a) Definitions.
(b) CMP allotment symbol and preference ratings.
(c) Use of material obtained under this order.
(d) Authority to begin construction.
(e) Restrictions on inventory.
(f) Restrictions on purchases.
(g) Records and reports.
(h) Applicability of regulations.
(i) Violations.
(j) Communications.
(k) Expiration date of the order.

§ 4501.11 *Utilities Order U–4*—(a) *Definitions.* For the purpose of this order:

(1) "Operator" means any individual, partnership, association, business trust, corporation, receiver, or any form of enterprise whatsoever, whether incorporated or not, the United States, the District of Columbia, any state or territory of the United States, any political, corporate, administrative or other division or agency thereof, to the extent engaged in rendering wire telegraph, cable or related communications service (exclusive of telegraph and teletypewriter service rendered by operators of telephone communications systems), within, to, or from the United States, its territories or possessions, either private or public in character, which involves the transmission and reception of coded impulse signals in numerical variety not less than twenty-six. "Operator" also includes the same persons to the extent engaged in rendering telephone communication service. Public law enforcement agencies and public fire protection agencies are excluded from this definition for the purpose of this order.

(2) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(3) Without regard to accounting practices:

(i) "Maintenance" means the minimum upkeep necessary to continue a facility in sound working condition.

(ii) "Repair" means the restoration of a facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts or the like.

(4) "Operating supplies" means any material essential to the operator's business and used for purposes other than maintenance and repair.

(5) Without regard to accounting practices, "operator's inventory" means the aggregate of material currently owned by an operator and not incorporated into plant or in the process of being consumed, exclusive of:

(i) At the operator's option, the dollar values of material reported for sale by categories in Column (b) of Form WPB–1131 for the third quarter of 1944.

(ii) Material for use on a project approved by the War Production Board on Form WPB–2774 or any alternative form or segregated for use on projects permitted by this order.

(iii) Stocks of lead covered cable or bare line wire maintained by an operator for repair of major breakdowns due to storms, floods, etc., except that the dollar value of such material which may be excluded from inventory may not exceed the dollar value of material reported in Column (c) of Form WPB–1131 for the third quarter 1944.

(iv) Poles, crossarms, insulators and non-metallic conduit, furniture and fixtures; clothing (uniforms, etc.); printing, stationery and office supplies; house service supplies and coal and petroleum products.

(v) Ocean cable, grapnel rope and buoy rope.

(b) *CMP Allotment Symbol and Preference Ratings.* (1) An operator is authorized to use the CMP allotment symbol U–9 and is assigned the preference rating of AA–1 for deliveries of material for maintenance, repair and operating supplies, except for:

(i) Telephone sets;

(ii) [Deleted Aug. 23, 1945.]

(iii) Material for a construction project where the total cost of material is more than $25,000 or the cost of material

obtained under this order is more than $2,500.

(2) An operator is authorized to use the CMP allotment symbol U–9 and is assigned the preference rating AA–3 for deliveries of:

(i) Telephone sets;

(ii) Material for a construction project where the total cost of material is not more than $25,000 and the cost of material obtained under this order is more than $2,500.

(3) [Deleted Aug. 23, 1945.]

(4) An operator may apply and a supplier may extend the CMP allotment symbol or ratings in the manner provided in Priorities Regulation 3 and CMP Regulation 3, by placing on his delivery order substantially the certification set forth below in paragraph (b) (5).

(5) Utilities maintenance, repair and operating supplies certification.

CMP allotment symbol U–9, preference rating —. The undersigned operator certifies, subject to the penalties of section 35A of the United States Criminal Code, to the seller and to the War Production Board, that to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders, and under all provisions of Utilities Order U–4, to place this delivery order, to receive the item(s) ordered for the purpose for which ordered and to use any CMP allotment symbol or rating which the undersigned has placed on this order.

(c) *Use of material obtained under this order.* (1) [Deleted Aug. 23, 1945.]

(2) Material costing not more than $50 obtained under this order on the U–9 allotment symbol or AA–1 rating, may be used on any construction project permitted under this order, or authorized on Form WPB–2774 or any alternative form, even though the project has been assigned a different symbol, a lower rating or is unrated.

(3) Material obtained under this order which is in inventory may be used on any permitted construction project, even though the project is assigned a different allotment symbol or a lower rating either by this order or by the War Production Board on Form WPB–2774, or any alternative form. However, material so used may only be replaced in inventory by use of the different allotment symbol or the lower preference rating authorized by this order or by the War Production Board on Form WPB–2774 or alternative form.

(4) No operator shall subdivide a single order, job, or project to qualify it under the dollar limitations of Order U–4.

(5) Material obtained under this order may be used for maintenance and repair, without regard to dollar limitations on the use of material for operating supplies.

(6) The dollar limits of this order shall not prevent the use of material on hand to meet temporary traffic or emergency requirements, but where the dollar limits are exceeded the material must be returned to inventory or to its original location in plant within thirty days, unless application has been made to the War Production Board for authority to continue the use of material.

(7) The preference ratings and allotment symbol assigned by this Order U–4 are ineffective with respect to materials scheduled for delivery after September 30, 1945.

(d) [Deleted Aug. 23, 1945.]

(e) *Restrictions on inventory.* (1) No operator shall accept deliveries of material unless after the delivery his operator's inventory will not exceed a practical working minimum. A practical working minimum shall in no case be greater than 27½% of the dollar value of material used during the calendar year 1940 for all purposes exclusive of the items in paragraph (a) (5) (iv) and materials which were used for building construction. The items in (a) (5) (iv) may be accepted by an operator even if his operator's inventory exceeds 27½% of his 1940 usage of material.

(2) No operator shall accept delivery of a size, type, gauge and length of cable, wire or strand, if the operator's inventory of that size, type, gauge and length is in excess of requirements for the next ninety days. However, if an operator needs some wire, cable or strand, this provision does not forbid him to accept the minimum standard reel-length, even though the operator does not expect to use the whole reel in the next ninety days. Nor does this provision forbid him to accept ocean cable approved under paragraph (f) below.

(f) *Restrictions on purchases.* No operator shall use the allotment number assigned by this order to obtain ocean cable. An operator who needs ocean cable should apply to the Office of War Utilities on Form WPB–2774.

(g) *Records and reports.* Each operator acquiring maintenance, repair or operating supplies pursuant to this regulation shall keep and preserve, for a period of not less than two years, accurate and complete records of all such supplies so acquired which shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board. In addition, each operator affected by this order shall file such reports with the Communications Division, Office of War Utilities, as may from time to time be required by the War Production Board; subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(h) *Applicability of regulations.* (1) This order and all transactions affected by it, except as expressly provided, are subject to all applicable regulations of the War Production Board, as amended from time to time.

(2) None of the provisions of CMP Regulations No. 5 or 5A shall apply to operators as defined in paragraph (a) (1) of this order, and no such operator shall obtain any material under the provisions of these regulations.

(i) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance.

(j) *Communications.* All reports to be filed, appeals and other communications concerning this order should be addressed to: Communications Division, Office of War Utilities, War Production Board, Washington 25, D. C. Ref. U–4.

(k) *Termination date of the order.* This order U–4 expires on September 30, 1945.

Issued this 23d day of August 1945.

PART 1305—ADMINISTRATION

[Gen. RO 5,[1] Amdt. 115]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

General Ration Order 5 is amended in the following respects:

Section 29.2 (b) is amended to read as follows:

(b) *Transferor must give up unused stamps, certificates, and ration checks.* The seller or transferor must give up to the Board all unused stamps, certificates, and ration checks he has for the establishment. If the establishment has ration bank accounts, he must give up to the Board ration checks payable to the Office of Price Administration for the balances in such accounts less the amount of any outstanding checks. The notice described in paragraph (a) of this section and the surrender of the stamps, certificates, and ration checks will be treated as a cancellation of the transferor's registration and allowances.

This amendment shall become effective August 27, 1945.

Issued this 23d day of August 1945.

CHESTER BOWLES,
Administrator.

PART 1340—FUEL

[RMPR 122, Incl. Amdts. 1–34, Correction]

SOLID FUELS SOLD AND DELIVERED BY DEALERS

The compilation of Revised Maximum Price Regulation No. 122, issued July 6, 1945, is hereby corrected to read as follows:

In § 1340.254 (a), Rule 3 is corrected by inserting in the first paragraph, after the words "similar sale of solid fuel" and before the words "for which a maximum price," the words "most nearly like the sale of solid fuel."

This correction shall be effective as of July 11, 1945.

Issued this 23d day of August 1945.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 364,[1] Amdt. 33]

FROZEN FISH AND SEAFOOD

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Section 2 (b) of Maximum Price Regulation No. 364 is amended to read as follows:

(b) *Branch warehouse sales.* Where the processor receives frozen fish or seafood in carload lots at a warehouse remote from the original freezer and sells and delivers such frozen fish or seafood in less-than-carload lots from the stock of such warehouse, his maximum price f. o. b. shipping point nearest warehouse for such sales to wholesalers, government agencies, retailer-owned cooperatives or chain store warehouses is the applicable listed base price in section 13, with any appropriate adjustment for kind of package as provided in section 12, plus any transportation cost allowable under section 4, plus a mark-up of 12 percent applied to the sum of the foregoing.

However, the price established by this paragraph (b) may be charged by such processor only if:

(1) The branch warehouse is remote from the processor's principal place of business (which is not a public freezer), at which he unloads and warehouses fish and keeps two or more fulltime employees for the purpose of handling or packing fish and seafood exclusively for him, and from the stock of which he distributes and sells fish and seafood to wholesalers, retailers and purveyors of meals;

(2) The processor maintains at the branch warehouse, or in its vicinity where such warehouse is a public freezer, a plant for the distribution of fish, at which plant he unloads and warehouses fish and keeps two or more fulltime employees for the purpose of handling or packing fish and seafood exclusively for him; and

(3) The processor sells out of the stock of such plant and warehouse to retailers (other than chain store warehouses) whose sales are covered by Revised Maximum Price Regulation No. 507, and to purveyors of meals at least 20 percent of the fish or seafood he sells and distributes from such plant and warehouse.

This amendment shall become effective August 27, 1945.

Issued this 22d day of August 1945.

DOUGLAS FIR AND OTHER WEST COAST LUMBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Subparagraph (4) of section 5 (d) of Revised Maximum Price Regulation 26 is amended to read:

(4) This section 5 (d) shall cease to be effective on whatever date W. P. B. Direction 1–a to Order L–335, as amended June 18, 1945, is withdrawn or modified except that mills may charge the adjusted maximum prices on shipments prior to November 1, 1945, of boards on orders placed by C. P. A. prior to August 15, 1945 for water shipment, which were manufactured prior to August 16, 1945, provided that prior to September 1, 1945, the mill reports such unshipped orders from C.P.A. to the Portland District Office of the Office of Price Administration, giving the quantities of boards manufactured but not shipped prior to August 16, 1945 against such orders.

This amendment shall become effective August 22, 1945.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 16,[1] Amdt. 67]

MEAT, FATS, FISH AND CHEESES

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Ration Order 16 is amended in the following respects:

1. Section 12.1 (b) is amended to read as follows:

(b) *Purchaser of retail or wholesale establishment may get its points.* The purchaser or transferee of a retail or wholesale establishment may get and use all of the establishment's points in the same way that the seller or transferor was entitled to use them. If the establishment has a ration bank account, the transferor is to give all the establishment's points, (less the amount of any outstanding checks) to the transferee by issuing a ration check. If the establishment does not have a ration bank account, the transferor is to give to the transferee, the "stamps," "tokens," and certificates, he has and to endorse and give to the transferee any ration checks he has. (If the transferee is required to have a ration bank account, he must deposit all the points in that account. If the transferee is not required to have a ration bank account, he may endorse the checks and use them to get foods covered by this order.)

2. Section 12.1 (c) is amended to read as follows:

(c) *Seller of primary distributor establishment must give up all points to the Office of Price Administration.* A person who sells or transfers a primary distributor establishment must, within five days after the transfer, turn over to the board (or District Office, if it is registered there), all points on hand at that establishment and all in its ration bank account, less the amount of any outstanding checks. He does so by issuing and sending his certified ration check payable to the Office of Price Administration, along with his notice of the transfer. (If any of the points represent foods not yet shipped, he must attach to his notice a statement showing the amount and the person from whom he got them.)

3. Section 12.2 (b) (1) is amended to read as follows:

(1) When the entire industrial user establishment is transferred for continued operation, the seller or transferor must give up to the board (or District Office) all unused points he has for the establishment. If the establishment has a ration bank account, he must give up the points (less the amount of any outstanding checks) in the form of his ration check payable to the Office of Price Administration and he must notify the District Office in the way required by General Ration Order 3A. PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 16[1], Amdt. 69]

MEAT, FATS, FISH AND CHEESE

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Revised Ration Order 16 is amended in the following respects:

1. Section 1.3 (b) is amended to read as follows:

(b) The basic forms of ration currency are the red and green stamps in War Ration Book Four and "tokens" which are designated by the Office of Price Administration to be used for the acquisition of all foods covered by this order. They are the forms in which points are generally given up by "consumers".

2. Section 2.3 (a) is amended to read as follows:

(a) *A consumer uses stamps.* A consumer gives up points, when he acquires foods covered by this order, by surrendering "stamps" from his War Ration Book Four.

3. Section 3.2 (b) is amended to read as follows:

(b) However, for the purposes of this section, a consumer may use, and a transferor may accept, only the eighteen stamps in War Ration Book Four which will become valid after the stamps which are valid for use by consumers generally at the time of the transfer. Red stamps in War Ration Book Four will become valid in the following order: A8 to Z8; A5 to Z5; A2 to Z2; A1 to Z1; Green stamps N8 to Z8, N5 to Z5; N2 to Z2; N1 to Z1.

4. Section 27.1 (a) is amended by changing the definition of "Stamp" to read as follows:

"Stamp" means a red or green stamp in, or taken from, a War Ration Book Four.

This amendment shall become effective August 21, 1945.

Issued this 21st day of August 1945.

PART 8306—SALE OF GOVERNMENT-OWNED PLANT EQUIPMENT IN CONTRACTORS' PLANTS

SPECIAL TOOLING

Surplus Property Board Regulation 6, May 21, 1945, entitled "Sale of Government-Owned Plant Equipment in Contractors' Plants" (10 F.R. 6309, 6981, 8665) is hereby amended in the following respects:

1. There is added a new paragraph (k) to § 8306.1 to read as follows:

(k) "Special tooling" means plant equipment of such special design that it has apparent value only as scrap except in the manufacture of the particular product which such equipment was specifically designed to produce; it includes only jigs, dies, fixtures, gauges, moulds and similar equipment.

2. The last sentence of the first paragraph of § 8306.2 is amended to read as follows: "Except as otherwise provided in §§ 8306.4 and 8306.7, it authorizes the disposal of such equipment only to the contractor in possession for immediate or eventual use in his civilian production."

3. There is added a new paragraph to § 8306.4 to read as follows:

In any case in which the owning agency shall make a written finding that given special tooling will have no reasonably foreseeable use for civilian production, it may dispose of such tooling hereunder to the contractor in possession at scrap prices. In any such case the contractor shall agree in writing that upon the conclusion of his war production, he will offer such tooling to the owning agency for a period of thirty (30) days at the then scrap price of such tooling and, if the owning agency does not wish to purchase such tooling, he will dispose of it as scrap.

4. Section 8306.7 is amended to read as follows:

§ 8306.7 *Plant equipment in possession of subcontractors and sublessees.* In any case where plant equipment is, in accordance with the terms of a facilities contract, located in the plant of a subcontractor or sublessee, such subcontractor or sublessee shall for the purpose hereof be considered as the contractor in possession, and owning agencies shall take all steps possible to sell such plant equipment to the sublessee or subcontractor, at his request, on terms and conditions as provided herein. In the case of special tooling, if such subcontractor or sublessee shall state that he does not desire to acquire the property, it may be disposed of by competitive bidding through sealed bids or at auction at the discretion of the owning agencies and under rules and regulations prescribed by the owning agencies. Such rules and regulations shall contain, among other provisions, the following requirements:

(a) The determination of lots shall be subject to approval by the owning agency.

(b) The owning agency shall set an upset price on each lot at which figure the bidding on each lot shall be started.

(c) The right shall be reserved by the owning agency to reject all bids.

(d) Notice shall be given by publication to all possibly interested purchasers indicating the special tooling that will be available for sale, naming a date not less than fourteen (14) days from the time of first publication when the bidding will be closed or when the auction will be held, and giving the upset price on each lot.

(e) If no acceptable bid to purchase is received, the contractor holding the covering facilities contract may be permitted to retain the property under a negotiated sale or under a lease for a period of not more than one year. Sale prices and rentals shall be determined on a basis that is fair and reasonable taking into consideration the limited sale value of the property, its special value to the purchaser or lessee, upset prices and any bids received.

The owning agency may request the advice and assistance of the Reconstruction Finance Corporation in setting upset prices and in determining acceptable sale prices and rentals. At the discretion of the owning agency, auctions, sales or leases authorized hereunder may be combined with auctions, sales or leases authorized under Special Order 17.

This amendment shall become effective August 17, 1945.

[Special Order 17]

DISPOSAL OF SPECIAL TOOLING IN GOVERNMENT-OWNED AIRCRAFT PLANTS

Pursuant to the authority of the Surplus Property Act of 1944 (58 Stat. 765, 50 U.S.C. App. Sup. 1611), it is hereby ordered that:

1. *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this order be given the meaning assigned to them in that act.

(b) *Other terms.* (1) "Contract" includes subcontracts and subleases and "contractor" includes subcontractors and sublessees.

(2) "Facilities contract" means a lease, rental agreement or other contract or contract provision, specifically governing the acquisition, use, or disposition of Government-owned machinery, tools, building installations, or other property furnished to or acquired by a war contractor for any war production purpose except incorporation in end products.

(3) "Scrap" means property that has no reasonable prospect of sale except for its basic material content.

(4) "Special tooling" means equipment of such special design that it has apparent value only as scrap except in the manufacture of the particular product which such equipment was specifically designed to produce; it includes only jigs, dies, fixtures, gauges, moulds, and similar equipment and as used in this order is limited to such equipment in aircraft plants.

2. *Scope.* This order is issued under the authority of section 14 (a) of the act relating to contractor inventory. It applies only to Government-owned special tooling that is located in Government-owned aircraft plants which are being operated by private contractors pursuant to facilities contracts.

3. *Owning agencies empowered to authorize retentions or disposals of special tooling.* The Board hereby empowers each owning agency to authorize any contractor with such agency or subcontractor thereunder that is in possession of any special tooling to retain or sell such property as provided in this order. Retentions or sales may be made hereunder at any time before the owning agency takes possession of special tooling or declares such tooling surplus. Nothing herein affects the authority of owning agencies to sell small lots, scrap or salvage in accordance with other regulations or orders of the Board.

4. *Sales procedures.* All disposals hereunder shall be made on the basis of competitive bidding through sealed bids or at auction at the discretion of the owning agencies and under rules and regulations prescribed by the owning agencies. Such rules and regulations shall contain, among other provisions, the following requirements:

(a) The determination of lots shall be subject to approval by the owning agency.

(b) The owning agency shall set an upset price on each lot at which figure the bidding on each lot shall be started.

(c) The right shall be reserved by the owning agency to reject all bids.

(d) Notice shall be given by publication to all possibly interested purchasers indicating the special tooling that will be available for sale, naming a date not less than fourteen (14) days from the time of first publication when the bidding will be closed or when the auction will be held, and giving the upset price on each lot.

(e) If no acceptable bid to purchase is received, the contractor in possession may be permitted to retain the property under a negotiated sale or under a lease for a period of not more than one year. Sale prices and rentals shall be determined on a basis that is fair and reasonable taking into consideration the limited sale value of the property, its special value to the purchaser or lessee, upset prices and any bids received.

The owning agency may request the advice and assistance of the Reconstruction Finance Corporation in setting upset prices and in determining acceptable sale prices and rentals. At the discretion of the owning agency, auctions, sales, or leases authorized hereunder may be combined with auctions, sales or leases authorized under § 8306.7 of Regulation No. 6.

This order shall become effective immediately.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 5—EXPERIMENTAL RADIO SERVICES

GENERAL MOBILE RADIO SERVICES

The Commission, in meeting on August 14, 1945, adopted the following statement of policy in regard to granting authorizations permitting experimental operation in the proposed General Mobile Radio Service:

At the Commission's recent allocation hearings in Docket proceeding 6651, a number of requests were made for the allocation of frequencies for the general purpose of providing two-way radio communications with mobile units of various types. This proposed new radio service was designated as the General Mobile Radio Service and was intended to provide communication facilities both for vehicles operating within metropolitan areas and for vehicles operating primarily on intercity highways. These two classes of service were designated as "Urban Mobile" and "General Highway Mobile" radio service, respectively; 24 channels were allocated for the Urban Mobile Service in the 152–162 megacycle region and 40 channels for the General Highway Mobile Service in the 30–40 and 42–44 megacycle region.

Various suggestions were made at the allocation hearing regarding the best method of use of the limited number of frequencies that have been made available for this general mobile radio service. Representatives of the telephone industry urged that the service be rendered by communications common carriers. Representatives of transportation industries—bus, truck and taxicab—urged the allocation of varying numbers of frequencies for the private use of their respective industries. There was also a suggestion that certain of the transportation industries might coordinate their communication needs in a single system in the interest of conserving frequencies. The establishment of the new service on a regular basis thus raises important questions of policy which are being studied by the Commission and with respect to which the Commission has as yet reached no conclusions. The Committee believes it desirable, therefore, to obtain through experimentation complete factual data which will assist in the determination of sound policies. However, frequency limitations will necessarily limit the amount of experimental operation which can be permitted in the proposed service. Accordingly, the Commission announces that it will grant a limited number of authorizations permitting experimental operation in the proposed General Mobile Radio Service upon the basis of a determination, upon each application, as to whether bona fide experimentation is contemplated.

Grants will be made for experimental operations only where it is clear that the facilities are to be used to obtain factual data relative to the needs and requirements of the proposed service, and to collect information which might be useful in deciding what method of operation would best serve the public. When sufficient data has been compiled, the Commission proposes to hold a public hearing before issuing any regulations governing the rendition of this service on a regular basis.

It was emphasized that the grant of experimental authorizations will not, in any way, constitute any assurance that the licensee will be authorized to operate stations in the new service finally to be established. The Commission, having arrived at no conclusions regarding the most desirable method of use of the frequencies allocated for the General Mobile Radio Service, cautions all applicants that investment or expenditures undertaken on account of such experimental operation are incurred at the risk that frequencies will not necessarily be made available for the type of service urged in any particular experimental application.

Secretary.

[Order 78-D]

PART 42—PRESERVATION OF RECORDS

RETENTION OF CERTAIN MESSAGES FOR 18 MONTHS

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 14th day of August 1945;

The Commission having under consideration Part 42 of its rules relating to the preservation of records of communication carriers and the provisions of Commission Orders Nos. 78, 78–A, 78–B, and 78–C;

It is ordered, That Commission Orders Nos. 78, 78–A, 78–B, and 78–C be, and they are hereby, amended and superseded to provide as follows:

It is ordered, That each common carrier engaged in international telegraph communication by wire or radio shall retain in its files for a period of 18 months from the date of transmission or receipt, as the case may be, the original of each telegraph message, or a copy thereof, transmitted by it to any point beyond the continental United States, and a copy of each telegraph message received by it from any point beyond the continental United States;

It is further ordered, That each coastal station engaged in telegraph communication with maritime mobile stations shall retain in its files for a period of 18 months from the date of transmission or receipt, as the case may be, the original or a copy of each telegraph message transmitted by it to a maritime mobile station, and a copy of each telegraph message received by it from a maritime mobile station;

It is further ordered, That each maritime mobile station engaged in telegraph communication shall retain in its files for a period of 18 months from the date of transmission or receipt, as the case may be, the original or a copy of each telegraph message transmitted by it, and a copy of each telegraph message received by it:

Provided, however, That Part 42 shall, in other respects, remain in full force and effect, and that the provisions of this order shall be construed as imposing requirements additional to said part.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket No. 6775]

MACKAY RADIO AND TELEGRAPH CO. ET AL.

ORDER INSTITUTING INVESTIGATION AND SETTING HEARING DATE

In the matter of increased charges for telegraph communications from the United States, its territories and possessions, to Spanish Morocco.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 14th day of August, 1945;

It appearing, that R. C. A. Communications, Inc., the Commercial Cable Company, Mackay Radio and Telegraph Company, All America Cables and Radio, Inc., and The Western Union Telegraph Company have filed with the Commission revised tariff schedules effective August 20, August 22, and September 15, 1945, stating new increased charges for telegraph messages from the United States and certain of its possessions to Spanish Morocco; said tariff schedules being designated as follows:

TARIFF F. C. C. NO. 2

17th Revised Page 89F.
14th Revised Page 89G.

It further appearing, that said tariff schedules state increased charges for telegraph communications in interstate and foreign commerce; that the rights and interests of the public may be injuriously affected thereby; and it being the opinion of the Commission that the effective date of such schedules, insofar as they provide for increased charges for telegraph communications from the United States, its territories and possessions, to Spanish Morocco, should be postponed pending hearing and decision on the lawfulness of such increased charges;

It is ordered, That the Commission upon its own motion, without formal pleading, enter upon a hearing concerning the lawfulness of the charges contained in the above-cited tariff schedules, insofar as they relate to telegraph communications from the United States, its territories and possessions, to Spanish Morocco;

It is further ordered, That the operation of the above-cited tariff schedules, insofar as they provide for increased charges for and in connection with telegraph communications from the United States, its territories and possessions, to Spanish Morocco, be suspended; that the use of the charges therein stated be deferred until November 20, 1945, unless otherwise ordered by the Commission; and that during said period of suspension no changes shall be made in such charges or in the charges sought to be altered, unless authorized by special permission of the Commission.

It is further ordered, That an investigation be, and the same is hereby instituted, into the lawfulness of the rates, charges, classifications, regulations, practices, and services of R. C. A. Communications, Inc., the Commercial Cable Company, Mackay Radio and Telegraph Company, All America Cables and Radio, Inc., and The Western Union Telegraph Company, for and in connection with telegraph communication service between the United States, its territories and possessions, on the one hand, and Spanish Morocco, on the other;

It is further ordered, That in the event a decision as to the lawfulness of the charges herein suspended has not been made during the suspension period and said charges have gone into effect, all of the carriers subject to the Commission's jurisdiction participating in the service provided under the tariff provisions herein suspended, shall, until further order of the Commission, each keep accurate account of all amounts charged, collected or received by reason of any increase in charges effected thereby; that each such carrier shall specify in such accounts by whom and in whose behalf such amounts are paid; and each such carrier shall file with this Commission a report, under oath, on or before the 10th day of each calendar month, commencing December 10, 1945 showing the amounts accounted for as aforesaid during the previous calendar month;

It is further ordered, That a copy of this order be filed in the offices of the Commission with said tariff schedules herein suspended; that all carriers subject to the Commission's jurisdiction which are parties to such tariff schedules be, and they are hereby each made a party respondent to this proceeding; and that copies hereof be served upon each such party respondent;

It is further ordered, That this proceeding be, and the same is hereby assigned for hearing on the 12th day of September, 1945, beginning at 10:00 a. m. at the offices of the Federal Communications Commission in Washington, D. C.

By the Commission.

[Vesting Order 5179]

FRANCES SUZANNE HANSEN

In re: Estate of Frances Suzanne Hansen, also known as Frances Herbert, deceased, File D-6-1178; E.T. sec. 12258.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That the property described as follows: All right, title, interest and claim of any kind or character whatsoever of Thekla (Theckla) Gunther, and heirs, next of kin and distributees, names unknown, of Frances Suzanne Hansen, also known as Frances Herbert, deceased, and each of them, in and to the Estate of Frances Suzanne Hansen, also known as Frances Herbert, deceased,

is property payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Thekla (Theckla) Gunther, Germany (Austria).

Heirs, next of kin and distributees, names unknown, of Frances Suzanne Hansen, also known as Frances Herbert, deceased, Germany (Austria).

That such property is in the process of administration by R. G. Thompson and Margaret McCaul, as Executors, acting under the judicial supervision of the Superior Court of the State of California, in and for the County of Los Angeles;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on August 7, 1945.

[Vesting Order 5086]

CLARA HERZ

In re: Interest in real property and a claim owned by Clara Herz, also known as Klara Herz, as Clara Heart and as Clara Kleinberger.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That the last known address of Clara Herz, also known as Klara Herz, as Clara Heart and as Clara Kleinberger, is Berlin, Germany, and that she is a resident of Germany, and a national of a designated enemy country (Germany);

2. That Clara Herz, also known as Klara Herz, as Clara Heart and as Clara Kleinberger, is the owner of the property described in subparagraph 3 hereof;

3. That the property described as follows:

a. An undivided one-half interest in and to the real property situated in the City of Knoxville, Knox County, Tennessee, particularly described in Exhibit A, attached hereto and by reference made a part hereof, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property, and

b. All right, title, interest and claim of any name or nature whatsoever of Clara Herz, also known as Klara Herz, as Clara Heart and as Clara Kleinberger, in and to any and all obligations, contingent or otherwise and whether or not matured, owing to Clara Herz, also known as Klara Herz, as Clara Heart and as Clara Kleinberger, by the City of Knoxville, Tennessee, on account of overpayment of real estate taxes, and any and all security rights in and to any and all collateral for any or all such obligations and the right to enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, a designated enemy country (Germany) or national thereof;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 3-a hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and hereby vests in the Alien Property Custodian the property described in subparagraph 3-b hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on July 12, 1945.

[SEAL] FRANCIS J. MCNAMARA,
Deputy Alien Property Custodian.

[RMPR 122, Amdt. 32 to Rev. Order 47]

LOCUST COAL CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued herewith and in accordance with § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122; *It is ordered*, That Revised Order No. 47 under Revised Maximum Price Regulation No. 122 be amended in the following respect:

Paragraph (f6) is amended to read as follows:

(f6) The prices set forth in paragraphs (c) (1), (d) and (f) for the respective areas for "direct delivery" and "yard sales" may be increased for sales of Pennsylvania anthracite produced by Locust Coal Company by no more than 60 cents per net ton in the egg, stove, nut, pea and buckwheat sizes; and by no more than 40 cents per net ton in the rice size; if:

(1) The dealer keeps Pennsylvania anthracite produced by Locust Coal Company separate in storage and delivery from any other kind of solid fuels;

(2) The dealer keeps complete and accurate records of the Locust Coal Company's anthracite for such time as this paragraph (f6) is in effect. The records shall show: the date he received the coal; the name and address of the producer; the quantity in net tons of each delivery to him of such anthracite and all invoices sent to him by the producer; and

(3) The Locust Coal Company's anthracite is produced and prepared at the Weston Breaker, Shenandoah, Pennsylvania.

This amendment shall become effective August 23, 1945.

Issued this 22d day of August 1945.

RELINERS, PATCHES, AND BOOTS

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 5a (c) of Revised Maximum Price Regulation 131, it is ordered:

(a) *Applicability.* This order applies to sales of reliners, patches, and/or boots which are made from scrap materials and which are sold to jobbers, mail order houses, and chain store systems of more than 25 units, the maximum prices on which transactions were established prior to August 7, 1945, by written order under subparagraph (5) of section 5a (c) of Revised Maximum Price Regulation 131.

(b) *Maximum prices.* Maximum prices for sales of the commodity described in paragraph (a) of this order, shall be the maximum prices heretofore authorized by written order pursuant to section 5a (c) for all wholesale sales less a minimum discount of 20 percent.

(c) The maximum prices for sales of reliners, patches, and/or boots which are made from scrap material and which are sold at retail or to vulcanizers, recappers, and retailers (not including mail order houses or chain store systems of more than 25 units) are not affected by this order.

(d) *Notification of maximum prices.* With or prior to the first delivery of any repair material covered by this order to any person who purchases for resale, the seller shall furnish such buyer a notification in writing setting forth the maximum prices established for sales to jobbers, mail order houses, and chain store

systems of more than 25 units, which are the maximum prices determined pursuant to paragraph (b) (1) above, and the applicable maximum prices for other wholesale sales and for sales at retail, which are the maximum prices heretofore authorized by written order of the Office of Price Administration under section 5a (c) of Revised Maximum Price Regulation 131.

(d) All provisions of Revised Maximum Price Regulation 131 not inconsistent with this order shall apply to sales of the commodities covered by this order.

(e) This order may be revoked or amended by the Office of Price Administration at any time.

This order shall become effective as of August 13, 1945.

Issued this 22d day of August 1945.

KING-SEELEY CORP.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 493 under Revised Maximum Price Regulation 136. Machines, parts and industrial equipment. Central Specialty Division of the King-Seeley Corporation; Docket No. 6083-136.21-390.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 21 of Revised Maximum Price Regulation 136; *It is ordered:*

(a) The maximum prices for sales of power tools and accessories by the Central Specialty Division of the King-Seeley Corporation, Ypsilanti, Michigan, shall be determined as follows:

The manufacturer shall multiply by 128.4% the maximum net price he had in effect to a purchaser of the same class just prior to the issuance of this order.

(b) The maximum prices for sales of power tools and accessories by resellers shall be determined as follows: The reseller shall add to the maximum net price he had in effect to a purchaser of the same class, just prior to the issuance of this order, the amount, in dollars-and-cents, by which his net invoiced cost has been increased due to the adjustment granted the manufacturer by this order.

(c) The Central Specialty Division of the King-Seeley Corporation shall notify each person who buys power tools or accessories for resale of the dollars-and-cents amounts by which this order permits the reseller to increase his maximum net prices. A copy of each such notice shall be filed with the Machinery Branch, Office of Price Administration, Washington 25, D. C.

(d) All requests not granted herein are denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective August 23, 1945.

Issued this 22d day of August 1945.

ART METALS

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Art Metals, 212-230 Fifth Street, Bridgeport 7, Connecticut.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model	Maximum prices for sales by any seller to—		
		Wholesalers (jobbers)	Retailers	Consumers
Fruit juice squeezer, cast aluminum	3	*Each* $1.89	*Each* $2.37	*Each* $3.95

These maximum prices are for the article described in the manufacturer's application dated May 25, 1945.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. They are f. o. b. factory and are subject to a cash discount of 2% for payment within ten days, net thirty days.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

OPA Retail Ceiling Price—$3.95
Do Not Detach or Obliterate

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the seller shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchasers. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 23d day of August 1945.

Issued this 22d day of August 1945.

[MPR 188, Order 4281]

FAMOUS FLUORESCENT LIGHT CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Famous Fluorescent Light Company, 762 North Ogden Avenue, Chicago 22, Ill.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sale by the manufacturer to—		For sale by any person to consumers
		Jobbers	Retailers	
Metal fluorescent desk lamp in brown enamel. Equipped with transformer and resister to operate on AC or DC current	115	*Each* $5.52	*Each* $6.90	*Each* $11.70

These maximum prices are for the articles described in the manufacturer's application dated June 4, 1945.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. factory, 2% 10 days, net 30. The maximum price to consumers is net, delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model No. ------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobber's maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 23d day of August 1945.

Issued this 22d day of August 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

[Region VIII Order G–8 Under RMPR 122]

SOLID FUELS IN SEATTLE, WASH., AREA

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region VIII of the Office of Price Administration by §§ 1340.259 and 1340.260 of Revised Maximum Price Regulation No. 122, as amended, it is hereby ordered:

(a) *Transactions covered.* (1) This order establishes maximum prices for "wholesale sales" by dealers whose places of business are located in the "Seattle, Washington area" to dealers located anywhere of the specified kinds and types of solid fuels set forth in the schedules and tables of Revised Order No. G–2 under Revised Maximum Price Regulation No. 122, as issued and effective May 8, 1945, or as hereafter amended; and of all other solid fuels for which the seller has properly determined his maximum prices under Revised Maximum Price Regulation No. 122 and has reported such prices to the Seattle District Office of the Office of Price Administration, as required by § 1340.262 (c) thereof; *Provided*, That this order shall have no application to wholesale sales by a dealer whose entire business consists of selling solid fuels produced by a supplier under common ownership with such dealer.

(2) Except as otherwise provided herein all provisions of Revised Maximum Price Regulation No. 122 remain in full force and effect, including those sections covering Prohibited Practices, Definitions, Enforcement, and Licensing.

(3) (i) The maximum prices established herein supersede all maximum prices for the specified kinds of sales as previously established under Revised Maximum Price Regulation No. 122. Maximum prices for other kinds of sales remain subject to Revised Maximum Price Regulation No. 122 and other orders issued thereunder.

(ii) Less than maximum prices may be charged, paid, or offered.

(iii) Maximum prices established by this order reflect minimum discounts which must be given by the dealer and such minimum discounts may not be decreased to reflect increased costs of any sort.

(b) *Maximum prices.* (1) The maximum price for a wholesale sale by a dealer located in the Seattle, Washington area of a kind and type of solid fuel listed in Revised Order No. G–2 shall be the maximum price therein established for a sale of a one-ton lot delivered to the premises of the buyer, including addition for dust treatment if applicable, less the appropriate discount as set forth below:

(i) SCHEDULE I—BITUMINOUS COALS PRODUCED IN WYOMING, UTAH, MONTANA, AND WASHINGTON

Producing district	Revised Order G–2 Table No.	Sizes	Discount per ton
District 19, Wyoming	Tables I and II	Lump, stove, and egg	$3.25
District 20, Utah	Table III	Nut	3.00
District 22, Montana	Table IV	Pea, stoker, and slack	2.75
District 23, Washington	Tables V through IX, inclusive.	Lump, egg, and nut (size groups 1 through 14).	2.75
		Pea, stoker, and slack (size groups 15 through 25).	2.50

(ii) SCHEDULE II—BITUMINOUS COALS PRODUCED IN CANADA

Crow Field	Table X	Lump, furnace, and stove-pea	$3.25
Lethbridge Field	Table XI	Stoker-pea, stoker, slack, and mine run.	2.75
Drumheller Field	Table XII		

(iii) SCHEDULE III—CANADIAN COKE

B. C. Electric Co., Vancouver, B. C.	Table XIII	All	$3.25

(2) The maximum price for a wholesale sale by a dealer located in the Seattle, Washington area of any kind or type of solid fuel not listed in Revised Order G–2, except coals produced on Vancouver Island, British Columbia, and for which the seller has properly determined his maximum prices under Revised Maximum Price Regulation No. 122 and has reported such prices to the Seattle District Office, shall be his maximum price for a one-ton lot delivered to the premises of the buyer, less the appropriate one of the following discounts:

	Per ton
Lump, stove, and egg sizes	$3.25
Nut sizes	3.00
Pea, stoker, and slack sizes	2.75

(c) *Taxes.* In addition to the maximum prices established herein, the following amount may be collected, provided it is separately stated on the invoice:

(1) The amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by the dealer, or an amount equal to the amount of such tax paid by any of his prior suppliers and separately stated and collected from the dealer by the supplier from whom he purchased.

(d) *Definitions.* As used herein, the term:

(1) "Seattle, Washington area" means that area including the City of Seattle and all of the area lying within the following boundaries: On the west, Puget Sound; on the east the western shore of Lake Washington; on the north the King-Snohomish County line and State Road No. 2–b; and on the south, State Road No. 1–L and State Road No. 5.

(2) "Wholesale sales" means all sales of less-than-carload quantities of solid fuel f. o. b. seller's yard or delivered by one dealer to another dealer.

(3) "Ton" means 2,000 pounds net weight.

(e) *Records and Reports.* Each dealer shall maintain the records required by § 1340.262 (a) and (b) of Revised Maximum Price Regulation No. 122, except that the dollars-and-cents maximum prices established by this Order G–8 need not be reported pursuant to paragraph (c) of said section.

(f) *Posting of maximum prices, sales slips, and receipts.* (1) Every dealer of solid fuels shall post at his place of business in a manner plainly visible to and understandable by the purchasing public, all of the maximum prices established herein which are applicable to his sales, and shall keep a copy of this order available for examination by any person during ordinary business hours.

(2) Every dealer subject to this order shall, either at the time of, or within thirty days after the date of a sale or delivery governed by this order, give to his purchaser an invoice, sales slip, or receipt, and shall keep an exact copy thereof for so long as this order is in effect or for so long as the Emergency Price Control Act of 1942, as amended, shall permit, whichever period is longer, showing the following information:

The name and address of the seller and the purchaser; the kind, size, and quantity of solid fuels sold, the date of the sale or delivery, and the price charged.

(g) *Petitions for amendment.* Any person seeking an amendment of any provisions of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be addressed to and filed with the Regional Administrator of the Eighth Regional Office of the Office of Price Administration, San Francisco 3, California.

(h) This order may be revoked, amended, or corrected at any time.

This order becomes effective July 8, 1945.

Issued this 30th day of June 1945.

CHAS. R. BAIRD,
Regional Administrator.

TITLE 7—AGRICULTURE

Chapter XI—War Food Distribution Orders

[WFO 42, Amdt. 18]

PART 1460—FATS AND OILS

EMERGENCY QUOTAS

War Food Order No. 42, as amended (9 F.R. 12075; 10 F.R. 2679, 3315, 5060, 7961, 8685), is further amended by adding immediately after paragraph (b) (3) the following new paragraphs:

(4) In addition to the quota established under paragraph (b) (1) hereof, any manufacturer may, during the calendar quarter July 1 to September 30, 1945, use fats and oils in the manufacture of edible fat or oil products other than margarine in an amount not exceeding 2 percent of the average amount of fats and oils used in such class of products during the corresponding calendar quarters of the base period. Such additional usage shall constitute an emergency quota and may be used only under the following conditions:

(i) Any manufacturer who has facilities for the manufacture of shortening shall use such emergency quota only for the manufacture of shortening which shall be packaged in containers of not over 4 pounds;

(ii) Any manufacturer who does not have facilities for the manufacture of shortening may use such emergency quota for the manufacture of liquid oil which shall be packaged in containers of not over one gallon;

(iii) Shortening or liquid oil produced as a result of such emergency quota shall be distributed, during the calendar quarter July 1 to September 30, 1945, in those areas designated as "emergency areas" by the Office of Price Administration, Washington, D. C.;

(iv) Normal or usual deliveries, into such "emergency areas", of shortening or liquid oil chargeable to regular quota usage under paragraph (b) (1) hereof shall not be reduced;

(v) Such emergency quota shall not be considered as part of the regular quota established under paragraph (b) (1) hereof, and any unused portion of such emergency quota shall not be carried over to the fourth calendar quarter of 1945.

The delivery of shortening or liquid oil by any manufacturer in violation of any condition set forth in this paragraph shall be charged against the regular quota established under paragraph (b) (1) hereof.

This order shall become effective at 12:01 a. m., e. w. t., July 1, 1945. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 42, as amended, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

(E.O. 9280, 7 F.R. 10179; E.O. 9577, 10 F.R. 8087)

Issued this 21st day of August 1945.

PART 803—GENERAL ORDERS

ADJUSTMENTS IN WAGE RATES OF INDIVIDUAL EMPLOYEES

The National War Labor Board hereby amends the first paragraph of General Order No. 5 to read as follows:

§ 803.5 *Adjustments in wage rates of individual employees.* Wage adjustments may be made in wage rates of individual employees without approval of the National War Labor Board, if they are incident to the application of the terms of a wage agreement, or incident to an established wage rate schedule covering the work assignments of employees and are made as a result of:

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

PART 803—GENERAL ORDERS

APPROVAL OF INCREASES IN COMPLIANCE WITH FAIR LABOR STANDARDS ACT

The National War Labor Board hereby amends General Order No. 7 to read as follows:

§ 803.7 *Approval of increases in compliance with Fair Labor Standards Act.* Since Title VI, section 1 of Executive Order No. 9250, dated October 3, 1942 states that "nothing in this order shall be construed as affecting the present operation of the Fair Labor Standards Act," and since statutes and orders of the duly constituted authorities of the several states fixing minimum rates for certain types of workers carry out the true purposes and intent of the Fair Labor Standards Act and are designed and intended to eliminate substandards of living within the meaning of section 2 of Title II of Executive Order No. 9250, the National War Labor Board hereby approves increases in wage and salary rates made in compliance with such statutes and orders: *Provided, however,* That if any changes in such statutes and orders are made or promulgated after April 8, 1943, increases directed thereby which would result in a wage or salary rate in excess of the rate which the War Labor Board establishes as a minimum wage rate by § 803.30, may not be made without the approval of the Board except as provided in § 803.40.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E. O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

PART 803—GENERAL ORDERS

JURISDICTION OF BOARD OVER CERTAIN SALARIES

The National War Labor Board hereby amends the first paragraph of Title III of General Order No. 9 to read as follows:

§ 803.9 *Jurisdiction of Board over salaries not in excess of $5,000 per annum.* Salary adjustments may be made in salary rates of individual employees over which the Board has jurisdiction without approval of the Board, if they are incident to the application of the terms of a salary agreement or incident to an established salary rate schedule and are made as a result of:

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

PART 803—GENERAL ORDERS

BONUS PAYMENTS NOT SUBJECT TO APPROVAL BY BOARD

The National War Labor Board hereby amends General Order No. 10 to read as follows:

§ 803.10 *Bonus payments not subject to approval by Board.* The payment to employees, whose wage or salary adjustments are subject to the jurisdiction of the National War Labor Board, of a bonus or gift may be made without the approval of the National War Labor Board, *Provided,* That such payments will not be used in whole or in part as the basis for seeking an increase in price ceilings or for resisting otherwise justifiable reductions in price ceilings, or, in the case of products or services being furnished under contract with a Federal procurement agency, will not increase the cost to the United States.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

PART 803—GENERAL ORDERS

BONUS PAYMENTS TO EMPLOYEES ENTERING ARMED FORCES

The National War Labor Board hereby amends General Order No. 10-A to read as follows:

§ 803.10a *Bonus payments to employees entering armed forces.* A bonus payment made by an employer to an employee severing his employment for the immediate purpose of entering the armed forces of the United States does not require the approval of the National War Labor Board: *Provided,* That such payments will not be used in whole or in part as the basis for seeking an increase in price ceilings or for resisting otherwise justifiable reductions in price ceilings, or, in the case of products or services being furnished under contract with a Federal procurement agency, will not increase the cost to the United States.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

PART 803—GENERAL ORDERS

ADJUSTMENTS EQUALIZING WAGES OF MALES AND FEMALES; APPROVAL NOT REQUIRED

The National War Labor Board hereby amends General Order No. 16 to read as follows:

§ 803.16 *Adjustments equalizing wages of males and females; approval not required.* Increases which equalize the wage or salary rates paid to females with the rates paid to males for comparable quality and quantity of work on the same or similar operations, and increases in accordance with this policy which recognize or are based on differences in quality or quantity of work performed, may be made without approval of the National War Labor Board: *Provided,* That such increases will not be used in whole or in part as the basis for seeking an increase in price ceilings, or for resisting otherwise justifiable reductions in price ceilings, or, in the case of products or services being furnished under contract with a Federal procurement agency, will not increase the cost to the United States.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

PART 803—GENERAL ORDERS

ESCALATOR CLAUSE

The National War Labor Board hereby repeals the General Order No. 22 adopted December 8, 1942, and substitutes the following General Order No. 22 to read as follows:

§ 803.22 *Escalator clause.* No clause contained in any labor agreement, commonly known as an "escalator clause", relating to wages or salaries subject to the jurisdiction of the National War Labor Board, regardless of when the agreement was made, which provides for an increase in wage or salary rates, shall be enforced without the approval of the National War Labor Board if such increase will be used, in whole or in part, as the basis for seeking an increase in price ceilings or for resisting otherwise justifiable reductions in price ceilings, or, in the case of products or services being furnished under contract with a Federal procurement agency, will increase the cost to the United States.

(Act of Oct. 2, 1942, C. 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

PART 803—GENERAL ORDERS

TERRITORIAL WAR LABOR BOARD FOR HAWAII

The National War Labor Board hereby amends section (a) (4) of General Order No. 36 to read as follows:

§ 803.36 *Territorial War Labor Board for Hawaii.* (a) • • •

(4) In acting hereunder on wage or salary adjustments, the Territorial War Labor Board for Hawaii shall comply with the terms of Executive Order 9250, dated October 3, 1942, Executive Order 9328, dated April 8, 1943, the Supplementary Directive of May 12, 1943, Executive Order 9599 of August 18, 1945, and all other Executive orders and regulations issued thereunder. The Territorial War Labor Board may make such recommendations as to appropriate policies to govern wage and salary adjustments as are adopted to the special circumstances obtaining in the Territory. Such recommendations shall be consistent with the act of October 2, 1942. They shall be submitted for consideration of the National War Labor Board which will transmit to the Director of Economic Stabilization those recommendations deemed by it advisable and necessary.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

PART 803—GENERAL ORDERS

AUTHORIZATION TO WAR DEPARTMENT TO PASS ON WAGE AND SALARY ADJUSTMENTS OF CIVILIAN EMPLOYEES IN HAWAII

The National War Labor Board hereby amends the first paragraph of General Order No. 37 to read as follows:

§ 803.37 *Authorization to the War Department to pass on wage and salary adjustments of civilian employees in Hawaii.* The National War Labor Board hereby supplements General Order No. 36 by delegating to the Secretary of War, or to such agency as he may designate, subject to final review by the National War Labor Board, the authority to establish wage or salary schedules for civilian employees of the War Department in the various government-owned, government-operated installations located in the Territory of Hawaii, in accordance with the provisions of the act of Congress of October 2, 1942, Executive Order 9250 dated October 3, 1942, Executive Order 9328 dated April 8, 1943, the Supplementary Directive of May 12, 1943, Executive Order 9599 of August 18, 1945 and all other Executive orders and regulations issued thereunder, subject to the following limitations:

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

PART 803—GENERAL ORDERS

WAGE INCREASES NOT INVOLVING PRICE CEILINGS OR PRODUCTION COSTS

The National War Labor Board has adopted the following general order:

§ 803.40 *Wage increases not involving price ceilings or production costs.* (a) Employers may, through collective bargaining with duly certified or recognized representatives of the employees involved, or, if there is no such representative, by voluntary action, make wage or salary increases without the necessity of obtaining approval therefor, upon the condition that such increases will not be used in whole or in part as the basis for seeking an increase in price ceilings or for resisting otherwise justifiable reductions in price ceilings, or, in the case of products or services being furnished under contract with a Federal procurement agency, will not increase the cost to the United States.

(b) The provisions of paragraph (a) above shall be effective as of August 18, 1945, but this shall not preclude the selection by the party or parties of any earlier date as the effective date of the wage or salary increase. The provisions of this general order shall not, however, operate as an approval of any wage or salary increase put into effect before August 18, 1945, and prior to receipt of any approval required by the Stabilization Act of October 2, 1942, or the orders or regulations issued thereunder.

(c) Wage or salary increases referred to in paragraph (a) above may be made notwithstanding any previous denial or modification of an application for approval thereof by the National War Labor Board or its agencies.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871, as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

PART 803—GENERAL ORDERS

WAGE PROCEDURES FOR BUILDING AND CONSTRUCTION INDUSTRY

The National War Labor Board has adopted the following general order:

§ 803.41 *Wage procedures for building and construction industry.* The provisions of General Order No. 41 shall not apply to employers and employees in the building and construction industry who are subject to the jurisdiction of the Wage Adjustment Board as provided for in General Order No. 13.

Applications for the increase or decrease of wage rates in the building and construction industry, whether resulting from collective bargaining or otherwise, shall continue to be submitted to the Wage Adjustment Board for approval, as heretofore required, regardless of whether any increase will be used in whole or in part as a basis for seeking an increase in price ceilings or for resisting otherwise justifiable reductions in price ceilings or for increasing the costs to the United States.

The Wage Adjustment Board for the building and construction industry, in addition to authority vested in it by General Order No. 13, is authorized pursuant to Executive Order 9599 to approve such increase as may be necessary to correct maladjustments or inequities which would interfere with the effective transition to a peacetime economy.

This general order shall be effective as of August 18, 1945 and shall remain in effect for a period of 90 days thereafter or until further notice.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765 Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted by Board Aug. 22, 1945.

Chapter IX—Agriculture Department (Agricultural Labor)

[Supp. 69]

PART 1102—SALARIES AND WAGES OF AGRICULTURAL LABOR IN THE STATE OF CALIFORNIA

WORKERS ENGAGED IN PICKING PRUNES IN SANTA CLARA AND SAN BENITO COUNTIES, STATE OF CALIFORNIA.

§ 1102.28 *Workers engaged in picking of prunes in Santa Clara and San Benito Counties, State of California.* Pursuant to 4001.7 of the regulations of the Economic Stabilization Director relating to salaries and wages issued August 28, 1943, as amended (8 F.R. 11960, 12139, 16702; 9 F.R. 6035, 14547; 10 F.R. 9478, 9628) and to the regulations of the War Food Administrator issued March 23, 1945 (10 F.R. 3177) entitled "Specific Wage Ceiling Regulations" and based upon a certification of the California USDA Wage Board that a majority of the producers of prunes in the area affected participating in hearings conducted for such purposes have requested the intervention of the Secretary of Agriculture, and based upon relevant facts submitted by the California USDA Wage Board and obtained from other sources, it is hereby determined that:

(a) *Areas, crops and classes of workers.* Persons engaged in picking of prunes in Santa Clara and San Benito Counties, State of California, are agricultural labor as defined in § 4001.1 (1) of the regulations of the Economic Stabilization Director issued on August 28, 1943, as amended (8 F.R. 11960, 12139, 16702; 9 F.R. 6035, 14547; 10 F.R. 9478, 9628).

(b) *Definitions.* When used in this section:

(1) The term "picking" means picking prunes from the ground including the shaking of the prune trees.

(2) The term "Area I" means all that area in Santa Clara County north of the town of Coyote.

(3) The term "Area II" means all that area in Santa Clara County south of the town of Coyote and all of San Benito County.

(c) *Maximum wage rates for picking prunes.* (1) For picking prunes in Area I—$10 per ton.

(2) For picking prunes in Area II—$9 per ton.

(d) *Administration.* The California USDA Wage Board, located at 2181 Bancroft Way, Berkeley 4, California, will have charge of the administration of this section in accordance with the provisions of the specific wage ceiling regulations issued by the War Food Administrator on March 23, 1945 (10 F.R. 3177).

(e) *Applicability of specific wage ceiling regulations.* This section shall be deemed to be a part of the specific wage ceiling regulations issued by the War Food Administrator on March 23, 1945 (10 F.R. 3177) and the provisions of such regulations shall be applicable to this section and any violation of this section shall constitute a violation of such specific wage ceiling regulations.

Effective date. This section shall become effective at 12:01 a. m., Pacific war time, August 25, 1945.

Shipments of any of the above commodities removed from general license or whose GLV dollar value limits have been reduced, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to an actual order for export prior to the effective date of this amendment may be exported under the previous general license provisions. Shipments of such commodities moving to a vessel subsequent to the effective date of this amendment pursuant to Office of Defense Transportation permits issued prior to such date may also be exported under the previous general license provisions. Shipments of any of the above commodities whose G–Post dollar value limits have been reduced and which were mailed prior to the effective date of this amendment may also be exported under the G–Post general license provisions previously in effect.

This amendment shall become effective immediately upon publication except that with respect to commodities removed from general license or whose GLV or G–Post dollar value limits have been reduced, it shall become effective on August 30, 1945.

PART 809—BLANKET LICENSE "BLT"

Part 809 *Blanket License "BLT"* is hereby amended to read as follows:

Sec.
809.1 Definitions.
809.2 General provisions.
809.3 Clearance for export.
809.4 Records.

AUTHORITY: §§ 809.1 to 809.4, inclusive, issued under sec. 6, 54 Stat. 714; Pub. Law 75, 77th Cong.; Pub. Law 633, 77th Cong.; Pub. Law 397, 78th Cong.; Pub. Law 99, 79th Cong.; E.O. 8900, 6 F.R. 4795; E.O. 9361, 8 F.R. 9861; Order No. 1, 8 F.R. 9938; E.O. 9380, 8 F.R. 13081; Delegation of Authority No. 20, 8 F.R. 16235; Delegation of Authority No. 21, 8 F.R. 16320.

§ 809.1 *Definitions.* When used in this part:

(a) "Blanket license" shall mean a document issued by the Foreign Economic Administration authorizing the exportation by the licensee of the commodities described in such document to two or more consignees or purchasers in a single country.

§ 809.2 *General provisions.* (a) Applications for blanket licenses shall be made on the form or forms and in the manner and only for such commodities prescribed by the Foreign Economic Administration.

(b) When an application for blanket license is submitted, permission to export to one or more of the consignees and purchasers named may be refused by blocking out the name of the consignee and purchaser with respect to whom the application has been denied. In such case the license shall be valid only for shipments to the remaining approved consignees and purchasers.

(c) When duly validated or approved by the Foreign Economic Administration, a blanket license authorizes the exportation to any of the consignees and purchasers named therein, or in a list attached and made a part thereof, the commodity or commodities therein described, provided that the aggregate quantity of all exports under such license to the consignees and purchasers named therein, or in a list made a part thereof, does not exceed the total quantity for which the license has been granted. Such exportation shall be permitted notwithstanding any conflicting provisions in the terms, conditions or provisions of the form on which the application for a blanket license has been made. In any case where an Import Recommendation issued by a designated government agency of the country of destination is required as a condition to the issuance of an export license for a particular commodity to a designated consignee, such commodity may not be exported to such consignee under a blanket license in quantities in excess of the amount approved for such consignee in said Import Recommendation.

(d) Insofar as consistent with the provisions of this part, all of the provisions of Part 804 of this subchapter shall apply equally to applications filed for blanket licenses and blanket licenses issued under the provisions of this Part.

(e) In determining whether any commodity is included within the blanket license procedure, the description of the commodity and not the applicable Schedule B number shall govern.

(f) The blanket license procedure shall apply only to exportations to destinations in general license country Group V or country Group K, as set forth in § 832.3 (a) of this subchapter.

§ 809.3 *Clearance for export.* (a) The provisions of § 801.7 of this subchapter requiring the presentation of an original license or other document when presenting commodities for export, shall not apply to shipments authorized for export pursuant to a blanket license, except that exportation of the following commodities may be cleared for exportation only upon presentation to collectors of customs and postmasters of the original blanket license:

Commodity and Schedule B No.
Cotton semimanufactures and cotton manufactures: 301110 thru 301500, 301600, 301800

302300 thru 312900, 314000, 316000, 317100 thru 318100, 318700 thru 318900.
Wool and manufactures: 360903 thru 368998.
Rayon, nylon and other synthetic textiles: 383007, 384008 thru 384015, 384200 thru 385770.
All commodities classified under the processing code "FOOD" in the current issue of the Comprehensive Export Schedule issued by the Foreign Economic Administration.

(b) In lieu of the presentation of an original blanket license for clearance of the exportation with the United States Collector of Customs or the United States Postmaster, except for commodities listed in paragraph (a) of this section, the exporter may present a Shipper's Export Declaration bearing the following certification:

The undersigned certifies that the commodities described herein are being exported under the provisions of BLT (Blanket) License No. ——— approved by FEA ——— (date of validation).

———
(Signed)

(c) A person exporting any commodity pursuant to a blanket license shall enter the symbol "BLT" and the number of the license on each Shipper's Export Declaration filed with the United States Collector of Customs at the port of exit or with the United States Postmaster at the place of mailing at the time of each exportation under each license.

§ 809.4 *Records.* When clearance of a shipment, other than one containing any of the commodities listed in 809.3 (a), has been made in accordance with the provisions of § 809.3 (b), the holder of the license authorizing such shipment shall endorse on the back of the license in the space reserved for entries by Collectors of Customs and Postmasters the following information:

1. Quantity ———
2. Description ———
3. Value ———
4. Consignee (this shall be placed in the space labeled "name of vessel if export is made by water").
5. Port of exit or post office of mailing.
6. Date (this date shall be the date of filing of the Shipper's Export Declaration).
7. Initials of the endorsing official.

Such license shall be held available for inspection at any time by the Foreign Economic Administration. Upon completion of shipment against such blanket license, or upon the expiration of the validity of the license, such license with the endorsements thereon as provided in this paragraph and with attachments, if any, shall be returned to the Foreign Economic Administration.

This amendment shall become effective immediately upon publication.

Dated: August 18, 1945.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[PR 3, Interpretation 12, as Amended Aug. 24, 1945]

RECORDS OF EXPORTERS

The following amended interpretation is issued with respect to Priorities Regulation 3:

Paragraph (g) (5) of Priorities Regulation No. 3 requires each person who applies or extends a rating to keep all documents including preference rating orders and certificates which authorize him to apply or extend the rating at his regular place of business. The Foreign Economic Administration and its predecessors, the Board of Economic Warfare and the Office of Economic Warfare, have assigned preference ratings to exporters for export by endorsing appropriate legends upon export licenses. The original of every export license, however, is required by other government regulations to be surrendered to export officials at the time of shipment. Consequently, persons who receive their assignments of preference ratings on export licenses are not in a position to retain the original of the export license and thus are not required to do so by paragraph (g) (5) except only in those cases where other government regulations do not require the surrender to the government of the documents referred to. However, such persons must keep any copies of the export licenses which are returned to them for their files.

Issued the 24th day of August 1945.

[Priorities Reg. 25, Revocation]

SPOT AUTHORIZATIONS FOR PRODUCTION

Section 944.46 *Priorities Regulation 25* is hereby revoked. This revocation does not affect any liabilities incurred for violation of the regulation or of actions taken by the War Production Board under the regulation. All production restrictions in orders listed in Direction 1 to Priorities Regulation 25 have been revoked. Any person may produce products formerly subject to this regulation without restriction in amount.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 31, Amdt. 3]

BLANKET REVOCATION OF CERTAIN WPB ORDERS

Section 944.52, Priorities Regulation 31, is amended in the following respects:

1. By changing the effective date of revocation of § 3293.1067, Schedule 67 to M–300 (Phthalic Anhydride) from September 30, 1945, to August 31, 1945.

2. By changing the effective date of revocation of § 3293.1088, Schedule 88 to M–300 (Bismuth Chemicals) from September 30, 1945 to August 31, 1945.

3. By adding to the list of orders revoked the following orders:

LIST OF ORDERS REVOKED AND EFFECTIVE DATE OF REVOCATION

CHEMICALS

Section 3293.1038 Sch. 8 to M–300 Hide Glue, Extracted Bone Glue and Green Bone Glue, August 31, 1945.

PART 3133—PRINTING AND PUBLISHING

[Limitation Order L-240, Direction 3, as amended, August 24, 1945]

NEWSPAPERS: EXCEPTION TO DEFINITION OF "INVENTORY"

Section 3133.6 *General Limitation Order L-240, Direction No. 3* is hereby amended to read as follows:

The term "inventory" does not include print paper in transit which is shipped via the single track railroad line between Chemault and Klamath Falls, Oregon, to publishers of newspapers in California, Oregon, Nevada, and Texas who customarily receive print paper from mills in Oregon, Washington, and British Columbia.

Issued this 24th day of August 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule E as Amended Aug. 24, 1945]

SPECIAL PROGRAMS FOR KNITTED FABRICS FOR CIVILIAN ITEMS

§ 3290.120e *Schedule E to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in Order M-328B for manufacturers of civilian knitted items manufactured from or incorporating knitted fabric to get an AA-3 preference rating for knitted fabric to make the items listed in this schedule.

(b) *Definitions.* For the purpose of this schedule:

(1) "Knitted fabric" means a fabric produced by a machine knitting process.

(2) "Woolen knitted fabric" means any knitted fabric incorporating 25% or more by weight of new, reprocessed or reused wool fiber, the wool content yarns of which are spun on the woolen system.

(c) *Special requirements for obtaining priorities assistance.* (1) Four copies of Form WPB-3732 (revised) should be filed in accordance with the rules stated in paragraph (c) of Order M-328B.

(2) A base period manufacturer who files form WPB-3732 (revised) for the third calendar quarter of 1945 by July 21, 1945, may, as soon as he files his application, apply an AA-3 rating for the purchase of knitted fabric for delivery in that quarter for incorporation into the items for which application is made. He may do so only for an item he made in the base period and only for 20% of the yardage of knitted fabric applied for with respect to any item. Knitted fabric purchased under this provision shall be deducted by the manufacturer from the total quantity for which priorities assistance is ultimately granted on Form WPB-3732 (revised). If the applicant does not ultimately receive a grant of the entire quantity thus rated, he shall, upon notification of his grant by the War Production Board, immediately cancel orders for any undelivered quantities which are in excess of his grant.

(3) In making application on Form WPB-3732 (revised), each base period manufacturer must apply with respect to each item for which application is made, as follows:

(i) He must apply for fabric for each price of the item at which he produced it in the base period, unless the facilities utilized for the production of the item at a particular price in the base period are devoted to production on orders received from Government Procurement Agencies or have been sold or otherwise disposed of. When such facilities are no longer available, the applicant must explain it in the "Remarks" section of Form WPB-3732 (revised).

(ii) The quantity of an item for which application is made at each price shall be in the same proportion to the total quantity of the item applied for as the quantity produced at each similar price in the base period was to his total production of the item in the base period. For example, if an applicant made in the base period 300 dozen girls' coats, of which 100 dozen (or ⅓) were priced at $10.50 each, 100 dozen (or ⅓) at $12.75 each, and 100 dozen (or ⅓) at $15.75 each, and he wishes to apply for girls' coats under this Program, ⅓ of whatever total quantity he applies for must be at each of these base period prices. To base period prices may be added any increase subsequently granted by the Office of Price Administration.

(iii) The whole or any part of an application for an item may be shifted from a higher to a lower price than required under the above rule, but not from a lower to a higher price, unless the weighted average price of the total number of units applied for is at or below the weighted average price of the total number of units of that item delivered in the base period.

(iv) In reporting production by price on Form WPB-3732 (revised), items sold as seconds or as close-outs shall be reported under the prices it was intended they would be sold when produced.

(v) Items in this schedule not included in the category of Office of Price Administration Supplementary Order 108 are exempt from the provisions of this paragraph (c) (3).

(4) Persons applying for priorities assistance on Form WPB-3732 (revised) under this schedule may apply on Form WPB-2842 for cotton fabrics needed for incorporation into linings, facings, stays, tapes and sewing thread, and on Form WPB-541 for rayon and wool components of the items listed in this schedule. The applications should be filed with the Textile, Clothing and Leather Bureau, War Production Board, Washington 25, D. C. Applications may not be for any quantity greater than the amounts required to be incorporated into the quantity of items for which priorities assistance is requested.

(5) Manufacturers who did not produce in the base period the items applied for on Form WPB-3732 (revised) may not use any preference ratings under this schedule until the War Production Board has assigned them a quota on that form.

(d) *General Provisions.* (1) The rating assigned under this schedule may be used only to get the particular knitted fabrics shown in the knitted fabric column of the preference rating schedule to make the item specified. In addition the producer of the knitted fabric may extend the rating for the purchase of the quantities of yarn required to be incorporated into the knitted fabric sold by him on rated orders authorized by this schedule. Such ratings shall be extended as provided in Priorities Regulation 3 and Order M-328.

(2) A person other than a base period manufacturer must show, in the "Remarks" section of Form WPB-3732 (revised) for each size range of each item for which application is made, the size assortments per dozen which he proposes to produce. If his application is granted, he shall produce the item in the assortment of sizes stated on his application unless the War Production Board specifies a different assortment.

(3) No manufacturer shall purchase or accept delivery of knitted fabric to make any item for which a rating for that fabric is assigned to him under this schedule, unless he uses that rating. The provisions of this paragraph do not apply to purchases for direct or ultimate delivery to or for incorporation into any product for ultimate delivery to the United States Army or Navy, the Maritime Commission or the War Shipping Administration.

(e) *This schedule expires September 30, 1945.* Schedule E to Order M-328B shall expire on September 30, 1945, as it has been superseded for the fourth quarter of 1945 by Schedule K to Order M-328B. Any person who has filed an application on Form WPB-3732 under Schedule E for that quarter should refile again under Schedule K in accordance with the instructions for filing Form WPB-3732 under that schedule.

Issued this 24th day of August 1945.

PART 3292—AUTOMOTIVE VEHICLES, PARTS AND EQUIPMENT

[General Limitation Order L-2-g, as Amended Aug. 24, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials entering into the production of passenger automobiles for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3292.36 *General Limitation Order L-2-g*—(a) *Definitions.* As used in this order.

(1) "Automobile" means any self-propelled vehicle designed for the purpose of carrying passengers, or the chassis therefor, with a seating capacity of not more than ten. The term "automobile" includes station wagons, taxicabs, ambulances and hearses.

(2) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(3) "Producer" means any person regularly established in the business of manufacturing automobiles.

NOTE: Paragraphs (b), (c), (d), (e) and (f), formerly (e) (1), (g), (h), (i) and (j), redesignated Aug. 24, 1945.

(b) *Prohibition on spare tires for new automobiles.* No producer shall equip any automobile with more than four new tires, nor shall any producer or any other person sell, ship or deliver any automobile equipped with more than four new tires.

(c) *Applicability of War Production Board regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(d) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(e) *Reports.* Producers shall file such reports as may be required from time to time by the War Production Board.

(f) *Communications.* All reports required to be filed under this order, and all communications concerning this order, shall, unless otherwise directed, be addressed to: Automotive Division, War Production Board, Washington 25, D. C., Ref: Order L-2-g.

(g) *Duration of this order.* This order, L-2-g as amended will remain in effect until the Office of Price Administration amends Ration Order 1-A, to control the equipment of new automobiles with spare tires, at which time a revocation of this order will be issued.

Issued this 24th day of August 1945.

PART 3294—IRON AND STEEL PRODUCTION

[General Preference Order M-21, as Amended Aug. 24, 1945]

IRON AND STEEL INCLUDING FERRO ALLOYS AND ASSOCIATED MATERIALS

§ 3294.71 *General Preference Order M-21*—(a) *Purpose and scope.* This is the basic order covering the production and distribution of steel and iron products (including alloy iron and alloy steel) listed in the attached Schedule I, pig iron, iron and steel scrap, ferro-alloys and metallic and non-metallic materials (including coke) used in the metallurgy of iron and steel, and non-ferrous products of the elements listed in the attached Schedule II. Schedule II lists the metallic and non-metallic elements, the ores and chemical compounds thereof, including scrap and secondary materials, and the ferro-alloys which are covered by this order.

(b) *Definitions.* For the purpose of this order: (1) "Steel" means carbon steel (including wrought iron), and alloy steel in the forms and shapes listed in Schedule I of this order. The term includes material sorted or salvaged from steel scrap and sold for other than remelting purposes except those uses specified in the definition of scrap. The term also includes all types of rejected or second-quality material and shearings, except:

(i) When sold as scrap for remelting; or,

(ii) When sold as scrap to a scrap dealer for sorting, processing, or, salvaging, or for resale for remelting or other permitted uses of scrap.

(2) "Alloy steel" means any steel (including stainless steel) containing any one or more of the following elements in the following amounts:

Manganese, maximum of range in excess of 1.65%

Silicon, maximum of range in excess of 0.60%

Copper, maximum of range in excess of 0.60%

Aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten, vanadium, zirconium, or any other alloying elements in any amount specified or known to have been added to obtain a desired alloying effect.

(3) "Alloy iron" means any iron containing any one or more of the following elements in the following amounts:

Manganese, maximum of range in excess of 1.65%
Silicon, maximum of range in excess of 5.00%
Copper, maximum of range in excess of 0.60%
Aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten, vanadium, zirconium, or any other alloying element in any amount specified or known to have been added to obtain a desired alloying effect.

(4) "Stainless steel" means heat and corrosion resisting steel containing 4% or more of chromium either with or without nickel, molybdenum, or other elements.

(5) "Iron products" means all gray and malleable iron castings (rough as cast) except pipe and pipe fittings.

The material terms defined above do not include material which has been in use or service.

(6) "Pig iron" means iron produced by smelting iron ore in a blast furnace, and containing less than 6% of silicon.

(7) "Ferro alloys" means the metallic elements, their ores and the chemical compounds thereof, usually introduced into the melt of iron and steel for the purpose of obtaining definite properties. The term includes the elements, the ores, and the chemical compounds listed in Schedule II of this order.

(8) "Scrap" means all ferrous materials, either alloyed or unalloyed, of which iron or steel is a principal component, which are the waste of industrial fabrication or objects that have been discarded on account of obsolescence, failure or other reasons, and which are not otherwise defined in this order. The principal use of scrap is remelting. Scrap obtained from used materials may be utilized for remelting, rerolling or forging. Scrap may also be used for copper precipitation, lead burning, gas cleaning, or other chemical processes. Any material which has not been in use or service and which is salvaged from sorting or processing shall not be considered scrap if sold or used for other than the above mentioned purposes. "Alloy scrap" means scrap generated from or composed of any of the alloy irons or alloy steels defined in paragraphs (b) (2), (b) (3), and (b) (4).

"Producer" (in the case of iron and steel scrap) means any person who produces scrap in the conduct of a business or other enterprise.

"Dealer" and/or "broker" (in the case of iron and steel scrap) means any person who, as principal or as agent, buys and sells scrap in the regular course of his business.

"Consumer" (in the case of iron and steel scrap) means any person who melts or uses scrap for any of the purposes mentioned above in this paragraph (b).

(9) "Producer" (in the case of iron or steel) means any person who produces iron products or steel as defined herein.

(10) "Distributor" means any person (including a warehouse, jobber, dealer, retailer, or scrap dealer) who is engaged in the business of receiving steel into one or more warehouse stocks regularly maintained by him for sale or resale in the form received, or after performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, pipe threading, or corrugating or otherwise forming sheets for roofing and siding; but a person who, in connection with any sale, bends, punches or performs any fabricating operation designed to prepare steel for final use or assembly, shall not be deemed a distributor with respect to such sale.

(11) "Delivery" includes deliveries received on consignment.

(c) [Deleted Aug. 24, 1945.]

(d) *Special provisions pertaining to iron and steel scrap.* Delivery of scrap to, or acceptance of such delivery by a consumer is hereby authorized without regard to the restrictions set forth in Section 944.14 of Priorities Regulation No. 1.

(e) *Appeals.* Any appeals from this order must be made by letter referring to the particular provisions appealed from and stating fully the grounds for the appeal. In emergency cases, appeals may be made by telegraph.

(f) *Special directions.* (1) The War Production Board may from time to time issue directions to any person or persons as to the type, description, amount, source, or destination of steel, alloy iron, or iron products, coke, pig iron, or scrap (including segregation of scrap) to be produced, processed, delivered, distributed, or acquired by such person or persons.

(2) The War Production Board may from time to time issue directions as to facilities and materials to be used in production, and as to any alloying element, issue directions specifying the quantities and proportions which may be used in alloy iron and alloy steel (including stainless steel), and whether and in what proportion any such element is to be an ore, a metal, a ferro-alloy, reclaimed metal, scrap, a chemical compound, or any other material containing such element.

(3) The War Production Board may make such changes in any melting schedule as it may deem appropriate, and may from time to time issue supplementary directions with regard to melting of alloy iron or alloy steel (including stainless steel).

(4) The War Production Board may from time to time issue directions to any person or persons as to the type, description, amount, source, or destination of any of the items listed in Schedule II, to be produced, processed, delivered, distributed, or acquired by such person or persons.

(g) *Reports.* All persons covered by this order shall file with the War Production Board, Washington, D. C., Reference: M-21, reports at such times and on such forms as may from time to time be prescribed, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(h) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priorities control and may be deprived of priorities assistance.

(i) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to Steel Division, War Production Board, Washington 25, D. C., Reference: M-21.

Issued this 24th day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE I

Steel:
Bars, Cold-Finished.
Bars, Hot-Rolled or Forged.
Ingots, Billets, Blooms, Slabs, Die Blocks, Tube Rounds, Sheet Bars, Tin Bar, and Skelp.
Pipe, including Threaded Couplings of the type normally supplied for Threaded Pipe.
Plates, all Plates (including Rolled Armored Plate in the form and shape to which it is rolled by the Steel Mill and prior to any subsequent fabrication), and including Nickel Clad and Stainless Clad.
Rail and Track Accessories.
Sheet and Strip.
Steel Castings (rough as cast).
Steel Forgings (rough as forged).
Structural Shapes and Piling.
Tinplate, Terneplate, and Tin Mill Black Plate.
Tubing.
Wheels, Tires, and Axles.
Wire Rods, Wire and Wire Products.
Iron products:
Gray Iron Castings (rough as cast).
Malleable Iron Castings (rough as cast).

SCHEDULE II—ALLOYING ELEMENTS AND COMPOUNDS THEREOF, FERRO-ALLOYS AND NON-FERROUS METAL ALLOYS

Chromium—In any of the following forms:
Chemical combinations containing chromium as an essential and recognizable component.
Chrome briquettes.
Chromium in combination with other elements in semi-manufactured or manufactured form, commercially suitable for use in the manufacture of steel or for other metallurgical purposes.
Chromium in elemental form.
Chromium ores and concentrates.
Chromium refractory materials.
Chromium refractories.
Chromium scrap and secondary material.
Chrom-X.
Ferro-Chromium.
Cobalt—In any of the following forms:
Belgian Congo Crudes.
Cobalt Alloys.
Cobalt concentrates.
Cobalt, metal.
Cobalt oxide, commercial.
Cobalt salts.
Cobalt scrap and secondary material.
Ferro-Cobalt.
Ferro-Alloys—Not included in other groups listed herein:
Ferro-boron.
Ferro-carbo.
Ferro-carbon-titanium.
Ferro-columbium.
Ferro-phosphorus.
Ferro-titanium.
Ferro-zirconium.
Titanium carbide.
Manganese—In any of the following forms:
Ferro-Manganese.
Ferro-Manganese-Silicon.
Manganese, metal.
Manganese ores and concentrates
Silico-Manganese.

Molybdenum—In any of the following forms:
Calcium Molybdate.
Ferro-Molybdenum.
Molybdenum, metal.
Molybdenum ores and concentrates.
Molybdenum oxide.
Molybdenum scrap and secondary material.
Molybdenum silicide.
Molybdenum sulphide.
Nickel—In any of the following forms:
Ferro-Nickels.
Monel metals.
Nickel alloys.
Nickel carbonates.
Nickel concentrates (commercially recoverable).
Nickel matte of any description.
Nickel oxides.
Nickel residues (commercially recoverable).
Nickel salts.
Nickel solutions (commercially recoverable).
Primary metallic nickel, either alloyed or unalloyed.
Speiss (commercially recoverable).
"Secondary nickel" including any nickel or alloy containing nickel prepared by any process of melting or otherwise treating nickel scrap for reuse as a raw material.
"Nickel scrap" including all materials, ferrous and non-ferrous containing 1% or more of nickel by weight, which are the by-product or waste of industrial operations, or which have been discarded on account of obsolescence, failure, or other reason, excluding scrap consisting of any alloy, the principal ingredient of which, by either weight or volume, is metallic aluminum or consisting of any alloy in which the percentage of copper metal by weight equals or exceeds 40% of all the metals and scrap of iron and steel alloys defined in this order.
Silicon—In any of the following forms:
Ferro-Silicon.
Ferro-Silicon-Aluminum.
Ferro-Silicon-Zirconium.
Silicon, metal.
Silicon-Zirconium.
Silvery pig iron.
Sil-X.
Tungsten—In any of the following forms:
Ferro-Tungsten.
Tungsten metal.
Tungsten ores and concentrates.
Tungsten oxide.
Tungsten powder.
Vanadium—In any of the following forms:
Commercial Vanadium pentoxide.
Ferro-Vanadium.
Vanadium ores and concentrates.

Chapter XI—Office of Price Administration

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[RO 2A,[1] Revocation]

PASSENGER AUTOMOBILE RATIONING REGULATIONS FOR TERRITORIES AND POSSESSIONS OF U. S.

A rationale accompanying this revocation order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Ration Order 2A (§§ 1360.310 to 1360.442, inclusive) is hereby revoked, except that any violations which occurred or rights or liabilities which arose before the effective date of this order of revocation shall be governed by the order in effect at the time the violation occurred or the rights or liabilities arose.

This order of revocation shall become effective August 23, 1945.

Issued this 23d day of August 1945.

CHESTER BOWLES,
Administrator.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 132, Amdt. 10]

RUBBER FOOTWEAR

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 132 is amended in the following respects:

1. The title of the regulation is amended to read as follows: "Rubber footwear."

2. Section 1315.61 is amended to read as follows:

§ 1315.61 *Explanation of and coverage of the regulation*—(a) *Commodities and sales covered.* This regulation establishes maximum prices for all sales in the United States of rubber footwear by the manufacturer thereof. When used in this regulation, rubber footwear means footwear containing rubber and made with a vulcanized construction.

(b) *Relationship to other regulations.* This regulation supersedes the General Maximum Price Regulation and any other regulation issued by the Office of Price Administration as to transactions covered by this regulation.

(c) *War orders.* This regulation does not apply to sales of rubber footwear pursuant to contracts with any war procurement agency of the United States government, or with any person who contracts to sell the purchased rubber footwear to any war procurement agency of the United States government.

(d) *Sales for export.* The maximum price at which a manufacturer may make any export sales of any rubber footwear subject to this regulation shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation or any revisions thereto. When used in this section the phrase "export sales" has the meaning given to it by section 11 (a) of the Second Revised Maximum Export Price Regulation.

3. Section 1315.61b is amended to read as follows:

§ 1315.61b *Prohibition against dealing in rubber footwear above maximum prices.* Regardless of any contract, agreement, lease or other obligation, no manufacturer shall sell or deliver rubber footwear subject to this regulation and no person shall, in the course of trade or business, buy or receive rubber footwear subject to this regulation from the manufacturer thereof at prices higher than the maximum prices established under this regulation, and no person shall agree or solicit or attempt to do any of the foregoing.

4. Section 1315.65a is amended to read as follows:

§ 1315.65a *Maximum prices for rubber footwear that cannot be priced under any other section of the regulation*—(a) *Maximum prices.* The manufacturer's maximum price for sales of any rubber footwear covered by this regulation which cannot be priced under any other section of the regulation shall be a price in line with the level of maximum prices established by this regulation specifically authorized by order of the Office of Price Administration.

(b) *Method of establishing maximum prices.* A manufacturer seeking to establish a maximum price for any footwear to be priced under this section shall file an application with the Office of Price Administration, Washington, D. C., before offering to sell such footwear. This application shall contain: (1) a description in detail of the rubber footwear to be priced; (2) detailed data as to physical properties of the footwear; (3) samples of the footwear; (4) a statement of the reasons why the footwear must be priced under this section of the regulation; (5) a unit cost analysis of the footwear including direct labor costs, direct material costs, factory overhead costs and selling and administrative costs; (6) the proposed maximum price for each class of purchaser and the terms of sale including cash discount terms, quantity discounts and freight allowances; (7) the method by which that price was determined; (8) a statement of the reasons why he believes that the proposed maximum price is in line with the level of prices established by the regulation.

(c) *Authorization of maximum prices.* After receipt of this application, the Office of Price Administration will establish by order a maximum price or a method of determining the maximum price for the rubber footwear for which application is made. The applicant shall not receive payment for any footwear priced under this section until an order establishing its maximum price has been issued by the Office of Price Administration establishing its maximum price. The Office of Price Administration may at any time adjust a maximum price (not to apply retroactively) authorized under this section so as to make it consistent with the level of maximum prices otherwise established by this regulation.

5. Section 1315.63 (a) (7) is amended to read as follows:

(7) "Rubber footwear" means footwear containing rubber and made with a vulcanized construction.

6. In § 1315.70 (a) (1) a new subdivision designated (iv) is added to read as follows:

(iv) *Maximum prices for government rejected rubber footwear.* Rubber foot-

wear that has been produced for the use of the United States or any agency thereof and that has been rejected as not meeting the purchaser's standards and that otherwise meets the requirements for pricing under one of the subdivisions (i), (ii) or (iii) above, shall be priced under the appropriate subdivision.

7. Paragraph (b) of § 1315.70 is amended to read as follows:

(b) *Manufacturers' maximum prices for waterproof rubber footwear produced after February 10, 1942, which is not covered by paragraph (a).* Manufacturers' maximum prices for waterproof rubber footwear produced after February 10, 1942, which is not covered by paragraph (a) or by § 1315.74 shall be established under § 1315.65a of this regulation.

8. Subparagraph (1) of § 1315.73 (a) is amended to read as follows:

(1) This paragraph is applicable to canvas rubber footwear named in Table II but only if such footwear is produced after December 14, 1943, and if it does not fall below the manufacturer's specifications filed with the Rubber Price Branch of the Office of Price Administration before December 31, 1943. Canvas rubber footwear that has been produced for the use of the United States Government or any agency thereof and that has been rejected as not meeting the purchaser's standards shall be priced under this paragraph if it otherwise meets the requirements for pricing under this paragraph.

9. Paragraph (b) of § 1315.73 is amended to read as follows:

(b) *Manufacturers' maximum prices for canvas rubber footwear that is not covered by paragraph (a).* Manufacturers' maximum prices for canvas rubber footwear that is not covered by paragraph (a) above or by § 1315.74 shall be established under § 1315.65a of this regulation.

10. A new section designated 1315.74 is added to read as follows:

§ 1315.74 *Manufacturers' maximum prices for rubber footwear seconds*—(a) *Applicability.* This section applies to rubber footwear which is of the same type as the firsts and the government rejected footwear that are priced under any other section of this regulation (including firsts priced by specific authorization of the Office of Price Administration under § 1315.65a), but which does not equal the requirements of the footwear thus priced.

(b) *Maximum prices for seconds.* The manufacturer's maximum prices for any of the footwear described in paragraph (a) above shall be the maximum prices for the firsts for each class of purchaser as established under this regulation less all discounts, allowances, and differentials for each class of purchaser that the manufacturer had in effect in pricing similar seconds on December 3, 1941. If these discounts, allowances and differentials are such that the manufacturer on December 3, 1941, sold similar seconds at prices that exceeded 90 percent of the net selling price of the firsts (excluding cash discounts) or if the manufacturer had no discounts, allowances, or differentials in effect for seconds on that date, the maximum prices for seconds shall be 90 percent of the maximum prices of the firsts (excluding cash discounts).

11. A new section designated § 1315.75 is added to read as follows:

§ 1315.75 *Notifications of price charged.* Every manufacturer shall give each person purchasing rubber footwear an invoice showing the date of the transaction and the price charged for each type and brand and grade of rubber footwear sold that has been priced under this regulation. The invoice shall bear the notation "seconds" in addition to the other identifying information in all cases where "seconds" are sold. If the commodity sold is one which is priced under § 1315.65a, the invoice shall identify the item by using the same designation for it that appears in the order under which it is priced.

This amendment shall become effective August 29, 1945.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RMPR 229, Amdt. 2]

RETAIL AND WHOLESALE PRICES FOR RUBBER FOOTWEAR

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 229 is amended in the following respects:

1. The title of the regulation is changed to read as follows: "Retail and wholesale prices for rubber footwear."

2. The introductory paragraph of section 1 is amended to read as follows:

SECTION 1. *What this regulation does.* This regulation establishes maximum prices for all sales at retail and at wholesale of rubber footwear. However, this regulation does not apply to sales or deliveries of rubber footwear on war orders which must be priced under Maximum Price Regulation 403. When used in this regulation, the term:

3. Paragraph (a) of section 1 is amended to read as follows:

(a) "Rubber footwear" means footwear containing rubber and made with a vulcanized construction.

4. Section 5 is amended to read as follows:

SEC. 5. *Maximum prices for sales at retail of rubber footwear*—(a) *Maximum prices for sales at retail of domestically produced rubber footwear listed in Appendices A and B*—(1) *Applicability.* This paragraph applies to rubber footwear listed in Appendices A and B that is produced in the continental United States.

(2) *Method of determining the maximum retail price for each type and brand of rubber footwear listed in Appendices A and B.* The seller's maximum price for sales of each type and brand of domestically produced rubber footwear of a type that is described in Appendix A or Appendix B, shall be the maximum price set forth in Appendix A or Appendix B for that type of rubber footwear for the appropriate price class determined under subparagraph (3).

(3) *How the seller determines and redetermines the appropriate price class.* The seller shall determine and redetermine the appropriate price class for each type and brand of such rubber footwear he sells, as follows:

(i) If the seller sold the type and brand of rubber footwear being priced between September 29, 1942, and February 23, 1944, inclusive, that type and brand of footwear shall be placed in the same price class as it was under section 1315.1703 of Maximum Price Regulation 229 on February 23, 1944. The seller shall redetermine the appropriate price class where such redetermination is required by subdivision (iii) below.

(ii) If the seller did not sell the type and brand of rubber footwear being priced between September 29, 1942, and February 23, 1944, inclusive, the appropriate price class shall be determined by reference to the tables set forth in Appendix A for waterproof rubber footwear, and Appendix B for canvas rubber footwear. The seller shall compare the net price at which he purchased the rubber footwear he is pricing after February 23, 1944, with the range of net prices set forth in those tables for that type and brand of footwear. The range of net prices into which the net price which he paid falls, shall determine the appropriate price class.

(iii) The retailer must redetermine the appropriate price class by reference to the tables set forth in Appendix A or Appendix B if at any time subsequent to February 23, 1944, he purchases a type and brand of footwear in sufficiently large quantities so that the net price he pays is (a) lower than the net purchase price set forth for it in the appropriate Appendix (Appendix A or Appendix B) for the class in which it has been placed under subdivision (i) above, or (b) lower than the net purchase price used in determining the appropriate price class under subdivision (ii) above for that type and brand of rubber footwear, or (c) lower than the net purchase price used in redetermining its maximum price under this subdivision (iii).

(iv) A type and brand of rubber footwear whose price class has at any time been determined or redetermined under subdivision (i), (ii), or (iii) above, may not at any time thereafter be reclassified into a higher retail price class.

(v) *Meaning of the "net price" at which the seller purchased the rubber footwear he is pricing.* The "net price" at which the seller purchased the type and brand of rubber footwear he is pricing, means the lowest price, without cash discount, at which he purchased that type and brand after February 23, 1944 (or the list price, less all discounts, except cash discounts). Manufacturers' "seconds" clearly marked as such, shall not be considered as establishing the net price for a type and brand of rubber footwear "firsts".

(b) *Maximum prices for sales at retail of rubber footwear imported into the United States that is of a type listed in Appendix A or Appendix B and that at least equals the quality of the domestically produced footwear listed in Appendices A and B*—(1) *Maximum prices for sales at retail of such footwear that is imported into the United States by the retailer.* A retailer who wishes to establish his maximum prices for sales at retail for any rubber footwear produced outside of the continental United States and imported into the continental United States by the retailer, which is of a type listed in Appendix A or Appendix B and which at least equals the quality of the domestically produced rubber footwear listed in Appendices A and B, shall apply to the tables set forth in Appendix A for waterproof rubber footwear and Appendix B for canvas rubber footwear, the net purchase price of the footwear he is pricing in the manner provided by section 5 (a) (3) (ii). The net purchase price that shall be applied to the tables shall be the retailer's total landed costs. The range of net prices into which the net price he has paid falls, shall determine the proposed maximum price class for the footwear being priced. The retailer shall file a report with the Office of Price Administration, Washington, D. C., giving all of the information required for a report filed under section 6a (a). If, within fifteen days after the mailing of the report, the Office of Price Administration does not request further information or does not issue an order establishing a different maximum price than that proposed by the retailer, or does not object to the proposed maximum price, then (fifteen days after the mailing of the report) the retailer's proposed maximum price shall be his maximum price. The Office of Price Administration may at any time, by order, revise any maximum price established under this section so as to make it consistent with the level of maximum prices otherwise established under the regulation. The redetermination of maximum price provisions of section 5 shall be applicable to any footwear prices established under this subparagraph except that the net price that shall be used in redetermining the maximum price for the imported footwear shall be the total landed costs.

(2) *Maximum prices for sales at retail of such footwear that is imported into the United States by a wholesaler.* The maximum prices for sales at retail of imported rubber footwear which is purchased by the retailer from a wholesaler who has imported the footwear into the United States, and which is of a type listed in Appendix A or Appendix B, and which at least equals the quality of the domestically produced rubber footwear listed in Appendix A or Appendix B shall be determined (and redetermined) in the manner and in accordance with the method of pricing set forth in section 5 for sales at retail of domestically produced rubber footwear. The retailer's net purchase price that shall be applied to the tables set forth in Appendix A or Appendix B in determining the retailer's maximum price shall not exceed the wholesaler's net maximum price (excluding cash discounts) for sales to the retailer.

(c) *Maximum retail prices for seconds.* The maximum price for sales at retail of rubber footwear seconds, shall be the price derived by dividing the retailer's "net purchase price" (not exceeding the maximum price for sales to the retailer) by .65. A retailer's maximum price for "seconds" may not equal or exceed his maximum price for the "firsts". "Net price" shall have the meaning given it in section 5 (a) (3) (v).

(d) *Discounts.* The seller shall deduct from his maximum prices, as found under paragraphs (a), (b), and (c), all discounts, allowances, and other deductions that he had in effect to different classes of purchasers during the period July 1 and October 25, 1941.

5. Section 5a is deleted.

6. Section 6 is amended to read as follows:

SEC. 6. *Maximum prices for sales at wholesale of rubber footwear*—(a) *Maximum prices for sales at wholesale of domestically produced rubber footwear listed in Appendix A or Appendix B*—(1) *Maximum prices for sales of such footwear by wholesalers who sold rubber footwear between April 1 and October 25, 1941.* The maximum prices for sales of domestically produced rubber footwear listed in Appendix A or Appendix B by wholesalers who sold rubber footwear between April 1 and October 25, 1941, shall be the price stated in Appendix A or Appendix B for sales at wholesale, less all discounts, allowances, and other deductions that the wholesaler had in effect to different classes of purchasers during the period April 1 and October 25, 1941.

(2) *Maximum prices for sales of such footwear by wholesalers who did not sell rubber footwear between April 1 and October 25, 1941.* The maximum prices for sales of such rubber footwear by a seller who did not sell rubber footwear at wholesale during the period April 1 and October 25, 1941, shall be the prices stated in Appendix A or Appendix B for sales at wholesale, less the discounts, allowances, and other deductions consistent with those otherwise established under the regulation that shall be established for a wholesaler by written authorization of the Office of Price Administration. A wholesaler whose discounts, allowances, and other deductions must be determined under this paragraph shall file an application with the Office of Price Administration, Washington, D. C., giving the following information: (i) a detailed description of his proposed cash discounts, freight, quantity and other allowances, and other deductions; and (ii) the reasons why he believes the proposed discounts, allowances and other deductions are consistent with those otherwise established under the regulation.

After receipt of the application, the Office of Price Administration shall by written authorization establish the discounts, allowances, and other deductions that shall be applicable to the applicant's sales at wholesale of rubber footwear. The wholesaler shall not sell or deliver or receive payment for any rubber footwear until he has applied for and received from the Office of Price Administration, a written authorization establishing his discounts, allowances, and other deductions.

(b) *Maximum prices for sales at wholesale of imported rubber footwear that is of a type listed in Appendix A or Appendix B and that at least equals the quality of the domestically produced rubber footwear listed in Appendix A or Appendix B*—(1) *Maximum prices for sales by a wholesaler who imports such footwear into the United States*—(i) *Proposed maximum prices.* A wholesaler who wishes to establish maximum prices for his sales at wholesale of rubber footwear which is manufactured outside of the continental United States and imported into the United States by the wholesaler and which is of a type listed in Appendix A or Appendix B and which at least equals the quality of the domestically produced rubber footwear listed in those Appendices shall determine his proposed maximum price as follows:

The proposed maximum price shall be the price listed in Appendix A or Appendix B for sales at wholesale for the type of domestically produced footwear he is pricing, less the discounts, allowance, and other deductions that are applicable to the wholesaler's sales of the domestically produced footwear listed in these Appendices.

(ii) *Reports.* The wholesaler shall file a report with the Office of Price Administration, Washington, D. C., giving all of the information required for a report filed under section 6a (a). If, within fifteen days after the mailing of the report, the Office of Price Administration does not request further information, or does not issue an order establishing a different maximum price than that proposed by the wholesaler, or does not object to the proposed maximum price, then (fifteen days after the mailing of the report) the wholesaler's proposed maximum price shall be his maximum price.

(iii) *Revision of maximum prices.* The Office of Price Administration may at any time, by order, revise any proposed maximum price or any maximum price established under this section so as to make it consistent with the level of maximum prices otherwise established under the regulation. The Office of Price Administration may, by written order, adjust the maximum price of any footwear established under this section after application by the wholesaler giving the information required for reports under section 6a (a) if, in the opinion of the Administrator, it is necessary and desirable to do so to secure importation of needed rubber footwear and if such

adjusted maximum price will not result in higher prices for sales to the consumer than the general level of maximum prices for such sales otherwise established under the regulation.

(2) *Maximum prices for sales of such footwear by the wholesaler who does not import it into the continental United States but purchases it from a wholesaler-importer whose maximum prices for sales at wholesale are established by subparagraph (1).* The maximum prices for the footwear described in subparagraph (1) (i) by a wholesaler who does not import it into the United States but who purchases it from a wholesaler-importer who has established maximum prices for his (wholesaler-importer's) sales to wholesalers under subparagraph (1) above, shall be determined in the manner and in accordance with the method of pricing set forth in section 6 (a) for sales at wholesale of domestically produced rubber footwear, unless an order issued under subparagraph (1) (iii) above establishes maximum prices for such resales by the wholesaler who purchases from the wholesaler-importer.

(c) *Maximum prices for sales at wholesale of rubber footwear seconds.* The maximum prices for sales at wholesale of rubber footwear seconds shall be the wholesaler's maximum prices for the firsts, less all discounts, allowances, and differentials for each class of purchaser that the wholesaler had in effect in pricing seconds during the period April 1 and October 25, 1941. If these discounts, allowances, and differentials are such that the wholesaler during this period sold or offered for sale seconds at prices that exceeded 90 percent of the net selling price of the firsts (excluding cash discounts) to a class of purchaser, or if the wholesaler had no discounts, allowances, or differentials in effect for seconds on that date, the maximum prices for seconds shall be 90 percent of the maximum prices for the firsts (excluding cash discounts). The invoices covering sales of seconds shall bear the notation "seconds" in all cases where seconds are sold.

7. Section 6a is amended to read as follows:

SEC. 6a. *Maximum prices for sales at wholesale and at retail of rubber footwear that cannot be priced under other sections of this regulation.* The maximum prices for sales at wholesale or at retail of rubber footwear that cannot be priced under any other section of this regulation shall be a price in line with the level of maximum prices established by this regulation specifically authorized by written order of the Office of Price Administration.

(a) *Method of establishing maximum prices.* A seller seeking to establish a maximum price for any footwear to be priced under this section shall file an application with the Office of Price Administration, Washington, D. C., before offering to sell such footwear. This application shall contain: (1), a description in detail of the rubber footwear to be priced; (2), a sample of the footwear; (3), a statement of the reasons why the footwear must be priced under this section of the regulation; (4), a statement as to whether applicant sold rubber footwear at wholesale during the period April 1 and October 25, 1941; (5), the cost of the footwear to be priced, and the name and address of the supplier (for imported rubber footwear, the name and address of his supplier and an itemized breakdown of total landed costs should also be given); (6), the proposed maximum price for each class of purchaser and the cash discount, freight, and quantity allowance, and other discounts and allowances applicable to each class of purchaser; (7), the method by which that price was determined; and (8), a statement of the reasons why he believes the proposed maximum price is in line with the level of prices established by the regulation.

(b) *Approval of maximum prices.* After receipt of the application, the Office of Price Administration will establish in writing a maximum price or a method of determining the maximum prices for the footwear for which application is made. Applicant shall not sell or offer for sale any footwear to be priced under this section until an order establishing his maximum price has been issued by the Office of Price Administration. The Office of Price Administration may at any time revise any maximum price (not to apply retroactively) established under this section so as to make it consistent with the level of maximum prices otherwise established by this regulation.

8. Section 18 (a) is amended by adding thereto the following: "The continental United States" means the forty-eight states of the United States and the District of Columbia. "Domestically produced footwear" means footwear manufactured in any of the forty-eight states of the United States or in the District of Columbia.

9. The heading of Appendix A is amended to read as follows: "APPENDIX A: *Table of maximum prices per pair of certain waterproof footwear.*[1] [2] [3]"

10. Footnote 1 of Appendix A is amended to read as follows:

[1] The domestically produced rubber footwear priced at the wholesale and retail levels is the footwear that is priced at the manufacturer's level by §§ 1315.70 (a) and 1315.71 of Maximum Price Regulation 132 and that meets the requirements for pricing under one of those sections.

11. Two new footnotes designated 2 and 3 are added to Appendix A to read as follows:

[2] The maximum prices for sales at wholesale and retail of imported waterproof rubber footwear are established under sections 5 (b) and 6 (b) of this regulation and by specific authorization of the Office of Price Administration under section 6a.

[3] Customary allowances and discounts must be deducted from these wholesale and retail prices.

12. The heading of Appendix B is amended to read as follows: "APPENDIX B: *Table of maximum prices per pair of certain canvas-topped rubber-soled footwear of vulcanized construction.*[1] [2] [3]"

13. Footnote 1 of Appendix B is amended to read as follows:

[1] The domestically produced rubber footwear priced at the wholesale and retail levels is the footwear that is priced at the manufacturer's level by § 1315.73 (a) of Maximum Price Regulation 132 and that meets the requirements for pricing under that section.

14. Footnote 2 of Appendix B is amended to read as follows:

[2] The maximum prices for sales at wholesale and retail of imported waterproof rubber footwear are established under sections 5 (b) and 6 (b) of this regulation and by specific authorization of the Office of Price Administration under section 6a.

15. Footnote 3 is added to read as follows:

[3] Customary allowances and discounts must be deducted from these wholesale and retail prices.

This amendment shall become effective August 29, 1945.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

[1] When a purchaser of the class specified herein buys loaded into tankers and the seller must use trucks, truck and trailers or cars to move the product from his refinery or terminal to the loading point at which the sale is made, his maximum price shall be the sum of his truck and trailer f. o. b. refinery or terminal price, whichever is applicable, plus the actual transportation cost from his refinery or terminal to the loading point.

[2] For single lot deliveries under 6,500 gallons add ⅛ of a cent per gallon.

[3] Prices cover only the product and the unloading, filling, stencilling and reloading of drums into transportation facilities.

[4] Includes all grades of solvent extracted or acid-treated kerosene.

8. Section 3.4 (b) is amended as follows:

a. Footnote 1 to section 3.4 (b) is amended by adding the following sentence:

Where an owner or operator of a refinery has established a maximum price pursuant to this footnote such maximum price may be used by other sellers and shall be subject to the special price provisions for certain sellers set forth in sections 3.2 and 3.3.

b. Footnote 4 to section 3.4 (b) is amended by adding the following paragraph:

[3] Tanker terminals at Linnton, Willbridge, Portland, Oregon, and Vancouver, Washington, are within the Portland Area.

[4] Maximum prices to other Federal agencies shall be established by application under section 8.3.

[5] Tanker terminals at Point Wells, Edmonds, Seattle, and Tacoma, Washington, are within the Seattle Area.

The Administrator may establish by order in writing for a refiner located in Price Area K a different maximum price at his refinery than that set forth above, and such maximum price may be used by other sellers on shipments from the same shipping point and shall be subject to the special pricing provisions of certain sellers set forth in sections 3.2 and 3.3.

9. Section 4.35 (a) is amended by adding a footnote reference number 8 following the words "Portland Area" and by adding a footnote number 8 to read as follows:

[8] Tanker terminals at Linnton, Willbridge, Portland, Oregon and Vancouver, Washington are within the Portland Area.

10. Section 4.45 (a) is amended by adding a footnote reference number 8 following the words "Seattle Area" and by adding a footnote number 8 to read as follows:

[8] Tanker terminals at Point Wells, Edmonds, Seattle, and Tacoma, Washington are within the Seattle Area.

11. Section 5.1 (e) (6) is added to read as follows:

(6) *Aviation gasoline*—(i) *Delivered-at-destination tank car prices.* The maximum delivered-at-destination tank car prices[4] (exclusive of any applicable taxes incident to the sale but not the transportation of such product) to the classes of purchasers named below, for aviation gasoline of a particular grade delivered in tank cars or transport trucks, shall be the amount set forth below for the particular class of purchaser and grade of product, plus the applicable rail rate of transportation as of October 1, 1941 from Tulsa, Oklahoma, to the particular destination: *Provided*, That the maximum price of an eligible marketer shall be .125¢ per gallon higher than the ceilings established for other sellers.

Aviation gasoline: grade—	To Class 1[1] purchasers	To Class 2[2] purchasers (cents per gallon)	To Class 3[3] purchasers
62–65 octane ASTM (unleaded)	7.375	7.50	7.75
73 octane ASTM (leaded)	7.625	7.75	8.00
80 octane ASTM (leaded)	7.875	8.25	8.50

[1] Class 1 purchasers are refiners, the United States Government or any agency thereof.
[2] Class 2 purchasers are resellers (except airport dealers) not included in Class 1.
[3] Class 3 purchasers are airport dealers and consumers not included in Class 1.

(ii) *Maximum tank wagon prices and related drum prices.* The maximum tank wagon price to dealers in a particular tank wagon area for Grade[7] 73 aviation gasoline, shall be the reference tank wagon seller's normal dealer price for regular grade automotive gasoline for such tank wagon area on October 1, 1941, plus 3.3¢[8] per gallon. This maximum price is also designated as the "key price" and the maximum tank wagon or related drum[9] prices in a particular tank wagon area for the grades of aviation gasoline by classes of purchaser and levels of sale listed below, shall be the "key price" for the same tank wagon area plus or minus the applicable cents per gallon differential set forth in the following table:

Class of purchaser	Grade 62 or 65		Grade 73		Grade 80	
	Tank wagon	Drum	Tank wagon	Drum	Tank wagon	Drum
Dealer	−1	+2	(1)	+3	+1	+4
Consumer[2]	+1	+4	+2	+5	+3	+6

[1] Key price.
[2] *Discount Provision.* A consumer purchasing a total of 100 gallons or over at the tank wagon level of aviation gasolines of these grades within a calendar month shall receive a discount below the applicable maximum price of 2¢ per gallon. The full price may be charged during the calendar month in which the deliveries are made, but if the purchaser becomes eligible for the discount, it shall be paid to him within 30 days after the end of the calendar month in which the deliveries were made.

(iii) *Maximum drum prices at certain levels of sale.* The maximum drum prices either delivered-at-destination or f. o. b. shipping point, for the aviation gasolines listed in (i) above, for carload deliveries by rail (or substitutes therefor) on sales to consumers; and for either carload or less carload deliveries by rail (or substitutes therefor) on sales to resellers other than dealers, shall be a maximum price established pursuant to section 8.3.

(iv) *Upon written authorization.* Upon application in writing and for good cause shown a seller at the tank wagon level, other than a refiner, may be authorized by order in writing of the Price Administrator or his duly authorized representative, to determine his maximum tank wagon or drum prices on the basis of prices his records show he charged in the base period.

12. Section 7.2 is amended by adding "Territory of Hawaii" at the bottom of the column entitled "For any point in the State of" and by adding "Standard Oil Company of California" to the Column entitled "reference tank wagon sellers."

13. Section 7.5 (a) is amended by deleting the word "and" between the states "Oregon and Washington", inserting a comma in lieu thereof and adding "and the territory of Hawaii" immediately following "Washington."

14. Section 7.5 (c) is revoked.

This amendment shall become effective August 29, 1945.

Issued this 24th day of August 1945.

PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT

[RMPR 136, Amdt. 10]

MACHINES, PARTS AND INDUSTRIAL EQUIPMENT

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Maximum Price Regulation 136 is amended in the following respects:

1. Section 2 (a) (17) is added to read as follows:

(17) Porcelain covered steel table tops.

2. In section 9 (a) the last sentence is amended by inserting, after the first word, the phrase: ". . . until, but not after October 23, 1945, . . ."

3. Section 9 (d) is amended to read as follows:

(d) *"In-line" limitations.* The OPA may disapprove any maximum price determined under this section because it is not in line with the maximum prices fixed by this regulation for comparable products. The following tests shall apply in determining whether a price is "in line," or a product is comparable:

(1) Whether the price is "in line" with prices charged by the applicant for similar commodities in his own line of products;

(2) Whether standards of construction, design or performance have been promulgated by a Government Agency authorized thereto (e. g.: Bureau of Standards, Interstate Commerce Commission, etc.), or agencies representative of the industry (e. g.: National Board of Fire Underwriters, American Society of Mechanical Engineers, etc.), or have otherwise been established or accepted by the industry;

(3) Whether the industry, irrespective of (2), produces commodities which are similar or identical, to the extent that in the absence of a brand name or mark the product of one maker could not be distinguished from another's;

(4) Without reference to (2) or (3), whether the standards of performance claimed by the applicant conform substantially with performance claims of other manufacturers;

(5) Whether the commodity is basically the same as commodities produced by other manufacturers, but differs only in minor respects; in this event, consideration may be given to the variation in cost represented by the difference in design of the commodity to be priced and the nearest comparable commodity.

4. In section 10 (b) (3), the last sentence is amended by inserting, after the first word, the phrase: ". . ., until, but not after October 23, 1945, . . ."

5. Section 9 (e) is added to read as follows:

(e) *"In-line pricing."* Notwithstanding any other provision of this section, the manufacturer who does not have the information required by Form OPA No. 694–2167 may propose a maximum price for a product which is in line with the maximum prices established under this regulation for similar or comparable products. In such case, the manufacturer may submit to the Office of Price Administration, Washington 25, D. C. evidence pursuant to the criteria set forth in paragraph (d) above, instead of the report on Form OPA No. 694–2167. After receipt of the report, the Office of Price Administration may (1) approve the proposed maximum price, (2) disapprove the maximum price, (3) establish a different maximum price determined under this section, or (4) establish or give temporary approval to a maximum price and require the filing of the information required in Form OPA No. 694–2167 by order. If the Office of Price Administration fails to act within thirty days after the receipt of the report (or any verification of the facts stated in the report that may be requested), the proposed maximum price shall be deemed to be approved.

6. In section 12 (b), in the second sentence of subparagraph (1), the word "lessor" is amended to read "lessee".

7. The second sentence of section 10 (c) (3) is amended to read as follows:

"The manufacturer may add the amount of overtime premium which he expects to pay to the maximum price, except where he is figuring a maximum list price."

This amendment shall become effective August 24, 1945.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

PART 1418—TERRITORIES AND POSSESSIONS

[RMPR 373, Amdt 23]

FRUITS AND VEGETABLES IN HAWAII

A statement of the considerations involved in the issuance of this amend-

[4] In the lower peninsula of the State of Michigan the maximum delivered-at-destination tank car prices to Class 2 purchasers shall be the lower of the following: The price determined above for a particular grade, or for 62–65 octane, the dealer tank wagon ceiling for grade 62 or 65 less 2.75¢ per gallon; for 73 octane, the dealer tank wagon ceiling for grade 73, less 3.5¢ per gallon; for 80 octane, the dealer tank wagon ceiling; for grade 80 less 4.0¢ per gallon.

[7] Grade refers to a gasoline meeting the prevailing industry and consumer specifications for aviation gasoline which is sold for use in aircraft engines or for special testing purposes and which has an ASTM octane number not lower than the designated grade number under which the particular grade is sold.

[8] Except that 3.6¢ per gallon shall be added in lieu of 3.3¢ per gallon in the Chicago area where the reference tank wagon seller's normal dealer tank wagon price for regular grade automotive gasoline was 9.9¢ per gallon on October 1, 1941; and except in the lower peninsula of the State of Michigan where 4.8¢ per gallon shall be added in lieu of 3.3¢ per gallon; and except in the State of Indiana where 3.7¢ per gallon shall be added in lieu of 3.3¢ per gallon.

[9] Applies to all drum sales except those for which ceilings shall be established as directed in (iii) below.

ment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 21 is amended in the following respects:

1. The table under paragraph (c) (1) is amended by changing the prices of three items to read as follows:

	Wholesale maximum prices	Retail maximum prices
		Per lb.
Garlic	$0.33 per lb	$0.46
Onions, dry, red and yellow, (new crop)	$3.65 per 50 lb. bag	.10
Potatoes, white, size A, large	$5.30 per 100 lb. bag	.07½

2. The table under paragraph (d) (1) is amended by changing the wholesale price of "Lemons: all sizes" from $7.85 per box to $7.60 per box and the retail price from $0.15 per lb. to $0.14½ per lb.

This amendment shall become effective as of August 3, 1945.

Issued this 24th day of August 1945.

Chapter XVIII—Office of Economic Stabilization

[Directive 76]

PART 4003—SUPPORT PRICES; SUBSIDIES

1945 CROP RICE

The Secretary of Agriculture has, by letter dated August 10, 1945, recommended my approval of a loan and purchase program with respect to rice of the 1945 crop to be carried out by Commodity Credit Corporation. Loans are to be made available on rough rice under the program at 90 per centum of the parity price as of July 1, 1945. An offer is to be made to purchase rough rice at the loan rate, and milled rice at comparable rates. The loan and purchase program is more fully described in the copy of the memorandum from the Director, Office of Basic Commodities, enclosed with the Secretary of Agriculture's letter.

Pursuant to the authority vested in me as Economic Stabilization Director, I hereby authorize and direct the Secretary of Agriculture to carry out the 1945 rice loan and purchase program described in the Secretary of Agriculture's letter and the memorandum enclosed therewith.

(E. O. 9250 and E.O. 9328, 3 CFR, Cum. Supp. pp. 1213, 1267; E.O. 9599, 10 F.R. 10155)

Issued and effective this 23d day of August, 1945.

[Directive 77]

PART 4003—SUPPORT PRICES; SUBSIDIES

PURCHASE OF 1945 LOAN WHEAT BY COMMODITY CREDIT CORPORATION

The Secretary of Agriculture having submitted certain information and, by his letter and enclosure of July 26, 1945 having recommended adoption of a program pursuant to which Commodity Credit Corporation would purchase wheat upon which Commodity Credit Corporation loans are outstanding on April 1, 1946, for farm-stored wheat in all areas and for warehouse-stored wheat in the Southwest, and on May 1, 1946 for warehouse-stored wheat in other areas, such purchases to be made at a price equal to the loan value of wheat plus 15 cents per bushel but not more than the ceiling price;

I hereby find that this program, more fully set out in the Secretary of Agriculture's letter and enclosure, is necessary to accomplish, with respect to wheat, the objective of section 3 of the Stabilization Act of 1942, as amended by the Stabilization Act of 1944, and extended by the Act of June 30, 1945 (Public Law 108, 79th Congress).

Accordingly, pursuant to the authority vested in me as Economic Stabilization Director, I hereby approve and direct the Department of Agriculture to carry out, through the Commodity Credit Corporation, the program described in the Secretary of Agriculture's letter and the memorandum enclosed therewith.

(E.O. 9250 and E.O. 9328, 3 CFR, Cum. Supp. pp. 1213, 1267; E.O. 9599, 10 F.R. 10155)

Issued and effective this 23d day of August, 1945.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts

PART 201—PROCEDURE FOR STIPULATION OF CONDITIONS IN GOVERNMENT PURCHASE CONTRACTS

EMPLOYMENT OF FEMALE PERSONS UNDER 18 YEARS OF AGE

Revocation of exemption from provisions of the Walsh-Healey Public Contracts Act to permit the employment of female persons under 18 years of age in any industry.

Whereas, an exemption dated April 21, 1942 (7 F.R. 3003), and amended November 11, 1942 (7 F.R. 9399), was granted under section 6 of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. Supp. III, 35), permitting, until further ordered, the award of contracts to contractors in any industry without inclusion in such contracts as required by section 1 (d) of the act the representation and stipulation:

That no * * * female person under 18 years of age * * * will be employed by the contractor in the manufacture or production or furnishing of any of the materials, supplies, articles, or equipment included in such contract;

Provided however, That employment conditions enumerated in each order are complied with by any contractor seeking to come within the exemption; and

Whereas, the Secretary of Labor, by order dated June 30, 1945 (10 F.R. 8866) revoked said exemption orders of April 21, 1942, and November 11, 1942, but permitted the continued employment after October 1, 1945, of female persons under 18 years of age who on October 1, 1945, were employed in performance of a contract subject to the Walsh-Healey Public Contracts Act; and

Whereas, modifications to the above-named exemption order were granted from time to time to individual plants upon a showing of need therefor; and

Whereas, it appears that justice and the public interest no longer will be served by the continued employment of female persons under 18 years of age in performance of contracts subject to the Walsh-Healey Public Contracts Act.

Now, therefore, pursuant to the powers vested in me by section 6 of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U.S.C. 35), I do hereby amend the order of the Secretary of Labor dated June 30, 1945, and order that the exemptions dated April 21, 1942, and November 11, 1942, permitting the award of contracts to contractors in any industry without the inclusion in such contracts of the representations and stipulations of section 1 (d) of the act with respect to the employment of girls between the ages of 16 and 18 years are hereby revoked, and after the effective date of this order female persons under 18 years of age may not be employed in performance of contracts subject to the act and; *It is further ordered*, That all modifications of the aforesaid exemptions are hereby revoked, except as hereinafter provided; *Provided, however*, That this supplemental revocation order shall not apply to the employment of 16 and 17-year old girls in the performance of contracts awarded on or prior to the effective date of this order; *Provided, further*, That where 16 and 17-year old girls are employed in the performance of contracts awarded on or prior to the effective date of this order, such authorized employment shall be subject to all of the conditions of the Exemption Order of April 21, 1942 (7 F.R. 3003), as amended November 11, 1942 (7 F.R. 9399), except where a modification of such order has been granted.

This order shall become effective 10 days after publication in the FEDERAL REGISTER.

Dated: August 24, 1945.

UNITED FUEL GAS CO. ET AL.

ORDER FIXING DATE OF HEARING

AUGUST 21, 1945.

In the Matter of United Fuel Gas Company, Central Kentucky Natural Gas Company, Cincinnati Gas Transportation Company, Huntington Development and Gas Company, Point Pleasant Natural Gas Company and Warfield Natural Gas Company.

Upon consideration of the application, as amended, filed on March 1, 1945, by United Fuel Gas Company ("Applicant") for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, as amended, to authorize United Fuel Gas Company to acquire and operate all of the facilities, subject to the jurisdiction of the Commission, of the following companies: Central Kentucky Natural Gas Company, Cincinnati Gas Transportation Company, Huntington Development and Gas Company, Point Pleasant Natural Gas Company, and Warfield Natural Gas Company.

The Commission orders that:

(A) A public hearing be held commencing on September 19, 1945, at 10:00 a. m. (e. w. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., respecting the matters involved and the issues presented in this proceeding.

(B) Interested State commissions may participate in said hearing as provided in § 67.4 of the provisional rules of practice and regulations under the Natural Gas Act.

[Docket No. IT-5519]

BONNEVILLE PROJECT, COLUMBIA RIVER, OREG.-WASH.

ORDER CANCELLING HEARING

AUGUST 22, 1945.

It appears that:

(a) The Administrator of the Bonneville Power Project filed with the Commission for confirmation and approval, pursuant to the provisions of the Bonneville Act (50 Stat. 731), as amended, certain proposed rate schedules, proposed modifications of the general rate schedule provisions, and proposed revised Administrative interpretations entitled "Principles and Procedures To Be Followed in the Calculation of Computed Demand." Pacific Power & Light Company, Northwestern Electric Company, The Washington Water Power Company, Mountain States Power Company and Puget Sound Power & Light Company filed protests and complaints with respect to these filings by the Administrator of the Bonneville Project.

(b) On July 6, 1945, the Commission ordered a hearing be held in Spokane, Washington, on July 24, 1945, subsequently postponed to August 27, 1945, for the purpose of affording the above-named complainants, the Bonneville Power Administrator, and other interested parties an opportunity to present testimony and information relevant to the Commission's consideration of the proposed rate schedules to the extent that they modify existing schedules, the proposed modifications of the general rate schedule provisions, and the proposed revised Administrative interpretation entitled "Principles and Procedures To Be Followed in the Calculation of Computed Demand."

(c) On August 2, 1945, Pacific Power & Light Company, Northwestern Electric Company and The Washington Water Power Company by telegram notified the Commission that they would not attend the hearing. Puget Sound Power & Light Company and Mountain States Power Company on August 3 and August 7, 1945, respectively, by telegrams, advised the Commission that they would present no evidence at the hearing. On August 8, 1945, William A. Dittmer, Acting Bonneville Power Administrator, advised the Commission by telegram that inasmuch as all of the complainants have indicated that they will present no evidence at the hearing scheduled to be heard in Spokane, the hearing appears unnecessary.

(d) No other persons have requested an opportunity to present testimony or information at the hearing.

The Commission finds that: It is appropriate that the hearing be cancelled.

The Commission orders that: The hearing in this matter set for August 27, 1945, at 10:00 a. m. (P. w. t.) in Room 338, Federal Power Office Building, Spokane, Washington, be and it is hereby cancelled.

By the Commission.

[Docket No. G-652]

TENNESSEE GAS AND TRANSMISSION CO.

NOTICE OF APPLICATION

AUGUST 23, 1945.

Notice is hereby given that on August 17, 1945, Tennessee Gas and Transmission Company (Applicant) a Tennessee Corporation having its principal place of business at Houston, Texas, filed with the Federal Power Commission an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of approximately 2,380 feet of 8-inch O. D. pipeline extending in a southerly direction from Applicant's main line valve No. 20 located in Section 30, A. D. Boyd Survey, Harris County, Texas, to a point of connection with the 10-inch Katy-Satsuma pipeline of United Gas Pipe Line Company.

The application recites the filing with the Commission of letters dated July 19 and July 23, 1945, respectively, requesting temporary authorization to construct and operate the above-described facilities for the purpose of obtaining up to 50,000 mcf of natural gas per day from the Katy field by means of the facilities of United Gas Pipe Line Company. Arrangements for the supply of such gas were made between The Chicago Corporation, Applicant's supplier, and United Gas Pipe Line Company.

Applicant claims that the proposed facilities are required by reason of an order of the Railroad Commission of Texas dated July 16, 1945, which order, it is asserted, seriously interferes with the continuance of deliveries of gas to Applicant from the Stratton-Agua Dulce field, which at the present time is Applicant's sole source of gas supply.

The Commission by letter of July 27, 1945, granted Applicant temporary authorization to construct and operate the proposed facilities, pending the filing of the within application, which authorization was granted without prejudice to further Commission action and upon the condition that Applicant file with the Commission weekly statements showing the daily quantities of gas delivered to Applicant through the proposed facilities.

Applicant does not propose to render any additional services by reason of the construction and operation of the facilities. Such facilities will also provide an emergency connection in order to assure maintenance of adequate service to existing customers.

The estimated total over-all capital cost of the facilities is $7,290.00.

According to the application, no additional revenue will be received by applicant and no change in its rates is contemplated.

The War Production Board supported Applicant's application for temporary authorization in order to assure the continuance of adequate service of natural gas in the Appalachian area.

While it is not the purpose of Applicant to obtain gas from the Katy field through the proposed facilities on a continuous basis, it is claimed that the facilities provide a connection for future use in the event it should again become necessary to utilize the Katy field for emergency purposes.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 10th day of September, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

Acting Secretary.

(2) The adjusted ceiling prices set forth in paragraph (1) above are subject to all allowances, price differentials and other trade practices, including practices related to shipping and the payment of shipping charges and premiums for extra sizes, customarily used by Utica Knitting Company during the period from July 15, 1941 to February 10, 1942, both inclusive, on deliveries of comparable types of fall and winter knitted underwear.

(b) *Ceiling prices for sales at wholesale.* (1) On and after August 22, 1945, the ceiling price for a sale at wholesale of any of the garments enumerated in paragraph (a) of this order, shipped to the seller by Utica Knitting Company on and after that date, shall be determined in the following manner:

(i) The wholesaler shall first find his cost base for the garment being priced from the following table:

Style No.	Cost base (per dozen)	
	Regular sizes	Extra sizes
P12 LSA	$9.00	$10.25
P12 SSA	8.87½	10.12½
E12 LSA	8.50	9.75
E12 SSA	8.37½	9.62½
E14 LSA	9.37½	10.37½

2/1 shirt	5.65	6.40
2/1 drawer	5.65	6.40
3/1 shirt	6.30	7.05
3/1 drawer	6.30	7.05
607U LSA	10.75	12.25
6U/G LSA	10.25	11.75
6U/G SSA	10.00	11.50
5BU/G LSA	7.50	

(ii) The wholesaler will then apply to the "cost base" for the garment being priced his "initial percentage markup" determined in accordance with the appropriate charges and premiums for extra sizes, customarily used by Utica Knitting Company during the period from July 15, 1941 to February 10, 1942, both inclusive, on deliveries of comparable types of fall and winter knitted underwear.

(b) *Ceiling prices for sales at wholesale.* (1) On and after August 22, 1945, the ceiling price for a sale at wholesale of any of the garments enumerated in paragraph (a) of this order, shipped to the seller by Utica Knitting Company on and after that date, shall be determined in the following manner:

(i) The wholesaler shall first find his cost base for the garment being priced from the following table:

Style No.	Cost base (per dozen)

6U/G LSA	10.25	11.75
6U/G SSA	10.00	11.50
5BU/G LSA	7.50	

(ii) The wholesaler will then apply to the "cost base" for the garment being priced his "initial percentage markup" determined in accordance with the appropriate rule set forth in subparagraph (3) of § 1372.102 (b) of Maximum Price Regulation 210.

(iii) The wholesaler will then add to the amount found in (ii) immediately above the sum specified below for the style of garment being priced. The resulting figure is the wholesaler's new ceiling price per dozen for the style of garment being priced.

(2) The ceiling prices established for sales at wholesale in this paragraph (b) are subject to all discounts, allowances, price differentials and other trade practices customarily used by the wholesaler during 1942 on deliveries of comparable types of fall and winter knitted underwear.

(c) *Statement which Utica Knitting Company must send to wholesalers.* (1) On and after August 22, 1945, Utica Knitting Company shall transmit to each wholesaler to whom it makes delivery, on and after that date, of any of the garments listed in paragraph (a) of this order, the following statement:

STATEMENT TO WHOLESALERS OF ADJUSTED CEILING PRICES

The OPA has adjusted our ceiling prices on certain knitted underwear garments pursuant to the provisions of Order No. 13, issued under Revised Supplementary Order 09. In Column A below you will find our adjusted ceiling prices for these garments.

Under this order the OPA has established the method by which you, as a wholesaler, are to determine your ceiling prices for these garments.

You are required by the OPA to determine your ceiling prices for the specified styles by the following method: You first find the "cost base" for the garment being priced from Column B of the following table. You then apply to this "cost base" your "initial percentage markup" (determined in accordance with the appropriate rule set forth in subparagraph (3) of § 1372.102 (b) of Maximum Price Regulation 210). You then find your new ceiling price by adding to the amount thus determined, the amount specified in Column C below for the particular style of garment being priced.

Style No.	Column A	Column B		Column C
	Utica's adjusted ceiling price (regular sizes) (per dozen)	"Cost base" to which wholesaler applies "initial percentage markups" (per dozen)		Amount of adjustment which wholesaler may add (per dozen)

6U/G SSA	10.87	10.00	11.50	.65
5BU/G LSA	8.28	7.50		.58½

Please note that, as a wholesaler, you are required by the OPA to transmit to each retailer to whom you deliver any of the garments listed above on or after August 22, 1945, a "Wholesaler's Statement to Retailers of OPA Adjustment Charge" in the following form, properly filled in by you with the information applicable to the particular garments being delivered by you to the retailer. You are required to complete this statement as follows: In Column A you shall list the ceiling prices of the particular styles being shipped which were in effect for you under MPR 210 prior to the date of this order. In Column B you shall list the new ceiling prices which you determine in accordance with the method indicated in this statement to you. In Column C you shall list the difference between the amounts in Column A and Column B below for the respective styles. This notice, when properly completed by you is to be transmitted with, or annexed to, the invoice, billing or other statement of price accompanying every shipment made by you to your retail customers of the styles shipped to you by us.

WHOLESALER'S STATEMENT TO RETAILERS OF OPA ADJUSTMENT CHARGES

The OPA, pursuant to Order No. 13 issued under Revised Supplementary Order 99, has permitted us to adjust our ceiling prices on the following garments sold and delivered by us to you on or after August 22, 1945.

Please note that the OPA has ruled that you must price these garments in accordance with Maximum Price Regulation 580 or Maximum Price Regulation 210 (whichever regulation governs your sales of the garments listed above). In determining your ceiling prices for these garments OPA has ruled that you must use as your "net cost" under MPR 580, or your "cost base" under MPR 210, the amount set forth in Column A above. You may not, in any case, include the amount of the OPA adjustment charge set forth in Column C above in determining your ceiling prices for these garments under either of those regulations.

(2) The statement required to be sent by Utica Knitting Company to its wholesalers, as provided in this paragraph (c) and containing the information applicable to the styles of garments included in the particular shipment shall be transmitted with, or annexed to, the invoice, billing or other statement of price accompanying every shipment made by Utica Knitting Company of any of the garments listed in paragraph (a) of this order. This statement, with respect to any garment for which Utica Knitting Company is permitted an adjustment of its ceiling price under this order shall be sent by Utica Knitting Company in lieu of the statement required under § 1389.304 (as amended) of Maximum Price Regulation 221.

(d) *Statement which wholesalers must send to their retailers.* Any seller at wholesale, purchasing any of the garments listed in paragraph (a) of this order from Utica Knitting Company on or after August 22, 1945, shall transmit to each of its own customers, at the time of the delivery by it of any of these garments on or after August 22, 1945, the form of "Wholesaler's Statement to Retailers of OPA Adjustment Charge" contained in the "Statement to Wholesalers of OPA Adjustment Charge" required to be sent to its wholesalers by Utica Knitting Company under paragraph (c) above. This "Wholesaler's Statement to Retailers of OPA Adjustment Charge" shall contain the information applicable to the styles of garments included in the particular shipment and shall be transmitted with, or annexed to the invoice, billing or other statement of price accompanying every shipment made by the wholesaler after August 22, 1945 of any of the garments covered by this order. Each seller at wholesale shall complete this "Wholesaler's Statement to Retailers of OPA Adjustment Charge" as follows: In Column A he shall list the ceiling prices in effect for sales by him under Maximum Price Regulation 210 prior to this order. In Column B he shall list his new ceiling prices for the garments, determined in accordance with paragraph (b) of this order. In Column C he shall list the differences between the amounts in Column A and Column B for the respective styles.

(e) *Statement which Utica Knitting Company must send to retailers.* (1) On and after August 22, 1945, Utica Knitting Company shall transmit to each retailer to whom it makes delivery of any of the garments listed in paragraph (a) of this order, the following statement:

STATEMENT TO RETAILERS OF OPA ADJUSTMENT CHARGES

The Office of Price Administration has permitted us to add the adjustment charges set forth below to our ceiling prices on the following garments:

Style	Column A	Column B	Column C
	Old ceiling price (per dozen)	OPA adjustment charges under MPR 221 and RSO 99 (per dozen)	Amount of adjustment which retailer may add to his ceiling price (per garment)

6U/G SSA	10.00 / 11.50	.87	
5BU/G LSA	7.50 /	.78	

Please note that the OPA requires you to price these garments in accordance with Maximum Price Regulation 580 or Maximum Price Regulation 210 (whichever regulation governs your sales of the garments listed in this notice). In determining your ceiling prices for these garments OPA has ruled that you must use as your "net cost" under MPR 580, or your "cost base" under MPR 210, the "old ceiling price" stated in Column A above for the garment being priced and you may not include the OPA adjustment charges set forth in Column B above in computing your ceiling prices for these garments under either of these regulations.

The OPA has ruled, however, that after you have properly determined your ceiling price under MPR 580 or MPR 210 in the foregoing manner, you may then add to your ceiling price so computed the amount of the adjustment set forth for the garment in Column C of the above table.

(2) The statement required to be sent to its retailers by Utica Knitting Company, as provided in this paragraph (e), and containing the information applicable to the styles of garments included in the particular shipment, shall be transmitted with, or annexed to the invoice, billing or other statement of price accompanying every shipment made by Utica Knitting Company of any of the garments listed in paragraph (a) of this order. This statement, with respect to any garment for which Utica Knitting Company is permitted an adjustment of its ceiling price under this order shall be sent by Utica Knitting Company in lieu of the statement required under § 1389.304 (as amended) of Maximum Price Regulation 221.

(f) *Garments to which the provisions of this order shall apply.* This order shall apply only to those garments of the styles enumerated in paragraph (a) which are shipped by Utica Knitting Company on or after August 22, 1945, and before November 1, 1945.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective August 22, 1945.

Issued this 22d day of August 1945.

CHESTER BOWLES,
Administrator.

[Supp. Order 94, Order 76]

UNITED STATES DEPARTMENT OF COMMERCE, ET AL.

SPECIAL MAXIMUM PRICES FOR SADDLES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and in accordance with section 11 of Supplementary Order 94, it is ordered:

(a) *What this order does.* This order establishes special maximum prices at which new and used Army McClellan saddles may be sold and delivered by the United States Department of Commerce and by any subsequent reseller.

(b) *Maximum prices*—(1) *New saddles.* Maximum prices per new Army McClellan saddle shall be:

(i) Commerce's price to manufacturer, f. o. b. shipping point: $7.10.

(ii) Commerce's price to wholesaler, f. o. b. shipping point: $8.00.

(iii) Commerce's price to retailer, f. o. b. shipping point: $12.00.

(iv) Wholesaler's price to retailer, f. o. b. shipping point: $12.00 plus actual freight paid by the wholesaler from Commerce's point of shipment.

(v) Price for all sales at retail—$20.00 plus actual freight paid by the retailer from his supplier's point of shipment.

(2) *New shop or shelf worn saddles.* The maximum price for a new shop or shelf worn Army McClellan saddle, which is a saddle that has never been used on an animal, shall be 75% of the appropriate maximum price set forth in paragraph (b) (1) herein, *Provided*, That

(i) No part is missing which is necessary to make it fully useful for its intended purpose without further repair.

(ii) The saddle is free from rips and tears, and in all respects has the serviceability equal to but not the appearance of a new saddle.

(3) *Used saddles and new shop or shelf worn saddles not covered by paragraph (b) (2).* The maximum price for a used Army McClellan saddle, which is a saddle that has been used on an animal, and for a new shop or shelf worn saddle not covered by paragraph (b) (2) herein shall be 50% of the appropriate maximum price set forth in paragraph (b) (1) herein.

(c) *Discounts.* Every seller shall continue to maintain his customary discounts for cash.

(d) *Notification.* Any person who sells the aforesaid Army McClellan saddles to a retailer shall furnish the retailer with an invoice of sale setting forth the retailer's maximum price for each saddle, and stating that the retailer is required by this order to attach to each saddle before sale a tag or label stating the appropriate retail ceiling price.

(e) *Tagging.* Any person who sells the aforesaid Army McClellan saddles at retail shall attach to each saddle before sale a tag or label which plainly states the appropriate retail ceiling price.

(f) *Relation to other regulations and orders.* This order with respect to the commodity it covers supersedes any other regulation or order previously issued by the Office of Price Administration.

(g) *Definitions.* (1) "Retailer" means any person who normally sells to ultimate consumers.

(2) "Wholesaler" means any person who normally sells to resellers.

(h) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective August 25, 1945.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-1121]

THE NORTH AMERICAN CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 21st day of August 1945.

The North American Company, a registered holding company, has filed a declaration pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the General Rules and Regulations promulgated thereunder, regarding a proposal to pay on October 1, 1945, a dividend to its holders of common stock of record on September 4, 1945, payable in the common stock of Pacific Gas and Electric Company having a par value of $25 per share owned by The North American Company, at a rate of one share of such stock of Pacific Gas and Electric Company on each one hundred shares of the outstanding common stock of The North American Company. In lieu of certificates for fractions of shares of stock of Pacific Gas and Electric Company, cash will be paid at the rate of 41 cents for each 1/100th of a share of such stock of Pacific Gas and Electric Company, this rate being based on the approximate market price of $41.00 per share as of August 2, 1945, the date the proposed dividend was declared.

Said declaration having been filed on the 3d day of August 1945, and notice of filing having been duly given in the manner and form prescribed by Rule U-23 under said act and the Commission not having received a request for a hearing with respect to said declaration within the period specified in such notice, or otherwise, and not having ordered a hearing thereon; and

The North American Company having requested that the Commission issue its order on or before August 25, 1945; and

The Commission finding that the requirements of section 12 (d) and Rules U-43 and U-44 are satisfied, that no adverse findings are necessary thereunder, and that action upon said declaration should be accelerated, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration to become effective;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that said declaration be and the same is hereby permitted to become effective forthwith.

By the Commission.

SUBPART A—INTRODUCTION

§ 801.101 *Publication of procurement regulations.* Prior to July 1, 1942, it was the practice of the War Department to publish procurement regulations in the form of Army Regulations, War Department Procurement Circulars, and otherwise. As of July 1, 1942, the present numbered series of procurement regulations was issued to replace all other procurement regulations in effect as of that date. As changes in or additions to these regulations become necessary, they are currently effected by the publication of revisions.

§ 801.103 *Rescission of other regulations, instructions and directives.* (a) Effective July 1, 1942, all War Department Procurement Circulars not theretofore rescinded, and the temporary series of procurement regulations with numbers followed by "T", have been rescinded.

(b) All regulations, instructions and directives inconsistent with these procurement regulations as originally issued under date of July 1, 1942, or with any revision thereof, shall be deemed rescinded as of July 1, 1942, or as of the date of such revision, as the case may be.

SUBPART B—DISTRIBUTION OF PROCUREMENT REGULATIONS

§ 801.106 *Distribution of procurement regulations.*

§ 801.106–1 *Distribution to military establishments of complete sets of procurement regulations and of revisions to complete sets.* (a) Complete sets of procurement regulations and of revisions to complete sets are distributed by Legal Branch, Office, Director of Matériel, Headquarters, Army Service Forces, Room 5C–659, The Pentagon, Washington 25, D. C.

(b) All communications pertaining to the distribution of complete sets of procurement regulations and of revisions to complete sets, including:

(1) Requests for complete sets;

(2) Requests for increase or decrease in the number of copies of revisions to be furnished;

(3) Requests for copies of particular revisions;

(4) Requests for missing pages or tab cards;

(5) Requests for change of address to which revisions are to be forwarded;

(6) Requests that mailings of revisions be discontinued; should be addressed and forwarded directly to the address mentioned in paragraph (a) of this section.

(c) Any request for complete sets should specifically indicate whether or not any addition or other change is to be made in the mailing list for future revisions.

(d) Any request which involves any increase or decrease in the number of copies of revisions to be furnished should specify not only the new number of copies desired but also the number of copies currently being furnished. In addition, any such request and any request for a change of address should specify the mailing address (as appearing on the envelope or package in which revisions are received) to which revisions currently are being forwarded.

(e) Any request which involves an increase in the number of copies of complete sets being maintained at an installation, or an increase in the number of copies of revisions to be forwarded to an installation, should be accompanied by information concerning the need for the increase.

(f) Communications (including requests mentioned in this section) pertaining to the distribution of procurement regulations may be by letter or memorandum. Such requests need not be in the form of formal requisitions.

(g) Except as indicated in § 801.106–2, no distribution is made of any individual procurement regulation in separate form.

§ 801.106–2 *Distribution to military establishments of Procurement Regulation No. 7 and Joint Termination Regulation (PR 15 in separate form).* (a) Procurement Regulation No. 7 and the Joint Termination Regulation (PR 15) are included in complete sets of Procurement Regulations and in revisions to complete sets. Section 801.106–1 relates to distribution of complete sets and revisions to complete sets. In addition, Procurement Regulation No. 7 and the Joint Termination Regulation (PR 15) and changes thereto, in separate form, are available to military establishments as indicated in paragraphs (b) and (c) of this section.

(b) Procurement Regulation No. 7 and changes thereto, in separate loose-leaf form, are distributed through Adjutant General Depots and, in case of the Army Air Forces, through ATSC District Offices and Headquarters, Air Technical Service Command, Wright Field, Dayton, Ohio. Requisitions for Procurement Regulation No. 7 and changes thereto, in separate form, should be addressed and forwarded to the appropriate distribution office and not to the address mentioned in § 801.106–1 (a).

(c) The Joint Termination Regulation (PR 15) and changes thereto, in separate loose-leaf form, are distributed through the Readjustment Distribution Center, Federal Office Building, 6th Floor, 90 Church Street, New York 7, New York. Requests for the Joint Termination Regulation and changes thereto, in separate form, should be addressed and forwarded to that office and not to the address mentioned in § 801.106–1 (a).

(d) When requesting Procurement Regulation No. 7 or the Joint Termination Regulation (PR 15), in separate form, the requesting installation should specify whether or not any addition or other change is to be made in the mailing list for the receipt of future changes to such regulations.

§ 801.106–3 *Availability of procurement regulations to private concerns.* (a) The complete procurement regulations, and the changes made by each revision, are reprinted in the FEDERAL REGISTER, which is available, at a nominal charge, from the Superintendent of Documents, Washington 25, D. C. The filing sheet of each revision to complete sets of procurement regulations lists the particular issues of the FEDERAL REGISTER in which such reprinting has taken place. In addition, the complete procurement regulations, or in certain cases particular procurement regulations, are also reprinted in certain commercial services.

(b) The Joint Termination Regulation (PR 15) and changes thereto, in separate loose-leaf form, are available in limited quantities, free of charge, to war contractors and allied organizations from the Joint Termination Regulation Distribution Center, Room 633, 90 Church Street, New York 7, New York. A mailing list is maintained by that office for the forwarding of future changes.

(c) Procurement Regulation No. 7 and changes thereto, in separate loose-leaf form, are available on a subscription basis, at a nominal charge, from the Superintendent of Documents, Washington 25, D. C. A mailing list is maintained by that office for the forwarding of future changes.

SUBPART C—APPLICABILITY OF REGULATIONS

§ 801.107 *Authority with respect to procurement.*

§ 801.107–1 *Basic statute.* Section 5a of the National Defense Act, as amended by section 2 of the act of December 16, 1940, provides in part as follows:

Hereafter the Secretary of War, in addition to other duties imposed upon him by law, shall be charged with the supervision of the procurement of all military supplies and other business of the War Department pertaining thereto and the assurance of adequate provision for the mobilization of matériel and industrial organizations essential to wartime needs, and he may assign to the Under Secretary of War and The Assistant Secretary of War such duties in connection therewith as he may deem proper. (10 U.S.C. 1193; M.L. 1939, sec. 897)

By the terms of the act of December 15, 1944 (Public Law 488, 78th Congress) the above-quoted provision will remain in force until six months after the termination of the present war or until such earlier date as Congress or the President may designate.

§ 801.107–2 *Delegations from the Secretary of War to the Under Secretary of War.* (a) On April 21, 1941, the Secretary of War issued the following order:

Pursuant to authority contained in the Act of December 16, 1940 (Public No. 891—76th Congress):

a. The duties and responsibilities placed on the Secretary of War by Section 5a of the National Defense Act, as amended, are hereby assigned to the Under Secretary of War.

b. Chiefs of branches of the Army will report directly to the Under Secretary of War regarding all matters of procurement.

c. The Under Secretary of War will continue to perform the duties and discharge the responsibilities placed on the Assistant Secretary of War by Army Regulations No. 5–5, July 16, 1932, Orders E. War Department, November 28, 1933, and all other existing orders or instructions.

d. The office heretofore designated as the Office of The Assistant Secretary of War will hereafter be designated the Office of the Under Secretary of War. All officers and civilian employees now detailed to the Office of the Under Secretary of War or the Office of The Assistant Secretary of War from the branches engaged in procurement, and all other officers and employees now on duty in the Office of the Under Secretary of War or in the Office of The Assistant Secretary of War, shall continue on such detail and duty in the Office of the Under Secretary of War.

e. During the absence or disability of the Under Secretary of War, or in the event of a temporary vacancy in that office, the duties and responsibilities of the Under Secretary of War shall be performed and discharged by The Assistant Secretary of War, and in the case of the absence or disability of both the Under Secretary of War and The Assistant Secretary of War, or in the event of a temporary vacancy in both of said offices, the duties and responsibilities of the Under Secretary of War shall be performed and discharged by the Assistant Secretary of War for Air

(b) Under date of December 30, 1941, the Secretary of War issued the following memorandum:

MEMORANDUM for the Under Secretary of War.

Subject: Delegation of Authority under Executive Order No. 9001.

The powers delegated to the War Department by Executive Order No. 9001, dated December 27, 1941, to enter into contracts and into amendments or modifications of contracts heretofore or hereafter made, and to make advance, progress, and other payments thereon, without regard to the provisions of law relating to the making, performance, amendment, or modification of contracts are hereby further delegated to the Under Secretary of War. He may, pursuant to Executive Order No. 9001, exercise such powers either personally or through such officer or officers or civilian officials of the War Department as he may direct, and he may confer upon such officers or civilian officials the power to make further delegations of such powers within the War Department.

HENRY L. STIMSON,
Secretary of War.

(c) War Department Circular 59, issued under date of March 2, 1942, provides in part as follows:

1. The President has approved a reorganization of the War Department and the Army, *effective March 9, 1942.* Pending the issuance of detailed instructions and changes in regulation, a summary description of the new organization is furnished for the information and guidance of all concerned.

• • • • • •

e. Supply arms and services and War Department offices and agencies will come under the direct command of the Commanding General, Services of Supply as indicated below:

(1) Those parts of the office of the Under Secretary of War engaged in functions of procurement and industrial mobilization.

• • • • • •

b. The mission of the Army Air Forces is to procure and maintain equipment peculiar to the Army Air Forces, and to provide air force units properly organized, trained, and equipped for combat operations. Procurement and related functions will be executed under the direction of the Under Secretary of War.

• • • • • •

7. Services of Supply. a. The duties and responsibilities placed on the Secretary of War by Section 5a of the National Defense Act, as amended, shall continue to be performed by the Under Secretary of War. The Director of Production shall continue to perform his present services reporting direct to the Under Secretary of War.

b. The Commanding General, Services of Supply, shall, on procurement and related matters, act under the direction of the Under Secretary of War and shall, on military matters, report to the Chief of Staff. The Commanding General, Services of Supply, is charged in general with the functions, responsibilities, and authorities of command authorized by law, Army Regulations, and custom over individuals and units assigned to the Services of Supply.

c. The mission of the Services of Supply is to provide services and supplies to meet military requirements except those peculiar to the Army Air Forces. Procurement and related functions will be executed under the direction of the Under Secretary of War.

d. The Services of Supply consolidates under the jurisdiction of the Commanding General, Services of Supply, the supply arms and services, certain administrative services of the War Department, certain parts of the office of the Under Secretary of War, certain boards and committees, general depots, ports of embarkation and auxiliaries, and corps areas, with such amalgamation, reallocation of duties, and reorganization as is necessary or advisable.

e. The following duties are specifically assigned to the Services of Supply:

(1) The direction and supervision of engineering research, development, procurement, storage, and distribution of supplies and equipment, except those peculiar to the Army Air Forces.

(2) The establishment of purchasing and contractual policies and procedure.

(3) Transportation and traffic control.

(4) Construction for the Army.

(5) The consolidation of programs and requirements of the Army with the programs and requirements received from Defense Aid and the Navy and procured by the Army.

§ 801.107–3 *Responsibilities of the Under Secretary of War fixed by AR 5–5.* Although Army Regulation 5–5 was rescinded as of July 1, 1942, and not reissued until April 2, 1945, the portion of that regulation relating to the responsibilities of The Assistant Secretary of War (now the Under Secretary of War), as in effect just prior to its rescission, is incorporated by reference in paragraph c of the above quoted order of the Secretary of War, dated April 21, 1941. The portion of said regulation which is thus continued in force reads as follows:

• • • • • •

b. Definition. Under section 5a, national defense act, as amended, the Assistant Secretary of War, under the direction of the Secretary of War, is charged, among other duties, with the supervision of all administrative and operative functions and installations of the Military Establishment concerned in the acquisition or production of military supplies. The types of matériel desired having been specified by the proper agencies, the responsibilities of the Assistant Secretary of War, under the statute, begin with the necessary preliminary and preparatory measures for the procurement or production of such matériel, and end with its delivery to the proper supply arms and services for issue.

c. Supervision over procurement includes preparation of plans and policies and supervision of activities concerning—

(1) Research and development of substitutes for critical and strategic materials and of materials, methods or processes, and facilities for manufacturing purposes.

(2) The procurement of materials and facilities for manufacturing purposes.

(3) Preparation of United States Army manufacturing specifications and the commercial standardization activities of the supply arms and services. See AR 850–25.

(4) Procurement of all military supplies by purchase, production, or other means, whether obtained for experimental, service test, or issue purposes; inspection, test, acceptance, and storage of supplies incident to procurement; the procurement of real estate and the construction, operation, maintenance, repair, and inspection of all establishments and facilities for the foregoing purposes.

(5) Procurement of supplies for other Government departments or for foreign governments at their request.

(6) The acquisition and use of patent rights by the War Department and the Army.

(7) The transfer or exchange of military supplies in conformity with approved policies.

(8) The renovation of matériel on a production basis at an establishment functioning under the direct control of a chief of a supply arm or service in accordance with approved policies and projects.

(9) The collection of information and compilation of data pertaining to sources of supply.

(10) The assurance of adequate and timely provisions for the mobilization of the matériel and industrial organizations essential to war-time needs, including arrangements in the supply arms and services and arrangements with the agencies outside the War Department.

(11) The Army Industrial College, Washington, D. C.

(12) Instruction in business administration at civilian institutions.

(13) Fiscal matters pertinent to procurement in accordance with instructions contained in paragraph 1b (2) and (4) of orders E, War Department, October 29, 1925.

(14) Legislation relating to procurement.

(15) Civilian personnel engaged on procurement duties.

(16) Any other matters pertaining solely to the business activities of the War Department in the procurement of military supplies. The determining factor in all cases will be whether the aspect of the particular activity concerned in the given case is incident to *procurement.* If it is, the statute places it under the supervision of the Assistant Secretary of War.

d. The Assistant Secretary of War will represent the War Department—

(1) On all interdepartmental boards for the standardization of—

(*a*) Specifications.

(*b*) Procurement procedure.

(2) On the army and Navy Munitions Board.

(3) In dealing with any interdepartmental or superdepartmental agency that may be created in connection with the allocation of matériel or industrial facilities to various uses.

(4) In arranging necessary contacts with other standardization bodies such as the American Engineering Standards Committee and the Division of Simplified Practice, Department of Commerce.

(5) On the Patents and Design Board. Sec. 10 (r), act July 2, 1926 (44 Stat. 788; U.S.C. 10:310 (r); sec. 2041, M. L., 1929).

(6) On the Advisory Air Coordination Committee.

(7) In dealing with any interdepartmental or superdepartmental agency that may be created in connection with aeronautical matters.

c. Chiefs of supply arms and services will report directly to and will correspond directly with the Assistant Secretary of War on all matters covered above.

2. *Delegated duties.* The following duties are delegated to the Assistant Secretary of War and are classified as follows:

a. Military.

(1) (*a*) Matters pertaining to the Militia Bureau and the National Guard.

(*b*) Matters pertaining to the Officers' Reserve Corps and the Organized Reserves.

(*c*) Clemency cases in mitigation or remission of sentence by courts-martial.

(2) Correspondence on the matters in (1) above will follow the usual military channels.

b. Nonmilitary. (1) (*a*) The sale or disposal of surplus supplies, equipment, plants, land, or other facilities.

(*b*) Claims, foreign or domestic, by or against the War Department, including those resulting from the operation of aircraft.

(*c*) The purchase and sale of real estate; the lease of real estate for the use of the War Department; the granting of leases or licenses to individuals, corporations, or organizations for the temporary use of land, buildings, or other property under War Department control; and easements or rights of way across military reservations, in accordance with approved policies.

(*d*) The activities relating to the National Board for the Promotion of Rifle Practice and to civilian marksmanship.

(*e*) Approval of expenditures from funds allotted, and of public vouchers for expenditures by the disbursing clerk of the War Department; approval of the program of expenditures by the National Board for the Promotion of Rifle Practice; routine expenditures from the appropriation "Contingencies of the Army"; and expenditures from "Contingencies, Military Information Division," for extraordinary expenses of military attachés and observers abroad.

(*f*) Matters relating to national military parks and national monuments.

(*g*) Matters relating to national cemeteries in the United States and abroad.

(*h*) Authorization of advertising.

(*i*) Regulations for burial expenses of deceased military personnel [AR 30–1830].

(*j*) The use of patent rights by the War Department and the Army.

(*k*) Bridge permits and extensions of time for completion of bridges.

(*l*) Disposition of engineer property pertaining to rivers and harbors.

(*m*) Permits for laying submarine cable.

(2) Correspondence on the matters in (1) above will be direct between the office of the Assistant Secretary of War and the agency or office concerned unless otherwise directed.

The foregoing provisions of this section were confirmed by paragraph 2d of Army Regulation 5–5, as reissued on April 2, 1945.

§ 801.107–4 *Orders, directives, regulations, and instructions relating to procurement policy, organization or procedure.* Under date of September 16, 1943, the Under Secretary of War addressed the following memorandum to the Commanding General, Army Air Forces and the Commanding General, Army Service Forces:

MEMORANDUM for: The Commanding General, Army Air Forces; The Commanding General, Army Service Forces.

1. Until otherwise directed, existing orders, directives, regulations and instructions with reference to procurement policy, organization or procedure, which have heretofore been issued by the Under Secretary of War, or by The Commanding General, Army Service Forces (formerly Services of Supply), or by higher authority, are applicable to the Army Air Forces as well as the Army Service Forces, unless otherwise specifically indicated.

2. Uniformity of policies and procedures in procurement and related matters will be accomplished in so far as practicable. To achieve this objective the following procedure is prescribed:

a. Prior to their issuance, important orders, directives, regulations or instructions affecting major policies on procurement or related matters will be presented to the Under Secretary of War for his approval.

b. All other orders, directives, regulations or instructions to carry out approved policies will be processed and issued by the Commanding General, Army Service Forces, without reference to the Under Secretary of War.

c. Orders, directives, regulations and instructions indicated in paragraphs a. and b. above will be issued by the Commanding General, Army Service Forces. They will be applicable to the Army Air Forces unless otherwise specifically indicated. Where so applicable, they shall, prior to their issuance, be cleared in each case with the Commanding General, Army Air Forces, through an Army Air Forces Liaison Officer designated by him. The Director, Purchases Division, Army Service Forces, will be responsible for referring such orders, directives, regulations and instructions to the Army Air Forces Liaison Officer for clearance. If the Army Air Forces disagree with the proposal in so far as it would be applicable to them, the matter will be submitted to the Under Secretary of War for decision.

d. The Commanding General, Army Service Forces, will furnish the Commanding General, Army Air Forces, with such number of copies of said orders, directives, regulations and instructions as the latter desires for redistribution to agencies under his jurisdiction.

3. This memorandum will supersede my communication dated 9 April 1942 to The Commanding General, Matériel Command, Army Air Forces and The Commanding General, Services of Supply, on the same subject. [The superseded memorandum was formerly set forth in this section].

ROBERT P. PATTERSON,
Under Secretary of War.

§ 801.107–5 *Delegations from the Under Secretary of War*—(a) *To the Commanding General, Army Service Forces.* Under date of September 15, 1942, the following memorandum was issued by the Under Secretary of War:

MEMORANDUM for the Commanding General, Services of Supply.

Subject: Delegation of Authority.

1. In confirmation of and supplementing the memorandum of the undersigned to the Commanding General, Services of Supply dated June 29, 1942 on the above subject, authority is hereby delegated to the Commanding General, Services of Supply, to act for the Secretary of War or the Under Secretary of War in clearing, approving, and taking other action in respect to contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts, and other contractual instruments; to make, authorize and approve sales or contracts for the sale of equipment, supplies and material; to prescribe and modify regulations in respect of procurement; and to approve new War Department contract forms and deviations from approved forms of contracts, including all authority heretofore delegated to the undersigned by the Secretary of War pursuant to Public Law 354, 77th Congress and Executive Order 9001.

2. Without any limitation of the powers and authority hereinbefore granted, there is hereby vested in the Commanding General, Services of Supply, pursuant to and subject to the provisions of Title II of the First War Powers Act (Public Law 354, 77th Congress) and Executive Order 9001 the authority to take the following action:

a. He may enter into, amend or modify contracts, may make purchases, may place orders, and may make advance progress and other payments on such contracts, purchases and orders without regard to the provisions of law relating to the making, performance, amendment or modification of contracts.

b. The contracts hereby authorized to be made include agreements of all kinds (whether in the form of letters of intent, purchase orders, or otherwise) for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of war, or for the invention, development, or production of, or research concerning any such things, including but not limited to, aircraft, buildings, vessels, arms, armament, equipment, or supplies of any kind, or any portion thereof, including plans, spare parts and equipment therefor, materials, supplies, facilities, utilities, machinery, machine tools, and any other equipment, without any restriction of any kind, either as to type, character, location or form.

c. Whenever, in the judgment of the Commanding General, Services of Supply (or of an officer or civilian employee of the War Department to whom authority has been delegated to exercise such powers), the prosecution of the war is thereby facilitated, he may amend or modify contracts heretofore or hereafter made for the purpose of (1) obtaining continued operations by contractors engaged in war production, (2) encouraging greater diligence on the part of contractors, (3) protecting contractors from the consequences of unforeseen or unexpected events, (4) adjusting contracts to new conditions and circumstances, including those created by the rules, orders, instructions and determinations of Government departments, or (5) for any other purposes for facilitating the prosecution of the war.

Such amendments and modifications of contracts may be without consideration, other than the determination that the prosecution of the war will thereby be facilitated, and may be utilized to accomplish the same things as any original contract could accomplish, irrespective of the time or circumstances of the making of or the form of the contract amended or modified, or of the amending or modifying contract, and irrespective of rights which may have accrued under the contract or the amendments or modifications thereof. The powers hereby delegated may be exercised by (1) supplemental agreements which modify or amend or settle claims by or against the United States arising under or with respect to any contracts heretofore or hereafter made; (2) agreements with contractors or obligors modifying or releasing accrued obligations of any sort, including accrued liquidated damages or liability under any surety or other bond; or (3) supplemental agreements and change orders suspending or modifying the operation of existing contracts as yet uncompleted, and providing for the payment by the Government of the damages incurred by a contractor by reason of such suspension or modification; *provided* in each instance that full performance by the contractor under such contract, or under a series of contracts between the United States and the same contractor for substantially the same goods, shall not have been completed and final payment made thereunder. The supplemental contracts hereby authorized to be made include agreements of all kinds for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of the war, or for the invention, development or production of, or research concerning any such things.

d. He may waive bid, payment, performance or other bonds, and dispense with advertising for bids and competitive bidding.

3. Nothing herein shall affect the existing authority of the Commanding General, Services of Supply, as to matters relating to the Army Air Forces, the extent of which is set forth in the letter of April 9, 1942, from the Under Secretary of War to the Commanding General, Matériel Command, Army Air Forces, and to the Commanding General, Services of Supply, or any authority in respect of Army Air Force contracts and other contractual instruments, delegated to Colonel Albert J. Browning, A. U. S., by memoranda of the undersigned dated June 1, 1942, and September 15, 1942, nor shall anything herein contained be construed to limit or affect the power and authority of any commander in any theatre of operation.

4. The Commanding General, Services of Supply, or any person acting by delegation from him in the exercise of the powers hereby granted, shall have power to ratify and approve any contractual documents entered into or action taken by others, which he himself might have entered into or taken by virtue of the powers hereby granted.

5. The powers, authority and discretion hereby conferred upon the Commanding General, Services of Supply, or any portion or portions thereof, may be redelegated by him to whomsoever he may designate, including without limitation the Director, Purchases Division, Services of Supply, with the power of redelegating such powers, in whole or in part, to any officer or officers or civilian official or officials of the War Department. In any delegation of power or authority hereunder there may be included such terms and conditions, if any, as the person making such delegation may deem appropriate to ensure proper exercise of such power and authority in the interest of the United States and of the prosecution of the war.

ROBERT P. PATTERSON,
Under Secretary of War.

The memorandum of the Under Secretary of War, dated June 29, 1942, referred to in above memorandum reads as follows:

MEMORANDUM for the Commanding General, Services of Supply.

Subject: Delegation of Authority.

1. Authority is hereby delegated to the Commanding General, Services of Supply, to act for the Secretary of War or the Under Secretary of War in clearing, approving, and taking other action in respect to contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts, and other contractual instruments; to approve sales of equipment, supplies and material; and to approve new War Department contract forms and deviations from approved forms of contracts, including all authority heretofore delegated to the undersigned by the Secretary of War pursuant to Public Law 354, 77th Congress and Executive Order No. 9001.

2. The Commanding General, Services of Supply, is authorized further to delegate the above powers or any portion thereof to whomsoever he may designate, with the power of redelegation.

3. The following memoranda are each hereby revoked; viz: (1) Memorandum for Mr. Albert J. Browning, dated March 13, 1942, delegating certain authority to the Chief of the Purchase Branch, Procurement and Distribution Division, Services of Supply, and (2) Memorandum for Colonel Albert J. Browning, A. U. S., dated June 2, 1942, delegating certain authority to him, as Chief of the Purchases Branch, Procurement and Distribution Division, Services of Supply. Nothing herein contained shall be construed as revoking the delegation of authority to Chiefs of Supply Services contained in Procurement Circular No. 91, dated December 29, 1941, and Procurement Circular No. 17, dated February 24, 1942, nor any delegation of authority heretofore made by the Commanding General, Services of Supply, or the Chief, Purchases Branch, Procurement and Distribution Division.

4. Nothing herein shall affect the existing authority of the Commanding General, Services of Supply, as to matters relating to the Army Air Forces, the extent of which is set forth in the letter of April 9, 1942, from the Under Secretary of War to the Commanding General, Matériel Command, Army Air Forces, and to the Commanding General, Services of Supply, or any authority in respect of Army Air Force contracts and other contractual instruments, delegated to Colonel Albert J. Browning, A. U. S., by memorandum of the undersigned, dated June 1, 1942.

ROBERT P. PATTERSON,
Under Secretary of War.

(b) *To the Chief of Staff.* Under date of January 11, 1943, the following memorandum was issued by the Under Secretary of War:

MEMORANDUM for The Chief of Staff:

1. There is hereby delegated to the Chief of Staff full power, in connection with operations subject to his direction and control, to exercise any of the authority and powers pursuant to Executive Order No. 9001 delegated to the undersigned by the Secretary of War by instrument dated December 30, 1941 [see paragraph (b) of this section] The Chief of Staff may, pursuant to Executive Order No. 9001, exercise such powers either personally or through such officer or officers or civilian officials of the War Department as he may direct and he may confer upon such officers or civilian officials the power to make further delegations of such powers within the War Department.

2. All action heretofore taken by the Chief of Staff or by the direction of the Chief of Staff, that would by this delegation be authorized, is hereby ratified and confirmed. There is hereby expressly conferred upon the Chief of Staff the power and authority to ratify and confirm any action heretofore taken by any person responsible directly or indirectly to the Chief of Staff that would by this delegation of authority be authorized.

Dated this 11th day of January, 1943.

ROBERT P. PATTERSON,
Under Secretary of War.

§ 801.107–6 *Delegations from the Commanding General, Services of Supply, to the Director, Purchases Division.* Under date of September 16, 1942, the following memorandum was issued by the Commanding General, Services of Supply:

MEMORANDUM for Director, Purchases Division.

Subject: Delegation of Authority.

In confirmation of and supplementing the memorandum of the undersigned, dated June 29, 1942, to the Chief, Purchases Branch, Procurement and Distribution Division, Services of Supply (now the Director, Purchases Division, Services of Supply), the authority delegated to the Commanding General, Services of Supply, by memorandum of the Under Secretary of War, dated September 15, 1942 to act for the Secretary of War or the Under Secretary of War in clearing, approving, and taking other action in respect to contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts and other contractual instruments, to make, authorize and approve sales or contracts for the sale of equipment, supplies and material and to approve War Department contract forms and deviations from approved forms, including all authority heretofore delegated to the undersigned pursuant to Public Law 354, 77th Congress, and Executive Order 9001 (including without limitation all authority pursuant to Public Law 354 and Executive Order 9001 delegated to the undersigned by the Under Secretary of War by the memorandum dated September 15, 1942), is hereby delegated to the Director, Purchases Division, Services of Supply. The Director, Purchases Division, is authorized to delegate further the above powers, authority, and discretions or any portion thereof to any officer or officers, or civilian official or officials of the War Department he may designate, with the power of redelegation. In any delegation of power or authority hereunder there may be included such terms and conditions, if any, as the person making such delegation may deem appropriate to ensure proper exercise of such power and authority in the interest of the United States and of the prosecution of the War.

BREHON SOMERVELL,
Lieutenant General, Commanding.

The memorandum of the Commanding General dated June 29, 1942, referred to in the above memorandum reads as follows:

MEMORANDUM for Chief, Purchases Branch, Procurement and Distribution Division.

Subject: Delegation of Authority.

The authority delegated to the Commanding General, Services of Supply, by memorandum of the Under Secretary of War, dated June 29, 1942, to act for the Secretary of War or the Under Secretary of War in clearing, approving, and taking other action in respect to contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts and other contractual instruments, to approve sales of equipment, supplies and material and to approve War Department contract forms and deviations from approved forms, including all authority heretofore delegated to the undersigned pursuant to Public Law 354, 77th Congress, and Executive Order 9001 (including without limitation all authority pursuant to Public Law 354 and Executive Order 9001 delegated to the undersigned by the Under Secretary of War by the memorandum dated September 15, 1942), is hereby delegated to the Director, Purchases Division, Services of Supply. The Director, Purchases Division, is authorized to delegate further the above powers or any portion thereof to any officer or officers, or civilian official or officials of the War Department he may designate, with the power of redelegation. In any delegation of power or authority hereunder there may be included such terms and conditions, if any, as the person making such delegation may deem appropriate to ensure proper exercise of such power and authority in the interest of the United States and of the prosecution of the War.

BREHON SOMERVELL,
Lieutenant General, Commanding.

§ 801.107–7 *Delegations from the Under Secretary of War to the Special Representative of the Under Secretary of War for the Army Air Forces.* Under date of September 15, 1942, the following memorandum was issued by the Under Secretary of War:

MEMORANDUM for Colonel Albert J. Browning, A. U. S., Special Representative of the Under Secretary of War.

Subject: Delegation of Authority.

1. In confirmation of and supplementing the memorandum of the undersigned to Colonel Albert J. Browning, A. U. S., dated June 1, 1942, on the above subject, authority is hereby delegated to Colonel Browning to act for the Secretary of War or the Under Secretary of War, in clearing, approving, and taking other action in respect to Army Air Force contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts, and other contractual instruments; to make, authorize and approve sales or contracts for the sale of Army Air Force equipment, supplies and material; and to approve new War Department Army Air Force contract forms and

deviations from approved forms of contracts, including all authority with respect to Army Air Force contracts and agreements of all kinds heretofore delegated to the undersigned by the Secretary of War pursuant to Public Law 354, 77th Congress and Executive Order No. 9001. This memorandum, however, shall not affect the existing authority of the Commanding General, Services of Supply, as to matters relating to the Air Forces, the extent of which is set forth in the letter dated April 9, 1942 from the Under Secretary of War to the Commanding General, Matériel Command, Army Air Forces, and to the Commanding General, Services of Supply. Colonel Browning, and any person or persons designated by him as such, acting under the authority herein contained will act as "Special Representative of the Under Secretary of War."

2. Without any limitation of the powers and authority hereinbefore granted, there is hereby vested in Colonel Browning, pursuant to and subject to the provisions of Title II of the First War Powers Act (Public Law 354, 77th Congress) and Executive Order No. 9001 the authority to take the following action:

a. He may enter into, amend or modify contracts, may make purchases, may place orders, and may make advance progress and other payments on such contracts, purchases and orders without regard to the provisions of law relative to the making, performance, amendment, or modification of contracts.

b. The contracts hereby authorized to be made include agreements of all kinds (whether in the form of letters of intent, purchase orders, or otherwise) for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of war, or for the invention, development, or production of, or research concerning any such things, including but not limited to, aircraft, buildings, vessels, arms, armament, equipment, or supplies of any kind, or any portion thereof, including plans, spare parts and equipment therefor, materials, supplies, facilities, utilities machinery, machine tools, and any other equipment, without any restriction of any kind, either as to type, character, location or form.

c. Whenever, in the judgment of Colonel Browning, (or of an officer or civilian employee of the War Department to whom authority has been delegated to exercise such powers), the prosecution of the war is thereby facilitated, he may amend or modify contracts heretofore or hereafter made for the purpose of (a) obtaining continued operations by contractors engaged in war production, (b) encouraging greater diligence on the part of contractors, (c) protecting contractors from the consequences of unforeseen or unexpected events, (d) adjusting contracts to new conditions and circumstances, including those created by the rules, orders, instructions and determinations of Government departments, or (e) for any other purposes for facilitating the prosecution of the war.

Such amendments and modifications of contracts may be made without consideration, other than the determination that the prosecution of the war will thereby be facilitated, and may be utilized to accomplish the same things as any original contract could accomplish, irrespective of the time or circumstances of the making of or the form of the contract amended or modified, or of the amending or modifying contract, and irrespective of rights which may have accrued under the contract or the amendments or modifications thereof. The powers hereby delegated may be exercised by (a) supplemental agreements which modify or amend or settle claims by or against the United States arising under or with respect to any contacts heretofore or hereafter made; (b) agreements with contractors or obligors modifying or releasing accrued obligations of any sort, including accrued liquidated damages or liability under any surety or other bond; or (c) supplemental agreements and change orders suspending or modifying the operation of existing contracts as yet uncompleted, and providing for the payment by the Government of the damages incurred by a contractor by reason of such suspension or modification; *Provided* in each instance that full performance by the contractor under such contract, or under a series of contracts between the United States and the same contractor for substantially the same goods, shall not have been completed and final payment made thereunder. The supplemental contracts hereby authorized to be made include agreements of all kinds for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of the war, or for the invention, development or production of, or research concerning any such things.

d. He may waive bid, payment, performance, or other bonds, and dispense with advertising for bids and competitive bidding.

4. Colonel Browning, or any person acting by delegation from him in the exercise of the powers hereby granted, shall have power to ratify and approve any contractual documents entered into or action taken by others, which he himself might have entered into or taken by virtue of the powers hereby granted.

5. The powers, authority and discretion hereby conferred upon Colonel Browning, or any portion or portions thereof, may be redelegated by him to whomsoever he may designate, with the power of redelegating such powers, in whole or in part, to any officer or officers or civilian official or officials of the War Department. In any delegation of power or authority hereunder there may be included such terms and conditions, if any, as the person making such delegation may deem appropriate to ensure proper exercise of such power and authority in the interest of the United States and of the prosecution of the war.

ROBERT P. PATTERSON,
Under Secretary of War.

The memorandum of the Under Secretary of War, dated June 1, 1942, referred to in the above memorandum, reads as follows:

MEMORANDUM for Colonel Albert J. Browning, A. U. S.

Authority is hereby delegated to Colonel Albert J. Browning, A. U. S. to act for the Secretary of War and/or the Under Secretary of War in clearing, approving and taking other action in respect to Army Air Force contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts and other contractual instruments; to approve sales of Army Air Force equipment, supplies and materials; and to approve new War Department Army Air Force contract forms and deviations from approved forms of Army Air Force contracts.

The foregoing authority, or any portion thereof, is likewise delegated to such person or persons as may be designated in writing by Colonel Albert J. Browning, A. U. S.

The individual acting under the foregoing authority will so act as "Special Representative of the Under Secretary of War."

The foregoing authority shall remain in full force and effect until revoked by this office.

By direction of the Secretary of War:

ROBERT P. PATTERSON,
Under Secretary of War.

§ 801.107–8 *Delegation of authority to Legal Assistant to Director of Matériel and to Chief, Legal Branch to approve contract forms.* Under date of November 12, 1943 the following memorandum was issued:

MEMORANDUM for Legal Assistant to the Director of Matériel and to the Chief, Legal Branch, Director of Matériel.

Subject: Delegation of Authority to Approve Contract Forms and Deviations from Approved Forms.

The authority delegated to the Director, Purchases Division, by the Commanding General, Services of Supply, dated September 15, 1942 and the authority delegated to me by the Under Secretary of War, dated September 15, 1942 (In respect of matters relating to the Army Air Forces) to act for the Secretary of War or the Under Secretary of War in approving War Department contract forms and deviations from approved forms is hereby further delegated to the Legal Assistant to the Director of Matériel, and to the Chief, Legal Branch, Director of Matériel, Army Service Forces, or either of them, and to any person who for the time being may be acting in either capacity.

ALBERT J. BROWNING,
Brigadier General, General Staff Corps,
Director, Purchases Division

§ 801.107–9 *Authority delegated by these procurement regulations.* These regulations to the extent, and only to the extent, that they actually confer authority upon the chiefs of the technical services and other officers or civilian officials of the War Department to exercise power to enter into contracts and into amendments or modifications of contracts heretofore or hereafter made and to make advance, progress and other payments thereon shall constitute a redelegation by the Commanding General, Army Service Forces of the authority delegated to him as set forth in § 801.107–5, and by the Special Representative of the Under Secretary of War of the authority delegated to him, as set forth in § 807.107–7. The authority granted as provided in the preceding sentence, of course, does not dispense with the necessity of obtaining any approval expressly specified in any paragraph of these procurement regulations. Authority conferred upon any of the chiefs of the technical services under any paragraph of these procurement regulations may be exercised by the chiefs of the technical services, respectively, by redelegation or otherwise, through such officer or officers or civilian official or officials of the War Department as may be designated by them or by any person authorized by them to make such designation, with such powers of delegation or successive redelegation as they may deem appropriate; subject, however, to any provisions in the particular section of this chapter.

(a) Forbidding the assignment or delegation of the authority mentioned in such section, or

(b) Imposing limitations upon the assignment, delegation or exercise of such authority.

The exercise prior to the date of these regulations of any such authority by any such officer or officers or civilian official or officials of the War Department is hereby ratified and confirmed in all respects.

§ 801.107–10 Since the regulations are generally declaratory of policy only, it will be necessary for the chief of each technical service to publish appropriate instructions on procedure.

§ 801.108 *Applicability of these procurement regulations.*

§ 801.108–1 *Preliminary definitions.* (a) The term "procurement activities", as used in § 801.108–2, includes all such activities except the acquisition and disposal of real estate so far as the latter are governed and regulated by AR 100–60, 100–61, 100–62 and 100–63. The term comprises, but is not necessarily limited to, the procurement of supplies, material and equipment and the procurement of construction work, including that on rivers and harbors.

(b) The term "Army agencies", as used in § 801.108–2, includes all personnel of the Army, except as indicated in § 801.108–6. In particular, it includes the agencies referred to in §§ 801.108–4 and 801.108–5.

(c) The term "appropriated funds", as used in § 801.108–2, comprises all such funds, including such funds allocated to, as distinguished from appropriated to, the War Department; but does not include organizational, unit or similar funds.

§ 801.108–2 These procurement regulations are applicable to all procurement activities carried on by Army agencies with appropriated funds. If a project involves both a procurement activity and acquisition or disposal of real estate governed and regulated by the Army Regulations referred to in § 801.108–1, these procurement regulations are applicable so far as the procurement activity is concerned and are inapplicable so far as the acquisition or disposal of real estate is concerned.

§ 801.108–3 *Technical services and supply services.* Pursuant to Circular No. 30, Headquarters Army Service Forces, 15 May 1943, the designation of "supply services" is changed to "technical services". This change is being made in the procurement regulations as occasion arises to reprint pages for other reasons. In the meantime, the term "supply services" should be read as "technical services".

§ 801.108–4 *Army Air Forces.* (a) The regulations have been issued with the approval of the Army Air Forces, and shall, unless otherwise specifically indicated, apply to the Army Air Forces.

(b) Whenever used herein, unless otherwise specifically indicated, the term "technical services" shall be deemed to include the Army Air Forces, and the term "chiefs of the technical services" shall be deemed to include the Commanding General, Army Air Forces. Likewise, the terms "Director, Purchases Division, Headquarters, Army Service Forces" and "Director, Readjustment Division, Headquarters, Army Service Forces", when used in connection with action to be taken in respect of the Army Air Forces, shall, unless otherwise specifically indicated, be deemed to refer to the Special Representative of the Under Secretary of War designated for that purpose.

(c) Except as specifically otherwise provided, all communications to the Army Air Forces or to the Commanding General, Army Air Forces, relating to procurement, should be addressed to the attention of the Procurement Division, Assistant Chief of Air Staff, Matériel and Services.

§ 801.108–5 *Service commands.* These regulations are applicable to the procurement activities of the service commands. Where procurement is accomplished by a service command at the direction of the chief of a technical service or his duly authorized representative, the directions will contain references to the applicable sections of the procurement regulations and will also contain supplementary instructions where appropriate. In such a case, for the purposes of these regulations, the procurement shall be regarded as procurement by the technical service concerned and the contract will be regarded as a contract of that technical service. In all other cases, except as provided in § 803.318c–2, the service command accomplishing the procurement shall act independently of any technical service and the term "technical service" and the term "service", as used in these regulations, shall be deemed to refer to the service commands and the term "chiefs of technical services" and "chiefs of services" shall be deemed to refer to the Commanding Generals of the service commands. In connection with this section see § 801.108–3.

§ 801.108–6 *Procurement, contracting, termination and renegotiation authority of commanding officers outside continental United States.* (a) In general, each commanding officer in charge of United States armed forces outside the continental United States and its territories and possessions, including Alaska, who is responsible direct to the War Department, in connection with the procurement of supplies and facilities which he may deem necessary or appropriate to facilitate the prosecution of the war and to accomplish the mission confided in him or to protect the health, safety and welfare of the forces under his command, may disregard the provisions of the procurement regulations, Army Regulations and other regulations, circulars, or instructions, and any provisions or restrictions of the laws of the United States which may be applicable within the United States or any territory or possession thereof. This matter is more fully treated in section I of Circular No. 330, War Department, 1944, as amended by section IV, Circular No. 53, War Department, 1945.

(b) Likewise, in general, commanding officers in charge of United States armed forces outside the continental United States but within the territories or possessions of the United States, including Alaska, who is responsible direct to the War Department, in connection with the procurement of supplies and facilities which he may deem necessary or appropriate to facilitate the prosecution of the war and to accomplish the mission confided in him, or to protect the health, safety and welfare of the forces under his command, may disregard the provisions of the procurement regulations, Army Regulations or other War Department regulations, restrictions, circulars or instructions, and if he finds that to do so would facilitate the prosecution of the war, may disregard any provisions of law relating to procurement: *Provided, however,* That he is not authorized to disregard any of the provisions of (1) Title II of the First War Powers Act, 1941, (2) the restrictive provisions contained in Executive Order No. 9001 or (3) except where express authority to take such action is given in a particular case, any law approved after 18 December 1941. This matter is more fully set forth in section II of Circular No. 330, War Department, 1944, as amended by section IV, Circular No. 53, War Department, 1945.

(c) Each commanding officer referred to in paragraph (a) or (b) above is authorized to exercise, within the limit of his command, subject to any applicable regulations or instructions of the Director of Contract Settlement, or of the War Department, any authority and discretion granted to the War Department under the Contract Settlement Act of 1944. The chiefs of the several technical services, subject to any such applicable regulations or instructions, are also authorized by Subchapter C, to exercise with respect to any contracts or class of contracts being administered under their direction, and made or performed outside of the continental limits of the United States or in Alaska, any such authority and discretion granted by that Act. The procedures applicable to the termination of contracts set out in Subchapter C are not applicable outside the continental United States or in Alaska, but may furnish useful suggestions as to procedures appropriately to be followed in such areas. This matter is more fully treated in section III of Circular No. 330, War Department, 1944.

(d) Authority and discretion under the Renegotiation Act of 1943 and under the Renegotiation Act of 1942 have been delegated to each commanding officer in charge of United States armed forces in Alaska or outside the continental United States, who is responsible direct to the War Department, as more fully set forth in section IV, Circular No. 330, War Department, 1944.

§ 801.108–7 *Procurement within the United States for armed forces abroad.* It is to be noted that the provisions of Circular No. 330, War Department, 1944, referred to in § 801.108–6 have no application to procurement within the United States for armed forces abroad.

SUBPART D—MISCELLANEOUS PROHIBITIONS

§ 801.109 *Prohibition against voluntary service.*

§ 801.109–1 No department or officer of the Government may accept voluntary service for the Government except in cases of sudden emergency involving the loss of human life or the destruction of property, or when a written statement is obtained that the service rendered will not be made the basis of a future claim against the Government for compensation.

§ 801.110 *Prohibition against use of troop labor.*

§ 801.110–1 Except in cases of manifest necessity or when authorized by the Secretary of War, the labor of troops will

not be used to enable the contractors to fulfill contracts.

§ 801.110–2 Whenever troop labor has been used:

(a) Authority therefore will be given in writing.

(b) A report enumerating in detail the service rendered will be forwarded to the Commanding General, Army Service Forces, Attention of Industrial Personnel Division.

(c) Full deduction will be made for the value of the service rendered.

§ 801.111 *Conflicts between outside interests of officers or civilian employees and their official duties.*

§ 801.111–1 *Basic statute.* Section 41 of the United States Criminal Code (18 U.S.C. 93) provides as follows:

No officer or agent of any corporation, joint-stock company, or association, and no member or agent of any firm, or person directly or indirectly interested in the pecuniary profits or contracts of such corporation, joint-stock company, association, or firm, shall be employed or shall act as an officer or agent of the United States for the transaction of business with such corporation, joint-stock company, association, or firm. Whoever shall violate the provisions of this section shall be fined not more than $2,000 and imprisoned not more than two years.

§ 801.111–2 *Construction of basic statute.* The general language of section 41 of the United States Criminal Code has been the subject of interpretation from time to time by The Judge Advocate General and by the Attorney General. The Judge Advocate General has been careful to point out that the question of construction presented "involves the construction and application of criminal statutes concerning which the Federal courts alone can speak with final authority." However, the substance of certain of those opinions is set forth as an aid in the construction of the statute:

(a) In Vol. 40, Op. No. 42, March 31, 1942, the Attorney General rendered an opinion concerning the use of a certain Army officer as a Liaison officer between a corporation and the War Department. It appeared that the officer was also an officer and stockholder in the corporation. In holding that the basic statute would be violated if the officer acted in that capacity, the Attorney General stated in part:

No man can serve two masters. The statute in question is clearly grounded on this assumption. Its manifest purpose is such that any attempt to reconcile it with the proposed employment runs into difficulties. Some of these difficulties are pointed out by The Judge Advocate General of the Army in his opinion on the question. Others are equally apparent.

No matter how high are the motives of the Army Officer who advises, he is likely as a realistic matter to be consciously or unconsciously influenced by the fact that his actions may benefit the corporation of which he is an officer and a stockholder. To a degree his salary as an officer of the corporation would be affected by whether his advice leads the War Department to enter into a procurement contract with his company. To a larger degree his share in the earnings of the corporation as a stockholder would be affected by his advice.

(b) In two recent opinions (SPJGA 210.4 and SPJGA 250.7) rendered respectively on May 22, 1942 and March 28, 1942 The Judge Advocate General concluded that a person holding stock in a corporation may be a "person directly or indirectly interested in the pecuniary costs or contracts of such corporation," within the meaning of the statute. It is to be emphasized, however, that these two opinions relate solely to that issue and do not constitute opinions on what constitutes the "transaction of business" with the corporation within the meaning of the statute. The construction of these words, as contained in the statute, was the subject of an opinion discussed in paragraph (c) below.

(c) Under date of December 3, 1942 (SPJGA 1942/5702) the opinion of The Judge Advocate General was requested with respect to the employment of a person as head of an agency which would have complete charge of all phases of production of certain items which were purchased by the War and Navy Departments. The prospective head of the agency had been for some years an officer of a corporation which was one of the largest producers of the items with which the agency would be concerned, but at the time of the opinion was on leave of absence without pay. It appeared, however, that under a retirement system established by the corporation he would, if he lived to a specified age, become entitled to certain annual payments. It further appeared that there was an understanding that if the agency were called upon to transact business with the corporation in question, such transactions would be conducted by other officers or employees of the agency and that if questions were presented not capable of final decision by such other officers or employees, such questions would be referred to higher authority for decision. However, it also appeared that the head of the agency would be called upon to determine questions of general policy which would affect the corporation of which he was formerly an officer along with other producers. The Judge Advocate General concluded that section 41 of the Criminal Code would not be violated by the employment of such an individual as head of the agency.

(d) In an opinion (JAG 231.27) dated February 3, 1923, the Acting Judge Advocate General throws further light on what constitutes transacting business within the meaning of section 41 of the Criminal Code. He had been requested to review the law in relation to the interest of the agents or officers of the United States in contracts with the United States with a view to the submission of proposed amendments thereto so as to permit the utilization of leading men in industry in an advisory capacity in connection with the planning and supervision of the procurement of war necessities. The opinion in part reads as follows:

The statute is to be strictly construed and criminality attaches only when an individual, being an officer, or member of a business concern or directly or indirectly interested in the profits of the concern is employed or acts as agent of the United States for the transaction of business with that concern. The Act contemplates the actual transaction of business. The negotiation of a tentative contract by an agent of the Government with a business concern in which that agent is an officer, member, or in which he is interested, although not binding upon either party until executed, in accordance with statutory authority and an appropriation sufficient for the fulfillment thereof, would probably be considered a violation of the statute if the performance of the contract was thereafter entered upon. For this reason, in the preparation of procurement plans, no person should be permitted to have a part as agent for the United States in the negotiation of tentative contracts with a concern of which he is an officer, agent or member, or in which he is pecuniarily interested. * * * It is considered that acting in a solely advisory capacity without actual participation in the negotiation or awarding of a contract or directing the awarding of a contract would not be a violation of Section 41 of the Federal Criminal Code.

§ 801.111–3 *Regulations supplementary to basic statute.* The following regulations supplementary to the statute set forth in § 801.111–1 are prescribed:

(a) No officer or employee of the War Department may act as an agent of the United States in advising, recommending, making or approving the purchase of supplies or other property, or in contracting therefor, if he would be admitted to share or receive directly or indirectly any pecuniary profit or benefit from such purchase or contract.

(b) No officer or civilian employee of the War Department shall be in direct charge of the negotiation of, or exercise authority for the final approval of, any contract with any corporation, joint-stock company, association or firm, if at any time during the period subsequent to December 7, 1936, such officer or civilian employee was employed by or engaged in a course of substantial non-Governmental business dealings with such corporation, joint-stock company, association or firm.

The Under Secretary of War is authorized to make exceptions to the regulation contained in paragraph (b) above. In particularly meritorious cases where because of the unusual training, experience or other qualifications of the officer or employee, the chief of a technical service finds that the application of the regulations contained in such paragraph would be a serious obstacle to the service in performing its mission, a request for an exemption may be forwarded to the Director, Purchases Division, Headquarters, Army Service Forces. Such requests shall be held to a minimum and when made shall be accompanied by a full statement of the circumstances which are believed to make such exemption necessary. No exemption may be made from the provisions of the statute referred to in § 801.111–1 or from paragraph (a) of this section.

SUBPART E—PROPOSALS FOR LEGISLATIVE ACTION AND FOR EXECUTIVE ORDERS AFFECTING PROCUREMENT

§ 801.113 *General.* By Circular No. 59, War Department, 1942, the Legislative and Liaison Division, War Department, is charged with supervising the preparation of legislation requested by the War Department, with preparing reports to Committees of Congress and with the maintenance of liaison necessary thereto. Said Circular No. 59 further provides that the preparation of reports on legislation affecting the Army Ground Forces, the Army Air Forces or the Army Service Forces may be assigned to the command concerned.

§ 801.114 *Legislation includes Executive orders.* The terms "legislation" and "legislative", as hereinafter used in this subpart refer to action taken or to be taken by Congress, other than the enactment of strictly appropriation items, and to all Executive orders.

§ 801.115 *Legislative Division, Office of the Under Secretary of War.* With the approval and by the authority of the Under Secretary of War, the Legislative Division Office of the Under Secretary of War, is designated as the agency charged with the coordination within that Office, the Army Service Forces and the Army Air Forces, of all legislative matters affecting procurement or related functions.

§ 801.116 *Proposals for legislative action affecting procurement.*

§ 801.116–1 Except as specifically otherwise provided in § 801.116–2, all proposals for legislative action affecting procurement or related functions, originating from any source whatsoever, will be referred to the Legislative Division, Office of the Under Secretary of War, for coordination.

§ 801.116–2 All such proposals, other than proposals for Executive orders, originating from sources outside the Office of the Under Secretary of War, the Army Service Forces or the Army Air Forces, will be referred to the Legal Branch, Purchases Division, Headquarters, Army Service Forces. The Legislative Section of that Branch will promptly review such proposals to determine which are of sufficient importance to the Office of the Under Secretary of War, the Army Service Forces, Army Air Forces, or any of them to warrant further consideration. Such of the proposals as warrant such consideration will be referred directly to the Legislative Division, Office of the Under Secretary of War, for coordination.

§ 801.117 *Action of Legislative Division.* The Legislative Division, Office of the Under Secretary of War, will, with respect to such proposals originating within the Office of the Under Secretary of War, the Army Service Forces, or the Army Air Forces:

(a) Take all necessary action to secure the views of those individuals and elements within the Office of the Under Secretary of War, the Army Service Forces and the Army Air Forces, whose responsibilities would be affected by such legislative action.

(b) Refer any questions regarding the form of the proposed legislative action to the Legal Branch, Purchases Division, Headquarters, Army Service Forces, for consideration and report.

(c) Make all necessary arrangements for proper coordination with other Government departments and agencies whose functions would be affected.

(d) If it is determined by proper authority to initiate such legislative action, coordinate the matter with the Legislative and Liaison Division, War Department.

(e) Take any other necessary or appropriate action in connection therewith.

With respect to such proposal originating from sources outside the Office of the Under Secretary of War, the Army Service Forces or the Army Air Forces, Legislative Division, Office of the Under Secretary of War will, upon receipt of such proposals, take the action described in paragraphs (a), (c) and (e) above.

§ 801.118 *Congressional hearings.* Arrangements for appropriate representation from the Office of the Under Secretary of War, the Army Service Forces and the Army Air Forces, at Congressional hearings on legislative proposals affecting procurement or related functions will be made through the Legislative Division, Office of the Under Secretary of War.

§ 801.119 *Reports on legislative proposals.* All requests from official sources, within or without the War Department, for reports on legislative proposals affecting procurement or related functions will, upon receipt by the Office of the Under Secretary of War, the Army Service Forces or the Army Air Forces, be referred to the Legislative Division, Office of the Under Secretary of War, which will secure reports from the appropriate sources within the aforesaid elements of the War Department and will forward such reports, after approval thereof by proper authority, through established channels to the sources of the requests.

SUBPART A—GENERAL

§ 802.201 *Rescission of regulations.* Army Regulations 5–140, May 22, 1940, as amended; Army Regulations 5–160, October 24, 1941, as amended; Army Regulations 5–240, February 11, 1936, as amended; and all other prior directives and instructions of whatsoever nature relating to negotiated purchases, open market purchases, procurement without advertising, and other purchasing methods are hereby rescinded.

§ 802.202 *Compliance with this part.* Unless otherwise specifically provided, compliance with any provision of this part or of any amendment thereto which requires a change in contract procedure or in any contract provision shall not be mandatory until thirty days after the issuance of such regulation or amendment.

§ 802.203 *Definitions.*

§ 802.203–1 The term "negotiation" as used in these procurement regulations includes any method of contracting or purchasing, except the formal

advertising and sealed bid procedure prescribed by section 3709, Revised Statutes.

§ 802.203–2 The term "negotiated purchases" includes all purchases made by negotiation as so defined. (See § 802.241).

§ 802.204 *Contracting authority.*

§ 802.204–1 *Basis.* War Department contracting and purchasing are now based primarily on the authority contained in the act of December 18, 1941 (Public No. 354, 77th Congress) referred to as the First War Powers Act, 1941, and Executive Order No. 9001, December 27, 1941. The earlier authority contained in sections 1 (a) and (b) of the act of July 2, 1940 (Public No. 703, 76th Congress) has also been extended, however, by section 9 of the act of June 30, 1941 (Public No. 139, 77th Congress) and by section 13 of the act of June 5, 1942 (Public No. 580, 77th Congress). (See § 802.240).

§ 802.204–2 *First War Powers Act.* Title II of the First War Powers Act, 1941, reads as follows:

SEC. 201. The President may authorize any department or agency of the Government exercising functions in connection with the prosecution of the war effort, in accordance with regulations prescribed by the President for the protection of the interests of the Government, to enter into contracts and into amendments or modifications of contracts heretofore or hereafter made and to make advance, progress and other payments thereon, without regard to the provisions of law relating to the making, performance, amendment, or modification of contracts whenever he deems such action would facilitate the prosecution of the war: *Provided*, That nothing herein shall be construed to authorize the use of the cost-plus-a-percentage-of-cost system of contracting: *Provided further*, That nothing herein shall be construed to authorize any contracts in violation of existing law relating to limitation of profits: *Provided further*, That all acts under the authority of this section shall be made a matter of public record under regulations prescribed by the President and when deemed by him not to be incompatible with the public interest.

§ 802.204–3 *Authority conferred.* Title I of Executive Order No. 9001 confers authority on the War Department under The First War Powers Act, 1941, as follows:

(a) Section 1 of the Executive order authorizes the Secretary of War "within the limits of the amounts appropriated therefor, to enter into contracts and into amendments or modifications of contracts heretofore or hereafter made, and to make advance, progress, and other payments thereon, without regard to the provisions of law relating to the making, performance, amendment, or modification of contracts" and to delegate these powers with authority to redelegate them. With respect to such delegations, see § 801.107 and following of this chapter, and especially § 801.107–9.

(b) "The contracts hereby authorized to be made include agreements of all kinds (whether in the form of letters of intent, purchase orders, or otherwise) for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of war, or for the invention, development, or production of, or research concerning any such things, including but not limited to, aircraft, buildings, vessels, arms, armament, equipment, or supplies of any kind, or any portion thereof, including plans, spare parts and equipment therefor, materials, supplies, facilities, utilities, machinery, machine tools, and any other equipment, without any restriction of any kind, either as to type, character, location or form."

(c) "The War Department, the Navy Department, and the United States Maritime Commission may by agreement modify or amend or settle claims under contracts heretofore or hereafter made, may make advance, progress and other payments upon such contracts of any percentum of the contract price, and may enter into agreements with contractors and/or obligors, modifying or releasing accrued obligations of any sort, including accrued liquidated damages or liability under surety or other bonds, whenever, in the judgment of the War Department, the Navy Department, or the United States Maritime Commission respectively the prosecution of the war is thereby facilitated. Amendments and modifications of contracts may be with or without consideration and may be utilized to accomplish the same things as any original contract could have accomplished hereunder, irrespective of the time or circumstances of the making of or the form of the contract amended or modified, or of the amending or modifying contract, and irrespective of rights which may have accrued under the contract, or the amendments or modifications thereof."

(d) "Advertising, competitive bidding and bid, payment, performance, or other bonds or other forms of security, need not be required." (See Part 804 of this chapter.)

§ 802.204–4 *Restrictions on powers.* Title II of Executive Order No. 9001, 3 CFR Cum. Supp., prescribes the following regulations for the exercise of the authority thereby conferred.

(a) "Complete data shall be maintained by the War Department, the Navy Department, and the United States Maritime Commission as to all contracts and purchases which they respectively make pursuant to the act and this Executive order. The Secretary of War, the Secretary of the Navy, and the Chairman of the United States Maritime Commission shall make available for public inspection, as they may respectively deem compatible with the public interest, so much of such data as does not cover restricted, confidential, or secret contracts or purchases." (As amended by E.O. 9296, January 30, 1943, 3 CFR 1943 Supp. See Subpart I of this part.)

(b) Notwithstanding anything in the act or Executive order, the War Department, the Navy Department, and the United States Maritime Commission shall not discriminate in any act performed thereunder against any person on the ground of race, creed, color or national origin, and all contracts shall be deemed to incorporate by reference a provision that the contractor and any subcontractors thereunder shall not so discriminate. (See § 803.325.)

(c) No claim against the United States arising under any purchase or contract made under the authority of the Act shall be assigned except in accordance with the Assignment of Claims Act, 1940 (Public No. 811, 76th Congress, approved October 9, 1940). (See §§ 803.390 to 803.390–7.)

(d) Advance payments shall be made hereunder only after careful scrutiny to determine that such payments will promote the national interest and under such regulations to that end as the Secretary of War, the Secretary of the Navy, or the United States Maritime Commission may prescribe. (See §§ 803.321 to 803.321–4.)

(e) Every contract entered into pursuant to the act and Executive order must contain the warranty by the contractor against payment of commissions and contingent fees set out in § 803.323 (see § 811.1181).

(f) The cost-plus-a-percentage-of-cost system of contracting shall not be used.

(g) Provisions of law limiting profits under contracts or fixed-fees continue in effect and in no case shall the fixed fee under a cost-plus-a-fixed-fee contract exceed 7% of the estimated cost exclusive of the fee.

(h) No contract or modification or amendment thereof shall be exempt from the provisions of the Walsh-Healey Act (49 Stat. 2036) because of being entered into without advertising or competitive bidding, and the provisions of that act, the Davis-Bacon Act, as amended (49 Stat. 1011), the Copeland Act, as amended (48 Stat. 948) and the Eight Hour Law, as amended by the act of September 9, 1940 (Public No. 781, 76th Congress) if otherwise applicable apply to contracts made and performed under the authority of the act and Executive order. (See Part 809 of this chapter.)

§ 802.204–5 *Extent of authority.* By an opinion dated August 29, 1942, the Attorney General of the United States has construed the power conferred by the First War Powers Act, 1941, and Executive Order No. 9001. This opinion ruled that a proposed delegation of authority from the Under Secretary of War to the Commanding General, Army Service Forces, substantially similar to the delegation contained in § 801.107–5 was within the authority of the act and Executive order.

§ 802.205 *Purpose of regulations.* In conferring the powers under the First War Powers Act, Executive Order No. 9001 directed the war agencies to work with the War Production Board "to bring about the conversion of manufacturing industries to war production, including the surveying of the war potential of industries, plant by plant; the spreading of war orders; the conversion of facilities; the assurance of efficient and speedy production; the development and use of subcontracting to the fullest extent and conservation of strategic materials." The policies and procedures designed to carry out these procurement objectives are stated in this and the following regulations. This regulation discusses the basic principles underlying the policies and methods elaborated in the subsequent regulations, and the relation of these various policies to the procurement program as a whole.

SUBPART B—CONTRACT PLACEMENT

§ 802.220 *Scope of subpart.*

§ 802.220–1 Attainment of the essential procurement objectives with the minimum disruption of the nation's economic system, and effective use of available labor, materials and facilities, depend to a large extent on sound contract placement. This subpart states the policies to be followed and the factors to be considered in placing contracts, in selecting contractors, in scheduling deliveries and in revising delivery schedules.

§ 802.220–2 *Related regulations.* Further policies governing placement of contracts for plant facilities expansion are treated in Part 810 of this chapter. Policies governing purchasing through other services and other departments are discussed in Part 806 of this chapter, and foreign purchases are treated in Part 805. Policies governing cutbacks and curtailment of production are stated in Subchapter C of this chapter.

§ 802.221 *Purchase of used or second-hand materials.*

§ 802.221–1 *Policy.* In view of the prevalent shortages of raw materials, manufacturing facilities and labor, second-hand or used articles will be procured instead of new articles whenever (a) they are suitable in quality and design for the particular purpose involved, and (b) they can be obtained at reasonable cost with reasonable effort at the time required, unless any agency allocating such articles (such as the Machine Tool Section of the Production Division) orders otherwise.

§ 802.221–2 *Execution.* The chief of each technical service will make adequate provision to insure that all procurement officers and agencies under his direction comply with the policy stated in § 802.221–2, and will place responsibility upon a designated member of his staff for requiring compliance with that policy to the greatest extent practicable.

§ 802.221–3 *Obstacles.* Whenever a statute, order or regulation prevents the effective procurement of suitable used articles or other articles already available instead of new articles, the chief of the technical service concerned will notify the Director, Purchases Division, Headquarters, Army Service Forces, of this fact so that appropriate action may be taken pursuant to the First War Powers Act, 1941, and Executive Order 9001, or otherwise, to remove any obstruction to such procurement.

§ 802.221–4 *Purchases from disposal agencies.* (See §§ 806.613 to 806.613–8.)

§ 802.222 *Time for placing contracts and scheduling deliveries.*

§ 802.222–1 *General policies.* (a) At an earlier stage in the war program, procuring agencies were encouraged to place contracts at the earliest possible time and to require contractors to commence production or to place subcontracts immediately. That policy was desirable as long as Army procurement was directed primarily to the task of providing the initial equipment for the rapidly expanding requirements of the Army and of the United Nations. However, that phase of procurement is now approaching completion. Except for comparatively few items, procurement for the future is designed to meet estimated replacements and operational requirements. The paramount and governing policy is still to place contracts sufficiently in advance of the actual need for the supplies to assure that deliveries will be made on time and in the proper quantities. Subject to this guiding principle, conditions now make it advisable that in the placement of contracts consideration also be given (1) to restricting contract commitments to the practicable minimum both as to time and quantity, and (2) to the use of contract forms which will provide for the maximum flexibility in production rates while at the same time assuring the availability of the production facilities needed to produce all known requirements. This change of emphasis is essential if useless surpluses and costly cancellation and termination charges are to be avoided.

(b) The scheduling of deliveries to correspond more closely with actual requirements is likewise essential in the present stage of the war program. Close scheduling tends to prevent the building up of surpluses and to diminish termination claims. It is also vital to the most efficient use of available industrial capacity. If manufacturers are required to produce and deliver items long before they will actually be needed, they may be forced to increase the number of their employees abnormally or be unable to produce other items which will be needed sooner, and scarce materials may be tied up in inventory not currently needed. Thus the failure to schedule deliveries properly tends to disrupt the Army supply program and prevents industrial capacity from being used in the production of items as they are needed. Accordingly future contracts will be scheduled so that supplies will be delivered to synchronize with actual requirements, unless in a particular case efficient production requires otherwise. Existing contracts will also be reviewed with a view to rescheduling deliveries on the same basis.

§ 802.222–2 *Suggested methods for minimizing contract commitments or increasing flexibility of production rates.* In succeeding sections, certain contract procedures are outlined by which in particular cases flexibility of production rates of may be attained or contract commitments reduced in time and amount. These procedures are suggestive only; they are not all-inclusive. It is recognized that variations of these procedures and the adoption of wholly different procedures may be required in many cases. It is emphasized, however, that it is a condition to the effective use of any such procedures that procuring agencies know, well in advance, the total procurement program with which they are charged; appraise the availability of production facilities in relation to that program; and understand the production problems of their contractors.

§ 802.222–3 *Avoiding excessive "lead time"—(a) Withholding contract placement.* Where it is known that production facilities will be available and adequate for a given period, it will often be possible and prudent to withhold the placement of contracts (or of some portion of the total contracts to be placed) until shortly before the start of the actual "lead time" which is required for the particular procurement.

(b) *Controlling rate of performance.* In other instances, where it is necessary to obtain more definite assurance of the availability of production facilities, it will be feasible to place contracts well in advance of the actually required "lead time," but to provide expressly, by contract, that acquisition of materials, placement of subcontracts, or manufacture shall not commence until an agreed date, or shall proceed at a rate of speed not in excess of an agreed rate.

§ 802.222–4 *Short term contracts.* For a variety of reasons, some of which were related only to administrative convenience, procuring agencies have in the past tended to enter upon long term commitments covering all the supplies believed to be needed over a lengthy period of time. Long term commitments may be necessary where, for example, the supplies to be procured are distinctively war items and involve long range development. Long term commitments, however, are often not essential where the supplies to be procured are standard commercial items, especially if any excess production, not absorbed by the Army, is needed or may readily be absorbed by the civilian economy. In such cases commitments may well be short term and for relatively small amounts. Besides reducing outstanding commitments, this procedure will tend to bring about lower prices because allowances for contingencies are reduced when the contract period is short. It will also tend to effect savings when engineering changes are ordered.

§ 802.222–5 *Short term commitments with options of renewal.* In some cases it will be found advisable to enter into a short term initial commitment with an option or a number of successive options in the Government to extend or renew the commitment, exercisable by giving notice an agreed period of time in advance of completion of the initial commitment, sufficient for the contractor to procure the necessary materials to assure continuity of production if the option is exercised by the Government. Prices for option periods extending over any long period of time should not be made final at the time the original commitment is made. The techniques of price redetermination and price revision (see Part 812, Subparts B, C, and D, of this chapter) should be availed of where possible.

§ 802.222–6 *Cancelling future deliveries by advance notice.* Particularly in the procurement of standard commercial items, it will often be possible without hardship on contractors to provide that the Government may cancel future deliveries without liability, upon giving

notice to the contractor an agreed period of time in advance. This period of advance notice should be fixed with due regard to the contractor's problems in scheduling raw materials and component parts and avoiding excessive inventories at the effective date of cancellation. Experience has shown that many contractors will readily acquiesce in this procedure and will not claim increased prices to compensate for the contingency of cancellation. However, in some cases where the procedure here described is availed of, it may be proper to provide for a sliding scale of prices with higher prices for early than for later deliveries, in order that starting load costs may be covered if future deliveries are cancelled. As an alternative, it may be advisable to provide that prices for all or for the later deliveries shall be subject to an appropriate type of price redetermination or price revision. The contract should provide that in case the contract is cancelled for the convenience of the Government without the agreed advance notice, settlement will be made under the uniform termination article (§ 803.324 (g)) as though the contract called only for the deliveries scheduled up to the date upon which the agreed period of notice would have expired.

§ 802.222–7 *Use of "Letter of Commitment" for controlled materials or critical components.* (a) Especially in the procurement of items other than standard commercial items, the tendency to make a long term commitment has frequently been based upon the fact that the contractor must have a binding contract well in advance in order to place his orders for CMP materials, or for critical components which require a long period of manufacture. In many of these cases the time required by the prime contractor to manufacture the end item, after the CMP materials or critical components have been delivered, is relatively short, and there would be no occasion for a long term commitment were it not for the time required for the procurement of the controlled materials or the critical components. Under such circumstances it is proper to make an early commitment with a prime contractor which will empower him to purchase the controlled materials or to acquire the critical components, but to withhold placing the contract for the end item until shortly before the "lead time" actually required for the production of the end item. This plan is considered particularly effective where a surplus of facilities exists and competition is present.

(b) A form of "Letter of Commitment (Raw Materials Under CMP)" has been published as a standard form (§ 813.1328). Under this form the contractor is authorized to purchase controlled materials. The Government does not commit itself to place a production contract for the end item with the contractor who received the letter of commitment. If the letter of commitment is terminated, or a production contract is not placed with the contractor who has received the letter of commitment, the contractor is assured reimbursement of his costs upon transfer of the materials to the Government or its designee (who may be another contractor to whom a production contract is awarded). To the extent that a production contract is awarded to the contractor requiring the use of the controlled materials, the Government's obligation under the letter of commitment is correspondingly reduced.

(c) The form of letter of commitment may be accommodated by proper amendments to cases where it is desired that critical components be acquired, or critical components plus controlled materials.

(d) The form of letter of commitment here discussed is not to be considered a letter of intent or letter order within the meaning of §§ 803.303a and 803.303a–1 which deal with temporary or preliminary contract instruments (see §§ 813.1307, 813.1308, 813.1309, 813.1310) calling upon the contractor to commence production of an item, rather than merely to acquire raw materials or critical components. While the use of letters of intent or letter orders of the former type is discouraged, and the technical services are urged to supersede such instruments by definitive contacts at the earliest feasible time, the letter of commitment will be used wherever feasible in accordance with the foregoing provisions of this section, and it will not be supplanted by definitive production contracts until shortly before the commencement of the required "lead time" for production. The form of letter of commitment published at § 813.1328 includes no provision for the allowance of a profit in case of termination. Provision for a profit in such contingency may, however, be included with the prior approval of the Director, Purchases Division, Headquarters, Army Service Forces.

§ 802.222–8 *Use of special "changes" article (§ 803.329a).* The special "changes" article set forth at § 803.329a authorizes, within agreed limits, and on certain conditions, the increase or decrease of the quantity of supplies to be delivered under a contract, and the extension or acceleration of delivery schedules. This article affords a ready means of adjusting quantities and deliveries to meet actual requirements, especially in the purchase of items which do not involve a long "lead time". It is not, however, intended that the special "changes" article shall be used as a means of avoiding the regular termination procedure for large scale terminations.

§ 802.222–9 *Illustrative contract provisions.* Two sets of contract provisions are here reproduced, exemplifying certain of the techniques discussed above.

(a) *"Short term supply contract with Government options."* Under this form of contract, the Government contracts for a quantity of supplies to be delivered over a period of three months, reserving options of renewal for three successive quarterly periods. Prices for each option period are to be negotiated, and, failing agreement, are to be fixed by the contracting officer at an amount representing fair and just compensation (with a right of review under the Disputes article). The contractor is obligated to procure necessary raw materials including packing supplies during an agreed "lead time" preceding the exercise of each option and is to be paid his applicable costs plus 2% in case the Government fails to exercise the option. W. D. Contract Form No. 1 (§ 813.1301) is used with the following additional provisions:

(a) The three months for which a delivery schedule is set forth herein is hereafter referred to as the "base period" and the amount to be delivered during such period is hereafter referred to as the "base period amount."

(b) The Government further authorizes the Contractor and the Contractor agrees to take as promptly as necessary all steps required in accordance with good business practice to have available all raw materials including packing supplies so as to be able to deliver during the three months succeeding the base period a quantity of the articles contracted for equal to the base period amount.

(c) Contractor agrees that the Government shall have the option to purchase a quantity of the articles contracted for, equal to the base period amount, to be delivered F. O. B. _____ in accordance with the delivery schedule determined by the Government, within a period of three months from the last delivery date immediately preceding the said option period. Such option shall be exercised by the delivery to the Contractor by the Contracting Officer of a notice to that effect thirty days prior to said delivery date. Upon receipt of said notice, the Contractor further agrees to take as promptly as necessary all steps required in accordance with good business practice to have available all raw materials, including packing supplies, so as to be able to deliver during the three months succeeding the said option period a second additional quantity of the articles covered by this contract equal to the base period amount.

(d) The parties agree that the price for the quantity covered by such option to be delivered in accordance with the delivery schedule determined by the Government shall be agreed upon at least fifteen days prior to the last delivery date immediately preceding the said option period, or within such further period as may be agreed upon by the Contractor and the Contracting Officer, and, when agreed upon, shall be evidenced by supplemental agreement hereto.

(e) In the event that the parties fail to agree, within the time specified, as to the price of the articles so to be delivered during such three months option period, the price payable therefor shall be determined at an amount constituting fair and just compensation for such articles. Such determination shall be made by the Contracting Officer and shall be subject to review in the manner provided in Article —— (Disputes).

(f) Negotiations for the fixing of the price for the quantities to be delivered during the three month option period shall be conducted on the same basis and shall employ the same types of data as in the case of a negotiation of a price under a new contract. The Contracting Officer may request and the Contractor shall supply the same types of information as in the case of a new contract including, without limiting the foregoing, the information developed and the additional experience gained in the performance of this contract.

(g) The Contractor agrees that if the Government shall exercise the option above provided for, it shall have two additional successive options to purchase additional quantities of the articles contracted for, each equal to the base period amount, and each such quantity to be delivered F. O. B. _____ within periods of three months each immediately succeeding the preceding option periods. The manner in which these additional successive options shall be exercised and the method of determining the prices for the quantities to be delivered during such additional option periods respectively shall be as set forth with respect to the first option except that as to the last three month option, the Contractor is not authorized to incur any costs for any raw material or packing supplies for any deliveries beyond said last option period. If the Government fails to exercise any one of the aforesaid options it may not exercise any successive option.

(h) In the event the Government does not exercise any one of the options herein granted to it the Government agrees to reimburse the Contractor for all costs incurred by it in connection with having available raw materials and packing supplies as provided herein, and in addition a sum equal to 2% of such costs, and the Contractor agrees that it shall transfer title to and deliver such supplies and raw materials to or upon the order of the Government in the manner, to the extent and at the times directed by the Contracting Officer, or in the absence of such directions, shall retain such raw materials and packing supplies at prices to be agreed upon.

(i) The fixing of the contract price for any period as hereinbefore provided shall be without prejudice to the determination of any excessive profits of the Contractor upon subsequent renegotiation under the Renegotiation Act, as amended, or any contract article inserted pursuant to that Act or providing for renegotiation of the contract price to eliminate excessive profits.

(b) *"Supply contract with short term limitations."* Under this form of contract, the Government contracts for a year's quantity, but the price and delivery schedule are established in the contract for the first three month period only. Prices for the quantities directed by the Government to be delivered during each ensuing quarterly period are to be negotiated in advance of the commencement of each period, and, failing agreement, are to be fixed by the contracting officer at an amount representing fair and just compensation (with a right of review under the Disputes article). The contractor is obligated, during certain "lead" times, to procure raw materials including packing supplies and perform processing and manufacturing operations adequate to meet deliveries during the period succeeding the period for which prices are agreed to or fixed. Appropriate amendment is made of the uniform termination article (§ 803.324 (g)) restricting in certain respects the rights of the Contractor in the event of termination of the contract for the convenience of the Government. W. D. Contract Form No. 1 is used, with the following additional provisions:

(a) The three months for which delivery schedule is set forth herein is hereafter referred to as the "base period."

(b) The unit price or prices for the quantities directed by the Government to be delivered in each three month period subsequent to the expiration of the base period in accordance with the delivery schedule determined by the Government shall be fixed by agreement between the parties within 30 days but not less than 15 days immediately preceding the commencement of each subsequent period or such other time as may be agreed upon by the Contractor and the Contracting Officer, and when agreed upon shall be evidenced by Supplemental Agreement hereto. In the event that the parties fail to agree, within the specified time, upon the price of the articles so to be delivered during any such subsequent three-month period, the price payable therefor shall be determined at an amount constituting fair and just compensation for such articles. Such determination shall be made by the Contracting Officer and shall be subject to review in the manner provided in Article —— (Disputes).

(c) Negotiations for the fixing of the price for the quantities to be delivered during any three month period succeeding the base period shall be conducted on the same basis and shall employ the same types of data as in the case of a negotiation of a price under a new contract. The Contracting Officer may request and the Contractor shall supply the same types of information as in the case of a new contract including, without limiting the foregoing, the information developed and the additional experience gained in the performance of this contract.

(d) The Contractor agrees to take, and to continue to take from time to time as prices are fixed for periods succeeding the base period, as promptly as necessary all steps required in accordance with good business practice (i) to have available all raw materials including packing supplies so as to be able to deliver during the three month period succeeding the date for which unit prices shall last have been fixed, quantities equal to those for which unit prices shall last have been fixed, but not in excess thereof, and (ii) to perform processing or manufacturing operations with respect to said quantities so as to be able to deliver them during such succeeding period but not to begin such operations prior to 30 days immediately preceding the commencement of such subsequent period without the approval in advance of the Contracting Officer, and, in such event, only to the extent to which the Contracting Officer shall approve in advance.

(e) In the event that this contract shall be terminated pursuant to the provisions of Article — ("Termination at the Option of the Government") the rights of the parties as respects that portion of the contract for which unit prices shall not have been fixed shall be determined in accordance with the provisions of Article —: *Provided, however,*

(i) That the Government shall reimburse the Contractor in connection with such portion of this contract for which unit prices shall not have then been agreed upon for costs which were incurred only in connection with (a) raw materials and packing supplies for quantities to be delivered during a period of three months succeeding the period for which unit prices shall have last then been fixed and (b) the processing and manufacturing operations performed with respect to such quantities in accordance with the aforesaid provisions. If as a result of such operations the Contractor shall have completed supplies called for herein in excess of the quantity for which unit prices shall have been agreed upon, the Contractor may, but is not obligated to, transfer title and deliver such completed supplies to or upon the order of the Government in the manner, to the extent and at the times directed by the Contracting Officer. If the Contractor transfers such title and makes such delivery of completed supplies, the Government will pay therefor, but without duplication of any amounts agreed upon in accordance with this paragraph, the unit price last fixed under this contract or by Supplemental Agreement thereto; if the Contractor does not transfer title or deliver such supplies as herein set forth the Government shall not reimburse the Contractor for any costs incurred in connection therewith.

(ii) For the purposes of paragraph (d) Article — ("Termination at the Option of the Government") the contract price of all units of supplies called for by this contract, the price of which shall not have been fixed, shall be deemed to be the unit price last fixed under this contract or by Supplemental Agreement thereto.

(f) The fixing of the contract price for any period as hereinbefore provided shall be without prejudice to the determination of any excessive profits of the Contractor upon subsequent renegotiation under the Renegotiation Act, as amended, or any contract article inserted pursuant to that Act or providing for renegotiation of the contract price to eliminate excessive profits.

§ 802.222–10 *Technical services urged to devise contract provisions and procedures to carry out the foregoing program.* Subject to any approvals of higher authority required to be obtained in particular cases under this chapter (see especially §§ 803.306 to 803.306–4), the technical services are urged to devise and employ contract provisions and procedures along the lines discussed in §§ 802.222 to 802.229.

§ 802.223 *Factors governing placement of contracts.* The selection of a contractor for a particular contract from among the available qualified producers depends on a number of factors. In making such selections effect must be given to various policies expressed by the Office of War Mobilization and Reconversion, by the War Production Board (see Directive No. 2, as amended, February 10, 1945; 10 F.R. 1731), by the War Manpower Commission in its directives, and by Congress, as in the Smaller War Plants Act. These policies, their relation and relative importance are discussed in the following paragraphs, which are applicable both to the placement of new business and to the revision or reduction of existing programs.

§ 802.223–1 *Ability to perform.* Primary emphasis shall be placed upon securing performance or deliveries at the time, in the quantity, and of the quality required by the war program. As indicated in § 802.222–1, the objective is to insure delivery in time to avoid delays in the war program, but to avoid creation of unnecessary inventories.

§ 802.223–2 *War Manpower Commission labor areas.* The War Manpower Commission has divided the country into twelve regions and from time to time classifies localities in each region according to their labor supply conditions and on this basis designates them as:

Group I: Areas in which acute labor shortages exist, or are anticipated which will endanger essential production.

Group II: Areas in which labor shortages exist which may endanger essential production, or areas which are approaching a balanced demand-supply situation.

Group III: Areas in which labor supply substantially balances demand for essential production or a moderate labor surplus currently exists or is anticipated.

Group IV: Areas in which a substantial labor surplus exists or is expected to develop.

The Industrial Personnel Division, Headquarters, Army Service Forces, will advise the technical services monthly, or more often if conditions warrant, of the designations of the War Manpower Commission.

§ 802.223–3 *Production urgency committees.* There have been established in labor shortage areas certain committees termed Production Urgency Committees, with authority among other things to approve the placement of contracts in Group I labor areas as indicated in § 802.223–4a.

§ 802.223–4 *Policy and procedures as to placing contracts in labor shortage*

areas. §§ 802.223–4a through 802.223–5 set forth the policy and procedures in connection with the placement of contracts and contract supplements in labor shortage areas. The terms "contracts" and "contract supplements" as used in such sections include informal, as well as formal, commitments.

§ 802.223–4a *Group I areas*—(a) *Contracts permitted to be placed in Group I areas.* Placement of contracts in Group I areas is to be avoided so far as possible. Subject to the requirements of paragraphs (c) and (d), the only contracts or contract supplements which may be placed in a Group I area are those:

(1) Which cannot be placed elsewhere with adequate assurance of obtaining satisfactory performance and timely deliveries;

(2) Which, in the considered judgment of the chief of the technical service concerned or of his authorized representative, it is impracticable to place elsewhere;

(3) Which are placed, pursuant to § 802.224, with originating manufacturers for newly developed articles; or

(4) Which are placed with a contractor currently employing less than 100 wage earners and which will not increase employment in the contractor's plant above 100 wage earners.

(b) *Contracts not requiring clearance of Production Urgency Committees.* A contract or contract supplement of the character referred to in paragraph (a) may be placed in a Group I area without clearance of a Production Urgency Committee if the contract or contract supplement will not increase employment in the contractor's plant above the ceiling currently established by the War Manpower Commission; or, if a contractor currently employs less than 100 wage earners, will not increase employment in the contractor's plant above 100 wage earners: *Provided, however,* That the reporting procedure prescribed in paragraph (c) is to be followed in all cases when applicable.

(c) *Reporting of intended placement of contracts not requiring clearance with Production Urgency Committees.* Before placement of an unclassified contract or contract supplement having a total value of $100,000 or more, which pursuant to paragraph (b) does not require clearance of the appropriate Production Urgency Committee, the reporting requirements of this paragraph (c) will be followed. Four copies of War Production Board Form GA–861, duly completed, and having endorsed thereon the proposed contract number and the legend "Critical production—information only—no increase in labor over the ceiling currently established by the War Manpower Commission" will be transmitted to the appropriate Production Urgency Committee. These reports will be transmitted through the Army representative on the Committee, or in the case of the Army Air Forces through the Army Air Forces representative on the Committee, at least 7 days before placement of the contract or contract supplement, unless this will unduly delay production, in which case the report will be transmitted as far in advance of placement as is practicable.

(d) *Contracts requiring clearance of Production Urgency Committees.* No contract or contract supplement, of any value, which will increase employment in the contractor's plant above the ceiling established by the War Manpower Commission, may be placed in a Group I area without prior clearance of the appropriate Production Urgency Committee; except that contracts or contract supplements with a contractor currently employing less than 100 wage earners and which will not increase employment in the contractor's plant above 100 wage earners need not be so cleared. Applications for clearance of the Committee will be made to the Committee for the area in which are located the facilities of the contractor at which the work, or a major part of the work, will be done. Applications for clearance may seek approval of a single contract or of an entire program.

§ 802.223–4b *Group II areas.* The only contracts or contract supplements which may be placed in a Group II area are:

(a) Continuation contracts (or contract supplements having the same effect as continuation contracts) which will not increase employment in the contractor's plant above the ceiling currently established by the War Manpower Commission;

(b) New contracts which cannot be placed in a Group III, IV or unclassified area with adequate assurance of performance and timely deliveries;

(c) Contracts or contract supplements which, in the considered judgment of the chief of the technical service concerned or of his authorized representative, it is impracticable to place in a Group III, IV or unclassified area;

(d) Contracts placed, pursuant to § 802.224, with originating manufacturers for newly developed articles; or

(e) Contracts or contract supplements with a contractor currently employing less than 100 wage earners and which will not increase employment in the contractor's plant above 100 wage earners.

§ 802.223–5 *Policy with respect to placing of contracts in Group III, Group IV and unclassified labor areas.* There are no restrictions upon the placement of contracts in a Group III, IV or unclassified area. It is the policy of the War Department to make every effort to place a substantial amount of its business with concerns located in Group IV areas, to the extent placement there is consistent with other procurement objectives and satisfactory performance and timely deliveries can be assured.

§ 802.223–6 *Subcontracting in labor shortage areas.* (a) Prime contractors holding the bulk of the War Department contracts have received a request from the Under Secretary of War to apply principles similar to those described in §§ 802.223–4 and 802.223–5, in placing their subcontracts for the fabrication of products required by their prime contracts. When new prime contracts which may involve subcontracting are made, the prime contractors will be advised of these principles by contracting officers and will be strongly urged to apply them in placing subcontracts.

(b) Where to give effect to changes in the classification of labor supply areas occurring after the execution of a particular prime contract would decrease the efficiency or increase the cost of placing recurring subcontracts thereunder, the chief of a technical service or his duly authorized representative is authorized, pursuant to the First War Powers Act, 1941, to enter into and approve supplemental agreements to provide for the payment of any increased price to the prime contractor to cover increased costs resulting from such changes in subcontracting, in the same manner as provided in § 802.225–7 (b). It is hereby determined that supplemental agreements entered into for this purpose will facilitate the prosecution of the war.

(c) Many prime contractors are regularly receiving the monthly classification of labor market areas issued by the War Manpower Commission. Arrangements may be made to have additional prime contractors supplied with them by communicating directly with the Division of Procurement Policy, War Production Board, Washington, D. C.

§ 802.223–7 *Other factors.* When policies relating to ability to perform and labor supply have been met, contracts will be placed so as to give due weight in each instance to the following objectives:

(a) *Cost and efficiency.* Placements of contracts so as to use the minimum number of man-hours and the minimum quantity of material to make the supplies needed. In the long run this will result in the lowest cost to the Government. In the absence of actual data as to the relative efficiency of producers in utilizing manpower and material, their comparative prices are normally the best test of their relative efficiency in these respects, unless other differences between them (such as differences in their cost of transportation or in their expenditures for facilities) distort the comparison. Whenever such information is needed producers will be required to furnish actual or estimated cost data covering their production. In so far as possible contracts should provide the maximum incentive to the producer for the reduction of his costs.

(b) *Small business concerns.* Placement of contracts so as to make the most effective utilization of the small plants of the nation. To this end, as large a proportion of awards as practicable will be made to qualified small concerns, directly if feasible and, if not, through awards to larger firms which will subcontract to small concerns. To achieve these objectives, payment of a reasonable premium is authorized where necessary, in accordance with directives from time to time in effect.

(c) *Conservation of special abilities.* Conservation for the more difficult war production problems of the resources of concerns best able, by reason of engineering, managerial and physical resources, to handle them, through placement of contracts for items which involve relatively simple production problems with concerns, normally the smaller ones, which are less able to handle the more difficult problems.

(d) *New facilities.* Avoidance, so far as possible, of the creation of additional new (as distinguished from existing) machinery, equipment or facilities.

(e) *Transportation.* Conservation of transportation facilities by avoiding unnecessary crosshauling of raw, semi-finished or finished material from the point of origin to the point of consumption and by avoiding long hauling when such materials are available at a shorter distance.

(f) *More than one source of supply.* Placement of contracts so as to have for each item of supply and equipment at least two producers so located as not to be subject to the same hazard. This standard need not be adhered to if the chief of the technical service concerned shall determine (1) that such placement is impracticable or (2) that, although such placement is practicable, (i) the plant protection arrangements of the source selected are in his judgment entirely satisfactory, (ii) the source has adequate capacity for all foreseeable needs and (iii) adequate information with regard to the costs of operation of the source and the prices of comparable items are and will be available to ensure that an adequate and efficient analysis may be made of the prices to be charged to the Government for such item. In this connection, consideration will be given to the relative needs of the source selected and of proposed secondary sources for facilities and equipment to perform the contract.

No one of the six objectives stated in this section should alone be regarded as controlling. The placement or revision of contracts should reflect an evaluation of all these objectives which are applicable to the particular case.

§ 802.223–8 *Price*—(a) *With respect to labor areas (Prime Contracts).* To effectuate the policy with respect to avoiding the placement of prime contracts in critical labor areas, the technical services are authorized and directed to pay a premium price up to 15 per cent higher than the lowest of the prices bid by bidders located in Group I and Group II labor areas in any case where payment of such a premium price is necessary to avoid placing the particular prime contract in a Group I or Group II labor area.

(b) *With respect to small business concerns (Prime Contracts).* To effectuate the policy with respect to the placement of prime contracts with small concerns, the technical services are authorized and directed to pay a premium price up to 15 percent higher than the average price at which the purchase can be made by the contracting office from suitable large concerns (over 500 wage earners), regardless of the labor area or areas in which such large concerns are located, in any case where payment of such a premium price is necessary to place a prime contract with a small concern.

(c) *With respect to other policies.* The technical services are authorized and directed to pay higher prices than would otherwise be required to whatever extent such action is necessary to carry out the other policies expressed in §§ 802.223–1 to 802.223–7, inclusive, including the policies with respect to (1) avoiding placement of subcontracts in critical labor areas and (2) placement of subcontracts with small concerns.

(d) If, in the opinion of the chief of a technical service, a premium higher than 15 per cent should be paid in a particular case to achieve the purposes referred to in paragraphs (a) and (b) of this section, the proposed prime contract, with supporting data, will be submitted to the Director, Purchases Division, for approval.

(e) When a determination has been made that a contract will be placed at a premium price, such contract will be so placed with due regard for other War Department pricing policies.

(f) When the policies expressed in §§ 802.223–1 to 802.223–7, inclusive, have been met and selection among available contractors is still possible, contracts will be so placed as to obtain the lowest price for the Government.

§ 802.224 *Contracts for newly developed articles.* In placing contracts for new articles developed by a manufacturer for War Department use, the following principles will be observed:

(a) In general, a substantial proportion of initial orders for a new article should be placed with the manufacturer who developed it. Unless the chief of the technical service concerned determines such placement is not necessary (see § 802.223–7 (f)) effort should be made to place enough of the volume with other qualified producers to develop at least one other experienced source; when possible this should be a going production order and not a limited quantity educational order.

(b) When the originating manufacturer demands a price for the item substantially higher than the price for which it can be secured elsewhere, or will require substantially more facilities or tools than some other producer in order to get into production, or is already heavily loaded with orders, and the article can readily be made by one or more other producers, the contracts for the article should be placed with such producers. In such cases the originating manufacturer should be fairly paid for his developmental work as such.

§ 802.225 *Smaller War Plants policy.*

§ 802.225–1 *Smaller War Plants Act.* (a) Public Law 603—77th Congress (approved June 11, 1942) creates the "Smaller War Plants Corporation" (hereinafter referred to as "SWPC") and gives the Chairman of the War Production Board certain powers and responsibilities incident to placement of Government contracts with smaller plants. The majority of such powers have been delegated by the Chairman of the War Production Board to the Chairman of SWPC.

(b) The act gives SWPC power to enter into prime contracts with the War Department for articles, equipment, supplies or materials, or parts thereof, or work in connection therewith, and to subcontract the production of these items to small business concerns. If the Chairman of the War Production Board certifies that SWPC is competent to perform any specific Government procurement contract, the contract must be let to it on such terms and conditions as the Chairman may specify.

(c) The act also authorizes SWPC, by delegation from the Chairman of the War Production Board, to certify small business concerns or groups of such concerns to the Secretary of War with respect to capacity and credit as to a specific Government procurement contract. The War Department is directed to accept such certification as conclusive and is authorized to place the contract with the concern or group of concerns without requiring the meeting of any other requirements with respect to capacity and credit.

(d) The act recognizes that small plants are frequently unable to produce at as low a per unit cost as larger plants and that, as a consequence, it may be necessary for the Government to pay a higher per unit price for articles when obtaining them from small plants than it pays to business concerns operating large plants. War Department policy in respect to this will be prescribed by further instructions from time to time.

§ 802.225–2 *General policy.* (a) The established policy of the War Department is to place the greatest practicable volume of prime contracts and to encourage subcontracts with small business concerns or groups of such concerns without the necessity of plant certification or the taking of prime contracts by SWPC. To implement this policy, the basic program covered in §§ 802.225–3 to 802.225–9 is established in order to assist the smaller plants to participate to the greatest practicable extent in War Department contracts.

(b) It is recognized that procurement procedures vary as between technical services, and it is the policy of the War Department that procedures to be established between each technical service and SWPC will coordinate closely with the normal operations of the technical service. It is the responsibility of the chief of each technical service to establish operating procedures within his technical service with SWPC in conformity with the policies stated in §§ 802.225 to 802.225–9. Such procedures shall be established by mutual agreement between SWPC and each technical service, and shall be in writing. A copy of such agreement shall be provided the Small War Plants Branch, Purchases Division, Army Service Forces, which office is available for any assistance requested in connection with preparing the agreement.

§ 802.225–3 *Designations by, and representatives of, SWPC.* (a) To date no certifications as referred to in § 802.225–1 (c) have been made to the Secretary of War by SWPC. However, a program has been and will continue to be in effect whereby small concerns are recommended by SWPC to each contracting office of the War Department as being capable of performing contracts under particular procurements. Such recommendations are called designations, and

firms so designated are known as SWPC designees.

(b) SWPC has appointed a representative to each contracting office of the War Department. Such representative is known as a SWPC Procurement Specialist, and one of his duties is to present designations to the contracting office as set forth in § 802.225–6.

(c) SWPC has appointed a representative to the office of each technical service issuing procurement directives, and this representative is also known as a SWPC Procurement Specialist. Among his duties are those set forth in § 802.225–5.

§ 802.225–4 *Basic program.* (a) The following points of policy are established with respect to actions by the War Department in connection with SWPC, and have been agreed upon between SWPC and the War Department:

(1) This program will be undertaken on all procurements, except that procurements of secret or confidential items and those of an emergency nature may be excluded at the discretion of the chief of a technical service. "Emergency nature" relates to those situations where military necessity will not permit the processing of the procurements as outlined herein.

(2) The War Department's general definition of a small concern is an independently-owned concern employing less than 500 wage earners. Nevertheless, it is within the discretion of a contracting office, independently or upon the request of SWPC, to consider the relative size of a firm within its industry and treat it as large or small accordingly.

(3) All decisions with respect to the degree of participation of and the desired geographical location of small concerns, and to the choice of particular small concerns to participate in War Department procurements, will be reached at the contracting offices of each technical service, (or at whatever office in the technical service decisions are reached regarding the use of specific facilities).

(4) Since small concerns considered by the contracting office as suitable to bid for a procurement will normally be reviewed by SWPC to determine whether or not such firms will become SWPC designees for such procurement, it is anticipated that the final list of concerns so designated by SWPC will include many of the small concerns acceptable to the contracting office.

(b) Chiefs of technical services will designate Small War Plants officers at the contracting offices, and also at either the headquarters of the technical services or at the offices issuing procurement directives. Such officers will be charged with administering War Department policy in respect to small concerns, with working in cooperation with SWPC Procurement Specialists at such offices and with acting as specific contacts for representatives of small concerns calling at such offices. Each technical service will conduct staff supervision of contracting office procedures in connection with the small plant program.

§ 802.225–5 *Action at the office issuing procurement directives.* Opportunity will be afforded the SWPC Procurement Specialist at the office issuing procurement directives (a) to review with the proper personnel of the technical service the related parts of the Army Supply Program for the purpose of selecting products which will be generally suitable for small concerns, and (b) to examine all procurement directives (except those for secret and confidential items and those of an emergency nature, unless authorized to do so by the chief of the technical service). Where a technical service buys through district offices whose purchasing responsibility is confined to limited geographical areas, suggestions from the SWPC Procurement Specialist as to distribution to districts will be received and considered. When the SWPC Procurement Specialist indicates an interest in further action by SWPC on a procurement, this interest will be noted on the procurement directive that is sent to the contracting office. Lack of such notation of interest will not eliminate a procurement from further consideration under § 802.225–6 (a). Copies of procurement directives which have been examined (except those for secret and confidential items) will be supplied by the office issuing them to the SWPC Procurement Specialist at that office, to the extent desired by SWPC.

§ 802.225–6 *Action at the contracting office.* (a) The contracting office and the SWPC Procurement Specialist at that office will mutually decide, on all procurements (secret and confidential procurements are excluded, except where specifically authorized under § 802.225–5 (b)):

(1) Whether a particular procurement is suitable for manufacture by small concerns.

(2) The minimum portions of procurements found suitable under (1) which the contracting office will endeavor to place with designees of SWPC in compliance with §§ 802.223–1 to 802.223–8.

(3) In cases found suitable under (1) and (2), how many SWPC designations will be sought, from which SWPC regions they will be sought, and by what date such designations will be submitted to the contracting office.

(4) While emergency procurements are normally excluded under § 802.225–4 (a) (1) from further processing through SWPC, the contracting office may in its discretion allow the SWPC Procurement Specialist, if time permits, to suggest sources, when such action does not delay the procurement.

(b) Other action to be taken by the contracting office includes:

(1) A set of drawings, specifications and prints will be made available to the SWPC Procurement Specialist as soon as practicable after the SWPC Procurement Specialist requests them in connection with a particular procurement. Additional sets will be furnished, if available; and if not available, full descriptive information to the extent available will be given the SWPC Procurement Specialist.

(2) The contracting office will make available to the SWPC Procurement Specialist the names of small plant sources considered suitable by the contracting office for a particular procurement. SWPC will, under its procedures, designate or indicate reasons for refusing to designate such sources.

(3) Small concerns designated by SWPC in accordance with (a) (3) above will normally be given an opportunity to bid or negotiate. If a contracting office does not consider that a SWPC designee should receive this opportunity, the SWPC Procurement Specialist shall be given the reasons therefor.

(4) On the date established under (a) (3) the contracting office will consider not only SWPC designations that have been submitted for the particular procurement by that date but also any other sources of the contracting office's choice, and will determine which of such firms will be given an opportunity to bid or negotiate.

(5) Opportunity will be given the SWPC Procurement Specialist to make representations to the contracting office in behalf of concerns designated by SWPC for the procurement involved after final bid prices have been received but before final choice of contract placement is made. Copies of abstracts of bids, if available, on procurements in which SWPC participates under (a) (3) will be furnished at this time to the SWPC Procurement Specialist; if a copy is not available, information will be made available so that the SWPC Procurement Specialist may make his own copy.

(6) Negotiation and placement of awards will be governed by the factors enumerated in §§ 802.223–1 to 802.223–8. While the contracting office will endeavor to fulfill the percentage allotment for SWPC designees, and to place contracts with such designees for as great a percentage as is practicable, first consideration shall be, in all cases, that of securing performance or deliveries at the time, in the quantity, and of the quality required by the war program, and nothing in §§ 802.225–1 to 802.225–9 shall detract from that consideration. In considering the factor referred to in § 802.223–7 with respect to small business concerns, the contracting office may determine that the "most effective utilization of the small plants of the nation" will be accomplished, in a particular instance, by the payment of a higher price (when such price is proved to result from a justifiably higher cost) to a capable small plant in need of business as against a lower price bid by another small plant with an ample work-load.

(7) The SWPC copy of the abstract or information indicated in (5) will be noted as to awards made and signed by the contracting office.

(c) In the event the SWPC Procurement Specialist does not agree with the position taken by a contracting officer on the points enumerated in (a) and (b), or if small firms chosen by the contracting office to receive awards are considered by SWPC as not suitable to receive award under the procurement and the reasons given by SWPC for this decision are not acceptable to the contracting office, reasonable opportunity will be given SWPC, if military urgency permits, to submit the difference of opinion to the chief of procurement of the contracting office for final decision.

§ 802.225–7 *Encouraging subcontracting to small concerns.* (a) In order to promote subcontracting to small concerns, the chief of each technical service will instruct contracting personnel at all levels to bring to the attention of prospective contractors the policy of the War Department to encourage subcontracting to the greatest practicable degree. The attention of such prospective contractors will be called to the contract clauses set forth in §§ 803.367 to 803.368 of this chapter.

(b) Additional subcontracting to small concerns by existing contractors will be fostered to the degree practicable. When the chief of a technical service or his duly authorized representative determines that increased costs under such additional subcontracts are justifiable, he is authorized to enter into and approve supplemental agreements amending or modifying such existing contracts to provide for the payment of an increased price to the prime contractor to cover the increased costs of such subcontracting. Any such agreement will be made pursuant to the First War Powers Act, 1941, and Executive Order 9001, and may be made without consideration to the Government other than the promotion of the policies stated in Public Law 603, 77th Congress and § 802.225–7 (b) and (c).

(c) The procedures described in paragraph (b) above will be applied to subcontracts where it appears to be practicable to get a subcontractor to spread his load among more subcontractors.

§ 802.225–8 *Limitations*—(a) *Standardization.* While the SWPC Procurement Specialists will be afforded every practicable assistance in bringing about the further spread of work to smaller plants, consistent with the factors enumerated in §§ 802.223–1 to 802.223–8, inclusive, standardization programs on items where a flow of replacement parts is a factor will also be taken into account in connection with applying the Small War Plants policy.

(b) *Preventing abuses.* In carrying out the policy of spreading the work to smaller war plants, contracting officers must take precautions to prevent abuse of the preferred position of such plants. For instance, a smaller war plant contractor should not be allowed to subcontract substantially the entire work to a large plant at a lower price and thereby to operate virtually as a contract broker.

§ 802.225–9 *Policy matters in connection with the Smaller War Plants Acts.* Matters of procedural disagreement will be referred to the headquarters of the technical service involved for settlement with the SWPC Procurement Specialist at that headquarters. If such disagreements cannot be settled at that level, reference will be made by the technical service to the Small War Plants Branch, Purchases Division, Headquarters, Army Service Forces. All matters of basic policy relating to prime contracting and subcontracting with smaller plants will be dealt with for SWPC by its Washington headquarters and for the War Department by the Small War Plants Branch, Purchases Division, Headquarters, Army Service Forces. On such matters, contact will be between these offices.

§ 802.225a *Policies for the protection of manufacturers of materials and components.* The Procurement Policy Board of the War Production Board has adopted the following policies for the protection of manufacturers of materials and components:

(a) Manufacturers and suppliers of certain materials and components (including certain B products as defined in the Controlled Materials Plan) used in war production have been obligated to carry stocks of such materials, finished components and work in process and to enter into commitments for work and supplies for the manufacture of such materials and components, in excess of requirements under firm orders of such components actually placed with them by their war production customers.

(b) Without such inventory and commitments and without manufacture in anticipation of firm orders, the manufacturers in question would not be in a position to meet promptly the purchase orders which are placed with them by war producers, frequently on short notice or on a short-term basis. These manufacturers are thus faced with a continuing large volume of short-term war production orders requiring the maintenance of an inventory of materials, completed components and work in process, but without the protection of a back-log of legal commitments from customers necessary to cover the production cycle involved. In the event of mass termination, such manufacturers would be unable to collect costs under existing termination procedures, except to the extent that they hold orders for such materials and components.

(c) In view of the administrative difficulties involved in direct dealings with the manufacturers of materials and components, the policy is to afford protection to such manufacturers of materials and components in the following manner:

(1) Such manufacturers will look for protection to the war contractors and subcontractors with whom they deal by requiring from them adequate placement of advance orders.

(2) Prime war contractors and their subcontractors requiring use of such materials and components should place advance orders with their respective subcontractors and suppliers, from time to time (but within the total quantitative requirements of the particular contracts), sufficient to protect such subcontractors and suppliers throughout the cycle of production required to produce such materials and components.

(3) In carrying out this policy it is important to avoid the unreasonable accumulation of excess inventories either by the manufacturers of such materials and components or by the war contractors and subcontractors to whom such manufacturers sell these materials and components. Accordingly, war contractors and subcontractors should carefully schedule production and deliveries under such advance orders and require the manufacturers of such materials and components to adhere reasonably to the schedules so arranged in accordance with sound production planning. However, in the event of the termination of such advance orders, inventories of such materials, components or work in process reasonably acquired for the performance of such orders should be taken into account and paid for in the termination settlement of such orders.

(4) So far as possible, advance orders placed for such materials and components should contain the approved subcontract termination article for use in fixed price orders or subcontracts. The inclusion of this provision is intended to provide fair compensation to the manufacturer of the materials and components in the event of termination, but the absence of this provision will not operate to deprive such manufacturers of fair compensation in the event of termination of orders placed with them.

§ 802.226 *Debarred bidders.*

§ 802.226–1 *Persons disqualified.* Contracts will not be placed with persons who are on any of the following lists of debarred bidders.

(a) List of bidders debarred from bidding on War Department contracts by reason of violations of the Walsh-Healey Act. (See § 809.916 and following.)

(b) List of bidders debarred from bidding on War Department contracts by reason of violations of the Davis-Bacon Act. (See § 809.910 and following.)

(c) War Department confidential list of bidders to whom awards will not be made.

(d) The proclaimed list of blocked nationals which the Secretary of State from time to time publishes listing persons and organizations deemed to be acting directly or indirectly for the benefit of the enemy. (See § 811.1185.)

§ 802.226–2 *Distribution of lists.* The Adjutant General will distribute to the technical services lists of bidders debarred by the Comptroller General by reason of violations of the Walsh-Healey Act or the Davis-Bacon Act and copies of the War Department confidential list of debarred bidders. Copies of the proclaimed list of blocked nationals will also be made available to the chiefs of the technical services.

§ 802.226–3 *Procedures for placing bidders on confidential list*—(a) *Authority.* The Adjutant General will place a bidder upon the confidential list of bidders to whom awards will not be made (1) where the Director, Purchases Division, Headquarters, Army Service Forces, determines that the bidder has been guilty of fraud or attempted fraud against the United States, or (2) for the duration of the present war, in any instance where the Director, Purchases Division, determines that the best interests of the United States require that contracts be not awarded to the bidder. In recommending that a bidder's name be placed on the list, the chief of a technical service will submit to the Director, Purchases Division, a full report of the specific instances of the bidder's alleged dereliction together with any available evidence relating to the contract concerned and the complaint against the bidder.

(b) *Notice.* If such action has not already been taken, the Director, Purchases Division, will send to the bidder by registered mail, a notice stating (1) that a recommendation has been made that the bidder's name be placed on the War Department's confidential list of bidders to whom awards will not be made, (2) the specific contract, bid, or action of the bidder as to which complaint is made, and the specific nature of the complaint in reasonable detail, and (3) that the bidder may make a statement in writing with respect to the complaint on or before a date fixed in the notice. The bidder will not be given access to any evidence in the hands of the War Department, except in the notice and statement required by this paragraph.

(c) *Direction.* The Director may make such investigations and study of the complaint, either directly or through The Judge Advocate General or The Inspector General, as he deems proper. If the Director determines that the bidder's name should be placed on the confidential list, he will transmit to The Adjutant General (1) the complete file, including any statement filed by the bidder, together with the direction to place the bidder's name on this list, and (2) drafts of notices of the action taken to be sent by The Adjutant General to the bidder, the technical services and the Comptroller General.

§ 802.228 *Exceptions.* Upon specific request the Director, Purchases Division, Headquarters, Army Service Forces may grant authority to depart from the policies stated in this subpart. Requests for such authority stating the reasons therefor will be forwarded to the Purchases Division, Headquarters, Army Service Forces. One such specific exemption granted to The Quartermaster General is referred to in QMS paragraph 2–2–3d (June 29, 1943).

SUBPART C—CONTRACT PRICE POLICIES

§ 802.230 *Basic objectives.* Policies regarding contract prices have three main objectives: to maintain incentives for efficiency, reductions in costs and maximum production; to obtain fair prices and prevent excessive profits; and to contribute to the control of inflation.

§ 802.230–1 *Incentives.* Increasing shortages in materials and manpower imperatively require that all producers be encouraged to operate at their highest attainable efficiency with the minimum waste or misuse of materials and labor, if maximum production of war equipment is to be reached and maintained. Increased efficiency, improved methods, and lower costs mean better use of available resources and savings in labor, materials and facilities and can be encouraged by making profits depend on efficiency. This requires careful purchasing and contracting to keep prices close enough to costs so that producers must exercise careful management and ingenuity to increase production and decrease costs in order to earn a reasonable profit.

§ 802.230–2 *Profit control.* In spending public money the War Department has the duty to see that its purchases are made at fair prices. In addition, pursuant to the Renegotiation Act, the War Department is charged with the responsibility for eliminating excessive profits on renegotiable business of contractors assigned to it for renegotiation. In many cases, skillful and careful negotiation of contracts will prevent excessive profits from accruing and make their renegotiation unnecessary.

§ 802.230–3 *Inflation.* For many types of military commodities ordinary methods of price control by maximum price regulations, formulas and ceilings become extremely complex and difficult to administer, and divide procurement responsibility. At the request of the War and Navy Departments the Office of Price Administration has agreed to refrain from further extending its price control over strictly military items, and in return the War and Navy Departments have undertaken the responsibility for maintaining control of prices in this limited exempted area. (See § 811.1132–2.)

§ 802.231 *General policy.*

§ 802.231–1 *Sound pricing.* The three objectives stated in § 802.230 are all closely related and must be handled accordingly. In order to promote efficiency and prevent inflation, it is vitally necessary to obtain sound contract prices reasonably close to costs, since recapture of profits for past periods on renegotiation will not operate to control costs or inflationary tendencies. This requires effective purchasing and price supervision to obtain well-negotiated original contracts. The chief of each technical service will see that this policy is implemented and followed in his service. This will require the use of appropriate contracts and contract provisions (discussed in this subpart), adequate methods of negotiation (discussed in Subpart D of this part) and effective price supervision (discussed in Subpart E of this part).

§ 802.231–2 *Relation to contract placement policies.* This basic policy of emphasizing the price element in negotiating contracts, stated in the preceding paragraph, is not inconsistent with the relatively minor importance of price in selecting contractors, stated in § 802.-223–8. The selection of a contractor for a particular contract from among the qualified producers is based primarily on policies regarding speed and quality in performance and efficient use of manpower, materials and facilities. (See §§ 802.223–1 to 802.223–7.) In making this choice among producers the price of a particular producer as compared to other available producers is considered as less important than these other policies. When these other policies are satisfied by several producers, however, choice is based on comparative price. Moreover, the price to be fixed in the contract with the producer selected on these bases is vitally important. The fact that the war program requires that contractors be selected on bases other than comparative prices, makes it especially necessary to have sound methods of negotiation and price supervision to ensure that the contract prices agreed upon with such contractors will be close enough to their costs to encourage efficient operations, to prevent excessive profits and to restrain inflationary influences.

§ 802.232 *Cost-plus-a-fixed-fee contracts.*

§ 802.232–1 *Disadvantages.* Fixed-fee contracts have the following disadvantages:

(a) The fixed-fee contract does not encourage efficiency to the same extent as the closely priced fixed price contract. While the fixed-fee contractor is obligated to perform in an efficient manner, he does not have the same direct financial inducement to economize in the use of materials, machinery or manpower, or to keep down material and labor costs, or to use ingenuity and inventiveness in finding substitutes and improvements.

(b) Such contracts require uneconomical use of auditing and administrative personnel, both by the Government and the contractor, in checking and rechecking vouchers, in auditing and allocating costs and in adjusting accounting questions.

(c) The financial pressures which usually restrain a fixed price contractor in competing for labor and accumulating inventories do not apply to the same extent to the fixed-fee contractor.

§ 802.232–2 *Use forbidden: exceptions.* For the foregoing reasons supply contracts will not be made on a cost-plus-a-fixed-fee basis. Pending the conversion of one or more cost-plus-a-fixed-fee supply contracts in the course of performance in the contractor's plant to a fixed price basis pursuant to instructions from the Under Secretary of War, it may be necessary to use the cost-plus-a-fixed-fee form for the placement of further orders to be filled from the plant. While the cost-plus-a-fixed-fee form may be used for contracts which in substance provide for the payment of a management fee for the operation of Government-owned facilities, contracts of a service character such as modification center and airline contracts, research, experimental and development contracts, and contracts for first production quantities of articles not previously produced, such contracts will be placed on a fixed price basis whenever, in the judgment of the chief of the technical service, it is practicable to do so. Utilization of the price adjustment articles authorized by §§ 803.375 and 803.376 should aid materially in negotiating a fixed price for research and development work.

§ 802.232–3 *Conditions on use.* In the exceptional situations where the cost-plus-a-fixed-fee form is permitted by § 802.232–2 to be used for a supply contract, the following conditions will be met:

(a) When the contractor is to be reimbursed for substantially all its costs, the fixed fee represents essentially profit without risk. It should be determined not by the amount of the estimated cost, but by the extent and nature of the work supervised or the services to be performed by the contractor. Thus in fixing the fee consideration should be given, among other things, to whether the work or production involved is complicated or simple, the turnover slow or rapid, how much or little of the work will be subcontracted, and how extensive or difficult the duties of the prime contractor will be in supervising the subcontracted work.

(b) Contracts for first production quantities of articles not previously produced will include a provision for conversion as soon as practicable to a fixed price basis (see article set forth in § 803.341–3). Whenever feasible a similar provision will be included in research, experimental, and developmental contracts.

(c) The article for statutory renegotiation of the fixed-fee will be included when required by § 812.1208 (a).

(d) In no case will the fixed-fee exceed the statutory maximum of 7% for supply contracts.

§ 802.232–4 *Construction contracts.* Whenever feasible, construction contracts will be made on a fixed price rather than a fixed-fee basis.

§ 802.232a *Time and material or labor-hour contracts.* The buying of articles or services on the basis of (a) direct labor at specified hourly rates, which rates are intended to include wages, overhead and profit, and (b) material at cost, is usually referred to as the time and material or labor-hour system of purchasing. The system was developed primarily for use in those situations where it was not possible at the time of placing the order or contract to estimate accurately the amount or duration of the work or to anticipate costs with any substantial accuracy, and has been employed to some extent in the procurement by the Army or by cost-plus-a-fixed-fee contractors of (1) engineering and design services in connection with production of supplies, (2) the engineering, design and manufacture of dies, jigs, fixtures, gauges and special machine tools, (3) repair work of various kinds, and (4) outside work on regular production in emergency cases.

§ 802.232a–1 *Use discouraged.* In the light of present procurement conditions and the cost experience now accumulated the necessity for the use of this system either in direct procurement or in purchases by cost-plus-a-fixed-fee contractors has been greatly reduced. The chiefs of the services will cause the use of this system of purchasing to be restricted to those situations where no practicable alternative exists.

§ 802.232a–2 *Conditions on use.* In the restricted situations where this system is permitted to be used, the chiefs of the services will assure that reasonable precautions are taken to prevent the abuses to which it is susceptible. In this connection it is important that particular care be exercised to select firms of known integrity and efficiency and that the use of complete, clear and definite orders or contracts be insisted upon. Adequate control will also require that all time and material or labor-hour purchase orders or contracts issued by a cost-plus-a-fixed-fee prime contractor be approved or ratified by the contracting officer.

§ 802.232a–3 *Adequacy of contract provisions.* In determining the adequacy of the provisions of any such orders or contracts where their use is permitted, consideration of the following basic elements will be helpful:

(a) *Labor.* Only direct labor should be included in the billing and the types of labor or work to be included in the category of direct labor should be specified. It should also be specified that the time of non-productive personnel will not be included in direct labor. The time of partners, officers, supervisors, foremen, clerks, typists, timekeepers, material handlers, stockroom employees, tool crib attendants, cleaners, janitors, maintenance men, packers, watchmen, truck drivers, and receiving and shipping employees, would normally be considered as non-productive work.

(b) *Hourly rate.* Separate rates should be specified for (1) engineering and design, and (2) manufacturing and construction work. Separate rates should also be quoted for normal time, overtime and double time work where overtime and double time are necessary.

(c) *Costs of materials.* The materials for which reimbursement is to be made should be adequately specified and should be billed at cost and without the addition of any so-called handling charge or profit. For example, it may be specified that material cost will include only raw materials and fabricated parts entering directly into the products; that purchases made specifically for the contract may be charged at their actual price; that materials withdrawn from stores may be charged at cost under any recognized method of pricing conforming to sound accounting practices and consistently followed; and that incoming transportation charges may be included. Provision should be made for a reduction in cost of materials for cash and trade discounts, rebates and allowances and the value of resulting scrap, where the amount of such scrap is appreciable.

(d) *Overtime.* In order to prevent excessive overtime and double time a provision having substantially the effect of one of the following should be employed:

(1) Vendor (the person or firm with whom the time and material or labor-hour order is placed) should covenant that the amount of overtime and double time used on the work will be fair and reasonable and will be in accordance with the exigencies of the particular job. (This will support any claims on account of excess overtime developed by an audit.)

(2) The vendor should specify the maximum amount of overtime and double time, if any, which he anticipates will be required for the job and should agree that this amount cannot be exceeded without the prior written approval of the contracting officer or contractor, as the case may be, placing the order.

(3) The vendor should agree that no overtime or double time may be used on the work without the prior written approval of the contracting officer or contractor, as the case may be, placing the order.

(e) *Subcontracting by the vendor.* The vendor will not be permitted to derive any profit on account of subcontracting a portion of the work. Where subcontracting is contemplated or is to be permitted, it should be provided that the amount billed on account of such work will neither exceed the amount charged therefor by the subcontractor nor the rates for such work regularly agreed upon between the vendor and the subcontractor. In order to control the amount of subcontracting, provision may be made that the vendor cannot subcontract any portion of the work in excess of a stated percentage without the prior written approval of the contracting officer or contractor, as the case may be, placing the order. Provisions should be made that there can be no subcontracting by a vendor at an hourly rate which exceeds the vendor's hourly rate, without the prior written approval of the contracting officer.

(f) *Records.* Provision will be made that the vendor will maintain detailed, complete and accurate accounting records on a job order basis; that the hours of labor will be supported by individual daily job time cards preferably signed by the workers performing the services and in all cases by evidence of actual payment; that material charges will be supported by paid invoices or storeroom requisitions; and that the records will be preserved for a period of at least three years.

(g) *Invoices.* A contractor placing a time and material or labor-hour order should require the vendor to support all invoices by a certificate that the amount billed is correct and just. In this connection, a contractor placing such an order may be required to furnish a supporting certificate that the prices stated in the invoice are fair and reasonable, or are not excessive.

(h) *Audit.* Provision should be made that the representatives of the Government and the contractor placing the order, or either of them, will be permitted to inspect and audit the books and records of the vendor and will have the right to determine the correctness and propriety of the costs charged. Provision should also be made that any overcharge found will be promptly refunded.

(i) *Excessive use of unskilled labor.* The vendor may be required to covenant that employees used on the work will on the average be as efficient as the average for the departments of his plant concerned.

§ 802.232a–4 *Ceiling price.* In any case or class of cases where the chief of the service is of the opinion that the use of a ceiling price will be effective and practicable in reducing costs, a provision should be incorporated in such contracts or orders that payment will be made on a time and material basis but not in excess of a stated maximum figure.

§ 802.232a–5 *Definite hourly rate.* A definite hourly labor rate must be stated at the time of issuance in all orders intended to be priced on a time and material or labor-hour basis. In the exceptional emergency cases where work must be started before the rate is agreed upon, the complete confirming order must be issued as soon as possible and in any event prior to completion of a substantial portion of the work.

§ 802.232a–6 *Audit manual.* Reference to the Manual for Administrative

Audit of Time and Material Vendors' Charges, prepared by the Office of the Fiscal Director, will be helpful in the consideration of effective control measures in particular cases. Copies of this Manual may be obtained by addressing a request to the Publication Section, Administrative Division, Office of the Fiscal Director, Headquarters, Army Service Forces, Washington 25, D. C.

§ 802.233 *Fixed price contracts.*

§ 802.233–1 *Advantages.* The ordinary fixed price contract without provisions for adjustment gives a contractor maximum incentives for efficiency if the original price is well negotiated. It is generally suitable for contracts of reasonable duration for standard articles made by an experienced producer. It should be used wherever conditions permit.

§ 802.233–2 *Limitations.* Under war conditions, however, the ordinary fixed price contract is not practicable for certain types of cases:

(a) When the articles required are new, experimental or developmental, or unfamiliar to the contractor, the lack of cost experience may prevent the setting of a fair price when the contract is made.

(b) Even where cost experience exists, shortages of materials, priorities and allocations and changes in the quantities and rates of delivery may seriously affect the costs during performance of the contract.

§ 802.233–3 *Adaptation to war conditions.* To meet these and other situations and to facilitate the use of the fixed price contract, various provisions and policies have been developed, including the following:

(a) Termination articles.
(b) Financing provisions.
(c) Price revision articles.
(d) Adjustments and relief, without contract provisions, under the First War Powers Act.

These provisions and policies are intended to adapt the fixed price contract to war conditions, to minimize the risks of the contractor from unpredictable contingencies, and to facilitate obtaining contract prices close to costs. To the extent that the risks of unpredictable contingencies are reduced, the contractor does not need reserves or allowances against them in his price.

§ 802.234 *Termination article.* The risk of loss from termination of the contract, either for a change in the procurement program or upon cessation of hostilities, would deter contractors from making fixed price contracts or would require large allowances in the price to protect against this risk. The termination article is designed to remove this risk of loss by guaranteeing the contractor payment for all proper expenditures and costs in connection with the contract and an appropriate allowance for profit on the unfinished work in process, and by providing for expeditious settlement and payment of the amounts due. (See §§ 803.324 and 803.324–1.) These provisions reduce to the minimum any hardships on contractors resulting from necessary adjustments and reductions in the supply program.

§ 802.234a *Protection against loss from early termination.* On rare occasions, in connection with an initial contract with a contractor for a particular product or type of construction, involving a long period of preparation for the performance of the contract or unusually large development and planning costs, unusual circumstances may give rise to the request that the contractor be given special protection against loss through termination for the convenience of the Government at an early stage of the performance of the contract. In such cases, a full statement of the facts and a draft of any special contract provisions recommended will be submitted through the chief of the technical service negotiating the contract, to the Director, Purchases Division, Headquarters, Army Service Forces, for approval.

§ 802.235 *Financing provisions.* Lack of working capital or difficulties in financing would discourage contractors from undertaking fixed price contracts and necessitate the use of cost-plus-a-fixed-fee contracts. To overcome this, the War Department has arranged various methods of assisting contractors and subcontractors in financing war business. Three of these are (a) partial payments, (b) advance payments, and (c) guaranteed loans. The principles and purposes governing the use of these financing methods are discussed in §§ 803.319 to 803.321–14, 803.330 and 803.331 of this chapter. Other arrangements have been provided to assist with the financing and construction of plant facilities expansion. These are discussed in Part 810 of this chapter. Finally, the right to assign government contracts as security for financing is dealt with in §§ 803.390 to 803.390–7.

§ 802.236 *Price revision articles.* One means of adapting fixed price contracts to wartime conditions so as to achieve the basic objectives stated in § 802.230 is through the use of price revision articles. They are designed as a vehicle to protect contractors against the risks and hazards resulting from performing contracts in a war economy and in return for that protection, to enable contractors to agree to close prices. War Department policies with respect to price revision, the articles themselves, and the rules for their use and administration are set out in Part 803 of this chapter, particularly in §§ 803.370 to 803.777–4, inclusive, of Subpart H thereof. That part should be consulted before any price revision article is used or considered for use in any contract.

§ 802.236a *Escalation.* Except as and to the extent specifically provided in §§ 802.236–4, 802.236–5 and 802.236–6, of this subpart, the use in War Department contracts of articles or provisions for escalation of any kind is not authorized. The term "escalation" as used herein means any kind of automatic, self-operating or nonnegotiated price revision, whether based on indexes of any character contractors' costs, OPA maximum prices, or any other standard. The term does not include negotiated price revision under the standard articles therefor set out in §§ 803.370 to 803.777–4, inclusive, of this chapter.

§ 802.236b *Incentive contracts.* An article providing for price redetermination upon completion of the contract, with specified rates of sharing in cost savings below and extra costs above a target price, appears in § 803.379–5 of this chapter. An explanation and an illustration of the operation of the article and the conditions for its use are set out in §§ 803.378–1 to 803.378–4, inclusive.

§ 802.237 *Adjustments without contract provisions.* Paralleling the contract provisions for price revision discussed under § 802.236, and necessary to complete the price program, are the policies regarding price adjustments and other relief under Title II of the First War Powers Act and Executive Order No. 9001 in the absence of contract provisions. Thus where a contractor, who has kept down the contingency allowances in his price, suffers some unexpected risk or event, it may often be equitable and in the interests of the Government for it to adjust the contract price or other terms by supplemental agreement so as to assume some or all of any resulting increases in costs. By granting such relief to contractors in appropriate cases, either with or without consideration, the Government will reduce the necessity for large allowances in prices and encourage greater cooperation by contractors. The application of these policies is discussed in Subpart E of Part 812.

§ 802.238 *Policies on certain special items of cost.*

§ 802.238–1 *Amortization.* Under section 124 of the Internal Revenue Code, contractors who construct or acquire facilities necessary for the war effort are allowed under certain conditions to amortize the cost of them for tax purposes over a period of sixty months instead of the longer period of normal depreciation. This special tax credit was provided by Congress in order to encourage contractors to provide such facilities from their own funds rather than at Government expense. In view of this purpose, it is essential that in negotiating contracts involving the use of such facilities, the expense of such facilities be not passed on to the Government and that the price be fixed on the basis of only normal depreciation on the facilities and not at the accelerated rate of amortization permitted for tax purposes by section 124. In other words, the contractor may not treat the amortization at the accelerated rate as a cost against war contracts, but must provide for the excess over normal depreciation from his normal profit; this the tax credit greatly facilitates by leaving a larger net profit after taxes available for this purpose. Where the contractor desires the contract price to provide for a larger amount of the cost of such facilities, the Government is in effect paying for the facilities to the extent of the additional amount included in the contract. In such cases the contract must state the amount so included in the price and must contain suitable provisions to protect the interests of the Government in the facilities in accordance with § 810.1007 and following.

§ 802.238–2 *Reconversion and storage.* (a) In appropriate cases, the cost of converting plants to war production, including the removal of existing equipment and incidental building alterations, may be included in cost and therefore in the contract price and the contract may provide for payment, on termination of production for the Government, of the costs of removing Government-financed machinery and equipment, and of preparing it for storage and shipment.

(b) The Government will not bear either directly or indirectly, however, any part of the cost of reconverting the contractor's plant to commercial production (including installation of privately-owned machinery and equipment) or the cost of storing such machinery and equipment during the period between conversion and reconversion. This policy applies to all types of contracts, whether facilities contracts, cost-plus-a-fixed-fee contracts or fixed price contracts. It does not, however, prevent giving a contractor, in exceptional cases where fairness so requires, special protection against loss through early termination of the contract in accordance with § 802.234a.

§ 802.238–3 *Extraordinary risks incident to wartime operations.* In connection with both fixed price and cost-plus-a-fixed-fee contracts, the Government, pursuant to the First War Powers Act and Executive Order 9001 (see Op. J.A.G., SPJGC 1944/10016, September 5, 1944; conclusions concurred in by the Attorney General September 5, 1944), may assume particular extraordinary risks and hazards incident to war-time operations to which the contractor may be exposed, by agreeing to indemnify the contractor against loss or liability arising out of such risks and hazards. In cost-plus-a-fixed-fee contracts various contracting forms presently in use provide for such indemnification and no special approval by the Director, Purchases Division, Headquarters, Army Service Forces, for the use of these forms is required. In fixed price contracts such indemnification will be given only in rare cases and upon a clear showing of necessity. In any such fixed price contract (a) all contingencies and allowances for such risks and hazards will be excluded from the contract price and (b) such an indemnity agreement will be included only with the prior written approval of the Director, Purchases Division, Headquarters, Army Service Forces. In requesting such approval, a full statement will be submitted as to (1) the extent of the potential liability under the indemnity agreement, (2) any proposed contract maximum and minimum limits on the extent of such liability or other conditions affecting such liability, (3) the appropriated funds presently available to satisfy such liability and (4) the facts and reasons justifying such an indemnity agreement in the particular case rather than requiring the contractor to resort to insurance.

§ 802.239 *Subsidy prohibited.* None of the funds appropriated in the Military Appropriation Act, 1945 (Pub. Law 374, 78th Congress) shall be used for the payment of any subsidy on agricultural or other products. (See Section 1 of Pub. Law 374, 78th Congress, under subtitle "Subsistence of the Army".)

SUBPART D—NEGOTIATION OF CONTRACTS

§ 802.240 *Method of contracting.*

§ 802.240–1 *By negotiation.* Except as provided in § 802.240–2, all contracts and purchases made by the War Department will be made by negotiation under authority of the First War Powers Act, 1941, and Executive Order No. 9001, 3 CFR Cum. Supp., and in accordance with these procurement regulations. While this act and Executive order are construed to embody all the authority conferred by sections 1 (a) and (b) of the act of July 2, 1940 (Public Law No. 703, 76th Congress), as extended, the earlier act may also be cited as authority for contracting in appropriate cases if desired (see § 802.204–1).

§ 802.240–2 *By formal advertising.* When authorized by the Director, Purchases Division, Headquarters, Army Service Forces, contracts may be placed by formal advertising instead of by negotiations if deemed necessary in the interests of the Government.

§ 802.240–3 *Aids to negotiation.* Sound purchase control requires that the original contract be well negotiated on the basis of reliable cost experience and close estimates. To do this, all available information and aids to negotiation must be used as effectively as possible. This section deals with some of the methods and data which will assist such sound negotiation of contracts.

§ 802.241 *Methods of negotiation.*

§ 802.241–1 *General rule.* Subject to specific provisions of the regulations in this subpart, the chief of each technical service may determine the methods of negotiation to be followed by his service. Any method which, in the judgment of the chief of the technical service concerned, will result in the most efficient award of contracts and will protect the interests of the Government, is hereby authorized. Such methods may include not only face to face dealing but also informal written bids or telephone quotations, but the request for any such bids or quotations will clearly indicate that it is made under the authority of the First War Powers Act, 1941.

§ 802.241–2 *Decentralization.* The chiefs of the technical services will decentralize to their field agencies the actual work of negotiating contracts to the greatest extent consistent with efficiency and proper safeguarding of the public interest.

§ 802.242 *Use of informal bids.* Where consistent with the required speed of war procurement, notification of the proposed procurement will be given to a reasonable number of qualified producers and suppliers, and quotations secured from them.

§ 802.243 *Contractors' proposals.*

§ 802.243–1 *Value of standard proposal forms.* The use of contractors' proposals is an important method of obtaining information upon which to base a sound judgment in making awards of contracts. These proposals are particularly valuable when presented on standardized proposal forms, since a uniform method of statement facilitates comparison of all proposals received and their evaluation in the light of the principles set forth in Subpart B of this part and in ASF Manual M601.

§ 802.243–2 *Standard procurement forms prescribed for use in certain cases.*

§ 802.243–2a *When used*—(a) *Standard Procurement Form No. 3.* Whenever, in the opinion of the technical service involved, detailed cost or price information should be obtained from bidders as an aid to the adequate negotiation of contracts for supplies (excluding construction), it will employ Standard Procurement Form No. 3 and related forms (WD AGO Form 299, Mar. 1, 1945; WD AGO Form 299–1, February 1, 1945 or July 12, 1944; and WD AGO Form 299–2, March 1, 1945, referred to in § 813.1327. Within the scope of the foregoing rule, each technical service may prescribe more precisely the size and types of procurements in which Standard Procurement Form No. 3 is to be used.

(a) *Standard Procurement Form No. 4.* In simple procurements of supplies (excluding construction) for small amounts where effective competition exists, and where it is accordingly expected that awards will be made to the lowest bidders (subject to the principles set forth in Subpart B of this part), the information to be obtained from bidders may ordinarily be confined substantially to the quotation of prices. Whenever the technical service desires to obtain this limited information in the form of a written proposal, it will employ either (1) W. D. Contract Form No. 5 (§ 813.1317d), if that form of contract is otherwise suitable, or (2) Standard Procurement Form No. 4 (WD AGO Form 298), referred to in § 813.1327, followed by the execution of a suitable contract form.

§ 802.243–2b *Detailed instructions to procurement offices as to use of Form No. 3 and related forms*—(a) *Flexibility.* One important feature of Standard Procurement Form No. 3 is that it has considerable internal flexibility. The procurement office is required by the terms of the form to select and specify (within established limits), the data which the bidder is expected to furnish. Thus, the procurement office has latitude to accommodate the form to the necessities of particular procurements; for example, it may relieve the bidder of the task of compiling information which is not pertinent to the procurement or which is already known to the procurement office.

(b) *In general.* (1) Whenever feasible a preliminary survey will be made, by telephone or otherwise, to determine the prospective contractors to whom an award might be made. In this way, contractors not likely to make acceptable proposals may be eliminated without be-

ing required to expend the time and effort necessary to fill out Standard Procurement Form No. 3. Care should be taken, however, not to eliminate or exclude contractors whose proposals might possibly be acceptable, and not to act inconsistently with the policy of the Smaller War Plants Corporation. (See § 802.225).

(2) It is of the utmost importance that no contractor be asked to complete any portion of Standard Procurement Form No. 3 requiring information which will not be pertinent or useful in properly effecting the particular procurement, or which is already on file with the procurement office. This principle of selectivity will be applied to each contractor, so that in a particular procurement all of the bidders need not necessarily be asked to furnish the same information. The exclusion of such irrelevant and duplicative data is made possible by the flexible character of the form. A proper use of this feature of the form will relieve contractors of the burden of gathering and filling in unnecessary information. At the same time it will help to expedite procurements by making it possible for contractors to fill out and return their proposals more promptly. If, however, portions of the form omitted in the original request call for information which is subsequently deemed pertinent, that information may be requested by sending to the contractor additional copies of the form with an indication in the box on page 1 of the additional portions of the form to be completed.

(3) The procurement office and the contractor may, of course, make arrangements for the contractor to submit some part or parts of the information called for by the form by means of periodic reports or some other mutually satisfactory method. Such an arrangement may expedite and improve dealings with the contractor. Information so submitted should meet the substance of the requirements of the form.

(4) Although deviations from or additions to the form are not permitted without approval of higher authority (see § 802.243–3 where necessary the information obtained through use of the form may be clarified or amplified through correspondence or personal negotiation.

(5) The information submitted in or with Standard Procurement Form No. 3 will be used as a basis of negotiations with the prospective contractor, in accordnace with Part 802 and ASF Manual M 601 and any other instructions that may be in force from time to time.

(6) If a prospective contractor requests that he be notified upon rejection of his proposal, the procurement office will give such notice.

(c) *Instructions as to page 1 of Form No. 3.* (1) In the upper left-hand corner of page 1 of Standard Procurement Form No. 3, insert in the appropriate blanks the date, the request number (if any), the name and address of the procurement office, the name and address of the contractor, the preference rating to be assigned and (on the line entitled "Subject") the name or a brief description of the item or items as to which a proposal is sought.

(2) The box in the upper right-hand corner of page 1 should contain a list of all the titles of the Contractor's Proposal, or the portions of such titles which the contractor is requested to fill out or answer. It is at this point that the flexibility of the form, which has been discussed above, comes into actual operation. Care and sound judgment must be exercised in selecting the titles, or portions thereof, to be included in the box. The selection should be made only after a review has been made of the information already on hand in the procurement office, and after consideration has been given to the need for further information necessary to effect the procurement in accordance with War Department policies. In filling out the box, list only the title if all the sections thereof are to be completed; otherwise the sections themselves should be specified in the box. If the request for proposal relates to more than one kind of item, specify in the box, by item number or otherwise, the items for which cost breakdowns are to be submitted under either or both of Titles V and IX.

(3) A reference to the contract form number or some other brief description of the form of proposed contract (which may be stated in the alternative if the procurement office is uncertain as to which form of contract is to be used) should be inserted in the first blank in paragraph 1 on page 1. Mandatory clauses need not be specified. Any optional contract clauses which the procurement office desires to include in the contract should be appropriately referred to and identified in the blank space provided at the end of paragraph 1 on page 1. Such of the optional clauses as the procurement office requires to be included in the contract should be stated first and preceded by the words "No Deviation"; such of the optional clauses as the procurement office merely suggests for inclusion should be set forth in a second group and preceded by the words "Optional with Contractor". It may be desirable in some cases to attach a copy of the contract form or of the clauses.

(4) Insert in the blanks in paragraph 4 on page 1 the number of copies of the form to be completed and returned and the date for the return of the Contractor's Proposal. The date specified should give the contractor a reasonable time in which to complete and return the proposal but should be no longer than is necessary in the circumstances.

(5) The inclosures should be indicated in the lower left-hand corner, and the name of the procurement office and the signature and title of its representative should be entered on the blank lines in the lower right-hand corner, of page 1.

(d) *Instructions as to remainder of Form No. 3, and as to related forms.* (1) It should be noted that certain portions of the form following the heading "Contractor's Proposal" are required to be filled in by the procurement office. In filling out those portions and in determining the portions of the forms to be completed by the contractor, the following instructions will be observed.

(2) If the procurement office desires that the contractor's proposal be kept open for a certain number of days, that number may be inserted in the blank space provided therefor in paragraph 2 on page 2 of the form. That time should be kept to a minimum and in any event will not exceed thirty days. Otherwise the space should be left blank for completion by the contractor.

(3) In Title III (A) of Standard Procurement Form No. 3, Scope of Proposal, show the F. O. B. point in the space provided therefor and insert in the appropriate columns of the table the following information as to each item: Item number, description of item (or reference to description contained in any attachment), total quantity and unit (as pounds, yards, etc.) on the first two lines of column (3), and the Government's requested delivery schedule. The description of the item may be extended into column (3). Items for which separate prices are wanted, e. g., special packaging, should be shown as separate items in the table. If the delivery schedule for one item is the same as that for an item already specified, the schedule need not be repeated but may be indicated by the words "Same as for Item ——". In the case of spare parts, reference may be made to deliveries concurrent with the item or items to which they relate. If a proposal is desired without deviations from the request, the words "No Deviation" should be inserted in the columns for the description, total quantity and delivery schedule, or in one or more of such columns. If deviations are allowed, leave space at least equal to that used in filling out the Government's requested delivery schedule below each item. Columns (5) and (6), for the proposed unit and total prices, and column (7), for the contractor's proposed delivery schedule, should of course be left blank for completion by the contractor.

(4) Attention is invited to the space provided at the end of paragraph (c) of Title III of the "Instructions for Completing War Department Standard Procurement Form No. 3". (WD AGO Form 299–2, March 1, 1945). This space is intended for the insertion, by the procurement office, of special instructions relating to taxes in any case where the general instructions are inapplicable or inappropriate.

(5) Insert in paragraph (D) of Title III of Standard Procurement Form No. 3, a brief but adequate description of any material which the Government proposes to furnish. If more convenient, that description may be included in column (2) of the table under Title III (A). If no such material is to be furnished, insert the word "None". Where necessary, insert the words "No Deviation".

(6) Before the contractor is asked to complete Titles II and IV of Standard Procurement Form No. 3, the paragraphs appearing under those titles should be carefully checked by the contracting officer. To the extent that any of the information called for will not be useful or the procurement office already has obtained, or has made other arrangements by means of periodic reports or otherwise for obtaining, the information called for, the contractor should not be asked to complete the titles. Thus the box on page 1 of the form should list only such

of the paragraphs of Titles II and IV as will elicit new and useful information. It should be noted that some information is requested only to the extent available, and that whether the information called for by specification of paragraph 6 of Title IV is or is not to be furnished is a matter to be left to the contractor's judgment.

(7) When the contractor is asked to fill out Title V of Standard Procurement Form No. 3, Unit Cost Breakdowns, or some part or parts thereof, Column A under that title will be called for in nearly all cases, but Column B will be omitted where the contractor has not had relevant previous experience or where the procurement office already has satisfactory cost information on hand. It is permissible to insert in lines 12 through 19 any special elements of cost which are not included in the classifications appearing in the preceding lines, e. g., packaging materials or special tooling, but such insertions should be made sparingly and only when there is good reason for them. It is also permissible to work out with the contractor other classifications that are suitable for use with his cost accounting system or to make arrangements for over-all reports on his past cost experience. Where the proposal is to include more than one type of item, a continuation sheet for Title V (WD AGO Form 299–1, February 1, 1945 or July 12, 1944) should be added to each counterpart of the form for each of the additional items for which cost information is required.

(8) The supplement to Standard Procurement Form 3 includes Titles VI through X. If no part of those titles or any part thereof is specified in the box on page 1 the supplement should not be sent to the contractor.

(9) Title VI, Indirect Factory Expenses, and Title VII, General and Administrative Expenses, portions of Standard Procurement Form No. 3, should not be specified in the box on page 1 of the form unless there is reasonable cause for believing that the information to be elicited thereby will assist materially in the negotiation of the contract price, and the information is not already on file with the procurement office. Arrangements may be made with the contractor for the submission of this information in some other form or forms acceptable to both the procurement office and the contractor. Note that under each title, columns 1, 2 or 3 may be listed in the box on page 1 of the form. Use only the column or columns necessary in the particular instance.

(10) Title VIII of Standard Procurement Form No. 3, Accounting Methods, should be used only infrequently, when the information called for therein will contribute substantially to an understanding of the contractor's proposal. Where the information is considered useful, the request may be limited, by an appropriate indication in the box on page 1, to such of the lettered clauses as may be deemed appropriate in the particular instance. This title should not ordinarily be used where the contractor has supplied the information to the procurement office in connection with a reasonably recent or current procurement. Such information should be preserved in the files of the procurement office.

(11) Title IX of Standard Procurement Form No. 3, Costs of Other Items, should be specified only where the amount involved in any of the paragraphs of that title is substantial. Where necessary, the items as to which the information is sought should be specified. Note that any one or more of the paragraphs may be listed in the box on page 1 of the form. Continuation sheets used with Title V (WD AGO Form 299–1, February 1, 1945 or July 12, 1944) should be supplied where Title IX is used.

(12) Title X of Standard Procurement Form No. 3, Direct Materials, is to be used only where a few materials constitute an important element of total material cost and where the amount of subcontracting is not large in relation to total material cost. A list of the materials as to which the information is desired may be inserted by the procurement office in the space provided therefor. If Title X is specified in the box on page 1 of the form with respect to more than one item, the necessary additional copies of the supplement should be furnished to the contractor.

(13) One copy of the "Instructions for Completing War Department Standard Procurement Form No. 3" (WD AGO Form 299–2, March 1, 1945) should be sent to each contractor along with the necessary number of counterparts of Standard Procurement Form No. 3.

§ 802.243–2c Detailed instructions to contractors for completing Form No. 3 are set forth in the related form, WD AGO Form 299–2, March 1, 1945.

§ 802.243–2d Standard Procurement Form No. 4 (WD AGO Form 298) is self-explanatory.

§ 802.243–3 *Deviations from standard proposal forms permitted only with approval of higher authority.* (a) Unless authority is obtained under paragraph (b) below, Standard Procurement Forms Nos. 3 and 4 will be used without deviation or addition, and no substitute or supplementary proposal forms will be used (except that W.D. Contract Form No. 5 may be employed in lieu of Standard Procurement Form No. 4, as provided in § 802.243–2 (a). Where necessary, however, the information obtained through use of Standard Procurement Forms No. 3 or 4 may be clarified or amplified through correspondence or personal negotiation.

(b) Upon request and justification by the technical service involved, the Director, Purchases Division, Headquarters, Army Service Forces, may in particular classes of cases permit deviations from or additions to Standard Procurement Forms Nos. 3 and 4, or otherwise grant partial or complete exemptions from the requirements of §§ 802.243–2 and 802.243–3 (a). Such authority will normally be granted only where the forms do not fit the cost patterns of particular industries, and in these instances it will be required that the authorized deviations from or additions to the forms be applied uniformly to all members of the industry.

§ 802.244 *Purchase analysis.*

§ 802.244–1 *Price comparison.* Comparative prices for similar items compiled in accordance with § 802.251 will be made available to contracting officers for use in negotiating new contracts. The prices offered for new contracts should be carefully compared with previous prices for similar items, making allowance for improved methods, rates of production, type of facilities and other factors. Where proposals are obtained from several producers they should be similarly compared with each other.

§ 802.244–2 *Renegotiation information.* The chief of each technical service will insure that contracting officers make regular use of studies and other information compiled by the price adjustment and cost analysis sections and useful in negotiating with contractors, such as data on volume of business, the policies regarding overhead and reserves, rates of profit and other material. (See § 802.252.)

§ 802.244–3 *Cost analysis.* When the prices or cost estimates submitted by a producer are out of line with previous experience or other proposals and use of his facilities is necessary or desirable in accordance with the policies stated in Subpart B of this part, an analysis of the contractor's costs should ordinarily be made in order to find the causes of the higher costs or prices. Likewise where prices or cost estimates of a producer for an unfamiliar item are so low as to indicate mistakes in the estimates, a similar study should be made. Such study and analysis should be limited to the minimum necessary to obtain the required information and should be made with the least possible inconvenience to the producer (see § 802.253).

§ 802.244–4 *Check lists.* Orderly and speedy negotiations are facilitated by the use of standard negotiation check lists. Such forms should be designed to indicate the information to be obtained from the contractor and from other sources and the methods to be used in evaluating this material and in arriving at the final contract terms.

§ 802.245 *Special clauses.* The contracting officer should consider in each case whether use of any of the various articles for price adjustment discussed in Subpart C of this part and in Part 812 of this chapter is desirable. When such articles are used, the contracting officer will satisfy himself that the original price is sufficiently reduced, by eliminating or reducing contingency reserves and by lower profit margins, to justify the Government in agreeing to such adjustment provisions in favor of the contractor.

§ 802.246 *Compulsory purchases.* Where a fair contract cannot be obtained by voluntary negotiation, it may be necessary to resort to compulsory methods.

§ 802.246–1 *Mandatory orders.* Under section 9 of the Selective Training and Service Act of 1940 as amended, mandatory orders may be placed with producers requiring them to supply items of the nature and kind usually produced or readily capable of being produced by them. Payment for such items will be

at prices determined by the Secretary of War to be reasonable. While the general use of such orders is not favored they will be resorted to when necessary under the circumstances described and outlined in § 814.1450 et seq. Thus, where a qualified producer whose products are required in the war effort refuses to produce and deliver upon terms which in the opinion of the contracting officer are fair and reasonable, the issuance of a mandatory order will normally follow. Specific reference should be made to § 814.1450 et seq. for detailed procedures covering this method of procurement.

§ 802.246–2 *Requisitioning.* When articles needed in the war effort are already in existence but for one reason or another cannot be purchased after reasonable negotiation, the procedure under the requisitioning acts, as outlined in § 814.1401 et seq., should be resorted to in order to obtain the required items.

§ 802.247 *Assistance by Headquarters, Army Service Forces.* The Purchase Pricing Methods Branch, Purchases Division, Headquarters, Army Service Forces, will assist any service in preparing standard forms for proposals by contractors, evaluation sheets or check lists and other aids to effective negotiation.

§ 802.248 *Purchasing by prime contractors.*

§ 802.248–1 *Purchasing methods of cost-plus-a-fixed-fee contractors.* Cost-plus-a-fixed-fee contractors should ordinarily make their subcontracts and purchases by negotiation rather than by formal advertising. In connection with such negotiations, they will obtain informal quotations from qualified suppliers whenever feasible, but evidence of formal competition will not be required in connection with such agreements unless the contracting officer directs otherwise.

§ 802.248–2 *Adjustment of prices and terms of subcontracts and purchase orders under cost-plus-a-fixed-fee contracts* (a) The cost-plus-a-fixed-fee contractor is obligated to procure materials and services at the most advantageous prices possible, with due regard to securing prompt delivery and satisfactory performance. Under some circumstances, commercial concerns find it necessary or desirable and advantageous to adjust the price or terms of an outstanding subcontract or purchase order without legal consideration, for the benefit of the supplier. By permitting cost-plus-a-fixed-fee contractors to make similar adjustments or appropriate cases in accordance with this regulation, it is believed that they will be able to buy from their suppliers on closer prices in the first instance and that the maximum crease the price or extend more favorable terms to the subcontractor.

The chief of a technical service may amend any existing cost-plus-a-fixed-fee contract to include this provision whenever in his opinion such action will be advantageous to the Government and will facilitate the prosecution of the war.

(c) It has been determined that it will facilitate the prosecution of the war to permit cost-plus-a-fixed-fee contractors to increase the price or to make other adjustments in the terms of a subcontract or purchase order, without legal consideration therefor, pursuant to the contract provision authorized by paragraph (b) above, whenever the contracting officer specifically determines.

(1) That the price increase or other adjustment is necessary or desirable in order to continue or increase satisfactory production of essential supplies or to ensure their timely delivery; or

(2) That fair and equitable dealing with the subcontractor or supplier in accordance with sound business practice requires such price increase or other adjustment; or

(3) That the maximum use of available facilities through subcontracting will be thereby facilitated or encouraged; or

(4) That the contractor through following such a policy will be enabled to buy from its suppliers and subcontractors at closer prices in the first instance.

(d) The contracting officer may approve any such increase in price or other adjustment in the terms of a subcontract or purchase order without legal consideration only if, in the light of all the facts and circumstances in the particular case, he makes the determination required by paragraph (c) above. Whenever approval of any such adjustment is contemplated, the contracting officer shall prepare and file a complete memorandum of the circumstances involved and the reasons for the proposed approval, and shall forward a copy of this memorandum to the chief of the technical service concerned for review and concurrence. No approval shall be given by the contracting officer under the contract until concurrence of the chief of the technical service concerned has been received. Upon any such adjustment in the price or terms of a subcontract or purchase order, the contractor shall be reimbursed on the basis of the adjusted price or terms.

(e) As used herein the term "cost-plus-a-fixed-fee contract" includes a provision in a fixed-price contract for preserving facilities for the account of the [illegible] and the term "contractor" includes the [illegible]

with the performance of this responsibility by the services.

§ 802.251 *Price analysis.*

§ 802.251–1 *Functions.* The chief of each technical service will maintain within his service appropriate agencies to perform the following price analysis functions:

(a) To assemble, analyze, interpret and disseminate price data for all important items procured by the technical services and for important component items entering into the costs of such items;

(b) To prepare special price analysis reports for procurement officers; and

(c) To compile and maintain comparative price records and indices for such items and their important components.

§ 802.251–2 *Sources of data.* In performing their functions, price analysis agencies will make use of the following types of information:

(a) Contract prices for similar items, which will be compiled on a comparable basis with respect to the basic (or major) item, essential extra parts and assemblies, initial and extra equipment, Government furnished equipment and scrap salvage.

(b) Cost estimates and other relevant data from proposals submitted by contractors.

(c) Analyses of the effect of major production and engineering problems on prices and costs.

(d) Prices paid for important subcontracted items. (See § 802.254.)

(e) Breakdowns of costs of subcontractors and sub-subcontractors based on production experience.

(f) Balance sheets and operating statements and similar data for contractors and subcontractors from price adjustment sections and financial services.

(g) Information from other Government agencies such as the Office of Price Administration. (See §§ 811.1130 to 811.1135.)

(h) Where necessary, audits of [illegible] of contractors and subcontractors made by the cost analysis sections.

§ 802.251–3 *Use of price data.* (a) The price analysis agencies will prepare full analyses and reports on the comparative prices paid for important [illegible] and their components, making proper allowance for differences in [illegible] the contract, in design, [illegible] type of business, contract terms and other factors. These reports will be in such form [illegible] price adjustment sections, and will contain [illegible] recommendations for [illegible] or materials [illegible] or terms.

(b) In making [illegible] the price analysis agencies will [illegible] the [illegible] of the contractor [illegible] the cost of the [illegible] of items.

§ 802.251–4 *Functions.* When a [illegible]

make studies of the prices of such contractors.

(d) Price records on items procured by the technical service and important components will be kept in such manner as to be readily available for reporting to higher authority or to the Office of Price Administration as requested.

§ 802.251–4 *Corrective action.* When price analysis reveals that the prices of comparable items are out of line, the procurement officer directly concerned will immediately initiate measures to discover the reasons. The appropriate measures will depend upon the particular situation. The contractor or his important subcontractors may be required to furnish a breakdown of actual costs based on production experience. When these are inadequate, cost audits or spot checks may be undertaken through the financial analysis section, and studies of purchasing methods may be made in accordance with § 802.254. Unless the facts disclosed that differences in price are justified by higher costs and by the policies stated in Subpart B of this part, negotiations will be initiated for appropriate adjustments in contract or subcontract prices.

§ 802.252 *Profit analysis.* The studies, by the price adjustment sections of each technical service, of the overall costs, profits and financial position of contractors and subcontractors provide valuable data to assist contract negotiation, such as information regarding overhead, reserves, profit margins, volume of business and similar matters. The chief of each technical service will make arrangements to insure that such information is made readily available in useful form for procurement officers in conducting negotiations with such contractors and for price analysis agencies in performing their functions.

§ 802.253 *Financial analysis.*

§ 802.253–1 *Organization.* Each technical service will maintain appropriate agencies to perform financial analysis functions and to act as fact finding units with respect to costs and profits of its contracts and subcontracts for use in negotiations by contracting officers as well as in renegotiation by price adjustment sections. The chief of each technical service may assign the financial analysis functions to such place in the organization of the service as seems most convenient to him to permit their effective performance. They may not be placed in the fiscal division of the organization unless the cost of the service is small.

§ 802.253–2 *Functions.* When a [illegible]

necessary to obtain the desired information.

§ 802.254 *Supervision of subcontracts and purchases.*

§ 802.254–1 *Policy.* The Government is vitally interested in the prices of component parts and materials of the items which it procures. The prices for such component articles are reflected in prices under fixed price prime contracts and are directly reimbursed under fixed-fee contracts. If excessive, such prices encourage inefficiency, inflationary expenditures and excessive profits in the same manner as excessive prime contract prices. Accordingly, the War Department and technical services must also supervise these prices. Because the Government could not attempt to inspect or approve individual purchases under all fixed price and fixed-fee contracts, they must be supervised by more selective methods adapted to varying circumstances.

§ 802.254–2 *Methods of supervising purchases under cost-plus-a-fixed-fee contracts.* While the cost-plus-a-fixed-fee contractor is responsible for efficient buying, the lack of direct financial incentives for economy makes it essential to supervise its purchasing with respect to prices, quantities and capacity of suppliers. Experience has shown that detailed prior approval of all purchase orders and subcontracts under fixed-fee supply contracts is less efficient for this purpose than more selective methods. Accordingly the following procedure for supervision will be adopted in the case of supply contracts.

(a) The purchasing policies and methods of the cost-plus-a-fixed-fee contractor should be carefully analyzed to determine their adequacy for sound purchasing. This analysis should ascertain (1) whether prices paid are reasonable; (2) whether quantities purchased are proper; (3) whether suppliers and subcontractors are reasonably qualified, (4) whether the purchasing personnel are well-qualified and (5) whether purchasing procedures are sound and adequate.

(b) If the purchasing policies and methods are adequate with respect to prices, quantities and suppliers and are consistently followed prior approval of subcontracts and purchase orders by the representatives of the contracting officer need not be required, or may be limited to those of substantial amounts if regular selective checking to maintain control is maintained.

(c) If the purchasing methods are inadequate in one respect, steps should be taken immediately to remedy the [illegible]

method of supervision is inadequate, he may require such further supervision, including prior approval of purchase orders and subcontracts, as he deems necessary.

§ 802.254–3 *Methods of supervising purchasing by fixed price contractors.* (a) In the case of fixed price contracts, the contractor ordinarily has strong incentives to purchase at low prices in order to enhance the profit, but with high excess profits taxes and renegotiation, this incentive can be fully maintained only by keeping the prices under prime contracts close to minimum costs. For this purpose procurement officers must have adequate information on what component parts and materials should cost if well purchased and must know whether the contractor is equipped to obtain the best prices available.

(b) Price analyses in accordance with § 802.251 will supply necessary information. In that connection, the purchasing policies and methods of important fixed price contractors should be analyzed in the manner described in § 802.254–2. When such analysis or the study of the prices paid by different contractors for important component parts and materials reveals deficiencies, they should be called to the attention of the contractor with recommendations for their correction.

§ 802.254–4 *Personnel.* A selective method of control requires the use of well trained and experienced personnel with a knowledge of purchasing methods and industrial costs and prices. Each service should obtain an adequate number of qualified officers or employees to perform these functions.

§ 802.255 *Sanctions.* Whenever study or analysis reveals that the prices of a contractor or subcontractor are excessive, and he refuses to make appropriate adjustments, the facts should be reported through the chief of the technical service to the Purchases Division, Headquarters, Army Service Forces. In appropriate cases the Director may then authorize action to correct the situation by the use of compulsory orders, renegotiation, or other means.

§ 802.256 *Coordination.* Each technical service may determine the form of organization necessary to perform the foregoing functions within its service but to secure their essential coordination and their integration with procurement. That is its discretion, a centralized service may combine these functions in a single agency or system [illegible] several separate agencies. Because these various price functions are so closely related, however,

at prices determined by the Secretary of War to be reasonable. While the general use of such orders is not favored they will be resorted to when necessary under the circumstances described and outlined in § 814.1450 et seq. Thus, where a qualified producer whose products are required in the war effort refuses to produce and deliver upon terms which in the opinion of the contracting officer are fair and reasonable, the issuance of a mandatory order will normally follow. Specific reference should be made to § 814.1450 et seq. for detailed procedures covering this method of procurement.

§ 802.246–2 *Requisitioning.* When articles needed in the war effort are already in existence but for one reason or another cannot be purchased after reasonable negotiation, the procedure under the requisitioning acts, as outlined in § 814.1401 et seq., should be resorted to in order to obtain the required items.

§ 802.247 *Assistance by Headquarters, Army Service Forces.* The Purchase Pricing Methods Branch, Purchases Division, Headquarters, Army Service Forces, will assist any service in preparing standard forms for proposals by contractors, evaluation sheets or check lists and other aids to effective negotiation.

§ 802.248 *Purchasing by prime contractors.*

§ 802.248–1 *Purchasing methods of cost-plus-a-fixed-fee contractors.* Cost-plus-a-fixed-fee contractors should ordinarily make their subcontracts and purchases by negotiation rather than by formal advertising. In connection with such negotiations, they will obtain informal quotations from qualified suppliers whenever feasible, but evidence of formal competition will not be required in connection with such agreements unless the contracting officer directs otherwise.

§ 802.248–2 *Adjustment of prices and terms of subcontracts and purchase orders under cost-plus-a-fixed-fee contracts* (a) The cost-plus-a-fixed-fee contractor is obligated to procure materials and services at the most advantageous prices possible, with due regard to securing prompt delivery and satisfactory performance. Under some circumstances, commercial concerns find it necessary or desirable and advantageous to adjust the price or terms of an outstanding subcontract or purchase order, without legal consideration, for the benefit of the supplier. By permitting cost-plus-a-fixed-fee contractors to make similar adjustments in appropriate cases in accordance with this regulation, it is believed that they will be able to buy from their suppliers at closer prices in the first instance and that the maximum use of available facilities through subcontracting will be maintained.

(b) In order expressly to authorize such adjustments in accordance with this regulation, the chief of a technical service may include in any cost-plus-a-fixed-fee contract substantially the following provision:

> With the approval of the Contracting Officer, the Contractor may modify a subcontract or purchase order under this contract to increase the price or extend more favorable terms to the subcontractor.

The chief of a technical service may amend any existing cost-plus-a-fixed-fee contract to include this provision whenever in his opinion such action will be advantageous to the Government and will facilitate the prosecution of the war.

(c) It has been determined that it will facilitate the prosecution of the war to permit cost-plus-a-fixed-fee contractors to increase the price or to make other adjustments in the terms of a subcontract or purchase order, without legal consideration therefor, pursuant to the contract provision authorized by paragraph (b) above, whenever the contracting officer specifically determines.

(1) That the price increase or other adjustment is necessary or desirable in order to continue or increase satisfactory production of essential supplies or to ensure their timely delivery; or

(2) That fair and equitable dealing with the subcontractor or supplier in accordance with sound business practice requires such price increase or other adjustment; or

(3) That the maximum use of available facilities through subcontracting will be thereby facilitated or encouraged; or

(4) That the contractor through following such a policy will be enabled to buy from its suppliers and subcontractors at closer prices in the first instance.

(d) The contracting officer may approve any such increase in price or other adjustment in the terms of a subcontract or purchase order without legal consideration only if, in the light of all the facts and circumstances in the particular case, he makes the determination required by paragraph (c) above. Whenever approval of any such adjustment is contemplated, the contracting officer shall prepare and file a complete memorandum of the circumstances involved and the reasons for the proposed approval, and shall forward a copy of this memorandum to the chief of the technical service concerned for review and concurrence. No approval shall be given by the contracting officer under the contract until concurrence of the chief of the technical service concerned has been received. Upon any such adjustment in the price or terms of a subcontract or purchase order, the contractor shall be reimbursed on the basis of the adjusted price or terms.

(e) As used herein the term "cost-plus-a-fixed-fee contract" includes a provision in a fixed-price contract for procuring facilities for the account of the Government at cost (see § 803.332), and the term "contractor" includes the contractor operating under such a provision.

SUBPART E—PRICE SUPERVISION

§ 802.250 *General policy.* For the reasons stated in § 802.230, the War Department is responsible for supervising and controlling the prices of all supplies and equipment procured and of the various items and services entering into the costs of these supplies and equipment to insure that such prices are reasonable and not excessive. This subpart deals with the performance of this responsibility by the services.

§ 802.251 *Price analysis.*

§ 802.251–1 *Functions.* The chief of each technical service will maintain, within his service appropriate agencies to perform the following price analysis functions:

(a) To assemble, analyze, interpret and disseminate price data for all important items procured by the technical services and for important component items entering into the costs of such items;

(b) To prepare special price analysis reports for procurement officers; and

(c) To compile and maintain comparative price records and indices for such items and their important components.

§ 802.251–2 *Sources of data.* In performing their functions, price analysis agencies will make use of the following types of information:

(a) Contract prices for similar items which will be compiled on a comparable basis with respect to the basic (or major) item, essential extra parts and assemblies, initial and extra equipment, Government furnished equipment and scrap salvage.

(b) Cost estimates and other relevant data from proposals submitted by contractors.

(c) Analyses of the effect of major production and engineering problems on prices and costs.

(d) Prices paid for important subcontracted items. (See § 802.254.)

(e) Breakdowns of costs of subcontractors and sub-subcontractors based on production experience.

(f) Balance sheets and operating statements and similar data for contractors and subcontractors from price adjustment sections and financial services.

(g) Information from other Government agencies such as the Office of Price Administration. (See §§ 811.1130 to 811.1135.)

(h) Where necessary, audits of costs of contractors and subcontractors made by the cost analysis sections.

§ 802.251–3 *Use of price data.* The price analysis agencies will prepare full analyses and reports on the comparative prices paid for important items and their components, making proper allowance for differences in the size of the contract, in design, local wage scales, type of facilities, contract terms and other factors. These reports will be in a form usable by procurement officers and price adjustment sections and will contain any recommendations for necessary or desirable action by them.

(b) In making or revising contracts, procurement officers will consult with the appropriate price analysis section and make use of all pertinent price analyses and reports then available.

(c) The price analysis agency will cooperate closely with the price adjustment sections and will make available to them price analyses and reports for use in renegotiation. When renegotiation reveals excessive profits the price analysis agency should immediately make studies of the prices of such contractors.

(d) Price records on items procured by the technical service and important components will be kept in such manner as to be readily available for reporting to higher authority or to the Office of Price Administration as requested.

§ 802.251–4 *Corrective action.* When price analysis reveals that the prices of comparable items are out of line, the procurement officer directly concerned will immediately initiate measures to discover the reasons. The appropriate measures will depend upon the particular situation. The contractor or his important subcontractors may be required to furnish a breakdown of actual costs based on production experience. When these are inadequate, cost audits or spot checks may be undertaken through the financial analysis section, and studies of purchasing methods may be made in accordance with § 802.254. Unless the facts disclosed that differences in price are justified by higher costs and by the policies stated in Subpart B of this part, negotiations will be initiated for appropriate adjustments in contract or subcontract prices.

§ 802.252 *Profit analysis.* The studies, by the price adjustment sections of each technical service, of the overall costs, profits and financial position of contractors and subcontractors provide valuable data to assist contract negotiation, such as information regarding overhead, reserves, profit margins, volume of business and similar matters. The chief of each technical service will make arrangements to insure that such information is made readily available in useful form for procurement officers in conducting negotiations with such contractors and for price analysis agencies in performing their functions.

§ 802.253 *Financial analysis.*

§ 802.253–1 *Organization.* Each technical service will maintain appropriate agencies to perform financial analysis functions and to act as fact finding units with respect to costs and profits on its contracts and subcontracts for use in negotiations by contracting officers as well as in renegotiation by price adjustment sections. The chief of each technical service may assign the financial analysis functions to such place in the organization of the service as seems most appropriate to him to permit their effective performance; they need not be placed in the fiscal section of the technical service unless the chief of the service so decides.

§ 802.253–2 *Functions.* When a financial analysis study of any contractor is made to prepare reports for the price adjustment section, there will also be made such study as seems appropriate in each case to aid procurement officers in future contract negotiations with the contractor. In addition, whenever price analysis indicates that prices or costs of a particular contractor or subcontractor are out of line and the procurement officer so requests, the financial analysis agency will make necessary studies of any contractor or subcontractor. Such studies will be limited to the extent necessary to obtain the desired information.

§ 802.254 *Supervision of subcontracts and purchases.*

§ 802.254–1 *Policy.* The Government is vitally interested in the prices of component parts and materials of the items which it procures. The prices for such component articles are reflected in prices under fixed price prime contracts and are directly reimbursed under fixed-fee contracts. If excessive, such prices encourage inefficiency, inflationary expenditures and excessive profits in the same manner as excessive prime contract prices. Accordingly, the War Department and technical services must also supervise these prices. Because the Government could not attempt to inspect or approve individual purchases under all fixed price and fixed-fee contracts, they must be supervised by more selective methods adapted to varying circumstances.

§ 802.254–2 *Methods of supervising purchases under cost-plus-a-fixed-fee contracts.* While the cost-plus-a-fixed-fee contractor is responsible for efficient buying, the lack of direct financial incentives for economy makes it essential to supervise its purchasing with respect to prices, quantities and capacity of suppliers. Experience has shown that detailed prior approval of all purchase orders and subcontracts under fixed-fee supply contracts is less efficient for this purpose than more selective methods. Accordingly the following procedure for supervision will be adopted in the case of supply contracts.

(a) The purchasing policies and methods of the cost-plus-a-fixed-fee contractor should be carefully analyzed to determine their adequacy for sound purchasing. This analysis should ascertain (1) whether prices paid are reasonable; (2) whether quantities purchased are proper; (3) whether suppliers and subcontractors are reasonably qualified; (4) whether the purchasing personnel are well-qualified; and (5) whether purchasing procedures are sound and adequate.

(b) If the purchasing policies and methods are adequate with respect to prices, quantities and suppliers and are consistently followed, prior approval of subcontracts and purchase orders by the representatives of the contracting officer need not be required, or may be limited to those of substantial amounts, if regular selective checking is maintained instead.

(c) If the purchasing methods are inadequate in any respect, steps should be taken immediately to require the contractor to correct the deficiency, and if necessary, prior approval of subcontracts and purchase orders by the representative of the contracting officer to check on the propriety of the prices and other terms should be required until the deficiency is corrected.

(d) Periodically a report should be prepared with respect to each important contractor, stating the results of the inspection of the purchases and examination during the preceding period.

(e) If at any time the chief of a technical service finds that the selective method of supervision is inadequate, he may require such further supervision, including prior approval of purchase orders and subcontracts, as he deems necessary.

§ 802.254–3 *Methods of supervising purchasing by fixed price contractors.* (a) In the case of fixed price contracts, the contractor ordinarily has strong incentives to purchase at low prices in order to enhance the profit, but with high excess profits taxes and renegotiation, this incentive can be fully maintained only by keeping the prices under prime contracts close to minimum costs. For this purpose procurement officers must have adequate information on what component parts and materials should cost if well purchased and must know whether the contractor is equipped to obtain the best prices available.

(b) Price analyses in accordance with § 802.251 will supply necessary information. In that connection, the purchasing policies and methods of important fixed price contractors should be analyzed in the manner described in § 802.254–2. When such analysis or the study of the prices paid by different contractors for important component parts and materials reveals deficiencies, they should be called to the attention of the contractor with recommendations for their correction.

§ 802.254–4 *Personnel.* A selective method of control requires the use of well trained and experienced personnel with a knowledge of purchasing methods and industrial costs and prices. Each service should obtain an adequate number of qualified officers or employees to perform these functions.

§ 802.255 *Sanctions.* Whenever study or analysis reveals that the prices of a contractor or subcontractor are excessive, and he refuses to make appropriate adjustments, the facts should be reported through the chief of the technical service to the Purchases Division, Headquarters, Army Service Forces. In appropriate cases the Director may then authorize action to correct the situation by the use of compulsory orders, renegotiation, or other means.

§ 802.256 *Coordination.* Each technical service may determine the form of organization necessary to perform the foregoing functions within its service and to obtain their essential coordination and their integration with procurement. Thus, in its discretion, a technical service may combine these functions in a single agency or assign them to several separate agencies. Because these various price functions are so closely related, however, it is recommended that even where they are performed by several agencies in any service, all of them should be coordinated and integrated under a single head. Such an agency should supervise within the service all functions relating to contract clearance, negotiation aids, price analysis and supervision, liaison with the Office of Price Administration, renegotiation and price adjustment, and price research. This policy has been followed in Headquarters, Army Service Forces, by the creation within the Purchases Division of an Assistant Director for

Price responsible for supervising all of these functions. Creation of a similar agency in each service will facilitate coordination and cooperation between Headquarters and the services.

SUBPART F—CONTRACTING POLICY REGARDING CONSTRUCTION AND MAINTENANCE WORK

§ 802.260 *General.* Wherever possible all construction work will be performed on a contract basis, and barring that possibility for practical reasons such construction work will be performed on a hired labor basis.

§ 802.260–1 *Same; new construction.* Job construction refers to work of a type generally performed by a construction contractor, which is non-recurrent and temporary in the sense that it terminates on the completion of a specific project. In general, this includes such work as the construction of new structures or alterations of like nature to existing structures.

(a) All such new work within the meaning of the above definition will be prosecuted under contract whenever possible.

(b) When such work does not adapt itself to contracting procedure for practical reasons, it will be done by the officer in charge on a hired labor basis.

§ 802.260–2 *Same; maintenance work.* Maintenance work refers to work which is regular and recurring, and which is continuous in the sense that it is not terminable on the completion of a specific project. This includes such work as repair, adjustment, overhauling, and upkeep of existing structures or installations. The term also includes, as specified in § 809.911–5, the movement of machinery and installation of equipment, and alteration work incident thereto, performed as an incident of a supply contract. However, in making the determination required by § 809.911–7, as applied to particular machinery movement or installation work, each contracting officer concerned will give careful consideration to the desirable objective sought in the overall policy statement outlined above.

§ 802.260–3 *Same; construction or repair in restricted areas.* It is recognized that in restricted areas, because of the various factors involved, it is not often feasible to prosecute the work either under contract or on a hired labor basis. In such instances the work may be done by maintenance forces. However, every effort will be made to insure that this practice is not abused.

§ 802.260–4 *Same; termination of construction contracts.* The completion of specific construction projects, including original installation of equipment, will be made whenever possible under construction contracts.

(a) When this procedure is not practical, resort will then be made to hired labor.

(b) Completion of specific construction projects by the maintenance forces will be adopted as a last resort, and only when to do otherwise would result in interference or interruption of production, or would demand wasteful retention of a construction supervisory overhead organization.

SUBPART I—PURCHASE ACTION REPORTS

§ 802.290 *General*—(a) *Purpose.* This subpart relates to procedures established for purchase action reporting in order to comply with requirements of law and to provide a single system within the Army for reporting placement, cancellation and amendment of contracts.

(b) *Effective date.* Compliance is required, effective 1 March 1945, with the revised procedures provided in this subpart. However, in the event the new Purchase Action Report Forms W.D., A.G.O. No. 375 (original) and W.D., A.G.O. No. 376 (supplemental), which replace the old Report of Negotiated Purchase in Excess of $10,000, W.D., A.G.O. Forms No. 496 and 495, are not available by 1 March 1945, existing supplies of old forms may be used until such time as the new forms become available. Every effort will be made to utilize the new forms as early as possible.

(c) *Authority of Purchases Division as to reporting.* The Purchases Division, Headquarters, Army Service Forces, retains full authority pertaining to purchase action reporting requirements established by this subpart, despite the decentralization of some of the operating functions.

(d) *Matters to be reported.* All purchase actions, original and supplemental, as defined in § 802.291 (c) and (d), will be reported if involving the required dollar amount.

§ 802.291 *Definitions*—(a) *Technical service.* Notwithstanding the provisions of § 801.108–5 the term, "technical service", when used in this subpart, shall be deemed to include the Army Air Forces, but shall not be deemed to include any service command. The term "chief of a technical service" shall be deemed to include the Commanding General, Army Air Forces.

(b) *Service command.* The term service command" shall be deemed to include the Military District of Washington and the Northwest Service Command.

(c) *Purchase action.* A purchase action is any transaction whatsoever (including all types of awards, also mandatory orders and requisitions under Part 814) with any individual, firm, corporation or Governmental agency not under the jurisdiction of the War Department, involving the purchase or lease of goods, real estate or services of every character and description, and usually obligating Government funds; *Provided, however,* That the following are not regarded as purchase actions and therefore are not reportable:

(1) Transactions of the Army Exchange Service (see § 802.294 (c));

(2) Pay of individuals;

(3) Shipping and traveling expenses;

(4) Open-end contracts for services which are subject to open allotment as enumerated in Circular 245, W.D., 1944 and open-end contracts for the rental or lease of communications services or facilities;

(5) Indefinite quantity contracts, such as those listed in § 806.605d, which are for the use of more than one technical service or service command; and

(6) Delivery or purchase orders placed against a contract executed by another Department of the Government, such as a contract executed by the Procurement Division, Treasury Department.

Each delivery or purchase order in excess of $10,000 issued against an indefinite quantity contract of the character described in subparagraph (5) above, is considered to be a purchase action and should be reported as such on W.D., A.G.O. Form No. 375 (see § 802.295–3 (c)).

(d) *Supplemental purchase action.* A supplemental purchase action is any transaction affecting the cost of an existing purchase action by means of change order, supplemental agreement, amendment, cancellation, extension, renewal, etc.; this includes changes resulting from renegotiation, price adjustment, export differentials, etc. Changes such as adjustments due to over or under deliveries pursuant to a Variation in Quantities clause (see § 802.295–3 (a)) are not supplemental purchase actions.

(e) *Preliminary contractual agreements.* The term "preliminary contractual agreements" as used in this subpart, refers to all written agreements which do not obligate War Department funds to the full amount which it is anticipated will be obligated finally. Letter orders, letter purchase orders, letter contracts and letters of intent are examples of preliminary contractual agreements (see W.D. Contract Form No. 7, § 813.1307, as one type of such agreement). For manner of reporting, see § 802.295–1.

(f) *Open-end contract.* The term "open-end contract" as used in this subpart, means a contract in which no final completion date is set and which usually involves recurring charges for goods and services. (Contracts for gas, electricity or water may be cited as examples.) For manner of reporting, see § 802.295–2.

(g) *Indefinite quantity contracts.* For the purposes of this subpart, indefinite quantity contracts are considered to include those contracts which permit deliveries to be made in larger or smaller quantities than stated in the contract, either at the option of the contractor or of the contracting officer, and with or without a written change order modifying the contract. For manner of reporting, see § 802.295–3.

(h) *Date of award; date of action.* The "date of award" of an original purchase action is the date upon which a verbal or written notice of award thereof is given by the contracting officer to the contractor. The "date of action" with respect to a supplemental purchase action is the date upon which verbal or written notice thereof is given by the contracting officer to the contractor.

§ 802.292 *Filing of reports by stations under the jurisdiction of chiefs of technical services or commanding generals of service commands.* Stations under the jurisdiction of chiefs of technical services or commanding generals of service commands are required to file purchase action reports of the types, in the manner, and under the conditions provided in §§ 802.292–1 through 802.292–5. Stations under the jurisdiction of functional staff divisions, Headquarters, Army Service Forces, will file such reports as provided in § 802.294.

§ 802.292–1 *Stations required to report.* Except as noted below, it is the responsibility of every station (whether an exempted or non-exempted station) to which a reallocation, allotment or suballotment has been made and which is located within the continental limits of the United States or in the Northwest Service Command, to file reports of purchase actions. Such reports, however, are not required to be filed by stations under the jurisdiction of the commanding generals of the Army Ground Forces or of the Defense Commands, or stations outside the continental limits of the United States (except those in the Northwest Service Command).

§ 802.292–2 *Method of determining whether report is to be filed with chief of technical service or commanding general of service command.* The numbering of the contract being reported determines to whom the report is to be forwarded by the station concerned. A purchase action or supplemental purchase action bearing a contract number which contains the letter symbol representing a particular technical service (see § 803.309–2) will be reported to the chief of that technical service. A purchase action or supplemental purchase action bearing a contract number which contains the symbol indicating a particular service command (see § 803.318b–5) will be reported to the commanding general of that service command.

§ 802.292–3 *Original Purchase Action Reports.* (a) A Purchase Action Report (W.D., A.G.O. Form No. 375, see § 802.297–1) will be submitted for every original purchase action which involves a total cost (actual or estimated) in excess of $10,000. The original and five copies (or more if directed by appropriate authority) of such report, will be forwarded to the chief of the appropriate technical service or commanding general of the appropriate service command, not later than the fifth calendar day following the date of award of the purchase action. (See § 802.291 (h).)

(b) When a purchase action, which was not reported because it previously involved a total cost of not more than $10,000 is increased so as to involve, after such increase, a total cost (actual or estimated) in excess of $10,000, a Purchase Action Report (W.D., A.G.O. Form No. 375, see § 802.297–1) will be submitted. The original and five copies (or more if directed by appropriate authority) of such report will be forwarded to the chief of the appropriate technical service or commanding general of the appropriate service command not later than the fifth calendar day following the date of award, which, in this instance, is considered to be the date on which a written or verbal notice of the increase is given by the contracting officer to the contractor.

§ 802.292–4 *Supplemental Purchase Action Reports.* (a) Subject to the conditions set forth in this paragraph, a Supplemental Purchase Action Report (W.D., A.G.O. Form No. 376, see § 802.297–2) will be submitted for every supplemental purchase action as defined in § 802.291 (d) when, with respect to the purchase action involved (including such supplemental purchase actions, if any, as may have been reported previously),

(1) The cost of such purchase action is completely cancelled,

(2) The total cost (actual or estimated) of such purchase action is decreased to $10,000 or less, or

(3) The total cost (actual or estimated) of such purchase action is increased or decreased by more than $1,000.

The original and one copy (or more if directed by appropriate authority) of the Supplemental Purchase Action Report will be forwarded to the chief of the appropriate technical service or to the commanding general of the appropriate service command not later than the fifth calendar day following the date of action. (See § 802.291 (h).)

(b) For purposes of purchase action reporting, a decrease to $10,000 or less of the total previously reported cost (actual or estimated) involved in a purchase action will be considered and reported as a complete cancellation of such purchase action. This is so because only purchase actions involving a total cost in excess of $10,000 are reportable. If, due to a decrease to $10,000 or less in total cost involved in a purchase action, a Supplemental Purchase Action Report has been filed showing the complete cancellation of such purchase action and if subsequent changes (including termination settlements) increase such total cost to more than $10,000, a further Supplemental Purchase Action Report (W.D., A.G.O. Form No. 376) will be filed; notwithstanding the provisions of § 802.292–3 (b), such increase should not be reflected on a Purchase Action Report (W.D., A.G.O. Form No. 375).

(c) Supplemental purchase actions involving increases or decreases of $1,000 or less in the total cost (actual or estimated) of previously reported purchase actions, normally will not be reported on the Supplemental Purchase Action Report (W.D., A.G.O. Form No. 376) but will, instead, be included in the Monthly Summary Report (see § 802.292–5 and item (4) (c) in § 802.297–3a). Exceptions to this general rule concerning supplemental purchase actions of $1,000 or less are: (1) When the supplemental purchase action involves an increase in the total cost (actual or estimated) from $10,000 or less to more than $10,000; and (2) When the supplemental purchase action involves a decrease in the total previously reported cost (actual or estimated) from more than $10,000 to $10,000 or less. In the former case the entire purchase action will be reported as an original purchase action on W.D., A.G.O. Form No. 375 (see § 802.292–3 (b)), and in the latter case it will be reported as a complete cancellation on W.D., A.G.O. Form No. 376 (see paragraph (b) of this section.)

§ 802.292–5 *Monthly Summary Report of purchase actions.* (a) Within five calendar days after the close of each calendar month, one copy (or more if directed by appropriate authority) of the Monthly Summary Report (see § 802.297–3) will be submitted to the chief(s) of the appropriate technical service(s). Each Monthly Summary Report will reflect all original (W.D., A.G.O. Form No. 375) and all Supplemental (W.D., A.G.O. Form No. 376) Purchase Action Reports submitted to the chief(s) of such technical service(s) during the preceding calendar month. In addition each Monthly Summary Report will reflect the total of all supplemental purchase actions which (1) involve increases or decreases during the month under report of $1,000 or less in the cost of previously reported purchase actions and (2) are not required to be, and have not been reported on W.D., A.G.O. Forms No. 375 or 376 (See § 802.292–4 (d) and item (4) (c) in § 802.297–3a.) and have not been reported on previous Monthly Summary Reports. In preparing the Monthly Summary Report, the Purchase Action Reports (W.D., A.G.O. Form No. 375) should be classified by date of award (see § 802.291 (h)) and the Supplemental Purchase Action Reports (W.D., A.G.O. Form No. 376) and supplemental purchase actions of $1,000 or less should be classified by date of action (see § 802.291 (h)) and separate Monthly Summary Reports should be submitted for each month in which any reported action took place.

(b) No Monthly Summary Reports are required to be filed with the commanding generals of service commands.

§ 802.293 *Filing and distribution of reports by chiefs of technical services and commanding generals of service commands.* Chiefs of technical services and commanding generals of service commands are required to file purchase action reports of the types, in the manner, and under the conditions provided in § 802.293–1 through § 802.293–3. Functional staff divisions, Headquarters, Army Service Forces, will file such reports as provided in § 802.294.

§ 802.293–1 *Original and Supplemental Purchase Action Reports.* (a) Purchase Action Reports (W.D., A.G.O. Form No. 375, see § 802.297–1) and Supplemental Purchase Action Reports (W.D., A.G.O. Form No. 376, see § 802.297–2) will be forwarded by the chiefs of the technical services and commanding generals of service commands as follows:

Purchase Action Report (W.D., A.G.O. Form No. 375): 4 copies to the Department of Labor; 1 copy to the War Production Board.

Supplemental Purchase Action Report (W.D., A.G.O. Form No. 376): 1 copy to the War Production Board.

(b) In forwarding reports as provided in paragraph (a), the following addresses should be used:

Department of Labor: Mr. William R. McComb, Deputy Administrator, Room 1114, Department of Labor Building, Washington 25, D. C. Attention: Mr. A. L. Triolo.

War Production Board: War Production Board, Bureau of Program and Statistics, Room H–327, Temporary E, 6th and Adams Drive SW., Washington 25, D. C.

(c) Notwithstanding the instructions in paragraphs (a) and (b) above, all

required copies of original or Supplemental Purchase Action Reports with respect to mandatory orders and requisitions (pursuant to Part 814) will be filed by the chiefs of technical services and commanding generals of service commands with the Director, Purchases Division, Headquarters, Army Service Forces, Attention: Chief, Control Branch.

§ 802.293–2 *Monthly Summary Report.* (a) Within 10 calendar days after the close of each calendar month, one copy of the Monthly Summary Report (see § 802.297–3) will be submitted by the chief of each technical service to the Commanding General, Army Service Forces, Attention: Director, Purchases Division. Each such report will be reconciled with the Monthly Summary Reports submitted to the chief of the technical service by stations reporting to him during or for that month (see § 802.292–5). The purpose of the Monthly Summary Report submitted by the chiefs of the technical services is to provide a control over purchase action reporting and to enable Purchases Division, Headquarters, Army Service Forces, to maintain a record of the totals of all purchase actions (with a value as awarded or supplemented in excess of $10,000) as of the month in which they took place, regardless of the month during which they are reported. It is essential, therefore, that the chief of each technical service, in preparing the Monthly Summary Report, classify original Purchase Action Reports (W.D., A.G.O. Form No. 375) by date of award (see § 802.291 (h)) and Supplemental Purchase Action Reports and changes of $1,000 or less by date of action (see § 802.291 (h)), and forward to Purchases Division a separate Monthly Summary Report for each month in which any reported action took place.

(b) Commanding Generals of service commands are not required to submit Monthly Summary Reports.

§ 802.293–3 *Quarterly Report on Procurement.* The chiefs of the technical services and the commanding generals of the service commands will submit to the Commanding General, Army Service Forces, Attention: Director, Purchases Division, within twenty days from the close of each quarter of each fiscal year, one copy of the Quarterly Report on Procurement (see § 802.297–4). Purchases Division will assemble the Quarterly Reports submitted by the chiefs of the technical services and the commanding generals of the service commands into one report which will be submitted by it to Congress, pursuant to Public Law 528, 77th Congress.

§ 802.294 *Filing of reports by functional staff divisions and stations under their jurisdiction.* (a) Except as otherwise provided in paragraph (c) of this section, functional staff divisions, Headquarters, Army Service Forces, and stations under their jurisdiction, will submit reports concerning purchase actions in the same manner as chiefs of technical services and stations under the jurisdiction of the chiefs of technical services. A purchase action or supplemental purchase action bearing a contract number which contains the symbol indicating a particular functional staff division will be reported by a station to the director of that division.

(b) The director of each functional staff division will be responsible for submission by that division and stations under its jurisdiction of reports concerning purchase actions, to the same extent as the chief of a technical service is responsible for reports by that technical service and stations under its jurisdiction.

(c) Nothing in this subpart shall require the preparation or submission of any reports concerning purchase actions by Army Exchange Service.

§ 802.295 *Special instructions concerning reporting of preliminary contractual agreements, open-end contracts and indefinite quantity contracts.*

§ 802.295–1 *Preliminary contractual agreements* (see § 802.291–5). (a) A Purchase Action Report (W.D., A.G.O. Form No. 375) covering a preliminary contractual agreement, will be submitted by a reporting station not later than the fifth calendar day following the date of award (see § 802.291 (h)) under the following conditions:

(1) If the preliminary contractual agreement does not obligate funds, but the undertaking of the Government is not conditioned upon funds becoming available, and if the estimated cost involved under the preliminary contractual agreement exceeds $10,000.

(2) If the undertaking of the Government under the preliminary contractual agreement is conditioned upon funds becoming available (see, for example, the Letter of Intent which was the subject of the decision of the Comptroller General, issued under date of 22 December 1941; B–21873; 21 Comp. Gen. 605), an original Purchase Action Report will be filed when either the expenditures of the Government under such agreement total in excess of $10,000 or a final definitive contract (involving an actual or estimated cost in excess of $10,000) is executed, whichever shall first occur.

(c) If a Purchase Action Report (W.D., A.G.O. Form 375) is filed for a preliminary contractual agreement, a Supplemental Purchase Action Report (W.D., A.G.O. Form 376) will be filed not later than the fifth calendar day after completion of performance under such preliminary contractual agreement or after supplement (including execution of a final definitive contract), amendment or change order to such preliminary contractual agreement, provided in any such case that an increase or decrease in excess of $1,000 from the amount previously reported is involved. A Supplemental Purchase Action Report reflecting execution of a final definitive contract or completion of performance of the preliminary contractual agreement shall indicate this fact and shall also reconcile any difference in excess of $1,000 between the amount shown in the Supplemental Purchase Action Report with the amount reported on the original Purchase Action Report as supplemented by previous Supplemental Purchase Action Reports if any.

§ 802.295–2 *Open-end contracts.* (See § 802.291 (f)). (a) The Purchase Action Report (W.D., A.G.O. Form No. 375) for an open-end contract will include the full amount estimated to be expended for the first contract year. A Supplemental Purchase Action Report (W.D., A.G.O. Form No. 376) will be filed not later than the fifth calendar day after the close of the first contract year, reconciling the difference between the estimated and actual expenditures for such contract year, and reporting, as a separate item the estimated expenditure for the ensuing contract year. Similar Supplemental Purchase Action Reports will be filed at the end of each succeeding contract year during the life of the contract. A final Supplemental Purchase Action Report clearly marked, "Final Report," will be submitted not later than the fifth calendar day after the completion or termination of the contract, adjusting any unreported quantity and value, whether it be an increase or a decrease.

(b) Where the amount to be expended under an open-end contract cannot be estimated in advance, a Purchase Action Report (W.D., A.G.O. Form No. 375) will be filed on the basis of actual expenditures when the aggregate expenditures thereunder exceed $10,000. Supplemental Purchase Action Reports will not be rendered from time to time as additional expenditures, aggregating in excess of $1,000, are incurred. Such additional expenditures will be reported on a contract or fiscal year basis on a Supplemental Purchase Action Report filed not later than the fifth calendar day after the close of the contract or fiscal year as the case may be.

§ 802.295–3 *Indefinite quantity contracts.* For the purposes of this subpart, indefinite quantity contracts, as defined in § 802.291 (g), fall into four broad classes as follows:

(a) Those containing the standard clause entitled "Variation in Quantities" (§ 803.329) which permits the contractor to deliver 10 per cent over or under the quantity specified in the contract. In reporting this type of contract, only the original quantity and value need be stated; upon completion of deliveries no Supplemental Purchase Action Report is required even though deliveries may fall short or exceed the amount originally reported. Supplemental purchase actions (see § 802.291 (d)) involving an increase or decrease of more than $1,000, however, are required to be reported (see § 802.292–4).

(b) Those containing a clause giving the contracting officer a power by change order to increase or decrease within stated percentage limits the quantity of articles called for by the contract (see § 803.329a). This type of contract will be reported originally at the quantity and value set forth in the contract. Supplemental purchase actions involving an increase or decrease of more than $1,000 will be reported (see § 802.292–4).

(c) Those, such as listed in § 806.605 which are for the use of more than one technical service or service command. This type of contract is not regarded as a purchase action (see § 802.291 (c) (5)) and the basic contract will not be reported. A Purchase Action Report (W.D., A.G.O. Form No. 375), however, is required to be submitted for each purchase or delivery order executed under such an indefinite quantity contract and involving a total cost (actual or estimated) in excess of $10,000. Each such purchase or delivery order will be regarded as a separate purchase action and therefore will be reported on a non-cumulative basis without regard to any other such purchase or delivery order issued under the basic contract. For reference purposes, reports of such purchase or delivery orders should always indicate (in space (34)) the full contract number of the basic contract.

(d) Any other type of indefinite quantity contract. For the purposes of this subpart indefinite quantity contracts not falling within paragraphs (a), (b) or (c) above, will be considered and reported as "open-end contracts" (see § 802.295 (b)).

§ 802.296 *General instructions concerning report forms.*—(a) *Supply of forms.* (1) W.D., A.G.O. Forms No. 375 and 376 are available upon requisition from Adjutant General Depots, or in case of Army Air Force activities, from the appropriate Air Technical Service Command Depot.

(2) Forms for Monthly Summary Reports may be reproduced locally or typed as required.

(b) *Classified reports.* If the item or service covered by either an original or Supplemental Purchase Action Report is classified, proper entries should be made in all spaces (see §§ 802.297–1a and 802.297–2a) and the whole report prominently labeled with the appropriate classification and transmitted according to regulations governing classified information.

§ 802.297 *Report forms and related instructions.*

WD, AGO Form 375
1 December 1941

This form supersedes WD AGO 409, 13 December 1943, which will not be used after receipt of this revision.

§ 802.297–1a *Instructions for preparation of Purchase Action Report; W.D., A.G.O. Form No. 375.* The following numbered instructions apply to the corresponding numbers appearing on the report form reproduced in § 802.297–1.

(1) *Date of report.* This shall be the date upon which the report is prepared.

(2) *Purchase action report serial number.* This enables the contracting station and the controlling technical service or service command to reconcile their records. Inasmuch as many stations may originate purchase actions for and report them to more than one technical service, a separate serial number will be used for each such technical service. Each series of serial numbers will begin with Serial Number 1 for each new fiscal year and continue in exact sequence to the end of the fiscal year. No symbol indicating a technical service or service command need appear as part of the serial number; this will be indicated by the symbol shown in the contract number. (See §§ 803.309 and 803.318b–5. Reports made in one fiscal year for purchase actions awarded in a previous fiscal year should bear a serial number in the series of the fiscal year in which awarded.

(3) *From.* Include the name and address of the station preparing the report.

(4) *Station number and service.* This is the first part of the contract number and will include the station number and technical service or service command symbol appearing on the contract.

(5) *Contract Number (P. O. No.).* This is the final part of the contract number and will show the number assigned to the individual contract being reported. If a purchase order is being reported, the number thereof also will be indicated here.

(6) *To.* Indicate the name and address of the technical service or service command to which the report is being rendered.

(7) *Type of purchase action.* Indicate the type of contract involved. This information should state (i) whether the contract is a formal contract (namely, a contract contained in one instrument, executed by both parties, see § 803.303–2), purchase order, delivery order (see § 806.614) or letter order and (ii) whether the contract is a fixed price (lump sum) or cost-plus-a-fixed-fee contract. In addition, if the contract is a preliminary contractual agreement (see § 802.291 (c)), so indicate by the word "preliminary". If a mandatory order or requisition pursuant to Part 814 is involved, this should be indicated.

(8) *Date of award.* Indicate the date of award as defined in § 802.291 (h).

(9) *Name and address of contractor.* Insert here the name and address of the contractor as it appears on the contract. If more than one prime contractor is involved, list each one as a split award on separate Purchase Action Reports, and indicate by cross reference the Purchase Action Report Serial Numbers of all such reports.

(10) *Contracting as manufacturer or dealer.* Indicate by checking proper box whether the contractor is acting as a manufacturer or as a dealer.

(11) *Contractor code.* This space will always be left blank.

(12) *Delivery to start.* In most cases this will be the initial delivery date specified in the contract. If the contract is a construction contract, the date work is to begin should be shown. If the contract is for the purchase of real estate, the date of possession should be indicated. Where dates are dependent upon receipt of material, estimated dates are permissible but will be so indicated.

(13) *Completion date.* This will normally be the date specified in the contract for the completion of deliveries. In some cases it may be the same as the starting date or the date of award. If the date is dependent upon the receipt of material, an estimated date may be used but should be so indicated.

(14) *Work performed at.* Where the work is to be performed by the contractor and at the address indicated in space (9) the words "same as above" will be entered here. However, if the work is to be performed by a different contractor or at a different address, the name and location of the establishment or plant where the work will be performed must be stated. If the work is to be performed at more than one location, list each one and where possible indicate the approximate percentage of work to be performed at each location. If the space provided is insufficient, additional data may be inserted under "Remarks" at space (24). Where the street address as well as the name of the city is shown on the face of the contract, this should be included.

(15) *Inspection point.* The use of this space is optional with the chief of each technical service or commanding general of each service command.

(16) This space will normally be left blank. However, at the discretion of the chief of a technical service or a commanding general of a service command it may be utilized for such information as may be desired.

(17) *F.O.B. point.* Same as (15).

(18) Same as (16).

(19) *Walsh-Healey Act.* Reporting provisions of the Walsh-Healey Act (Act of June 30, 1936; 49 Stat. 2036; 41 U.S.C. 35-45) will, after 1 May 1943, be fulfilled by the proper submission of four copies of W.D., A.G.O. Form No. 375 for each original purchase action. Indicate by appropriate check mark whether or not the contract is subject to that act.

(20) *Title of applicable industry minimum wage determination.* If the purchase action comes under any industry minimum wage determination (see Part 609), the industry involved should be indicated by name.

(21) *Date P.C.-13 sent.* Enter the date on which the poster, P.C.-13, was sent to the contractor and to the plant locations. (See § 609.919–3).

(22) *Item Number.* Enter the item number for each item described in space (23). The use of space (22) is optional with the chief of each technical service and the commanding general of each service command.

(23) *Description of items.* Insert complete description of product, service, facilities, project or property. Long lists of items attached to Purchase Action Reports are not required for centralized reporting unless specifically directed by the chief of the technical service or the commanding general of the service command responsible for procurement of the item involved. Where assorted items of like nature are reported, indicate group headings, such as "various tank engine parts", "various knit clothing", etc. Such headings must briefly but specifically state the type of article purchased to enable proper classification by end product. Do not indicate only "Spare parts"; instead, state for example, "Spare parts for trucks, except engine parts".

(24) *Number of units.* Enter the number of units for each item described in space (23).

(25) *Unit cost and unit.* State the unit cost and the unit involved. In cases where a varied group of items is shown in space (23), and not detailed, indicate various unit prices in the same manner; either as a price range, i.e., $4.37 to $4.69 each, or show the word "various" for a wide range of unit prices, such as on tools.

(26) *Total cost.* If cost is estimated, write "estimated" after amount. For purchase actions involving architect-engineer, management, or similar services only, indicate as the total cost the amount payable to the contractor and chargeable against a War Department appropriation. This applies primarily to cost-plus-a-fixed-fee contracts. If, under such a contract, the contractor is to receive payment of an architect-engineer, management, or similar fee, and in addition is to receive payment for work performed or supplies furnished, each such payment will be shown as a separate item. In cases where both supply items and either land acquisition, plant expansion or tool expansion are involved in a single purchase action, a description and cost of these groups should be shown separately as well as total cost of all groups. If, the purchase action is a preliminary contractural agreement (see § 802.291 (e)), the amount for which the War Department is obligated will be shown in space (26) and the estimated full contract price entered in space (23). In all other cases the total cost (actual or estimated) will be shown in space (26).

(27) *Total supplies and services.* Enter the total of all entries in space (26).

(28) *Government facilities provided this contract.* Enter the amount of funds made available for Government facilities under the contract being reported upon. Do not include such amount in the spaces (22) through (27).

(29) *Total amount of contract.* This is a total of spaces (27) and (28).

Spaces (30) through (33) need be filled in only if original value of contract at date of award exceeds $150,000.

(30) *Negotiator for the Government.* This may or may not be the contracting officer, but in each case the name(s) of the person(s) negotiating the contract for the Government will be shown.

(31) *Negotiator for contractor.* This should include the name(s) of the person(s) representing the contractor in negotiating the contract with the Government.

(32) *Reason for contractor selection.* Enter the principal or controlling reason why the particular contractor was selected for this contract if no competition was obtained. Where the contract was awarded pursuant to competitive bidding, so state by entering the words "competitive bidding", or a similar phrase.

(33) *Specification approval.* Where standard Government specifications, such as Army, Navy, Treasury Procurement, etc., are used, enter only the name of such agency. Where other than standard specifications have been used, enter the name of the person approving the use thereof.

(34) *Remarks.* This space may be used for any pertinent remarks, including data which cannot be entered in the appropriate prior spaces. At the discretion of the chief of each technical service or commanding general of each service command, additional data, such as the monthly scheduled deliveries, may be entered here. Where the Purchase Action Report covers a contract for the acquisition of land and the original value thereof at date of award exceeds $150,000, the following additional information will be added in this space for use in the Quarterly Report on Procurement (see § 802.297–4a (c)): a brief statement as to the location; the intended use of the land; the area; and the appraised value thereof as it appears on the record.

(35) *Name, grade or title.* Type the name and grade or title of the person signing the report.

(36) *Signature.* The original of each report should be signed by some responsible officer, normally the contracting officer; copies may bear either typewritten or rubber stamped signatures.

WD AGO FORM 376 1 December 1944 — This Form Supersedes WD AGO 456, 15 December 1943, which will not be used after receipt of this revision.

§ 802.297–2a *Instructions for preparation of Supplemental Purchase Action Report; W.D., A.G.O. Form No. 376.* The following numbered instructions apply to the corresponding number appearing on the report form reproduced in § 802.297–2. The word "Same" used in any of the following instructions means that the correspondingly numbered instruction in § 802.297–1a applies.

(1) Same.

(2) *Purchase Action Report Serial Number.* A Supplemental Purchase Action Report will contain the same serial number as the original Purchase Action Report, followed by a letter of the alphabet in parentheses, the first Supplemental Purchase Action Report using the letter "(a)"; the second "(b)," etc.

(3)–(4) Same.

(5) Same. In addition to the contract number, there will be entered in this space the number or letter of the contract supplement represented by the supplemental purchase action (see § 803.313–1).

(6)–(7) Same.

(8) *Date of action.* The date of the supplemental purchase action, determined as stated in § 802.291 (h), will be entered. In no case will the date shown be the date of award of the original purchase action.

(9) through (21) Same.

(22) through (26) Same. Entries under spaces (22), (23), (24), (25) and (26) will be made only for the items affected by the particular supplemental purchase action being reported. All entries will be the full quantities or costs as revised—do not enter merely the net increase or decrease. In all cases, the nature of the supplemental purchase action will be indicated (space (34) may be used)—viz: quantity increase or decrease; price increase or decrease, etc. Where quantities have been changed, show the number of units added or deleted; where delivery or completion dates have been changed, indicate the changes and specify the initial delivery date of any increased quantities; where a decreased quantity represents a partial or complete termination for the convenience of the Government, or a partial or complete termination by default of contractor, so indicate; where price changes have occurred, indicate the nature of the change and whether due to a change in specifications or in costs; where prices have been affected by partial termination, so indicate.

(27) *Contract value of items not revised.* Show the contract value of all items on the contract which are not affected by the supplemental purchase action being reported.

(28) *Total contract value, including this revision.* This entry will be the sum of the entries in spaces (26) and (27).

(29) *Total contract value prior to this revision.* The entry here will be the value of the contract as previously reported (including Supplemental Purchase Action Reports, if any).

(30) *Net change in contract value, this revision.* The entry in this space will be the difference between spaces (28) and (29). Indicate by check marks in the box whether the amount shown in space (28) is an increase or a decrease.

(31) *Cash refunds prior to this revision.* Use of this space (31) is optional with the chiefs of technical services or commanding generals of service commands.

(32)–(33) Omitted from W. D., A. G. O. Form No. 376.

(34) through (36) Same (except that data on the acquisition of land is not required on Supplemental Purchase Action Reports).

§ 802.297–3 *Monthly Summary Report.*

§ 802.297–3a *Instructions for preparation of Monthly Summary Report.* The Monthly Summary Report will be prepared on the basis of net obligations undertaken during the month and not on the basis of appropriations authorized. This report will be submitted on an 8" x 10½" sheet. The following numbered instructions apply to the corresponding numbers appearing on the report form set forth in § 802.297–3:

(1) *Month for which report submitted.* As required in §§ 802.292–5 and 802.293–2, a separate Monthly Summary Report will be submitted for each month in which any purchase action, reported during or for the preceding calendar month, took place, as determined by the "date of award" or "date of action" (space (8) on W.D., A.G.O. Forms No. 375 and 376). Enter on line (1) the month covered by the particular Monthly Summary Report for which figures are reported under item (4) below.

(2) *For stations reporting to a chief of a technical service.* Enter the name and address of the technical service to which submitted.

For chiefs of technical services. Enter "Director, Purchases Division, Headquarters, Army Service Forces".

(3) *For stations reporting to a chief of a technical service.* Enter the name and station number of the reporting station.

For chiefs of technical services. Enter the name of the technical service.

(4) *Purchase Action Reports not previously reported for this month.* All entries under item (4) will pertain to the calendar month indicated in line (1).

(a) Under "Value" enter the sum of the entries in space (29) of all W.D., A.G.O. Forms No. 375 submitted during the previous calendar month, reporting purchase actions awarded during the month indicated in line (1). Under "Number" enter the count of all such W.D., A.G.O. Forms No. 375.

(b) (i) Under "Value" enter the sum of the entries in space (29) of all W.D., A.G.O. Forms No. 376 submitted during the preceding calendar month, reporting purchase actions, the cost of which was completely cancelled during the month indicated in line (1). As provided in § 802.292–4 (b), decrease to $10,000 or less in total cost of purchase actions is considered a complete cancellation. Under "Number" include the count of all such W.D., A.G.O. Forms No. 376.

(b) (ii) Under "Value" enter the total of entries in space (30) of all W.D., A.G.O. Form No. 376 submitted during the preceding calendar month, reporting increases or decreases during the month indicated in line (1) of more than $1,000 in the total cost of purchase actions, except decreases reported in (b) (i) above. Indicate whether increase or decrease by check in proper box. Under "Number" enter the count of all such W.D., A.G.O. Forms No. 376.

(c) Under "Value" enter the mathematical sum of all supplemental purchase actions made during the month indicated in line (1) which involved an increase or decrease of $1,000 or less in total cost and which were NOT reported on W.D., A.G.O. Form Nos. 375 or 376 and have not been reported on Monthly Summary Reports previously submitted. Indicate whether increase or decrease by check in proper box. No entry is required under "Number".

(d) Under "Value" enter sum of the entries in lines (b) (i); (b) (ii); and (c). Indicate whether increase or decrease by check in proper box. Under "Number" enter the sum of the entries in lines (b) (i) and (b) (ii).

(5) *Signature.* The officer or person responsible for procurement, or for preparation of purchase action reports, will sign here.

(6) *Name, grade or title.* Type the name, and grade or title of person signing report.

(7) *Date of submission.* Enter the date the report is submitted.

§ 802.297–4 *Quarterly Report on Procurement, Control Approval Symbol PDS–19.*

§ 802.297–4a *Instructions for preparation of Quarterly Report on Procurement.* (a) The Quarterly Report on Procurement will be submitted by the chief of each technical service and the commanding general of each service command. It will include only those contracts which have an original value at the date of award in excess of $150,000. No report will be made of any contract with an original value at the date of award of $150,000 or less, even though the value of such contract may have been increased by supplements to an amount in excess of $150,000. Similarly, no report will be made of any supplements, or changes, including increases, decreases, or cancellations of contracts. If no contract in excess of $150,000 has been awarded during the quarterly period, a negative report will be submitted.

(b) The Quarterly Report will be typed on individual strips, which, after typing, will be arranged in alphabetical order by the contractors' names, then grouped into pages attached to a header strip which will be provided in advance of each quarter by the Purchases Division, Headquarters, Army Service Forces. Headers and individual strips will be assembled by the use of crinkly "draftsman's type" Scotch tape, if available. The pages shall have no more than 10" of printed and typed matter, including the header strip showing. The space on the header strip, providing for the page numbers, will never be filled in by the reporting technical service or service command. At the foot of the last page submitted for each technical service or service command, there will be typed the total dollar value of all contracts included in the report. This total will include only the total of the individual figures reported, and will not be adjusted to record supplements, changes, cancellations, etc., occurring subsequent to the initial award.

(c) Purchases Division will assemble the reports submitted to it, into one report which it will submit to Congress. Subsequent to the preparation of this completed report by Purchases Division, the pages will be returned to the submitting headquarters for disassembly and filing of the individual strips for future reference.

(d) The following information will be submitted for each contract for supply items or services included in the Quarterly Report on Procurement; subparagraphs below refer to column headings on the header strip and the space references are to W.D., A.G.O. Form No. 375 and the explanations thereof in § 802.297–1a:

(1) *Contract number, date and type of contract.* Insert full contract number,

date of award, and indicate whether the contract is fixed price, cost-plus-a-fixed-fee, unit price, letter order, letter purchase order, purchase order, etc. (Spaces (4), (5), (8) and (7).)

(2) *Item description and quantity.* Insert brief description of the item or items and the quantity of each. (Spaces (23) and (24).)

(3) *Value.* The dollar value of the contract as reported in space (29).

(4) *Name and address of the contractor and negotiator.* Insert data from spaces (9) and (31).

(5) *Name of Government negotiator.* Space (30).

(6) *Specifications.* Space (33).

(7) *Reasons for contractor selection.* Space (32).

(c) The following information will be furnished for each contract for the purchase of land included in the Quarterly Report on Procurement. The subparagraphs below refer to columns in the special header strip for land acquisitions, which will be furnished by Purchases Division upon request. The space references are to W.D., A.G.O. Form No. 375 and to the explanations thereof in § 802.297–1a.

(1) *Contract number, date and type of contract.* Spaces (4), (5), (8) and (7).

(2) *Location and intended use.* Enter a brief statement as to the location and intended use of the land. (Space (34).)

(3) *Value.* Space (29).

(4) *Name and address of contractor and negotiator.* Spaces (9) and (31).

(5) *Name of Government negotiator.* Space (30).

(6) *Area and assessed value.* State the area of the land purchased and the assessed value as it appears on the records. (Space (34).)

(7) *Reasons for contractor selection.* Space (32).

§ 802.298 *Responsibilities of chiefs of technical services and commanding generals of service commands.* The chiefs of the technical services and commanding generals of the service commands are charged with the following responsibilities:

(a) Responsibility for assuring that all reports required by this subpart to be prepared and forwarded by the stations under their jurisdiction are prepared and forwarded in accordance with §§ 802.292–1 through 802.292–5. This responsibility includes:

(1) Responsibility for controlling by means of the serial numbering system (see §§ 802.297–1a (2)) the submission of original and Supplemental Purchase Action Reports (W.D., A.G.O. Forms No. 375 and 376).

(2) Responsibility for requiring the submission of at least a sufficient number of copies of original and Supplemental Purchase Action Reports to accomplish the distribution required by § 802.293 to be made by the chiefs of technical services and the commanding generals of the service commands.

(3) Responsibility for checking by contract number to assure that duplicate reports are not received. This will include the checking of terminations and cancellations to be sure they are properly reported, as specified in § 802.292–4.

(4) Responsibility for reconciling individual Purchase Action Reports submitted by each station with the Monthly Summary Reports submitted by that station. (Does not apply to commanding generals of service commands.)

(b) Responsibility for assuring that all reports required by this subpart to be prepared and forwarded by them are prepared and forwarded in accordance with §§ 802.293–1 through 802.293–3.

(c) Responsibility for obtaining, upon request, detailed information on specific transactions when same is deemed necessary, and for prompt submission of such information to Purchase Division, Headquarters, Army Service Forces.

§ 802.299 *Special Purchase Action Report Forms.* The Quartermaster Corps and the Ordnance Department have been authorized by the Director, Purchases Division to use special forms of Purchase Action Reports and Supplemental Purchase Action Reports deviating slightly from the standard W.D., A.G.O. Forms No. 375 and 376, set forth in §§ 802.297–1 and 802.297–2. Stations under the jurisdiction of the Quartermaster General and those under the Chief of Ordnance will obtain supplies of these special forms as directed by the respective chiefs of those services.

SUBPART A—GENERAL

§ 803.301 *Rescission of regulations.* Army Regulations 5–200, dated January 2, 1940, as amended, and all other prior directives and instructions of whatsoever nature relating to the making of contracts are hereby rescinded.

§ 803.301–1 *Compliance with this part.* Unless otherwise specifically provided, compliance with any provision of this part or of any amendment thereto which requires a change in contract procedure or in any contract provision shall not be mandatory until thirty days after the issuance of such regulation or amendment.

§ 803.302 *Definitions.* As used in this chapter the following terms will have the meanings assigned to them in the following sections:

§ 803.302–1 *United States and Government.* These terms are synonymous and include the War Department.

§ 803.302–2 *Contractor.* A contractor is any person, partnership, company, or corporation (or any combination of these) which is a party to a contract with the United States.

§ 803.302–3 *Contracting officer.* (a) A contracting officer is an officer or civilian official of the War Department who has been appointed by any one of the following persons, or by their direction, or in accordance with such orders and regulations as they may prescribe for their respective commands, to execute contracts on behalf of the United States:

(1) The Secretary of War;

(2) The Under Secretary of War;

(3) The Commanding General in a Theatre of Operations;

(4) The Commanding General, Army Air Forces;

(5) The Director, Purchases Division, Army Service Forces;

(6) The Chief of any Technical Service.

(b) Unless otherwise specifically provided, the words "the contracting officer," when used in this chapter or in any existing or future contract, supplemental agreement or change order, are construed to include:

(1) His duly appointed successor or authorized representative;

(2) Any and all contracting officers, acting within the scope of the orders respectively appointing them contracting officers.

(c) Representatives may be designated as follows:

(1) The Chief of a Technical Service may designate any officer or civilian official to act as representative of the contracting officer or his duly appointed successor;

(2) A commanding officer may designate any contracting officer assigned to his command or station to act as representative of any other contracting officer assigned to the same command or station, or of a contracting officer's duly appointed successor so assigned;

(3) A contracting officer, his duly appointed successor, and any representative designated pursuant to (1) or (2) of this paragraph, may respectively designate any officers or civilian officials to act as their representatives.

(d) A designation authorized by paragraph (c) may be made by instructions referring to particular contractual instruments or classes of instruments, and may, to the extent not specifically prohibited by the terms of the contractual instrument involved, empower the representative to take any or all action thereunder which could lawfully be taken by the contracting officer. In no event, however, shall a representative, by virtue only of his designation as such, be empowered to execute any contract or supplemental agreement (as distinguished from change order). Of course, if the representative is a contracting officer, he may, pursuant to the order appointing him a contracting officer, execute contracts or supplemental agreements.

(e) Any person duly appointed a contracting officer in accordance with paragraph (a) above, with authority to execute contracts on behalf of a particular technical service, service command or the Army Air Forces may execute contracts on behalf of any other service when the necessary funds, if any, have been made available.

(f) All action heretofore taken which would have been valid if this section had then been in effect, is hereby ratified and confirmed.

§ 803.302–3a *Appointment of contracting officers at installations such as ports of embarkation.* The question sometimes arises whether a contracting officer carrying on procurement activities at an installation such as a port of embarkation should be appointed by the chief of the technical service having jurisdiction of the installation, or by the chief of another technical service which may have an interest in the particular type of procurement. The following rule of administration is established: The chief of the technical service (including the Commanding General, Army Air Forces) having jurisdiction of an installation is charged with primary responsibility for appointing contracting officers to carry on procurement activities at the installation, but with the concurrence of the chief of that technical service, the chiefs of other technical services (including the Commanding General, Army Air Forces) interested in the various types of procurement may appoint such contracting officers. This

does not alter in any way the authority of the persons designated in § 803.302–3 (a) (1), (2), (3) and (5) to appoint contracting officers. (See also § 803.318b–1).

§ 803.302–4 *Disbursing officer.* A disbursing officer is the officer who has been designated to make payments under a contract.

§ 803.302–5 The following are terms used in connection with contracts:

(a) Signed number. A signed number means the instrument with the required signatures.

(b) Authenticated copy. An authenticated copy means a copy of the instrument shown to be authentic by either:

(1) Certification as a true copy,

(2) Official seal, or

(3) Photostatic process.

The signatures on such copies may be either facsimile, stamped, or typed. In lieu of copying the signatures of the parties signing the contract or supplemental agreement and of the witnesses thereto, and the corporate certification or certificate, if any, of the contracting officers as to the authority of the person who signed the original for the corporate contractor, the contracting officer or his authorized representative may execute the following certificate on the copies furnished the Fiscal Office and the Financing Disbursing Office for their use:

I certify that this is a true copy of the document properly signed and witnessed ---------- and that the corporate certifi-
(date)
cation therein was properly executed.

(c) Copy. A copy means a copy of the instrument, including the names of the contracting parties, but lacking authentication.

§ 803.302–6 *Default.* Default is the refusal or the failure of a contractor to carry out the terms of a contract.

§ 803.303 *General requirements for contracts.* (a) Every purchase transaction except those where payment is made coincidentally with receipt of supplies will be evidenced by a written contract.

(b) Where it has been administratively determined by the commanding officer as more economical and advantageous in the interest of the war effort, Class B agent officers may be appointed in procurement installations under the provisions of AR 35–320 for the purpose of making cash payments for emergency purchases and nonpersonal services not exceeding $100. The use of War Department Form No. 332 (Public Voucher—Emergency Purchases and Nonpersonal Services Not Exceeding $100), properly executed and supported by certified invoices, will be used for this purpose. War Department Form No. 332 may be closed periodically to suit local conditions and submitted to the disbursing officer for credit in the agent officers' accounts as prescribed by AR 35–320.

(c) War Department Form No. 332, when used as authorized in paragraph (b) above, will be prepared in quadruplicate (original and three memorandum copies) and distributed as follows:

(1) Original and duplicate to accountable disbursing officer, supported by certified invoices.

(2) Triplicate to accountable property officer, supported by certified invoices and the following certificate:

I certify that the supplies enumerated hereon were received by me and that payment therefor has been made by me as agent officer in cash this ------- day of ----------, 19----, from funds intrusted to me by----------, finance officer at ----------, that the nonexpendable property listed hereon (if any) will be accounted for by the ---------- property officer as ----------, and that the expendable items hereon designated thus (x) are for immediate consumption in current service in ----------

---

(State purpose for which the expendable supplies are to be immediately used. For example: "Operation of motor trucks or airplanes," "troops on the march," etc.)

Allotment No. ----------

(Name, grade, and organization)
Agent Officer

(3) Quadruplicate, without attachments, to Fiscal Officer, Service Command Headquarters, for property audit files. This copy will be stamped with stamp of agent officer to indicate payment in cash or by check.

(d) When funds are expended in accordance with the procedure outlined in paragraphs (b) and (c) above, the transaction need not be evidenced by any written contract or purchase order, since payment will be made coincidentally with receipt of supplies.

§ 803.303–1 Contracts may be either formal or informal.

§ 803.303–2 A formal contract is one which is contained in one instrument executed by both parties. An illustration is War Department Contract Form No. 1 (see § 813.1301). Formal contracts may be used for any purchase transaction, regardless of amount and will be used for all purchase transactions, the contract price of which exceeds $500,000.

§ 803.303–3 For any purchase transaction, the contract price of which does not exceed $500,000, an informal contract consisting of two separate instruments, one signed by the contractor and the other signed by the contracting officer on behalf of the United States, may be used.

§ 803.303–4 (a) When a purchase order is preceded by a written quotation or is followed by a written evidence of acceptance executed by the contractor, it is to be regarded as an informal contract consisting of two instruments; and accordingly, may be used, in accordance with § 803.303–3, for any purchase transaction the contract price of which does not exceed $500,000. If the contractor's assent is not evidenced either by a written quotation or by acceptance of the purchase order in writing, the purchase order may nevertheless be used for any purchase transaction the contract price of which does not exceed $500,000 provided that the purchase order is preceded by an oral quotation or is based upon a price list.

(b) When the contractor furnishes no evidence of his assent either (1) by a written or oral quotation, (2) by a written acceptance or (3) by the publication of a price list, the purchase order may not be used for any transaction the contract price of which exceeds $5,000; but may be used for any transaction the contract price of which does not exceed $5,000.

(c) The provisions of this section and of §§ 803.301–2 and 803.301–3 are not applicable to interbranch or interdepartmental purchases (see § 806.605a and Subpart C of Part 806). Regardless of the amount involved, such purchases need not be evidenced by formal contracts. They should be evidenced by a delivery order (for suggested form see § 813.1317e, Form No. 19).

§ 803.303–5 *Numbering and distribution of contracts.* (a) The numbering of contracts is discussed in §§ 803.309 to 803.309–3 and 803.318b–5 and the distribution of contracts is discussed in Subpart D of this part.

(b) *Distribution of purchase orders.* As pointed out in § 803.303–4 (b), it is not necessary that a purchase order which does not exceed $5,000 in amount be preceded by a quotation. If the contract price exceeds $5,000, however, the following rules shall apply:

(1) If the purchase order was preceded by a written quotation signed by the contractor, or if the contractor delivered some written instrument evidencing the contractor's assent, the original of such written quotation or instrument should be forwarded to the appropriate Army Audit Branch of the General Accounting Office and a copy thereof attached to the copy of the purchase order furnished the disbursing officer.

(2) If the contractor did not furnish a written quotation or written evidence of its assent and the purchase order merely accepted an oral quotation or was based on a price list, the purchase order, as forwarded to the Army Audit Branch of the General Accounting Office, should contain a reference to the oral quotation or price list. This may consist of a simple statement such as "Pursuant to oral quotation of even date" or "Pursuant to oral quotation of ----------, 194--" or "Pursuant to ----------
(Name of contractor or other
---------- price list, dated ---------,
identification)
194--".

§ 803.303–6 *Partial payments.* It is to be noted that any type of contract, including the purchase order, may provide for partial payments upon completion of the delivery of one or more complete units called for under the contract, or upon the completion of one or more distinct items of service called for thereunder. Any existing contracts which provide for a single payment may be amended to provide for such partial payments. Likewise, prior to delivery, payments may be made on work in progress for the Government, *Provided*, That the contract contains a clause similar to one of the contract clauses set forth in §§ 803.330 and 803.331. Contracts (including purchase orders) under which it is contemplated that more than one payment will be involved must, of course, be numbered as required by § 803.309–1 and distributed in accordance with § 803.316.

§ 803.303a *Letters of intent and letter orders—(a) Use.* The use of letters of intent and letter orders was frequently necessary in the earlier stages of the war procurement program to enable contractors to start work immediately upon war contracts prior to the time when the information was available upon which a definitive contract could be negotiated and without the delay incident to contract negotiations. At the present stage of the procurement program, such temporary contractual instruments will be used only for the most cogent reasons and will be superseded at the earliest possible moment by definitive contracts. In general, such instruments should be used only (1) where it is essential to give the contractor a binding commitment to permit of preparatory work immediately and without any delay, or (2) where because of the experimental nature of the work involved or the lack of definitive information as to the volume of supplies to be ordered, the amount of work to be done, or detailed specifications, it is impossible to negotiate a definitive contract. Such instruments should not be used as a method of delaying the making of a definitive contract until a substantial portion of the contractor's performance of the contract has been completed. The standard termination provisions for inclusion in letter orders and letters of intent (see §§ 842.212–2 (b) and 842.213–3) leave room for the insertion of a date by which the definitive contract is to be executed, and also permit postponement of such date by mutual consent (see paragraph 6 (a) of contracts in §§ 813.1307 to 813.1310, inclusive). The date inserted should be the earliest date feasible under the circumstances, and postponement should not be consented to except for good cause.

(b) *Report on letters of intent, etc.* (1) On or before the 10th of each month the chief of each technical service will file with the Director, Purchases Division, Headquarters, Army Service Forces, a report entitled "Age Analysis of Outstanding Letters of Intent, Etc." (Control Approval Symbol PDS–17) and described in subparagraph (2) below. The first report shall be due September 10, 1944, for the period ending August 31, 1944. This report does not conflict with the reports of negotiated purchase actions in excess of $10,000, (Control Approval Symbol ICY–33) required by § 802.293.

(2) The reports "Age Analysis of Outstanding Letters of Intent, Etc." (Control Approval Symbol PDS–17) will be submitted original only, on an unclassified basis. For the purposes of these reports, the phrase "letters of intent, etc." shall be deemed to include letters of intent, letter orders, letter purchase orders, letter contracts, etc. Negative reports and letters of transmittal will not be submitted. Chiefs of technical services where necessary will obtain appropriate data from their procurement district offices, using the same reporting method as required for their report to the Purchases Division, Headquarters, Army Service Forces. These reports shall be in two parts and shall set forth the following information:

Part I. A tabulation, classified by month of origin, of the number of letters of intent, etc. outstanding at the close of the preceding month.

Part II. A separate listing of each letter of intent, etc. which at the close of the reporting month had been outstanding more than 90 days. This listing shall set forth:

(i) Contract number.

(ii) Name of contractor.

(iii) Date of original issuance of letter of intent, letter order, letter purchase order, etc.

(iv) The month in which it is anticipated the outstanding letter of intent, etc. will be converted to a definitive agreement.

(v) A brief statement of the reasons why each letter of intent, etc., which had been outstanding more than 90 days as of the end of the reporting period, had not been converted into a definitive contract.

(3) Letters of commitment (see W.D. Contract Form No. 28 and §§ 802.222–7 and 813.1328) will not be included in either Part I or Part II of these reports.

§ 803.303a–1 *Use of provisions for allowance of profit in standard termination provisions.* (a) The standard termination provisions (see §§ 842.212–2 (b) and 842.213–3) permit of an allowance for profit in the event of termination of a letter of intent or letter order for the convenience of the Government. Such provisions may be omitted in the discretion of the chief of the technical service. However, the chiefs of the technical services will normally include such provisions for a profit allowance (1) in letter orders and letters of intent which, because of inability on the part of the Government to furnish full specifications or essential information or other similar reason, will necessarily remain in effect for a considerable period before they can be superseded by definitive contract, and (2) in cases where the contractor is required to proceed under a letter of intent or letter order, although willing to quote a reasonable fixed price, solely because the Government for its own interest is unwilling immediately to negotiate a definitive contract.

(b) With respect to amendment of letters of intent or letter orders to include therein standard termination provisions, see § 842.213–3. With respect to allowance of profit on termination of letters of intent or letter orders, see § 845.533–4.

SUBPART B—AUTHORITY TO MAKE AWARDS, CONTRACTS, AND MODIFICATIONS THEREOF; REQUIRED APPROVALS

§ 803.304 *Definitions.*

§ 803.304–1 *Standard forms of contract.* The phrase "standard forms of contract", as used in this subpart, includes:

(a) Forms of contract which may from time to time be approved for the general use of all technical services by the Legal Assistant to the Director of Matériel or the Chief, Legal Branch, Director of Matériel, Headquarters, Army Service Forces. The following contract forms are hereby approved for such use:

(vi) Supplemental Agreements for Advance payments:
- Supplemental Agreement for Advance Payments with Interest on Fixed-Price Contracts (see § 813.1320).
- Supplemental Agreement for Advance Payments with Interest on Fixed-Fee Contracts (See § 813.1321).
- Supplemental Agreement for Advance Payments with Interest on a Letter Purchase Order (See § 813.1322).
- Supplemental Agreement for Advance Payments without Interest on Fixed-Price Contracts (See § 813.1323).
- Supplemental Agreement for Advance Payments without Interest on Fixed-Fee Contracts (See § 813.1324).
- Supplemental Agreement for Advance Payments without Interest on Letter Purchase Orders (See § 813.1325).

(vii) Utility Service Forms:
- Negotiated Electric Service Contract (Connection Charge) (See § 813.1315a).
- Negotiated Utility Service Contract (No Connection Charge—Electric, Gas, Water, Sewage) (See § 813.1315b).[1]

(viii) Patent Rights Contracts:
- Contract Adjusting Royalties (See § 813.1329).
- Patent Release and License Contract (See § 813.1330).
- Patent Release and License Contract (See § 813.1331).
- Patent Release and Assignment Contract (See § 813.1332).
- Patent Release Contract (See § 813.1333).
- Patent Release Contract (See § 813.1334).

(ix) Contracts for use in connection with termination of contracts—see Part 849 of this chapter.

(x) Miscellaneous Contracts:
- Defense Supplies Corporation (See § 813.1311).
- Metals Reserve Company (See § 813.1311a).
- Defense Plant Corporation (See §§ 813.1311b and 813.1311c).

- Contract of Sale of Property (See § 813.1326a).[1]

[1] To be used in accordance with instructions appearing in the cited section.

(x) Miscellaneous Contracts—Continued.
Letter of Commitment (Raw Materials under CMP) (See § 813.1328).

(b) Forms of contract, devised by a particular technical service, or a staff division exercising procurement functions, to meet the needs of a recurrent situation of a special type which may from time to time be approved by the Legal Assistant to the Director of Matériel or the Chief, Legal Branch, Director of Materiel, Headquarters, Army Service Forces (see § 801.107–8), for the use of that technical service or staff division. Forms so approved should be periodically revised (see § 803.301–1) to accord with requirements of these procurements regulations published following approval of the forms. If deviation from such requirements appears to be necessary, the forms should be resubmitted for approval.

(c) The forms of contract enumerated below are (January 1, 1945) in use by the various offices named. Except where the particular form was approved under paragraph (b) by memorandum or indorsement, in which case the precise terms approved together with any conditions on their use will appear from the pertinent file, it may be assumed that that version of the form was approved (subject to all requirements of the regulations in this chapter) which on January 1, 1945 was authorized by the technical service or staff division involved for use by personnel under its jurisdiction.

[1] It is emphasized that these forms should contain the standard clauses set forth in §§ 803.323 and 803.325, and General Condition 12 of W. D. Contract Form No. 47 (§ 813.1317c–2).

§ 803.304–2 *Contract.* As used in this subpart, the term "contract" means any contract except supplemental agreements and change orders and except those contracts referred to in §§ 810.1014 and 810.1015.

§ 803.304–3 *Price.* As used in this subpart, the term "price" means in the case of a lump-sum contract (or supplemental agreement or change order relating thereto), the stated price, and in the case of a cost-plus-a-fixed-fee contract (or supplemental agreement or change order relating thereto), the estimated cost plus the fixed-fee.

§ 803.304–4 *Technical service.* Whenever authority is conferred by this subpart upon a technical service, that authority may be exercised by the chief of the technical service or by any officer or officers or civilian official or officials whom he may designate, subject to such regulations as he may prescribe.

§ 803.305 *Making and approval of awards of contracts, supplemental agreements and change orders.*

§ 803.305–1 *Authority of technical services to make awards.* All awards of contracts, supplemental agreements and change orders, other than those described in § 803.305–2 may be made by the technical service concerned without approval of higher authority.

§ 803.305–2 *Awards requiring the approval of Director, Purchases Division.* (a) The following awards must be submitted for approval to the Director, Purchases Division, Headquarters, Army Service Forces:

(1) Awards of contracts (other than Architect-Engineer Management or similar contracts) involving a price of $5,000,000 or more, and awards of supplemental agreements and change orders which have the effect of increasing the price of contracts (other than Architect-Engineer, Management or similar contracts) by $5,000,000 or more.

(2) Awards of Architect-Engineer, Management or similar contracts when the construction contracts to which they relate involve a price of $5,000,000 or more, and awards of supplemental agreements and change orders affecting Architect-Engineer, Management or similar contracts when the changes being concurrently made in the construction contracts to which they relate have the effect of increasing the price of the construction contracts by $5,000,000 or more.

(b) Neither preliminary contractual agreements, such as letters of intent, letter orders and letter purchase orders, nor letters of commitment (see §§ 802.222–7, 813.1328) are required to be submitted to the Director, Purchases Division, for approval pursuant to the provisions of paragraph (a) above, regardless of the amount of funds obligated thereunder or the estimated cost of the proposed procurement. However, approval of the award of a final definitive contract, involving conversion of a preliminary contractual agreement or the use of materials or components acquired pursuant to a letter of commitment, will be obtained if required by paragraph (a) above.

§ 803.305–3 *Submission of contract, supplemental agreement or change order in lieu of award.* In lieu of submitting an award for approval under § 803.305–2, the contract, supplemental agreement or change order may itself be submitted for approval and manual execution by the Director, Purchases Division, Headquarters, Army Service Forces.

§ 803.305–4 *Information to be furnished in requesting approval of awards.* Requests for approval of awards will include the information indicated below or such parts thereof as are relevant to the particular procurements. The requests should show the extent of the consideration given to the following points in the course of the negotiation and placement of the agreement.

(a) Requests for approval of awards under § 803.305–2 (a) (1):
(1) Name and address of contractor.
(2) Location of the plant from which items are to be furnished.
(3) Quantity and brief description of items to be furnished.
(4) Unit prices and total amount to be expended.
(5) Brief summary of delivery schedules.
(6) Experience of contractor with same or similar work.
(7) New facilities required and reference to any necessary approval thereof.
(8) Whether negotiations were conducted with more than one contractor.
(9) Brief reference to the consideration and application of contract placement policies (see Part 802, Subpart B).
(10) Reference to form of contract to be used, noting and justifying any provisions requiring approval of higher authority, or referring to any such approval previously obtained (see, for example, §§ 803.306–2, 803.306–4, 803.376, and 803.378).
(11) Price information showing that a careful and thorough price analysis was made in the course of the negotiation and giving a brief narrative history of the negotiations with the contractor. This information should be given in sufficient detail to permit an appraisal of the consideration given to (i) comparative prices, (ii) components of price, and (iii) cost and price trends. (See ASF Manual M 601 "Pricing in War Contracts"; Part 802, Subpart C.)

(*a*) *Comparative prices.* The value of this information depends in large part on whether the conditions and circumstances of the procurements offered for comparison are in fact fairly comparable with those involved in the procurement approval of which is sought. The request should therefore indicate the consideration given to the various factors in the particular case which affect comparability. The following list of such possible factors is merely suggestive, not exhaustive: (*1*) Volume of production; (*2*) contractors' experience in producing the same or similar items; (*3*) Government-owned facilities and Government-furnished material; (*4*) financing provisions: (*5*) royalty payments; (*6*) risk factors, including those arising out of the length of delivery schedules; (*7*) Government's assumption of risks by means of contract provisions; (*8*) comparative price movements.

(*b*) *Components of price.* The request should reflect the types of approach used in analyzing components of price, of which the following are suggestive: (*1*) Analysis of the contractor's cost breakdowns; (*2*) comparisons of the contractor's cost estimates with his experienced costs and with the estimated and experienced costs of other suppliers of the same or similar items; (*3*) comparison of the contractor's cost estimates with the over-all operating statement for his latest fiscal year or with budgeted forecasts for the period of production; (*4*) analysis of engineering cost estimates.

The consideration given to trends in prices, in cost of materials, and in wage rates and utilization of labor should be indicated in the request.

The reasons for substantial differences in costs and prices, as well as the effect of subcontracting on costs and prices, should be summarized.

Presentation of the foregoing information should indicate that the price analysis was made with a view to effectuating, wherever possible, the War Department policy of reducing costs and prices.

(12) State whether advance payments are to be requested and indicate percentage of total price.

(13) Approximate amount of subcontracting, in dollars and in percentage of price, proposed to be done by the contractor. Where the amount or the percentage is large, a summary of the analysis of available subcontract prices and all available price comparisons for the major components should be given.

(14) Where the request for approval includes, in addition to the principal unit, spare parts or special packaging, or both, there should be a clear summary of the method of the pricing thereof. In the case of spare parts, for example, the summary may show the consideration given to the relationship between the total of the prices for all the parts used in assembling a unit and the price of an assembled unit.

(15) Where the agreement is on a cost-plus-a-fixed-fee basis, in addition to an analysis similar to that required elsewhere in this paragraph (to the extent feasible), a full statement of the reasons for the use of such type of agreement should be given (see §§ 802.232–1 through 802.232–3, inclusive), together with an explanation of the basis of calculation of the fixed fee (see § 802.232–3).

(16) A brief statement of the consideration given to (i) the results of, (ii) the information obtained in, and (iii) any forward pricing agreement in connection with any statutory renegotiation of the contractor; together with a statement of the record of the contractor in making voluntary price reductions and refunds to the Government.

(17) Any other matters having a bearing on the reasonableness of the price, which it is desired to submit.

(18) Recommendation of the chief of the technical service, or his representative, as to the action desired to be taken by the Director, Purchases Division.

(b) Requests for approval of awards under § 803.305–2 (a) (2):
(1) Name and address of contractor who is to furnish the services.
(2) Brief description of the services and place of performance.
(3) Brief statement of past performance record of the contractor.
(4) Whether negotiations were conducted with more than one contractor.
(5) Brief description of project to which the services relate.
(6) Form of agreement, with adequate reference to and justification of any provisions requiring approval of higher authority or to any such approval previously obtained.
(7) The price, and whether it is considered reasonable.
(8) If the agreement is on a cost-plus-a-fixed-fee basis, the amount of the fixed fee, and whether the fixed fee exceeds the maximum allowed under the

schedule established by the Under Secretary of War.

(9) Ratio of fixed fee to estimated gross construction cost.

(10) Whether agreement covers design only or supervision only, or both design and supervision.

(11) Whether release of claim for additional fee has been obtained with respect to all prior cost-plus-a-fixed-fee construction or architect-engineer contracts with the War Department.

(12) Recommendation of the chief of the technical service, or his representative, as to the action desired to be taken by the Director, Purchases Division.

§ 803.306 *Making and approval of contracts, supplemental agreements and change orders.*

§ 803.306–1 *Authority of technical services to make contracts.* A contract may be made by the technical service concerned without approval of higher authority (provided that approval of the award has been obtained, if such approval is required under § 803.305–2, and the contract substantially embodies the award as approved), if:

(a) The contract is written on a standard form of contract; or

(b) The contract (1) complies with the requirements of Subpart H of this part, and (2) does not contain any provision or involve any matter of policy which, in the opinion of the technical service, should be considered and passed upon by authority higher than the technical service.

§ 803.306–2 *Factors to be considered in determining whether review is necessary.* In determining whether a contract provision or matter of policy should be considered and passed upon by higher authority, consideration shall be given by the technical service to the following factors among others:

(a) Whether there is involved a conflict with a policy theretofore approved by higher authority;

(b) Whether there is involved a decision on an important question of policy which has not theretofore been passed upon by higher authority;

(c) Whether there is involved a decision on any matter in which uniformity among the several technical services appears to be desirable;

(d) Whether there is involved a decision on an important or doubtful question of law.

§ 803.306–3 *Authority of technical services to make supplemental agreements and change orders.* Except as provided in § 803.306–5 and in §§ 803.308a and 803.308g, a supplemental agreement to change order modifying a contract (other than an Architect-Engineer, Management or similar contract) may be made or issued by the technical services concerned without approval of higher authority (provided that approval of the award has been obtained if such approval is required under the provisions of § 803.305–2 and the supplemental agreement, or change order substantially embodies the award as approved), if:

(a) The technical service had authority to make the original contract pursuant to § 803.306–1, or the technical service did not have such authority but obtained approval pursuant to § 803.306–4; and

(b) The provisions and features of the supplemental agreement or change order are themselves such that the technical service would have authority to include them in an original contract pursuant to § 803.306–1.

Changes in Architect-Engineer, Management or similar contracts may also be made by the technical service concerned, provided that the requirements of paragraphs (a) and (b) above are satisfied and provided that the change being currently made in the construction contract to which the Architect-Engineer, Management or similar contract relates does not necessitate approval. Supplemental agreements converting cost-plus-a-fixed-fee contracts to a fixed price basis will be governed by the provisions of § 803.306–5.

§ 803.306–4 *Contracts, supplemental agreements and change orders requiring approval of Purchases Division.* The approval of the Purchases Division, Headquarters, Army Service Forces shall be obtained, as herein provided, in connection with all contracts other than those specified in § 803.306–1, and all supplemental agreements and change orders other than those specified in § 803.306–3. Where approval is necessary solely because one or more provisions of the contract, supplemental agreement or change order fail to comply with the requirements of Subpart H or present a matter or matters of policy which should be considered by authority higher than the technical service, the necessary approval may be obtained, prior to execution of the instrument on behalf of the technical service, on submission of the contract or the material provisions thereof to the Legal Assistant to the Director of Matériel or the Chief, Legal Branch, Director of Matériel, Headquarters, Army Service Forces, whose approval will be signified by indorsement, memorandum, letter or telegram in response to the request for approval; or on submission of the contract, supplemental agreement or change order, after execution on behalf of the technical service, for approval and manual execution by the Director, Purchases Division. In every other instance the contract, supplemental agreement or change order must be submitted, after execution on behalf of the technical service, for approval and manual execution by the Director, Purchases Division. Upon receipt of requests for the approval of deviations from the contract clauses set forth in §§ 803.365–1 to 803.365–9, the Legal Assistant to the Director of Matériel or the Chief, Legal Branch, Director of Matériel, Headquarters, Army Service Forces, will attend to all necessary clearances with the Contract Insurance Branch, Special Financial Services Division, Headquarters, Army Service Forces.

§ 803.306–5 *Supplemental agreements converting cost-plus-a-fixed-fee contracts to a fixed price basis.* (a) In all cases, supplemental agreements converting cost-plus-a-fixed-fee contracts to a fixed price basis (which for purposes of this section will include conversion to the incentive type contract—see § 803.378–5) will be made subject to the approval of the Director, Purchases Division, Headquarters, Army Service Forces. In submitting such supplemental agreements for the approval of the Director, Purchases Division, Headquarters, Army Service Forces, in addition to any information required by § 803.305–4 or other instructions as to contract clearance, a written statement should be presented (1) analyzing the price data and other similar information, if any, submitted by the contractor, (2) describing the investigations of these data and of other relevant facts which have been made by the War Department representatives, and (3) setting forth the principal factors considered in negotiating the conversion of the particular contract to a fixed price basis on the terms recommended. In the case of a partial conversion (not retroactive to the beginning of performance), the statement will indicate what steps have been taken to exclude from the proposed fixed price starting load costs for which the contractor is entitled to reimbursement or has been reimbursed under the cost-plus-a-fixed-fee portion of the contract. The records of the cost analyses and other investigations made in connection with the conversion will be preserved in the procurement office charged with the conversion negotiations or in the office of the Chief of the technical service concerned.

(b) It is the policy of the War Department to convert cost-plus-a-fixed-fee contracts to a fixed price basis as stated in the recitals quoted below in this paragraph. It has been administratively determined by the Under Secretary of War that such policy is to the advantage of the Government and that the execution of supplemental agreements effecting such conversions of cost-plus-a-fixed-fee contracts to a fixed price basis will facilitate the prosecution of the war when the contracting officer shall have satisfied himself as hereinafter provided in this paragraph and when the supplemental agreements shall have been approved as provided in paragraph (a) above. Although a fixed price, properly determined, will usually result in lower expenditure by the Government than on a cost-plus-a-fixed-fee basis, in some instances it may be to the interest of the Government to convert cost-plus-a-fixed-fee contracts for various reasons other than expected monetary saving. Therefore, the policy in favor of conversion may be carried out even in those cases where a price must be set for the first period of deliveries after the conversion which appears to be higher than the unit cost plus unit fee being paid on the cost-plus-a-fixed-fee basis at the time of the conversion. The price for the first period of deliveries after conversion may be necessitated by the increased risks to which the contractor is subject, but opportunity may exist over the life of the contract for savings to develop for the Government as a result of increased efficiency. Each supplemental agreement providing for such a conversion will be made only after the contracting officer has satisfied himself in the light of the above-mentioned policy of the War Department that the facts warrant substantially the following recitals which will be included with appropriate modifications to meet the needs of each particular case in each supplemental agreement:

Whereas, it is the policy of the War Department to convert cost-plus-a-fixed-fee contracts to a fixed price basis to the greatest extent feasible in order, among other things, (1) to develop greater efficiency in the use of manpower, materials and capacity by providing the contractor with an incentive to improve its operations, (2) to develop lower prices and costs through improvements in operating efficiency, and (3) to reduce the expense and manpower necessary for administrative work, both for the Government and for contractors; and

Whereas, it has been administratively determined by the Under Secretary of War that such policy is to the advantage of the Government and that the execution of supplemental agreements effecting such conversions of cost-plus-a-fixed-fee contracts to a fixed price basis will facilitate the prosecution of the war; and

Whereas, the conversion of this contract from a cost-plus-a-fixed-fee to a fixed price basis will implement the policy of the War Department aforementioned not only insofar as this contract is concerned but also to the extent that future contracts for supplies with the contractor may, as a result of this conversion, be placed by the Government on a fixed price basis; and

Whereas, in view of the aforementioned policy of the War Department and after consideration of all factors deemed relevant to the conversion of this contract from a cost-plus-a-fixed-fee to a fixed price basis, and after reasonable price analysis, the terms and conditions set forth in this supplemental agreement have been found to be reasonable under all the circumstances; and

Whereas, for the purposes aforesaid this supplemental agreement is entered into pursuant to the First War Powers Act, 1941, and Executive Order No. 9001.

(c) The supplemental agreement covering the conversion will be distributed as provided in §§ 803.303–5 and 803.315 et seq. The statements and other data referred to in paragraph (a) need not be submitted with the supplemental agreement to the General Accounting Office or to the finance officer, but will be retained as provided in paragraph (a) available for inspection.

(d) Prior to distribution there will be attached to each copy of the conversion supplement a certificate signed by the contracting officer stating specifically that the conversion of the contract from a cost-plus-a-fixed-fee to a fixed price basis was made after an investigation and determination that, in the judgment of the War Department, such action would facilitate the prosecution of the war.

(e) Any supplemental agreement, converting a cost-plus-a-fixed-fee subcontract to a fixed price basis, if required to be approved by the contracting officer, shall, prior to such approval, be forwarded for approval of the Director, Purchases Division, Headquarters, Army Service Forces, accompanied by the information required by paragraph (a) above.

§ 803.307 *Authority of technical service to reallocate awards and contracts.* It is recognized that, in order to promote the more efficient utilization of combined manufacturing facilities or to prevent interruption of work, it may become advisable to reallocate an award, contract, or modification thereof. Accordingly, when an award, contract, or modification thereof has been made with required approvals, and the technical service concerned thereafter determines that it is advisable to obtain the materials or services involved wholly or in part from another contractor or from two or more contractors, it is authorized without further approval to reallocate the award, contract or modification thereof in whole or in part to another contractor or to two or more contractors, and for this purpose to make appropriate awards and appropriate contracts; *Provided*, That the aggregate quantities, aggregate prices, and the terms of the awards and contracts resulting from the reallocation are substantially the same as those contained in the award, contract or modification thereof which was the subject of the reallocation.

§ 803.308 *Supplemental agreements and clauses prescribed by Subpart H.* Except as otherwise specifically provided to the contrary in any section of these procurement regulations, whenever any contract (either as originally drawn or as the same may have been modified, amended or supplemented) contains a provision covering the same subject matter as a clause prescribed by Subpart H of this part, but in a form different from that therein prescribed, it will not be necessary, in executing any supplemental agreement or change order in connection with said contract, to amend such provision either with respect to the items which are the subject of the contract or with respect to the items which are the subject of the supplemental agreement or change order.

§ 803.308a *Supplemental agreements and change orders not involving receipt of consideration.* Except as otherwise specifically provided in these regulations, approval by the Director, Purchases Division, Headquarters, Army Service Forces, will be required for each supplemental agreement or change order which does not involve the receipt by the Government of adequate legal consideration, or which modifies or releases an accrued obligation owing directly or indirectly to the Government including accrued liquidated damages or liability under any surety or other bonds. In every such case the technical service shall submit a full statement of the case and of the action recommended together with a finding by the technical service, adequately supported, that the prosecution of the war would be facilitated by the action recommended. The Director, Purchases Division, will signify his approval by manual execution of the supplemental agreement or change order, where such instrument is submitted, or where such instrument is not submitted, by memorandum, indorsement, letter or telegram in response to the request for approval. Attention is directed to the provisions of § 803.308g. The provisions of this section apply to amendments or modifications of agreements for the repayment of excessive profits executed pursuant to the Renegotiation Act, as amended, except to those amendments of such agreements authorized by § 803.308e (b).

§ 803.308b *Correction of mistakes.* Effecting amendment of contracts with the least possible delay to correct misunderstanding, mistakes, errors, and ambiguities will facilitate the prosecution of the war by expediting the procurement program and by giving contractors proper assurance that mistakes unavoidable in a war program as large and extensive as that now in progress, will be corrected expeditiously and fairly. Accordingly, mistakes may be corrected by supplemental agreement pursuant to Title II of the First War Powers Act, 1941, and Executive Order No. 9001, as follows:

(a) Each chief of a technical service may, within the time prescribed by § 803.308f, enter into a supplemental agreement correcting mistakes found by the chief of the technical service to be of the following types:

(1) Misunderstandings, mistakes, and errors of the parties to a written agreement, or ambiguities therein, the correction of which would result in benefit to the Government;

(2) Misunderstandings, mistakes and errors of the parties to a written agreement, or ambiguities therein, which consist solely of a failure to express in the written agreement the true agreement between the parties in accordance with the negotiations between them, or of a mutual mistake as to a material fact;

(3) Mistakes and errors of a contractor, even if unilateral which consist solely of the failure of the contractor, in good faith, to set forth in a bid or in a written agreement what he intended to include therein.

Except as to misunderstandings, mistakes, errors or ambiguities of the type referred to in subparagraph (1) above, the authority conferred upon the chiefs of the technical services by this paragraph (a) is subject to the following limitations:

(i) The notice of the mistake must have been given by the contractor to the contracting officer before completion of performance and before the giving of notice of termination of the contract; *Provided*, That in case of contracts for sale of government property, such notice must be given by the purchaser to the contracting officer before completion of deliveries by the government or before final payment by the purchaser, whichever is later.

(ii) The change involved must not result in an adjustment in excess of $50,000; and

(iii) Where the contract was made as a result of a formal or informal invitation to bid the change must not result, in the case of contracts for the sale of government property, in the payment by the contractor of a sum less than the amount of any bid submitted by any other bidder upon substantially the same terms and conditions, and in the case of other contracts, in the payment to the contractor of a sum in excess of the amount of any bid submitted by any other bidder upon substantially the same terms and conditions, except that, in either case, if the

contract was not originally placed on a basis of competition as to price but primarily on the basis of other considerations the limitation contained in this subdivision (iii) shall not be applicable.

This paragraph (a) does not grant any authority to the chief of a technical service to correct a mistake in an agreement for the repayment of excessive profits under the Renegotiation Act, as amended, and the correction of a mistake in any such agreement may be made only with the prior written approval of the Director, Purchases Division, Headquarters, Army Service Forces.

(b) At any time prior to the making of final payment under a termination settlement agreement entered into prior to 21 July 1944, the chief of the technical service concerned may correct mistakes, errors and ambiguities in such termination settlement agreement when such correction will result in benefit to the Government or when the change involved does not result in an adjustment in excess of $50,000. (Also see § 847.748). The authority conferred by this paragraph is not subject to any of the limitations created by paragraph (a) above or by § 803.308f. Termination settlement agreements entered into on or after July 21, 1944 may be amended as authorized by § 847.748.

(c) In any other case where the chief of a technical service determines that it will facilitate the prosecution of the war to execute a supplemental agreement to correct a mistake, he will first obtain approval of the Director, Purchases Division, Headquarters, Army Service Forces.

(d) Approval of the Director, Purchases Division, will not be required in the case of any supplemental agreement correcting a mistake, under which the Government receives adequate new legal consideration, regardless of whether the supplemental agreement involves an adjustment amounting to $50,000 or more, and regardless of the time of execution of such supplemental agreement.

Requests for approval by the Director, Purchases Division, Headquarters, Army Service Forces, of supplemental agreements to correct misunderstandings, mistakes, errors and ambiguities in contracts in accordance with the provisions of this section will be accompanied by a full statement of the circumstances including all relevant papers or copies thereof. The evidence submitted shall show that an error or mistake was made or that a misunderstanding or ambiguity exists, in what it consists, and how it occurred, the true intent of the parties, and the effect of the mistake, if not corrected, upon the financial condition of the contractor. When this section does not require that the approval of the Director, Purchases Division, be obtained, the chief of the technical service approving or executing such agreement will see that a similar statement is prepared with respect to each such supplemental agreement and that such statement and all relevant papers and evidences are carefully preserved. Attention is directed to the provisions of § 803.308g.

§ 803.308c *Contracts or supplemental agreements providing for advance payments.* The subject of advance payments is treated in Subpart G of this part. If a contract contains a clause authorizing the making of advance payments, the determination of whether the approval of the Purchases Division must be obtained under § 803.306–4 should be based upon the provisions of the contract other than the clause providing for advance payments. If the making of advance payments is authorized under a supplemental agreement, the provisions of this subpart shall be inapplicable, and only Subpart G shall be considered in determining whether approval of such supplemental agreement by any authority higher than the technical service is necessary.

§ 803.308d *Ratification of prior action.* In any case where an existing War Department contract or any section of these Procurement Regulations requires that any action affecting a War Department contract be approved by a contracting officer, chief of a technical service or other representative of the War Department in advance of the taking of such action or that it be so approved in writing by a stated time, such action may be approved or ratified in writing by such officer or representative of the War Department after such action has been taken or after such stated time. Such approval or ratification will take effect retroactively as of the date specified in the written instrument of approval or ratification. In general, cases which are appropriate for the exercise of the authority contained in this section will fall into one of two categories, namely: (a) Cases where, in the interest of expediting production and without obtaining the requisite prior approvals, action has been taken in reliance in good faith upon assurances of a person in authority, or (b) cases where the action taken without such assurances was of a nature which would have been approved had approval been sought seasonably. The prosecution of the war will be facilitated by the liberal use of the authority contained in this section.

§ 803.308e *Extension of time for performance.* (a) The chief of each technical service may authorize contracting officers designated by him to extend by supplemental agreement within the time prescribed by § 803.308f, the time fixed for performance in any contract and to waive accrued liquidated damages. Each such supplemental agreement shall be entered into pursuant to the First War Powers Act and Executive Order No. 9001. If the contractor shall be in default by reason of delay at the date thereof, such supplemental agreement shall be subject to the approval of the Director, Purchases Division, Headquarters, Army Service Forces, unless the contracting officer shall find that such delay caused no substantial damage to the Government (as distinguished from the accrual of liquidated damages under the contract). For the purposes of this section, the contractor shall not in any case be considered in default by reason of delay if such delay is excusable within the meaning of the contract. Attention is directed to the provisions of § 803.308g.

(b) The chief of the technical service to which any contract for the repayment to the Government of excessive profits, executed pursuant to the Renegotiation Act of 1942 (see § 812.1201–1 (b), has been assigned for administration, may extend by supplemental agreement the time within which any payment is to be made under such contract whenever he determines (1) that the extension is necessary to avoid an impairment of the contractor's ability to perform war contracts or subcontracts, and (2) that such action will facilitate the prosecution of the war. A copy of each such supplemental agreement, together with a full statement of the circumstances upon which the determination is based, will be forwarded to the Director, Renegotiation Division, Headquarters, Army Service Forces, upon the execution of the agreement. Each such supplemental agreement shall contain, among other things, the following provision:

> All unpaid installments hereunder may at the option of the Government be declared and thereupon shall become immediately due and payable. In the event of a default continuing for 20 days in the payment of any amount required to be paid under this agreement, interest, at the rate provided by law in the District of Columbia as the rate which is applicable in the absence of express contract as to the rate of interest, shall accrue and be payable upon each payment due hereunder from and after the due date thereof, whether original or accelerated.

(c) Supplemental agreements extending the time within which payment is to be made under any contract for the repayment to the Government of excessive profits, executed pursuant to the Renegotiation Act of 1943 (see § 812.1201–1 (a), are required to be submitted for the approval of the Director, Purchases Division, Headquarters, Army Service Forces (see § 803.308a). In submitting any such supplemental agreement for approval it shall be forwarded to the Director, Purchases Division, through the Director, Renegotiation Division, Headquarters, Army Service Forces.

§ 803.308f *Amendment of contracts after final administrative determination of amount due.* The authority granted to the chiefs of the technical services pursuant to §§ 803.308b (a), 803.308e (a), 803.379 and 803.380 will not be exercised (a) in the case of contracts for the sale of government property, after the completion of delivery by the government or final payment by the contractor, whichever is later or (b) in the case of other contracts, after the contracting officer has administratively determined the final amount due under the contract by communicating his determination to the contractor or by the approval of a final voucher therefor, except that if the contracting officer's determination is, by the terms of the contract, subject to review by the Secretary of War, or his duly authorized representative, such authority may be exercised at any time prior to final action on such review if the contractor perfects his right to such review. Attention is directed to the provisions of § 803.308g.

§ 803.308g *Supplements and change orders dealing with or directly affecting matters pending before the General Accounting Office in respect of the amended contract.* Chiefs of technical services may not approve or authorize the execution of any supplemental agreement or change order which deals with or directly affects the claim under the contract amended thereby which has been transmitted to the General Accounting Office, or any dispute under the contract which has been referred to the General Accounting Office. This limitation of authority is applicable to action taken pursuant to §§ 803.306–3, 803.306–4, 803.308a, 803.308b, 803.308e, 803.308h–4, 803.379 and 803.380 notwithstanding any authority granted to the chiefs of the technical services by those sections respectively. In requesting any approval of the Director, Purchases Division, Headquarters, Army Service Forces, required by these regulations, the chiefs of the several technical services will call attention to any matters pending before the General Accounting Office with respect to the contract in question, or any closely related contract which may be affected or dealt with by the supplementary agreement, change order, or action, approval of which is requested, and will state fully the circumstances in any such pending matter.

§ 803.308h *Defective, informal and quasi-contracts.*

§ 803.308h–1 *Statutory provisions.* Section 17 of the Contract Settlement Act of 1944 reads as follows:

> SEC. 17. (a) Where any person has arranged to furnish or furnished to a contracting agency or to a war contractor any materials, services, or facilities related to the prosecution of the war, without a formal contract, relying in good faith upon the apparent authority of an officer or agent of a contracting agency, written or oral instructions, or any other request to proceed from a contracting agency, the contracting agency shall pay such person fair compensation therefor.
>
> (b) Whenever any formal or technical defect or omission in any prime contract, or in any grant of authority to an officer or agent of a contracting agency who ordered any materials, services, and facilities might invalidate the contract or commitment, the contracting agency (1) shall not take advantage of such defect or omission; (2) shall amend, confirm, or ratify such contract or commitment without consideration in order to cure such defect or omission; and (3) shall make a fair settlement of any obligation thereby created or incurred by such agency, whether expressed or implied, in fact or in law, or in the nature of an implied or quasi contract.
>
> (c) Where a contracting agency fails to settle by agreement any claim asserted under this section, the dispute shall be subject to the provisions of section 13 of this act.
>
> (d) The Director shall require each contracting agency to formalize all such obligations and commitments within such period as the Director deems appropriate.

Regulation No. 12 of the Office of Contract Settlement, dated January 24, 1945, issued under this section 17, authorizes the War Department to make or continue in effect regulations not inconsistent with those prescribed by the Office of Contract Settlement.

§ 803.308h–2 *Investigation of claims under statute.* The chiefs of the several technical services will arrange for the prompt investigation of all claims which may come within the purview of section 17 of the Contract-Settlement Act of 1944. Claims under this section shall be in such form and supported by such documentary evidence as the chief of the technical service deems appropriate under the circumstances of individual cases. If the chief of the technical service concerned is of the opinion that any such claim is without merit or if the Director, Purchases Division, withholds approval of any claim recommended by the chief of the technical service under the provisions of § 803.308h–5, such claim will be denied by the chief of the technical service by written notice to the claimant accompanied by findings indicating the basis of the denial. The written notice and findings will be sent by registered mail, return receipt requested. Two copies of each such notice and findings, together with a copy of the claim and supporting papers and a brief statement of the circumstances of the investigation made by the technical service will be transmitted to the Judge Advocate General (attention Contract Appeals Branch, Contracts Division). Such brief statement should include the names and permanent addresses of any witnesses relied upon by the technical service in denying such claim. A copy of the findings will be forwarded by the Judge Advocate General to the Office of Contract Settlement in accordance with Regulation No. 12 of that office. Whenever the chief of the technical service is advised of the filing of an appeal or suit under section 13 of the Contract Settlement Act of 1944 with respect to a claim denied by him, he shall promptly transmit such information to the Judge Advocate General (attention Contract Appeals Branch, Contract Division).

§ 803.308h–3 *Formalization of claims under existing procedures.* Insofar as specifically authorized by other provisions of the regulations in this chapter in effect prior to the effective date of the Contract Settlement Act of 1944, the chiefs of the technical services may continue to approve and formalize instructions given or requests made in the behalf of the technical service to furnish or arrange to furnish materials, services, or facilities. Approval or formalization of instructions or requests not authorized by the regulations in this chapter prior to the effective date of the Contract Settlement Act of 1944 pursuant to section 17 of that act will be dealt with in accordance with §§ 803.308h to 803.308h–9, inclusive.

§ 803.308h–4 *Action under section 17 by the technical service.* (a) The chief of any technical service may take or approve any action authorized by subsections (a) and (b) of section 17 of the Contract Settlement Act of 1944, if there was in existence at the time of the furnishing or arranging to furnish any materials, services and facilities in question, a valid, formal contract between the Government (acting through the technical service in question) and the person claiming the benefit of section 17: *Provided*, That:

(1) Such person acted in good faith upon instructions from an officer or employee of such technical service;

(2) Such instructions were of a type which, when given could properly be embodied in a change order, supplemental agreement or other modifying instrument under such existing contract;

(3) Such person actually furnished or arranged to furnish materials, services or facilities which the Government in fact desired such person to furnish or to arrange to furnish in connection with such contract at the time such instructions were given; and

(4) Such person (i) has not been paid for such materials, services or facilities or for arranging to furnish the same, (ii) has no pending contractual arrangement for such payment by the Government, and (iii) is willing to accept in complete discharge of all liability of the Government for furnishing or arranging to furnish such materials, services or facilities an amount which the chief of the technical service considers to be not in excess of fair compensation for what such person has in fact done or furnished and which is not in excess of $500,000.

(5) No claim relating to the furnishing of such materials, services or facilities has been referred to the General Accounting Office (see § 803.308g).

(6) Final payment has not been made under the contract as theretofore formally amended in writing.

(b) The chief of the technical service also may take or approve any action authorized by section 17 (a) of the Contract Settlement Act of 1944, in case there was not in existence at the time of the furnishing or arranging to furnish any materials, services and facilities in question, a valid, formal contract, within the purview of § 803.308h–4 (a), which could properly have been the subject of timely amendment by change order, supplemental agreement or other modifying instrument making provision therefor, *Provided*, That:

(1) The person claiming the benefit of said statutory provision acted in good faith upon instructions from an officer or employee of such technical service;

(2) Such instructions were of a type which, when given could properly be embodied in a change order, supplemental agreement or other modifying instrument under such existing contract;

(3) Such person actually furnished or arranged to furnish materials, services or facilities which the Government in fact desired such person to furnish or to arrange to furnish in connection with such contract at the time such instructions were given; and

(4) Such person (i) has not been paid for such materials, services or facilities or for arranging to furnish the same, (ii) has no pending contractual arrangement for such payment by the Government, and (iii) is willing to accept in complete discharge of all liability of the Government for furnishing or arranging to furnish such materials, services or facilities an amount which the chief of the technical service considers to be not in excess of fair compensation for what such person has in fact done or furnished and which is not in excess of $50,000; and

(5) No claim relating to the furnishing of such materials, services or facilities has been referred to the General Accounting Office (see § 803.308g).

(c) Any action taken by the chief of the technical service will be embodied (1) in a supplemental agreement to the existing contract involved when the

claim is handled under authority of § 803.308h–4 (a), and (2) in a contract where the claim is handled under authority of § 803.308h–4 (b). In each case involving the payment to the contractor of more than $50,000 by reason of such a supplemental agreement or of more than $5,000 by reason of such a contract, the supplemental agreement or contract shall be subject to the prior written approval of the chief of the technical service in person or of any one or more employees or officers designated by him within the headquarters office of the technical service, or, in case of the Army Air Forces, within the headquarters office of the Army Air Forces or of one of its major component commands.

(d) The chief of the technical service will make a written report promptly to the Director, Purchases Division, Headquarters, Army Service Forces, of each action taken pursuant to the authority granted by this section which involves in excess of $500. Such report will contain the following:

(1) A copy of the supplemental agreement or contract constituting the action;

(2) A brief statement of facts and evidence upon which such action is based; and

(3) A statement of the reasons why such instructions were not formalized at the time they were given.

(e) The chief of the technical service concerned will require full records to be preserved containing the facts relevant to any action taken pursuant to this section.

(f) The chief of each technical service will take adequate steps to make certain that the grant of authority contained in this section does not lead to any relaxation of the efforts of the procurement offices within such technical service to formalize promptly all instructions and agreements with contractors as required by applicable regulations.

§ 803.308h–5 *Action by Director, Purchases Division.* (a) In any case not clearly covered by § 803.308h–4, the chief of each technical service will not grant any claim or request for relief or action under section 17 of the Contract Settlement Act of 1944 without obtaining the prior written approval of the Director, Purchases Division, Headquarters, Army Service Forces. Each recommendation for such relief or action will be accompanied by an adequate statement of the circumstances which, in the opinion of the chief of the technical service, justify such relief or action and in addition the following:

(1) A statement of the scope and nature of the investigation of the circumstances made by the technical service and signed statements by representatives of the Government and of the claimant having knowledge of the relevant circumstances, sworn to where practicable;

(2) The original or photostatic copies of any written instructions and a full statement of any oral instructions, relied upon by the claimant;

(3) Identification of any officer or agent upon whose authority to bind the War Department the claimant relied, together with a statement by the claimant that he in fact relied upon such authority;

(4) A statement of when and to whom such materials, services, or facilities were furnished or were arranged to be furnished, and of the arrangements made for furnishing them, showing whether or not at the time of furnishing or arranging to furnish such materials, services or facilities the claimant intended to be directly compensated for the same by the War Department;

(5) A finding by the chief of the technical service that the amount claimed constitutes fair compensation for the materials, services, or facilities furnished or arranged to be furnished; such finding shall be supported by (i) substantiating evidence, (ii) statement of profit allowance, if any (see § 803.308h–7 and (iii) and explanation of the scope of the investigation of the costs incurred;

(6) A statement of the reasons why the proposed action was not, at the time of the circumstances upon which the relief requested is based, promptly embodied in an appropriate supplemental agreement, change order or contract;

(7) A brief description of the contract or contracts, if any, to which such proposed relief or action is related;

(8) A statement as to whether any other claim for any part or all of the relief requested has been, or is being, submitted to any other Government agency or war contractor, and if so, of the action taken thereon;

(9) The name, address and telephone number of the person in the War Department with detailed knowledge of the facts of the case.

(b) Upon receipt of written approval by the Director, Purchases Division, of any such claim, the chief of the technical service will embody the action authorized in an appropriate contract or supplemental agreement and will send a copy of the executed instrument to the Director, Purchases Division.

§ 803.308h–6 *Form of contract or supplemental agreement.* Unless otherwise authorized by the Director, Purchases Division, Headquarters, Army Service Forces, each contract or supplemental agreement executed or proposed for execution under the authority of section 17 of the Contract Settlement Act of 1944 will contain the provisions mentioned below (in addition to provisions which may be specially pertinent to the particular case). In the case of supplemental agreements it will not, of course, be necessary to repeat any standard clause referred to below if the original contract already contains that clause.

(a) Recitals of the principal facts and circumstances which justify a finding that the action taken is within the scope of section 17 of the Contract Settlement Act of 1944, including a statement in cases of action within the scope of subsection (a) of such section 17, that the materials, services or facilities in question were related to the prosecution of the war.

(b) Recital that the execution of the contract or supplemental agreement has been authorized by or in behalf of the Secretary of War pursuant to the authority of the Contract Settlement Act of 1944.

(c) A provision enumerating and describing the materials, services or facilities which the contractor has furnished or delivered and setting forth the actual delivery schedule.

(d) A provision whereby the contractor releases and discharges the Government of and from all liabilities for furnishing or arranging to furnish the described materials, services or facilities.

(e) A provision stating that by the execution of the agreement the contractor warrants that, in furnishing the described materials, services or facilities, it complied with all provisions required by Federal law or Executive order to be incorporated in War Department contracts for procurements of this nature.

(f) The patent indemnity provisions (see § 803.335) and patent license provisions (relating to research or development work) which would apply if the procurement were being contracted for in the usual manner, modified so far as necessary in the light of the fact that the materials, services or facilities have already been furnished.

(g) The contract provisions appearing in § 803.322 (Officials Not to Benefit), § 803.323 (Covenant Against Contingent Fees), § 803.326 (Disputes), and § 813.1301, Article 23 (Definitions); and the first sentence of § 813.1301, Article 8 (Payments), and § 803.342–1 (a) (Renegotiation), to the extent such contract provisions are required if the procurement were being contracted for in the usual manner.

§ 803.308h–7 *Action by War Department Board of Contract Appeals.* The War Department Board of Contract Appeals in connection with any appeal pending before it under the "Disputes" article of a contract (see e. g. § 803.326) may authorize or direct the taking of any action pursuant to section 17 of the Contract Settlement Act of 1944 which in its opinion is required or authorized by that section.

§ 803.308h–8 *Fair compensation.* Under some circumstances, fair compensation under section 17 of the Contract Settlement Act of 1944 will consist of reimbursement for all or part of the costs incurred in furnishing or arranging to furnish materials, services or facilities. In others, a profit, in addition to costs, may be appropriate. The determination of compensation after performance obviously differs from pricing before the fact in certain important respects. Contingency allowances are of course improper. The profit allowance, if any, must be made in the light of the fact that the amount to be paid is determined after costs are known and risks have been removed.

§ 803.308h–9 *Time limitation.* Paragraph 8 of Regulation 12 of the Director, Office of Contract Settlement dated 24 January 1945 reads as follows:

8. *Contracting agencies required to formalize obligations and commitments.* Where an obligation or commitment created or incurred by a contracting agency might be invalidated because of a formal or technical defect or omission, in a prime contract or in any grant of authority to an officer or agent who ordered materials, services, or facilities related to the prosecution of the war, the agency shall formalize the obligation or commitment within ninety days from notice to its headquarters office of the existence of such formal or technical defect or omission.

For the purposes of the foregoing, the term "headquarters office" is interpreted to mean the office from which the last approval is required.

SUBPART C—FORMALITIES IN CONNECTION WITH EXECUTION OF CONTRACTS AND MODIFICATIONS THEREOF

§ 803.309 *Numbering contracts.*

§ 803.309–1 *When required.* (a) Every formal contract (see § 803.303–2) involving the receipt or expenditure of public moneys will be numbered.

(b) Every informal contract (see § 803.303–3) involving the receipt or expenditure of public moneys will be numbered when:

(1) The actual or estimated amount involved is $5,000 or more, or

(2) It is contemplated that more than one payment (or receipt) will be involved, regardless of the amount involved.

(c) The provisions of paragraph (a) are not applicable to delivery orders evidencing interbranch or interdepartmental purchases (see § 806.605a and Subpart C of Part 806 of this subchapter). Such delivery orders need only be given such designation as may be prescribed by the chiefs of the technical services. If, however, it is contemplated that any such order will involve more than one payment, it must be numbered in accordance with §§ 803.309–2 or 803.318b–5 unless the procedure prescribed in § 803.318–1 (c) is followed.

§ 803.309–2 *System.* Contract numbers will be placed in the upper right-hand corner and will consist of the following in the order named:

(a) The capital letter "W", representing the War Department.

(b) Station number representing the station or office as published in the War Department Fiscal Code.

(c) The letter or letters representing the technical service. No approved letter symbol may be changed, nor may any new letter symbol be adopted, unless approval therefor is first obtained from the Office of the Fiscal Director, Headquarters, Army Service Forces, which, before granting any such approval is required to obtain formal approval of the Comptroller General of the United States.

(d) A serial number, separated from the above by a hyphen, commencing with the number 1 and continuing in succession indefinitely without regard to the fiscal year. When the serial number reaches the limit of five digits (99,999), a new series will be used beginning with the serial number 1 and followed by the capital letter "A". Should additional series become necessary, they will be distinguished by the capital letters "B", "C", "D", etc., as may be required.

NOTE: The foregoing applies only to the numbering of technical service contracts and not to the numbering of service command contracts. As to the latter, see § 803.318b–5.

As to numbering of contracts of sale by the War Department, see § 821.113.

§ 803.309–2a *Contracts executed by Army Air Forces contracting officers.* In numbering contracts executed by Army Air Forces contracting officers, the letter symbol representing the technical service shall be the letters representing the Army Air Forces, regardless of the source of the funds being used to finance the contracts. Burial contracts, however, shall continue to be numbered as service command contracts.

§ 803.309–3 *Examples.* Based upon § 803.309–2 above, the following is the number of the first numbered contract executed by the Philadelphia Quartermaster Depot:

W–36–030 qm–1

§ 803.309–4 *Effect of War Department Fiscal Code.* (a) Under date of January 1, 1944, the War Department Fiscal Code was issued as TM 14–700.

(b) Chapter 8 of the aforementioned code sets forth list of procurement station numbers presently prescribed. These station numbers are to be used in numbering contracts (as required by §§ 803.309–2 (b) and 803.318b–5 (a) (2).

(c) It is to be noted that Chapter 7 of the aforementioned code contains code numbers designating the various technical services as well as the various service commands. These code numbers are not to be substituted, in the numbering of contracts, for the letters used to designate the technical services and the service commands (as required by §§ 803.309–2 (c) and 803.318b–5 (a) (3)), since symbol letters used in the numbering of contracts to designate the technical services must be approved, prior to their use, by the Comptroller General of the United States.

§ 803.309a *Identification of subcontracts.* Section 803.309 prescribes a numbering system for prime contracts with the War Department; it does not prescribe a numbering system for subcontracts (including purchase orders) under such prime contracts. It is desirable, however, that subcontracts be properly identified and tied-in with the prime contracts to which they respectively relate. Accordingly, contracting officers will urge contractors holding prime contracts with the War Department to include in their subcontracts, so far as practicable, a reference to the number of the prime contract involved. Prime contractors will also be asked to urge their subcontractors to include a reference to the number of the applicable prime contract in sub-subcontracts; and so on down the line. This practice will materially assist in accounting and auditing and particularly in the settlement of terminated subcontracts of all tiers.

§ 803.310 *Fiscal procedures.*

§ 803.310–1 *Allotments of funds not to be exceeded.* The authority to make contracts is subject to the proviso that allotments made for supplies will not be exceeded. Officers who are charged with making contracts will submit, prior to the incurrence of obligations, all proposed contracts to the fiscal officer for verification as to the sufficiency of funds for that purpose. Officers who are charged with the fiscal record keeping will be held strictly responsible that obligations incurred on the basis of documents submitted for determination as to the sufficiency of funds do not exceed the amounts authorized and that such obligations include no other purpose than indicated in the allotment.

§ 803.310–2 *Statements as to availability of funds.* See AR 35–840 for the statements which will be made on contracts and on purchase orders placed under existing contracts as to the funds chargeable and the sufficiency thereof.

§ 803.311 *Execution of contracts.*

§ 803.311–1 *Contracts with individuals.* A contract with an individual will be signed by the individual in his own name.

§ 803.311–2 *Contracts with an individual trading as a firm.* Such a contract will be signed by the individual in question. The following illustrates the form that such a contract will ordinarily take:

* * * * *

JOHN DOE COMPANY,
Contractor.

By ----------
John Doe (Owner)

(Business Address)

§ 803.311–3 *Contracts with partnerships.* (a) The contract may be signed in the name of the partnership by one or more of the partners. Each partner who signs will sign as one of the firm.

(b) A contract with a partnership doing business through a local representative or agent may be executed in the name of the firm by such local representative or agent.

(c) If the contract is executed in the manner specified in paragraph (b) and the contract involves a substantial contract price, there should, if practicable, be filed with the contract a properly certified copy of the power of attorney showing the authority of the representative or agent executing the contract.

§ 803.311–4 *Contracts with corporations.* (a) A contract with a corporation will have the name of the corporation written in the blank space provided therefor at the end of the contract form followed by the word "by", after which the officer or person who has been authorized to contract on behalf of the corporation will sign his name, with the designation of his official capacity.

(b) The contracting officer will in all cases endeavor to satisfy himself that the signer has authority to bind the corporation.

(c) If the contract form being used contains alternate certificates of the type set forth in § 813.1301 (Art. 24), the contracting officer will, if practicable, procure or make one of such alternate certificates.

(d) If the contract form being used does not contain alternate certificates of the type set forth in § 813.1301 (Art. 24), no such certificate need be executed, nor will the evidence specified in paragraph (c) be required.

of such a supplemental agreement or of more than $5,000 by reason of such a contract, the supplemental agreement or contract shall be subject to the prior written approval of the chief of the technical service in person or of any one or more employees or officers designated by him within the headquarters office of the technical service, or, in case of the Army Air Forces, within the headquarters office of the Army Air Forces or of one of its major component commands.

(d) The chief of the technical service will make a written report promptly to the Director, Purchases Division, Headquarters, Army Service Forces, of each action taken pursuant to the authority granted by this section which involves in excess of $500. Such report will contain the following:

(1) A copy of the supplemental agreement or contract constituting the action;

(2) A brief statement of facts and evidence upon which such action is based; and

(3) A statement of the reasons why such instructions were not formalized at the time they were given.

(e) The chief of the technical service concerned will require full records to be preserved containing the facts relevant to any action taken pursuant to this section.

(f) The chief of each technical service will take adequate steps to make certain that the grant of authority contained in this section does not lead to any relaxation of the efforts of the procurement offices within such technical service to formalize promptly all instructions and agreements with contractors as required by applicable regulations.

§ 803.308h–5 *Action by Director, Purchases Division.* (a) In any case not clearly covered by § 803.308h–4, the chief of each technical service will not grant any claim or request for relief or action under section 17 of the Contract Settlement Act of 1944 without obtaining the prior written approval of the Director, Purchases Division, Headquarters, Army Service Forces. Each recommendation for such relief or action will be accompanied by an adequate statement of the circumstances which, in the opinion of the chief of the technical service, justify such relief or action and in addition the following:

(1) A statement of the scope and nature of the investigation of the circumstances made by the technical service and signed statements by representatives of the Government and of the claimant having knowledge of the relevant circumstances, sworn to where practicable;

(2) The original or photostatic copies of any written instructions and a full statement of any oral instructions, relied upon by the claimant;

(3) Identification of any officer or agent upon whose authority to bind the War Department the claimant relied, to-

furnished and of the arrangements made for furnishing them, showing whether or not at the time of furnishing or arranging to furnish such materials, services or facilities the claimant intended to be directly compensated for the same by the War Department;

(5) A finding by the chief of the technical service that the amount claimed constitutes fair compensation for the materials, services, or facilities furnished or arranged to be furnished; such finding shall be supported by (i) substantiating evidence, (ii) statement of profit allowance, if any (see § 803.308h–7 and (iii) and explanation of the scope of the investigation of the costs incurred;

(6) A statement of the reasons why the proposed action was not, at the time of the circumstances upon which the relief requested is based, promptly embodied in an appropriate supplemental agreement, change order or contract;

(7) A brief description of the contract or contracts, if any, to which such proposed relief or action is related;

(8) A statement as to whether any other claim for any part or all of the relief requested has been, or is being, submitted to any other Government agency or war contractor, and if so, of the action taken thereon;

(9) The name, address and telephone number of the person in the War Department with detailed knowledge of the facts of the case.

(b) Upon receipt of written approval by the Director, Purchases Division, of any such claim, the chief of the technical service will embody the action authorized in an appropriate contract or supplemental agreement and will send a copy of the executed instrument to the Director, Purchases Division.

§ 803.308h–6 *Form of contract or supplemental agreement.* Unless otherwise authorized by the Director, Purchases Division, Headquarters, Army Service Forces, each contract or supplemental agreement executed or proposed for execution under the authority of section 17 of the Contract Settlement Act of 1944 will contain the provisions mentioned below (in addition to provisions which may be specially pertinent to the particular case). In the case of supplemental agreements it will not, of course, be necessary to repeat any standard clause referred to below if the original contract already contains that clause.

(a) Recitals of the principal facts and circumstances which justify a finding that the action taken is within the scope of section 17 of the Contract Settlement Act of 1944, including a statement in cases of action within the scope of subsection (a) of such section 17, that the materials, services or facilities in question were related to the prosecution of the war.

(b) Recital that the execution of the contract or supplemental agreement has been authorized by or in behalf of the Secretary of War pursuant to the au-

[illegible] officers' office" is interpreted [illegible] office from which the last [illegible] issued.

SUBPART [illegible]—FORMALITIES IN CONNECTION WITH [illegible]TION OF CONTRACTS AND MODIFICATIONS THEREOF

§ [illegible] *Numbering contracts.*

§ 803.309 *When required.* (a) Every [illegible] contract (see § 803.303–2 involving the receipt or expenditure of public moneys will be numbered.

(b) Every informal contract (see § 803.304) involving the receipt or expenditure of public moneys will be numbered if:

(1) The original or estimated amount [illegible] $500 or more, or

(2) It is contemplated that more than one payment [illegible] or receipt) will be involved, regardless of the amount involved.

(c) The provisions of paragraph (a) are not applicable to delivery orders [illegible] interbranch or interdepartmental purchases (see § 806.605a and Subpart C of Part 806 of this subchapter). Such delivery orders need only be given such designation as may be prescribed by the chiefs of the technical services. If however, it is contemplated that any such order will involve more than one payment, it must be numbered in accordance with §§ 803.309–2 or 803.318b–5 unless the procedure prescribed in § 803.318–1 (c) is followed.

§ 803.309–2 *System.* Contract numbers will be placed in the upper right-hand corner and will consist of the following in the order named:

(a) The capital letter "W", representing the War Department.

(b) Station number representing the station or office as published in the War Department Fiscal Code.

(c) The letter or letters representing the technical service. No approved letter symbol may be changed, nor may any new letter symbol be adopted, unless approval therefor is first obtained from the Office of the Fiscal Director, Headquarters, Army Service Forces, which, before granting any such approval is required to obtain formal approval of the Comptroller General of the United States.

(d) A serial number, separated from the above by a hyphen, commencing with the number 1 and continuing in succession indefinitely without regard to the fiscal year. When the serial number reaches the limit of five digits (99,999), a new series will be used beginning with the serial number 1 and followed by the capital letter "A". Should additional series become necessary, they will be distinguished by the capital letters "B", "C", "D", etc., as may be required.

NOTE: The foregoing applies only to the numbering of technical service contracts and not to the numbering of service command contracts. As to the latter, see § 803.318b–5.

letter symbol representing the technical service shall be the letters representing the Army Air Forces, regardless of the source of the funds being used to finance the contracts. Burial contracts, however, shall continue to be numbered as service command contracts.

§ 803.309–3 *Examples.* Based upon § 803.309–2 above, the following is the number of the fifth numbered contract executed by the Philadelphia Quartermaster Depot:

W 36 030 qm 1

§ 803.309–4 *Effect of War Department Fiscal Code.* (a) Under date of January 1, 1944, the War Department Fiscal Code was issued as TM 14–700.

(b) Chapter 8 of the aforementioned code sets forth list of procurement station numbers presently prescribed. These station numbers are to be used in numbering contracts (as required by §§ 803.309–2 (b) and 803.318b–5 (a) (2)).

(c) It is to be noted that Chapter 7 of the aforementioned code contains code numbers designating the various technical services as well as the various service commands. These code numbers are not to be substituted, in the numbering of contracts, for the letters used to designate the technical services and the service commands (as required by §§ 803.309–2 (c) and 803.318b–5 (a) (3)), since symbol letters used in the numbering of contracts to designate the technical services must be approved, prior to their use, by the Comptroller General of the United States.

§ 803.309a *Identification of subcontracts.* Section 803.309 prescribes a numbering system for prime contracts with the War Department; it does not prescribe a numbering system for subcontracts (including purchase orders) under such prime contracts. It is desirable, however, that subcontracts be properly identified and tied-in with the prime contracts to which they respectively relate. Accordingly, contracting officers will urge contractors holding prime contracts with the War Department to include in their subcontracts, so far as practicable, a reference to the number of the prime contract involved. Prime contractors will also be asked to urge their subcontractors to include a reference to the number of the applicable prime contract in sub-subcontracts; and so on down the line. This practice will materially assist in accounting and auditing and particularly in the settlement of terminated subcontracts of all tiers.

§ 803.310 *Fiscal procedures.*

§ 803.310–1 *Allotments of funds not to be exceeded.* The authority to make contracts is subject to the proviso that allotments made for supplies will not be exceeded. Officers who are charged with making contracts will submit, prior to the incurrence of obligations, all proposed contracts to the fiscal officer for

the amounts authorized and that [illegible] obligations include no other purposes than indicated in the allotment.

§ 803.310–2 *Statements as to availability of funds.* See AR 35–840 for the statements which will be made on contracts and on purchase orders placed under existing contracts as to the funds chargeable and the sufficiency thereof.

§ 803.311 *Execution of contracts.*

§ 803.311–1 *Contracts with individuals.* A contract with an individual will be signed by the individual in his own name.

§ 803.311–2 *Contracts with individuals trading as a firm.* Such a contract will be signed by the individual in question. The following illustrates the form that such a contract will ordinarily take:

. . . . . .

John Doe Company
(Contractor)

By ——————————
John Doe (Owner)
——————————
(Business Address)

§ 803.311–3 *Contracts with partnerships.* (a) The contract may be signed in the name of the partnership by one or more of the partners. Each partner who signs will sign as one of the firm.

(b) A contract with a partnership doing business through a local representative or agent may be executed in the name of the firm by such local representative or agent.

(c) If the contract is executed in the manner specified in paragraph (b) and the contract involves a substantial contract price, there should, if practicable, be filed with the contract a properly certified copy of the power of attorney showing the authority of the representative or agent executing the contract.

§ 803.311–4 *Contracts with corporations.* (a) A contract with a corporation will have the name of the corporation written in the blank space provided therefor at the end of the contract form followed by the word "by", after which the officer or person who has been authorized to contract on behalf of the corporation will sign his name, with the designation of his official capacity.

(b) The contracting officer will in all cases endeavor to satisfy himself that the signer has authority to bind the corporation.

(c) If the contract form being used contains alternate certificates of the type set forth in § 813.1301 (Art. 24), the contracting officer will, if practicable, procure or make one of such alternate certificates.

(d) If the contract form being used does not contain alternate certificates of the type set forth in § 813.1301 (Art. 24), no such certificate need be executed, nor will the evidence specified in paragraph (c) be required.

(e) In lieu of complying with paragraph (c) above, the contracting officer may obtain satisfactory evidence of the authority of the signer to bind the corporation and file such evidence with the contract. Such evidence will consist of extracts from the records of the corporation showing either

(1) The election or appointment of the officer executing the contract on behalf of the corporation and the grant of authority to such officer to execute the contract; or

(2) If the contract is signed by someone other than an officer of the corporation, the grant of authority to such person to execute the contract.

The above-mentioned copies will be certified by the custodian of such records, under the corporate seal (if there be one), to be true copies of the records of the corporation.

§ 803.311–5 *Contracts with joint-venturers.* Contracts are sometimes entered into with joint-venturers, consisting of a corporation and a partnership, or a partnership and an individual, etc. In such cases the contract will be signed by each participant in the joint-venture in the manner indicated for each type of participant in §§ 803.311–1, 803.311–2, 803.311–3 or 803.311–4.

§ 803.311–6 *Contracting officer's signature.* The contracting officer will sign on behalf of the United States in the space provided for his signature, and his official title will be added.

§ 803.311–7 *Approval articles.* If approval and manual execution of a contract, supplemental agreement or change order by any War Department officer or official other than the contracting officer are required pursuant to these procurement regulations or the regulations of the technical service concerned, (a) an appropriate approval article will be included in the instrument, (b) all changes and deletions shall have been made before the instrument is forwarded for such approval, and (c) the instrument shall not be valid until such approval and manual execution have been obtained.

§ 803.312 *Statement and Certificate of Award (Standard Form No. 1036).*

§ 803.312–1 When contracts are negotiated in accordance with the authority referred to in § 802.204, Standard Form No. 1036 need not be executed. (General Regulations of Comptroller General No. 51, Supp. No. 8, June 1, 1942. However, when Standard Form No. 1036 is not executed either:

(a) The notation "Negotiated Contract", signed by the officer negotiating the contract, should appear under or in close proximity to the contract symbol and number on the cover sheet of the contract or,

(b) The contract should show in the wording thereof that it was negotiated under the authority referred to in § 803.204 (Decision of Comptroller General dated July 11, 1942 (A–51607), rendered in response to letter of Acting Judge Advocate General of Navy dated June 27, 1942).

§ 803.312–2 If in exceptional cases contracts are awarded pursuant to formal advertising, Standard Form No. 1036, properly executed in accordance with instructions contained on the form, will be attached to the copy of the agreement which is furnished the General Accounting Office.

§ 803.313 *Form of supplemental agreements and change orders.*

§ 803.313–1 *Supplemental agreements.* (a) Supplemental agreements will be reduced to writing and signed by the contracting parties. Supplemental agreements will bear the same identification as the contract which is thereby modified or amended, and will be lettered or numbered, whichever method is authorized by the chief of the technical service concerned, in the order in which the modifications or amendments to the contract are issued. One continuous series of lettering or numbering as the case may be, will be used for each contract, even though it is modified or amended, both by supplemental agreements and by change orders: *Provided, however,* That a separate series of subnumbers, following the regular contract symbol, may be used to designate termination supplemental agreements, this to be preceded by the words "Termination Supplemental Agreement No. ------". For example, the first termination supplemental agreement of Contract No. W 36–030–qm–417 may be designated "Termination Supplemental Agreement No. W 36–030–qm–417 (1)".

(b) Whenever it is desired to effect a modification of more than one contract, it is permissible, in lieu of executing separate supplemental agreements for each contract, to execute a single supplemental agreement. This may be particularly desirable in effecting reductions in the total contract price of more than one contract or in the unit prices payable for items deliverable under more than one contract, (whether in conjunction with renegotiation under the provisions of the Renegotiation Act, as amended, or otherwise). Such supplemental agreements should be numbered in accordance with paragraph (a) above as a supplemental agreement to each contract modified thereby. This may be done either on the face thereof or on an exhibit thereto. The following illustrates the type of designation that should be given such a supplemental agreement:

Supplemental Agreement No.	to *Contract No.*
3	W 36–030–qm–417
4	W 36–030–qm–418
8	W 36–030–qm–419

The above designations indicate that the single supplemental agreement constitutes the third modification of contract number W 36–030–qm–417, the fourth modification of contract number W 36–030–qm–418 and the eighth modification of contract number W 36–030–qm–419.

(c) In lieu of the procedure outlined in paragraph (b), a company pricing agreement (see ASF Manual M–609) which affects a substantial number of contracts with the Government may be given a number of its own distinct from the numbers of the contracts affected thereby. If this is done, a statement will be made on the face of the company pricing agreement, or in a schedule to the agreement and referred to on the face, to the effect that the agreement modifies the prices under specified contracts, identified by number; the company pricing agreement will not be given a separate supplemental agreement number with respect to each contract affected thereby. Any supplemental agreement to a company pricing agreement, numbered in accordance with the provisions of this paragraph, will similarly indicate the contracts affected thereby.

§ 803.313–2 *Change orders.* (a) Change orders will be in the form of letters addressed to the contractor, and will specify the number of the contract concerned, the changes to be made, the increase or decrease in price and time for performance, and such other terms as may be necessary. Change orders will bear the same identification as the contract which is thereby modified or amended and will be lettered or numbered whichever method is authorized by the chief of the technical service concerned, in the order in which the modifications or amendments to the contract are issued. One continuous series of lettering or numbering as the case may be will be used for each contract, even though it is modified or amended both by supplemental agreements and by change orders.

(b) In order to avoid the work involved in duplicating change orders, the following procedure may, in the discretion of the chief of the technical service, be adopted with respect to any or all contracts:

(1) Change orders will be classified as primary change orders and secondary change orders.

(2) Primary change orders are those which specify an increase or decrease in price or make any other material change in the terms of the contract.

(3) All other change orders (including those in which an increase or decrease in price will be necessitated, but the amount of which is not known at the time of the change order) are secondary change orders.

(4) Primary change orders will be numbered in accordance with paragraph (a) above.

(5) Secondary change orders will be given only such identification as the chief of the technical service shall prescribe.

(6) Secondary change orders will not be included in the continuous series of lettering or numbering referred to in the last sentence of paragraph (a).

(7) If a secondary change order is executed and it subsequently becomes apparent that the change made thereby will result in an increase or decrease in price, a supplemental agreement will be executed to evidence such increase or decrease.

§ 803.314 *Consent of sureties to modifications.*

§ 803.314–1 *Supplemental agreements.* Subject to the provisions of § 803.314–3, if payment or performance bonds have been executed in connection with a contract or if an advance payment bond has been given in connection with an advance payment made under a contract, the consent of the surety should be obtained to any supplemental agreement modifying or amending the contract.

§ 803.314–2 *Change orders.* Likewise, subject to the provisions of § 803.314–3, the consent of such a surety should be obtained to any change order which has the effect of increasing the contract price by more than $25,000. Such consent is not necessary when the change order effects an increase in the contract price of $25,000 or less.

§ 803.314–3 *Exception to requirement of consent of surety.* The provisions of §§ 803.314–1 and 803.314–2 are subject to the qualification that the consent of a surety under a bond executed prior to the execution of a supplemental agreement, or change order is not necessary if (a) an additional bond is furnished in support of the supplemental agreement or change order and (b) such surety is also surety on the additional bond.

§ 803.314–4 *Examination of consents of sureties.* The original of each consent of surety required by §§ 803.314–1 and 803.314–2 together with the original signed number of the supplemental agreement or change order to which it relates will be forwarded through The Judge Advocate General to the General Accounting Office. The Judge Advocate General will examine the consent of surety as to form, execution and legal sufficiency and will then forward it together with the supplemental agreement or change order to the General Accounting Office for filing.

§ 803.314–5 *Form of consent of surety.* For form of consent of surety see § 804.456–8.

SUBPART D—DISTRIBUTION OF CONTRACTS AND ORDERS THEREUNDER

§ 803.315 *General.* The following general instructions are applicable to the distribution of both numbered and unnumbered contracts:

§ 803.315–1 Contracts will not be distributed until properly signed by all parties, and approved, if approval is required.

§ 803.315–2 All instructions relating to distribution of contracts are subject to the provisions of AR 380–5 and all other current instructions governing the safeguarding and disclosing of information affecting the war effort of the United States. Copies of secret or confidential contracts submitted to the General Accounting Office will be transmitted under two covers. In the case of lump sum (fixed price) contracts, each cover is to be addressed to Assistant Chief, Audit Subdivision, General Accounting Office, at the address of the appropriate Army Audit Branch (see § 803.317b). In the case of cost-plus-a-fixed-fee contracts, each cover is to be addressed to Assistant Chief, War Contract Service Section, Audit Division, General Accounting Office, Washington 25, D. C. The inner cover only will be marked "Personal and Confidential".

§ 803.316 *Numbered contracts.*

§ 803.316–1 Subject to such special instructions as may be issued by the chief of the technical service concerned, numbered contracts will be distributed as follows:

(a) The original signed number of each lump sum (fixed price) contract will be forwarded to the Army Audit Branch of the General Accounting Offices (see § 803.317b). The original signed number of each cost-plus-a-fixed-fee contract will be forwarded to the War Contract Service Section, Audit Division, General Accounting Office, Washington 25, D. C. If a surety bond or bonds were required in support of a contract, whether lump sum or cost-plus-a-fixed-fee, see § 804.409–2 (a).

(b) The duplicate signed number will be filed with the contracting officer or as directed by the chief of the technical service concerned.

(c) The triplicate signed number will be forwarded to the contractor.

(d) An authenticated copy will be forwarded to the disbursing officer for his files.

(e) Additional authenticated copies or unauthenticated copies will be distributed as directed by the chief of the technical service concerned.

§ 803.317 *Unnumbered contracts.*

§ 803.317–1 The original signed number will be furnished the disbursing officer and will be attached to the voucher on which payment is made and will accompany such voucher to the Army Audit Branch of the General Accounting Office (see § 803.317b). If a surety bond or bonds were required in support of a contract, whether lump sum or cost-plus-a-fixed-fee, see § 804.409–2 (a).

§ 803.317–2 The duplicate signed number will be forwarded to the contractor.

§ 803.317–3 An authenticated copy will be furnished the disbursing officer for his files.

§ 803.317–4 Additional copies will be prepared and distributed as directed by the chief of the technical service concerned.

§ 803.317–5 *Payments for partial deliveries under unnumbered contracts.* A contract may be entered into under which it was anticipated that delivery would be completed in a single shipment but due to subsequent unforeseen conditions and circumstances the contractor is precluded from completing such delivery and instead makes partial shipments in order to fulfill his obligation as expeditiously as practical. Under such circumstances payments, not to exceed five (5) in number on any given contract, may be made with respect to partial deliveries under unnumbered contracts, provided that the original signed contract is attached to the first payment voucher and cross references thereto noted on successive partial and final payment vouchers. Such cross references will include the following information as to the first payment voucher: the date and the disbursing officer's name and voucher number.

§ 803.317a *Supplemental agreements and change orders.* (a) Signed numbers and copies of supplemental agreements and change orders will be distributed in the same manner as is prescribed for the contracts to which they pertain and the contracting officer will note on his retained copy of the supplemental agreement or change order the date on which the contractor's number was delivered or mailed to him. When, pursuant to § 803.313–1 (b), a single supplemental agreement is executed to modify more than one contract, the following procedure will be followed:

(1) The original signed number will be forwarded to the Army Audit Branch of the General Accounting Office (see § 803.317b). If a surety bond or bonds were required in support of such modification of the contract, see § 804.409–2 (a).

(2) The duplicate signed number will be filed with the contracting officer who supervised the execution thereof or with the chief of the technical service concerned and correct copies of the supplemental agreement will be furnished to the contracting officers under all of the contracts affected by the supplemental agreement.

(3) The triplicate signed number will be forwarded to the contractor.

(4) An authenticated copy will be forwarded to the disbursing officer under each contract affected by the supplemental agreement.

(b) If the alternative procedure of numbering change orders provided for in § 803.313–2 (b) is adopted, only primary change orders will be distributed in accordance with paragraph (a) above. Secondary change orders will be given only such distribution as the chief of the technical service concerned may prescribe.

§ 803.317b *Army Audit Branches of the General Accounting Office.* In order to decentralize its work, the General Accounting Office has established an Army Audit Branch at each Army Regional Accounting Office. Accordingly, contracts, supplemental agreements and change orders, which formerly were required to be forwarded to the General Accounting Office in Washington, D. C., will in the future be forwarded to the appropriate Army Audit Branch.

§ 803.317b–1 (a) The Army Audit Branches are maintained at the various Army Regional Accounting Offices. The Army Audit Branch to which a particular contract, supplemental agreement or change order should be sent is the one located at the Army Regional Accounting Office to which the disbursing officer under the contract is required to submit his accounts (see § 803.317b–2). If a particular contract permits payment by more than one disbursing officer, and the accounts of such disbursing officers are submitted to different Army Regional Accounting Offices, copies of the contract (and of supplements and change orders) should be provided for the Army Audit Branches at each of such Army Regional Accounting Offices. In such cases, the original signed number and sufficient copies for each of the other

Army Audit Branches concerned will be submitted to the Army Audit Branch for the area in which the contracting officer is located. The latter Branch will retain the original and distribute the copies to the other Army Audit Branches.

(b) It is to be emphasized that the contracts are not to be forwarded to the Army Regional Accounting Office but to the Army Audit Branch. Using the Los Angeles area as an example, the following illustrates the proper method of addressing the contracts:

Army Audit Branch of General Accounting Office, 1206 Santee Street, Los Angeles, Calif.

§ 803.317b–2 (a) The following is a list (set forth in Section I, Circular No. 481, W.D., 1944) of the Army Regional Accounting Offices in the United States to which disbursing officers are required to submit their accounts.

Region I. Army Regional Accounting Office, 63 Vesey Street, New York 7, New York.

(a) Disbursing officers stationed in Washington, D. C., except the Disbursing Officer, Finance Office, U. S. Army, Washington 25, D. C., Transportation Division.

(b) Disbursing officers stationed in the Military District of Washington, D. C.

(c) Disbursing officers stationed within the geographical limits of the First, Second, and Third Service Commands, except those assigned to tactical organizations and mobile units.

(d) Disbursing officers stationed in the offices of the military attaches, except as otherwise directed.

(e) Disbursing officers stationed at any Atlantic base command, including Iceland but excluding the Caribbean Defense Command.

(f) Disbursing officers of task forces in the Atlantic area.

Region II. Army Regional Accounting Office, 449 West Peachtree Street, Atlanta 3, Georgia.

(a) Disbursing officers stationed within the geographical limits of the Fourth Service Command, except those assigned to tactical organizations and mobile units.

(b) Disbursing officers serving with the United States Army Forces in Central and South America.

(c) Disbursing officers located in the Caribbean Defense Command.

Region III. Army Regional Accounting Office, 366 West Adams Street, Chicago 6, Illinois.

(a) Disbursing officers who are assigned to tactical organizations and mobile units which operate within the continental limits of the United States.

(b) Disbursing officers who are stationed within the geographical limits of the Fifth, Sixth, and Seventh Service Commands.

(c) Disbursing officers of the Alaskan Department, the Northwest Service Command, and other United States Army Forces in Canada.

(d) Special disbursing agents assigned to United States Army transports whose home port is in the continental United States or in foreign theaters of operation where no theater fiscal office has been established.

(e) The Disbursing Officer, Finance Office, U. S. Army, Washington 25, D. C., Transportation Division.

Region IV. Army Regional Accounting Office, 1206 Santee Street, Los Angeles 54, California.

(a) Disbursing officers stationed within the geographical limits of the Eighth and Ninth Service Commands, except those assigned to tactical organizations and mobile units.

(b) A list of foreign theater fiscal offices which have been established in theaters of operation is also set forth in Section I, Circular No. 481, W.D., 1944.

§ 803.318 *Special cases.*

§ 803.318–1 *Purchases under contracts of Procurement Division, Treasury Department; Navy Department; Post Office Department; etc.* (a) Delivery orders covering such purchases will be distributed in accordance with § 803.317 above. If the delivery order is numbered in accordance with § 803.309 and following, it will, of course, be distributed in accordance with § 803.316–1.

(b) The chief of the technical service concerned will secure compliance with all special instructions of the respective agencies which make the contracts. For example, the regulations of the Procurement Division, Treasury Department require that a copy of all delivery orders placed under General Schedule of Supplies Contracts be forwarded to that Division.

(c) Vouchers submitted to the Army Audit Branch of the General Accounting Office (see § 803.317b) may relate to less than all of the items covered by the delivery order. If the original signed number of the delivery order has not already been so submitted, it will be submitted to said Army Audit Branch with the first voucher; and when vouchers are submitted to said Army Audit Branch covering subsequent payments, a reference will be made to the first voucher. The reference should contain the date on which the invoice covered by the first voucher was paid and the name of the disbursing officer by whom such payment was made.

SUBPART E—CONTRACT PROCEDURE WITHIN THE SERVICE COMMANDS

§ 803.318a *Organization of service commands.*

§ 803.318a–1 *Functions of the service commands.* The Commanding Generals of the service commands are the direct subordinates of the Commanding General, Army Service Forces, and are his field representatives for the performance of the administrative, housing, hospitalization, and supply functions assigned to them. (See sec. 403.01 of the Army Service Forces Manual M 301.)

§ 803.318a–2 *Relationship between the service commands and the technical services.* The former offices of the special staff (including the quartermaster, engineer, ordnance officer, and signal officer) are under the complete jurisdiction of the Commanding General of each service command, and are an integral part of his headquarters; such offices are not to be considered field offices or agencies of the technical services. The technical services act as staff agencies of the Commanding General, Army Service Forces, for the functions assigned to them in directing and supervising those functions in the service commands. Accordingly, they may issue instructions to the Commanding Generals of the service commands in their own names or under the authority of the Commanding General, Army Service Forces, but they may not exercise direct command of the subordinates in the headquarters of a Commanding General of a service command (including the quartermaster, engineer, ordnance officer, and signal officer). (See sec. 403.02 of the Army Service Forces Manual M 301.)

§ 803.318b *Contract procedure.*

§ 803.318b–1 *Appointment of contracting officers.* Commanding Generals of service commands are authorized to appoint contracting officers. Contracting officers so appointed may execute service command contracts as that term is defined in § 803.318b–2 below, as well as technical service contracts executed on behalf of a technical service as set forth in § 803.318b–3 (a) (6) to (8) below.

§ 803.318b–2 *Reasons for separate system of numbering and distribution of service command contracts.* As indicated in § 803.318a–2, as a result of the service command reorganization, much of the contracting done at Class I, II, IV and special installations located within service commands is done under the complete jurisdiction of the commanding generals of the service commands. Except as provided in § 803.318c–2 and except as staff officers of the Commanding General, Army Service Forces, the chiefs of technical services have no function to perform in connection with this contracting. Some of the contracting done at Class I, II, IV and special installations is still, however, under the jurisdiction of the chiefs of the technical services. In order clearly to differentiate contracts which are executed at such installations under the jurisdiction of the commanding generals of the service commands from those executed under the jurisdiction of the chiefs of the technical services, it is important that contracts of the former type be numbered and distributed in a manner different from technical service contracts. In the succeeding sections a separate system of numbering and distribution is provided for contracts executed under the jurisdiction of the commanding generals of the service commands. These contracts will be referred to as service command contracts.

§ 803.318b–3 *Guides to determine when a contract is a service command contract.* (a) It is difficult to lay down any general rule as a guide to determining when a contract is to be numbered and distributed as a service command contract. The following general guides may be used for making the determination with respect to contracts (other than contracts executed by Army Air Forces contracting officers, as to which, see § 803.309–2a:

(1) All contracts which are executed within a service command and which are to be paid for with funds made available to the commanding generals of the service commands by the Commanding General, Army Service Forces, are to be regarded as service command contracts and not contracts of any technical service.

(2) Contracts which are executed under the supervision of the commanding generals of the service commands and which are to be financed under an open allotment (see Chapter 5, section I, of the War Department Fiscal Code, TM 14–700), are to be regarded as service command contracts.

(3) Training contracts are to be regarded as service command contracts.

(4) Contracts for the disposition of property, by sale or otherwise, are to be designated as service command contracts unless, as in the case of contracts for the disposition of real estate, the contract is of a type over which the chief of one of the technical services exercises direct supervision. In connection with contracts for the disposition of property, see § 821.113.

(5) In addition to contracts coming within the categories enumerated in subparagraphs (1) to (4) above, all other contracts which, pursuant to the provisions of the Army Service Forces Manual or the provisions of any other regulations, are executed under the complete jurisdiction of the commanding generals of the service commands are to be regarded as service command contracts.

(6) Any type of contract which is to be financed with technical service funds is to be regarded as a technical service contract. Subparagraphs (7) and (8) below are two specific illustrations of the general rule contained in this subparagraph.

(7) When a contracting officer within a service command is requested to execute a contract on behalf of a technical service, and it is understood that such contract is to be paid for out of technical service funds, such contract is to be regarded as a technical service contract.

(8) When a given item is not available at a technical service depot, a representative of a service command may be given sufficient funds by a technical service to enable the service command to purchase the item in question. A contract executed in making such a purchase is to be regarded as a technical service contract.

(9) Prisoner of war labor contracts are not to be regarded as service command contracts. They are to be numbered as contracts of the Office of the Provost Marshal General. Thus the first contract executed at the Prisoner of War Camp, Pine Camp, N. Y., would be numbered:

W–30–178 pmg–1

(10) Contracts for furnishing local transportation to Government and other personnel, executed in accordance with Circular No. 397, War Department, 1944 and Memorandum No. W55–15–43, issued by the Office of the Adjutant General, will be numbered as Transportation Corps contracts.

(b) In case of doubt as to whether a particular contract should be numbered and distributed as a service command contract an inquiry should be addressed to the Commanding General, Army Service Forces, Attention: Legal Branch, Director of Matériel. If time does not permit making such inquiry, the contract should be numbered as in the past, and an inquiry should be addressed to the Commanding General, Army Service Forces, Attention: Legal Branch, Director of Matériel, for advice as to how that type of contract should be numbered in the future.

(c) As indicated in § 803.318b–1 the authority of a contracting officer of a service command includes authority to execute technical service contracts of the type referred to in paragraph (a) (6) to (8) of this section.

§ 803.318b–4 *Distribution of service command contracts.* The provisions of Subpart D of this part are applicable to service command contracts. In connection with service command contracts the term "chief of the technical service" is to be read as "commanding general of the service command." Except as required by § 803.318c–2, service command contracts (as that term is defined in § 803.318b–3) should not be forwarded to the headquarters of the various technical services for legal review. If the chief of a technical service requests that copies of a particular type of service command contract be forwarded to his office in order to complete his technical records, such copies may be forwarded pursuant to § 803.316–1 (e).

§ 803.318b–5 *Numbering of service command contracts.* (a) Contract numbers will be placed in the upper right-hand corner of service command contracts and will consist of the following in the order named:

(1) The capital letter "W", representing the War Department, followed by a hyphen.

(2) The station number, that is, the station or office as published in the War Department Fiscal Code. There may be added to the station number a capital letter or other designation to indicate the branch by which the contract was executed. The following symbols will be used to designate the respective branches set opposite each symbol:

Q—Quartermaster.
S—Signal.
T—Transportation.
O—Ordnance.
E—Engineer.
M—Medical.
C—Chemical.
U—Repairs & Utilities Branch.
Tng—Training Branch.
AST—Army Specialized Training Branch.

No symbol other than those enumerated in the preceding sentences will be used unless approval for such use is obtained from the Legal Branch, Office of Director of Matériel, Headquarters, Army Service Forces. Any request for such approval should specify the reason why additional symbols are required. The Legal Branch will advise the Contract Service Section, Audit Division, General Accounting Office, Washington, D. C., of any approvals granted for the use of such additional symbols. It is to be emphasized that the use of the additional symbols authorized by this subparagraph is for the convenience of the post, camp or station and, accordingly, is optional. The use of these branch symbols may be dispensed with or, if desired, a single branch symbol (and one series of contracts) may be used for more than one, but less than all, branches at a given post, camp or station.

(3) A symbol in parentheses to indicate the service command. In the case of the nine service commands, this symbol will consist of the capital letters S. C. in parentheses followed by a hyphen and a roman numeral indicating in which service command the contract was executed. It is important that capital letters followed by periods and by the roman numeral be used in order that no confusion will arise with Signal Corps contracts which bear the symbol "sc". In the case of the Northwest Service Command and the Military District of Washington, this symbol will respectively consist of the capital letters S.C.N.W. and M.D.W., the symbol to be in parentheses.

(4) A serial number separated from the above by a hyphen, commencing with the number "1" and continuing in succession indefinitely without regard to the fiscal year.

(b) It is to be emphasized that the numbering procedure set forth in this section is applicable only to service command contracts (as the term is defined in § 803.318b–3). When technical service contracts are executed within a service command (see § 803.318b–3, particularly paragraph (a) (6) to (8), such contracts should be numbered as technical service contracts in accordance with the provisions of § 803.309–2.

(c) Serial numbers: It is desirable that separate series be commenced for service command contracts (as defined in § 803.318b–3). This should be done as promptly as possible. By adding the branch symbols authorized by paragraph (a) (2) above, separate series may be maintained for each branch of a post, camp or station.

(d) Effect of War Department Fiscal Code. See § 803.309–4.

(e) *Contract of sale.* Reference is made to § 821.113. As indicated therein when a contract of sale, as distinguished from a contract of purchase, is executed, the letter "s" will be added after the parenthesis of the symbol specified in paragraph (a) (3) of this section. The letter "s" will be so added not only in the case of contracts for the sale of property but also in the case of contracts for the sale of services.

§ 803.318b–6 *Example.* Based upon § 803.318b–5, the following is the number of the first numbered contract executed at the Quartermaster Branch at Fort Bragg, North Carolina: W–31–001Q (S.C. IV)–1. The foregoing is on the assumption that the contract is to be paid with funds allotted to the Fourth Service Command by the Commanding General, Army Service Forces.

§ 803.318b–7 *Identification of subcontracts under service command contracts.* See § 803.309a.

§ 803.318c *Service command utility contracts.*

§ 803.318c–1 Utility contracts, for the purpose hereof, whether including connection charges or not, are defined as those for the procurement of electricity, gas, water, sewage disposal, steam, railroad track maintenance and switching service, inspection and maintenance of fire alarm systems, boiler inspection and maintenance of elevators.

§ 803.318c–2 All utility contracts and changes or supplemental agreements thereto entered into by service commands which require approval of higher authority pursuant to §§ 803.306–1 through 803.306–4 will be referred by

the commanding general of the service command direct to the Office of the Chief of Engineers, Attention: Repairs and Utilities Branch, New War Department Building, Washington 25, D. C. Such contracts will be reviewed by the Office of the Chief of Engineers for engineering and rate features, matters of policy and legal sufficiency and approved or returned for revision. Prior to reference to the Chief of Engineers such contracts will be referred to the Repairs and Utilities Divisions of the service command for review of engineering and rate features. The action taken and comments made by Repairs and Utilities Divisions will be made a part of the file forwarded to the Chief of Engineers for review.

Any such utility contract or modification thereof requiring approval pursuant to §§ 803.306–1 through 803.306–4 will contain a provision that it is subject to the approval of the Chief of Engineers and will not be binding until so approved. Prior to such approval any required approval by the Purchases Division, Headquarters, Army Service Forces, will be obtained by the Chief of Engineers. Provisions of this paragraph shall not be construed to interfere with or supersede the provisions of §§ 803.394 to 803.394–5, inclusive, and in accordance with § 803.394–5 any utility contract which is of the character described in § 803.394–2 will also contain a provision that it is subject to approval by the War Department Power Procurement Officer or the Deputy War Department Power Procurement Officer and will not be binding until so approved.

§803.318c–3 See §§ 803.397–1 and 803.397–3 with respect to Army Air Forces and Engineer utility contracts, respectively.

§ 803.318c–4 *Service command utility contract procedure.* The procedure set forth in § 803.318c–2 does not affect the execution, numbering and distribution of service command utility contracts as provided for in §§ 803.318b through 803.318b–6.

SUBPART F—CONTRACT APPEALS

§ 803.318d *War Department Board.*

§ 803.318d–1 *General.* By memorandum of the Secretary of war, dated August 8, 1942, there was constituted in the Office of the Under Secretary of War a board to be known as "War Department Board of Contract Appeals". The board is hereinafter referred to as "the Board". The Board consists of three members, one of whom is designated as President of the Board. There is also a recorder. The President of the Board and the recorder are required to be persons trained in the law. The Under Secretary of War recommends appointees for membership on the Board and for the position of recorder, and nominates the President of the Board. Appointments are made by the Secretary of War. If the Under Secretary of War at any time determines that additional members of the Board are necessary in order to process appeals with reasonable despatch, he may from time to time recommend for appointment such additional members of the Board as he deems necessary, and may make recommendations for the filling of any vacancies on the Board and in the office of the recorder. Upon request of the Under Secretary of War, The Judge Advocate General is authorized to assign to the Board one or more judge advocates as trial attorneys or examiners; and if and when deemed necessary by the Under Secretary of War and upon his request, The Judge Advocate General may also assign a judge advocate as general counsel.

§ 803.318d–2 *Types of contracts, appeals from which may be taken.* In general, contracts contain two types of "disputes" clauses under which appeals may be taken. Some specifically authorize the Secretary of War to appoint as his authorized representative either individuals or "a board". (See §§ 803.326 and 803.326–1). Others do not specifically authorize the appointment of "a board". Contracts containing clauses specifically authorizing the designation of "a board" are referred to in the succeeding paragraphs as "contracts containing the standard clause". Contracts containing clauses not speciafically authorizing the designation of "a board" are hereinafter referred to as "contracts" containing the nonstandard clause".

§ 803.318d–3 *Appeals under contracts containing standard clause.* In the case of contracts containing the standard clause, appeals from decisions of contracting officers or other authorities (including the chiefs of the technical services) will be heard, considered and decided by the Board acting as the duly authorized representative of the Secretary of War, as fully and finally as the Secretary of War might do.

§ 203.318d–4 *Appeals under contracts containing the nonstandard clause.* In the case of contracts containing the nonstandard clause, appeals from decisions of contracting officers or other authorities (including the chiefs of the technical services) will be heard and considered by the Board which will report its views on such appeals to the President of the Board. The President, as the authorized representative of the Secretary of War, will then make the decision, as fully and finally as the Secretary of War might do, unless he shall not be in accord with the decision of the Board, in which case he will promptly submit the case for final determination upon the record to the Under Secretary of War. The latter will then make the decision as the duly authorized representative of the Secretary of War for that purpose.

§ 203.318d–5 *Functioning of Board.* The President of the Board from time to time may divide the Board into divisions of one or more members and assign members to such divisions. A majority of the members of the Board or of a division thereof shall constitute a quorum for the transaction of the business of the Board or of a division respectively, and the decision of a majority of the members of the Board or of a division shall be deemed to be the decision of the Board or of the division as the case may be. If a majority of the members of the division is unable to agree on a decision, or if within thirty days after a decision by a division the Board or the President thereof directs that the decision of the division be reviewed by the Board, the decision will be so reviewed; otherwise the decision of a majority of the members of the division shall become the decision of the Board. If a majority of the members of the Board is unable to agree upon a decision, the President of the Board will promptly submit the appeal to the Under Secretary of War for his decision upon the record. The Under Secretary of War is designated as the authorized representative of the Secretary of War for that purpose. A vacancy in the Board or in any division thereof shall not impair the powers nor affect the duties of the Board or division nor of the remaining members of the Board or division, respectively. The authority and procedure specified in this paragraph shall apply whether the Board be acting as the duly authorized representative of the Secretary of War under § 803.318d–3 or in an advisory capacity under § 803.318d–4.

§ 803.318d–6 *Taking testimony.* Any member of the Board or any examiner designated by the President of the Board for that purpose may hold hearings, examine witnesses, receive evidence, and report the evidence to the Board or, if the case is pending before a division, to the appropriate division.

§ 803.318d–7 *Powers of Board.* The Board has all powers necessary and incident to the proper performance of its duties and has the power with the approval of the Under Secretary of War to adopt its own methods of procedure and rules and regulations for its conduct and for the preparation and presentation of appeals. These rules and regulations are set forth in §§ 803.318e–1 to 803.318e–12.

Memorandum of the Secretary of War, dated July 4, 1944, provided that in the consideration and disposition of appeals to the Secretary of War, the Board and the President of the Board, as representatives of the Secretary of War for the disposition of appeals, shall:

(a) Exercise such delegable authority and discretion as the Secretary of War himself might exercise either through contractual power or otherwise in the consideration and disposition of appeals, to ratify or approve the acts of subordinates and to waive any contract requirement which the Secretary of War himself legally might waive, whenever in the discretion of the Board or the President of the Board, as the case may be, such action is deemed necessary or desirable to arrive at a just and equitable adjustment or disposition of the dispute involved in the appeal.

(b) Consider and administratively pass on appeals not specifically or impliedly authorized by the contract where the ruling appealed from is not thereby made final and conclusive, and the appeal is taken within the time fixed in the contract for appeals.

(c) Find and administratively determine the facts out of which a claim by a contractor arises for damages against the Government for breach of contract, without expressing opinion on the question of the Government's liability for damages.

§ 803.318d–8 *Place for holding hearings.* The office of the Board is in the office of the Under Secretary of War but hearings also may be held in such other places as the Board determines to be expedient or necessary for the proper performance of its duties.

§ 803.318d–9 *Procedure.* The Board fixes the times when and places where hearings will be held, and serves notice thereof. The parties or their representatives are entitled to be heard and introduce evidence; *Provided*, That if a transcript of the evidence taken at a hearing in the office of the chief of a technical service accompanies the record, the Board may limit the testimony before it to matters not disclosed by the transcript.

§ 803.318d–10 *Correspondence.* All correspondence pertaining to appeals to the Secretary of War is to be referred to and conducted by the Board.

§ 803.318e *Rules and regulations of Board.* The rules and regulations promulgated by the Board, and approved by the Under Secretary of War under date of September 25, 1942, are set forth in §§ 803.318e–1 to 803.318e–12. A form of notice of appeal is set forth in § 803.318e–13. As said rules and regulations or such form are amended by the Board from time to time, these paragraphs will be amended to conform.

§ 803.318e–1 *Rule I: General matters.*

1. *Correspondence.* All correspondence with the Board shall be addressed "War Department Board of Contract Appeals, Office of the Under Secretary of War, Washington, D. C."

a. *Channels of communication.* The president, any member of the Board, and the recorder thereof are authorized to correspond directly, without regard to the usual channels of communication, with any officer or other person within or without the Army, the War Department, the Ground Forces, the Army Service Forces, or the Army Air Forces, relative to any information desired by the Board, or in connection with any matters pertaining to the business of the Board. Any information obtained from such correspondence shall not be used as evidence at the hearing on any appeal without first having been submitted to the parties to the appeal.

b. *Letters.* Letters advising the appellant or other party to an appeal of the final decision of the Board on any appeal and any further correspondence regarding the appeal, including letters to the Comptroller General, may be signed by the president or recorder of the Board.

c. *Transmission of papers.* The president of the Board or the recorder thereof, by direction of the Board, is authorized to transmit directly to the chief of any technical service concerned, for appropriate action, any papers, documents, or other data pertaining to any appeal that may come to the Board, which the chief of such service is authorized under the terms of the contract finally to determine or to determine subject to appeal to the Secretary of War.

d. *Routing of correspondence.* All papers pertaining to appeals to the Secretary of War under War Department contracts, received in the War Department or any agency thereof, or any technical service, shall be transmitted directly to the War Department Board of Contract Appeals, except as provided in Rule II (§ 803.318e–2).

2. *Form, size and number of papers filed.* Appeals, notices, motions, applications, stipulations, briefs, depositions, and other papers, if typewritten, filed with the Board shall be typewritten on one side of the paper only, with margin 1½ inches on the left of the page, and, as far as practicable, shall be upon paper 8½ x 11 inches in size. The papers shall be fastened on the left side without covers or back. Six copies of each of such papers, whether typewritten or not, except stipulations and depositions, shall be filed.

3. *Number to be assigned to proceedings.* The recorder shall assign a number to each appeal coming before the Board, which number will be placed on all papers in the case.

4. *Amendments.* The Board may, in its discretion, allow any paper to be amended or corrected or any omission therein to be supplied.

5. *Service of papers.* Service of papers in all hearings, investigations, and proceedings pending before the Board may be made personally, or by mailing the same in a sealed envelope, registered, return receipt requested, with postage prepaid, addressed to the party upon whom service shall be made, and the date of the registry receipt shall be the date of service. Waiver of the service of any paper may be noted thereon or on a copy thereof, or on a separate paper, signed by the parties or their attorneys and filed with the Board. When any party has appeared by attorney, service upon the attorney will be deemed proper service upon such party.

6. *Substitution of parties.* In the event of the death of an appellant, or for other cause, including a change in the name of a corporation or other party or the succession of one party to the functions or interests of another, or in the event of a mistake in the name or title of a proper party, the Board may order substitution of the proper name or title.

7. *Motions for substitution.* All motions for substitution shall be accompanied by pertinent documentary evidence, unless the parties by stipulation filed with the Board agree to the substitution.

8. *Army Air Forces.* The term "technical services" as used in these rules, includes the Army Air Forces; and the term "chiefs of the technical services" includes the Commanding General, Army Air Forces.

§ 803.318e–2 *Rule II: Proceedings preliminary to hearings.*

1. *Appeals, how taken.* a. An appeal from the decision of a contracting officer and an appeal from the decision of the chief of a technical service must be in writing, filed with the officer from whose decision the appeal is taken, within the time allowed by the contract, unless for good cause shown, the board shall determine to consider the appeal on its merits, notwithstanding it was not filed within the time allowed by the contract.

b. *Form of appeals.* Each appeal shall state the particular provisions of the contract out of which the dispute arises; the exact nature of the dispute and the ruling of the contracting officer or other authority from which the appeal is taken, together with a statement of specific facts claimed by the appellant to sustain his position. If the appeal is insufficient in these respects it may be returned for appropriate amendment. The appeal should follow, substantially, the form annexed to these rules and must be signed and sworn to by the appellant. Six copies of the appeal should be filed.

2. *Time of filing to be endorsed.* When the appeal has been received by the contracting officer or the chief of a technical service, as the case may be, he will endorse thereon the date of filing and forward the appeal, as hereinafter provided.

3. *Findings of fact and decisions.* a. In rendering a decision on any dispute involving a question of fact, the contracting officer or the chief of a technical service, as the case may be, shall prepare and sign findings of fact, a true copy of which with his written decision, shall be promptly furnished the contractor; and in case of appeal, the officer from whose decision the appeal is taken shall forward a true copy of such findings and of the decision, as hereinafter provided.

b. *Forwarding by contracting officer.* When an appeal is taken from the decision of a contracting officer he shall promptly forward to the chief of service concerned, a true copy of his findings of fact and of his decision; the original written appeal and the required copies thereof; a transcript of any evidence taken by him; and all pertinent papers in the case.

c. *Forwarding by chiefs of Technical Services of appeals from decisions of Contracting Officer.* (1) If the appeal from the contracting officer's decision is to the Secretary of War, the chief of the technical service receiving the appeal will exercise the utmost care to see that the record is complete as required by these rules and regulations; will add to the file, if not already in it, an original duplicate or true copy of the contract, including the plans and specifications and all changes and supplemental agreements; and shall promptly forward the complete file to the War Department Board of Contract Appeals.

(2) If for any reason the complete file cannot be so forwarded within five days from the date the appeal is received, the chief of the technical service will report to the War Department Board of Contract Appeals the date on which the appeal was received in his office and the reason for the delay in forwarding the file.

(3) It will be unnecessary, hereafter, for the chiefs of the technical services to furnish the reports required by paragraph 7, of P & C General Directive No. 72, of November 7, 1941.

4. *Forwarding appeals from chiefs of services.* The chief of a technical service, within five days after the receipt of a written appeal from his decision, will forward the original written appeal and the required copies thereof to the War Department Board of Contract Appeals, together with the following papers: a copy of his findings of fact and decision; the advisory report, if there be one, of the contract settlement board in his office; a transcript of any testimony taken during the course of the proceedings; a duplicate original or a certified copy of the contract, including the plans and specifications and all changes and supplemental agreements; the findings of fact and decision of the contracting officer; and all papers and correspondence pertaining to the contract, pertinent to the consideration of the appeal.

5. *Appeals improperly filed.* If any officer or agency of the War Department should receive a written appeal which has not been filed as provided in paragraph 1, of this rule, the recipient shall, after endorsing thereon the date of its receipt, immediately transmit the appeal to the chief of the technical service concerned:

a. For appropriate action as provided in paragraph 4, of this rule, if the appeal is from the decision of such chief; or

b. If the appeal is from the decision of a contracting officer, then for transmission to the contracting officer for action as required by paragraphs 3 a. and 3 b. of this rule.

6. *Calls for papers, documents and information.* After an appeal has been filed, the Board, or any member thereof, or any person designated by the Board for that purpose, may call for the production of any papers, documents, or specific information in the possession of any of the parties, relevant to the dispute out of which the appeal arises.

§ 803.318e–3 *Rule III: Hearings.*

1. *Where held.* Hearings shall be held at the office of the Board unless otherwise directed by the Board.

2. *Notice of hearings.* a. The appellant and the representative of the Government

shall be given at least 10 days notice of the time and place of hearing.

b. Continuances will not be granted except upon written motion and for good cause shown.

3. *Request for hearing at place other than office of the Board.* If the appellant shall desire that a hearing be held at a place other than the office of the Board, he shall at the time of taking his appeal, or within a reasonable time thereafter, but before service of notice of hearing, make a request therefor, showing the name of the place where he would prefer the hearing to be held, and stating fully the reason for such request. The representative of the Government may, within 10 days after an appeal has been filed in the office of the Board, file with the Board a request for hearing at a place other than the office of the Board and shall in such request state fully the reasons therefor. If neither the appellant nor the representative of the Government request a hearing at a place other than at the office of the Board, the Board may, nevertheless, on its own motion hold a hearing at another place.

4. *Stipulating facts.* The appellant and the representative of the Government may, by stipulation in writing filed with the Board, agree upon the facts or any portion thereof involved in the appeal, which stipulation shall be regarded and used as evidence at the hearing. However, the Board may, in such case, require additional evidence.

5. *Limiting testimony.* Where there is a transcript of testimony taken in the office of the chief of any technical service, the Board may, in its discretion, limit the testimony before it to testimony relative to matters not disclosed by the transcript. In all cases the Board may limit the amount of testimony, where merely cumulative.

6. *Submission on the record to the Under Secretary of War.* Where a majority of the members of the Board are unable to agree upon a decision, and the matter is submitted on the record to the Under Secretary of War for final determination, ordinarily, no further testimony will be introduced. However, the Under Secretary of War may, in his discretion, direct that additional testimony be taken before the Board, a division thereof, or before such person as he may designate, or he may direct a re-hearing before the Board, or reconsideration by the Board.

7. *Absence of parties or counsel.* The unexcused absence of a party or his counsel at the time and place set for the hearing of any proceeding will not be the occasion for delay, but the hearing will proceed and the case will be regarded as submitted on the part of the absent party or parties.

8. *Limitation of argument.* Oral argument before the Board or any division thereof may be limited by the Board or by the division, respectively.

9. *Briefs.* The parties may file briefs in lieu of personal appearances or in connection therewith. All briefs will be filed within 20 days after conclusion of the hearing unless otherwise directed by the Board or by the division before which the appeal is pending.

10. *Oral examination of witnesses.* Witnesses before the Board or any division thereof or before any member or examiner will be examined orally under oath, unless the facts are stipulated or the Board or division thereof shall otherwise order.

§ 803.318e–4 *Rule IV: Evidence.*

1. *Copies of papers.* When books, records, papers, or documents have been received in evidence, a true copy thereof or of such part thereof as may be material or relevant may, in the discretion of the Board or of the division holding the hearings, be substituted therefor.

2. *Withdrawal of exhibits.* After a decision has become final, the Board may, upon motion, permit the withdrawal of original exhibits, or any part thereof, by the party entitled thereto, or may, on its own motion make such other disposition thereof as it deems advisable.

3. *Administration of oaths.* Any judge advocate or acting judge advocate, the president, any member or the recorder of the Board, or any officer detailed to conduct an investigation, or hold a hearing, may administer oaths to witnesses.

4. *Ex parte affidavits not evidence.* Statements in the petition, ex parte affidavits, and briefs do not constitute evidence.

§ 803.318e–5 *Rule V: Depositions.*

1. *Before whom taken. a.* Depositions to be read in evidence before the Board or any division thereof may be taken before and authenticated, by any officer, military or civil, authorized by the laws of the United States or by the laws of place where the deposition is taken, to administer oaths.

b. Form and return of deposition to Board. Each deposition shall show the docket number and the caption of the proceeding, the place and date of taking, the name of the witness, and the party by whom called. The officer taking a deposition shall enclose the original deposition and exhibits, in a sealed packet, with postage or other transportation prepaid, and direct and forward the same to the War Department Board of Contract Appeals, Office of the Under Secretary of War, Washington, D. C.

2. *Notice to take, or stipulation for taking.* When either party desires to take a deposition, unless the parties shall stipulate as to the time when and place where the deposition is to be taken and the name of the officer before whom it is to be taken and the name and address of the witness, such party shall give to the opposite party at least 10 days notice of the time when and the place where such deposition will be taken and the name and address and official title of the officer before whom it is proposed to take the deposition, as well as the name of the witness. A deposition may be taken either upon written interrogatories or upon oral examination, as may be specified in the notice. If the deposition is to be taken upon written interrogatories, copies thereof shall accompany the notice to take depositions. If the opposite party desires to submit cross interrogatories, same must be served upon the party giving the notice within 5 days from the receipt of the notice to take the deposition, or within such further time as may be allowed by the Board. In order to avoid the taking of depositions or to avoid a continuance for the purpose of taking the testimony of any witness, the parties may stipulate what the testimony of the witness would be if present, and such stipulation shall be received in evidence by the Board.

3. *Reason for taking.* A duly authenticated deposition may be read in evidence before the Board, if such deposition be taken when the witness resides, is found, or is about to go beyond the State, Territory, or District in which the Board or a division thereof is to hold a hearing, or beyond the distance of 100 miles from the place of hearing, or when it appears to the satisfaction of the Board or a division thereof, that the witness by reason of age, sickness, bodily infirmity, imprisonment, or other reasonable cause is unable to appear and testify in person at the place of hearing.

4. *Deposition not considered until offered. a.* Testimony taken by deposition will not be considered until offered and received in evidence.

b. Introduction of deposition by opposite party. A deposition taken by one party may be introduced by the opposite party, but the whole deposition must be offered unless otherwise stipulated by the parties, or directed by the Board or by the division hearing the appeal.

§ 803.318e–6 *Rule VI: Decisions and findings.*

1. *Copies to be served on parties.* Decisions and findings of the Board, including decisions of any division thereof which have become decisions of the Board, including findings on questions of fact, shall be certified under the seal of the Board and served upon the parties or their attorneys in the manner herein provided for the service of papers.

2. *Divisional opinions.* A copy of each opinion of a division shall be promptly furnished by the division to each member of the Board, and if a majority of the members of the Board, including the president, shall at any time within 30 days after the date of the decision by the division file with the recorder a statement in writing to the effect that they do not desire a review of the decision by the Board, the recorder will make an entry in the records of the Board to that effect as of the date on which a majority of the members of the Board shall have filed such statements. Thereupon the decision of the division shall become the decision of the Board, and the recorder will promptly furnish copies of the decision to the parties concerned.

§ 803.318e–7 *Rule VII: Representation.*

a. Qualifications of attorneys. Any appellant may be represented before the Board by an attorney at law who has been admitted to practice and who is in good standing, before the Supreme Court of the United States, or before the highest court of any State, Territory, possession or the District of Columbia. The Board may, in its discretion, require any person appearing as an attorney at law, to present to the Board evidence that he or she possesses the above qualifications. The statement of the attorney may be accepted as satisfying the requirement of this rule.

b. Representation in lieu of counsel. Any individual appellant may appear for himself. Any partnership appellant may be represented by one or more partners. Any corporate appellant may be represented by a bona fide officer of the corporation.

§ 803.318e–8 *Rule VIII: Transcript of proceedings.*

1. *Record of hearings.* A full and complete record shall be kept of all hearings before the Board or any division thereof.

2. *Testimony to be taken stenographically.* The testimony shall be stenographically reported, and transcripts thereof shall be made, if in the opinion of the Board or of the division holding the hearing, a permanent record of the testimony is deemed necessary. Transcripts shall be supplied to the parties and to the public by the official reporter at such rates as may be fixed by contract between the Board and the reporter.

§ 803.318e–9 *Rule IX: Rehearings.*

a. Applications for rehearings, etc. Either party may apply to the Board for a rehearing, or reconsideration as to any matter determined by the Board, and to a division of the Board as to any matter determined by that division. Rehearing, further hearing or reconsideration of a decision, may be had if in the judgment of the Board or of the members of the division in which the decision was rendered, as the case may be, sufficient reason therefor be made to appear.

b. Motions for. All motions for rehearing, or reconsideration shall set forth specifically the ground or grounds relied upon to sustain the motion, and must be filed within 10 days from the date of the service of a copy of the decision of the Board or of a division, respectively, upon the party filing the motion. All such motions will be determined upon the record and briefs submitted and without oral argument or additional evidence.

§ 803.318e–10 *Rule X: Computation of time.*

Sundays and legal holidays to be counted. Whenever these rules or any order of the Board prescribe a time within which any act may be performed, Sundays and legal holidays in the District of Columbia shall count the same as other days, except that when the time prescribed for the performance of an act expires on a Sunday or a legal holiday in the District of Columbia, such time shall extend to and include the next succeeding day that is not a Sunday or such a legal holiday: *Provided,* That when the time for performing any act is prescribed by statute, nothing in these rules shall be deemed to be a limitation or extension of the statutory time period.

§ 803.318e–11 *Rule XI: Coordination with Price Adjustment Board.*

1. *Notice to Price Adjustment Board.* Upon the filing of an appeal with the Board, the recorder thereof will promptly advise the War Department Price Adjustment Board of the pendency of the appeal, giving the name of the contractor, the contract number, the name of the contracting officer or other authority from whose decision the appeal has been taken, together with a copy of the appeal or a brief statement of the issues involved.

2. *Information regarding renegotiation.* Prior to any hearing, the Board will ascertain from the War Department Price Adjustment Board, whether any renegotiation agreement has been accomplished relating to the contract under which the appeal is pending or whether renegotiation proceedings relative to the contract are pending. If a renegotiation agreement has been entered into such agreement will be taken into consideration by the War Department Board of Contract Appeals in reaching its decision. If renegotiation proceedings are pending the Board may, in its discretion, suspend further proceedings on the appeal until the renegotiation proceedings have been concluded. A copy of each decision rendered by the Board will be furnished the War Department Price Adjustment Board.

§ 803.318e–12 *Rule XII: Effective date.*

These rules shall become effective from the date of their approval by the Under Secretary of War, and from time to time may be amended by the Board with such approval.

§ 803.318e–13 *Form of notice of appeal.*

Appeal of _____
(Contractor)
Under Contract No. _____ B. C. A. No. _____

To the SECRETARY OF WAR:

The undersigned contractor under the contract referred to above, hereby appeals to the Secretary of War from the decision of the

§ 803.318f *Appeals boards within the technical services.*

§ 803.318f–1 *General.* There should exist in each technical service, a board to act as an advisor to the chiefs of the technical services with respect to appeals under contracts which authorize the chiefs of the technical services to pass upon appeals either finally or subject to further appeals by the contractor to the Secretary of War.

§ 803.318f–2 *Organization of boards.* Each board should consist of at least three members. One member of the Board, preferably with legal training, should be designated as executive secretary, to maintain a calendar of such cases as may be appealed to the chief of the service; to make a preliminary analysis of each case, and if necessary, return the file for further evidence, papers or exhibits; to maintain a record of the progress of each case; and in general, to act as executive representative of the Board and of chief of the technical service with respect to such matters. The Under Secretary of War will be informed of the name and address of every such executive secretary. Unless the chief of any technical service considers the volume of such work to be sufficient to require the full-time services of such executive secretary or other board members, they should be directed to perform such services in addition to other duties.

§ 803.318f–3 *Procedure.* In order that a uniform and orderly procedure may be followed, the following steps are prescribed in each case. The board should:

(a) Investigate and determine the facts in each case. During each such investigation, an opportunity should be afforded to the contractor, if he desires it, to present evidence in support of his contentions.

(b) Arrive at a finding of all essential facts and prepare a statement thereof for the information of the chief of the technical service concerned, and of the Under Secretary of War in cases forwarded to him for disposition. In the latter cases the report of the Board, together with the recommendation of the chief of the technical service concerned and the complete files in the case, will be forwarded to the Under Secretary of War.

(c) Based upon these findings of fact, prepare any necessary correspondence, supplemental agreements, or other documents for the action of the persons concerned.

§ 803.318f–4 In the determination of disputes, it will be the policy of all concerned to do complete and fair justice to the legitimate claims and contentions of every contractor, subject, however, to the limitation that in the absence of specific statutory authority no officer or official of the United States is vested with any power to surrender without consideration to the United States, any asset or right of the United States; every such officer and official must be controlled by the express terms of the contract in question and the applicable statutes and regulations.

§ 803.318f–5 The recommendations of the boards in question will be advisory only; the chief of the technical service concerned will not be bound by any such recommendation.

SUBPART G—GUARANTEES, LOANS AND COMMITMENTS, AND ADVANCE PAYMENTS

§ 803.319 *General.*

§ 803.319–1 *War Department policy.* It is the policy of the War Department that, in general, guarantees of loans, not in excess of 90 per cent of the principal amount of the loan, are to be employed rather than direct loans or participations in loans; and that likewise, guarantees of loans are, in general, to be employed in preference to advance payments. It is not intended entirely to supplant advance payments, especially where the technical service concerned concludes that the negotiation or performance of a particular contract will be facilitated by the use of advance payments.

§ 803.319–2 *Policy in connection with prime contractors.* Guaranteed loans to a prime contractor are particularly preferable to advance payments to such a contractor in the following situations:

(a) Where a number of technical services are involved,

(b) Where the prime contractor is at the same time a subcontractor under other prime contracts,

(c) Where the prime contractor has contracts with several branches of the government,

(d) Where the prime contractor has a large number of contracts and purchase orders.

In the above situations, guaranteed loans avoid the difficulties of segregation, accounting and supervision which are inherent in advance payments.

§ 803.319–3 *Policy in connection with subcontractors.* Guaranteed loans to subcontractors are preferable to subadvances even though the guarantee may exceed 90 per cent of the principal amount of the loan.

§ 803.319–4 *Cooperation with liaison officers.* The closest cooperation should exist between contracting officers, liaison officers (see § 803.320–4), and the Federal Reserve Banks, from the time negotiations for an award of a prime contract commence. Only in this way can there be devised the most practical method of financing from the standpoint of maximum war production by the contractor. In a given case, the most practical method of financing may be (a) private financing, (b) a guaranteed loan, (c) advanced payments, or (d) a direct Government loan; if a guaranteed loan or a direct loan, it may or may not be policed as to expenditures by the technical service most interested. That method of financing which is most conducive to maximum production should be adopted by mutual agreement between the contracting officer and the liaison officer, and it shall be the function of the liaison officer to endeavor to insure cooperation among the several technical services and with other branches of the government to this end.

§ 803.319–5 *Determination of method of financing at time of award.* In the case of prime contractors, especially those having contracts with a single technical service, the method of working capital financing most conducive to maximum production should be determined prior to the making of an award. The question of the amount of facilities necessary for such production and the method of financing such facilities should also be determined at that time. To these ends, the fiscal and production branches of procurement offices should closely cooperate both internally and, where appropriate, with the liaison officers and the Federal Reserve Banks.

§ 803.320 *Guarantees, loans and commitments under Executive Order No. 9112.*

§ 803.320–1 *Executive Order No. 9112.* Under date of March 26, 1942, Executive Order 9112 (3 CFR Cum. Supp.) was issued. It reads in part as follows:

(1) The War Department, Navy Department and the Maritime Commission are hereby respectively authorized, without regard to the provisions of law relating to the making, performance, amendment or modification of contracts, (a) to enter into contracts with any Federal Reserve Bank, the Reconstruction Finance Corporation, or with any other financing institution guaranteeing such Reserve Bank, Reconstruction Finance Corporation or other financing institution against loss of principal or interest on loans, discounts or advances, or on commitments in connection therewith, which may be made by such Reserve Bank, Reconstruction Finance Corporation, or other financing institution for the purpose of financing any contractor, subcontractor or others engaged in any business or operation which is deemed by the War Department, Navy Department or Maritime Commission to be necessary, appropriate or convenient for the prosecution of the war, and to pay out funds in accordance with the terms of any such contract so entered into; and (b) to enter into contracts to make, or to participate with any Federal Reserve Bank, the Reconstruction Finance Corporation, or other financing institution in making loans, discounts or advances, or commitments in connection therewith, for the purpose of financing any contractor, subcontractor or others engaged in any business or operation which is deemed by the War Department, Navy Department or Maritime Commission to be necessary, appropriate or convenient for the prosecution of the war, and to pay out funds in accordance with the terms of any such contract so entered into.

§ 803.320–2 *Administration.* The administration of the powers conferred upon the War Department by Executive Order 9112 are vested in the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces. The general policies and procedures established by that Branch as well as the general contractual arrangements established by the Branch are subject to review by the Director, Purchase Division, Headquarters, Army Service Forces.

§ 803.320–3 *Financial contracting officers.* Financial contracting officers are officers or civilian officials attached to the Office of the Fiscal Director, Headquarters, Army Service Forces who have been granted authority by the Fiscal Director of said Division to execute or approve guarantees (either in the form of guarantees to save financial institutions harmless or in the form of commitments to purchase), to make direct Government loans, to enter into other financial arrangements, and to enter into commitments therefor, all pursuant to the authority conferred by Executive Order 9112; to participate in negotiations for financing; and to coordinate with the Federal Reserve Banks which act as agents of the War Department in arranging financing for businesses whose operations are necessary, appropriate or convenient for the prosecution of the war.

§ 803.320–4 *Liaison officers.* Liaison officers are officers or civilian officials attached to the Advanced Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Services Forces, who have been detailed for duty in every city in which a Federal Reserve Bank is situated as well as in Los Angeles and Detroit. Their functions and duties are those specified in §§ 803.320–5 and 803.320–9 as well as in various other sections of this subpart.

§ 803.320–5 *Procedure for obtaining guaranteed loans.* Contractors may make applications for guaranteed loans:

(a) Through a local bank which in turn will transmit the applications to the Federal Reserve Bank in the district where the bank is located,

(b) Directly to the Federal Reserve Bank, or

(c) To a liaison officer.

It will be the duty of the liaison officer to obtain information from the procurement officers of the technical service or services concerned and from other appropriate sources as to whether the applicant's operations (existing or prospective) are necessary, appropriate, or convenient for the prosecution of the war and as to applicant's ability to perform its contracts. When liaison officers are not actually detailed to a given Federal Reserve District, the Federal Reserve Bank will perform this duty. Upon the basis of the information so obtained, the liaison officer will issue a Statement of Necessity. If the liaison officer is not satisfied that the terms and conditions of the loan will expedite production and protect the Government's interest to the fullest extent possible, the Statement of Necessity may be withheld pending the working out of satisfactory terms and conditions.

§ 803.320–6 *Loans and guarantees not requiring submission to the Advance Payment and Loan Branch, Office of the Fiscal Director.* Upon the issuance of a Statement of Necessity, a direct Government loan or a guarantee on behalf of the War Department may be completed by a Federal Reserve Bank, acting as fiscal agent of the United States on such terms and conditions as to it may seem advisable, provided that such loan or guarantee must be submitted for approval to the Advance Payment and Loan Branch, Office of the Fiscal Director, if it comes within any of the categories set forth in § 803.320–7.

§ 803.320–7 *Loans and guarantees requiring submission to the Advance Payment and Loan Branch.* Direct Government loans and guarantees coming within any of the following categories must be submitted for approval to the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces:

(a) All direct Government loans and also all guarantees when the amount thereof plus the amount of all loans and guarantees made pursuant to Executive Order No. 9112 (including Navy Department and Maritime Commission loans and guarantees), which the contractor has then outstanding, exceed $100,000.

(b) All guarantees when the liaison officer and the Federal Reserve Bank disagree as to the terms and conditions thereof.

(c) All guarantees, regardless of the principal amount of the loan, when the guarantee is for an amount in excess of 90 percent of the principal amount of the loan.

(d) All guarantees when the Federal Reserve Bank is itself participating in the loan.

§ 803.320–8 *Execution of loan or guarantee.* If the Federal Reserve Bank does not participate in the loan, the guarantee normally will be executed by the Federal Reserve Bank as fiscal agent of the United States. If the Federal Reserve Bank does participate in the loan, the guarantee will be executed by the financial contracting officer. Direct Government loans will be executed by a financial contracting officer.

§ 803.320–9 *Cooperation of procurement officers.* When it has been determined pursuant to §§ 803.319–1 and 803.319–4 that a guaranteed loan is the method of financing most conductive to maximum war production, it is essential that the Federal Reserve Bank, the Advance Payment and Loan Branch, the liaison officers, and the financial contracting officers receive the fullest and speediest cooperation from the procurement officers of the various technical services. Procurement officers of the technical services will furnish such information relating to contracts awarded or executed by them, and as to subcontractors and orders under such contracts, as may be called for by the Federal Reserve Bank, the Advance Payment and Loan Branch, liaison officers or financial contracting officers. In order to expedite this cooperation, special units may be established in the district offices of the technical services, or existing Advance Payment Sections may be utilized for this purpose. Information normally required to be furnished will include:

(a) The need for the borrower's production, and

(b) The ability of the borrower to perform from the view point of technical production.

Obtaining information as to the borrower's financial condition is primarily the responsibility of the liaison officer and the Federal Reserve Banks. However, procurement officers of a technical service may supply such information and may make recommendations with respect thereto which will be given due weight provided that the information as to the necessity for the production and the technical ability of the borrower to perform is not delayed.

§ 803.321 *Advance payments.*

§ 803.321–1 *General policy.* Subject to the provisions of §§ 803.319–1 to 803.319–3, advance payments will be made to contractors upon their request in all cases where such action will facilitate the prosecution of the war provided that after careful scrutiny it is determined that the national interest will be promoted thereby and provided that the Government will be adequately protected.

§ 803.321–2 *Types of contracts.* Subject to the provisions of § 803.321–1, advance payments may be made in connection with agreements of all kinds (whether contracts, letter contracts, letter purchase orders or other types of agreements).

§ 803.321–3 *Advance payments under contracts executed prior to December 27, 1941.* No advance payment in excess of 30 per cent of the amount of the contract will be authorized upon a contract entered into prior to December 27, 1941, except under a supplemental agreement containing provisions for such an advance payment executed on or after December 27, 1941.

§ 803.321–4 *Security.* Advance payments shall be authorized only upon the furnishing of adequate security by the contractor. The security to be furnished will be that required under the provisions of the standard clauses or standard forms of supplemental agreements referred to in § 803.321–11. A guarantee by, or bond of, a parent corporation is desirable if the subsidiary corporation has limited financial responsibility, especially in the case of a newly formed subsidiary corporation. Whether guarantees, subordination agreements or other security devices should be required, in connection with advance payments, is within the discretion of the person having authority to approve the authorization of advance payments. Advance payments bonds will be required only in the most exceptional circumstances. (See §§ 804.406–4 and 804.407–1).

§ 803.321–4a *Release of security upon liquidation of advance payments.* The execution, upon the liquidation of advance payments, of releases and agreements to release mortgages, guarantors in guaranty agreements, sureties on advance payment bonds, and other security devices, which may be required in connection with advance payments, will facilitate the prosecution of the war. Accordingly, such releases and agreements to release may be executed pursuant to Title II of the First War Powers Act, 1941, and Executive Order 9001, by the chief of a technical service or his duly authorized representative, or by the person to whom he may delegate such authority, in those cases where such security devices have been given to secure a specific advance payment or advance payments and no other obligations to the Government, and such advance payment or advance payments have been fully liquidated.

In cases where releases or agreements to release security devices, given in connection with advance payments, cannot be executed pursuant to the authority above granted, proposed releases or agreements to release, together with recommendations as to action requested, should be submitted to the Advance Payment and Loan Branch, Office of the Fiscal Director, for prior approval and execution by the Fiscal Director or his duly authorized representative to whom authority to execute such releases and agreements to release is granted pursuant to Title II of the First War Powers Act, 1941, and Executive Order 9001.

§ 803.321–5 *Definitions.* As used in §§ 803.321–6, 803.321–7 and 803.321–14, the following terms shall have the following meaning:

(a) The amount of the contract: In the case of a lump sum contract, the contract price; in the case of a cost-plus-a-fixed-fee contract, the estimated cost exclusive of the fixed-fee.

(b) Standard contract clause: A contract clause following without substantial deviation the wording of one of the contract clauses referred to in § 803.321–11.

(c) Standard supplemental agreement: A supplemental agreement following without substantial deviation the wording of one of the forms of supplemental agreement referred to in § 803.321–11.

The determination of whether there is a substantial deviation from contract clause or from a form of supplemental agreement is within the discretion of the chief of the technical services. In general, the determining factor is whether the modification changes established policies with respect to advance payments.

§ 803.321–6 *Initial advance payments not requiring approval of Advance Payment and Loan Branch.* Chiefs of technical services are authorized, without obtaining the approval of the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces, to approve the authorization and making of initial advance payments on contracts pertaining to their respective services, when:

(a) The amount of the contract is less than $5,000,000 and the amount of the advance payment is not in excess of 50 per cent of the amount of the contract, and

(b) The advance payment is authorized under a standard contract clause or a standard supplemental agreement.

§ 803.321–7 *Subsequent advance payments not requiring approval of Advance Payment and Loan Branch.* The chiefs of the technical services are authorized, without obtaining the approval of the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces, to approve the authorization and making of advance payments in addition to advance payments previously authorized in connection with a given contract, when:

(a) The amount of the contract on which the subsequent advance payment is based is less than $5,000,000 and the proposed advance payment does not exceed 50 per cent of such amount, and

(b) The proposed advance payment is authorized under an approved contract clause or an approved supplemental agreement.

As used in this section, the term "amount of the contract on which the subsequent advance payment is based" means the

amount by which the amount of the contract has been increased since the date of the last authorization of an advance payment.

§ 803.321–8 *Advance payments requiring approval of Advance Payment and Loan Branch.* Unless an advance payment comes within the provisions of §§ 803.321–6 or 803.321–7, the authorization of such advance payment must be submitted for approval to the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces. The submission to said Branch will consist of a recommendation of the chief of the technical service concerned, together with the following information:

(a) The amount proposed to be advanced.

(b) The amount of contract involved and the subject matter thereof.

(c) Whether the contract was awarded on a fixed price or on a cost-plus-a-fixed-fee basis.

(d) The terms of the proposed advance (including method and time of repayment or liquidation including, if possible, a schedule of deliveries).

(e) The national interest in making the advance.

(f) The security proposed to protect the Government against loss with the definite recommendation of the chief of the technical service as to the adequacy thereof.

(g) The financial position and the general character and responsibility of the contractor, as well as the technical ability of the contractor to perform the contract.

(h) A copy of the contractor's letter of request and any financial and budget data submitted relating to the necessity for the advance.

(i) Copy of contracting officer's report, if any, on the advance payment request.

(j) Any other information pertinent to a proper decision in the case.

(k) The date and identifying symbol of the approval of the award together with the appropriation available.

Requests for the approval of the authorization of an advance payment may be presented either during the negotiation of a contract or at any time thereafter. If the contract is available a copy thereof together with applicable letters of intent and intermediate supplemental agreements, if any, should be forwarded together with the recommendation. If a copy of the contract is not available at the time the recommendation is forwarded, such a copy should be submitted for review and filing promptly after execution.

§ 803.321–9 *Special provision with respect to advance payments under open-end provisions in connection with cost-plus-a-fixed-fee contracts.* If in connection with a cost-plus-a-fixed-fee contract, it is proposed to authorize the making of an advance payment in an amount equivalent to a percentage of the estimated cost as the same may be amended from time to time, approval of the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces, need not be obtained unless the estimated cost of the contract exclusive of the fixed-fee at the time of the granting of such authorization is $5,000,000 or more (provided, of course, that the authorization is made under a standard contract clause or a standard supplemental agreement). If, however, it subsequently becomes apparent that the cost will be $5,000,000 or more, no further advances will be made under such authorization until such approval has first been obtained. If such approval has once been obtained, the making of advance payments, in addition to those made prior to or at the time of such approval, may be made without further approval of the Advance Payment and Loan Branch, regardless of the amount of such additional advance payments.

§ 803.321–10 *Advance payments in connection with letter contracts or letter purchase orders.* Advance payments in connection with letter contracts or letter purchase orders will be provided for by a standard supplemental agreement. There should be included in such agreement a clause relieving a subsequent performance surety of the fidelity risk involved in making advance payments in any case where it is contemplated that a performance bond will be required in connection with the more formal contract and where no advance payment bond has been required.

§ 803.321–11 *Forms of supplemental agreement and contract clauses.* The following is a list of contract clauses and forms of supplemental agreements for use in connection with the authorization of advance payments:

(a) The contract clause contained in § 803.347 will be used in providing for advance payments with interest on fixed-price contracts.

(b) War Department Contract Form No. 20 will be used in executing a supplemental agreement for advance payments with interest on fixed-price contracts. (See § 813.1320)

(c) War Department Contract Form No. 21 will be used in executing a supplemental agreement for advance payments with interest on cost-plus-a-fixed-fee contracts. (See § 813.1321)

(d) The contract clause contained in § 803.348a will be used in providing for advance payments with interest on cost-plus-a-fixed-fee contracts.

(e) War Department Contract Form No. 22 will be used in executing a supplemental agreement for advance payments with interest on a letter purchase order. (See § 813.1322)

(f) The contract clause contained in § 803.348 will be used in providing for advance payments without interest on fixed-price contracts.

(g) War Department Contract Form No. 23 will be used for executing a supplemental agreement for advance payments without interest on fixed-price contracts. (See § 813.1323)

(h) The contract clause contained in § 803.348b will be used in providing for advance payments without interest on cost-plus-a-fixed-fee contracts.

(i) War Department Contract Form No. 24 will be used for executing a supplemental agreement for advance payments without interest on cost-plus-a-fixed-fee contracts. (See § 813.1324)

(j) War Department Contract Form No. 25 will be used for executing a supplemental agreement for advance payments without interest on letter purchase orders. (See § 813.1325)

§ 803.321–12 *Interest.* Except as set forth in § 803.321–13 below, whenever an advance payment is made to a contractor by the War Department, a charge should be made for the use of the Government money so furnished. The charge should be in the nature of an interest charge computed, at convenient accounting periods, at the rate of two and one-half percent per annum on the unliquidated balance of advance payments outstanding from time to time. In the case of a fixed-price contract, the amount of the charge should be deducted from payments under the contract. In the case of a cost-plus-a-fixed-fee contract, the charge should be deducted from the amount of the fee otherwise payable to the contractor, and should not be an item of reimbursable cost under the contract.

§ 803.321–13 *Exceptions to interest requirement.* The requirement that interest be charged on advance payments shall not be applicable to advance payments:

(a) Authorized in connection with contracts which provide that the work thereunder shall be performed at cost without profit or fee to the contractor.

(b) Authorized in connection with cost-plus-a-fixed-fee contracts on which the fee is disproportionately small compared to the amount of interest that would accrue on the advance payment.

(c) Authorized in connection with contracts entered into, or contracts the terms of which had been agreed upon, prior to June 8, 1942, to the extent that such application would be inconsistent with the terms upon which such contracts were negotiated.

(d) Authorized in connection with fixed price contracts which have been converted from cost-plus-a-fixed-fee contracts provided that advances previously authorized on the cost-plus-a-fixed-fee contracts have been without interest and provided further that in negotiating the fixed prices on the converted contracts due allowance is made for the continuation of advances without interest. This does not preclude, however, the use of advances with interest in accordance with § 803.321–12 in the negotiation of the converted contracts from a cost-plus-a-fixed-fee to fixed price basis if it is preferred to negotiate the new price on the use of advances with interest.

(e) Authorized to be made without interest by specific action of the Fiscal Director, Headquarters, Army Service Forces.

(f) Authorized in connection with cost-plus-a-fixed-fee contracts which have been terminated in whole or in part to the extent that such advance payments are used for the making of partial payments to subcontractors on account of termination claims of such subcontractors. Interest will cease to accrue on that part of the advance payment balance outstanding so used from the time such partial payments are made until the time the prime contractor is reimbursed for termination settlements with such subcontractors. (See §§ 846.654–1 and 803.349a.)

§ 803.321–14 *Reports.* In connection with advance payments, the technical services will make the following report:

(a) *Individual advance payment report.* A complete report of each advance payment, except those approved by the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces, pursuant to §§ 803.321–8 or 803.321–9, will be submitted to said Branch, for consideration, review and file. There will be submitted with the report a copy of the contract under which the advance payment was authorized or, if the advance payment was authorized under a supplemental agreement, a copy of the contract and of such supplemental agreement. The report will contain a statement of the amount of the contract, the amount of the advance payment authorized, the national interest in making the advance payment, the proposed security and a statement as to whether prior approval of withdrawal is to be required, as well as a statement of the financial responsibility of the contractor and of its ability to perform the contract. The contractor's most recent balance sheet or a Federal Reserve Bank report should also be filed.

(b) *Quarterly report.* In each year, there shall be rendered to the Advance Payment and Loan Branch, Headquarters, Army Service Forces reports for the periods ending March 31, June 30, September 30, and December 31. Each such report will be rendered fifteen days after the close of the period. There will be set forth in such reports the status of all contracts on which advance payments have been authorized. The following data should be included in the report:

(i) Contract number.
(ii) Name of contractor.
(iii) Description of contract.
(iv) Type of contract.
(v) Amount of contract as it may be changed from time to time.
(vi) Amount of advance payments authorized.
(vii) Amount of advance payments made.
(viii) Advance payments recovered.
(ix) Advance payments outstanding.
(x) Appropriation symbol.
(xi) Project number.

A special statement should be included in the report as to any contract with respect to which the completion of the contract and liquidation of the advance payments appear to be doubtful together with a statement as to the steps being taken to protect the advance payments. A report should include data previously furnished and not merely cover the period from the last report. However the report need not include contracts upon which complete liquidation of the advance payments have been made and so reported in a previous report.

(c) *Interim reports.* If at any time between the rendering of quarterly reports it appears doubtful that a contractor to whom advance payments have been made will complete the contract, a report should be rendered to the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces, immediately. This report should include a statement of the facts in the case and of the steps being taken to protect the advance payments.

§ 803.321–15 *Advance payment for communication services and facilities in accordance with established tariffs of foreign communications companies.* In accordance with the First War Powers Act and Executive Order No. 9001, contracts covering the procurement of commercial communications services or facilities in foreign countries may authorize advance payment of charges therefor when such advance payment is provided for in established tariffs or is in accordance with rules, practices, or regulations applicable to the furnishing of similar services and facilities to the general public. It is hereby determined that the insertion of such advance payment provisions will facilitate the prosecution of the war. In connection with such advance payments, it will not be necessary to make any of the reports provided for in § 803.321–14.

SUBPART B—MANDATORY AND OPTIONAL CONTRACT PROVISIONS

§ 803.322 *Officials not to benefit.* Every contract, regardless of subject matter or amount, will contain the following clause without deviation:

Officials not to benefit. No member of or delegate to Congress or resident commissioner shall be admitted to any share or part of this contract or to any benefit that may arise therefrom, but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

§ 803.323 *Covenant against contingent fees.* (a) Every contract, regardless of subject matter or amount (except contracts of sale) will contain the following clause without deviation:

Covenant against contingent fees. The Contractor warrants that he has not employed any person to solicit or secure this contract upon any agreement for a commission, percentage, brokerage, or contingent fee. Breach of this warranty shall give the Government the right to annul the contract, or, in its discretion, to deduct from the contract price or consideration the amount of such commission, percentage, brokerage, or contingent fees. This warranty shall not apply to commissions payable by contractors upon contracts or sales secured or made through bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business.

(b) As to contracts of sale, see General Provision 13 of W.D. Contract Form No. 26 (§ 813.1326).

(c) Also see § 811.1181.

§ 803.324 *Uniform termination article.* (a) There is set forth below the uniform termination article prescribed by the Office of War Mobilization for use in fixed price (lump sum) supply contracts. This article will be referred to hereafter in this paragraph as the uniform article.

(b) The uniform article may be inserted in any lump sum supply contract.

(c) Every lump sum supply contract for the manufacture of supplies and equipment executed on and after February 20, 1944, except:

(1) Contracts to be completed in six months or less for an amount of less than $500,000,

(2) Contracts for an amount of less than $50,000, regardless of the date of completion and

(3) Requirement or open end contracts, will contain the uniform article without deviation.

(d) As to amendment of contracts to include the uniform article, see § 842.213.

ARTICLE ... *Termination at the option of the Government.* (a) The performance of work under this contract may be terminated by the Government in accordance with this Article in whole, or from time to time in part, whenever the contracting officer shall determine any such termination is for the best interests of the Government. Termination of work hereunder shall be effected by delivery to the contractor of a Notice of Termination specifying the extent to which performance of work under the contract shall be terminated, and the date upon which such termination shall become effective. If termination of work under this contract is simultaneous with, a part of, or in connection with, a general termination (1) of all or substantially all of a group or class of contracts made by the War Department for the same product or for closely related products, or (2) of war contracts at, about the time of, or following, the cessation of the present hostilities, or any major part thereof, such termination shall only be made in accordance with the provisions of this Article, unless the contracting officer finds that the contractor is then in gross or wilful default under this contract.

(b) After receipt of a Notice of Termination and except as otherwise directed by the contracting officer, the contractor shall (1) terminate work under the contract on the date and to the extent specified in the Notice of Termination; (2) place no further orders or subcontracts for materials, services or facilities except as may be necessary for completion of such portions of the work under the contract as may not be terminated; (3) terminate all orders and subcontracts to the extent that they relate to the performance of any work terminated by the Notice of Termination; (4) assign to the Government, in the manner and to the extent directed by the contracting officer, all of the right, title and interest of the contractor under the orders or subcontracts so terminated; (5) settle all claims arising out of such termination of orders and subcontracts with the approval or ratifications of the contracting officer to the extent that he may require, which approval or ratification shall be final for all the purposes of this Article; (6) transfer title and deliver to the Government in the manner, to the extent and at the times directed by the contracting officer (i) the fabricated or unfabricated parts, work in process, completed work, supplies and other material produced as a part of, or acquired in respect of the performance of, the work terminated in the Notice of Termination, and (ii) the plans, drawings, information and other property which, if the contract had been completed, would be required to be furnished to the Government; (7) use his best efforts to sell in the manner, to the extent, at the time, and at the price or prices directed or authorized by the contracting officer, any property of the types referred to in subdivision (6) of this paragraph: *Provided, however,* That the contractor (i) shall not be required to extend credit to any purchaser and (ii) may retain any such property at a price or prices approved by the contracting officer; (8) complete performance of such part of the work as shall not have been

terminated by the Notice of Termination; and (9) take such action as may be necessary or as the contracting officer may direct for protection and preservation of the property, which is in the possession of the contractor and in which the Government has or may acquire an interest.

(c) The contractor and the contracting officer may agree upon the whole or any part of the amount or amounts to be paid to the contractor by reason of the total or partial termination of work pursuant to this Article, which amount or amounts may include a reasonable allowance for profit, and the Government shall pay the agreed amount or amounts. Nothing in paragraph (d) of this Article prescribing the amount to be paid to the contractor in the event of failure of the contractor and the contracting officer to agree upon the whole amount to be paid to the contractor by reason of the termination of work pursuant to this Article shall be deemed to limit, restrict or otherwise determine or affect the amount or amounts which may be agreed upon to be paid to the contractor pursuant to this paragraph (c).

(d) In the event of the failure of the contractor and contracting officer to agree as provided in paragraph (c) upon the whole amount to be paid to the contractor by reason of the termination of work pursuant to this article, the Government, but without duplication of any amounts agreed upon in accordance with paragraph (c), shall pay to the contractor the following amounts:

(1) For completed articles delivered to and accepted by the Government (or sold or retained as provided in paragraph (b) (7) above) and not theretofore paid for, forthwith a sum equivalent to the aggregate price for such articles computed in accordance with the price or prices specified in the contract;

(2) In respect of the contract work terminated as permitted by this Article, the total (without duplication of any items) of (i) the cost of such work exclusive of any cost attributable to articles paid or to be paid for under paragraph (d) (1) hereof; (ii) the cost of settling and paying claims arising out of the termination of work under subcontracts or orders as provided in paragraph (b) (5) above, exclusive of the amounts paid or payable on account of supplies or materials delivered or services furnished by the subcontractor prior to the effective date of the notice of termination of work under this contract which amounts shall be included in the cost on account of which payment is made under subdivision (i) above; and (iii) a sum equal to _____% (Note 1), of the part of the amount determined under subdivision (i) which represents the cost of articles or materials not processed by the contractor, plus a sum equal to _____% (Note 2), of the remainder of such amount, but the aggregate of such sums shall not exceed 6% of the whole of the amount determined under subdivision (i), which for the purpose of this subdivision (iii) shall exclude any charges for interest on borrowings;

NOTES 1 and 2: The chief of each technical service may provide for determining the percentages to be inserted at Note 1 (which in no event will exceed 2%) and to Note 2 (which may be greater or less than or equal to 6%). The general use of 2% and 8%, respectively, as arbitrary figures is recommended in the interest of expediting the execution of contracts. Where the use of arbitrary figures is not desired for any reason, the methods to be used in arriving at the percentage to be inserted at Note 2 shall be the same as those now used in price analysis. When the intended rate of profit on the finished article covered by the contract is lower than 8%, the insertion of a lower figure at Note 2 will of course be desirable.

(3) The reasonable cost of the preservation and protection of property incurred pursuant to paragraph (b) (9) hereof; and any other reasonable cost incidental to termination of work under this contract, including expense incidental to the determination of the amount due to the contractor as the result of the termination of work under this contract.

The total sum to be paid to the contractor under subdivisions (1) and (2) of this paragraph (d) shall not exceed the total contract price reduced by the amount of payments otherwise made and by the Contract price of work not terminated. Except for normal spoilage and to the extent that the Government shall have otherwise expressly assumed the risk of loss, there shall be excluded from the amounts payable to the contractor as provided in paragraph (d) (1) and paragraph (d) (2) (i), all amounts allocable to or payable in respect of property, which is destroyed, lost, stolen or damaged so as to become undeliverable prior to the transfer of title to the Government or to a buyer pursuant to paragraph (b) (7) or prior to the 60th day after delivery to the Government of an inventory covering such property, whichever shall first occur.

(e) The obligation of the Government to make any payments under this article: (1) shall be subject to deductions in respect of (i) all unliquidated partial or progress payments, payments on account theretofore made to the contractor and unliquidated advance payments, (ii) any claim which the Government may have against the contractor in connection with this contract, and (iii) the price agreed upon or the proceeds of sale of any materials, supplies or other things retained by the contractor or sold, and not otherwise recovered by or credited to the Government, and (2) in the discretion of the contracting officer shall be subject to deduction in respect of the amount of any claim of any subcontractor or supplier whose subcontract or order shall have been terminated as provided in paragraph (b) (3) except to the extent that such claim covers (i) property or materials delivered to the contractor or (ii) services furnished to the contractor in connection with the production of completed articles under this contract.

(f) In the event that, prior to the determination of the final amount to be paid to the contractor as in this article provided, the contractor shall file with the contracting officer a request in writing that an equitable adjustment should be made in the price or prices specified in the contract for the work not terminated by the Notice of Termination, the appropriate fair and reasonable adjustment shall be made in such price or prices.

(g) The Government shall make partial payments and payments on account, from time to time, of the amounts to which the contractor shall be entitled under this Article, whether determined by agreement or otherwise, whenever in the opinion of the contracting officer the aggregate of such payments shall be within the amount to which the contractor will be entitled hereunder.

(h) For the purposes of paragraphs (d) (2) and (d) (3) hereof, the amounts of the payments to be made by the Government to the contractor shall be determined in accordance with the Statement of Principles for Determination of Costs upon Termination of Government Fixed Price Supply Contracts approved by the Joint Contract Termination Board, December 31, 1943, as amended by Regulation No. 5 of the Office of Contract Settlement dated September 30, 1944. The contractor for a period of three years after final settlement under the contract shall make available to the Government at all reasonable times at the office of the contractor all of its books, records, documents, and other evidence bearing on the costs and expenses of the contractor under the contract and in respect of the termination of work thereunder.

§ 803.324–1 Every lump-sum construction contract regardless of subject matter, except:

(a) Contracts to be completed in six months or less for an amount of less than $500,000 and

(b) Contracts for an amount of less than $50,000 regardless of the date of completion.

will contain the following clause without deviation:

ARTICLE ___. *Termination for convenience of the Government.* (a) The Government may terminate this contract in whole or in part at any time by a notice in writing from the Contracting Officer to the Contractor, specifying the date upon which such termination shall become effective and the extent to which the performance of such contract shall be terminated. Termination shall be effective upon the date and to the extent specified in said notice.

(b) Upon receipt of the notice of termination the Contractor shall except insofar as the notice directs otherwise with respect to this contract, or, in the event of partial termination, with respect to the part thereof covered by the notice:

(1) Discontinue all work and the placing of all orders for materials and facilities otherwise required for the performance thereof;

(2) Cancel all existing orders and subcontracts to the extent such orders and subcontracts are chargeable to the performance thereof;

(3) Transfer to the Government, in accordance with the directions of the Contracting Officer, all materials, supplies, work in process, facilities, equipment, machinery or tools acquired by the Contractor in connection with the performance thereof, and all plans, drawings, working drawings, sketches, specifications and information for use in connection therewith. If and as the Contracting Officer so directs or authorizes, the Contractor shall sell at a price approved by the Contracting Officer, or retain at a price mutually agreeable, any such materials, supplies, equipment, machinery, tools, or other things: *Provided, however*, That the Contractor may retain any such equipment, machinery and tools as of right if he so elects in writing, stating that he will forego reimbursement therefor. The proceeds of any such sale, or the agreed price, shall be paid or credited to the Government in such manner as the contracting officer may direct so as to reduce the amount payable by the Government under this Article;

(4) Take such action as may be necessary to secure to the Government the benefits of any rights remaining in the Contractor under orders or subcontracts chargeable thereto to the extent that such orders or subcontracts are so chargeable;

(5) Take such action as the Contracting Officer may prescribe for the protection and preservation of all property in the possession or control of the Contractor, title to which is transferable to the Government under the provisions of this article. Should the notice of termination cover only a portion of this contract, the Contractor will proceed to completion of such portions as are not terminated.

(c) Upon compliance by the Contractor with the above provisions of this Article and subject to deductions or credit for payments previously made, and without duplication of any such payments, the Government shall pay to the Contractor such sum as the Contracting Officer and the Contractor may agree by Supplemental Agreement is reasonably necessary to compensate the Contractor for his costs, expenditures, liabilities, commitments and work with respect to this contract, other than the expenditures and costs referred to in paragraph (e) of this Article. The Contracting Officer shall include in such sum such allowance for profit with respect to the contract as is reasonable under all the circumstances.

(d) If the Contracting Officer and the Contractor, within 90 days from the effective date of the notice of termination referred to in paragraph (a), or within such extended period as may be agreed upon between them, cannot agree upon the sum payable under the provisions of paragraph (c), the Government shall instead compensate the Contractor in the following manner, subject to deductions or credit for payments previously made, and without duplication thereof, and upon compliance with the provisions of paragraphs (a) and (b) of this Article:

(1) By reimbursing the Contractor for all actual expenditures and costs certified by the Contracting Officer as having been made or incurred with respect to this contract, including expenditures and costs made or incurred in connection with any portions of the contract which may have been completed prior to termination, as well as expenditures and costs made or incurred after termination in completing those portions of the contract which the Contractor may have been required by the notice of termination to complete;

(2) By reimbursing or providing for the payment or reimbursement of, the Contractor for all expenditures made or costs incurred with the prior written approval of the Contracting Officer in settling or discharging any outstanding contractual obligations or commitments incurred or entered into by the Contractor with respect to this contract; and

(3) By paying the Contractor, as a profit on this contract, insofar as a profit is realized hereunder, an amount to be computed by the Contracting Officer in the following manner:

(A) Estimate the profit which would have been realized on this contract if the contract had been completed and labor and materials costs prevailing at the date of terminations had remained in effect.

(B) Estimate, from a consideration of all relevant factors, the percentage of completion of the contract including any work performed after termination. In estimating the percentage of completion, the Contracting Officer shall estimate the percentage of the total work required by the contract which the work actually accomplished represents.

(C) Multiply the profit determined under (A) by the percentage determined under (B). The product is the amount to be paid the Contractor as profit.

(e) The Government shall pay to the Contractor such sum as the Contracting Officer and the Contractor may agree upon for expenditures made and costs incurred with the approval of the Contracting Officer (a) after the date of termination for the protection of Government property, and (b) for such other expenditures and costs as may be necessary in connection with the settlement of this contract, and in the absence of such agreement as to the amount of such expenditures and costs shall reimburse the Contractor for the same.

(f) The obligation of the Government to make any of the payments required by this Article shall be subject to any unsettled claim for labor or material and to any claim which the Government may have against the Contractor under or in connection with this contract, and payments under this Article shall be subject to reasonable deductions by the Contracting Officer on account of defects in materials or workmanship.

(g) The sum of all amounts payable under this Article, plus the sum of all amounts previously paid under this contract, shall not exceed the total contract price, adjusted in the event that this contract contains an article providing for price adjustment, on the basis of the estimate of the Contracting Officer, to the extent which would have been required by such article if this contract had been completed and labor and materials costs prevailing at the date of termination had remained in effect.

(h) Should the above provisions of this Article not result in payment to the Contractor of at least $100, then that amount shall be paid to the Contractor in lieu of any and all payments hereinbefore provided for in this Article.

(i) The Government shall promptly make partial payments to the Contractor:

(1) on account of the amounts due under paragraphs (c), (d) and (e) of this Article to the extent that, in the judgment of the Contracting Officer, such payments are clearly within the amounts due under such paragraphs, and

(2) of such amounts as the Contracting Officer may direct, an account of proposed settlements of outstanding obligations or commitments, to be made by the Contractor pursuant to paragraph (d) (2) of this Article, if such settlements shall have been approved by the Contracting Officer and subject to such provisions for escrow or direct payment to the persons entitled to receive such settlement payments as the Contracting Officer may require.

(j) Any disputes arising out of termination under this Article shall be decided in accordance with the procedure prescribed in Article * * * of this contract.

(k) Upon the making of the payments called for by this Article, all obligations of the Government to make further payments or to carry out other undertakings hereunder shall cease forthwith and forever, except that all rights and obligations of the respective parties under the Articles, if any, of this contract applicable to patent infringements and reproduction rights shall remain in full force and effect.

(l) The Government shall terminate this contract only in accordance with this Article, except as otherwise provided by law or by Article * * * (Delays-Damages). Notwithstanding Article * * * (Delays-Damages) and any defaults of the Contractor, the Government shall terminate this contract only in accordance with this Article if such termination is simultaneous with or part of or in connection with a general termination of war contracts at, about the time of, or following the cessation of the present hostilities or the end of the present war, unless the Contracting Officer finds that the defaults of the Contractor (1) have been gross or wilful and (2) have caused substantial damage to the Government.

The foregoing clause may be inserted in any contract as to which its inclusion is not mandatory.

§ 803.324–2 *Termination at the option of the Government (Short form).* The following article may be used in any supply or construction contract where neither of the articles set out in §§ 803.324 and 803.324–1 is required to be used.

ARTICLE ___. *Termination at the option of the Government.* The performance of work under this contract may be terminated by the Government whenever the Contracting Officer shall determine that such action is for the best interests of the Government. If this contract is so terminated, fair compensation, within the meaning of the Contract Settlement Act of 1944 (Public No. 395, 78th Cong.), as the same may from time to time be amended, will be provided for the contractor.

§ 803.325 *Anti-discrimination clause.* (a) Every contract, regardless of subject matter or amount, will contain (except as may be otherwise specifically permitted by the interpretations of Executive Order No. 9346 set forth in §§ 809.985 and 809.986) the following clause without deviation:

Anti-discrimination. (a) The Contractor, in performing the work required by this contract, shall not discriminate against any employee or applicant for employment because of race, creed, color, or national origin.

(b) The Contractor agrees that the provision of paragraph (a) above will also be inserted in all of its subcontracts. For the purpose of this article, a subcontract is defined as any contract entered into by the contractor with any individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity, for a specific part of the work to be performed in connection with the supplies or services furnished under this contract: *Provided, however*, That a contract for the furnishing of standard or commercial articles or raw material shall not be considered as a subcontract.

(b) When a prime contract is amended in accordance with § 809.986 to include the clause set forth in paragraph (a) of this section, there may be inserted in the supplemental agreement which amends the prime contract a statement substantially as follows:

The amendment made by this section * * * shall be effective as of the date of approval of this supplemental agreement and shall not be deemed to require amendment of the antidiscrimination provisions contained in any subcontract theretofore entered into unless such subcontract is subsequently modified in some other respect.

(c) The contract clause set forth in paragraph (a) of this section is required under the provisions of Executive Order No. 9346. Such Executive order is discussed in Subpart L of Part 809.

§ 803.326 *Disputes article.* (a) Every contract, regardless of subject matter, for an amount of $20,000 or more will, and every contract for an amount of less than $20,000 may (at the option of the contractor), contain the following article without deviation:

Disputes. Except as otherwise specifically provided in this contract, all disputes concerning questions of fact which may arise under this contract, and which are not disposed of by mutual agreement, shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail a copy thereof to the Contractor at his address shown herein. Within 30 days from said mailing the Contractor may appeal in writing to the Secretary of War, whose written decision or that of his designated representative or representatives thereon shall be final and conclusive upon the parties hereto. The Secretary of War may, in his discretion, designate an individual, or individuals, other than the Contracting Officer, or a board as his authorized representative to determine appeals under this Article. The Contractor shall be afforded an opportunity to be heard and offer evidence in support of his appeal. The president of the board, from time to time, may divide the board into divisions of one or more members and assign members thereto. A majority of the members of the board or of a division thereof shall constitute a quorum for the transaction of the business of the board or of a division, respectively, and the decision of a majority of the members of the Board or of a division shall be deemed to be the decision of the Board or of a division, as the case may be. If a majority of the members of a division are unable to agree on a decision or if within 30 days after a decision by a division, the board or the president thereof directs that the decision of the division be reviewed by the board, the

decision will be so reviewed, otherwise the decision of a majority of the members of a division shall become the decision of the board. If a majority of the members of the board is unable to agree upon a decision, the president will promptly submit the appeal to the Under Secretary of War for his decision upon the record. A vacancy in the board or in any division thereof shall not impair the powers, nor affect the duties of the board or division nor of the remaining members of the board or division, respectively. Any member of the board, or any examiner designated by the president of the board for that purpose, may hold hearings, examine witnesses, receive evidence and report the evidence to the board or to the appropriate division, if the case is pending before a division. Pending decision of a dispute hereunder the Contractor shall diligently proceed with the performance of this contract. Any sum or sums allowed to the Contractor under the provisions of this Article shall be paid by the United States as part of the cost of the articles or work herein contracted for and shall be deemed to be within the contemplation of this contract.

(b) Where a contract has no definite termination date, or where a termination date is expressed but the contract is subject to renewal (e. g., through failure of the Government to take action to terminate or through the Government's exercise of a right to renew), it may be difficult to determine whether the contract is for an amount of $20,000 within the meaning of paragraph (a) of this section. The following rule of thumb is prescribed to resolve the difficulty in such cases: It will be assumed for the purpose of making the determination that the contract will run for a period of three years from its starting date, and the aggregate charge will be estimated on this basis. If the aggregate charge, so estimated, is $20,000 or more, the Disputes article will be included in the contract; if less than $20,000, the article may be included at the option of the contractor.

§ 803.326–1 In all contracts which contain a definition of "his duly authorized representative" in relation to the head of the department, as "any person authorized to act for him other than the contracting officer," the words "or board" will be inserted between the word "person" and the word "authorized".

§ 803.327 *Buy-American Act; contract clause.* Whenever the restrictions of the Buy-American Act are applicable to any items deliverable under a contract (see §§ 805.502 to 805.504), the contract will contain the following clause. In such cases, this clause will be inserted without deviation except that there may be added such language as is necessary to indicate to which items the clause applies.

Domestic articles. Unless the Secretary of War shall determine it to be inconsistent with the public interest, or the cost to be unreasonable, only such unmanufactured articles, materials, and supplies as have been mined or produced in the United States, and only such manufactured articles, materials, and supplies as have been manufactured in the United States substantially all from articles, materials, or supplies mined, produced, or manufactured, as the case may be, in the United States shall be delivered pursuant to this contract, except as noted in the specifications and/or other papers hereto attached. The provisions of this article shall not apply with respect to articles, materials, or supplies for use outside the United States, or if articles, materials, or supplies of the class or kind to be used, or the articles, materials, or supplies from which they are manufactured are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

§ 803.328 *Notice of shipments article.* All contracts for the furnishing of supplies, except contracts for the furnishing of supplies in connection with which a Government inspector, transportation officer, or other Government official at the plant or warehouse of the Contractor is charged with the duty of issuing notices of shipment, will contain a clause substantially as follows (see § 811.1182b):

ARTICLE — *Notice of Shipments.* At the time of delivery of a shipment to a carrier for transportation, the Contractor shall give such prepaid notice of shipment to the consignee establishment, and to such other persons or installations designated by the Contracting Officer, as the Contracting Officer may require. If such instructions have not been received at least 24 hours prior to such delivery to a carrier, the Contractor shall request instructions from the Contracting Officer, concerning the notice of shipment to be given.

§ 803.329 *Variation in quantities clause.* In those cases where it is desired to accept over or under deliveries due to manufacturing processes, etc., contracts may contain a clause substantially as follows:

Variation in quantities. Unless otherwise specified, any variation in the quantities herein called for, not exceeding 10 per cent, will be accepted as a compliance with the contract, when caused by conditions of loading, shipping, packing, or allowances in manufacturing processes, and payments shall be adjusted accordingly.

§ 803.329a *"Changes" article.* In any case where it is desired to include in a supply contract a provision giving the contracting officer in addition to the powers set forth in § 813.1301 (Art. 2) a power by change order (a) to increase or decrease within stated percentage limits the quantity of articles called for by the contract or (b) to accelerate or reduce the rate of delivery of the articles in the quantity called for by the contract, the following article relating to changes may be used instead of the article set forth in § 813.1301 (Art. 2).

ARTICLE ——. *Changes.* The Contracting Officer may at any time, by a written order, and without notice to the sureties make changes of any one or more of the following types:—(a) changes in the directions as to shipment and packing of any supplies; (b) increases or decreases in the quantity of supplies to be furnished hereunder, the total increase or decrease not, however, to exceed ——% of the quantity of supplies deliverable hereunder; (c) changes in the drawings or specifications, where the supplies to be furnished are to be specially manufactured in accordance with drawings and specifications; (d) extensions of the delivery schedules hereunder reducing the rate of deliveries of the supplies called for by this contract; or (e) accelerations of the delivery schedules hereunder by an increase or increases in the rate of deliveries hereunder. Unless consented to in writing by the Contractor, no change orders hereunder of the type mentioned in clause (d) of the preceding sentence shall cause decreases in the deliveries hereunder, and no change orders of the type mentioned in clause (e) of such sentence shall cause increases in the deliveries called for hereunder, amounting respectively in the aggregate in any one month to more than ——% of the quantity of supplies, the delivery of which is called for in such month by the delivery schedule originally contained in this contract. If such changes cause an increase or decrease in the amount of work under this contract or in the cost of performance of this contract or in the time required for its performance an equitable adjustment shall be made which adjustment may include in any instance an adjustment (i) in the purchase price, including (but not limited to) any adjustment in unit price fair in the light of any change in volume caused by such order, and (ii) in the delivery time or schedule, or (iii) in either the price or delivery schedule and the contract shall be modified in writing accordingly. Any claim for adjustment under this article must be asserted within 30 days from the date the change is ordered: *Provided, however,* That the Contracting Officer, if he determines that the facts justify such action, may receive, consider and adjust any such claims asserted at any time prior to the date of final settlement of the contract. If the parties fail to agree upon the adjustment to be made the dispute shall be determined as provided in Article —— (Disputes) hereof. But nothing provided in this Article shall excuse the Contractor from proceeding with the contract as changed.

When the article set forth in § 813.1301 (Art. 2) is used, the fourth sentence of the article set out above beginning with the words "Any claim for adjustment • • •" may be used, at the discretion of the Contracting Officer, in lieu of the fourth sentence (beginning with the same words) of the article set forth in § 813.1301 (Art. 2). The provisions of clauses (d) and (e) of the first sentence of the foregoing article, or either of such clauses, may be omitted in the discretion of the Contracting Officer and, in the event of any such omission, the second sentence of the article will either be omitted or appropriately modified.

§ 803.329b *Adjustments under changes article in fixed price supply contracts.*

§ 803.329b–1 *General.* (a) The "Changes" article authorized for use in fixed-price supply contracts (see § 813.1301 (Art. 2) of this chapter) permits the contracting officer by a written order to make changes in the drawings or specifications, or in the requirements as to packing and shipment. The article authorized in § 803.329a may be used in supply contracts in lieu of that authorized in § 813.1301 (Art. 2) of this chapter in which event the contracting officer is also empowered to increase or decrease within stated limits the quantities called for by the contract or to accelerate or reduce the rate of deliveries. An equitable adjustment is to be made and the contract modified accordingly.

(1) If such changes cause an increase or decrease in the amount due under the contract or in the time required for its performance (§ 813.1301 (Art. 2)), or

(2) If such changes cause an increase or decrease in the amount of work under the contract or in the time required for its performance (§ 803.329a),

If the parties fail to agree the dispute is to be determined as provided in the Disputes article.

(b) The different types of changes which may be ordered will raise different

kinds of problems in effecting the equitable adjustment required. These are discussed in §§ 803.329b–2 to 803.329b–4, inclusive.

(c) Reference is made to § 803.398b with respect to analogous problems of adjustments of fixed-price subcontracts under cost-plus-a-fixed-fee prime contracts.

§ 803.329b–2 *Types of adjustments after a change order.* There are two types of adjustments either or both of which may be required to be made as the result of a change order:

(a) Adjustments attributable to increases or decreases in the unit costs for the balance of the contract as a result of the change order, including changes in the direct costs and in the amounts as well as the allocations of indirect expenses required for the performance of the balance of the contract;

(b) Adjustments attributable to the portion of the work done prior to the change order, including items such as work in process, materials or machinery no longer usable, and subcontract or purchase order cancellation charges.

It is important that the difference between these two types of charges be clearly understood and observed in order to avoid duplication of the expenses incurred by the Government. Ordinarily it is desirable that these two types of adjustments be kept distinct, although the results may be included in a single written instrument. From the standpoint of pricing such separation is particularly desirable, since including those adjustments which are attributable to work done prior to the change order in the adjustment of unit prices tends to distort the unit prices for the purpose of pricing continuation orders and other comparable contracts. Where the two types of adjustment mentioned in (a) and (b) above are not set out in a single instrument it is important that each instrument shall indicate that it accomplishes only a part of the "equitable adjustment" contemplated as a result of the change order.

§ 803.329b–3 *Adjustments attributable to the balance of the contract.* Efficient administration of the contract requires that the charges attributable to the change in unit costs as a result of the change order be determined and adjusted as quickly as possible in order that the contractor shall assume the same risks as he assumed in negotiating the original contract price. In effecting this adjustment, consideration must be given to the factors and principles relating to the negotiation of a new contract discussed in ASF Manual M–601 "Pricing in War Contracts", with particular attention to changes in the cost factors. Any necessary adjustment will in every case be reflected in an increase or decrease of the unit price of the items to be delivered after the change became effective. The claim for this type of adjustment is similar in nature to a claim asserted by a contractor under subparagraph (f) of the Uniform Termination Article (see e. g. § 803.324). Including this adjustment in a written agreement need not be delayed pending completion of the adjustment discussed in the next paragraph. In the event that the contract in question contains the optional price adjustment article set forth in § 803.373–5 or 803.373–6, consideration will be given to the desirability of a negotiation for price adjustment under that article in lieu of the adjustment described in this section.

§ 803.329b–4 *Adjustments attributable to the work before the change order.* (a) A claim for the adjustment of charges attributable to the work done prior to the effective date of the change order is similar in nature to a claim with respect to the uncompleted portion of the contract arising upon termination under the termination article (see e. g. § 803.324). In adjusting such charges the provisions of Subchapter C of this chapter are not controlling but may be used as a guide. The adjustment of this type of charge may be reflected in a lump sum payment and should normally be so reflected where substantial amounts are involved rather than reflected in the price of the article itself.

(b) In the event that the contractor includes in his claim the cost of any property which is rendered unusable by reason of the change order, the contracting officer must safeguard the interests of the Government by assuring that the value of such property is reflected in the adjustment made by reason of the change. Any excess inventory resulting from the change order should, if practicable, be dealt with and accounted for in conformity with Part 844 of this chapter. If title is to be taken by the Government, the agreement will provide clearly what is to be done with the property. The contracting officer will take all necessary action for prompt execution of the provisions of the supplementary agreement relating to property which is to be transferred to the Government.

(c) In view of section 3 (d) of the Contract Settlement Act and § 841.111–4 of this chapter the claim of a subcontractor under a fixed-price prime contract for work cancelled in whole or in part under circumstances which require the Government to bear the cost is a termination claim. The settlement of such a termination claim will be effected in accordance with the principles and under the procedures set out in Subchapter C of this chapter (see especially Part 846). Accordingly, in effecting the adjustments of the prime contract attributable to the work done prior to change order, the prime contractor will not be permitted to include estimated sums on account of the claims of his subcontractors. Instead he will be required to effect settlements of those claims before he may be paid therefor and to agree that any sums received on account of the settlement of the claims of his immediate subcontractors, which are not paid or credited to the immediate subcontractor within 10 days after receipt thereof, will be returned to the Government (see Article 3 of § 849.981–1 of this chapter).

§ 803.329b–5 *Adjustments of changes resulting in a reduction in quantity.* A reduction in the quantity to be delivered under the contract made pursuant to the "Changes" article set forth in § 803.329a constitutes a partial termination within the meaning of the Contract Settlement Act of 1944. The use of a "Changes" article to effect a reduction in quantity and the problems incident thereto are discussed in § 842.216 of this chapter. Attention, however, is directed to the importance of safeguarding the interest of the Government in property rendered unusable because of the reduction by securing title thereto or otherwise receiving credit for the value thereof.

§ 803.330 *Partial payments article when payments are not to exceed 75 per cent of cost of property.* In those cases where it is contemplated that partial payments in an amount not to exceed 75 per cent of the cost to the contractor of the property will be made, the contract will contain an article substantially as follows:

Partial payments. Partial payments, which are hereby defined as payments prior to delivery, on work in progress for the Government under this contract, may be made upon the following terms and conditions.

(a) The Contracting Officer may, from time to time, authorize partial payments to the Contractor upon property acquired or produced by it for the performance of this contract: *Provided,* That such partial payments shall not exceed 75 per cent of the cost to the Contractor of the property upon which payment is made, which cost shall be determined from evidence submitted by the Contractor and which must be such as is satisfactory to the Contracting Officer: *Provided further,* That in no event shall the total of unliquidated partial payments (see (c) below) and of unliquidated advance payments, if any, made under this contract, exceed 80 per cent of the total contract price of supplies still to be delivered.

(b) Upon the making of any partial payment under this contract, title to all parts, materials, inventories, work in process and non-durable tools theretofore acquired or produced by the Contractor for the performance of this contract, and properly chargeable thereto under sound accounting practice, shall forthwith vest in the Government; and title to all like property thereafter acquired or produced by the Contractor for the performance of this contract and properly chargeable thereto as aforesaid shall vest in the Government forthwith upon said acquisition or production: *Provided,* That nothing herein shall deprive the Contractor of any further partial or final payments due or to become due hereunder; or relieve the Contractor or the Government of any of their respective rights or obligations under this contract.

(c) In making payment for the supplies furnished hereunder, there shall be deducted from the contract price therefor a proportionate amount of the partial payments theretofore made to the Contractor, under the authority herein contained.

(d) It is recognized that property (including, without limitation completed supplies, spare parts, drawings, information, partially completed supplies, work in process, materials, fabricated parts and other things called for herein) title to which is or may hereafter become vested in the Government pursuant to this Article will from time to time be used by or be put in the care, custody or possession of the Contractor in connection with the performance of this contract. The Contractor, either before or after receipt of notice of termination at the option of the Government, may acquire or dispose of property to which title is vested in the Government under this Article, upon terms approved by the Contracting Officer, *Provided,* That, after receipt of notice of termination,

any such property that is a part of termination inventory may be acquired or disposed of only in accordance with the provisions of the termination article of this contract and applicable laws and regulations. The agreed price (in case of acquisition by the contractor) or the proceeds received by the contractor (in case of any other disposition), shall, to the extent that such price and proceeds do not exceed the unliquidated balance of partial payments hereunder, be paid or credited to the Government as the contracting officer shall direct; and such unliquidated balance shall be reduced accordingly. Current production scrap may be sold by the Contractor without approval of the Contracting Officer but the proceeds will be applied as provided in this subparagraph (d); *Provided*, That any such scrap which is a part of termination inventory may be sold only in accordance with the provisions of the termination article of this contract and applicable laws and regulations. Upon liquidation of all partial payments hereunder or upon completion of deliveries called for by this contract, title to all property (or the proceeds thereof) which has not been delivered to and accepted by the Government under this contract or which has not been incorporated in supplies delivered to and accepted by the Government under this contract and to which title has vested in the Government under this Article shall vest in the Contractor.

(e) The article of this contract captioned "Liability for Government Property" and any other provision of this contract defining liability for Government-owned property shall be inapplicable to property to which the Government shall have acquired title solely by virtue of the provisions of this Article. The provisions of this Article shall not relieve the Contractor from risk of loss or destruction of or damage to property to which title vests in the Government under the provisions hereof.

(f) If this contract (as heretofore or hereafter supplemented or amended) contains provision for Advance Payments, and in addition if at the time any partial payment is to be made to the Contractor under the provisions of this partial payments article any unliquidated balance of advance payments is outstanding, then notwithstanding any other provision of the Advance Payments Article of this contract the net amount, after appropriate deduction for liquidation of the advance payment, of such partial payment shall be deposited in the special bank account or accounts maintained as required by the provisions of the Advance payments Article, and shall thereafter be withdrawn only pursuant to such provisions.

§ 803.331 *Partial payments article when payments are not to exceed 90 per cent of direct labor and material costs.* In those cases where it is contemplated that partial payments in an amount not to exceed 90 per cent of the direct labor and material costs to the contractor will be made, the contract will contain an article substantially as follows:

Partial payments. Partial payments, which are hereby defined as payments prior to delivery, on work in progress for the Government under this contract, may be made upon the following terms and conditions.

(a) The Contracting Officer may, from time to time, authorize partial payments to the Contractor upon property acquired or produced by it for the performance of this contract: *Provided*, That such partial payments shall not exceed 90 per cent of the direct labor and direct material costs to the Contractor of the property upon which payment is made, which costs shall be determined from evidence submitted by the Contractor and which must be such as is satisfactory to the Contracting Officer; *Provided, further*, That in no event shall the total of unliquidated partial payments (see (c) below) and of unliquidated advance payments, if any, made under this contract, exceed 80 per cent of the contract price of supplies still to be delivered.

(b) (c) (d) (e) (f) [These subparagraphs are the same as similarly lettered subparagraphs of the article contained in § 803.330 of these procurement regulations].

§ 803.331a *Amendment of contracts containing partial payments article to include substance of paragraph (d) of partial payments article in § 803.330 or § 803.331.* Any contract which contains a partial payments article similar to that set forth in either § 803.330 or 803.331 but not containing the substance of subparagraph (d) of such article may be amended to include the substance of such subparagraph (d) in such partial payments article. The addition of such paragraph is considered to be of advantage to the Government as simplifying and expediting the transfer and disposition of property acquired for or used in the performance of a contract and it has been determined that the making of such amendments will facilitate the prosecution of the war. Authority is granted to the chief of each technical service to make or to authorize the making of such amendments pursuant to the First War Powers Act and Executive Order No. 9001.

§ 803.332 *Government owned facilities.* The following article is prescribed for inclusion in fixed or unit price contracts under which the contractor is to acquire or manufacture facilities for the account of the Government or the Government is to furnish facilities to the contractor, for use in connection with the contractor's work under the contract:

Government-owned facilities. (A) In connection with its work under this contract, the contractor shall, within the shortest practicable time, acquire or manufacture for the Government's account the facilities listed in Schedule "A" attached hereto, the estimated costs of which are therein stated. (With the prior written approval of the contracting officer as to their character and estimated costs, the contractor may substitute facilities similar to those listed in Schedule "A", in which event said Schedule will be modified accordingly.[1] Such facilities shall be installed by the contractor in its plant or plants, or, if approved in writing by the contracting officer, in the plants of subcontractors. The contractor shall insert provisions in all subcontracts under which such facilities are furnished to the subcontractors whereby there will be made applicable to the Government and the subcontractors substantially the same rights and obligations in respect to such facilities as are made applicable to the Government and the contractor under this Article.

(B) Upon inspection and acceptance of the facilities by the contracting officer, and upon the contractor's furnishing satisfactory evidence that it has made payment or incurred the costs as the case may be, the Government shall reimburse the contractor for the actual costs of Schedule "A" facilities approved by the contracting officer. The term "actual costs," as used in this Article, means the following:

(1) For facilities procured by the contractor from sources other than its own manufacture:

(a) The net invoice price to it of the facilities;

(b) The costs of transportation: *Provided*, That no costs of transportation shall be separately reimbursed when the invoice price reimbursed under (1) (a) hereof includes the costs of transportation;

(2) For facilities manufactured by the contractor:

(a) The net invoice price to it of all direct materials required in manufacture;

(b) The costs of transportation: *Provided*, That no costs of transportation shall be separately reimbursed when the invoice price reimbursed under (2) (a) hereof includes the costs of transportation;

(c) The costs to it of all direct labor required in manufacture;

(d) An amount equal to —— [2] per cent of item (2) (c) hereof as an allowance for all overhead and administrative expenses. The contractor represents, based on experience, that this amount does not include any element of profit, and represents no more than actual costs allocable to manufacture.

The contractor shall install all Schedule "A" facilities at no expense to the Government in addition to the contract price.[3]

(C) In the event the contracting officer shall determine, at any time prior to installation of any item of Schedule "A" facilities, that such item is not reasonably necessary for the performance of this contract, or any other contract for the performance of which the use of that item has been authorized pursuant to paragraph (E) (2) within the time allowed for such performance, he may by written order exercise one of the following options with respect to that item:

(1) If the contractor has made no binding commitment and incurred no expense therefor of a kind reimbursable hereunder as an actual cost: The contracting officer may eliminate the item from Schedule "A" and the Government shall be relieved of any liability therefor.

(2) If the contractor has made a binding commitment or incurred expense therefor of a kind reimbursable hereunder as an actual cost: The contracting officer may direct the contractor to stop all further work and the making of all further commitments thereon and eliminate the item from Schedule "A". In that event the contractor and the contracting officer will attempt to agree on an amount which will reasonably compensate the contractor for the actual cost incurred by him with regard to such eliminated item. If no such agreement is reached within thirty (30) days after the date of elimination (or within such longer period as may at any time be mutually agreed upon), the contractor will be paid an amount, if any, which together with all sums previously paid by the Government on account of the item, shall be sufficient to reimburse the contractor for expenses paid and the settlement of any obligation incurred by the contractor thereon. In lieu of reimbursing the contractor for the settlement of obligations, the Government, in the discretion of the contracting officer, may assume such obligations or any of them. In no event shall the aggregate of reimbursement on account of the item (and of all payments previously made) together with the amount of any obligations assumed, exceed the actual costs, as herein defined, expended or incurred thereon up to the time of such elimination. The contracting officer may permit the contractor to sell or retain at prices or on terms agreed to by the Government any materials, supplies, or work in process, and the proceeds of such sale, or such agreed prices, shall be paid or credited to the Government in such manner as the contracting officer may direct. Upon payment to the contractor pursuant to this subparagraph (2), title to all materials, supplies, work in process and other things for which payment is made (except such property as may be sold or retained as above provided) will vest in the Government (if title thereto has not already vested in the Government). The Government will also become entitled to any rights under any commitment which it may assume, or for the settlement of which it shall have reimbursed the contractor.

(3) The contracting officer may direct the diversion of the item, when it shall have been acquired or its manufacture shall have been completed, to the Government or to any person designated by the contracting officer. In that event the Government shall reimburse the contractor for the actual costs of the item in accordance with the provisions of paragraph (B) hereof, with appropriate adjustment in the amount of reimbursable transportation costs. Upon diversion, the item will be eliminated from Schedule "A".

The determination of the contracting officer that an item of Schedule "A" facilities is not reasonably necessary for the performance of this contract, or any other contract for the performance of which the use of that item has been authorized pursuant to paragraph (E) (2), within the time authorized for such performance, is subject to written appeal by the contractor within ten (10) days to ---------- or his (Chief of the Technical Service) duly authorized representative, whose decision thereon shall be final and conclusive upon the parties hereto. Pending this decision, the contracting officer shall not exercise any of the above options.

(D) Except with the prior written approval of the contracting officer for each such purchase, the contractor will not purhase any Schedule "A" facilities in which it had any property interest at any time after the commencement of negotiations for this contract.

(E) (1) Title to each item of Schedule "A" facilities shall vest in the Government immediately upon inspection and acceptance thereof by the contracting officer, or at such earlier time as the contracting officer may designate in writing. Such facilities shall be deemed personal property although they may be affixed to realty.

(2) The Government hereby grants to the contractor the right to use Schedule "A" facilities, without the payment of rental therefor, in connection with its work under this contract, and, subject to the written approval of the contracting officer and upon such terms as he may prescribe, in connection with any other work for which the Government and the contractor may heretofore have contracted, or may hereafter contract. (Where the Government, pursuant to this paragraph (E) (2), has granted to the contractor the right to use Schedule "A" facilities in connection with its work on any contract other than the contract of which this Article is a part, the contractor shall at any time, upon the request of the contracting officer, enter into suitable amendments of this Article or suitable separate agreements of lease of the facilities evidencing the terms upon which the facilities are then held.)

(F) (1) The contractor shall not be liable for loss or destruction of or damage to Schedule "A" facilities title to which has vested in the Government (a) caused by any peril while the facilities are in transit off the contractor's premises, or (b) caused by any of the following perils while the facilities are on the contractor's or subcontractor's or other premises or by removal therefrom because of any of the following perils:

Fire; lightning; windstorm, cyclone, tornado; hail; explosion; riot, riot attending a strike, civil commotion; vandalism and malicious mischief; aircraft or objects falling therefrom; vehicles running on land or tracks, excluding vehicles owned or operated by the contractor or any agent or employee of the contractor; smoke; sprinkler leakage; earthquake or volcanic eruption; flood, meaning thereby rising of rivers or streams; enemy attack or any action taken by the military, naval or air forces of the United States in resisting enemy attack.

The perils as set forth in (a) and (b) above are hereinafter called "excepted perils."

(2) The contractor represents that it is not maintaining and agrees that it will not hereafter maintain insurance (including self-insurance funds or reserves) covering loss or destruction of or damage to Schedule "A" facilities caused by any excepted peril, and represents that it is not including and agrees that it will not hereafter include in any price to the Government any charge or reserve for such insurance.

(3) Upon the happening of loss or destruction of or damage to Schedule "A" facilities caused by an excepted peril, the contractor shall communicate with the contracting officer and with the Loss and Salvage Organization now or hereafter designated by the contracting officer and, with the assistance of that organization employed by the contractor to perform services in accordance with instructions or regulations of the Government (unless the contracting officer directs that no such organization be employed), shall take all reasonable steps to protect the facilities from further damage, separate the damaged and undamaged facilities, put all the facilities in the best possible order, and furnish to the contracting officer a statement of: (a) the lost, destroyed and damaged facilities, (b) the time and origin of the loss, destruction or damage, (c) all known interests in commingled property of which the facilities are a part, and (d) the insurance, if any, covering any part of or interest in such commingled property. *If and as directed by the contracting officer, the contractor shall make repairs and renovations of the damaged facilities.*[4] The contractor shall be reimbursed the expenditures made by it in performing its obligations under this subparagraph (3) (including charges made to the contractor by the Loss and Salvage Organization, except any of such charges the payment of which the Government has, at its option, assumed direct), as approved by the contracting officer and set forth in a Supplemental Agreement.

(4) With the approval of the contracting officer after loss or destruction of or damage to Schedule "A" facilities, and subject to such conditions and limitations as may be imposed by the contracting officer, the contractor may, in order to minimize the loss to the Government or in order to permit resumption of business or the like, sell for the account of the Government any item of facilities which has been damaged beyond practicable repair, or which is so commingled or combined with property of others, including the contractor, that separation is impracticable.

(5) Except to the extent of any loss or destruction of or damage to Schedule "A" facilities for which the contractor is relieved of liability under the foregoing provisions of this paragraph (F), and except for reasonable wear and tear or depreciation, the facilities (other than facilities permitted to be sold) shall be returned by the contractor to the Government, or delivered by the contractor to any designee of the Government (at the time elsewhere in this Article provided) in as good condition as when received by the contractor in connection with this contract. In aid of its obligation so to return the facilities, the contractor shall, at its own expense, maintain a program for the proper use, care and maintenance of the facilities, as well as a property control and accounting system consistent with good business practice, and make repairs and replacements.

(6) In the event the contractor is indemnified, reimbursed or compensated for any loss or destruction of or damage to Schedule "A" facilities caused by an excepted peril, it shall equitably reimburse the Government. The contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such loss, destruction or damage and, upon the request of the contracting officer, shall at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

(7) Whenever any item of Schedule "A" facilities has become unserviceable (whether under circumstances which do or which do not render the contractor liable hereunder), the contractor shall notify the contracting officer, and it may then be required by the contracting officer to dismantle and prepare the item for shipment at no expense to the Government in addition to the contract price, whereupon the item shall be removed promptly by the Government at the Government's expense.

(G) Each item of Schedule "A" facilities shall be suitably marked with an identifying mark or symbol, indicating that such item is the property of the Government. Upon completion of the installation of such facilities, the contractor shall submit to the contracting officer a detailed inventory list including a description of the identifying mark or symbol on each item.

(H) The Government shall not be responsible for damages to property of the contractor or for personal injuries to the contractor's officers, agents, servants or employees, or other persons on the premises as invitees or licensees of the contractor, arising from or incident to the use of Schedule "A" facilities, and the contractor shall save the Government harmless from any and all such claims; *provided*, that nothing in this paragraph shall be deemed to affect any liability of the Government to its own employees.

[1] In appropriate cases the following language may be used in lieu of the sentence in the text enclosed in parentheses:

With the prior written approval of the contracting officer as to their character and estimated costs, the contractor may substitute facilities similar to those listed in Schedule "A", or the contractor may add additional facilities thereto, in which event said Schedule will be modified accordingly: *Provided, however*, That the actual costs reimbursed to the contractor pursuant to paragraph (B) below, for facilities listed in Schedule "A" or such similar facilities as the contractor may substitute therefor and such additional facilities as the contractor may add thereto, shall not exceed the sum of $----------.

[2] Insert a number or the word "no".

[3] If costs of installation are to be reimbursed to the contractor, delete this sentence and substitute the following:

"(3) For the installation of facilities acquired or manufactured hereunder, when effected by the servants, agents or employees of the contractor:

"(a) The net invoice price to it of all direct materials required for installation.

"(b) The costs of transportation: *Provided*, That no costs of transportation shall be separately reimbursed when the invoice price reimbursed under (3) (a) hereof includes the costs of transportation;

"(c) The costs to it of all direct labor required for installation;

"(d) An amount equal to —— [insert a number or the word "no"] per cent of item (3) (c) hereof as an allowance for overhead and administrative expenses. The contractor represents, based on experience, that this amount does not include any element of profit, and represents no more than actual costs allocable to installation.

"(4) For the installation of facilities acquired or manufactured hereunder, when effected by persons other than the servants, agents or employees of the contractor:

"(a) The net invoice price to it of the installation."

[4] Italicized language may be omitted in appropriate cases.

(I) The Government shall at all times have access to the premises wherein any Schedule "A" facilities are located.

(J) Except as otherwise in this Article specifically provided, the contractor shall not remove or otherwise part with the possession of any Schedule "A" facilities. The contractor shall not pledge or assign, or transfer or purport to transfer title to any of such facilities in any manner to any third person, either directly or indirectly, nor do or suffer anything to be done whereby any of such facilities shall or may be seized, taken in execution, attached, destroyed or injured. Any violation of the provisions of this paragraph or of paragraph (F) hereof shall entitle the Government forthwith to enter upon the premises wherein such facilities are found and remove the same.

(K) In the event the contracting officer shall determine, at any time after installation of any item of Schedule "A" facilities, that the item is not reasonably necessary for the performance of this contract or any other contract for the performance of which the use of such facilities has been authorized, he may serve on the contractor a written notice of his intention to remove such item. This determination is subject to written appeal by the contractor within ten (10) days to ---------- or his duly
(Chief of the Technical Service)
authorized representative, whose decision shall be final and conclusive upon the parties hereto. Pending this decision, the facilities shall remain in the contractor's plant available for use. At any time within one year after completion or termination in whole or in part of such contracts, the contracting officer may serve on the contractor a written notice of his intention to remove all the Schedule "A" facilities or any portion thereof. Within the shortest practicable time after service of a notice under this paragraph (K), and in no event later than fifteen days thereafter (unless a longer time is allowed by the contracting officer), the contractor, at no expense to the Government in addition to the contract price, will have dismantled and prepared for shipment the items affected. Upon notification from the contractor that the items are ready for shipment, the Government shall remove them at the Government's expense.

(L) If, upon the completion or termination of this contract or any other contract entered into between the Government and the contractor for the performance of which the use of Schedule "A" facilities has been authorized, no notice pursuant to paragraph (K) of intention to remove an item has been received, the contractor shall, at no expense to the Government in addition to the contract price, place the item in stand-by condition, and thereafter maintain it in such condition in its own plant for a period of ninety (90) days from the date of such completion or termination (unless a notice pursuant to paragraph (K) is received in the meantime). In lieu of placing the item in stand-by condition and maintaining it in its own plant, the contractor may store the same elsewhere at its own expense provided that the item can be quickly and readily reinstalled in the production line and production resumed within a reasonable time if necessary in the interest of the Government.

(M) Unless a notice pursuant to paragraph (K) is sooner received, the contractor shall, for a period of nine (9) months after completion of the stand-by period, store the items affected as follows:

(1) In the plant where the items are then located, or in the contractor's other plants in the same locality, if space is available thereat and storage will not materially impair the use of the plant or plants for the contractor's Government or commercial work; or

(2) If space is not available at such plant or plants or storage thereat will materially impair their use by the contractor, then at any other place or places in the vicinity selected by the contractor which are considered satisfactory by the contracting officer. However, the contractor's obligation to store under this subparagraph (2) shall cease if such other place or places cannot be obtained by the contractor, unless the Government shall itself find and designate a place or places of storage.

At the time the items are placed in storage, whether in the contractor's plant or elsewhere, the parties shall attempt to negotiate a Supplemental Agreement to this contract providing for payment to the contractor of a sum or sums agreed upon as representing the reasonable expenses of placing and maintaining the items in storage. In the absence of such agreement, the contractor shall be entitled to receive payment, under this contract, of such reasonable expenses. The contractor's obligation in respect to storage shall be contingent upon the availability of appropriated funds for payment of such reasonable expenses, and if appropriated funds are not available, the contractor shall be under no such obligation. The items affected shall have been dismantled and prepared for shipment, at no expense to the Government in addition to the contract price, within fifteen days after the expiration of the storage period, or, if no storage obligation arises, then within fifteen days after the expiration of the stand-by period (unless a longer time is allowed by the contracting officer). Upon notification from the contractor that the items are ready for shipment, the Government shall remove them at the Government's expense.

(N) The ninety (90) day stand-by period, and the nine (9) month storage period, may be eliminated, shortened or lengthened by agreement of the parties on mutually agreeable terms.

(O) [1] The Government reserves the right to furnish to the contractor f. o. b. the contractor's plant any or all the items of Schedule "A" facilities upon written notice by the contracting officer to the contractor at any time prior to the installation of such items. In such event the contracting officer shall exercise the option described in paragraph (C) (1) or (C) (2) with respect to the item, eliminate it from Schedule "A", and place it on the list of Schedule "B" facilities hereinafter provided for.

(P) [2] The Government shall furnish to the contractor f. o. b. the contractor's plant, the Government-owned facilities listed in Schedule "B" attached hereto, not later than the dates shown thereon. Subject to the right of the contractor to inspect and reject Schedule "B" facilities for good and sufficient reason prior to shipment, the contractor shall receive the same in their then condition, without warranty express or implied on the part of the Government as to serviceability or fitness for use. The contractor shall bear the costs of installation of such facilities.[3] Schedule "B" facilities shall be held by the contractor and considered and treated in the same manner as Schedule "A" facilities under and pursuant to [1] paragraphs (E) (2) and (F) to (N) inclusive of this article.

(Q) [3] The contractor has in its possession, installed and ready for use under this contract, the facilities listed in Schedule "C", title to which is in the Government. Such facilities shall be held by the contractor and considered and treated in the same manner as Schedule "A" facilities under and pursuant to paragraphs (E) (2) and (F) to (N) inclusive of this article. Any previous agreement to the contrary is hereby modified accordingly.

NOTE 1: See §§ 803.365–1a, 804.451–1, 804.493 and 827.723, and Part 810.

NOTE 2: Where it is determined that a rental should be charged (see § 810.1002) paragraph (E) (2) of the article should be appropriately modified.

NOTE 3: Attention is invited to the fact that Government bills of lading (or commercial bills of lading to be converted into Government bills of lading at destination) may be availed of to secure the benefits of land grant freight rates where title to the facilities or parts thereof is in the Government at point of origin (see paragraphs (E) (1) and (B)).

NOTE 4: In cases where facilities are hereafter to be acquired or manufactured by, or furnished by the Government to, a contractor, a clause may be included granting an option to the contractor to purchase the facilities, provided the chief of the technical service finds that such action will be in the interest of the Government. (The power to make this finding is *not* subject to delegation by the chief of the technical service, unless the Director, Purchases Division, Headquarters, Army Service Forces, specifically authorizes a delegation.) In such cases, unless otherwise authorized by the Director, Purchases Division, Headquarters, Army Service Forces, the option will contain the following features:

(i) The option will come into effect only upon the date of expiration of the standby-plus-storage period, and will cover all, but not part of, the facilities as to which a standby obligation arose and as to which no notice under paragraph (K) of intention to remove has been served upon the contractor during the standby-plus-storage standby period.

(ii) The option period will extend for not more than fifteen days after the date specified in Note 4 (i).

(iii) The option price will be the full cost of the facilities to the Government (including transportation and installation charges) less specified rates of depreciation, plus storage charges incurred under paragraph (M).

NOTE 5: Amendments may be made of existing contracts, substituting the article above set forth (or pertinent portions thereof) for provisions regarding Government-owned facilities now appearing in such contracts, subject to the following:

(i) Uniformity of treatment is considered essential. Accordingly, authority to make these amendments will not be exercised until the technical service concerned apprises all its contractors holding Government-owned facilities of the promulgation of the article above set forth and specifically informs them that they may negotiate with the Government for amendment of their contracts.

(ii) Government negotiators must recognize that contractors will typically derive substantial benefits from these amendments. For example, under the article above set forth the standby period is ninety days and storage is at Government expense, while under the article previously authorized the standby period was one year, and storage expenses were not chargeable to the Government. In general, the article above set forth facilitates the conversion of plants. Accordingly, amendments of existing contracts will be permitted only where the Government receives material and adequate consideration, measured by any difference in value to the contractor between the superseded article and the article inserted by amendment.

(iii) Except with the approval of the chief of the technical service concerned, no amendment will be permitted of an existing Government-owned facilities article which includes a purchase option, unless, as part of the amendment, the purchase option is modified to include the features mentioned in Note 4 (i), (ii) and (iii) above. (The power to give such approval is *not* subject to delegation by the chief of the technical service, unless the Director, Purchases Division, Headquarters, Army Service Forces, specifically authorizes a delegation.) The approval of the Director, Purchases Division, Headquarters, Army Service Forces, will be obtained before any existing Government-owned facilities article which does not include a purchase option, is amended to grant such option.

(iv) The technical services will maintain close supervision of all amendments under this Note 5 and will require adequate records to be prepared and preserved of the negotiations leading to the amendments.

NOTE 6: In the event that the facilities are located in an area outside the United States, where the services of the Loss and Salvage Organizations and not available, the following clause will be used in lieu of paragraph (F) (3) above:

"Upon the happening of loss or destruction of or damage to Schedule "A" facilities caused by an excepted peril, the contractor shall communicate with the contracting officer, shall take all reasonable steps to protect the facilities from further damage, separate the damaged and undamaged facilities, put all the facilities in the best possible order, and furnish to the contracting officer a statement of: (a) the lost, destroyed and damaged facilities, (b) the time and origin of the loss, destruction or damage, (c) all known interests in commingled property of which the facilities are a part, and (d) the insurance, if any, covering any part of or interest in such commingled property. *If and as directed by the contracting officer, the contractor shall make repairs and renovations of the damaged facilities.* [Italicized words may be omitted in appropriate cases.] The contractor shall be reimbursed the expenditures made by it in performing its obligations under this subparagraph (3) as approved by the contracting officer and set forth in a Supplemental Agreement."

§ 803.334 *Records of Government-owned property: contract clause.* All contracts, in connection with which property or supplies of any kind owned by the United States are furnished to a contractor for use on the contract or as guides, samples, etc., will contain the following clause without deviation:

Records of Government-owned property. The property officer, ----------, is designated as the officer to maintain the necessary property records in connection with this contract.

§ 803.335 *Patent provisions.* The patent articles set forth in §§ 803.335–1 to 803.335–8, inclusive, are for use in accordance with the policy and discretion set forth in §§ 811.1116, 811.1117 and 811.1118.

§ 803.335–1 *License under foreground patents.* Where it is proper in a development contract (see §§ 811.1116–1 to 811.1116–7, inclusive) to require the contractor to grant the Government a license under foreground patents, the appropriate contract article is as follows:

ARTICLE ... *Patent rights.* (1) Where used in this Article, and not elsewhere in this contract, the expression "Subject Invention" means each invention, improvement and discovery (whether or not patentable) conceived or first actually reduced to practice in the performance of this contract, including any subcontract hereunder, or in the performance of any research or development work relating to the subject-matter hereof which was done upon the understanding that this contract or any subcontract hereunder would be awarded; the expression "Technical Personnel" means each person employed by or working under the direction of Contractor or any subcontractor hereunder who, by reason of the nature of his duties in connection with the performance of this contract, or any subcontract hereunder, would reasonably be expected to make inventions; and the expression "Contractor's Patent Rights" means all patents and applications for patent, under which Contractor now has or may hereafter acquire the right to grant a license, to the extent that they are based upon the disclosure of inventions other than a Subject Invention.

(2) Contractor agrees to and does hereby grant to the Government an irrevocable, non-exclusive, non-transferable and royalty-free license to practice, and cause to be practiced for the Government, throughout the world, each Subject Invention in the manufacture, use and disposition according to law of any article or material, and the use of any method: *Provided, however,* That as respects any Subject Invention made by others than Technical Personnel, and as respects the practice of any Subject Invention in foreign countries, the said license shall be to the extent of Contractor's right to grant the same: *And provided further,* That nothing contained in this sentence shall be deemed to grant a license under Contractor's Patent Rights. Contractor agrees (i) to deliver to the Contracting Officer or his designee, promptly and in any event prior to final settlement, a complete written disclosure of each Subject Invention which reasonably appears to be patentable and, as to each such invention, to exert its best efforts to effect such delivery within six months after first publication, public use or sale; (ii) to designate, at the time of such delivery, whether or not said invention has been or will be claimed in a patent application, and to file or cause to be filed in due form and time an application covering each such invention affirmatively so designated; (iii) to furnish to the Contracting Officer or his designee, on request, copies or an irrevocable power to inspect and make copies of each patent application filed by or on behalf of the Contractor covering any Subject Invention; (iv) to deliver to the Contracting Officer or his designee, duly executed, such instruments of assignment, application papers and rightful oaths, prepared by the Government, as the Contracting Officer or his designee deems necessary to vest in the Government (but, as to any Subject Invention made by others than Technical Personnel, only to the extent of Contractor's right to do so) the sole and exclusive ownership in, and the right to apply for and prosecute patent applications covering, each Subject Invention which Contractor does not affirmatively designate as aforesaid (subject however to the reservation of a personal, non-exclusive and royalty-free license thereunder to Contractor); and (v) to deliver to the Contracting Officer or his designee, duly executed, such instruments of license, prepared by the Government, confirmatory of any license rights herein agreed to be granted to the Government, as the Contracting Officer or his designee may require.

(3) Contractor agrees to and does hereby grant to the Government the right to reproduce, use and disclose for any governmental purpose all or any part of the reports, drawings, blueprints, data and technical information to be delivered by Contractor to the Government under this contract: *Provided, however,* That nothing contained in this sentence shall be deemed to grant a license under any patent now or hereafter issued.

§ 803.335–2 *License under foreground and background patents.* Where it is proper in a development contract (see § 811.1116–8 to 811.1116–10, inclusive) to require the contractor to grant the Government a license under foreground and background patents, the appropriate contract article is as follows:

ARTICLE ... *Patent rights.* (1) Where used in this Article and not elsewhere in this contract, the expression "Subject Invention" means each invention, improvement and discovery (whether or not patentable) conceived or first actually reduced to practice in the performance of this contract, including any subcontract hereunder, or in the performance of any research or development work relating to the subject-matter hereof which was done upon the understanding that this contract or any subcontract hereunder would be awarded; the expression "Technical Personnel" means each person employed by or working under the direction of Contractor or any subcontractor hereunder who, by reason of the nature of his duties in connection with the performance of this contract, or any subcontract hereunder, would reasonably be expected to make inventions; and the expression "Contractor's Patent Rights" means all patents and applications for patent, under which Contractor now has or may hereafter acquire the right (without obligation to make payment to others) to grant the license hereinafter set forth, to the extent that they are based upon the disclosure of inventions (other than a Subject Invention) which relate to or are useful in connection with the manufacture or use of the subject-matter of this contract.

(2) Contractor agrees to and does hereby grant to the Government an irrevocable, non-exclusive, non-transferable and royalty-free license to practice, and cause to be practiced for the Government, throughout the world, (a) each Subject Invention in the manufacture, use and disposition according to law of any article or material, and the use of any method: *Provided, however,* That as respects any Subject Invention made by others than Technical Personnel, and as respects the practice of any Subject Invention in foreign countries, the said license shall be to the extent of Contractor's right to grant the same; and (b) each invention covered by Contractor's Patent Rights in the manufacture, use and disposition according to law of any and all ----------
and parts thereof of the type made or developed in the performance of this contract or any subcontract hereunder, and any modification or improvement thereof, but acceptance or exercise of said license shall not estop the Government at any time to contest the enforceability, validity or scope of, or the title to, any patent so licensed. Contractor agrees (i) to deliver to the Contracting Officer, or his designee, promptly and in any event prior to final settlement, a complete written disclosure of each Subject Invention which reasonably appears to be patentable and, as to each such invention, to exert its best efforts to effect such delivery within six months after first publication, public use or sale; (ii) to designate, at the time of such delivery, whether or not said invention has been or will be claimed in a patent application, and to file or cause to be filed in due form and time an application covering each such invention affirmatively designated as aforesaid; (iii) to furnish to the Contracting Officer or his designee, on request, copies or an irrevocable power to inspect and make copies of each patent application filed by or on behalf of the Contractor covering any Subject Invention; (iv) to deliver to the Contracting Officer or his designee, duly executed, such instruments of assignment, application papers and rightful oaths, prepared by the Government, as the Contracting Officer or his designee deems necessary to vest in the Government (but, as to any Subject Invention made by others than Technical Personnel only to the extent of Contractor's right to do so) the sole and exclusive ownership

[1] Delete if inapplicable.

[2] If such costs are to be reimbursed to the contractor, make appropriate changes (see paragraphs (B) (3) (a) (c) (d) and (B) (4) (a) above).

[3] Insert "subparagraphs (1) and (3 of paragraph (C) and" if contractor is to be reimbursed the costs of installation of Schedule "B" facilities.

in, and the right to apply for and prosecute patent applications covering, each Subject Invention which Contractor does not affirmatively designate as aforesaid (subject however to the reservation of a personal, nonexclusive and royalty-free license thereunder to Contractor); and (v) to deliver to the Contracting Officer or his designee, duly executed, such instruments of license, prepared by the Government, confirmatory of any license rights herein agreed to be granted to the Government, as the Contracting Officer or his designee may require.

(3) Contractor agrees to and does hereby grant to the Government the right to reproduce, use and disclose for any governmental purpose all or any part of the reports, drawings, blueprints, data and technical information to be delivered by Contractor to the Government under this contract; *Provided, however,* That nothing contained in this sentence shall be deemed to grant a license under any patent now or hereafter issued.

§ 803.335–3 *Title to foreground patents.* Where it is proper in a development contract (see §§ 811.1116–11 and 811.1116–12) to require the contractor to assign to the Government title to foreground patents, the appropriate contract article is as follows:
